Authors

Emerson Victoria Johnston is a research assistant with the Hoover Institution's Technology Policy Accelerator. A Knight-Hennessy Scholar, she holds a master's in international policy from Stanford University, and is on leave from its master's program in the history of science, technology, environment, and medicine.

Dr. Amy Zegart is the Morris Arnold and Nona Jean Cox Senior Fellow at the Hoover Institution, director of Hoover's Technology Policy Accelerator, and a senior fellow and associate director at Stanford University's Institute for Human-Centered Artificial Intelligence.

Data come from the Integrated Postsecondary Education Data System (IPEDS), the Department of Homeland Security's SEVIS by the Numbers, the National Assessment of Educational Progress, NSF's Survey of Graduate Students and Postdoctorates and Survey of Earned Doctorates, the Department of Labor's Office of Foreign Labor Certification, the USCIS H-1B Employer Data Hub, the Census Bureau's American Community Survey and USPTO patent data via PatentsView, processed in Python; every figure and table is generated from those sources, and each one names its source.

About This Profile

This profile is a companion to *The 2026 US Talent Report: Benchmarking America's STEM Pipeline Amid the Great Talent Competition*. It applies the report's measures to Connecticut: the students the state develops at home, those it draws from abroad, and how both compare with the nation and with the states closest to it in size.

Degrees, enrollment, prices, outcomes and faculty come from IPEDS, the federal census of U.S. colleges and universities, harmonized across 1980–2025. Countries of citizenship come from SEVIS by the Numbers, the Department of Homeland Security's monthly count of active F-1 and M-1 students. Each figure names its source. Peer states are the four closest in total fall enrollment.

Public Data and Tools

The data behind every chart come from federal sources: the Integrated Postsecondary Education Data System (IPEDS), published by the National Center for Education Statistics, as the backbone, together with NAEP, NSF's surveys of graduate students, doctorates and research funding, USAspending.gov, DHS and ICE SEVIS data, the Department of Labor, USCIS, the Census Bureau's American Community Survey and Post-Secondary Employment Outcomes, and USPTO PatentsView. Each figure names its source, and the Sources page lists all of them. An interactive version of this profile accompanies the report.

AT A GLANCE

What Connecticut's numbers say

1. **International students earn 68% of Connecticut's STEM master's degrees,** 16.1 points above the U.S. (52%) in 2025, ranking 4th of 51 on dependence. The share is 47% for STEM research doctorates (U.S. 43%) and 6.0% for STEM bachelor's (U.S. 6.6%).
2. **Connecticut awarded 2.83K STEM master's degrees to international students in 2025,** 2.4% of the U.S. total and 14th of 51 among states. Since 2015 the count changed 4.3×, against 2.2× nationally.
3. **The heaviest dependence is in computer & info sciences,** where international students earned 92% of master's degrees (1.36K degrees; U.S. 65%). 4 STEM fields with at least 50 master's graduates are majority-international.
4. **Among states of similar size,** Connecticut ranks 1st of 5 on the international share of STEM master's: Connecticut 68%, Kansas 50%, Oklahoma 40%, Oregon 37%, Iowa 55%.
5. **61% of Connecticut's first-time students in fall 2024 were state residents** and 2.7% came from abroad. More residents left for other states (13.6K) than students arrived from them (11.9K), a net loss of 1.67K; the top destination for those leaving was Massachusetts.

68%

of the STEM master's degrees Connecticut awards go to international students (U.S. 52%).

SECTION 1

International Dependence

Connecticut ranks 4th of 51 on the international share of all master's, at 36% in 2025 against 22% for the U.S.

Figure 1 What Share of Connecticut's Degrees Go to International Students?

International share of degrees awarded, all fields; state solid, U.S. dashed. Data from NCES, IPEDS Completions, 1985–2025.

International students make up 26% of Connecticut's graduate enrollment and 3.0% of its undergraduates. Dependence climbs with each degree: 4.0% of bachelor's, 36% of master's and 34% of research doctorates go to international students.

In STEM the shares are higher still: 6.0% of STEM bachelor's, 68% of STEM master's and 47% of STEM doctorates. The state awards 2.4% of all U.S. international STEM master's, 14th of 51.

Figure 2 Where Do Connecticut's International Students Come From?

Active F-1 and M-1 students by country of citizenship, the five largest in October 2026; one fall snapshot per year (the month closest to November), October 2014–October 2026. All education levels. Data from DHS, SEVIS by the Numbers.

In October 2026, Connecticut had 19.8K active international students in SEVIS, 20th of 51. India accounted for 36% of them and China for 19%, against 27% and 18% nationally.

Students came from 166 countries, but the two largest supplied 55%. The state's total is up 27% since 2015, when it stood at 15.5K.

SECTION 1 · INTERNATIONAL DEPENDENCE

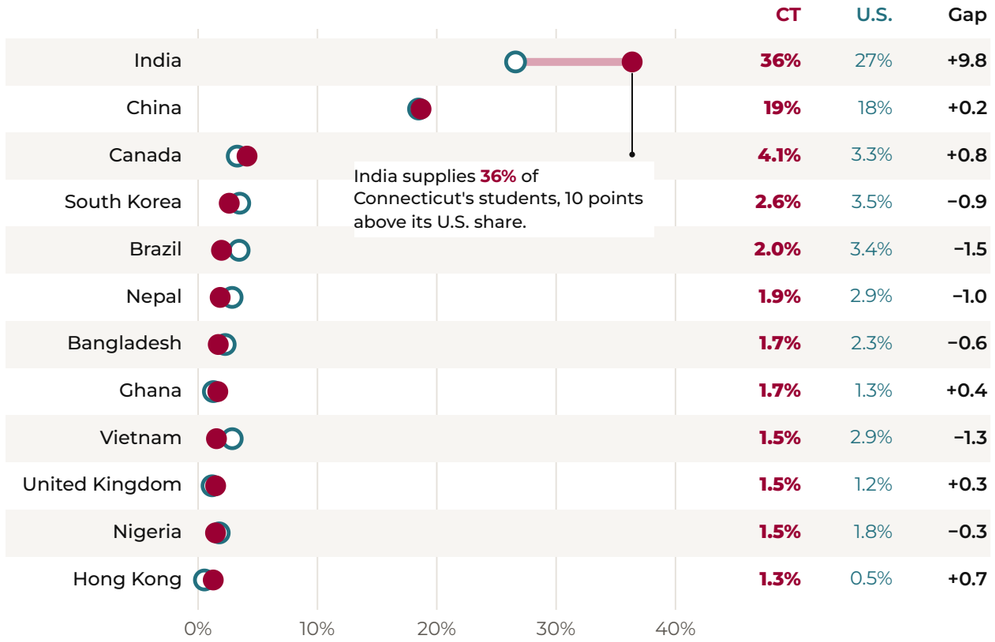

How Does Connecticut's Mix of Countries Compare With the Nation's?

In October 2026, Connecticut had **19.8K** active F-1 and M-1 students, 20th among the 50 states and DC and **1.7%** of the U.S. total. They came from 166 countries.

India supplied **36%** of them, against 27% nationally, and China **19%**, against 18%. Canada (4.1%), South Korea (2.6%), and Brazil (2.0%) followed.

Together the two largest countries supplied **55%** of the state's international students (U.S. 45%), 8th among the states, against 52% in 2015.

Figure 3 Is Connecticut's Mix of Countries Like the Nation's?

The state's count is down 13% from 2025 and up 27% since 2015, when it stood at 15.5K. Its share of all U.S. international students is up 0.4 points since 2015, to **1.7%**.

Since 2015, the number of students from India went from 3.15K to 7.18K, China's from 4.92K to 3.69K, and Canada's from 601 to 809.

Over the same years, the number from South Korea went from 711 to 516 and Brazil's from 195 to 388. The table gives each country's count for the first, previous and latest years.

Table 1 International Students in Connecticut, 2015–2026

	2015	2025	2026	Change since 2015	U.S. 2026	Rank
ALL INTERNATIONAL STUDENTS						
Active F-1 and M-1 students	15.5K	22.7K	**19.8K**	+27%	1.19M	20th
Share of U.S. active F-1/M-1 students	1.3%	1.8%	**1.7%**	+0.4 pp	–	20th
Countries of citizenship represented	166	167	**166**	0.0%	219	25th
Share from the two largest countries of origin	52%	60%	**55%**	+3.2 pp	45%	8th

Active F-1 and M-1 students, one fall snapshot per year (the month closest to November; 2019 has none; the latest year is October 2026). Rank among the 50 states and DC. Data from DHS, SEVIS by the Numbers.

Figure 4

Which Countries Supply Connecticut's International STEM Students?

10.8K of Connecticut's international students were in STEM fields in October 2026, **55%** of the total against 63% nationally, up 60% since 2015.

