Authors

Emerson Victoria Johnston is a research assistant with the Hoover Institution's Technology Policy Accelerator. A Knight-Hennessy Scholar, she holds a master's in international policy from Stanford University, and is on leave from its master's program in the history of science, technology, environment, and medicine.

Dr. Amy Zegart is the Morris Arnold and Nona Jean Cox Senior Fellow at the Hoover Institution, director of Hoover's Technology Policy Accelerator, and a senior fellow and associate director at Stanford University's Institute for Human-Centered Artificial Intelligence.

Data come from the Integrated Postsecondary Education Data System (IPEDS), the Department of Homeland Security's SEVIS by the Numbers, the National Assessment of Educational Progress, NSF's Survey of Graduate Students and Postdoctorates and Survey of Earned Doctorates, the Department of Labor's Office of Foreign Labor Certification, the USCIS H-1B Employer Data Hub, the Census Bureau's American Community Survey and USPTO patent data via PatentsView, processed in Python; every figure and table is generated from those sources, and each one names its source.

About This Profile

This profile is a companion to *The 2026 US Talent Report: Benchmarking America's STEM Pipeline Amid the Great Talent Competition*. It applies the report's measures to North Dakota: the students the state develops at home, those it draws from abroad, and how both compare with the nation and with the states closest to it in size.

Degrees, enrollment, prices, outcomes and faculty come from IPEDS, the federal census of U.S. colleges and universities, harmonized across 1980–2025. Countries of citizenship come from SEVIS by the Numbers, the Department of Homeland Security's monthly count of active F-1 and M-1 students. Each figure names its source. Peer states are the four closest in total fall enrollment.

Public Data and Tools

The data behind every chart come from federal sources: the Integrated Postsecondary Education Data System (IPEDS), published by the National Center for Education Statistics, as the backbone, together with NAEP, NSF's surveys of graduate students, doctorates and research funding, USAspending.gov, DHS and ICE SEVIS data, the Department of Labor, USCIS, the Census Bureau's American Community Survey and Post-Secondary Employment Outcomes, and USPTO PatentsView. Each figure names its source, and the Sources page lists all of them. An interactive version of this profile accompanies the report.

AT A GLANCE

What North Dakota's numbers say

1. **International students earn 36% of North Dakota's STEM master's degrees,** 16.2 points below the U.S. (52%) in 2025, ranking 35th of 51 on dependence. The share is 57% for STEM research doctorates (U.S. 43%) and 4.2% for STEM bachelor's (U.S. 6.6%).
2. **North Dakota awarded 122 STEM master's degrees to international students in 2025,** 0.1% of the U.S. total and 42nd of 51 among states. Since 2015 the count changed +27%, against 2.2× nationally.
3. **The heaviest dependence is in engineering,** where international students earned 49% of master's degrees (112 degrees; U.S. 49%). No STEM field with at least 50 master's graduates are majority-international.
4. **Among states of similar size,** North Dakota ranks 3rd of 5 on the international share of STEM master's: North Dakota 36%, South Dakota 48%, Delaware 72%, Montana 18%, Hawaii 16%.
5. **50% of North Dakota's first-time students in fall 2024 were state residents** and 3.3% came from abroad. More students arrived from other states (4.13K) than residents left (1.59K), a net gain of 2.54K; the top destination for those leaving was Minnesota.

36%

of the STEM master's degrees North Dakota awards go to international students (U.S. 52%).

SECTION 1

International Dependence

North Dakota ranks 35th of 51 on the international share of STEM master's, at 36% in 2025 against 52% for the U.S.

Figure 1 What Share of North Dakota's Degrees Go to International Students?

International share of degrees awarded, all fields; state solid, U.S. dashed. Data from NCES, IPEDS Completions, 1985–2025.

International students make up 16% of North Dakota's graduate enrollment and 2.7% of its undergraduates. Dependence climbs with each degree: 3.2% of bachelor's, 13% of master's and 33% of research doctorates go to international students.

In STEM the shares are higher still: 4.2% of STEM bachelor's, 36% of STEM master's and 57% of STEM doctorates. The state awards 0.1% of all U.S. international STEM master's, 42nd of 51.

Figure 2 Where Do North Dakota's International Students Come From?

Active F-1 and M-1 students by country of citizenship, the five largest in October 2026; one fall snapshot per year (the month closest to November), October 2014–October 2026. All education levels. Data from DHS, SEVIS by the Numbers.

In October 2026, North Dakota had 2.41K active international students in SEVIS, 46th of 51. Canada accounted for 26% of them and Bangladesh for 8.1%, against 3.3% and 2.3% nationally.

Students came from 117 countries, but the two largest supplied 34%. The state's total is down 7% since 2015, when it stood at 2.6K.

SECTION 1 · INTERNATIONAL DEPENDENCE

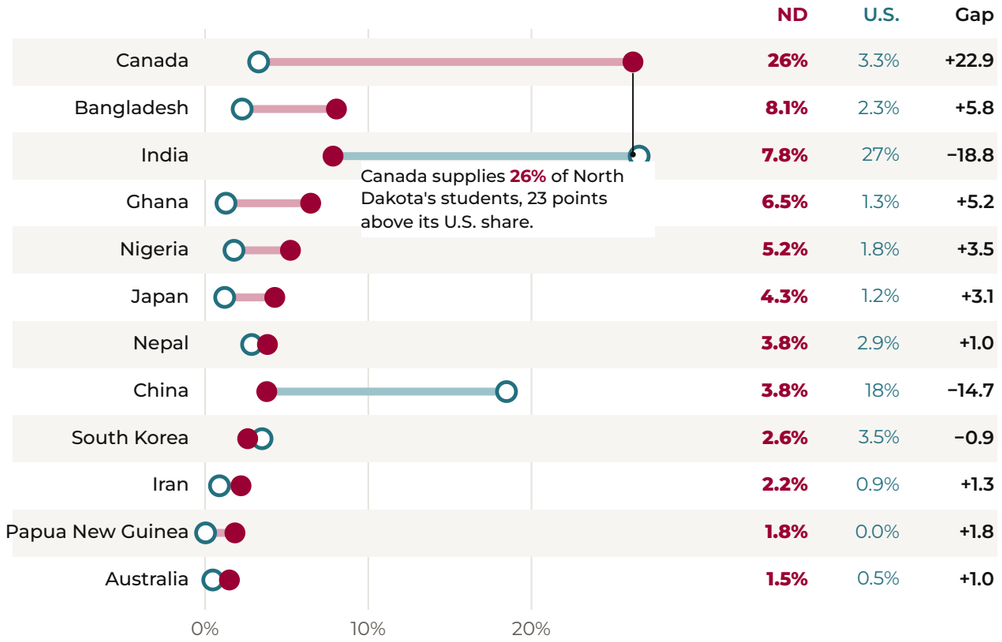

How Does North Dakota's Mix of Countries Compare With the Nation's?

In October 2026, North Dakota had **2.41K** active F-1 and M-1 students, 46th among the 50 states and DC and **0.2%** of the U.S. total. They came from 117 countries.

Canada supplied **26%** of them, against 3.3% nationally, and Bangladesh **8.1%**, against 2.3%. India (7.8%), Ghana (6.5%), and Nigeria (5.2%) followed.

Together the two largest countries supplied **34%** of the state's international students (U.S. 45%), 32nd among the states, against 40% in 2015.

Figure 3 Is North Dakota's Mix of Countries Like the Nation's?

Share of active F-1 and M-1 students, all levels. Data from DHS, SEVIS by the Numbers, October 2026.

The state's count is down 1.6% from 2025 and down 7.5% since 2015, when it stood at 2.6K. Its share of all U.S. international students is unchanged since 2015, at **0.2%**.

Since 2015, the number of students from Canada went from 486 to 632, Bangladesh's from 80 to 194, and India's from 311 to 189.

Over the same years, the number from Ghana went from 35 to 156 and Nigeria's from 58 to 126. The table gives each country's count for the first, previous and latest years.

