Authors

Emerson Victoria Johnston is a research assistant with the Hoover Institution's Technology Policy Accelerator. A Knight-Hennessy Scholar, she holds a master's in international policy from Stanford University, and is on leave from its master's program in the history of science, technology, environment, and medicine.

Dr. Amy Zegart is the Morris Arnold and Nona Jean Cox Senior Fellow at the Hoover Institution, director of Hoover's Technology Policy Accelerator, and a senior fellow and associate director at Stanford University's Institute for Human-Centered Artificial Intelligence.

Data come from the Integrated Postsecondary Education Data System (IPEDS), the Department of Homeland Security's SEVIS by the Numbers, the National Assessment of Educational Progress, NSF's Survey of Graduate Students and Postdoctorates and Survey of Earned Doctorates, the Department of Labor's Office of Foreign Labor Certification, the USCIS H-1B Employer Data Hub, the Census Bureau's American Community Survey and USPTO patent data via PatentsView, processed in Python; every figure and table is generated from those sources, and each one names its source.

About This Profile

This profile is a companion to *The 2026 US Talent Report: Benchmarking America's STEM Pipeline Amid the Great Talent Competition*. It applies the report's measures to Colorado: the students the state develops at home, those it draws from abroad, and how both compare with the nation and with the states closest to it in size.

Degrees, enrollment, prices, outcomes and faculty come from IPEDS, the federal census of U.S. colleges and universities, harmonized across 1980–2025. Countries of citizenship come from SEVIS by the Numbers, the Department of Homeland Security's monthly count of active F-1 and M-1 students. Each figure names its source. Peer states are the four closest in total fall enrollment.

Public Data and Tools

The data behind every chart come from federal sources: the Integrated Postsecondary Education Data System (IPEDS), published by the National Center for Education Statistics, as the backbone, together with NAEP, NSF's surveys of graduate students, doctorates and research funding, USAspending.gov, DHS and ICE SEVIS data, the Department of Labor, USCIS, the Census Bureau's American Community Survey and Post-Secondary Employment Outcomes, and USPTO PatentsView. Each figure names its source, and the Sources page lists all of them. An interactive version of this profile accompanies the report.

AT A GLANCE

What Colorado's numbers say

1. **International students earn 24% of Colorado's STEM master's degrees,** 28.3 points below the U.S. (52%) in 2025, ranking 43rd of 51 on dependence. The share is 21% for STEM research doctorates (U.S. 43%) and 3.2% for STEM bachelor's (U.S. 6.6%).
2. **Colorado awarded 995 STEM master's degrees to international students in 2025,** 0.9% of the U.S. total and 26th of 51 among states. Since 2015 the count changed +76%, against 2.2× nationally.
3. **The heaviest dependence is in computer & info sciences,** where international students earned 35% of master's degrees (1.39K degrees; U.S. 65%). No STEM field with at least 50 master's graduates are majority-international.
4. **Among states of similar size,** Colorado ranks 5th of 5 on the international share of STEM master's: Colorado 24%, Maryland 31%, New Jersey 49%, Missouri 83%, Minnesota 51%.
5. **70% of Colorado's first-time students in fall 2024 were state residents** and 0.9% came from abroad. More students arrived from other states (13.7K) than residents left (13.5K), a net gain of 229; the top destination for those leaving was Arizona.

24%

of the STEM master's degrees Colorado awards go to international students (U.S. 52%).

SECTION 1

International Dependence

Colorado ranks 43rd of 51 on the international share of STEM master's, at 24% in 2025 against 52% for the U.S.

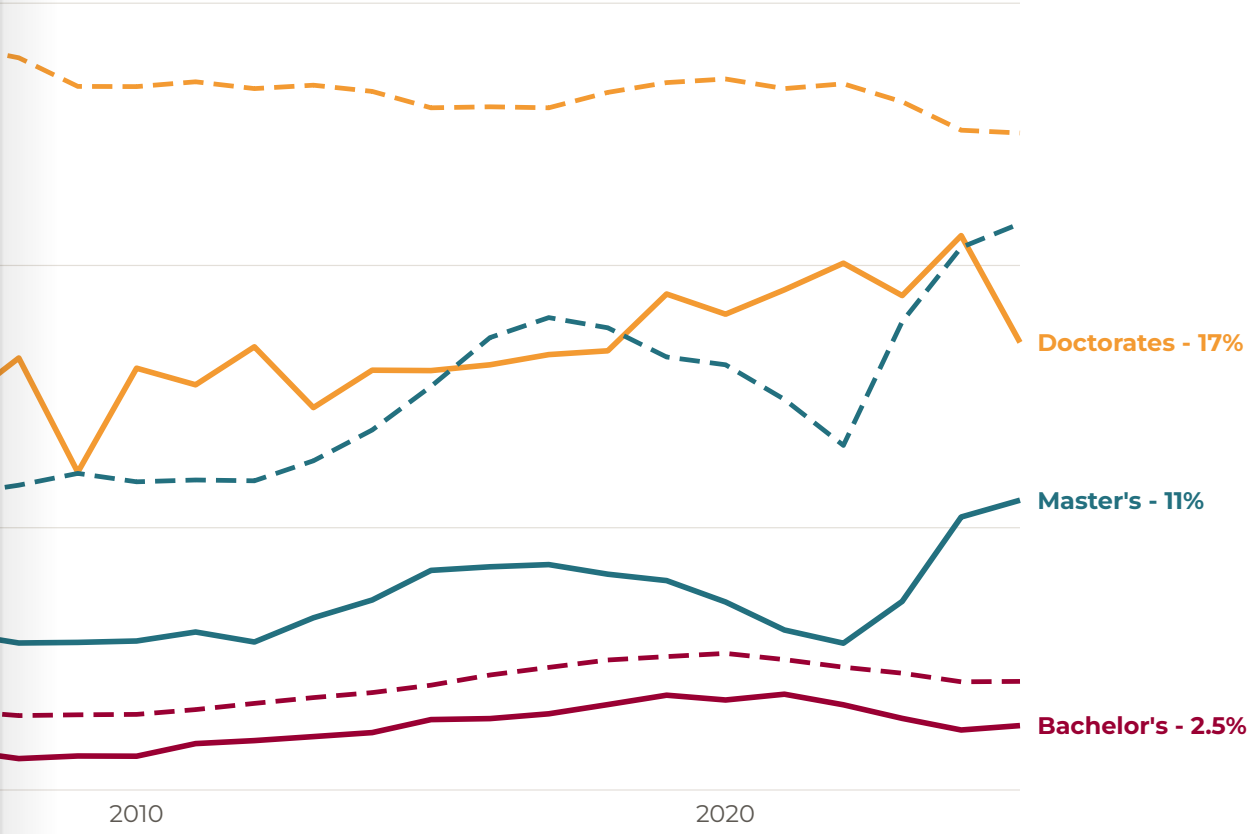

Figure 1 What Share of Colorado's Degrees Go to International Students?

International share of degrees awarded, all fields; state solid, U.S. dashed. Data from NCES, IPEDS Completions, 1985–2025

International students make up 9.3% of Colorado's graduate enrollment and 2.0% of its undergraduates. Dependence climbs with each degree: 2.5% of bachelor's, 11% of master's and 17% of research doctorates go to international students.

In STEM the shares are higher still: 3.2% of STEM bachelor's, 24% of STEM master's and 21% of STEM doctorates. The state awards 0.9% of all U.S. international STEM master's, 26th of 51.

SECTION 1 · INTERNATIONAL DEPENDENCE

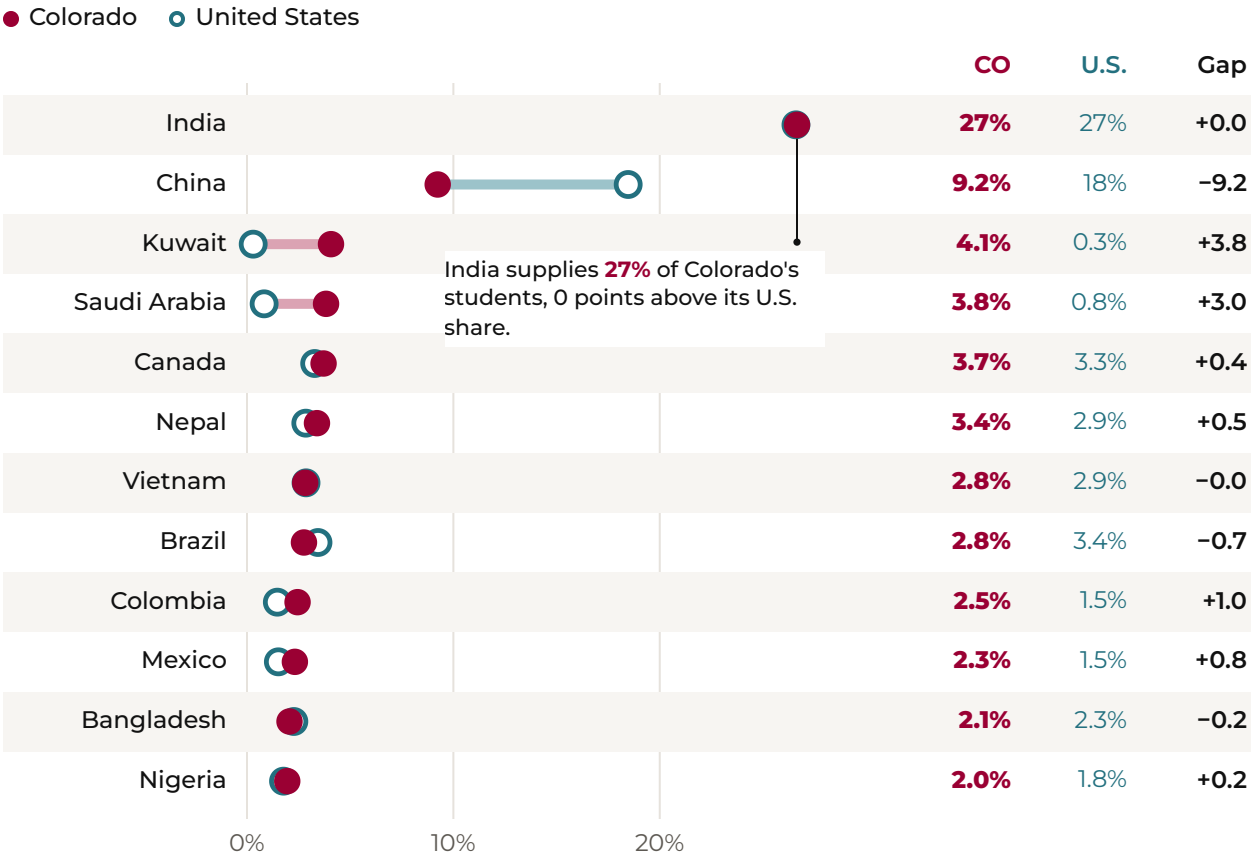

How Does Colorado's Mix of Countries Compare With the Nation's?

In October 2026, Colorado had **9.26K** active F-1 and M-1 students, 30th among the 50 states and DC and **0.8%** of the U.S. total. They came from 160 countries.

India supplied **27%** of them, against 27% nationally, and China **9.2%**, against 18%. Kuwait (4.1%), Saudi Arabia (3.8%), and Canada (3.7%) followed.

Together the two largest countries supplied **36%** of the state's international students (U.S. 45%), 30th among the states, against 42% in 2015.

Figure 3 Is Colorado's Mix of Countries Like the Nation's?

	CO	U.S.	Gap
India	27%	27%	+0.0
China	9.2%	18%	−9.2
Kuwait	4.1%	0.3%	+3.8
Saudi Arabia	3.8%	0.8%	+3.0
Canada	3.7%	3.3%	+0.4
Nepal	3.4%	2.9%	+0.5
Vietnam	2.8%	2.9%	−0.0
Brazil	2.8%	3.4%	−0.7
Colombia	2.5%	1.5%	+1.0

The state's count is down 8.8% from 2025 and down 29% since 2015, when it stood at 13K. Its share of all U.S. international students is down 0.3 points since 2015, to **0.8%**.

Since 2015, the number of students from India went from 1.65K to 2.47K, China's from 3.72K to 856, and Kuwait's from 341 to 377.

Over the same years, the number from Saudi Arabia went from 1.7K to 355 and Canada's from 241 to 344. The table gives each country's count for the first, previous and latest years.

Table 1 International Students in Colorado, 2015–2026

	2015	2025	2026	Change since 2015	U.S. 2026	Rank

Active F-1 and M-1 students, one fall snapshot per year (the month closest to November; 2019 has none; the latest year is October 2026). Rank among the 50 states and DC. Data from DHS, SEVIS by the Numbers.