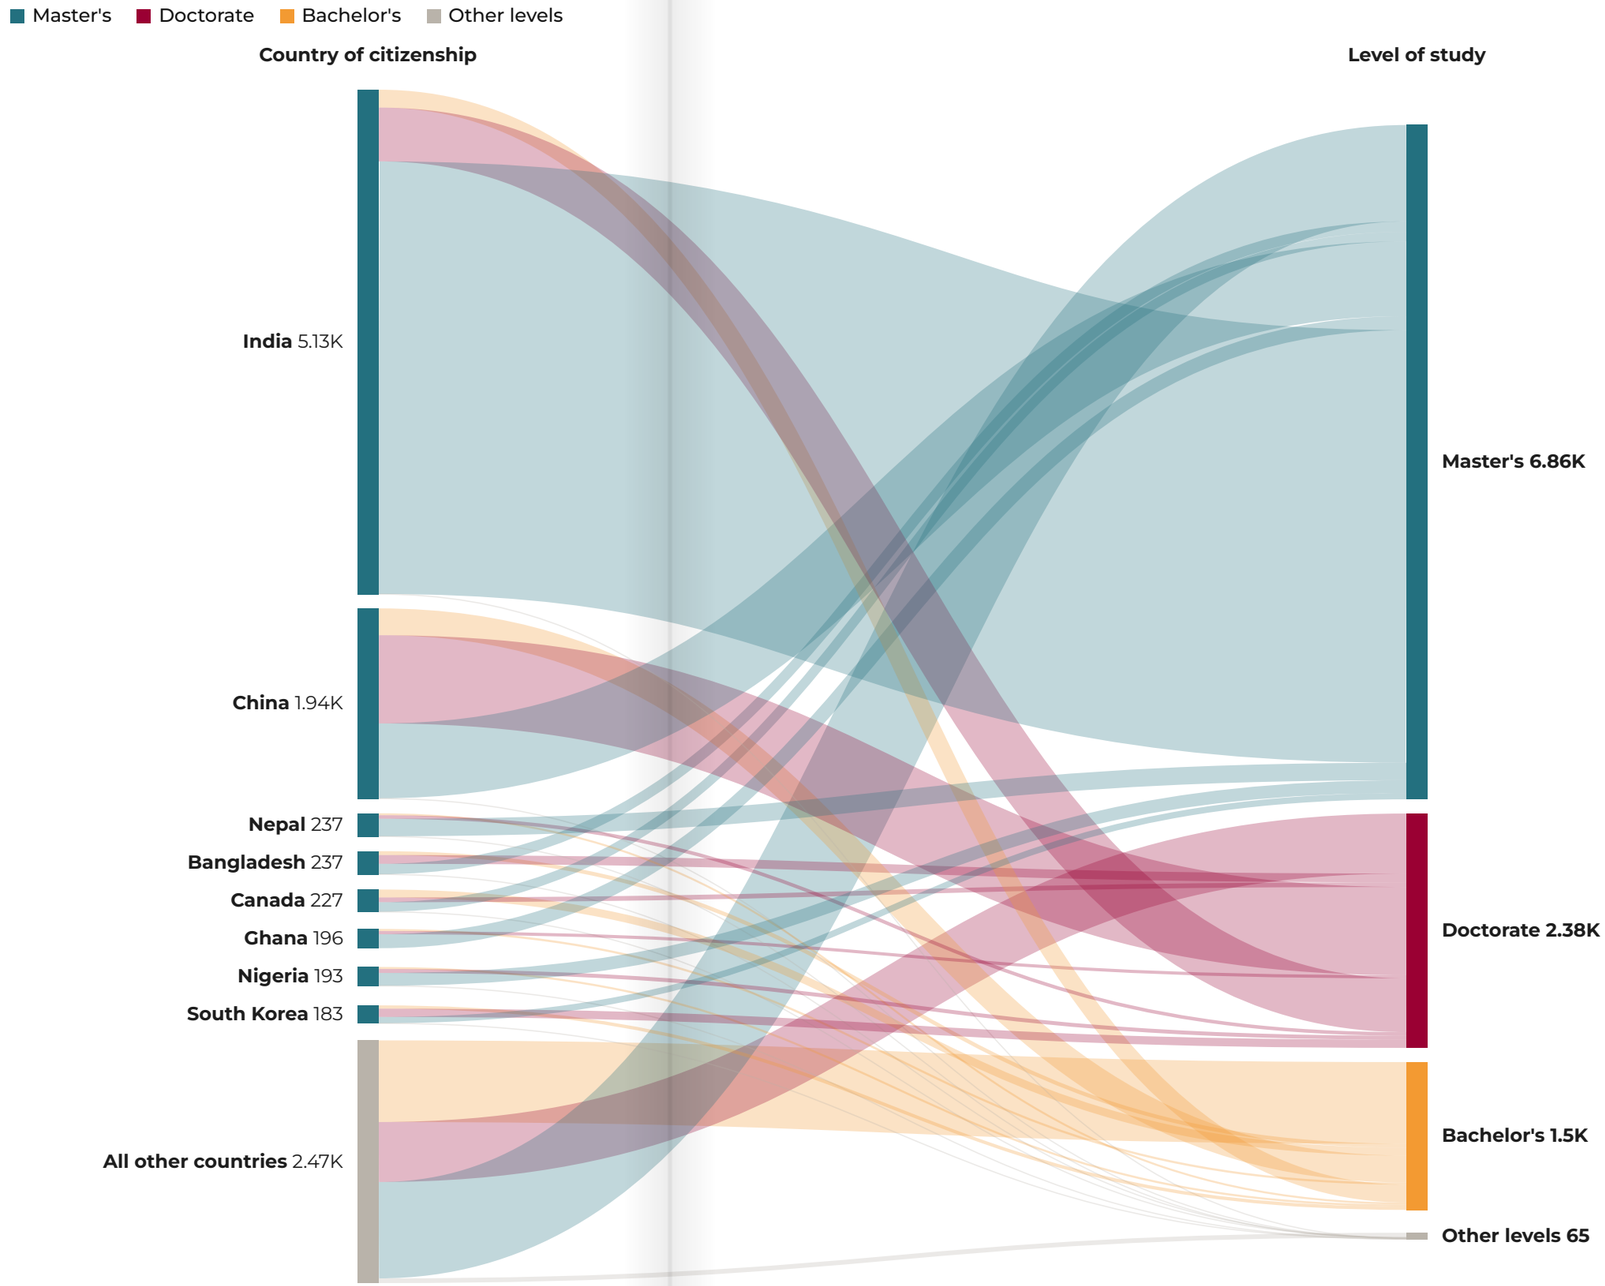

Master's students were the largest group, **6.86K**. India supplied 64% of them and China 11%.

STEM doctoral students went from 1.38K in 2015 to **2.38K**, and STEM master's students from 3.96K to 6.86K.

SECTION 1 · INTERNATIONAL DEPENDENCE

How International Are Connecticut's Master's Fields?

Each row is a master's field with at least 30 graduates in Connecticut in 2025, ranked by the share of degrees earned by international students (U.S. nonresidents on temporary visas). The filled dot is the state's share; the open dot is the national share for the same field.

Highest international shares. International students earned the largest shares of master's degrees in computer & info sciences (92%, against 65% for the U.S.), engineering technology (89%, against 54% for the U.S.), and engineering (71%, against 49% for the U.S.).

Figure 5 Which Master's Fields Depend Most on International Students?

International share of master's degrees by field, 2025; fields with 30+ graduates. Data from NCES, IPEDS Completions.

36%
Int. share of all master's, 2025
U.S. **22%** · **4th** of 51

68%
Int. share of STEM master's, 2025
U.S. **52%** · **4th** of 51

92%
Int. share of CS master's, 2025
U.S. **65%** · **2nd** of 47

74%
Int. share of engineering & eng. technology master's, 2025
U.S. **50%** · **1st** of 50

The table gives the international share of degrees in each STEM field at three levels: Connecticut first, the United States after the slash. The master's column is highlighted. A dash means the state awarded no degrees in the field at that level.

Highest international share among STEM master's fields. International students earned 92% of the master's degrees in computer & info sciences, against 65% for the U.S.

Fields with an international majority. International students earned more than half of the master's degrees in 4 STEM fields.

Table 2 How International Is Each STEM Field?

Field	Bachelor's	Master's	Doctorates
Computer & info sciences	7.8% / 8.6%	**92% / 65%**	– / 56%
Engineering	7.1% / 7.2%	**71% / 49%**	69% / 55%
Engineering technology	1.5% / 4.5%	**89% / 54%**	– / 42%
Math & statistics	11% / 17%	**67% / 55%**	71% / 53%
Physical sciences	3.9% / 6.0%	**38% / 33%**	39% / 38%
Biological sciences	3.4% / 3.4%	**43% / 23%**	26% / 23%
Natural resources	5.1% / 2.0%	**31% / 17%**	– / 27%
Architecture	3.4% / 7.3%	**49% / 29%**	– / 55%

International share in Connecticut / U.S., 2025. Data from NCES, IPEDS Completions.

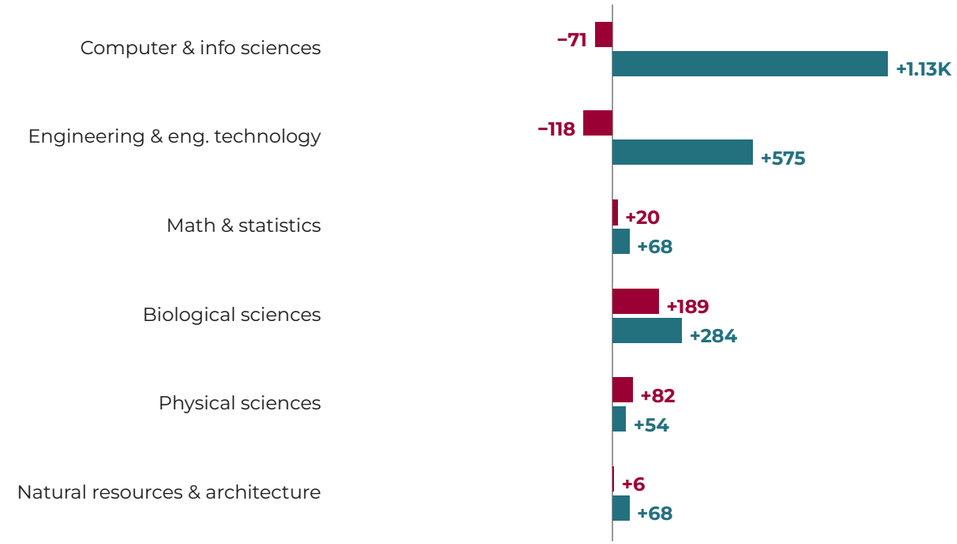

SECTION 1 · INTERNATIONAL DEPENDENCE

How Has Connecticut's STEM Master's Output Grown?

Each pair of bars is the change in the number of STEM master's degrees awarded in Connecticut between 2015 and 2025 in one field: to domestic students (U.S. citizens and permanent residents) and to international students. Bars to the left of the axis are declines.

STEM master's degrees. The state awarded 4.15K in 2025 and 1.87K in 2015, a change of +2.18K for international students and +108 for domestic students.

Figure 6 Where Did the STEM Master's Growth Come From?

Change in STEM master's degrees by field, 2015–2025. Data from NCES, IPEDS Completions.