Table 1 International Students in North Dakota, 2015–2026

	2015	2025	2026	Change since 2015	U.S. 2026	Rank
ALL INTERNATIONAL STUDENTS						
Active F-1 and M-1 students	2.6K	2.45K	**2.41K**	−7.5%	1.19M	46th
Share of U.S. active F-1/M-1 students	0.2%	0.2%	**0.2%**	0.0 pp	–	46th
Countries of citizenship represented	111	117	**117**	+5.4%	219	47th

Ghana	35	139	**156**	–	1.3%	6.5%
Nigeria	58	140	**126**	+117%	1.8%	5.2%

Active F-1 and M-1 students, one fall snapshot per year (the month closest to November; 2019 has none; the latest year is October 2026). Rank among the 50 states and DC. Data from DHS, SEVIS by the Numbers.

Figure 4

Which Countries Supply North Dakota's International STEM Students?

1.45K of North Dakota's international students were in STEM fields in October 2026, **60%** of the total against 63% nationally, up 37% since 2015.

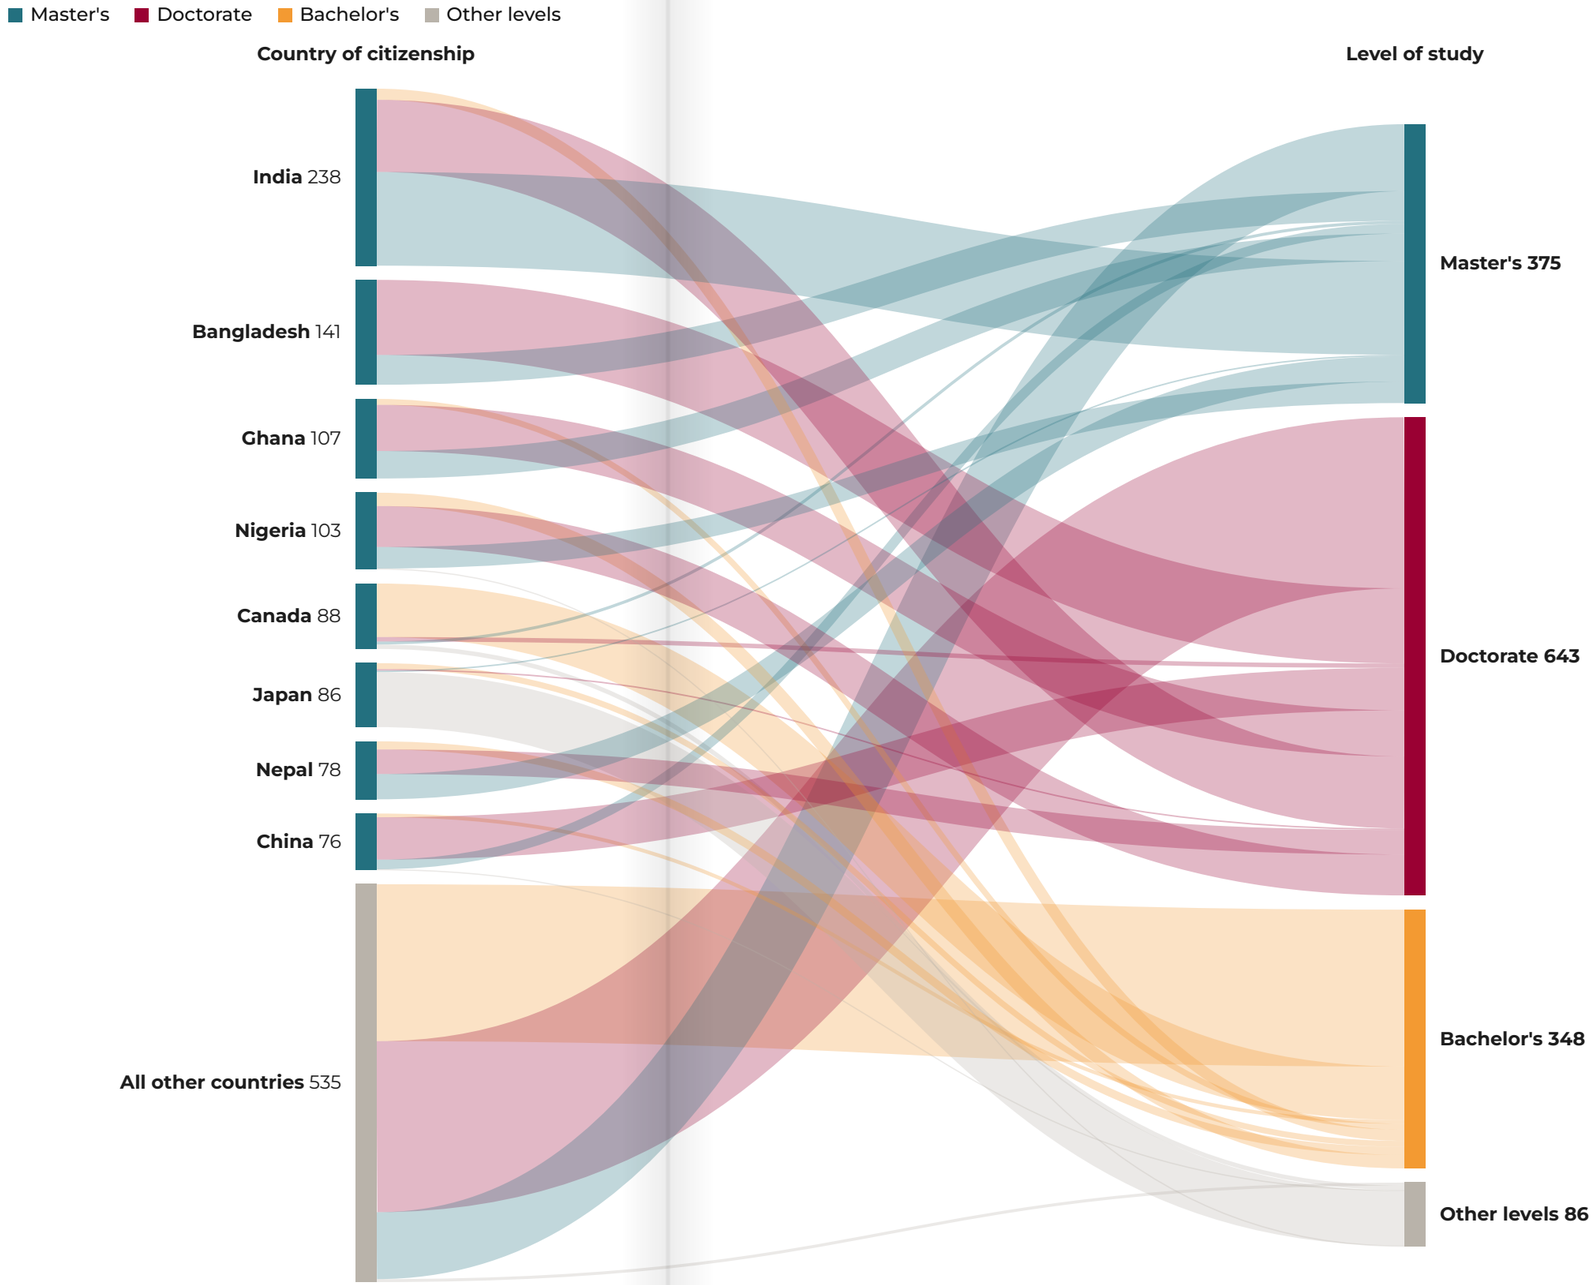

Doctoral students were the largest group, **643**. Bangladesh supplied 16% of them and India 15%.

STEM doctoral students went from 392 in 2015 to **643**, and STEM master's students from 293 to 375.

1.45K

U.S. **63%**

375
Active STEM master's students, 2026
U.S. **393K** · **45th** of 51 · +28% since 2015

Active F-1 and M-1 students in STEM fields by country of citizenship and level of study, October 2026; the eight largest countries are shown. DHS does not draw its STEM pages on the same basis as its all-student pages, so the STEM count here exceeds the all-level count for India (238 against 189). Data from DHS, SEVIS by the Numbers, October 2026.