Figure 4

Which Countries Supply Colorado's International STEM Students?

6.83K of Colorado's international students were in STEM fields in October 2026, **74%** of the total against 63% nationally, up 26% since 2015.

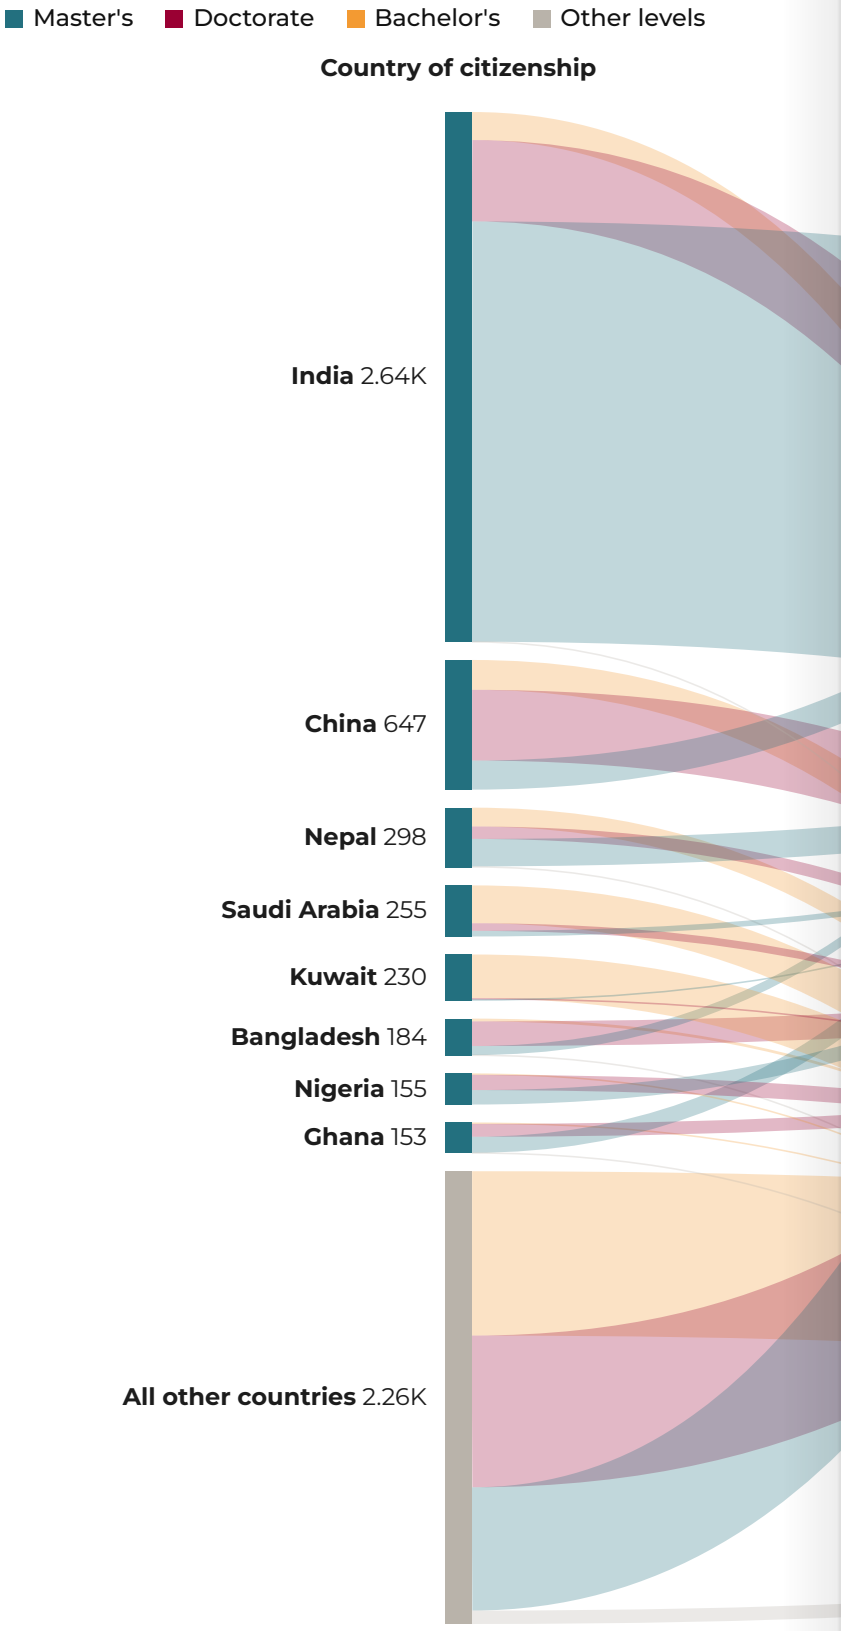

Master's students were the largest group, **3.23K**. India supplied 65% of them and China 4.5%.

STEM doctoral students went from 1.31K in 2015 to **1.88K**, and STEM master's students from 2.01K to 3.23K.

d level of study, October 2026; the eight largest countries are shown. DHS does not draw its STEM pages on the same evel count for India (2.64K against 2.47K). Data from DHS, SEVIS by the Numbers, October 2026.

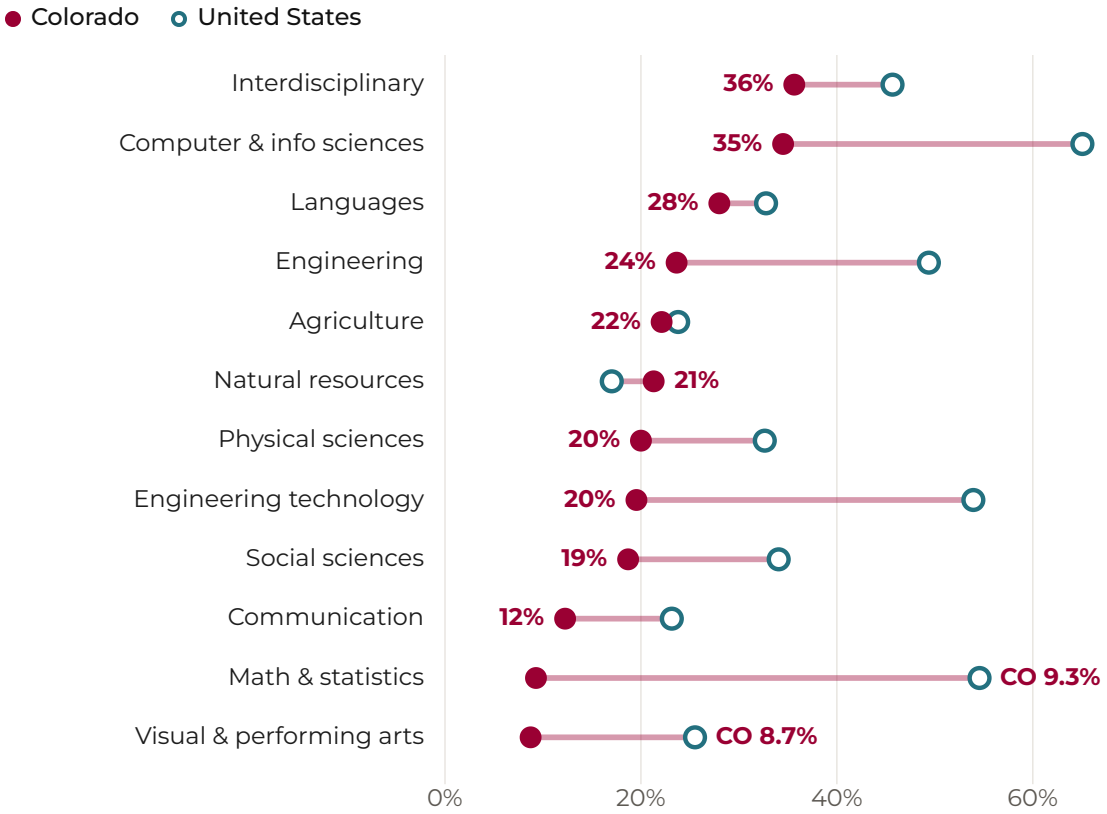

SECTION 1 · INTERNATIONAL DEPENDENCE

How International Are Colorado's Master's Fields?

Each row is a master's field with at least 30 graduates in Colorado in 2025, ranked by the share of degrees earned by international students (U.S. nonresidents on temporary visas). The filled dot is the state's share; the open dot is the national share for the same field.

Highest international shares. International students earned the largest shares of master's degrees in interdisciplinary (36%, against 46% for the U.S.), computer & info sciences (35%, against 65% for the U.S.), and languages (28%, against 33% for the U.S.).

Figure 5 Which Master's Fields Depend Most on International Students?

International share of master's degrees by field, 2025; fields with 30+ graduates. Data from NCES, IPEDS Completions.

11%
Int. share of all master's, 2025
U.S. **22%** · **38th** of 51

24%
Int. share of STEM master's, 2025
U.S. **52%** · **43rd** of 51

35%
Int. share of CS master's, 2025
U.S. **65%** · **40th** of 47

The table gives the international share of degrees in each STEM field at three levels: Colorado first, the United States after the slash. The master's column is highlighted. A dash means the state awarded no degrees in the field at that level.

Highest international share among STEM master's fields. International students earned 35% of the master's degrees in computer & info sciences, against 65% for the U.S.

Table 2 How International Is Each STEM Field?

Field	Bachelor's	Master's	Doctorates
Computer & info sciences	3.4% / 8.6%	**35% / 65%**	30% / 56%
Engineering	5.1% / 7.2%	**24% / 49%**	27% / 55%
Engineering technology	1.1% / 4.5%	**20% / 54%**	– / 42%
Math & statistics	3.8% / 17%	**9.3% / 55%**	17% / 53%
Physical sciences	3.6% / 6.0%	**20% / 33%**	20% / 38%
Biological sciences	1.5% / 3.4%	**4.7% / 23%**	10% / 23%
Natural resources	1.5% / 2.0%	**21% / 17%**	– / 27%
Architecture	1.9% / 7.3%	**2.2% / 29%**	– / 55%

International share in Colorado / U.S., 2025. Data from NCES, IPEDS Completions.

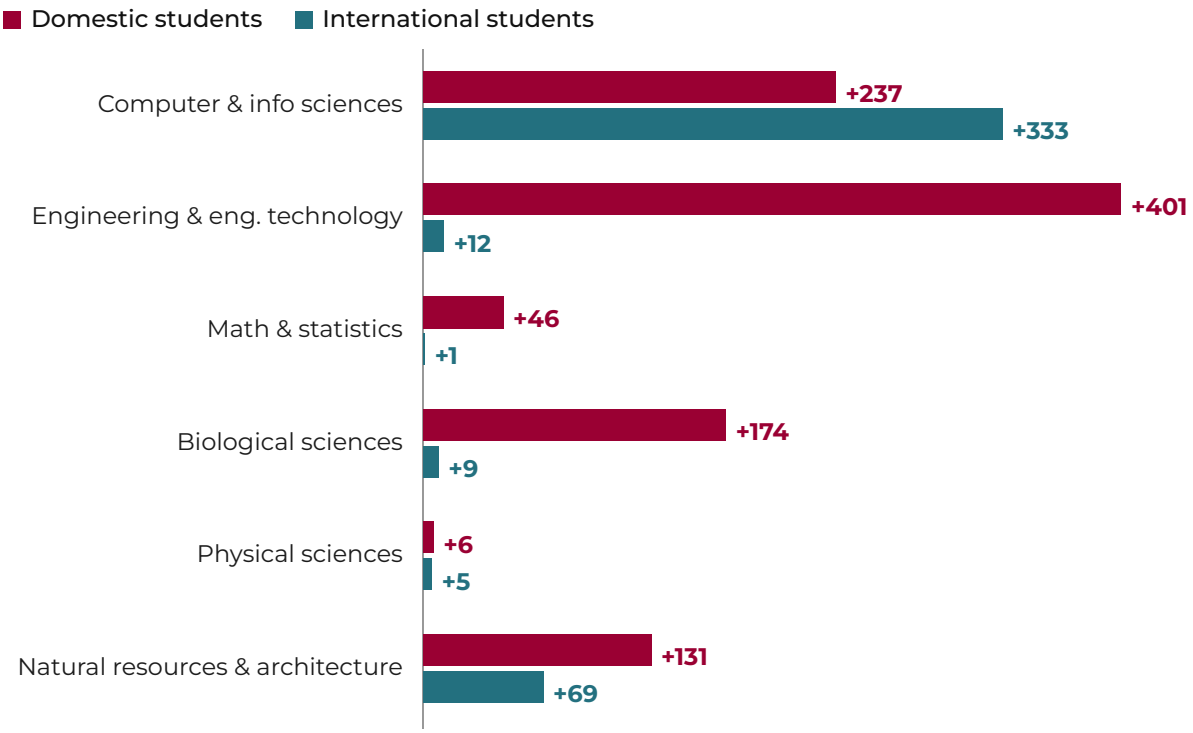

SECTION 1 · INTERNATIONAL DEPENDENCE

How Has Colorado's STEM Master's Output Grown?

