Authors

Emerson Victoria Johnston is a research assistant with the Hoover Institution's Technology Policy Accelerator. A Knight-Hennessy Scholar, she holds a master's in international policy from Stanford University, and is on leave from its master's program in the history of science, technology, environment, and medicine.

Dr. Amy Zegart is the Morris Arnold and Nona Jean Cox Senior Fellow at the Hoover Institution, director of Hoover's Technology Policy Accelerator, and a senior fellow and associate director at Stanford University's Institute for Human-Centered Artificial Intelligence.

Data come from the Integrated Postsecondary Education Data System (IPEDS), the Department of Homeland Security's SEVIS by the Numbers, the National Assessment of Educational Progress, NSF's Survey of Graduate Students and Postdoctorates and Survey of Earned Doctorates, the Department of Labor's Office of Foreign Labor Certification, the USCIS H-1B Employer Data Hub, the Census Bureau's American Community Survey and USPTO patent data via PatentsView, processed in Python; every figure and table is generated from those sources, and each one names its source.

About This Profile

This profile is a companion to *The 2026 US Talent Report: Benchmarking America's STEM Pipeline Amid the Great Talent Competition*. It applies the report's measures to Kansas: the students the state develops at home, those it draws from abroad, and how both compare with the nation and with the states closest to it in size.

Degrees, enrollment, prices, outcomes and faculty come from IPEDS, the federal census of U.S. colleges and universities, harmonized across 1980–2025. Countries of citizenship come from SEVIS by the Numbers, the Department of Homeland Security's monthly count of active F-1 and M-1 students. Each figure names its source. Peer states are the four closest in total fall enrollment.

Public Data and Tools

The data behind every chart come from federal sources: the Integrated Postsecondary Education Data System (IPEDS), published by the National Center for Education Statistics, as the backbone, together with NAEP, NSF's surveys of graduate students, doctorates and research funding, USAspending.gov, DHS and ICE SEVIS data, the Department of Labor, USCIS, the Census Bureau's American Community Survey and Post-Secondary Employment Outcomes, and USPTO PatentsView. Each figure names its source, and the Sources page lists all of them. An interactive version of this profile accompanies the report.

AT A GLANCE

What Kansas's numbers say

1. **International students earn 50% of Kansas's STEM master's degrees,** 1.9 points below the U.S. (52%) in 2025, ranking 16th of 51 on dependence. The share is 52% for STEM research doctorates (U.S. 43%) and 5.1% for STEM bachelor's (U.S. 6.6%).
2. **Kansas awarded 629 STEM master's degrees to international students in 2025,** 0.5% of the U.S. total and 30th of 51 among states. Since 2015 the count changed +35%, against 2.2× nationally.
3. **The heaviest dependence is in computer & info sciences,** where international students earned 81% of master's degrees (352 degrees; U.S. 65%). 4 STEM fields with at least 50 master's graduates are majority-international.
4. **Among states of similar size,** Kansas ranks 3rd of 5 on the international share of STEM master's: Kansas 50%, Oklahoma 40%, Connecticut 68%, Oregon 37%, Iowa 55%.
5. **68% of Kansas's first-time students in fall 2024 were state residents** and 3.1% came from abroad. More students arrived from other states (8.81K) than residents left (4.59K), a net gain of 4.22K; the top destination for those leaving was Missouri.

50%

of the STEM master's degrees Kansas awards go to international students (U.S. 52%).

SECTION 1

International Dependence

Kansas ranks 16th of 51 on the international share of STEM master's, at 50% in 2025 against 52% for the U.S.