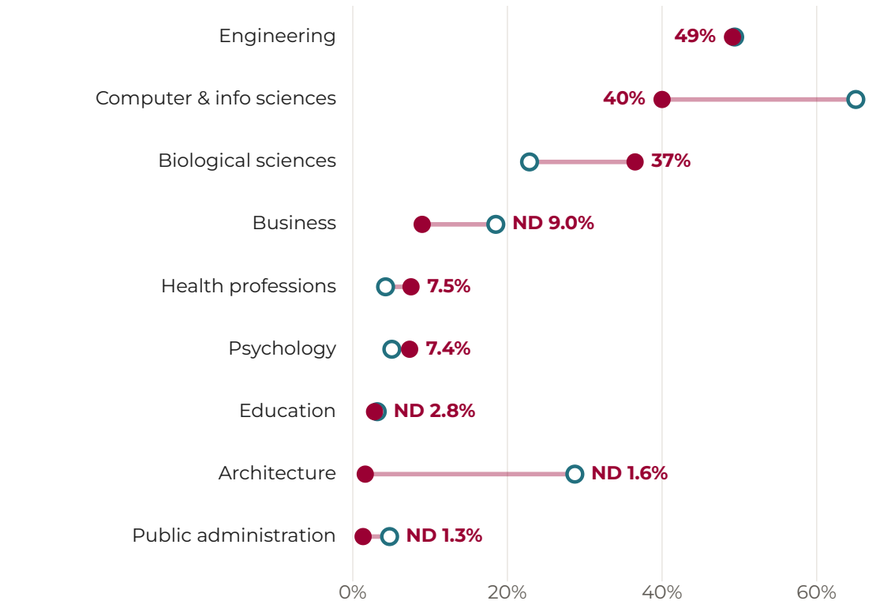

SECTION 1 · INTERNATIONAL DEPENDENCE

How International Are North Dakota's Master's Fields?

Each row is a master's field with at least 30 graduates in North Dakota in 2025, ranked by the share of degrees earned by international students (U.S. nonresidents on temporary visas). The filled dot is the state's share; the open dot is the national share for the same field.

Highest international shares. International students earned the largest shares of master's degrees in engineering (49%, against 49% for the U.S.), computer & info sciences (40%, against 65% for the U.S.), and biological sciences (37%, against 23% for the U.S.).

Figure 5 Which Master's Fields Depend Most on International Students?

International share of master's degrees by field, 2025; fields with 30+ graduates. Data from NCES, IPEDS Completions.

13%
Int. share of all master's, 2025
U.S. **22%** · **29th** of 51

36%

Physical sciences	4.7% / 6.0%	**– / 33%**	50% / 38%
Biological sciences	4.4% / 3.4%	**37% / 23%**	28% / 23%
Natural resources	2.0% / 2.0%	**– / 17%**	– / 27%
Architecture	4.1% / 7.3%	**1.6% / 29%**	– / 55%

International share in North Dakota / U.S., 2025. Data from NCES, IPEDS Completions.

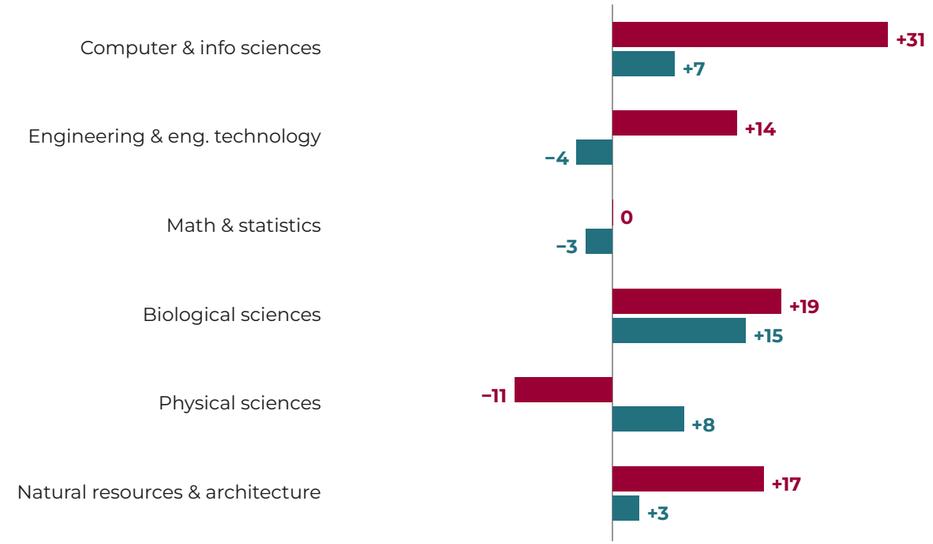

SECTION 1 · INTERNATIONAL DEPENDENCE

How Has North Dakota's STEM Master's Output Grown?

Each pair of bars is the change in the number of STEM master's degrees awarded in North Dakota between 2015 and 2025 in one field: to domestic students (U.S. citizens and permanent residents) and to international students. Bars to the left of the axis are declines.

STEM master's degrees. The state awarded 340 in 2025 and 244 in 2015, a change of +26 for international students and +70 for domestic students.

Figure 6 Where Did the STEM Master's Growth Come From?

Change in STEM master's degrees by field, 2015–2025. Data from NCES, IPEDS Completions.

STEM master's degrees awarded in North Dakota, all students and international students, 2015 and 2025. Data from NCES, IPEDS Completions.

SECTION 2

STEM Degrees

North Dakota ranks 37th of 51 on the STEM share of bachelor's, at 21% in 2025 against 24% for the U.S.

Figure 7 How Much of North Dakota's Degree Output Is STEM?

STEM share of degrees by level; state solid, U.S. dashed. Data from NCES, IPEDS Completions.

STEM fields account for 21% of North Dakota's bachelor's degrees, 18% of its master's and 39% of its research doctorates (U.S. 24%, 23% and 39%).