Each pair of bars is the change in the number of STEM master's degrees awarded in Colorado between 2015 and 2025 in one field: to domestic students (U.S. citizens and permanent residents) and to international students. Bars to the left of the axis are declines.

STEM master's degrees. The state awarded 4.19K in 2025 and 2.76K in 2015, a change of +429 for international students and +995 for domestic students.

Figure 6 Where Did the STEM Master's Growth Come From?

Change in STEM master's degrees by field, 2015–2025. Data from NCES, IPEDS Completions.

Students and Postdoctorates.

In 2016, the last year NSF published state tables, 22% of Colorado's science and engineering graduate students held temporary visas (U.S. 39%; 47th of 51).

Among postdoctoral researchers, the share was 28% (U.S. 56%). Postdocs are the stage of research training most dependent on international talent, and IPEDS does not count them.

The state's institutions awarded 1.24K research doctorates in 2025, 2.1% of the U.S. total (Data from NSF NCSES, Survey of Earned Doctorates; NSF publishes doctorates by citizenship only for the nation).

SECTION 6

Do Graduates Stay?

Colorado ranks 12th of 33 on the share of bachelor's graduates working in the state 1 year after graduating, at 72% in 2019 against 72% for the U.S.

Figure 16 How Many of Colorado's Graduates Go On to Work in the State?

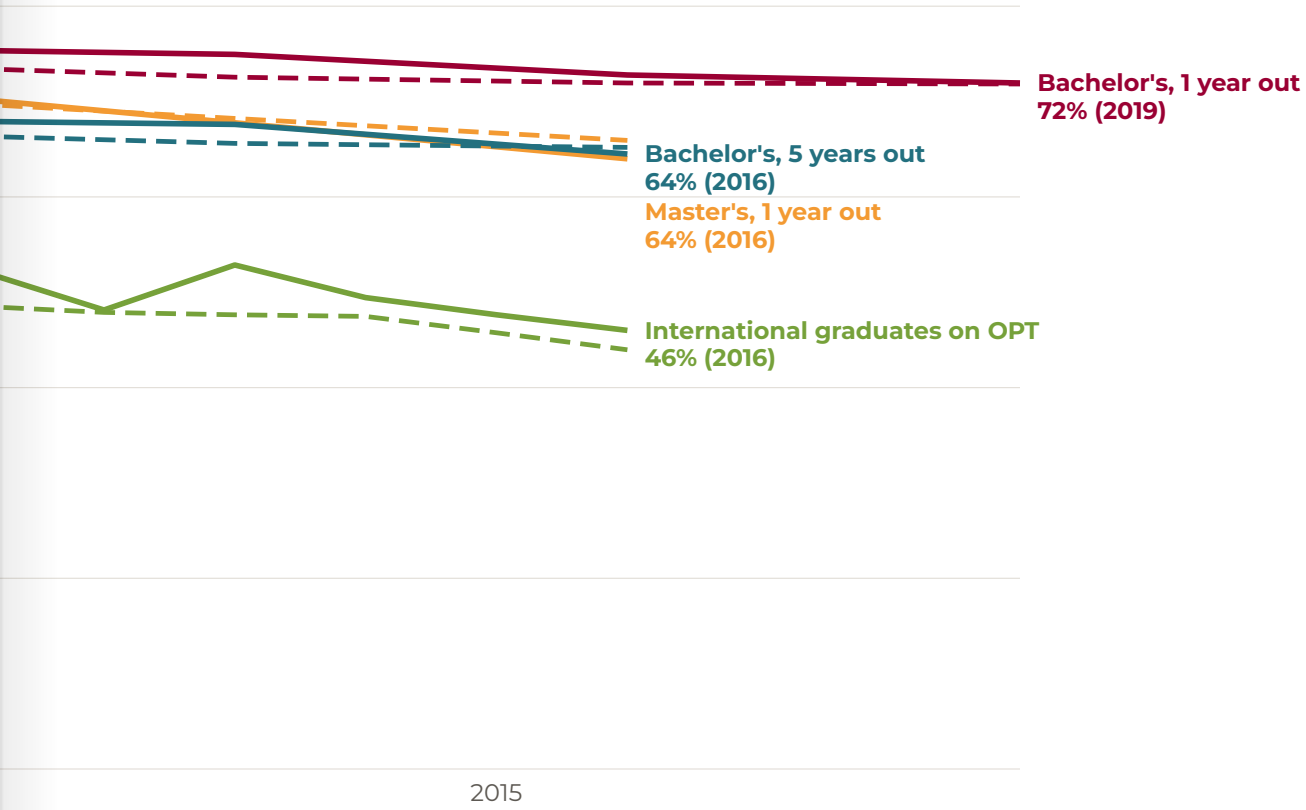

Share of employed graduates working in the state of their institution, by graduating cohort (Data from U.S. Census Burea state where they studied (Data from ICE, SEVIS FOIA releases; shares only, the file is truncated). State solid, U.S. or particip

Of Colorado's bachelor's graduates who were working a year after graduating, 72% worked in the state (participating states 72%). Five years out the share was 64%.

Among international graduates on Optional Practical Training in 2016, 46% worked in the state where they studied (U.S. 44%). That is the last year the released records cover, before most of the growth in international STEM master's degrees since 2015. Through migration between states, the state gained 4.9 bachelor's-plus adults per 1,000 such residents in 2025 (Data from U.S. Census Bureau, American Community Survey).

SECTION 8

H-1B Jobs and Green Cards

Colorado ranks 33rd of 51 on the share of PERM certifications for workers on F-1 student visas, at 7.9% in 2024 against 8.7% for the U.S.

Figure 18 How Many Skilled-Visa Jobs and Green-Card Certifications Does Colorado Ge

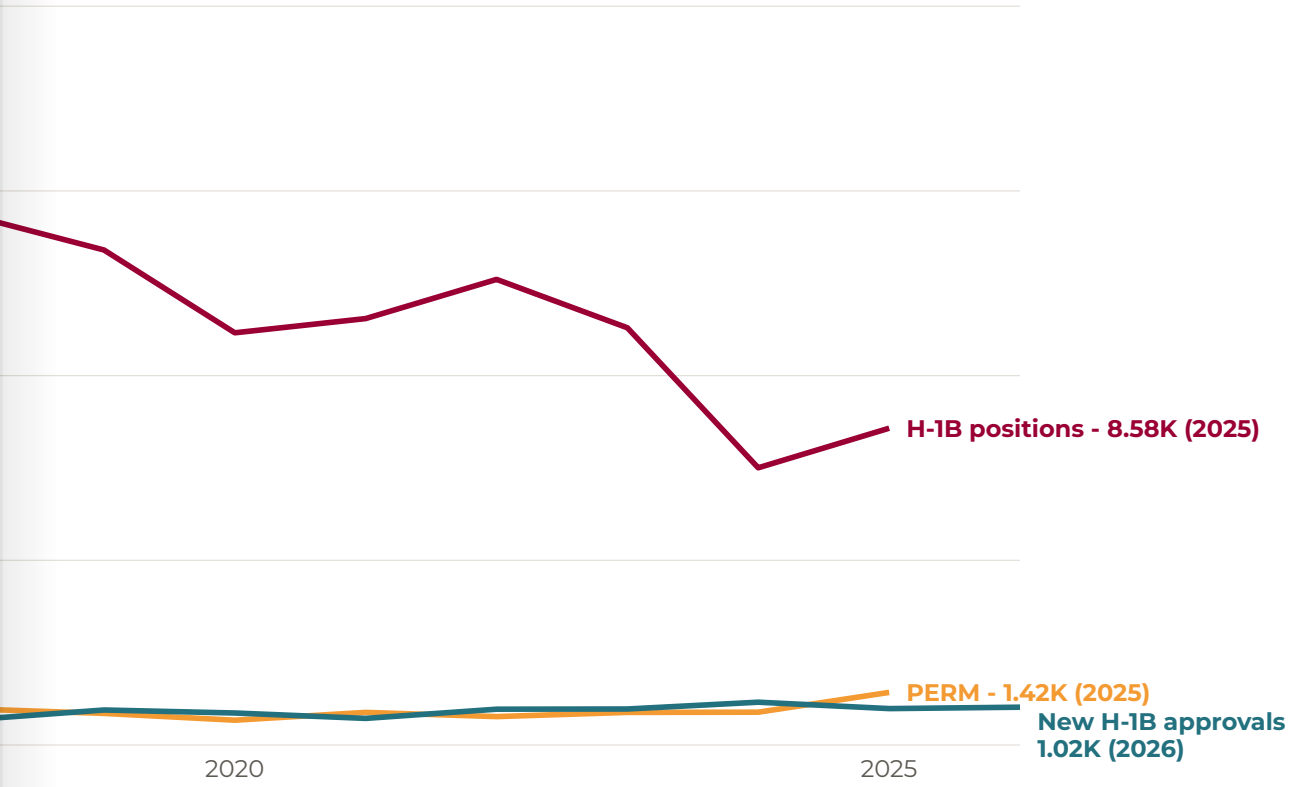

Certified H-1B positions on labor condition applications by worksite and certified PERM green-card applications, by fiscal from USCIS, H-1B Employer Data Hub).

Employers were certified for 8.58K H-1B positions at Colorado worksites in FY2025, 20th of 51 among the states. A labor condition application comes before the petition and covers renewals and job changes as well as new hires, by the worksite's state, so it runs well above approvals. USCIS approved 1.02K new H-1B petitions in FY2026 and 1.73K continuing ones, counted by the employer's address.

DOL certified 1.42K PERM applications, the employer's step toward an employment-based green card, for jobs in the state in FY2025. In FY2024, 7.9% were for workers still on F-1 student visas (U.S. 8.7%): the most direct link from classroom to permanent residence.

SECTION 12

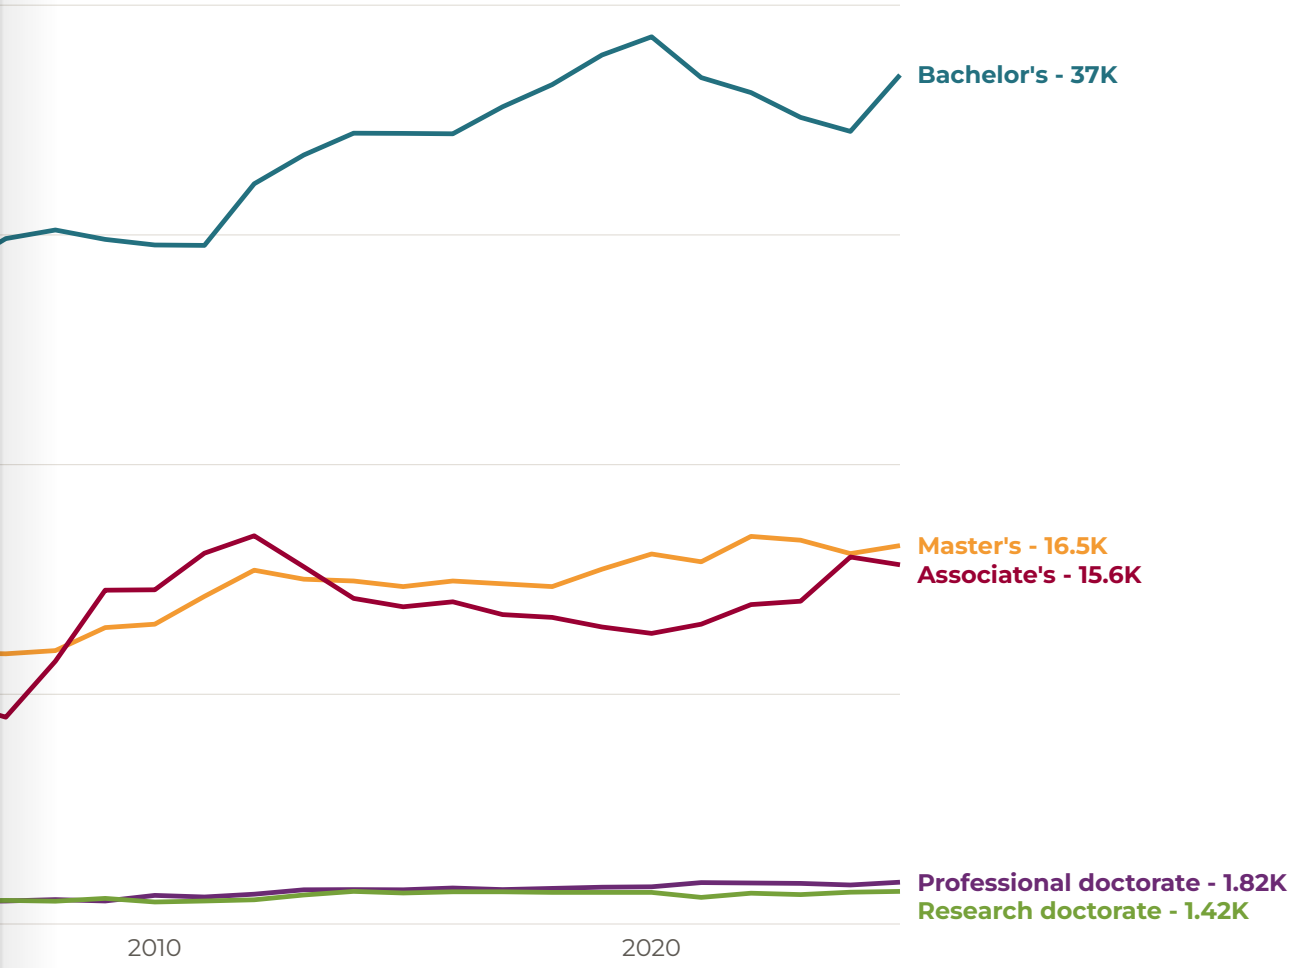

Fields of Study

Figure 27 How Many Degrees Does Colorado Award?