Natural resources & architecture	267	**341**	+28%	125	21%	37%

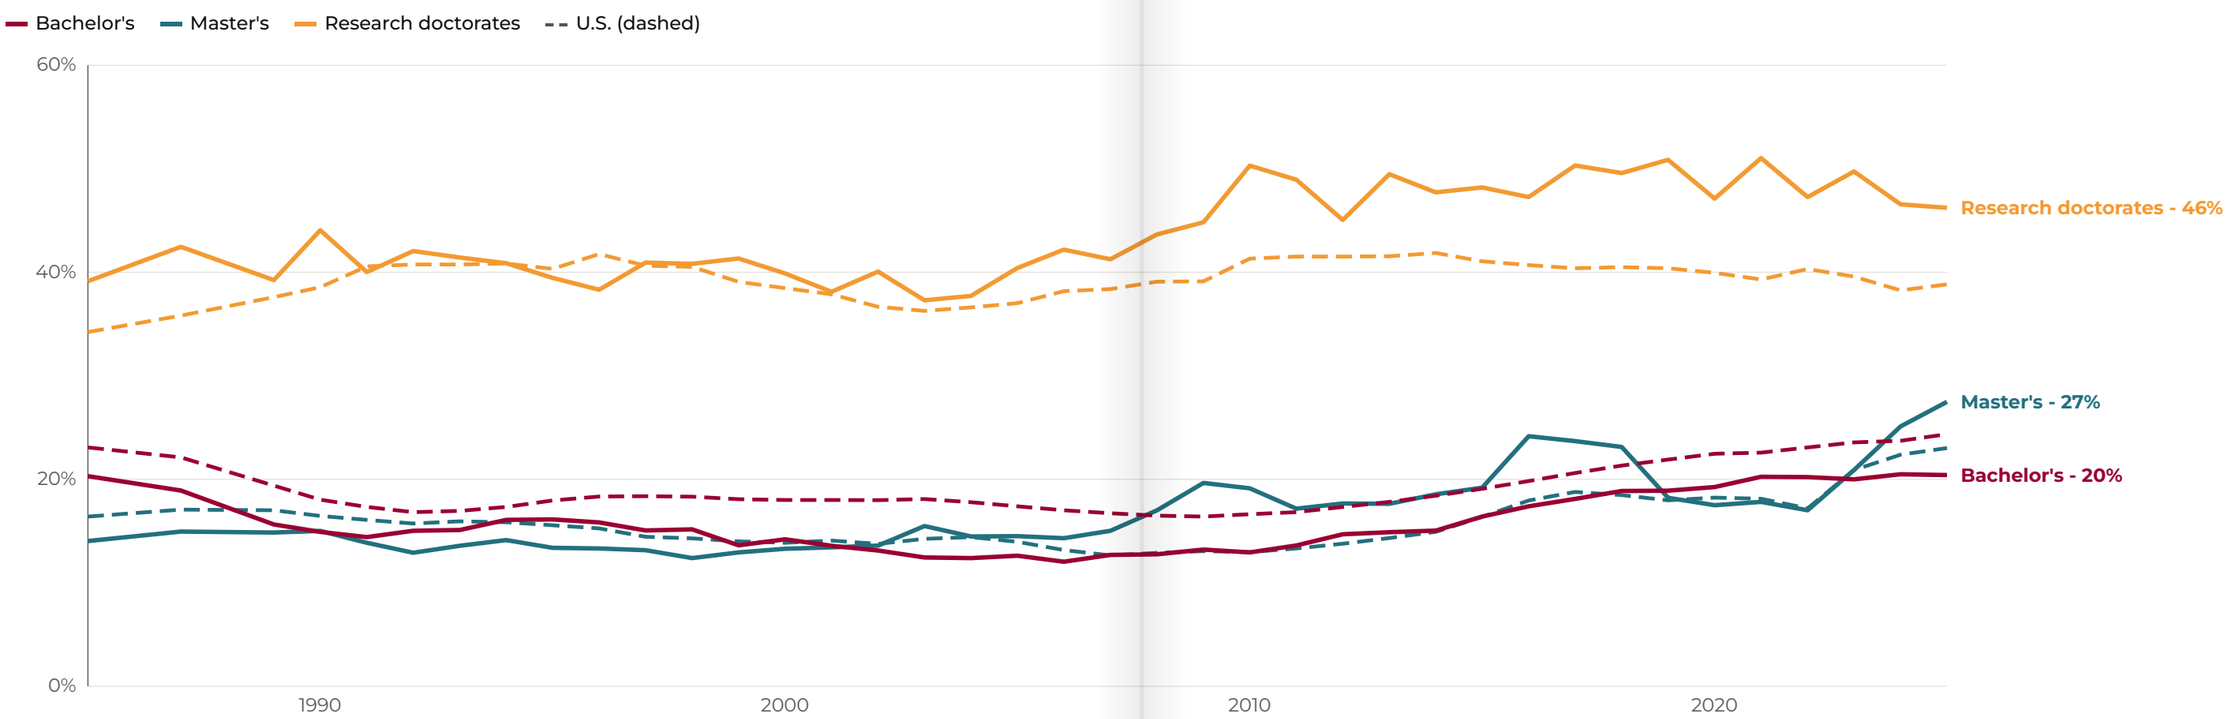

STEM master's degrees awarded in Connecticut, all students and international students, 2015 and 2025. Data from NCES, IPEDS Completions.

SECTION 2

STEM Degrees

Connecticut ranks 8th of 51 on the STEM share of master's, at 27% in 2025 against 23% for the U.S.

Figure 7 How Much of Connecticut's Degree Output Is STEM?

STEM share of degrees by level; state solid, U.S. dashed. Data from NCES, IPEDS Completions.

STEM fields account for 20% of Connecticut's bachelor's degrees, 27% of its master's and 46% of its research doctorates (U.S. 24%, 23% and 39%).

The STEM share of master's degrees is up 8.3 points since 2015, and the state ranks 8th of 51 on it. On the STEM share of bachelor's degrees it ranks 38th of 51.

SECTION 5

Graduate Research

Connecticut ranks 12th of 51 on the temporary-visa share of S&E graduate students, at 43% in 2016 against 39% for the U.S.

Figure 15 How Many of Connecticut's Science and Engineering Graduate Students Hold Temporary Visas?

Temporary-visa share of science and engineering graduate students and postdoctoral appointees, by the institution's state; state solid, U.S. dashed. NSF stopped publishing state tables after 2016. Data from NSF NCSES, Survey of Graduate Students and Postdoctorates.

In 2016, the last year NSF published state tables, 43% of Connecticut's science and engineering graduate students held temporary visas (U.S. 39%; 12th of 51).

Among postdoctoral researchers, the share was 61% (U.S. 56%). Postdocs are the stage of research training most dependent on international talent, and IPEDS does not count them.

The state's institutions awarded 812 research doctorates in 2025, 1.4% of the U.S. total (Data from NSF NCSES, Survey of Earned Doctorates; NSF publishes doctorates by citizenship only for the nation).

SECTION 6

Do Graduates Stay?

Connecticut ranks 48th of 51 on the share of international graduates on OPT working in the state where they studied, at 18% in 2016 against 44% for the U.S.

Figure 16 How Many of Connecticut's Graduates Go On to Work in the State?

Share of employed graduates working in the state of their institution, by graduating cohort (Data from U.S. Census Bureau, Post-Secondary Employment Outcomes; participating institutions only); international graduates' OPT jobs in the state where they studied (Data from ICE, SEVIS FOIA releases; shares only, the file is truncated). State solid, U.S. or participating states dashed.

Of Connecticut's bachelor's graduates who were working a year after graduating, 65% worked in the state (participating states 72%). Five years out the share was 54%.

Among international graduates on Optional Practical Training in 2016, 18% worked in the state where they studied (U.S. 44%). That is the last year the released records cover, before most of the growth in international STEM master's degrees since 2015. Through migration between states, the state lost 0.2 bachelor's-plus adults per 1,000 such residents in 2025 (Data from U.S. Census Bureau, American Community Survey).

65%

SECTION 7

Research Funding

Connecticut ranks 18th of 51 on the federally funded share of university R&D, at 56% in 2024 against 55% for the U.S.

Figure 17 How Much Research Money Flows Into Connecticut?

Nominal dollars (not adjusted for inflation), fiscal years; a line ending before the others is labeled with its last year. University R&D: Data from NSF NCSES, Higher Education Research and Development Survey (FY2003-09 predecessor survey). Federal R&D obligations by state of performance: Data from NSF NCSES, Survey of Federal Funds for R&D (coverage widens in FY2021). Grants from NSF, NIH, NASA and DOE Science plus R&D contracts: Data from USAspending.gov.

Connecticut's universities spent $2B on research and development in FY2024, 21st of 51 among the states; 56% of it was federally funded (U.S. 55%).

Federal agencies obligated $2.13B for R&D performed in the state in FY2024. Research funding drives demand for graduate students and postdocs, the stage of training most dependent on international talent.

SECTION 8

H-1B Jobs and Green Cards

Connecticut ranks 35th of 51 on the share of PERM certifications for workers on F-1 student visas, at 7.5% in 2024 against 8.7% for the U.S.

Figure 18 How Many Skilled-Visa Jobs and Green-Card Certifications Does Connecticut Generate?

Certified H-1B positions on labor condition applications by worksite and certified PERM green-card applications, by fiscal year (Data from DOL, Office of Foreign Labor Certification); new H-1B petition approvals by the employer's address (Data from USCIS, H-1B Employer Data Hub).

Employers were certified for 9.82K H-1B positions at Connecticut worksites in FY2025, 18th of 51 among the states. A labor condition application comes before the petition and covers renewals and job changes as well as new hires, by the worksite's state, so it runs well above approvals. USCIS approved 1.22K new H-1B petitions in FY2026 and 1.92K continuing ones, counted by the employer's address.

DOL certified 718 PERM applications, the employer's step toward an employment-based green card, for jobs in the state in FY2025. In FY2024, 7.5% were for workers still on F-1 student visas (U.S. 8.7%): the most direct link from classroom to permanent residence.

9.82K

Certified H-1B positions (worksite), 2025

U.S. **$119K** · **24th** of 51 · +39% since 2015

SECTION 9

STEM Workforce

Connecticut ranks 7th of 51 on the noncitizen share of STEM workers, at 12% in 2024 against 11% for the U.S.

Figure 20 How Much of Connecticut's STEM Workforce Was Born Abroad?

Foreign-born share of employed workers in STEM occupations, by state of residence; state solid, U.S. dashed. Shares resting on fewer than 100 survey records are left out. No 2020 (experimental data). Data from U.S. Census Bureau, American Community Survey.

In 2024, 24% of the people working in STEM occupations in Connecticut were born abroad (U.S. 24%; 11th of 51).

The share rises with education: 35% of STEM workers with a graduate degree were foreign-born (U.S. 41%), and 43% of those with a doctorate (U.S. 47%; 12th of 20). 12% of all STEM workers were not U.S. citizens.

SECTION 12

Fields of Study

Figure 27 How Many Degrees Does Connecticut Award?