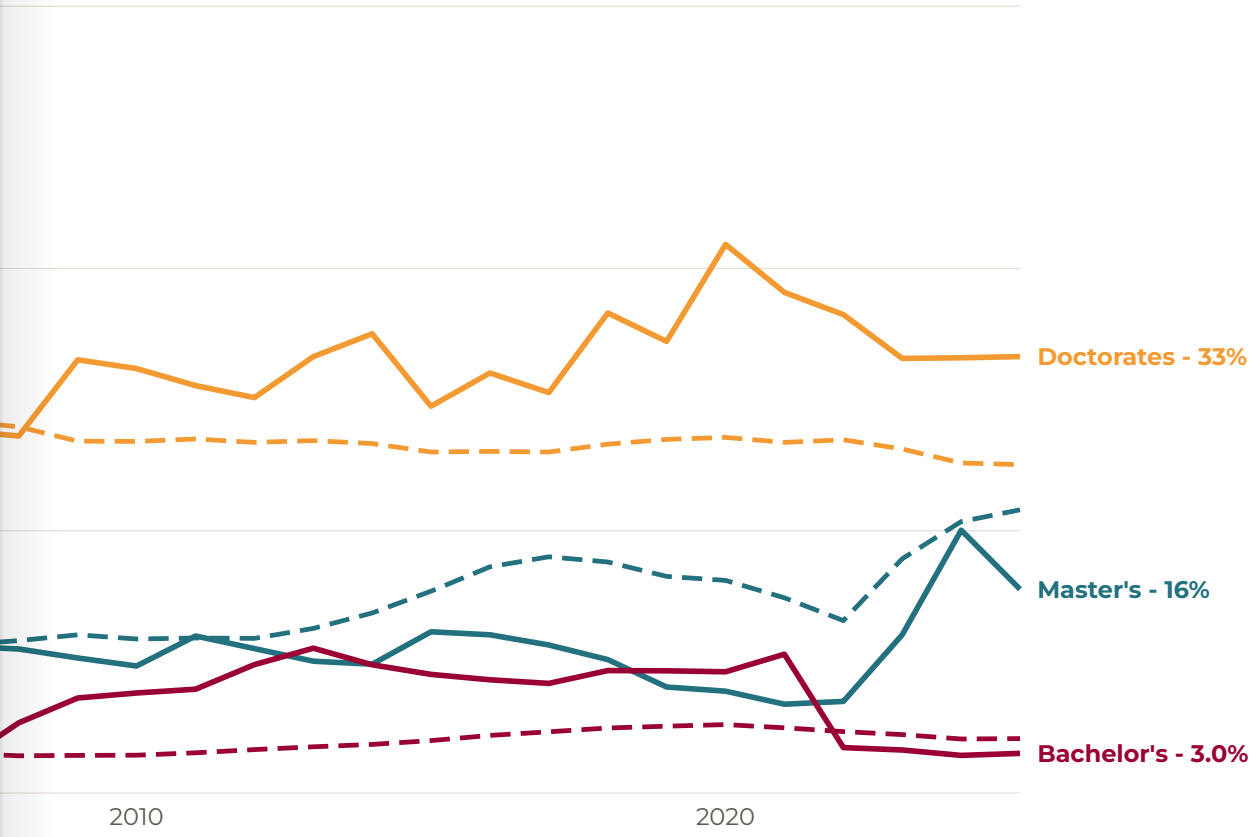

Figure 1 What Share of Kansas's Degrees Go to International Students?

International share of degrees awarded, all fields; state solid, U.S. dashed. Data from NCES, IPEDS Completions, 1985–2025

International students make up 12% of Kansas's graduate enrollment and 3.6% of its undergraduates. Dependence climbs with each degree: 3.0% of bachelor's, 16% of master's and 33% of research doctorates go to international students.

In STEM the shares are higher still: 5.1% of STEM bachelor's, 50% of STEM master's and 52% of STEM doctorates. The state awards 0.5% of all U.S. international STEM master's, 30th of 51.