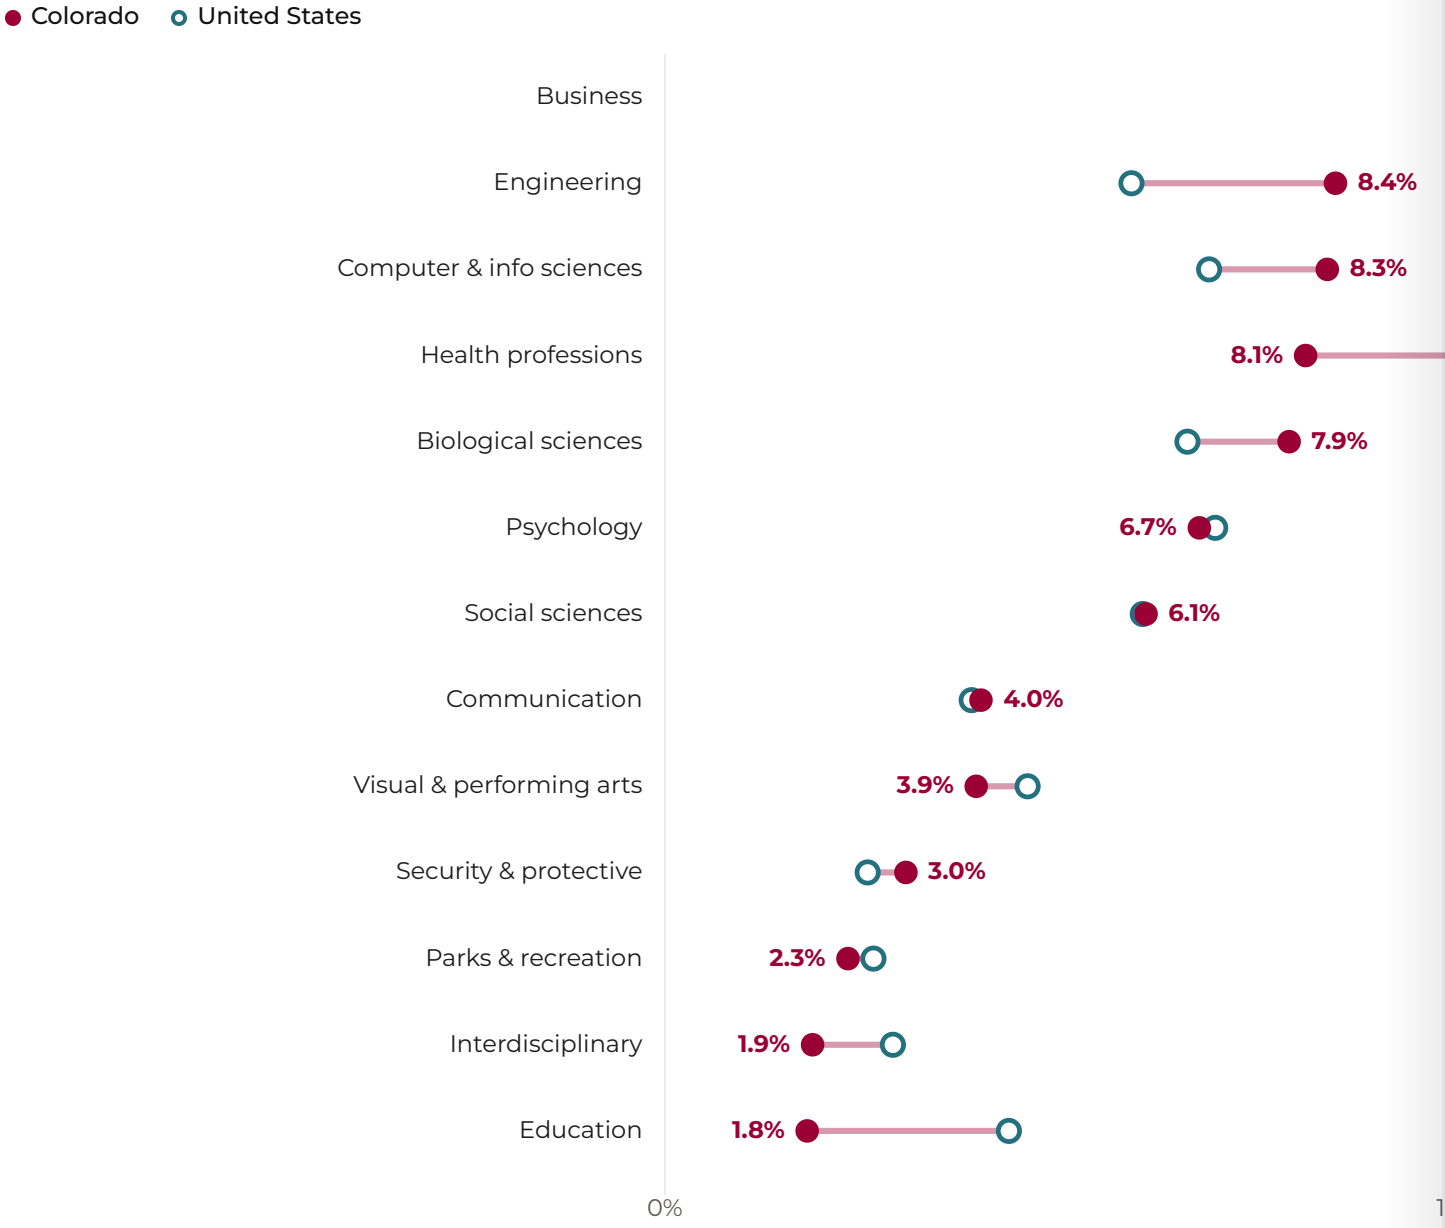

Degrees awarded by level, first majors. Data from NCES, IPEDS Completions.

In 2025, Colorado's institutions awarded 15.6K associate's degrees, 37K bachelor's degrees, 16.5K master's degrees, 1.42K research doctorate degrees, 1.82K professional doctorate degrees.

Since 2015: associate's up 13%; bachelor's up 7%; master's up 12%; research doctorate up 5%; professional doctorate up 22%. The state awards 11.7 bachelor's degrees for every 100 undergraduates (U.S. 12.3).

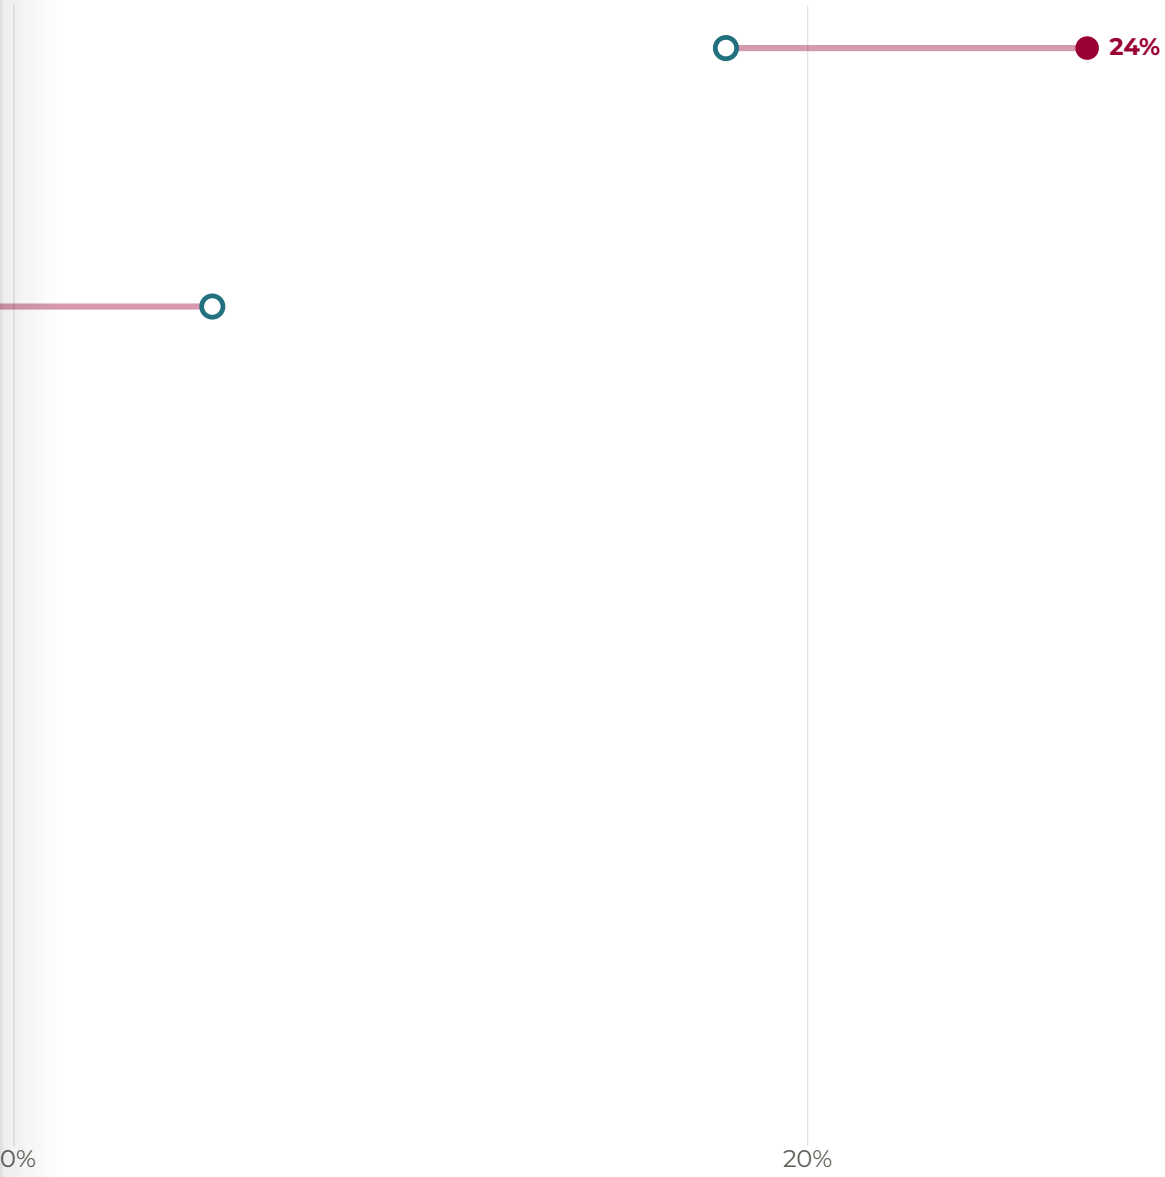

Figure 28 What Do Colorado's Bachelor's Graduates Study?

Share of bachelor's degrees by field, 2025. Data from NCES, IPEDS.

Colorado's largest bachelor's fields are business (24%; U.S. 19%), engineering (8.4%; U.S. 5.9%), computer & info sciences (8.3%; U.S. 6.9%).

Relative to the nation, Colorado's bachelor's degrees are most concentrated in architecture (1.73× the U.S. share), engineering (1.44× the U.S. share), natural resources (1.29× the U.S. share).