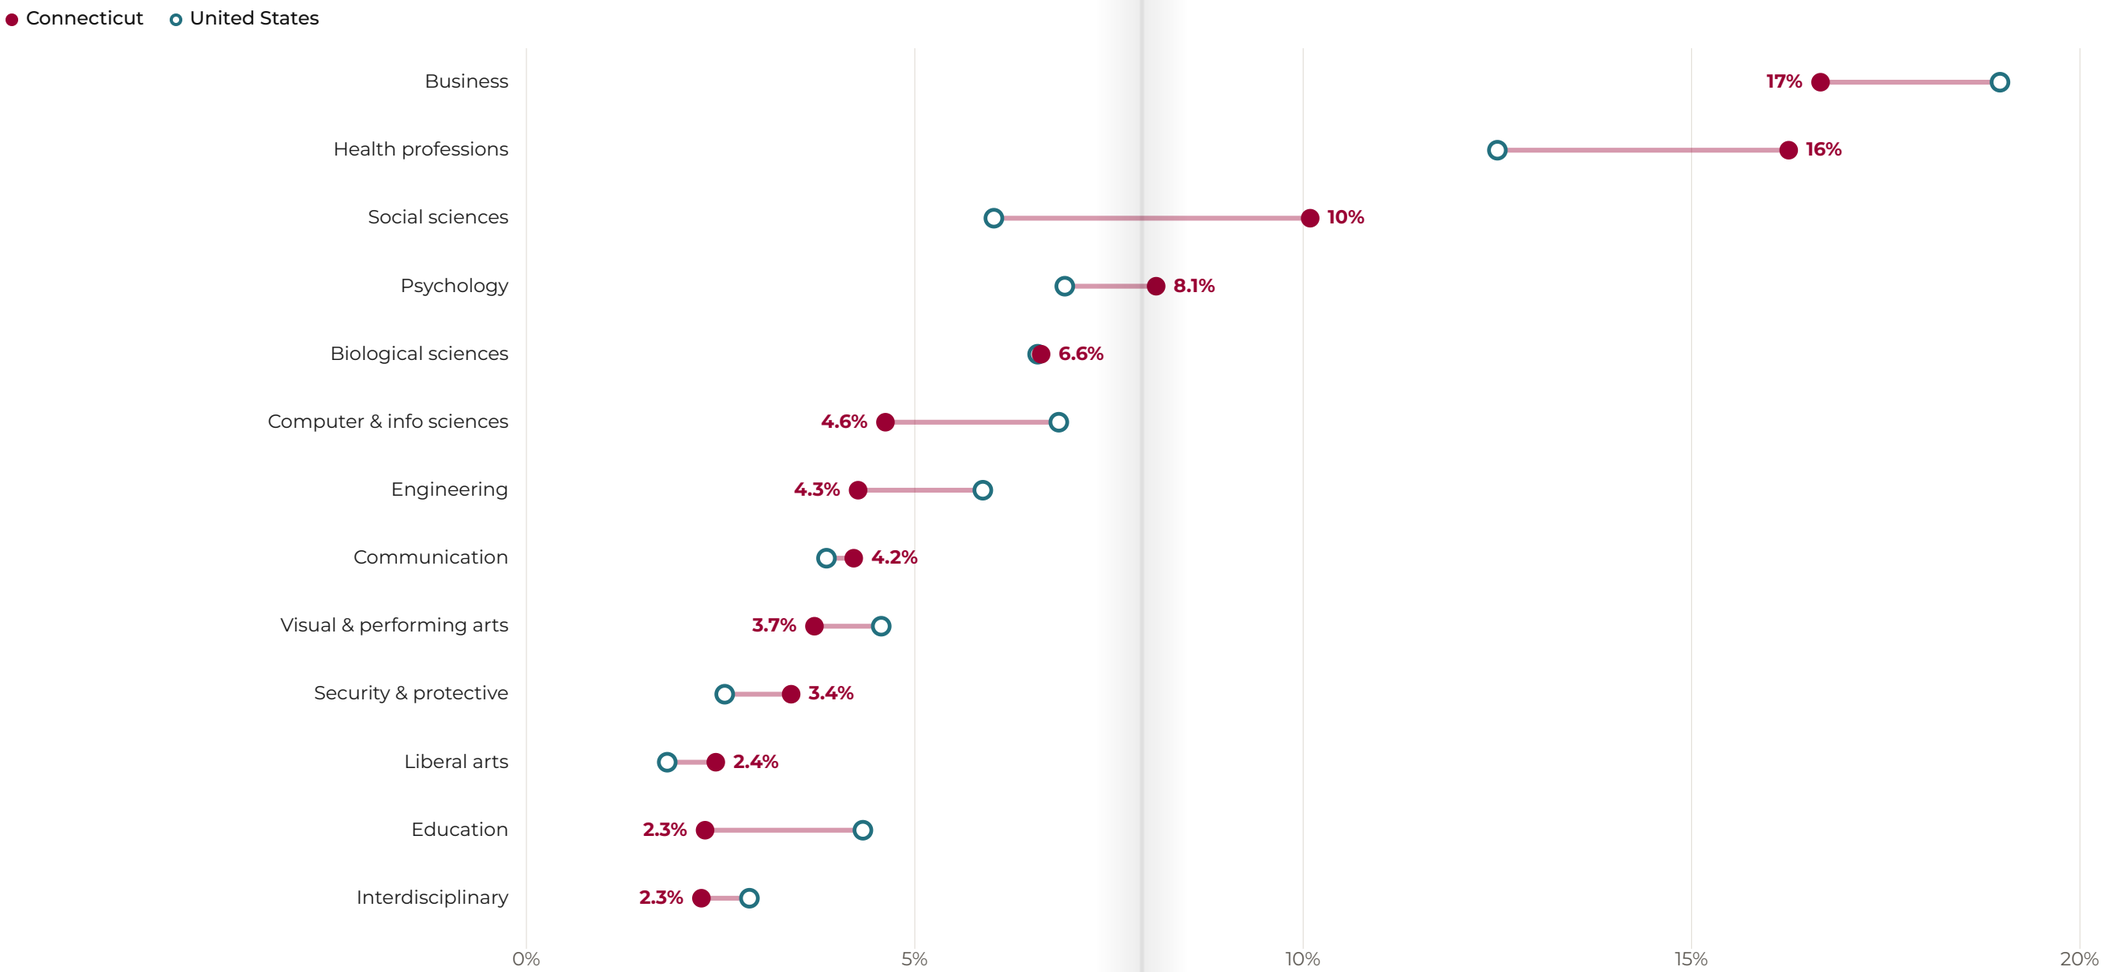

Degrees awarded by level, first majors. Data from NCES, IPEDS Completions.

In 2025, Connecticut's institutions awarded 6.27K associate's degrees, 23.3K bachelor's degrees, 15.1K master's degrees, 1.05K research doctorate degrees, 1.49K professional doctorate degrees.

Since 2015: associate's down 11%; bachelor's up 4%; master's up 55%; research doctorate up 26%; professional doctorate up 16%. The state awards 15.4 bachelor's degrees for every 100 undergraduates (U.S. 12.3).

Figure 28 What Do Connecticut's Bachelor's Graduates Study?

Share of bachelor's degrees by field, 2025. Data from NCES, IPEDS.

Connecticut's largest bachelor's fields are business (17%; U.S. 19%), health professions (16%; U.S. 13%), social sciences (10%; U.S. 6.0%).

Relative to the nation, Connecticut's bachelor's degrees are most concentrated in area & ethnic studies (2.88× the U.S. share), math & statistics (1.70× the U.S. share), social sciences (1.68× the U.S. share).

4.6%

Figure 30 How Has Connecticut's Bachelor's Field Mix Changed?

Share of bachelor's degrees in the largest fields. Data from NCES, IPEDS Completions.

Since 2015, health professions has gained the most ground, 5.1 points of the state's bachelor's degrees, while communication lost the most (1.2 points).

The chart follows the share of bachelor's degrees in each of the state's largest fields; smaller fields are grouped as other fields.

SECTION 12 · FIELDS OF STUDY

Where Is Connecticut Specialized, and What Do Its Doctoral Graduates Study?

The location quotient divides a field's share of Connecticut's bachelor's degrees by its share of all U.S. bachelor's degrees in 2025. A quotient of 1.00 means the same share as the nation; 2.00 means twice the national share. The table lists the 10 fields with the highest quotients among fields with at least 50 degrees.

Highest location quotients. Area & ethnic studies (2.88, with 0.8% of the state's bachelor's degrees against 0.3% for the U.S.), math & statistics (1.70, with 2.0% of the state's bachelor's degrees against 1.2% for the U.S.), and social sciences (1.68, with 10% of the state's bachelor's degrees against 6.0% for the U.S.) had the highest quotients.

Table 5 Where Is Connecticut Most Specialized?

Field	Location quotient	State share	U.S. share	Degrees
Area & ethnic studies	**2.88**	0.8%	0.3%	196
Math & statistics	**1.70**	2.0%	1.2%	465
Social sciences	**1.68**	10%	6.0%	2.35K
History	**1.60**	1.6%	1.0%	383
Family & consumer sci.	**1.42**	1.2%	0.8%	271
Liberal arts	**1.35**	2.4%	1.8%	568
Security & protective	**1.33**	3.4%	2.6%	794
Health professions	**1.30**	16%	13%	3.79K
English	**1.29**	1.9%	1.5%	452
Psychology	**1.17**	8.1%	6.9%	1.89K

Bachelor's degrees; location quotient = state share ÷ U.S. share; fields with 50+ degrees. Data from NCES, IPEDS.

Public 2-year institutions enrolled **19%** of students, down 7.7 points from 26% in 2015, and for-profit institutions enrolled **8.5%** of students, up 4.4 points from 4.1% in 2015.