SECTION 1 · INTERNATIONAL DEPENDENCE

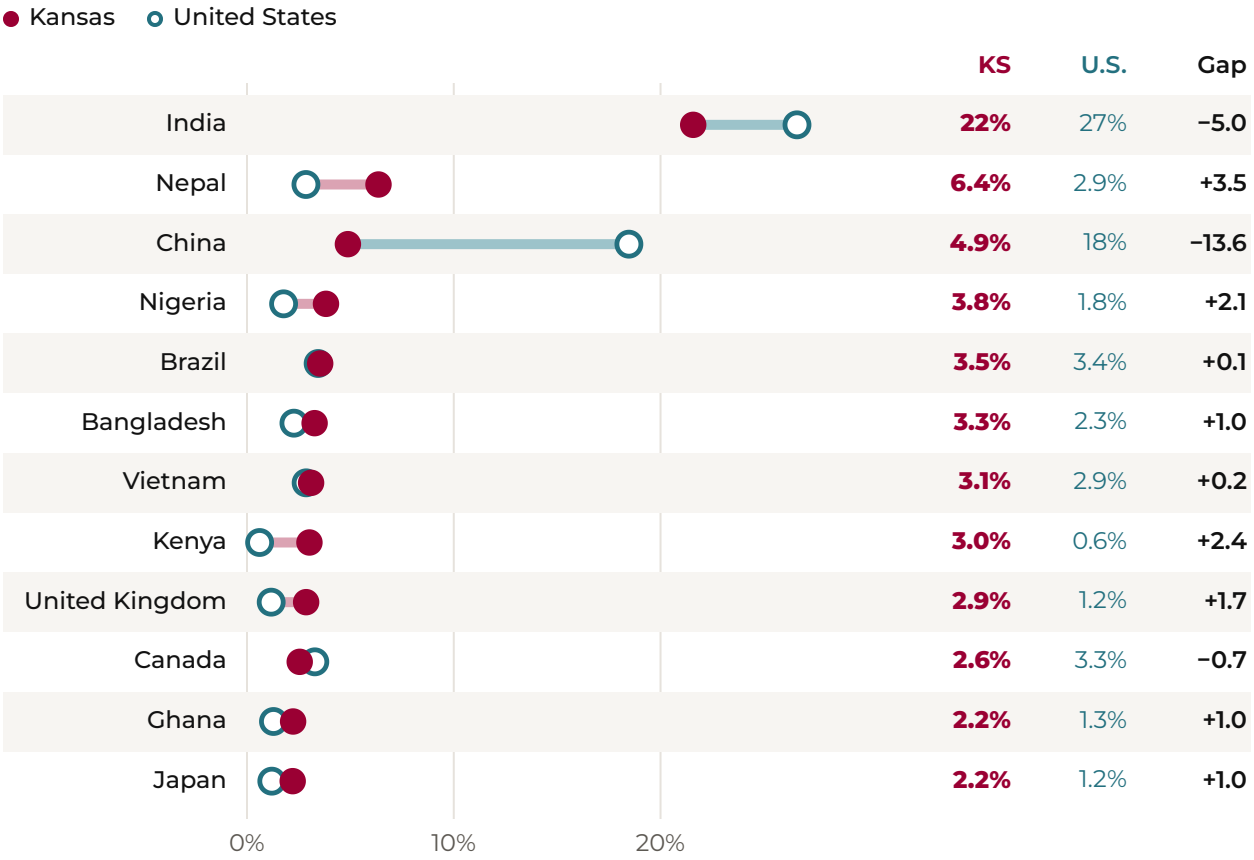

How Does Kansas's Mix of Countries Compare With the Nation's?

In October 2026, Kansas had **9.45K** active F-1 and M-1 students, 29th among the 50 states and DC and **0.8%** of the U.S. total. They came from 162 countries.

India supplied **22%** of them, against 27% nationally, and Nepal **6.4%**, against 2.9%. China (4.9%), Nigeria (3.8%), and Brazil (3.5%) followed.

Together the two largest countries supplied **28%** of the state's international students (U.S. 45%), 38th among the states, against 41% in 2015.

Figure 3 Is Kansas's Mix of Countries Like the Nation's?