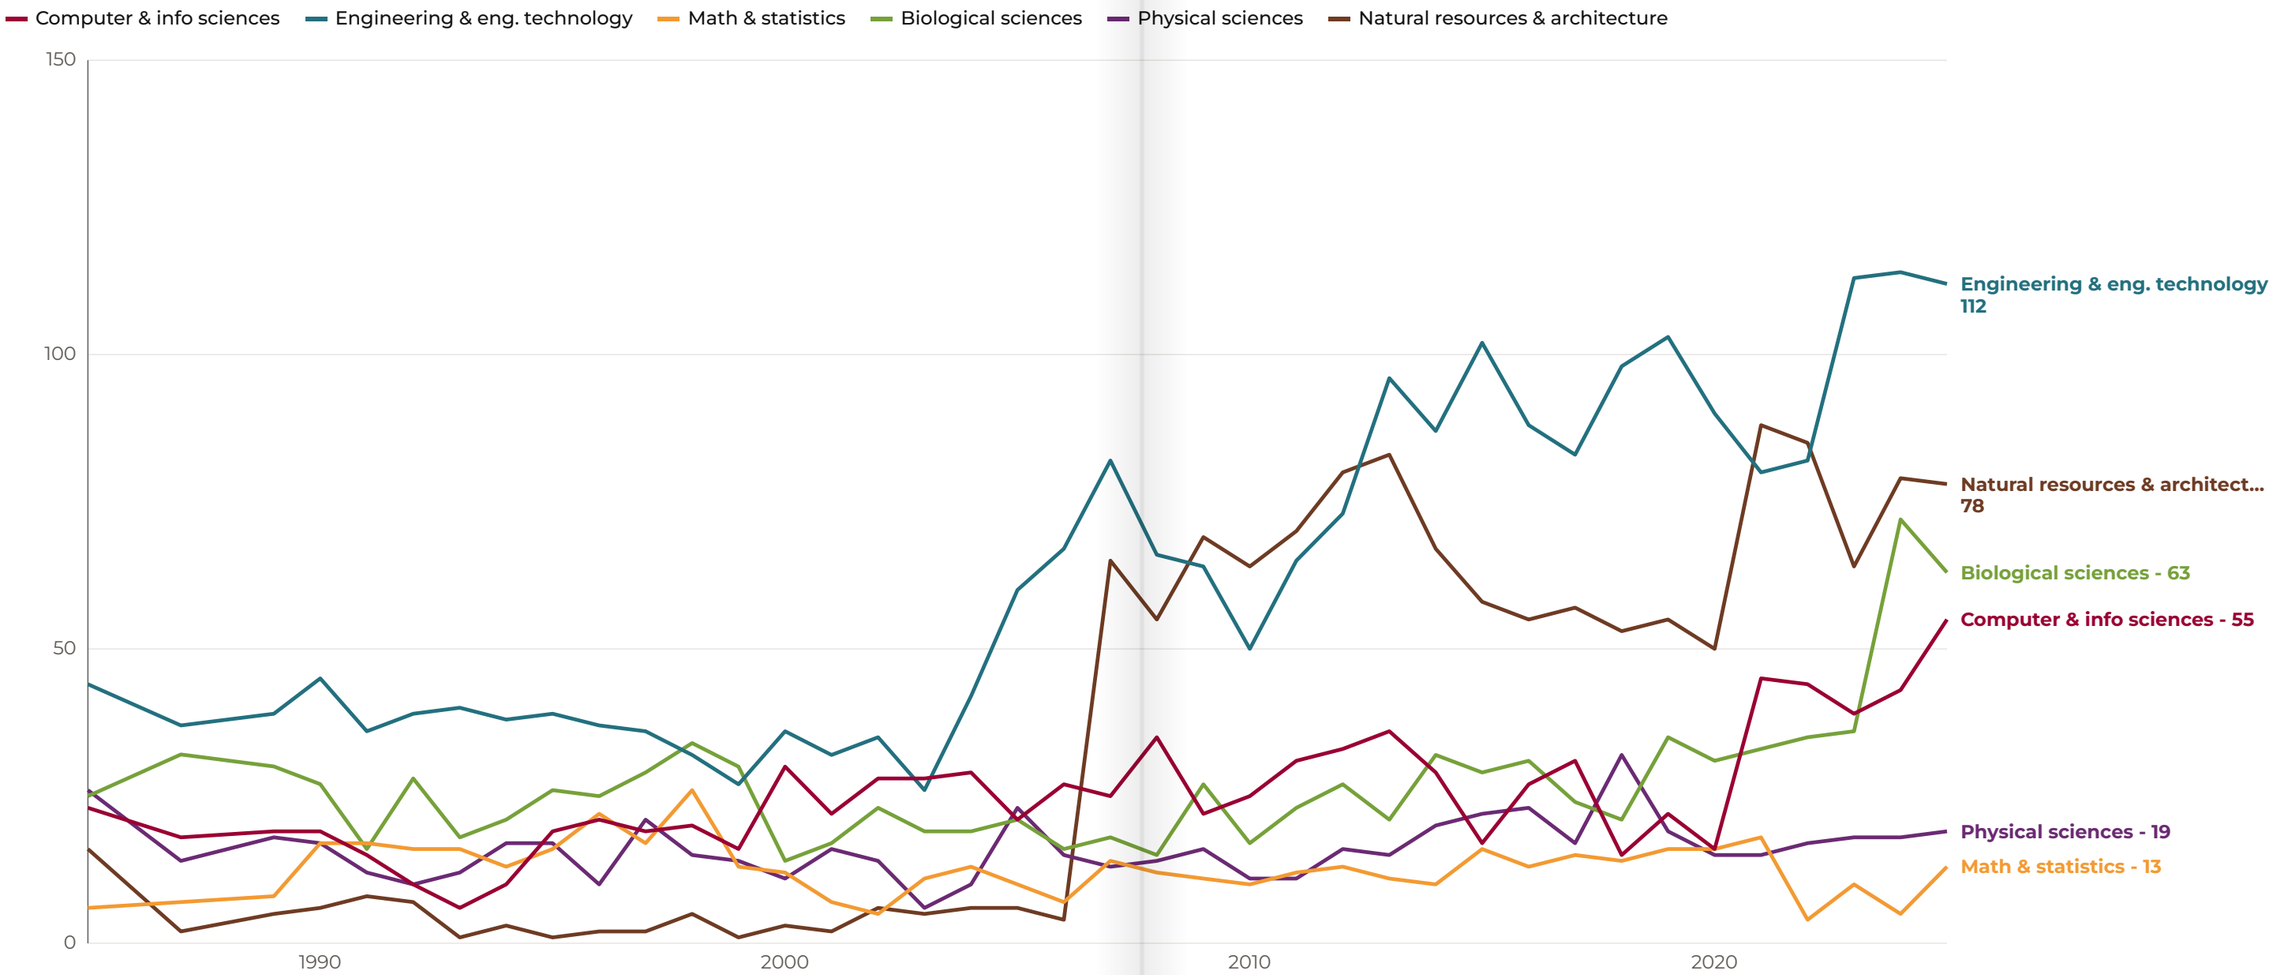

The STEM share of master's degrees is up 4.0 points since 2015, and the state ranks 30th of 51 on it. On the STEM share of bachelor's degrees it ranks 37th of 51.

21%
STEM share of bachelor's, 2025

SECTION 5

Graduate Research

North Dakota ranks 44th of 51 on the temporary-visa share of S&E postdocs, at 40% in 2016 against 56% for the U.S.

Figure 15 How Many of North Dakota's Science and Engineering Graduate Students Hold Temporary Visas?

Temporary-visa share of science and engineering graduate students and postdoctoral appointees, by the institution's state; state solid, U.S. dashed. NSF stopped publishing state tables after 2016. Data from NSF NCSES, Survey of Graduate Students and Postdoctorates.

In 2016, the last year NSF published state tables, 34% of North Dakota's science and engineering graduate students held temporary visas (U.S. 39%; 26th of 51).

Among postdoctoral researchers, the share was 40% (U.S. 56%). Postdocs are the stage of research training most dependent on international talent, and IPEDS does not count them.

The state's institutions awarded 209 research doctorates in 2025, 0.4% of the U.S. total (Data from NSF NCSES, Survey of Earned Doctorates; NSF publishes doctorates by citizenship only for the nation).

SECTION 6

Do Graduates Stay?

North Dakota ranks 20th of 51 on the share of international graduates on OPT working in the state where they studied, at 39% in 2016 against 44% for the U.S.

Figure 16 How Many of North Dakota's Graduates Go On to Work in the State?

Share of employed graduates working in the state of their institution, by graduating cohort (Data from U.S. Census Bureau, Post-Secondary Employment Outcomes; participating institutions only); international graduates' OPT jobs in the state where they studied (Data from ICE, SEVIS FOIA releases; shares only, the file is truncated). State solid, U.S. or participating states dashed.

North Dakota's institutions do not take part in the Census Post-Secondary Employment Outcomes program, so in-state employment of its graduates is not published.

Among international graduates on Optional Practical Training in 2016, 39% worked in the state where they studied (U.S. 44%). That is the last year the released records cover, before most of the growth in international STEM master's degrees since 2015. Through migration between states, the state gained 1.7 bachelor's-plus adults per 1,000 such residents in 2025 (Data from U.S. Census Bureau, American Community Survey).

SECTION 7

Research Funding

North Dakota ranks 51st of 51 on the federally funded share of university R&D, at 36% in 2024 against 55% for the U.S.

Figure 17 How Much Research Money Flows Into North Dakota?

Nominal dollars (not adjusted for inflation), fiscal years; a line ending before the others is labeled with its last year. University R&D: Data from NSF NCSES, Higher Education Research and Development Survey (FY2003-09 predecessor survey). Federal R&D obligations by state of performance: Data from NSF NCSES, Survey of Federal Funds for R&D (coverage widens in FY2021). Grants from NSF, NIH, NASA and DOE Science plus R&D contracts: Data from USAspending.gov.