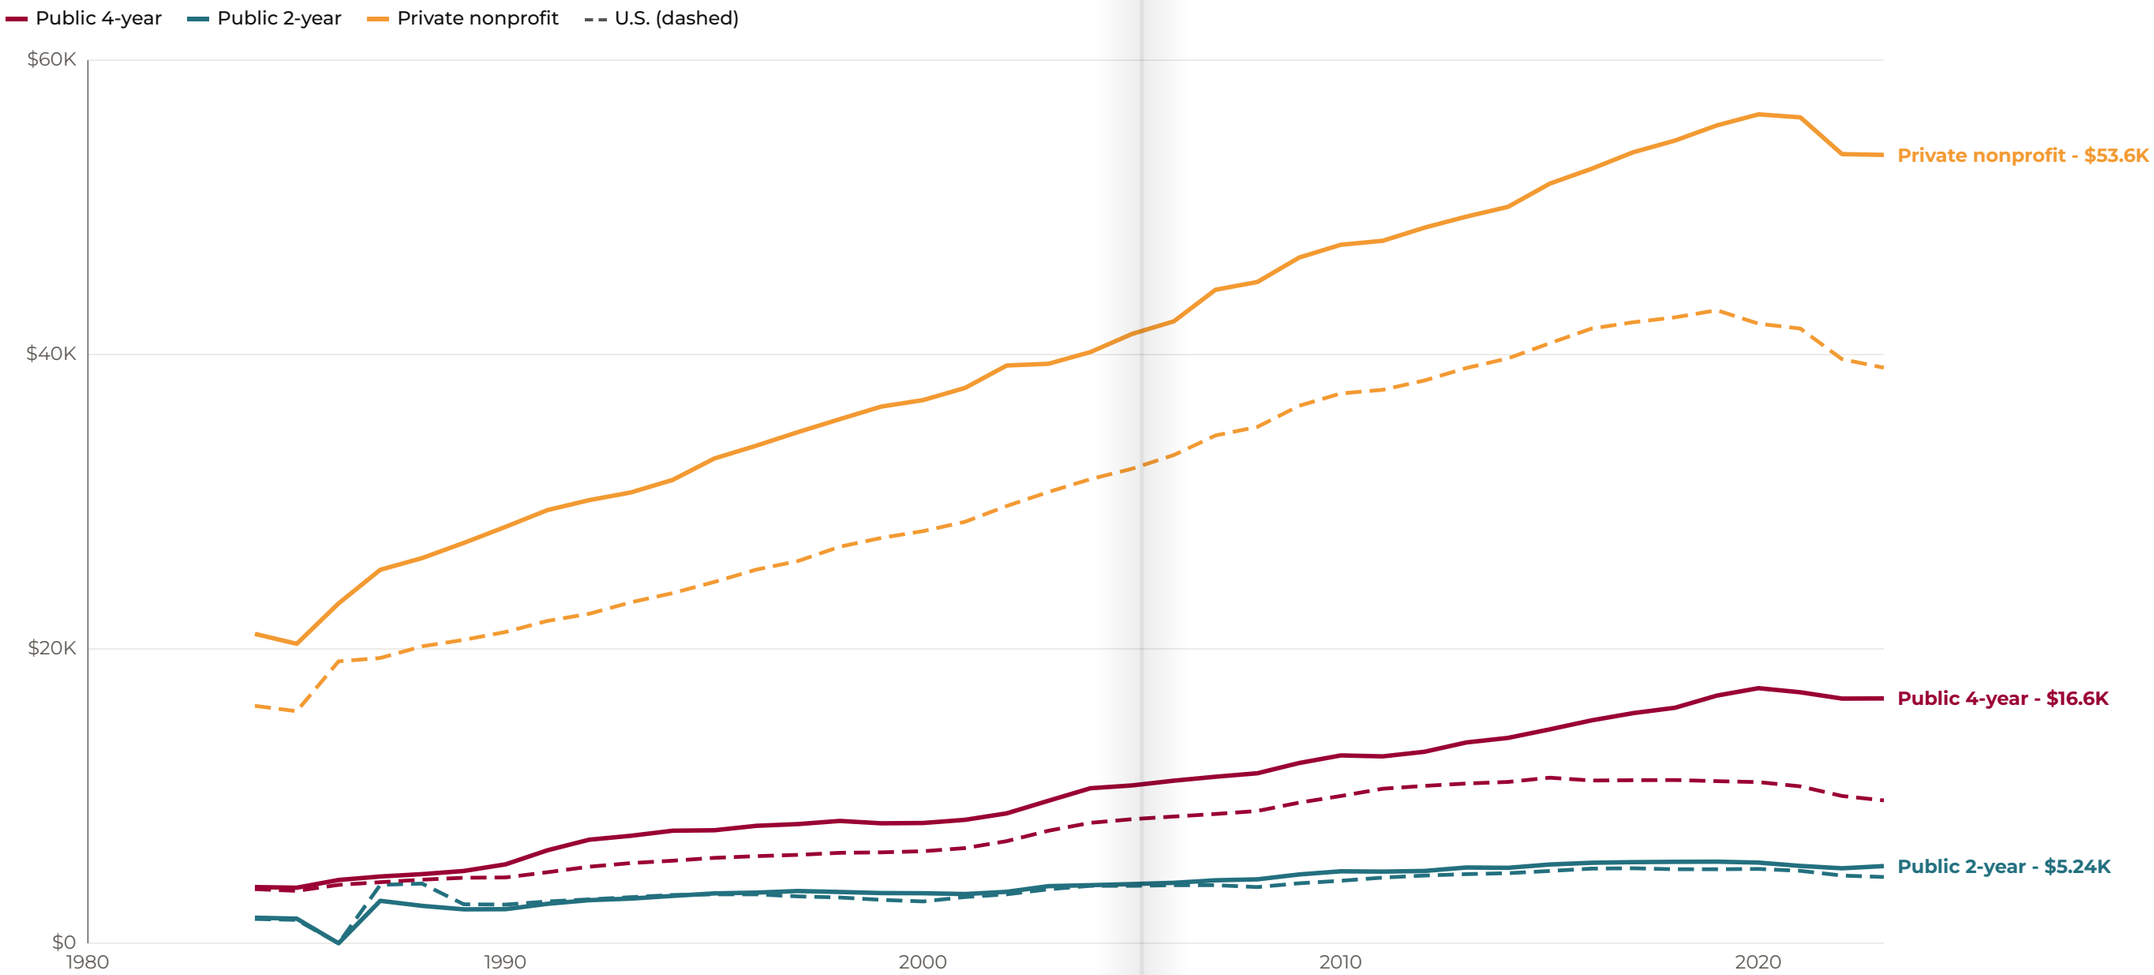

Public institutions together enrolled **51%** of students, against 73% nationally, 46th among the states.

Figure 34 Where Do Students Enroll?

Share of fall headcount enrollment by sector, 2015, 2019, 2024. Sectors as IPEDS classifies them each year. Data from NCES, IPEDS.

Figure 35 What Does In-State Tuition Cost?

Published in-state tuition and fees, 2024 dollars (CPI-U); state solid, U.S. dashed. Data from NCES, IPEDS.

In-state tuition and fees at Connecticut's public four-year institutions are $16.6K (2023, 2024 dollars), 71% above the U.S. ($9.71K); the state ranks 4th of 51.

State and local appropriations come to $11.9K per full-time-equivalent student at public institutions (17th of 51), and net tuition makes up 51% of net tuition plus state and local appropriations (U.S. 43%).

SECTION 13 · STUDENTS AND MONEY

How Are Connecticut's Public Institutions Funded, and What Do They Produce?

The bars give each source's share of the core revenue of Connecticut's public institutions, with the nation for comparison, and at right the dollars per full-time-equivalent (FTE) student it provides. Values are in 2024 dollars (CPI-U). Net tuition is tuition and fees after institutional discounts and allowances.

Net tuition per FTE student. The figure was $12.2K in FY2024, against $8.96K for the U.S., down 29% from $17.2K in FY2023 and up 18% since FY2015, when it was $10.3K.

Figure 36 How Are Public Institutions Funded?

Share of core revenue per FTE student by source, public institutions, FY2024; dollars per FTE at right, 2024 dollars (CPI-U). Shares are of all five sources; the tuition share elsewhere in this profile divides net tuition by net tuition plus state and local appropriations only. Data from NCES, IPEDS Finance.

$16.6K
In-state tuition, public 4-year, 2023
U.S. **$9.71K** · **4th** of 51

$11.9K
Appropriations per student, 2024
U.S. **$11.4K** · **17th** of 51

51%
Tuition share of tuition plus appropriations, 2024
U.S. **43%** · **17th** of 51

The table brings together five measures of what public higher education costs and what it produces in Connecticut: in-state tuition at public four-year institutions, state and local appropriations per full-time-equivalent student, tuition's share of public institutions' core revenue, the six-year bachelor's graduation rate, and the average full-time faculty salary.

In-state tuition, public 4-year. The figure was $16.6K in 2023, against $9.71K for the U.S., 4th among the states, up 0.1% from $16.6K in 2022 and up 15% since 2015, when it was $14.5K.

Table 6 Money and Results

Measure	Year	Connecticut	U.S.	Rank	Change since 2015
In-state tuition, public 4-year	2023	**$16.6K**	$9.71K	4th of 51	+15%
Appropriations per student	2024	**$11.9K**	$11.4K	17th of 51	−35%
Tuition share of tuition plus appropriations	2024	**51%**	43%	17th of 51	+14.7 pp
Six-year graduation rate	2024	**69%**	65%	8th of 51	+1.4 pp
Average faculty salary	2024	**$133K**	$106K	3rd of 51	−2.9%

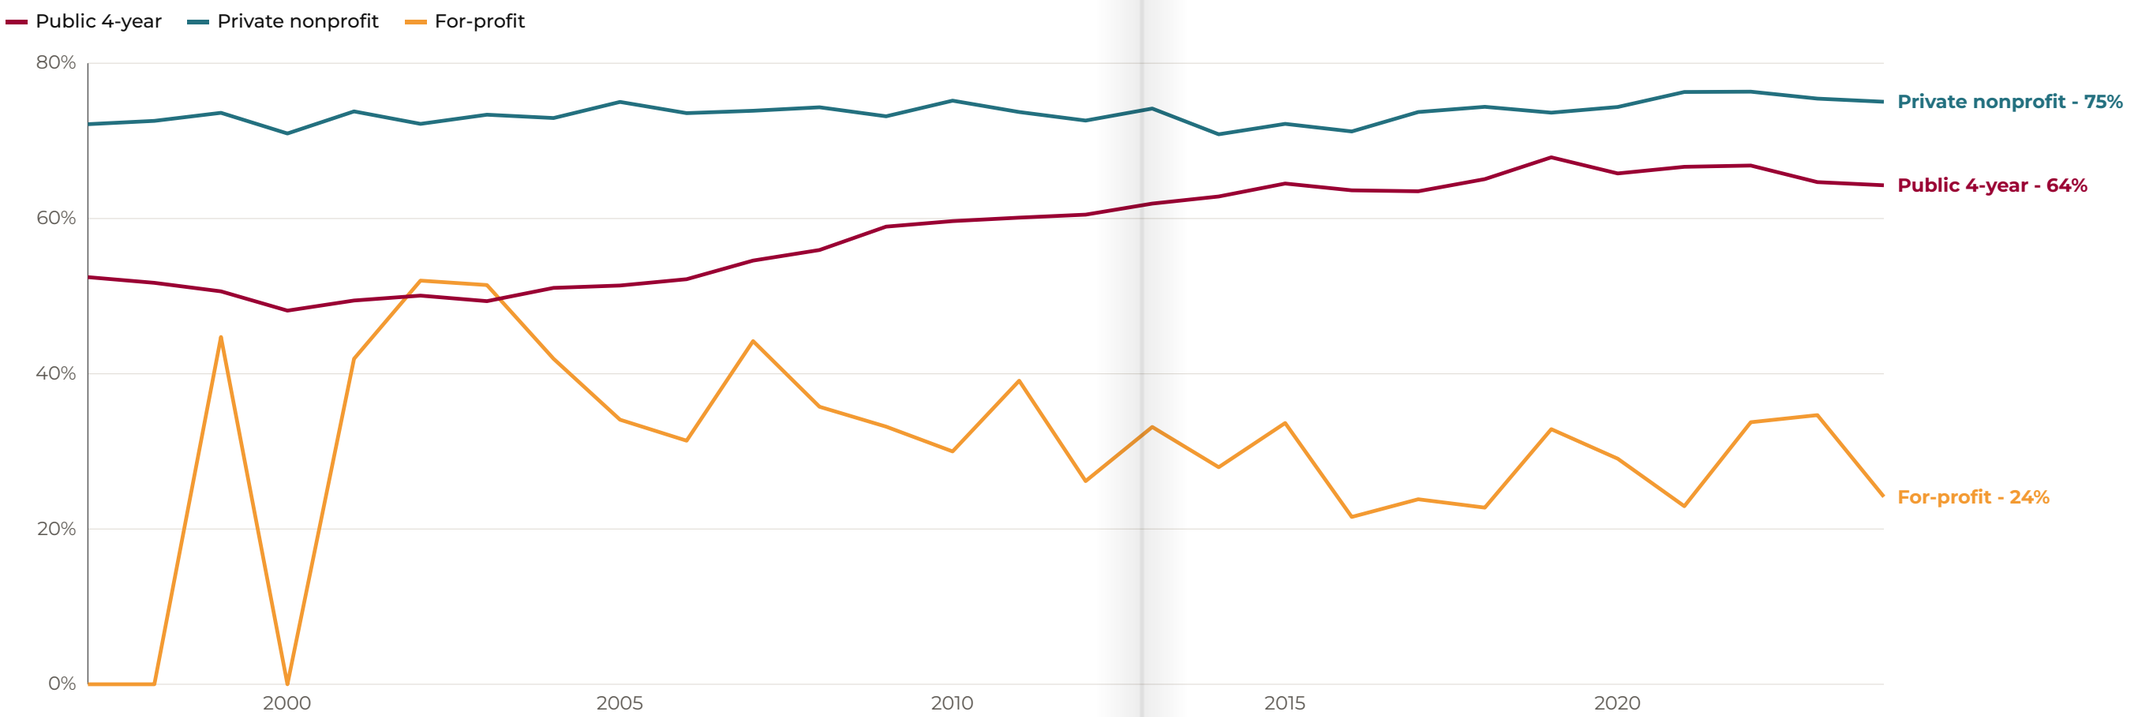

Rank among the 50 states and DC (1 = highest). Dollars in 2024 dollars (CPI-U). Data from NCES, IPEDS.