Figure 30 How Has Colorado's Bachelor's Field Mix Changed?

Share of bachelor's degrees in the largest fields. Data from NCES, IPEDS Completions.

Since 2015, computer & info sciences has gained the most ground, 4.5 points of the state's bachelor's degrees, while health professions lost the most (2.5 points).

The chart follows the share of bachelor's degrees in each of the state's largest fields; smaller fields are grouped as other fields.

SECTION 12 · FIELDS OF STUDY

Where Is Colorado Specialized, and What Do Its Doctoral Graduates Study?

The location quotient divides a field's share of Colorado's bachelor's degrees by its share of all U.S. bachelor's degrees in 2025. A quotient of 1.00 means the same share as the nation; 2.00 means twice the national share. The table lists the 10 fields with the highest quotients among fields with at least 50 degrees.

Highest location quotients. Architecture (1.73, with 1.0% of the state's bachelor's degrees against 0.6% for the U.S.), engineering (1.44, with 8.4% of the state's bachelor's degrees against 5.9% for the U.S.), and natural resources (1.29, with 1.4% of the state's bachelor's degrees against 1.1% for the U.S.) had the highest quotients.

Table 5 Where Is Colorado Most Specialized?

Field	Location quotient	State share	U.S. share	Degrees
Architecture	**1.73**	1.0%	0.6%	362
Engineering	**1.44**	8.4%	5.9%	3.12K
Natural resources	**1.29**	1.4%	1.1%	534
Business	**1.24**	24%	19%	8.69K

U.S. **21%** · +5.4 pp since 2015

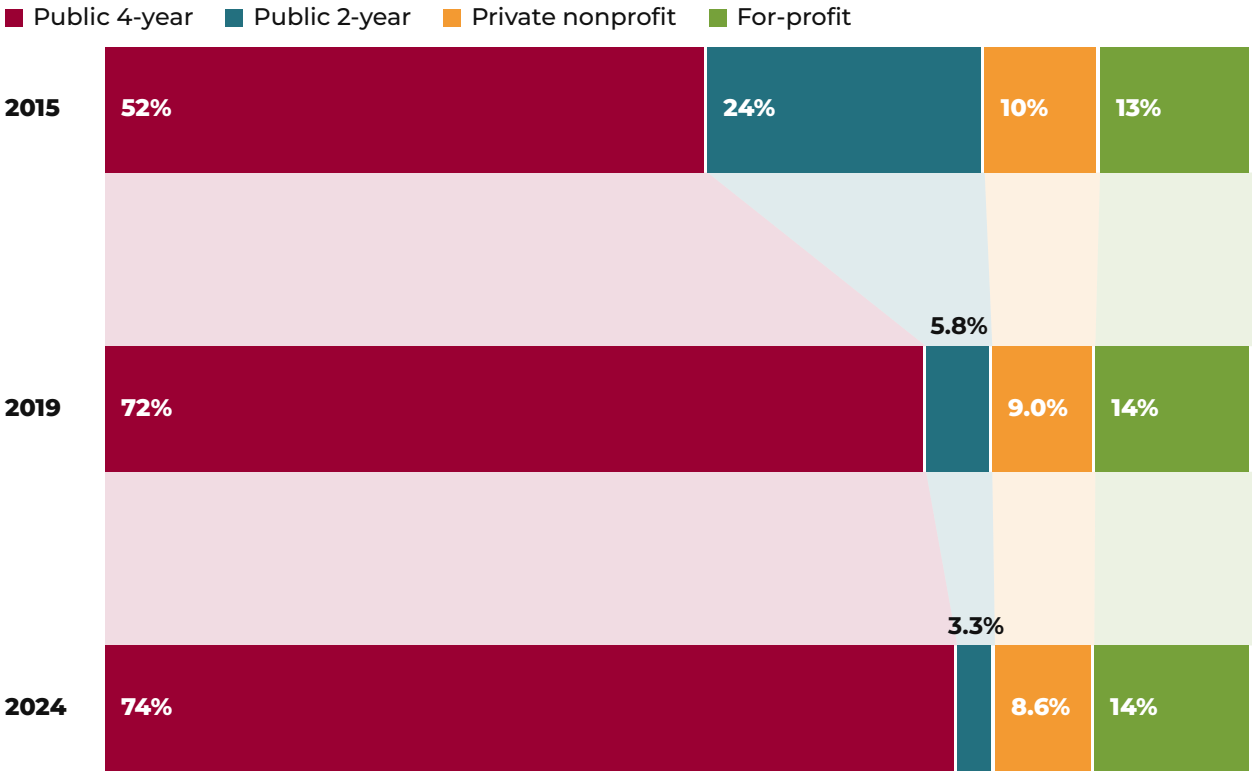

74%
At public 4-year institutions
+21.8 pp since 2015

14%
At for-profit institutions
+0.5 pp since 2015

In fall 2024, public 4-year institutions enrolled **74%** of students, up 21.8 points from 52% in 2015. For-profit institutions enrolled **14%** of students, up 0.5 points from 13% in 2015.

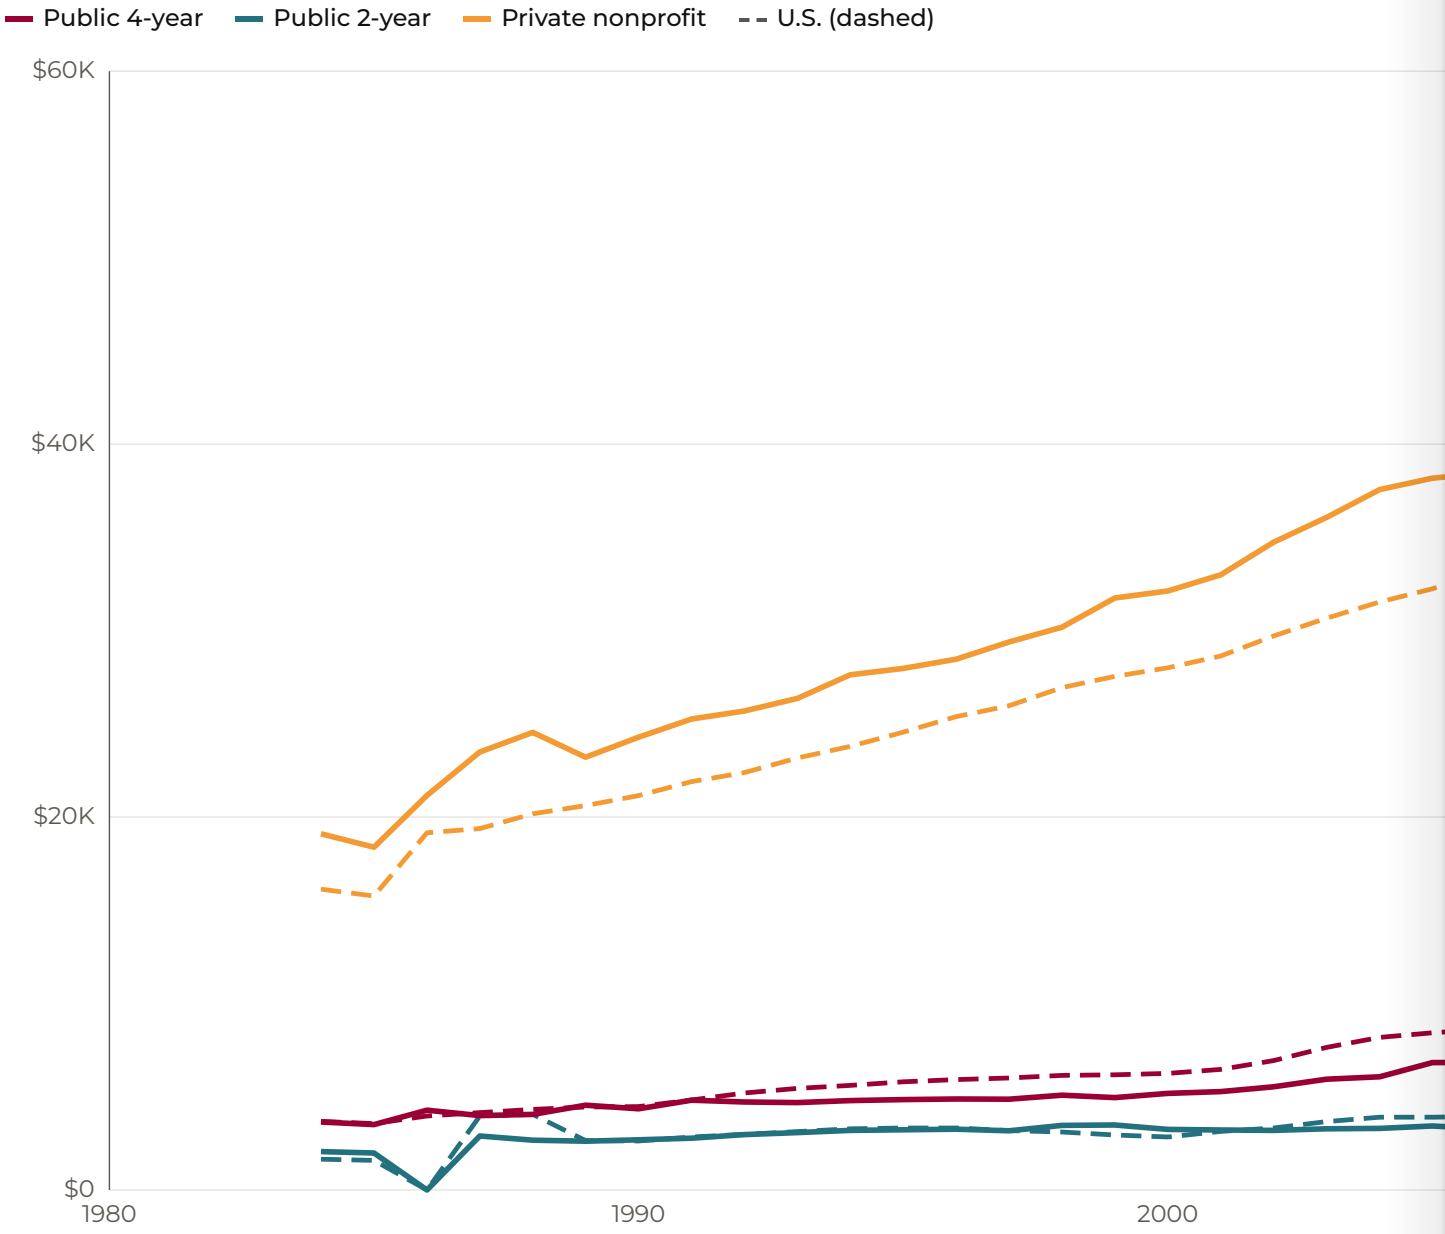

Part of the shift between public sectors is a change of label: 10 community colleges that IPEDS counted as public 2-year in 2015 are counted as public 4-year in 2024 because they began awarding bachelor's degrees. They enrolled **86.3K** students, 23% of the state's total, the largest being Front Range Community College, Arapahoe Community College, and Pikes Peak State College.

Figure 34 Where Do Students Enroll?

Share of fall headcount enrollment by sector, 2015, 2019, 2024. Sectors as IPEDS classifies them each year; 10 former public 2-year colleges (23% of 2024 enrollment) count as public 4-year after they began awarding bachelor's degrees. Data from NCES, IPEDS.