North Dakota's universities spent $399M on research and development in FY2024, 43rd of 51 among the states; 36% of it was federally funded (U.S. 55%).

Federal agencies obligated $210M for R&D performed in the state in FY2024. Research funding drives demand for graduate students and postdocs, the stage of training most dependent on international talent.

SECTION 8

H-1B Jobs and Green Cards

North Dakota ranks 46th of 51 on certified H-1B positions, by worksite, at 573 in 2025 against 914K for the U.S.

Figure 18 How Many Skilled-Visa Jobs and Green-Card Certifications Does North Dakota Generate?

Certified H-1B positions on labor condition applications by worksite and certified PERM green-card applications, by fiscal year (Data from DOL, Office of Foreign Labor Certification); new H-1B petition approvals by the employer's address (Data from USCIS, H-1B Employer Data Hub).

Employers were certified for 573 H-1B positions at North Dakota worksites in FY2025, 46th of 51 among the states. A labor condition application comes before the petition and covers renewals and job changes as well as new hires, by the worksite's state, so it runs well above approvals. USCIS approved 112 new H-1B petitions in FY2026 and 182 continuing ones, counted by the employer's address.

DOL certified 304 PERM applications, the employer's step toward an employment-based green card, for jobs in the state in FY2025. In FY2024, 12% were for workers still on F-1 student visas (U.S. 8.7%): the most direct link from classroom to permanent residence.

573

SECTION 11

Competitors

The four states closest in total fall enrollment, measured proportionally (a state 1.5 times as large counts as near as one two-thirds the size), are South Dakota, Delaware, Montana, and Hawaii. North Dakota ranks 3rd of the five on the international share of STEM master's; Delaware is the most dependent at 72%.

Figure 22 How Dependent Are North Dakota and Its Peers on International STEM Master's?

SECTION 12

Fields of Study

Figure 27 How Many Degrees Does North Dakota Award?

Degrees awarded by level, first majors. Data from NCES, IPEDS Completions.

In 2025, North Dakota's institutions awarded 2.17K associate's degrees, 6.3K bachelor's degrees, 1.85K master's degrees, 313 research doctorate degrees, 409 professional doctorate degrees.

Since 2015: associate's down 6%; bachelor's roughly flat; master's up 9%; research doctorate up 62%; professional doctorate up 29%. The state awards 13.9 bachelor's degrees for every 100 undergraduates (U.S. 12.3).

Figure 28 What Do North Dakota's Bachelor's Graduates Study?

Share of bachelor's degrees by field, 2025. Data from NCES, IPEDS.

North Dakota's largest bachelor's fields are business (19%; U.S. 19%), health professions (13%; U.S. 13%), education (9.2%; U.S. 4.3%).

Relative to the nation, North Dakota's bachelor's degrees are most concentrated in transportation (16.99× the U.S. share), family & consumer sci. (2.88× the U.S. share), agriculture (2.44× the U.S. share).

Figure 30 How Has North Dakota's Bachelor's Field Mix Changed?

Share of bachelor's degrees in the largest fields. Data from NCES, IPEDS Completions.

Since 2015, transportation has gained the most ground, 3.1 points of the state's bachelor's degrees, while engineering lost the most (0.8 points).

The chart follows the share of bachelor's degrees in each of the state's largest fields; smaller fields are grouped as other fields.

SECTION 12 · FIELDS OF STUDY

Where Is North Dakota Most Specialized?

The location quotient divides a field's share of North Dakota's bachelor's degrees by its share of all U.S. bachelor's degrees in 2025. A quotient of 1.00 means the same share as the nation; 2.00 means twice the national share. The table lists the 10 fields with the highest quotients among fields with at least 50 degrees.

Highest location quotients. Transportation (16.99, with 6.2% of the state's bachelor's degrees against 0.4% for the U.S.), family & consumer sci. (2.88, with 2.4% of the state's bachelor's degrees against 0.8% for the U.S.), and agriculture (2.44, with 2.5% of the state's bachelor's degrees against 1.0% for the U.S.) had the highest quotients.

Table 5 Where Is North Dakota Most Specialized?

Field	Location quotient	State share	U.S. share	Degrees
Transportation	**16.99**	6.2%	0.4%	390
Family & consumer sci.	**2.88**	2.4%	0.8%	149
Agriculture	**2.44**	2.5%	1.0%	158
Education	**2.13**	9.2%	4.3%	581

Private nonprofit institutions enrolled **13%** of students, up 3.7 points from 9.4% in 2015, and for-profit institutions enrolled **0.1%** of students, down 1.0 point from 1.1% in 2015.