SECTION 14

Student Outcomes

Connecticut ranks 48th of 50 on the share of completion within 150% of normal time, 2-year institutions, at 24% in 2024 against 41% for the U.S.

Figure 37 How Do Graduation Rates Differ by Sector?

Six-year bachelor's graduation rate by sector of institution. Data from NCES, IPEDS Graduation Rates.

69% of students who started a bachelor's degree at a four-year institution in Connecticut graduated within six years (2024), 4.6 points above the U.S. (65%); the state ranks 8th of 51.

By sector: public 4-year 64%, private nonprofit 75%, for-profit 24%. At two-year institutions, 24% complete within 150% of normal time (U.S. 41%).

U.S. **12.3** · **8th** of 51 · +1.9 since 2015

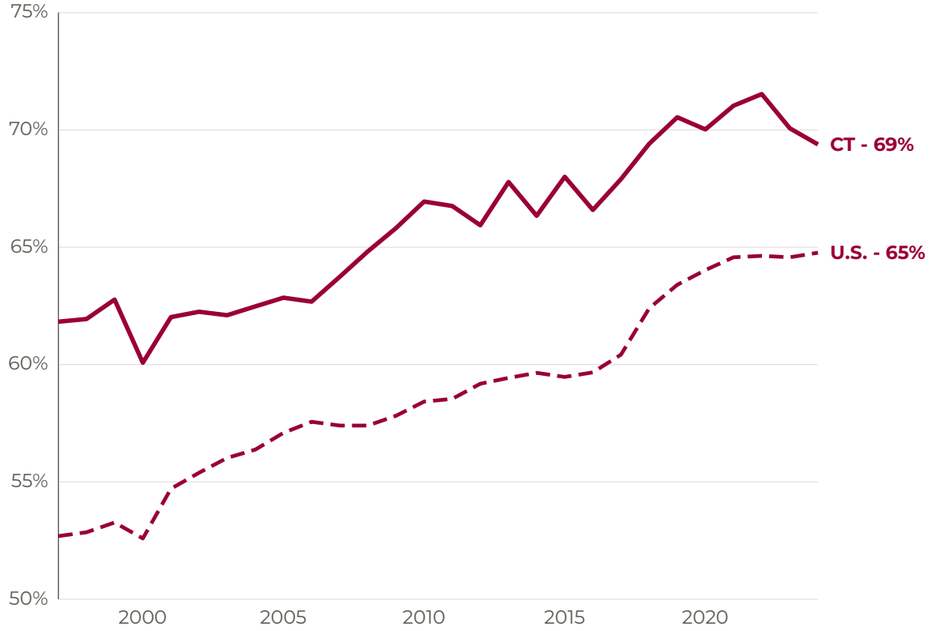

SECTION 14 · STUDENT OUTCOMES

How Many of Connecticut's Students Graduate?

The line follows the share of first-time, full-time bachelor's-degree students at Connecticut's four-year institutions who graduated from the institution where they started within six years (150% of normal time). Each year is the cohort that entered six years earlier. The rate leaves out students who start part-time (31% of the state's students attend part-time, against 39% nationally) and students who transfer and finish elsewhere. The state is solid and the United States dashed.

Six-year graduation rate. The rate was 69% in 2024, against 65% for the U.S., down 0.7 points from 70% in 2023 and up 1.4 points since 2015, when it was 68%.

Figure 38 Six-Year Bachelor's Graduation Rate

15.4
Bachelor's per 100 undergraduates, 2025
U.S. **12.3** · **8th** of 51

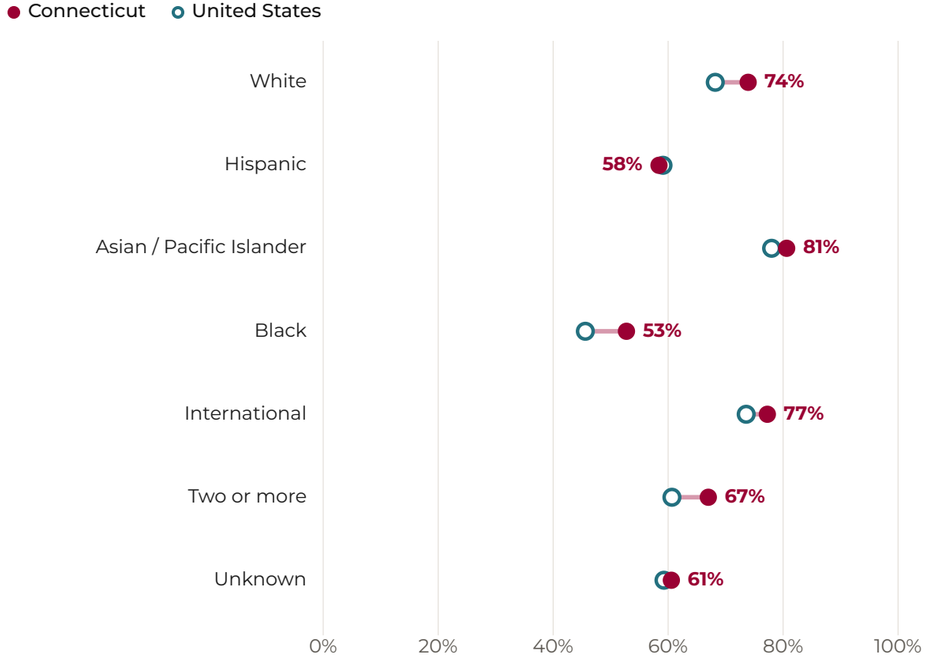

Each row is the six-year bachelor's graduation rate for one racial or ethnic group of students at Connecticut's four-year institutions (filled dot), against the national rate for the same group (open dot). Groups with fewer than 100 students in the cohort are left out.

White. The six-year rate was 74% in 2024, against 68% for the U.S.

Hispanic. The six-year rate was 58% in 2024, against 59% for the U.S.

Asian / Pacific Islander. The six-year rate was 81% in 2024, against 78% for the U.S.

Six-year rate, 2024; groups with 100+ students. Data from NCES, IPEDS.