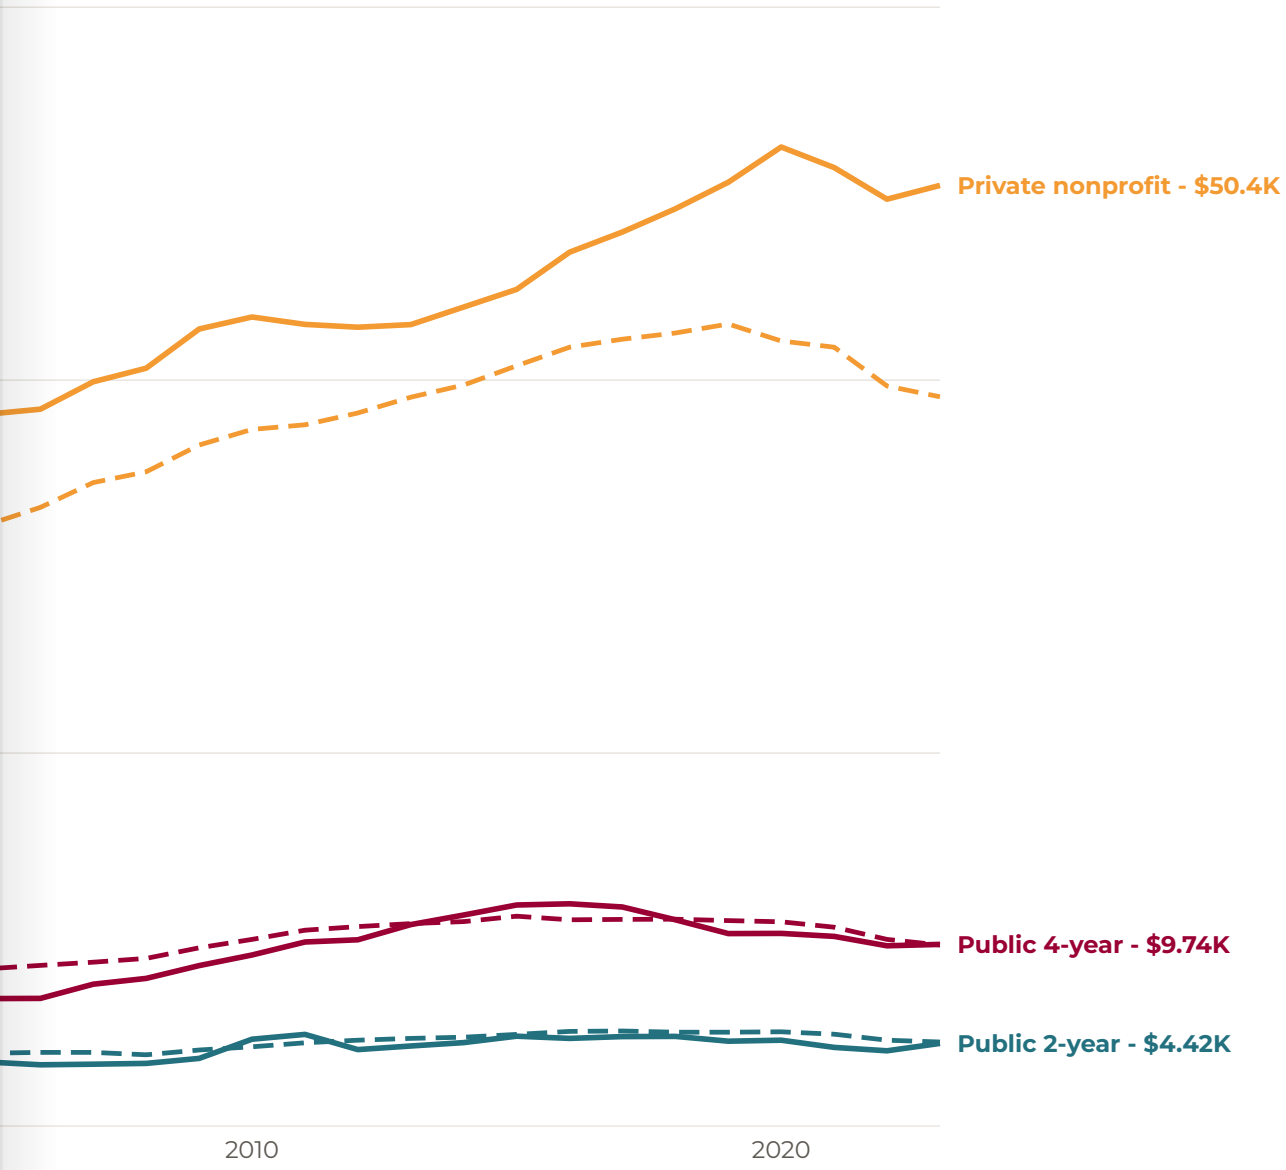

Figure 35 What Does In-State Tuition Cost?

Published in-state tuition and fees, 2024 dollars (CPI-U); state solid, U.S. dashed. Data from NCES, IPEDS.

In-state tuition and fees at Colorado's public four-year institutions are $9.74K (2023, 2024 dollars), close to the U.S. figure ($9.71K); the state ranks 29th of 51.

State and local appropriations come to $1.51K per full-time-equivalent student at public institutions (51st of 51), and net tuition makes up 91% of net tuition plus state and local appropriations (U.S. 43%).

SECTION 13 · STUDENTS AND MONEY

How Are Colorado's Public Institutions Funded, and What Do They Produce?

The bars give each source's share of the core revenue of Colorado's public institutions, with the nation for comparison, and at right the dollars per full-time-equivalent (FTE) student it provides. Values are in 2024 dollars (CPI-U). Net tuition is tuition and fees after institutional discounts and allowances.

Net tuition per FTE student. The figure was $14.7K in FY2024, against $8.96K for the U.S., up 1.8% from $14.4K in FY2023 and up 4.7% since FY2015, when it was $14K.

Figure 36 How Are Public Institutions Funded?

Share of core revenue per FTE student by source, public institutions, FY2024; dollars per FTE at right, 2024 dollars (CPI-U). Shares are of all five sources; the tuition share elsewhere in this profile divides net tuition by net tuition plus state and local appropriations only. Data from NCES, IPEDS Finance.

Average faculty salary	2024	**$98K**	$106K	21st of 51	−8.6%

Rank among the 50 states and DC (1 = highest). Dollars in 2024 dollars (CPI-U). Data from NCES, IPEDS.

SECTION 14

Student Outcomes

Colorado ranks 8th of 50 on the share of completion within 150% of normal time, 2-year institutions, at 53% in 2024 against 41% for the U.S.

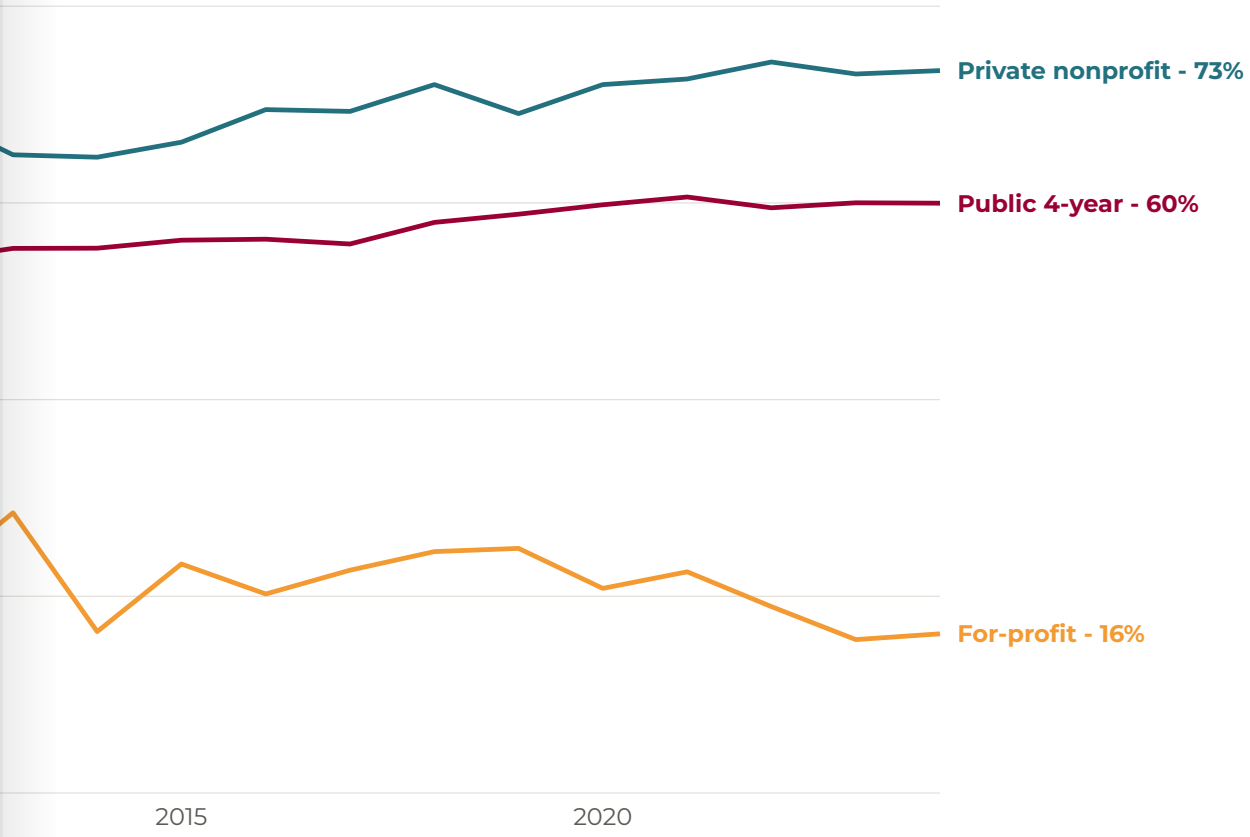

Figure 37 How Do Graduation Rates Differ by Sector?

Six-year bachelor's graduation rate by sector of institution. Data from NCES, IPEDS Graduation Rates.

60% of students who started a bachelor's degree at a four-year institution in Colorado graduated within six years (2024), 4.6 points below the U.S. (65%); the state ranks 31st of 51.

By sector: public 4-year 60%, private nonprofit 73%, for-profit 16%. At two-year institutions, 53% complete within 150% of normal time (U.S. 41%).

SECTION 14 · STUDENT OUTCOMES

How Many of Colorado's Students Graduate?

The line follows the share of first-time, full-time bachelor's-degree students at Colorado's four-year institutions who graduated from the institution where they started within six years (150% of normal time). Each year is the cohort that entered six years earlier. The rate leaves out students who start part-time (44% of the state's students attend part-time, against 39% nationally) and students who transfer and finish elsewhere. The state is solid and the United States dashed.

Six-year graduation rate. The rate was 60% in 2024, against 65% for the U.S., down 0.2 points from 60% in 2023 and up 4.0 points since 2015, when it was 56%.

Figure 38 Six-Year Bachelor's Graduation Rate

Four-year institutions; state solid, U.S. dashed. Data from NCES, IPEDS Graduation Rates.

Six-year rate, 2024; groups with 100+ students. Data from NCES, IPEDS.

SECTION 15

Faculty

Colorado ranks 21st of 51 on the average full-time faculty salary, at $98K in 2024 against $106K for the U.S.

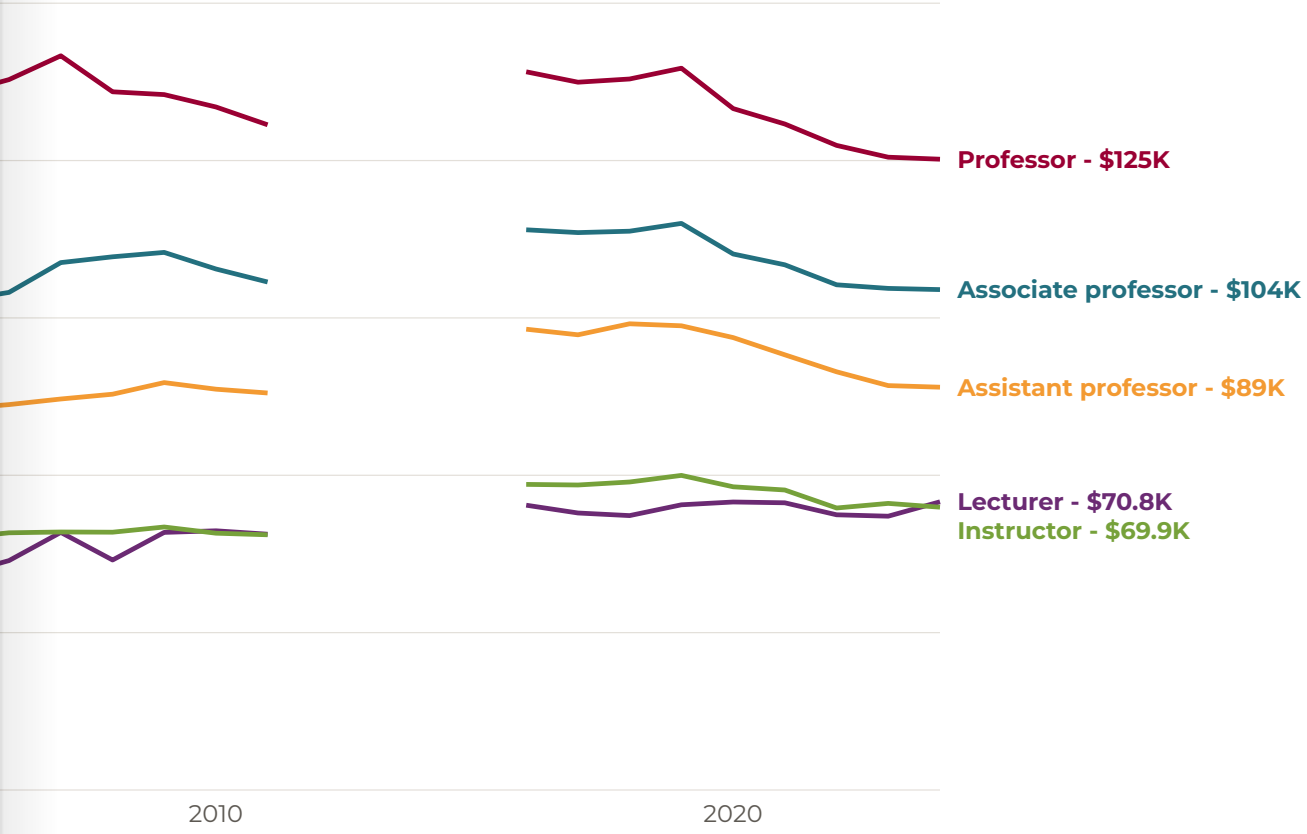

Figure 40 What Do Colorado's Faculty Earn, by Rank?