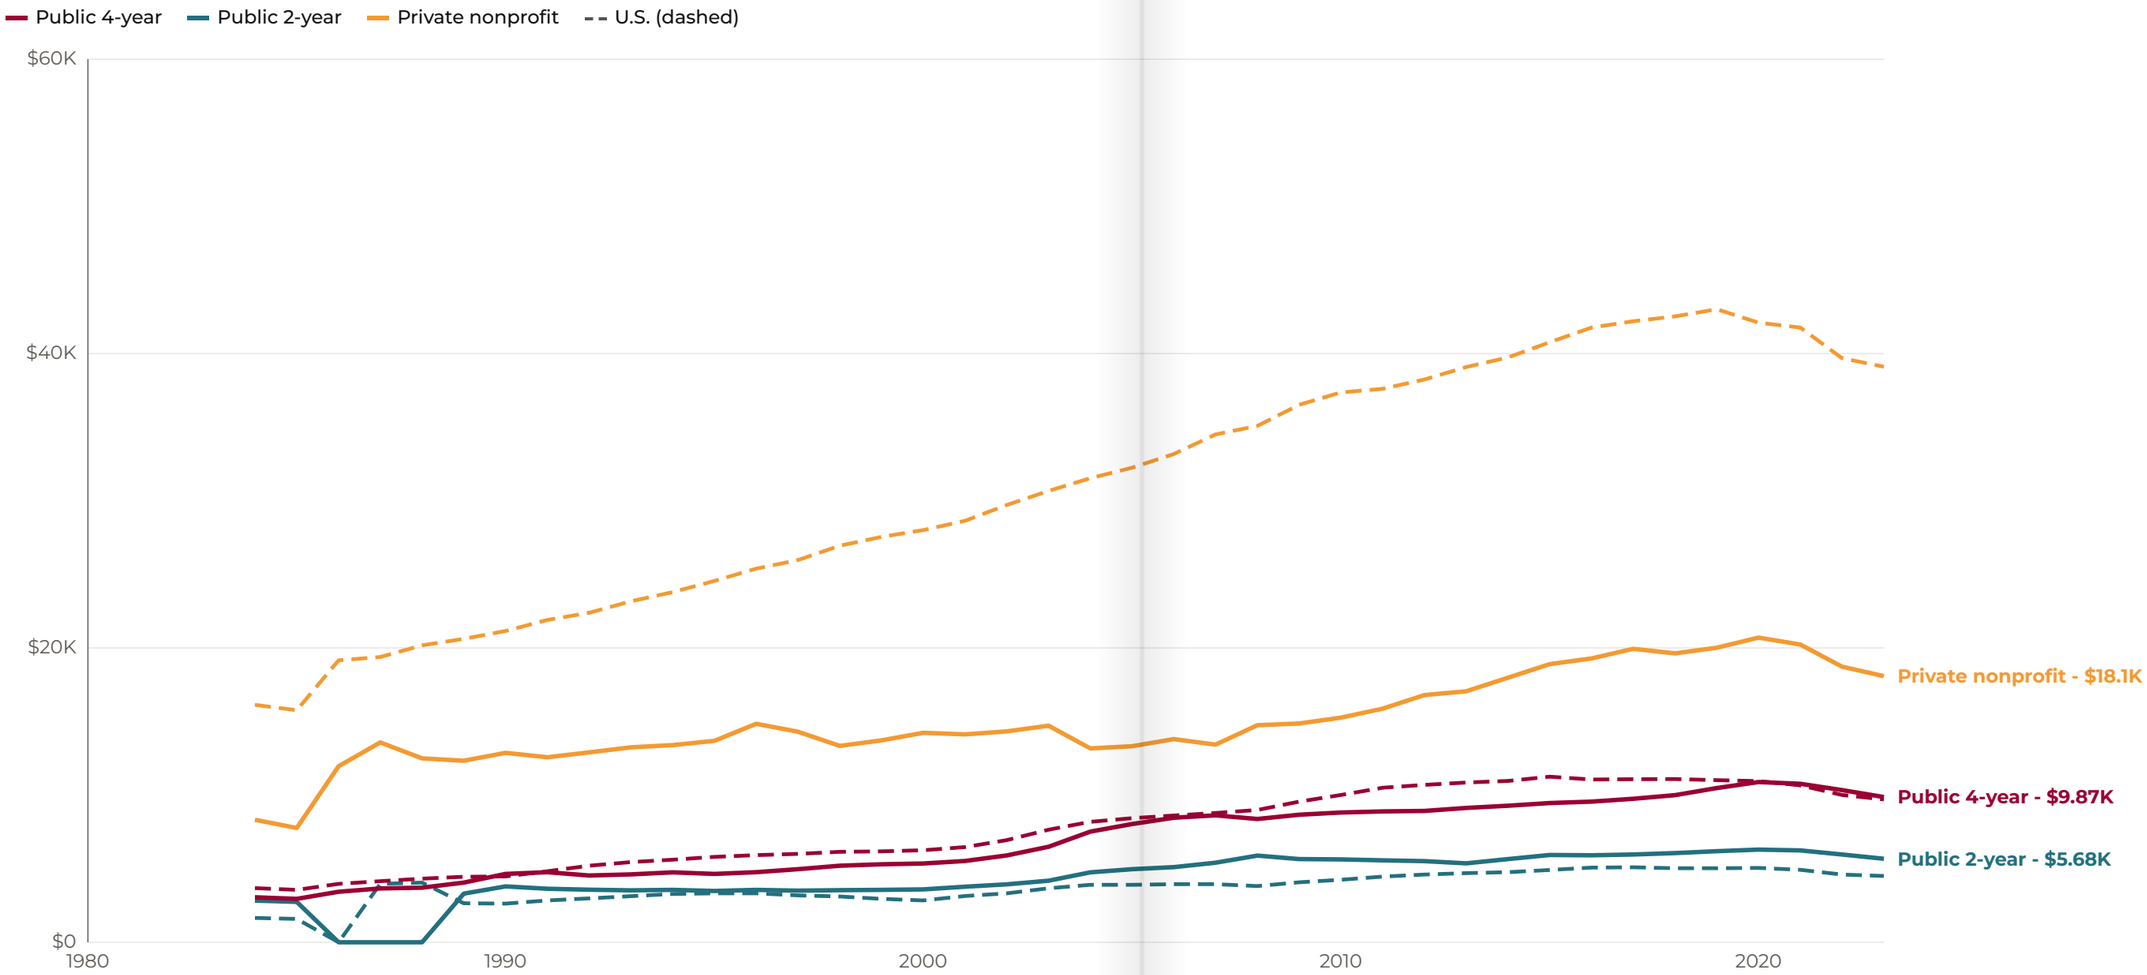

Public institutions together enrolled **87%** of students, against 73% nationally, 12th among the states.

Figure 33 Where Do Students Enroll?

Share of fall headcount enrollment by sector, 2015, 2019, 2024. Sectors as IPEDS classifies them each year. Data from NCES, IPEDS.

Figure 34 What Does In-State Tuition Cost?

Published in-state tuition and fees, 2024 dollars (CPI-U); state solid, U.S. dashed. Data from NCES, IPEDS.

In-state tuition and fees at North Dakota's public four-year institutions are $9.87K (2023, 2024 dollars), close to the U.S. figure ($9.71K); the state ranks 28th of 51.

State and local appropriations come to $11.9K per full-time-equivalent student at public institutions (16th of 51), and net tuition makes up 48% of net tuition plus state and local appropriations (U.S. 43%).

SECTION 13 · STUDENTS AND MONEY

How Are North Dakota's Public Institutions Funded, and What Do They Produce?

The bars give each source's share of the core revenue of North Dakota's public institutions, with the nation for comparison, and at right the dollars per full-time-equivalent (FTE) student it provides. Values are in 2024 dollars (CPI-U). Net tuition is tuition and fees after institutional discounts and allowances.

Net tuition per FTE student. The figure was $10.9K in FY2024, against $8.96K for the U.S., down 5.7% from $11.6K in FY2023 and up 4.7% since FY2015, when it was $10.4K.

Figure 35 How Are Public Institutions Funded?

Share of core revenue per FTE student by source, public institutions, FY2024; dollars per FTE at right, 2024 dollars (CPI-U). Shares are of all five sources; the tuition share elsewhere in this profile divides net tuition by net tuition plus state and local appropriations only. Data from NCES, IPEDS Finance.

U.S. **41%** · **9th** of 50 · +10.6 pp since 2015

13.9
Bachelor's per 100 undergraduates, 2025
U.S. **12.3** · **14th** of 51 · +0.5 since 2015

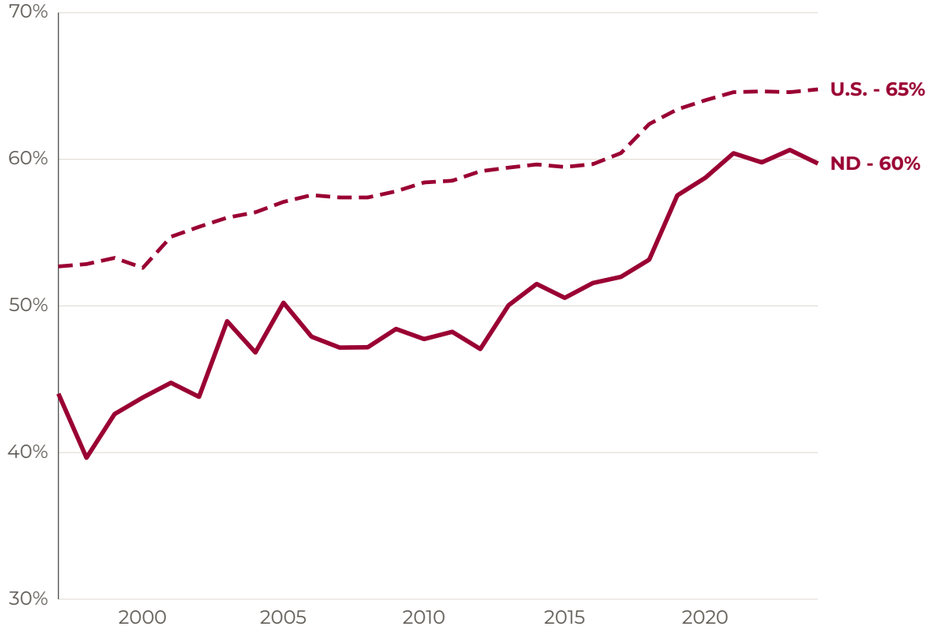

SECTION 14 · STUDENT OUTCOMES

How Many of North Dakota's Students Graduate?

The line follows the share of first-time, full-time bachelor's-degree students at North Dakota's four-year institutions who graduated from the institution where they started within six years (150% of normal time). Each year is the cohort that entered six years earlier. The rate leaves out students who start part-time (36% of the state's students attend part-time, against 39% nationally) and students who transfer and finish elsewhere. The state is solid and the United States dashed.

Six-year graduation rate. The rate was 60% in 2024, against 65% for the U.S., down 0.9 points from 61% in 2023 and up 9.2 points since 2015, when it was 51%.