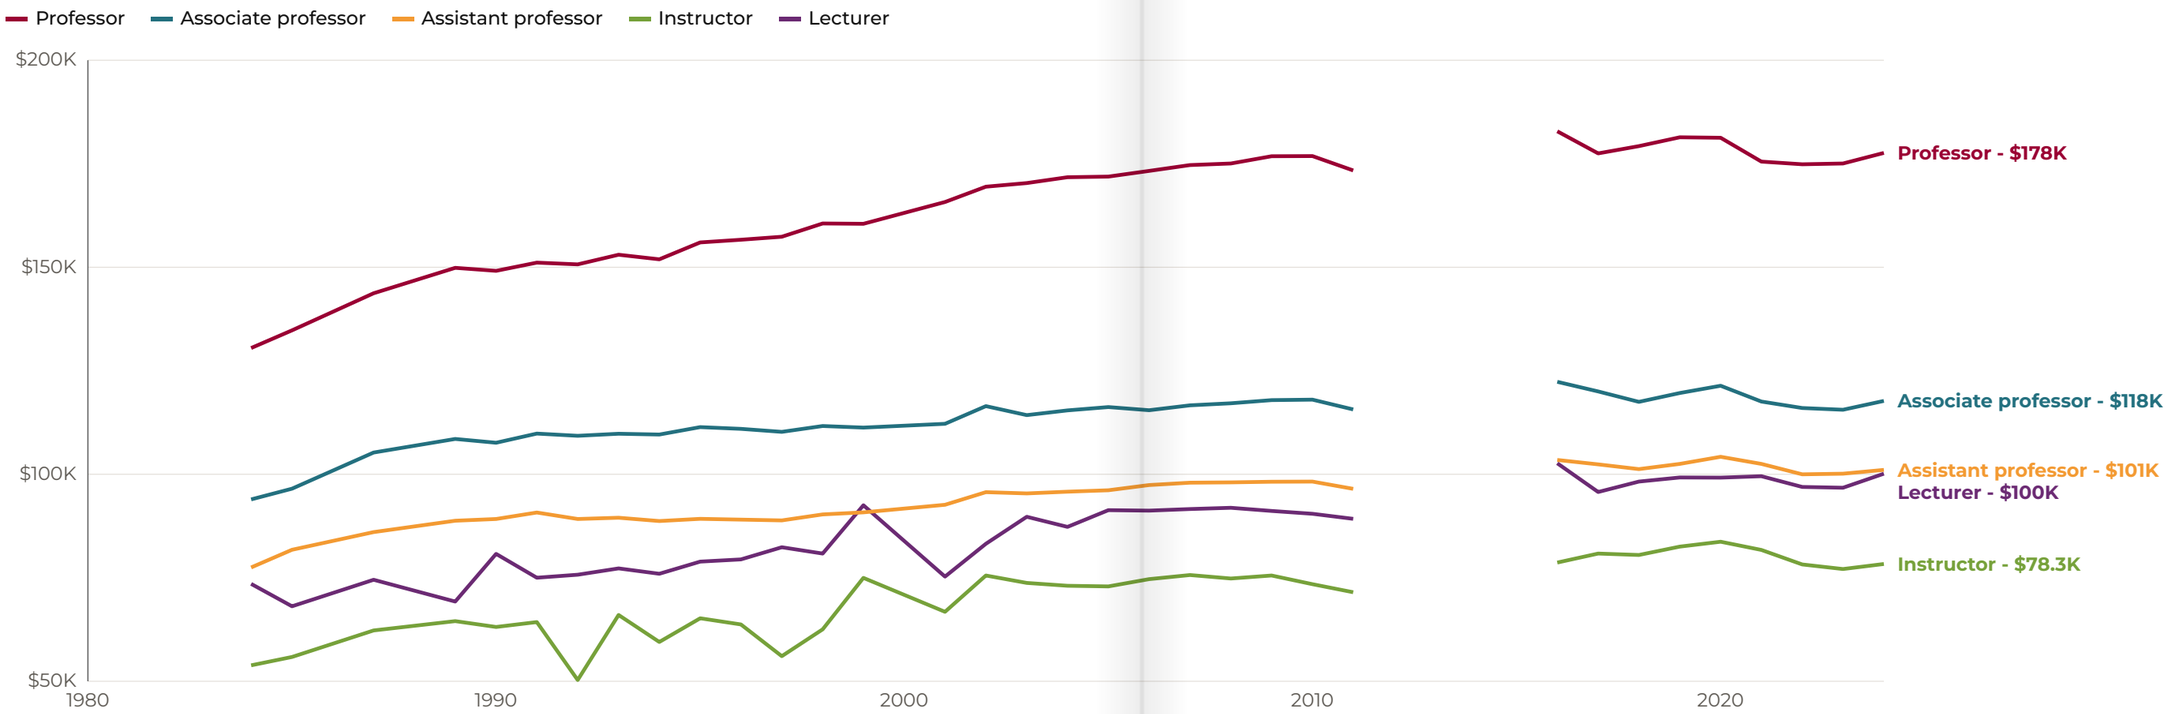

14

SECTION 15

Faculty

Connecticut ranks 3rd of 51 on the average full-time faculty salary, at $133K in 2024 against $106K for the U.S.

Figure 40 What Do Connecticut's Faculty Earn, by Rank?

Average salary of full-time instructional faculty on 9/10-month contracts, by academic rank, 2024 dollars (CPI-U). Data from NCES, IPEDS Human Resources.

Full-time instructional faculty on 9/10-month contracts at Connecticut's institutions earned an average of $133K in 2024 (2024 dollars), 26% above the U.S. ($106K); the state ranks 3rd of 51. By rank (2024): professors $178K, associate professors $118K, assistant professors $101K, instructors $78.3K, lecturers $100K.

Connecticut's institutions had 10.2K full-time instructional staff in 2024, up 5% since 2015. Average salary across all ranks is down 3% since 2016.

U.S. **$106K** · **3rd** of 51 · −2.9% since 2016

SECTION 15 · FACULTY

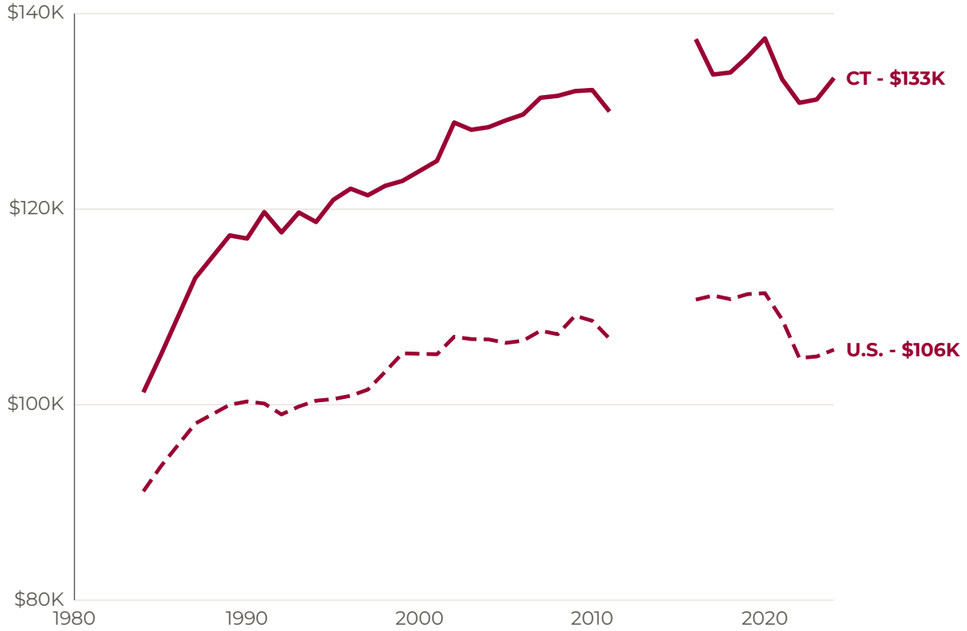

What Do Connecticut's Faculty Earn, and How Many Hold Tenure?

The line follows the average salary of full-time instructional faculty on 9- or 10-month contracts at Connecticut's degree-granting institutions, all ranks combined, in 2024 dollars (CPI-U). The state is solid and the United States dashed.

Average salary. The figure was $133K in 2024, against $106K for the U.S., 3rd among the states, up 1.7% from $131K in 2023 and down 2.9% since 2016, when it was $137K.

Full-time instructional staff. The number was 10.2K in 2024, up 1.0% from 10.1K in 2023 and up 5.3% since 2015, when it was 9.65K.

Figure 41 Average Faculty Salary

Full-time instructional faculty, 9/10-month, 2024 dollars. Data from NCES, IPEDS.

Full-time instructional staff, 2024

46%
Tenured, 2024

The bars divide Connecticut's full-time instructional staff by tenure status in 2015, 2019 and 2024: tenured, on the tenure track, not on the tenure track (for example, lecturers on fixed-term contracts), and staff at institutions with no tenure system.

Tenured, share of full-time instructional staff. The share was 46% in 2024, down 0.4 points from 46% in 2023 and down 2.3 points since 2015, when it was 48%.

Figure 42 Tenure Status

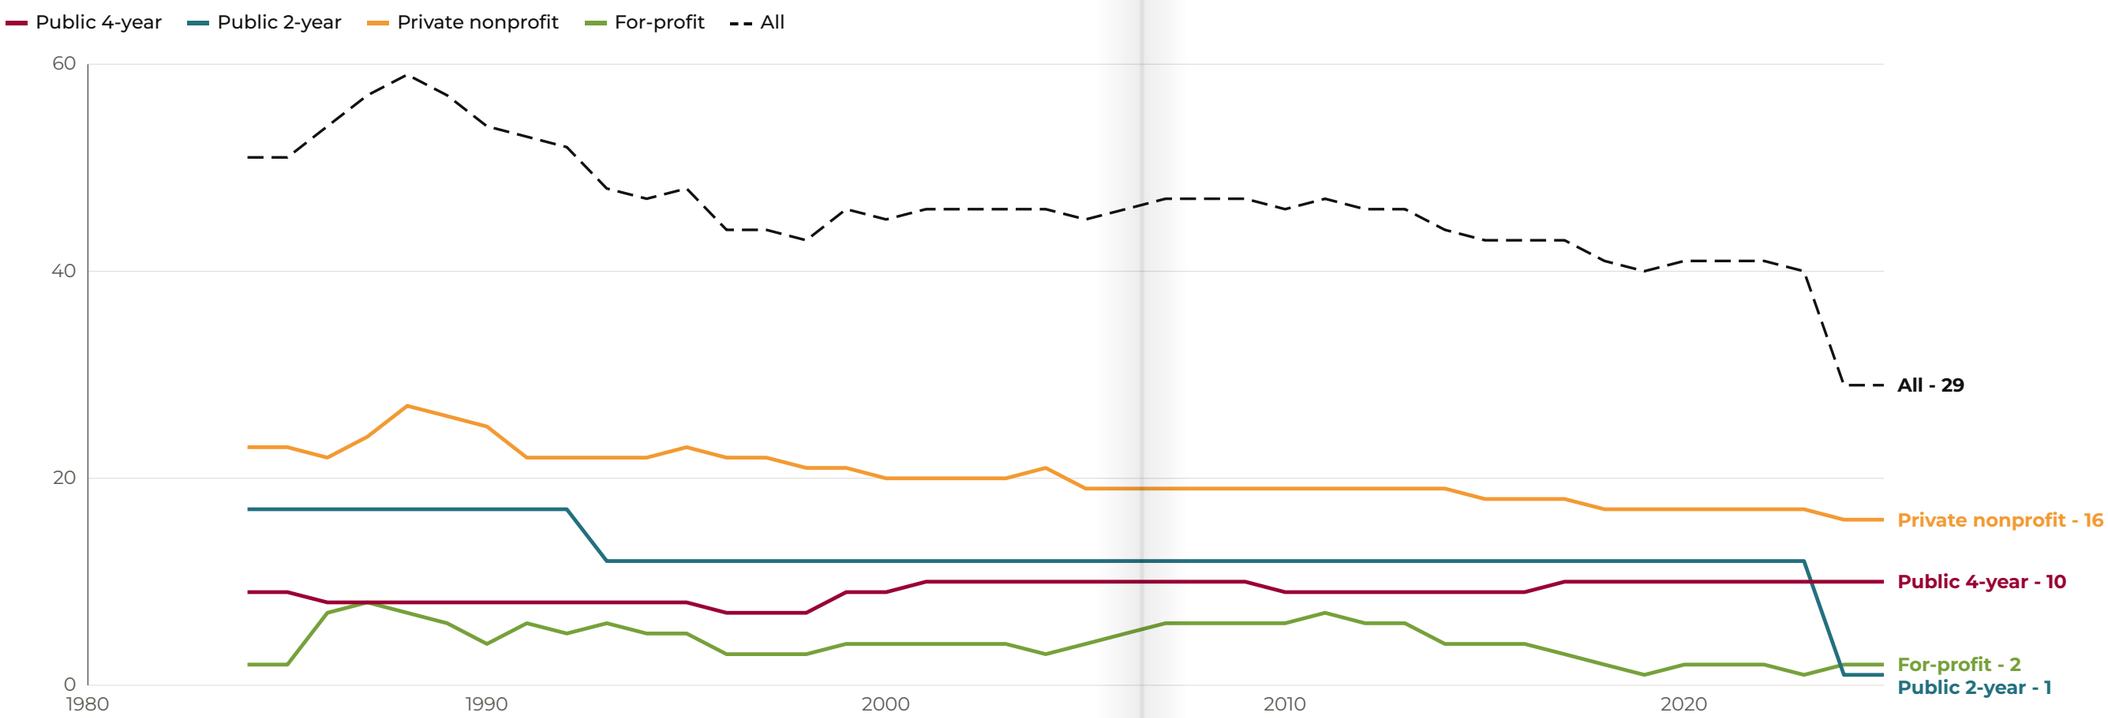

Full-time instructional staff by tenure status, 2015, 2019, 2024. Data from NCES, IPEDS.