The state's count is down 6.8% from 2025 and down 9.1% since 2015, when it stood at 10.4K. Its share of all U.S. international students is down 0.1 points since 2015, to **0.8%**.

Since 2015, the number of students from India went from 1.33K to 2.04K, Nepal's from 151 to 601, and China's from 2.95K to 461.

Over the same years, the number from Nigeria went from 197 to 361 and Brazil's from 203 to 334. The table gives each country's count for the first, previous and latest years.

Table 1 International Students in Kansas, 2015–2026

	2015	2025	2026	Change since 2015	U.S. 2026	Rank

Active F-1 and M-1 students, one fall snapshot per year (the month closest to November; 2019 has none; the latest year is October 2026). Rank among the 50 states and DC. Data from DHS, SEVIS by the Numbers.

Figure 4

Which Countries Supply Kansas's International STEM Students?

6.44K of Kansas's international students were in STEM fields in October 2026, **68%** of the total against 63% nationally, up 46% since 2015.

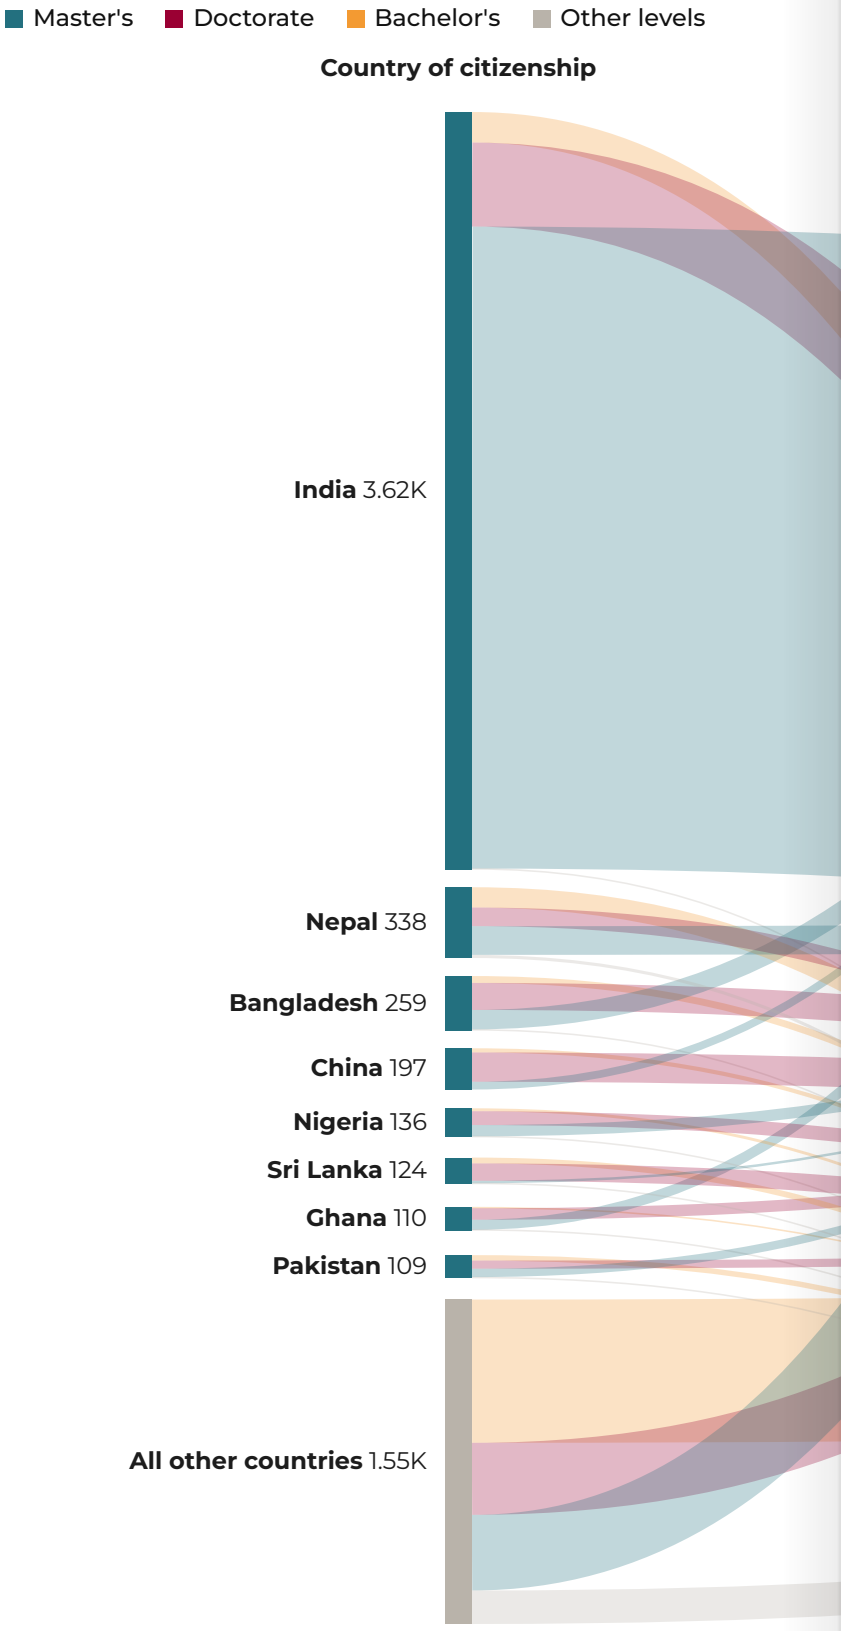

Master's students were the largest group, **3.85K**. India supplied 80% of them and Nepal 3.6%.

STEM doctoral students went from 1K in 2015 to **1.35K**, and STEM master's students from 1.53K to 3.85K.

d level of study, October 2026; the eight largest countries are shown. DHS does not draw its STEM pages on the same evel count for India (3.62K against 2.04K). Data from DHS, SEVIS by the Numbers, October 2026.