Figure 37 Six-Year Bachelor's Graduation Rate

Four-year institutions; state solid, U.S. dashed. Data from NCES, IPEDS Graduation Rates.

SECTION 15

Faculty

North Dakota ranks 42nd of 51 on the average full-time faculty salary, at $82.6K in 2024 against $106K for the U.S.

Figure 39 What Do North Dakota's Faculty Earn, by Rank?

Average salary of full-time instructional faculty on 9/10-month contracts, by academic rank, 2024 dollars (CPI-U). Data from NCES, IPEDS Human Resources.

Full-time instructional faculty on 9/10-month contracts at North Dakota's institutions earned an average of $82.6K in 2024 (2024 dollars), 22% below the U.S. ($106K); the state ranks 42nd of 51. By rank (2024): professors $112K, associate professors $84.6K, assistant professors $74.8K, instructors $58.1K, lecturers $67.3K.

North Dakota's institutions had 2.25K full-time instructional staff in 2024, down 8% since 2015. Average salary across all ranks is down 7% since 2016.

U.S. **$106K** · **42nd** of 51 · −7.4% since 2016

SECTION 15 · FACULTY

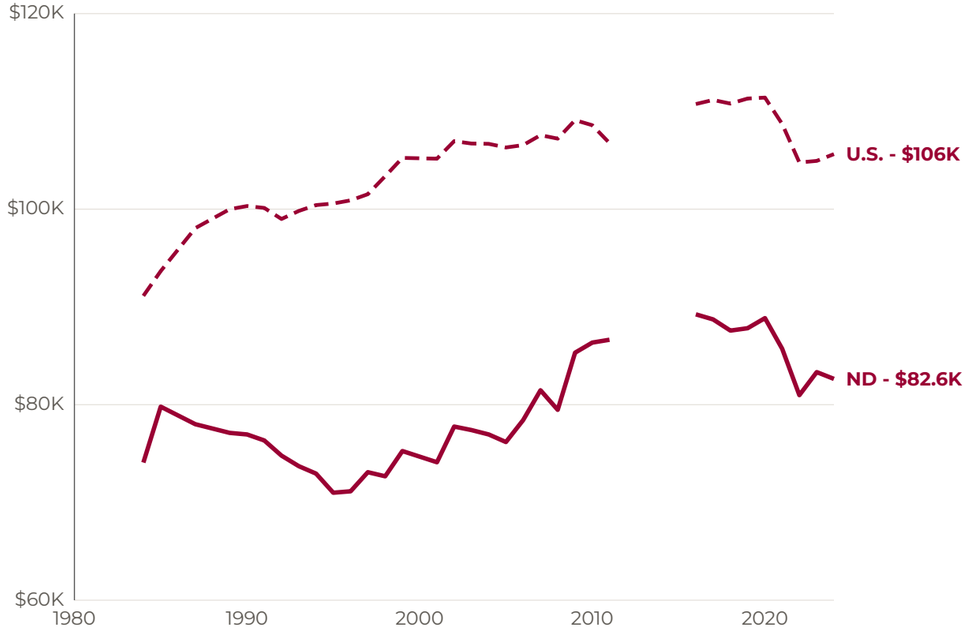

What Do North Dakota's Faculty Earn, and How Many Hold Tenure?

The line follows the average salary of full-time instructional faculty on 9- or 10-month contracts at North Dakota's degree-granting institutions, all ranks combined, in 2024 dollars (CPI-U). The state is solid and the United States dashed.

Average salary. The figure was $82.6K in 2024, against $106K for the U.S., 42nd among the states, down 0.8% from $83.3K in 2023 and down 7.4% since 2016, when it was $89.2K.

Full-time instructional staff. The number was 2.25K in 2024, down 2.0% from 2.3K in 2023 and down 7.7% since 2015, when it was 2.44K.

Figure 40 Average Faculty Salary

Full-time instructional faculty, 9/10-month, 2024 dollars. Data from NCES, IPEDS.

2.25K
Full-time instructional staff, 2024

36%
Tenured, 2024

The bars divide North Dakota's full-time instructional staff by tenure status in 2015, 2019 and 2024: tenured, on the tenure track, not on the tenure track (for example, lecturers on fixed-term contracts), and staff at institutions with no tenure system.

Tenured, share of full-time instructional staff. The share was 36% in 2024, down 0.9 points from 37% in 2023 and down 4.5 points since 2015, when it was 41%.