SECTION 16

Institutions

Connecticut ranks 46th of 51 on the share of enrollment at public institutions, at 51% in 2024 against 73% for the U.S.

Figure 43 How Many Institutions Does Connecticut Have?

Degree-granting institutions by sector. Data from NCES, IPEDS.

Connecticut has 29 degree-granting institutions:10 public 4-year, 1 public 2-year, 16 private nonprofit, 2 for-profit (2025).

The number of institutions is down 33% since 2015. 51% of students attend public institutions and 8.5% attend for-profit ones.

SECTION 16 · INSTITUTIONS

Which Institutions Lead in Connecticut?

The table ranks institutions in Connecticut by the STEM master's degrees and research doctorates they awarded to international students in 2025, the two counted together. The share columns give international students' share of each institution's STEM degrees at that level.

Largest. University of New Haven (1.1K international STEM master's degrees and – doctorates), Yale University (521 international STEM master's degrees and 113 doctorates), and Sacred Heart University (535 international STEM master's degrees and – doctorates) awarded the most.

Table 7 Which Institutions Train the Most International STEM Graduates?

Institution	STEM total	STEM master's	Int. share	STEM doctorates	Int. share
University of New Haven West Haven · Private nonprofit	**1.1K**	1.1K	89%	–	–
Yale University New Haven · Private nonprofit	**634**	521	52%	113	41%
Sacred Heart University Fairfield · Private nonprofit	**535**	535	90%	–	–
University of Bridgeport Bridgeport · Private nonprofit	**535**	531	98%	4	67%
University of Connecticut Storrs · Public 4-year	**214**	107	28%	107	55%
Fairfield University Fairfield · Private nonprofit	**12**	12	21%	–	–
Quinnipiac University Hamden · Private nonprofit	**10**	10	13%	–	–
Central Connecticut State University New Britain · Public 4-year	**9**	9	12%	–	–

The table lists Connecticut's largest degree-granting institutions by fall 2024 headcount enrollment, with the international share of graduate students, STEM bachelor's degrees awarded in 2025, the six-year graduation rate and the admission rate (a dash where the institution admits all applicants or does not report one).

Largest. The three largest were Connecticut State Community College (36.3K students), University of Connecticut (28.3K students), and Post University (16.2K students).

Degree-granting institutions. The state had 29 in 2025, and 29 of them reported the enrollment and degree data in these tables.

Table 8 What Are Connecticut's Largest Institutions?

Institution	Enrollment	Int. share, grad	STEM bachelor's	Six-year grad rate	Admit rate
Connecticut State Community College	**36.3K**	–	–	–	–
University of Connecticut	**28.3K**	21%	1.72K	83%	52%
Post University	**16.2K**	3.9%	63	24%	–
Yale University	**15.6K**	35%	752	96%	3.9%
Sacred Heart University	**11K**	36%	222	73%	65%
Central Connecticut State University	**10K**	2.2%	427	48%	73%
Quinnipiac University	**9.42K**	3.7%	172	76%	72%
Southern Connecticut State University	**9.38K**	1.2%	177	50%	91%
University of New Haven	**9.23K**	68%	169	63%	60%
Fairfield University	**6.86K**	4.7%	150	84%	33%

Fall 2024 enrollment; degrees 2025. Data from NCES, IPEDS.

NOTES

About These Data

International students

U.S. nonresidents on temporary visas, as IPEDS defines them. IPEDS does not record country of citizenship. Permanent residents count with U.S. citizens.

STEM

CIP families 03, 04, 11, 14, 15, 26, 27 and 40. Doctorates are research and scholarship doctorates; professional doctorates appear only in the degree-count figure. Degrees are first majors only.

Universe

Degree-granting institutions located in the state; Title IV participants from 1996. Geography is the institution's location, not the student's home. Enrollment is fall headcount.

Migration

First-time degree-seeking undergraduates by home state, reported in even years before 2001 and every year since; odd years with incomplete reporting are omitted. Net migration is students arriving from other states minus residents leaving, per 100 resident first-time students.

Money

Tuition, appropriations, revenue and faculty salaries are in 2024 dollars using the CPI-U. Research funding (HERD, Federal Funds, USAspending), wages and the NAFSA economic contribution are nominal dollars, and are labeled so. Appropriations and revenue are per full-time-equivalent student at public institutions; the tuition share divides net tuition by net tuition plus state and local appropriations.

Race and ethnicity

IPEDS did not collect race and ethnicity in every year before 2010, and categories changed in 2008–2010; “Two or more” exists only from then.

Countries of citizenship

From DHS SEVIS by the Numbers: active F-1 and M-1 student records in the month named, at every level from primary school to doctorate, by the state of the school. IPEDS records only whether a student is a U.S. nonresident, not where they come from. SEVIS counts are monthly snapshots and are not directly comparable with IPEDS fall enrollment or degree counts. Year-to-year comparisons use one fall snapshot per year (the month closest to November).

Peers

Comparison states are the four closest in total fall enrollment, measured proportionally: a state 1.5 times as large counts as near as one two-thirds the size.

Sources

IPEDS (National Center for Education Statistics) is the backbone: Institutional Characteristics, Fall Enrollment, Completions, Graduation Rates, Finance, Human Resources and Admissions, 1980–2025, harmonized into a state panel. The profile also draws on NAEP, NSF's Survey of Graduate Students and Postdoctorates, Survey of Earned Doctorates, HERD and Federal Funds surveys, USAspending.gov, DHS SEVIS by the Numbers and ICE SEVIS releases, the Department of Labor's Office of Foreign Labor Certification and BLS wage data, the USCIS H-1B Employer Data Hub, the Census Bureau's American Community Survey and Post-Secondary Employment Outcomes, USPTO PatentsView, and other federal sources; every figure names its source, and the Sources page lists them in full. Generated November 2026.

NOTES

How the Numbers Are Counted

Ranks

Ranks are among the 50 states and the District of Columbia (1 = highest value, whether or not a high value is good). Where fewer than 51 report, the count is given ("23rd of 33").

Sectors

Sectors are as IPEDS classifies institutions each year. IPEDS moves a whole institution to "public, 4-year or above" once it awards any bachelor's degree, so community colleges that began offering applied bachelor's degrees carry all of their students into the public 4-year sector. Sector series (enrollment shares, public 4-year tuition, graduation rates by sector) reflect these moves.

Research doctorates

Two counts appear. IPEDS counts degrees institutions report as "doctor's degree, research/scholarship", which includes some practice-oriented degrees such as many Ed.D.s; the NSF Survey of Earned Doctorates counts research doctorate recipients and is smaller. Each figure names which it uses. "STEM master's per STEM research doctorate" divides IPEDS STEM master's degrees by IPEDS STEM research doctorates.

Engineering

"Engineering" alone is CIP 14. Where engineering technology (CIP 15) is added, the label says "engineering & eng. technology".

Graduation rates

IPEDS graduation rates follow first-time, full-time students and count only those who finish at the institution where they started, so they leave out part-time starters and students who transfer and finish elsewhere.

International students in SEVIS

SEVIS counts active F-1 and M-1 records, which include graduates on Optional Practical Training (up to 36 months for STEM graduates, 12 for others), so STEM shares run high. STEM follows the DHS STEM Designated Degree Program List, which is broader than the eight CIP families above, and DHS draws its STEM pages on a different basis from its all-student pages, so a country's STEM count can exceed its all-level count.

Visas and green cards

DOL labor condition applications (H-1B positions) are counted by worksite and include renewals and job changes; USCIS approvals are counted by the employer's address and split into new and continuing. PERM certifications are the employer's step toward a green card.

Patents

Patents are counted by the owner's (assignee's) location, not where inventors live; a company headquartered in another state takes its patents there.

Years

Each measure uses its latest year, so years differ across a page; every figure, table and statement gives its year, and lines that stop early are labeled with their last year.

Foreign-born share of STEM workers with a doctorate	54%[2019]	**43%**[2024]	−10.8 pp ▼	47%	+0.9 pp ▲	#12	[12]
Noncitizen share of STEM workers	11%	**12%**[2024]	+1.2 pp ▲	11%	+0.7 pp ▲	#7	[12]
STEM workers born abroad who arrived in the last 10 years	6.7%	**6.9%**[2024]	+0.2 pp ▲	7.5%	+0.3 pp ▲	#12	[12]
Share of foreign-born STEM workers born in India	33%	**33%**[2024]	−0.6 pp ▼	28%	+0.7 pp ▲	#11	[12]
Foreign-born share of residents	14%	**16%**[2025]	+1.3 pp ▲	15%	+1.3 pp ▲	#11	[12]
Foreign-born share of graduate-degree holders, 25+	18%	**19%**[2025]	+1.1 pp ▲	21%	+2.8 pp ▲	#13	[12]
STEM jobs, employer survey	104K	**114K**[2025]	+9.2% ▲	10.4M	+26% ▲	#27	[10]
STEM jobs concentration vs the U.S., location quotient	1.05	**1.01**[2025]	0.0	1.00	0.0	#17	[10]
Mean annual STEM wage, nominal, nominal dollars	$91.9K	**$123K**[2025]	+34% ▲	$120K	+38% ▲	#10	[10]
Median software developer wage, nominal, nominal dollars	$102K[2019]	**$134K**[2025]	+32% ▲	$136K	+26% ▲	#13	[10]
Software developer jobs	13.4K	**13.7K**[2025]	+1.9% ▲	1.69M	+48% ▲	#26	[10]
Mean annual wage, all occupations, nominal, nominal dollars	$56.3K	**$77.4K**[2025]	+38% ▲	$69.8K	+44% ▲	#8	[10]
Patents granted to assignees in the state	2.57K	**1.9K**[2025]	−26% ▼	135K	−0.6% ▼	#19	[22]
Share of U.S.-assignee patents	1.9%	**1.4%**[2025]	−0.5 pp ▼	–	–	#19	[22]
Share of the state's patents in digital technologies	20%	**16%**[2025]	−4.0 pp ▼	43%	+1.6 pp ▲	#32	[22]
Share of the state's patents in life sciences	10%	**14%**[2025]	+3.3 pp ▲	17%	+0.4 pp ▲	#36	[22]
Share of the state's patents in semiconductors	1.2%	**0.9%**[2025]	−0.3 pp ▼	2.9%	−1.7 pp ▼	#20	[22]
Women's share of inventors on the state's patents	11%	**11%**[2025]	+0.5 pp ▲	14%	+3.4 pp ▲	#32	[22]

Superscript years mark the year observed; changes since 2015 start from 2015 or the first later year with data. Rank is among the 50 states and DC (1 = highest). "pp" is percentage points. Dollars are 2024 dollars (CPI-U) unless the measure is labeled nominal. Counts and dollars are rounded to three significant figures (K, M, B). Arrow colors show direction only. Source numbers refer to the list of sources that follows the tables.