Average salary of full-time instructional faculty on 9/10-month contracts, by academic rank, 2024 dollars (CPI-U). Data fro

Full-time instructional faculty on 9/10-month contracts at Colorado's institutions earned an average of $98K in 2024 (2024 dollars), 7% below the U.S. ($106K); the state ranks 21st of 51. By rank (2024): professors $125K, associate professors $104K, assistant professors $89K, instructors $69.9K, lecturers $70.8K.

Colorado's institutions had 15.6K full-time instructional staff in 2024, up 24% since 2015. Average salary across all ranks is down 9% since 2016.

m NCES, IPEDS Human Resources.

SECTION 15 · FACULTY

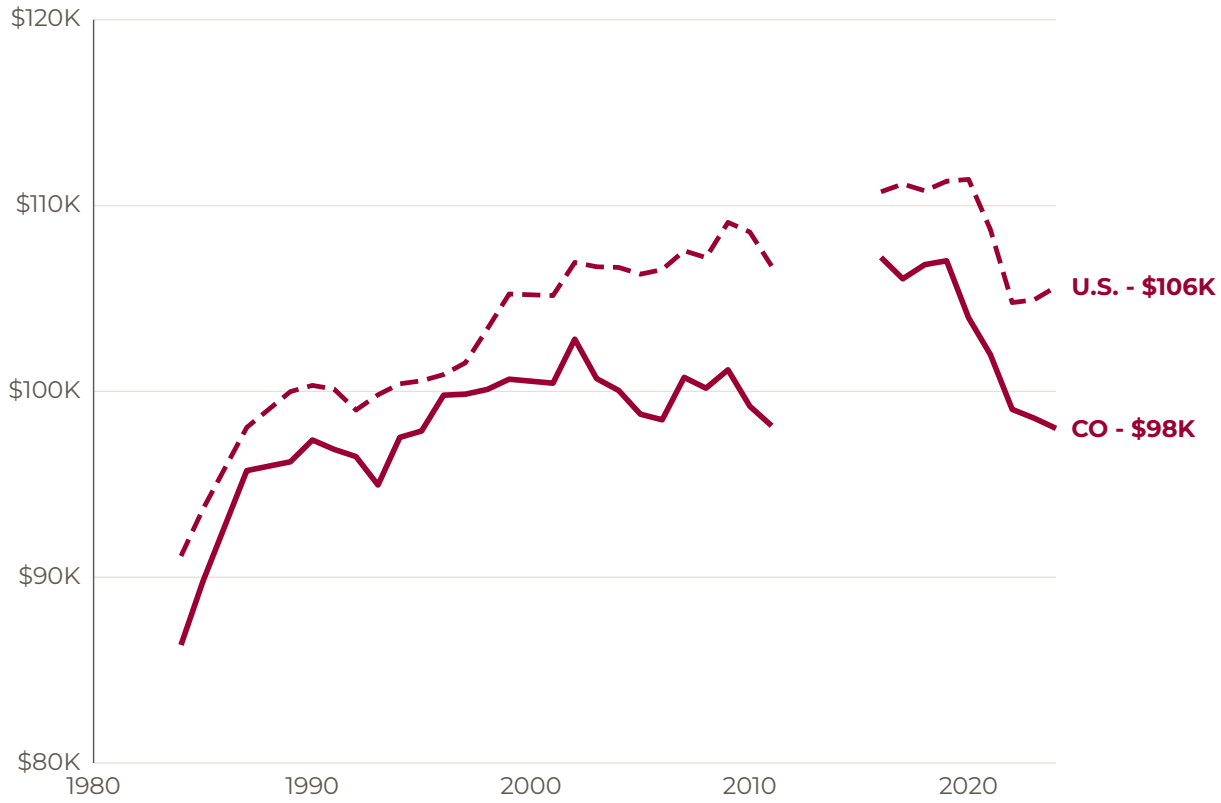

What Do Colorado's Faculty Earn, and How Many Hold Tenure?

The line follows the average salary of full-time instructional faculty on 9- or 10-month contracts at Colorado's degree-granting institutions, all ranks combined, in 2024 dollars (CPI-U). The state is solid and the United States dashed.

Average salary. The figure was $98K in 2024, against $106K for the U.S., 21st among the states, down 0.6% from $98.6K in 2023 and down 8.6% since 2016, when it was $107K.

Full-time instructional staff. The number was 15.6K in 2024, up 3.0% from 15.1K in 2023 and up 24% since 2015, when it was 12.5K.

Figure 41 Average Faculty Salary

Tenured, 2024

The bars divide Colorado's full-time instructional staff by tenure status in 2015, 2019 and 2024: tenured, on the tenure track, not on the tenure track (for example, lecturers on fixed-term contracts), and staff at institutions with no tenure system.

Tenured, share of full-time instructional staff. The share was 30% in 2024, down 0.3 points from 30% in 2023 and down 4.1 points since 2015, when it was 34%.

Figure 42 Tenure Status

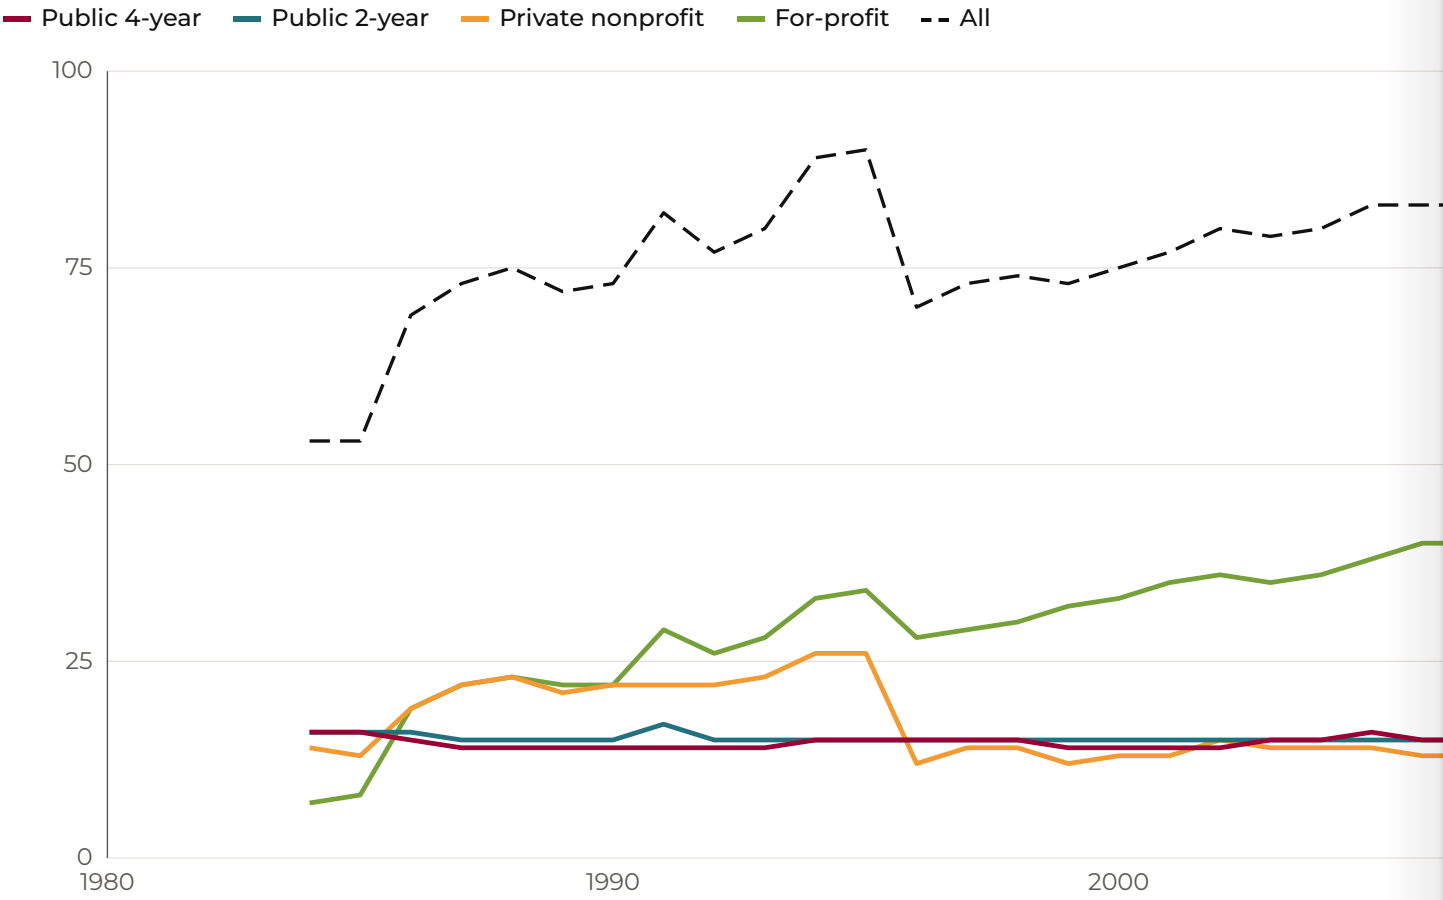

Full-time instructional staff by tenure status, 2015, 2019, 2024. Data from NCES, IPEDS.

SECTION 16

Institutions

Colorado ranks 5th of 51 on the share of enrollment at for-profit institutions, at 14% in 2024 against 5.5% for the U.S.

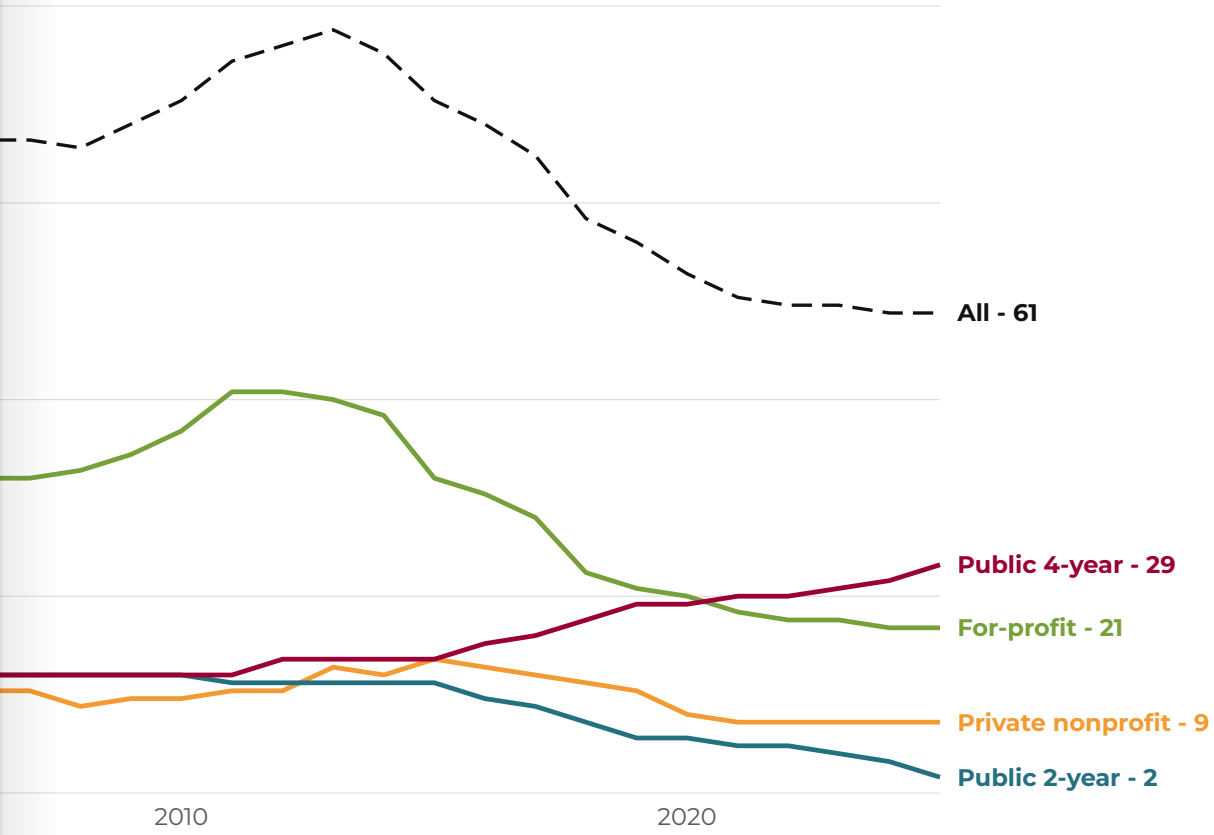

Figure 43 How Many Institutions Does Colorado Have?