Figure 41 Tenure Status

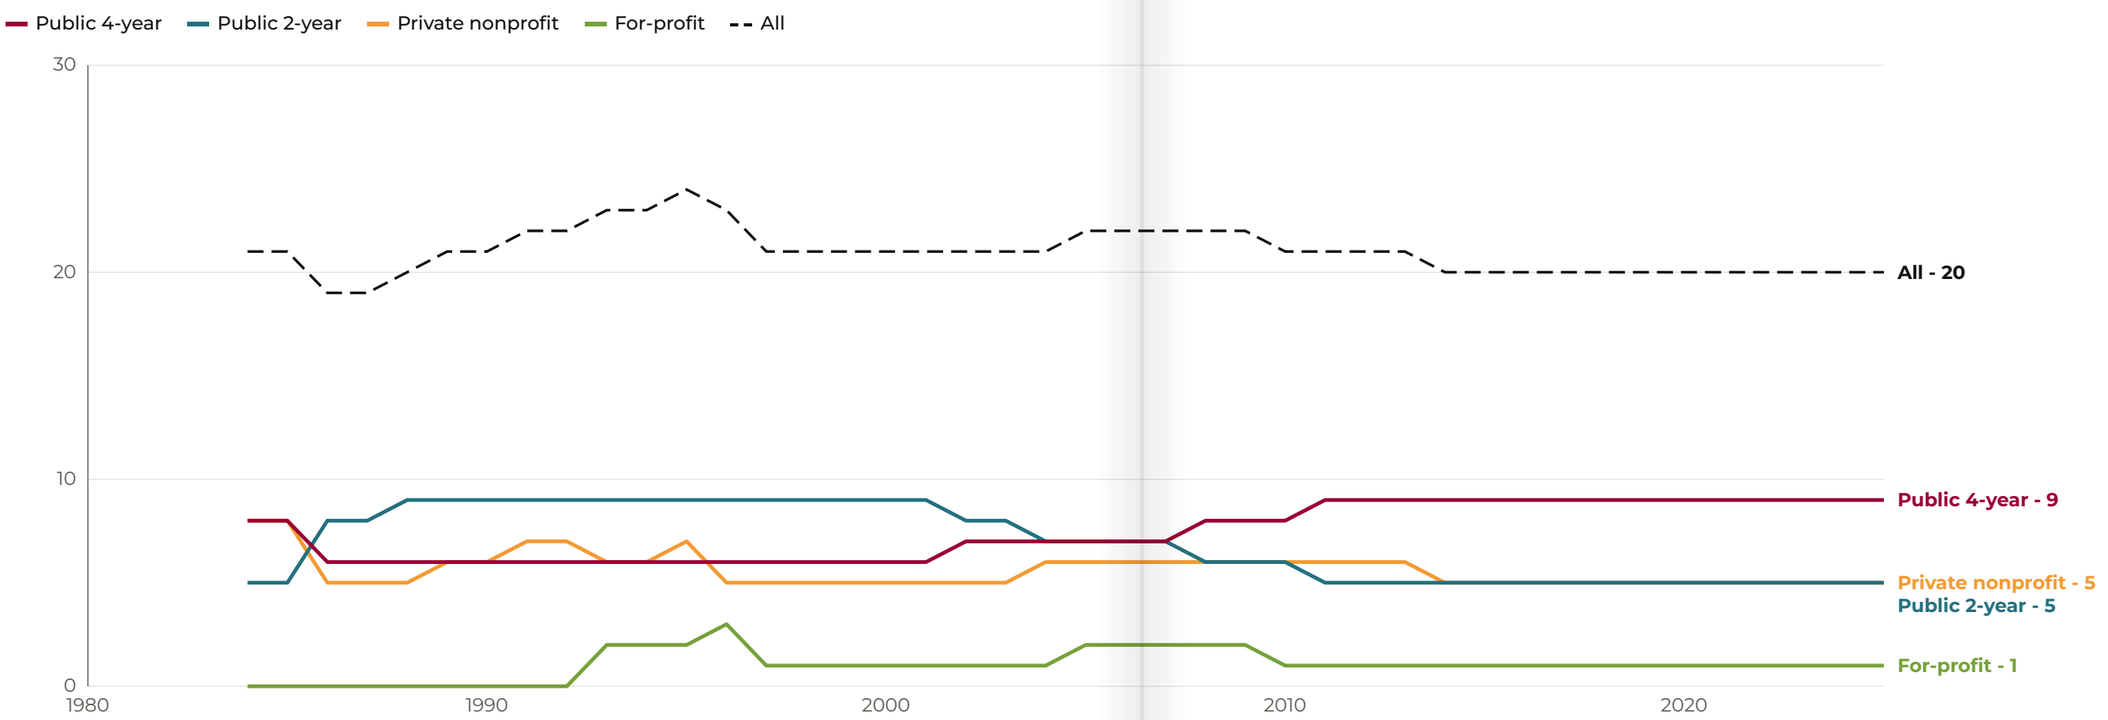

Full-time instructional staff by tenure status, 2015, 2019, 2024. Data from NCES, IPEDS.

SECTION 16

Institutions

North Dakota ranks 42nd of 51 on the share of enrollment at for-profit institutions, at 0.1% in 2024 against 5.5% for the U.S.

Figure 42 How Many Institutions Does North Dakota Have?

Degree-granting institutions by sector. Data from NCES, IPEDS.

North Dakota has 20 degree-granting institutions:9 public 4-year, 5 public 2-year, 5 private nonprofit, 1 for-profit (2025).

The number of institutions is roughly flat since 2015. 87% of students attend public institutions and 0.1% attend for-profit ones.

SECTION 16 · INSTITUTIONS

Which Institutions Lead in North Dakota?

The table lists North Dakota's largest degree-granting institutions by fall 2024 headcount enrollment, with the international share of graduate students, STEM bachelor's degrees awarded in 2025, the six-year graduation rate and the admission rate (a dash where the institution admits all applicants or does not report one).

Largest. The three largest were University of North Dakota (15K students), North Dakota State University-Main Campus (12K students), and Bismarck State College (4.21K students).

Degree-granting institutions. The state had 20 in 2025, and 20 of them reported the enrollment and degree data in these tables.

Table 8 What Are North Dakota's Largest Institutions?

Institution	Enrollment	Int. share, grad	STEM bachelor's	Six-year grad rate	Admit rate
University of North Dakota	**15K**	12%	377	61%	77%
North Dakota State University-Main Campus	**12K**	33%	681	64%	95%
Bismarck State College	**4.21K**	–	13	–	–
University of Mary	**3.86K**	3.7%	89	67%	75%
North Dakota State College of Science	**3.37K**	–	–	–	–
Minot State University	**2.75K**	22%	43	45%	65%
Lake Region State College	**1.9K**	–	–	–	–
Valley City State University	**1.81K**	2.6%	15	53%	99%
Dickinson State University	**1.41K**	2.8%	21	48%	37%
University of Jamestown	**1.38K**	2.4%	32	49%	88%

Data from NCES, IPEDS.

NOTES

About These Data

International students

U.S. nonresidents on temporary visas, as IPEDS defines them. IPEDS does not record country of citizenship. Permanent residents count with U.S. citizens.

STEM

CIP families 03, 04, 11, 14, 15, 26, 27 and 40. Doctorates are research and scholarship doctorates; professional doctorates appear only in the degree-count figure. Degrees are first majors only.

Universe

Degree-granting institutions located in the state; Title IV participants from 1996. Geography is the institution's location, not the student's home. Enrollment is fall headcount.

Migration

First-time degree-seeking undergraduates by home state, reported in even years before 2001 and every year since; odd years with incomplete reporting are omitted. Net migration is students arriving from other states minus residents leaving, per 100 resident first-time students.

Money

Tuition, appropriations, revenue and faculty salaries are in 2024 dollars using the CPI-U. Research funding (HERD, Federal Funds, USAspending), wages and the NAFSA economic contribution are nominal dollars, and are labeled so. Appropriations and revenue are per full-time-equivalent student at public institutions; the tuition share divides net tuition by net tuition plus state and local appropriations.

Race and ethnicity

IPEDS did not collect race and ethnicity in every year before 2010, and categories changed in 2008–2010; “Two or more” exists only from then.

Countries of citizenship

From DHS SEVIS by the Numbers: active F-1 and M-1 student records in the month named, at every level from primary school to doctorate, by the state of the school. IPEDS records only whether a student is a U.S. nonresident, not where they come from. SEVIS counts are monthly snapshots and are not directly comparable with IPEDS fall enrollment or degree counts. Year-to-year comparisons use one fall snapshot per year (the month closest to November).

Peers

Comparison states are the four closest in total fall enrollment, measured proportionally: a state 1.5 times as large counts as near as one two-thirds the size.

Sources

IPEDS (National Center for Education Statistics) is the backbone: Institutional Characteristics, Fall Enrollment, Completions, Graduation Rates, Finance, Human Resources and Admissions, 1980–2025, harmonized into a state panel. The profile also draws on NAEP, NSF's Survey of Graduate Students and Postdoctorates, Survey of Earned Doctorates, HERD and Federal Funds surveys, USAspending.gov, DHS SEVIS by the Numbers and ICE SEVIS releases, the Department of Labor's Office of Foreign Labor Certification and BLS wage data, the USCIS H-1B Employer Data Hub, the Census Bureau's American Community Survey and Post-Secondary Employment Outcomes, USPTO PatentsView, and other federal sources; every figure names its source, and the Sources page lists them in full. Generated November 2026.

NOTES

How the Numbers Are Counted

Ranks

Ranks are among the 50 states and the District of Columbia (1 = highest value, whether or not a high value is good). Where fewer than 51 report, the count is given ("23rd of 33").

Sectors

Sectors are as IPEDS classifies institutions each year. IPEDS moves a whole institution to "public, 4-year or above" once it awards any bachelor's degree, so community colleges that began offering applied bachelor's degrees carry all of their students into the public 4-year sector. Sector series (enrollment shares, public 4-year tuition, graduation rates by sector) reflect these moves.

Research doctorates

Two counts appear. IPEDS counts degrees institutions report as "doctor's degree, research/scholarship", which includes some practice-oriented degrees such as many Ed.D.s; the NSF Survey of Earned Doctorates counts research doctorate recipients and is smaller. Each figure names which it uses. "STEM master's per STEM research doctorate" divides IPEDS STEM master's degrees by IPEDS STEM research doctorates.

Engineering

"Engineering" alone is CIP 14. Where engineering technology (CIP 15) is added, the label says "engineering & eng. technology".

Graduation rates

IPEDS graduation rates follow first-time, full-time students and count only those who finish at the institution where they started, so they leave out part-time starters and students who transfer and finish elsewhere.

International students in SEVIS

SEVIS counts active F-1 and M-1 records, which include graduates on Optional Practical Training (up to 36 months for STEM graduates, 12 for others), so STEM shares run high. STEM follows the DHS STEM Designated Degree Program List, which is broader than the eight CIP families above, and DHS draws its STEM pages on a different basis from its all-student pages, so a country's STEM count can exceed its all-level count.

Visas and green cards

DOL labor condition applications (H-1B positions) are counted by worksite and include renewals and job changes; USCIS approvals are counted by the employer's address and split into new and continuing. PERM certifications are the employer's step toward a green card.

Patents

Patents are counted by the owner's (assignee's) location, not where inventors live; a company headquartered in another state takes its patents there.

Years

Each measure uses its latest year, so years differ across a page; every figure, table and statement gives its year, and lines that stop early are labeled with their last year.