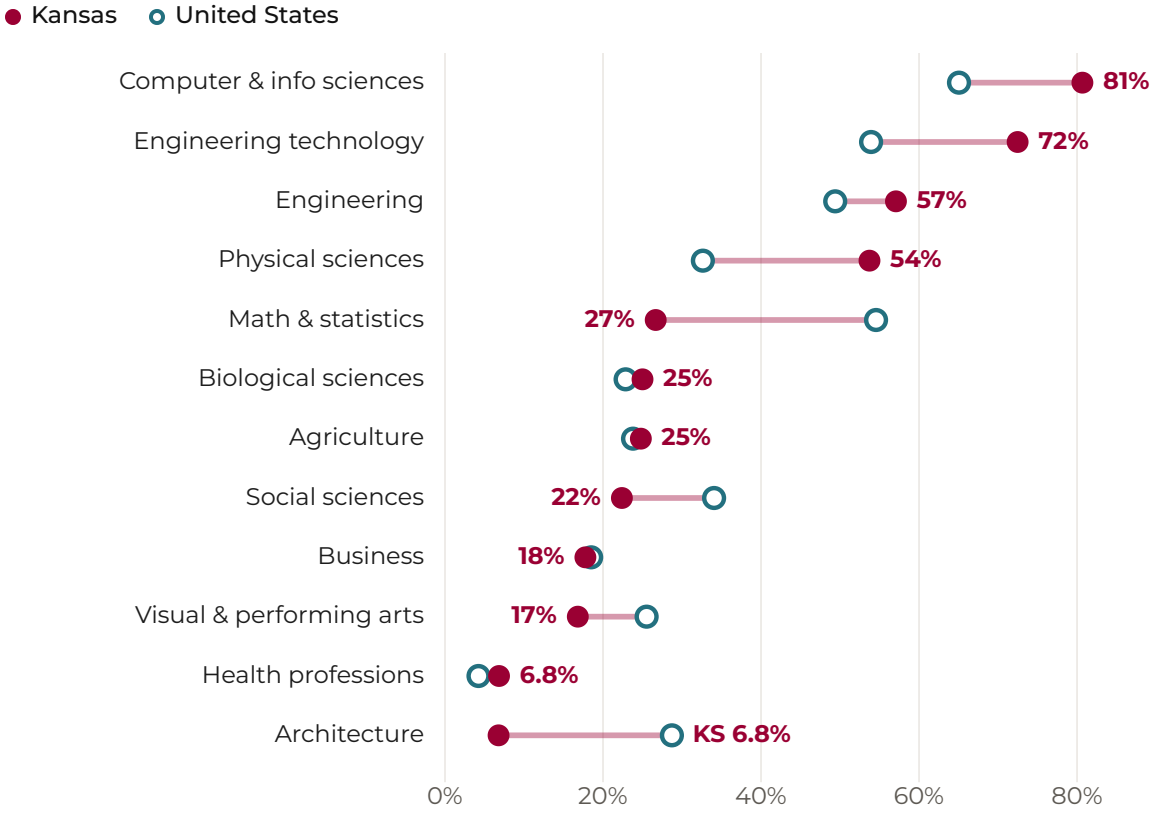

SECTION 1 · INTERNATIONAL DEPENDENCE

How International Are Kansas's Master's Fields?

Each row is a master's field with at least 30 graduates in Kansas in 2025, ranked by the share of degrees earned by international students (U.S. nonresidents on temporary visas). The filled dot is the state's share; the open dot is the national share for the same field.

Highest international shares. International students earned the largest shares of master's degrees in computer & info sciences (81%, against 65% for the U.S.), engineering technology (72%, against 54% for the U.S.), and engineering (57%, against 49% for the U.S.).

Figure 5 Which Master's Fields Depend Most on International Students?

International share of master's degrees by field, 2025; fields with 30+ graduates. Data from NCES, IPEDS Completions.

16%
Int. share of all master's, 2025
U.S. **22%** · **25th** of 51

50%
Int. share of STEM master's, 2025
U.S. **52%** · **16th** of 51

81%
Int. share of CS master's, 2025
U.S. **65%** · **10th** of 47

The table gives the international share of degrees in each STEM field at three levels: Kansas first, the United States after the slash. The master's column is highlighted. A dash means the state awarded no degrees in the field at that level.

Highest international share among STEM master's fields. International students earned 81% of the master's degrees in computer & info sciences, against 65% for the U.S.

Fields with an international majority. International students earned more than half of the master's degrees in 4 STEM fields.

Table 2 How International Is Each STEM Field?

Field	Bachelor's	Master's	Doctorates
Computer & info sciences	8.1% / 8.6%	**81% / 65%**	– / 56%
Engineering	6.7% / 7.2%	**57% / 49%**	63% / 55%
Engineering technology	2.1% / 4.5%	**72% / 54%**	– / 42%
Math & statistics	7.8% / 17%	**27% / 55%**	– / 53%
Physical sciences	5.1% / 6.0%	**54% / 33%**	54% / 38%
Biological sciences	2.1% / 3.4%	**25% / 23%**	33% / 23%
Natural resources	1.1% / 2.0%	**– / 17%**	– / 27%
Architecture	5.2% / 7.3%	**6.8% / 29%**	– / 55%

International share in Kansas / U.S., 2025. Data from NCES, IPEDS Completions.