Degree-granting institutions by sector. Data from NCES, IPEDS.

Colorado has 61 degree-granting institutions:29 public 4-year, 2 public 2-year, 9 private nonprofit, 21 for-profit (2025).

The number of institutions is down 31% since 2015. 78% of students attend public institutions and 14% attend for-profit ones.

SECTION 16 · INSTITUTIONS

Which Institutions Lead in Colorado?

The table ranks institutions in Colorado by the STEM master's degrees and research doctorates they awarded to international students in 2025, the two counted together. The share columns give international students' share of each institution's STEM degrees at that level.

Largest. University of Colorado Boulder (359 international STEM master's degrees and 65 doctorates), Colorado State University-Fort Collins (283 international STEM master's degrees and 46 doctorates), and University of Colorado Denver/Anschutz Medical Campus (143 international STEM master's degrees and 12 doctorates) awarded the most.

Table 7 Which Institutions Train the Most International STEM Graduates?

Institution	Intl STEM master's	Int. share	Intl STEM doctorates	Int. share
University of Colorado Boulder Boulder · Public 4-year	**359**	28%	65	19%
Colorado State University-Fort Collins Fort Collins · Public 4-year	**283**	35%	46	24%
University of Colorado Denver/Anschutz Medical Campus Denver · Public 4-year	**143**	36%	12	11%
Colorado School of Mines Golden · Public 4-year	**71**	13%	38	33%
University of Denver Denver · Private nonprofit	**87**	20%	6	32%

The table lists Colorado's largest degree-granting institutions by fall 2024 headcount enrollment, with the international share of graduate students, STEM bachelor's degrees awarded in 2025, the six-year graduation rate and the admission rate (a dash where the institution admits all applicants or does not report one).

Largest. The three largest were University of Colorado Boulder (38.8K students), Colorado State University-Fort Collins (34.1K students), and Colorado Technical University-Colorado Springs (31.8K students).

Table 8 What Are Colorado's Largest Institutions?

Institution	Enrollment	Int. share, grad	STEM bachelor's	Six-year grad rate	Admit rate
University of Colorado Boulder	**38.8K**	25%	3.03K	74%	78%
Colorado State University-Fort Collins	**34.1K**	16%	2.01K	67%	89%

University of Colorado Colorado Springs	**11.4K**	5.5%	470	47%	97%

Fall 2024 enrollment; degrees 2025. Data from NCES, IPEDS.

NOTES

About These Data

International students

U.S. nonresidents on temporary visas, as IPEDS defines them. IPEDS does not record country of citizenship. Permanent residents count with U.S. citizens.

STEM

CIP families 03, 04, 11, 14, 15, 26, 27 and 40. Doctorates are research and scholarship doctorates; professional doctorates appear only in the degree-count figure. Degrees are first majors only.

Universe

Degree-granting institutions located in the state; Title IV participants from 1996. Geography is the institution's location, not the student's home. Enrollment is fall headcount.

Migration

First-time degree-seeking undergraduates by home state, reported in even years before 2001 and every year since; odd years with incomplete reporting are omitted. Net migration is students arriving from other states minus residents leaving, per 100 resident first-time students.

Money

Tuition, appropriations, revenue and faculty salaries are in 2024 dollars using the CPI-U. Research funding (HERD, Federal Funds, USAspending), wages and the NAFSA economic contribution are nominal dollars, and are labeled so. Appropriations and revenue are per full-time-equivalent student at public institutions; the tuition share divides net tuition by net tuition plus state and local appropriations.

Race and ethnicity

IPEDS did not collect race and ethnicity in every year before 2010, and categories changed in 2008–2010; “Two or more” exists only from then.

Countries of citizenship

From DHS SEVIS by the Numbers: active F-1 and M-1 student records in the month named, at every level from primary school to doctorate, by the state of the school. IPEDS records only whether a student is a U.S. nonresident, not where they come from. SEVIS counts are monthly snapshots and are not directly comparable with IPEDS fall enrollment or degree counts. Year-to-year comparisons use one fall snapshot per year (the month closest to November).

Peers

Comparison states are the four closest in total fall enrollment, measured proportionally: a state 1.5 times as large counts as near as one two-thirds the size.

Sources

IPEDS (National Center for Education Statistics) is the backbone: Institutional Characteristics, Fall Enrollment, Completions, Graduation Rates, Finance, Human Resources and Admissions, 1980–2025, harmonized into a state panel. The profile also draws on NAEP, NSF's Survey of Graduate Students and Postdoctorates, Survey of Earned Doctorates, HERD and Federal Funds surveys, USAspending.gov, DHS SEVIS by the Numbers and ICE SEVIS releases, the Department of Labor's Office of Foreign Labor Certification and BLS wage data, the USCIS H-1B Employer Data Hub, the Census Bureau's American Community Survey and Post-Secondary Employment Outcomes, USPTO PatentsView, and other federal sources; every figure names its source, and the Sources page lists them in full. Generated November 2026.

NOTES

How the Numbers Are Counted

Ranks

Ranks are among the 50 states and the District of Columbia (1 = highest value, whether or not a high value is good). Where fewer than 51 report, the count is given ("23rd of 33").

Sectors

Sectors are as IPEDS classifies institutions each year. IPEDS moves a whole institution to "public, 4-year or above" once it awards any bachelor's degree, so community colleges that began offering applied bachelor's degrees carry all of their students into the public 4-year sector. In Colorado, 10 institutions counted as public 2-year in 2015 are counted as public 4-year in 2024; they enrolled 86.3K students (23% of the state's total, 31% of its public 4-year enrollment). Sector series (enrollment shares, public 4-year tuition, graduation rates by sector) reflect these moves.

Research doctorates

Two counts appear. IPEDS counts degrees institutions report as "doctor's degree, research/scholarship", which includes some practice-oriented degrees such as many Ed.D.s; the NSF Survey of Earned Doctorates counts research doctorate recipients and is smaller. Each figure names which it uses. "STEM master's per STEM research doctorate" divides IPEDS STEM master's degrees by IPEDS STEM research doctorates.

Engineering

"Engineering" alone is CIP 14. Where engineering technology (CIP 15) is added, the label says "engineering & eng. technology".

Graduation rates

IPEDS graduation rates follow first-time, full-time students and count only those who finish at the institution where they started, so they leave out part-time starters and students who transfer and finish elsewhere.

International students in SEVIS

SEVIS counts active F-1 and M-1 records, which include graduates on Optional Practical Training (up to 36 months for STEM graduates, 12 for others), so STEM shares run high. STEM follows the DHS STEM Designated Degree Program List, which is broader than the eight CIP families above, and DHS draws its STEM pages on a different basis from its all-student pages, so a country's STEM count can exceed its all-level count.

Visas and green cards

DOL labor condition applications (H-1B positions) are counted by worksite and include renewals and job changes; USCIS approvals are counted by the employer's address and split into new and continuing. PERM certifications are the employer's step toward a green card.

Patents

Patents are counted by the owner's (assignee's) location, not where inventors live; a company headquartered in another state takes its patents there.

Years

Each measure uses its latest year, so years differ across a page; every figure, table and statement gives its year, and lines that stop early are labeled with their last year.

Denial rate, new H-1B petitions	5.0%	**3.0%**^{2026}	−1.9 pp ▼	3.4%	−3.0 pp ▼	#35	[13]
New H-1B approvals at colleges and schools (NAICS 61)	25%	**22%**^{2026}	−3.1 pp ▼	8.6%	−1.7 pp ▼	#22	[13]
New H-1B approvals in professional, scientific & technical services	39%	**36%**^{2026}	−3.7 pp ▼	44%	−12.5 pp ▼	#19	[13]
Five largest employers' share of new H-1B approvals	32%	**25%**^{2026}	−6.8 pp ▼	9.1%	−6.7 pp ▼	#37	[13]
STEM WORKFORCE AND INNOVATION							
Workers in STEM occupations	224K	**357K**^{2024}	+59% ▲	13.7M	+51% ▲	#16	[12]
STEM workers as a share of all workers	8.0%	**11%**^{2024}	+3.0 pp ▲	8.1%	+2.1 pp ▲	#5	[12]
Foreign-born share of STEM workers	11%	**12%**^{2024}	+0.6 pp ▲	24%	+1.6 pp ▲	#34	[12]
Foreign-born share of STEM workers with a graduate degree	17%	**20%**^{2024}	+2.7 pp ▲	41%	+2.2 pp ▲	#40	[12]
Foreign-born share of STEM workers with a doctorate	19%	**26%**^{2024}	+6.9 pp ▲	47%	+0.9 pp ▲	#20	[12]
Noncitizen share of STEM workers	6.0%	**5.4%**^{2024}	−0.6 pp ▼	11%	+0.7 pp ▲	#37	[12]
STEM workers born abroad who arrived in the last 10 years	3.9%	**3.4%**^{2024}	−0.5 pp ▼	7.5%	+0.3 pp ▲	#40	[12]
Share of foreign-born STEM workers born in India	28%	**22%**^{2024}	−5.8 pp ▼	28%	+0.7 pp ▲	#23	[12]
Foreign-born share of residents	9.8%	**10%**^{2025}	+0.5 pp ▲	15%	+1.3 pp ▲	#19	[12]
Foreign-born share of graduate-degree holders, 25+	9.6%	**12%**^{2025}	+2.5 pp ▲	21%	+2.8 pp ▲	#28	[12]
STEM jobs, employer survey	200K	**263K**^{2025}	+32% ▲	10.4M	+26% ▲	#16	[10]
STEM jobs concentration vs the U.S., location quotient	1.37	**1.37**^{2025}	0.0	1.00	0.0	#6	[10]
Mean annual STEM wage, nominal, nominal dollars	$91.3K	**$125K**^{2025}	+37% ▲	$120K	+38% ▲	#9	[10]
Median software developer wage, nominal, nominal dollars	$110K^{2019}	**$138K**^{2025}	+26% ▲	$136K	+26% ▲	#8	[10]
Software developer jobs	36.5K	**43.3K**^{2025}	+19% ▲	1.69M	+48% ▲	#15	[10]
Mean annual wage, all occupations, nominal, nominal dollars	$51.2K	**$77.2K**^{2025}	+51% ▲	$69.8K	+44% ▲	#9	[10]
Patents granted to assignees in the state	1.63K	**2.08K**^{2025}	+28% ▲	135K	−0.6% ▼	#16	[22]
Share of U.S.-assignee patents	1.2%	**1.5%**^{2025}	+0.3 pp ▲	–	–	#16	[22]
Share of the state's patents in digital technologies	38%	**42%**^{2025}	+4.3 pp ▲	43%	+1.6 pp ▲	#12	[22]
Share of the state's patents in life sciences	17%	**17%**^{2025}	−0.7 pp ▼	17%	+0.4 pp ▲	#27	[22]

Superscript years mark the year observed; changes since 2015 start from 2015 or the first later year with data. Rank is among the 50 states and DC (1 = highest). "pp" is percentage points. Dollars are 2024 dollars (CPI-U) unless the measure is labeled nominal. Counts and dollars are rounded to three significant figures (K, M, B). Arrow colors show direction only. Source numbers refer to the list of sources that follows the tables.

COLORADO – BY THE NUMBERS (CONTINUED)

Measure	2015	Latest	Change since 2015	U.S., latest	U.S. change since 2015	Rank	Source
STEM WORKFORCE AND INNOVATION (CONTINUED)							
Share of the state's patents in semiconductors	2.0%	**0.9%**[2025]	−1.1 pp ▼	2.9%	−1.7 pp ▼	#21	[22]
Women's share of inventors on the state's patents	8.5%	**11%**[2025]	+2.7 pp ▲	14%	+3.4 pp ▲	#30	[22]