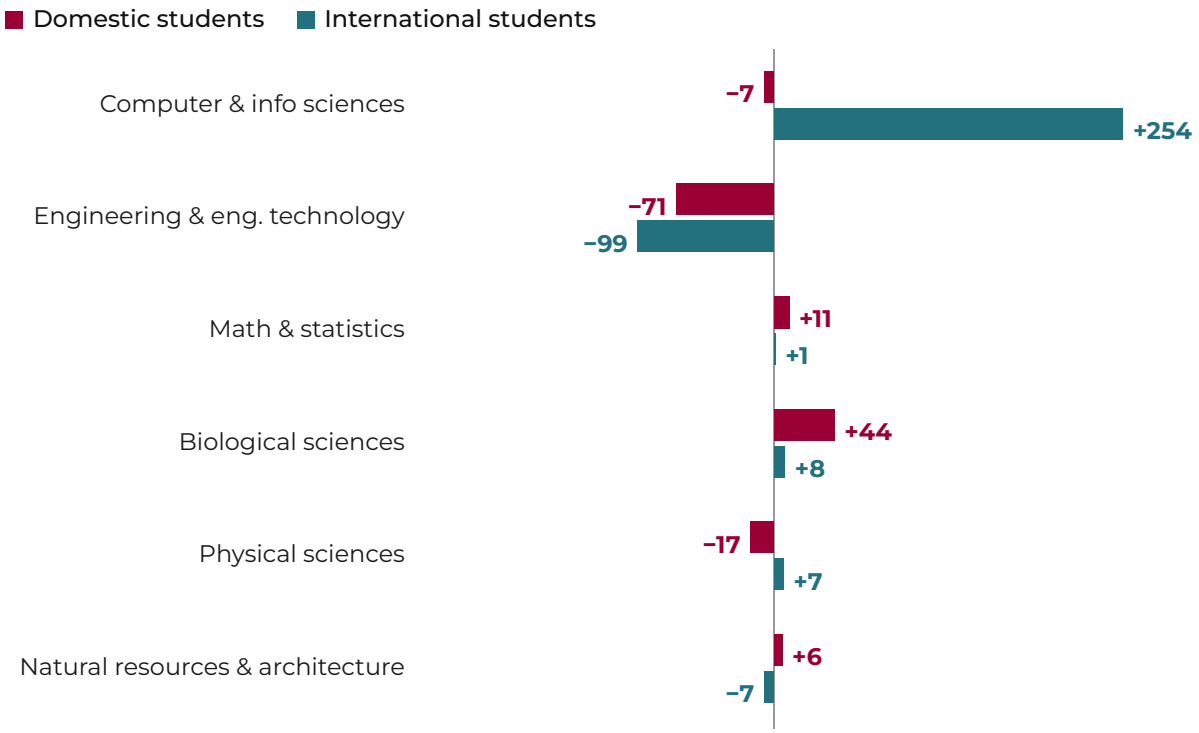

SECTION 1 · INTERNATIONAL DEPENDENCE

How Has Kansas's STEM Master's Output Grown?

Each pair of bars is the change in the number of STEM master's degrees awarded in Kansas between 2015 and 2025 in one field: to domestic students (U.S. citizens and permanent residents) and to international students. Bars to the left of the axis are declines.

STEM master's degrees. The state awarded 1.25K in 2025 and 1.12K in 2015, a change of +164 for international students and −34 for domestic students.

Figure 6 Where Did the STEM Master's Growth Come From?

Change in STEM master's degrees by field, 2015–2025. Data from NCES, IPEDS Completions.

Students and Postdoctorates.

In 2016, the last year NSF published state tables, 36% of Kansas's science and engineering graduate students held temporary visas (U.S. 39%; 21st of 51).

Among postdoctoral researchers, the share was 65% (U.S. 56%). Postdocs are the stage of research training most dependent on international talent, and IPEDS does not count them.

The state's institutions awarded 493 research doctorates in 2025, 0.8% of the U.S. total (Data from NSF NCSES, Survey of Earned Doctorates; NSF publishes doctorates by citizenship only for the nation).

SECTION 8

H-1B Jobs and Green Cards

Kansas ranks 13th of 51 on the share of PERM certifications for workers on F-1 student visas, at 13% in 2024 against 8.7% for the U.S.

Figure 18 How Many Skilled-Visa Jobs and Green-Card Certifications Does Kansas Gene

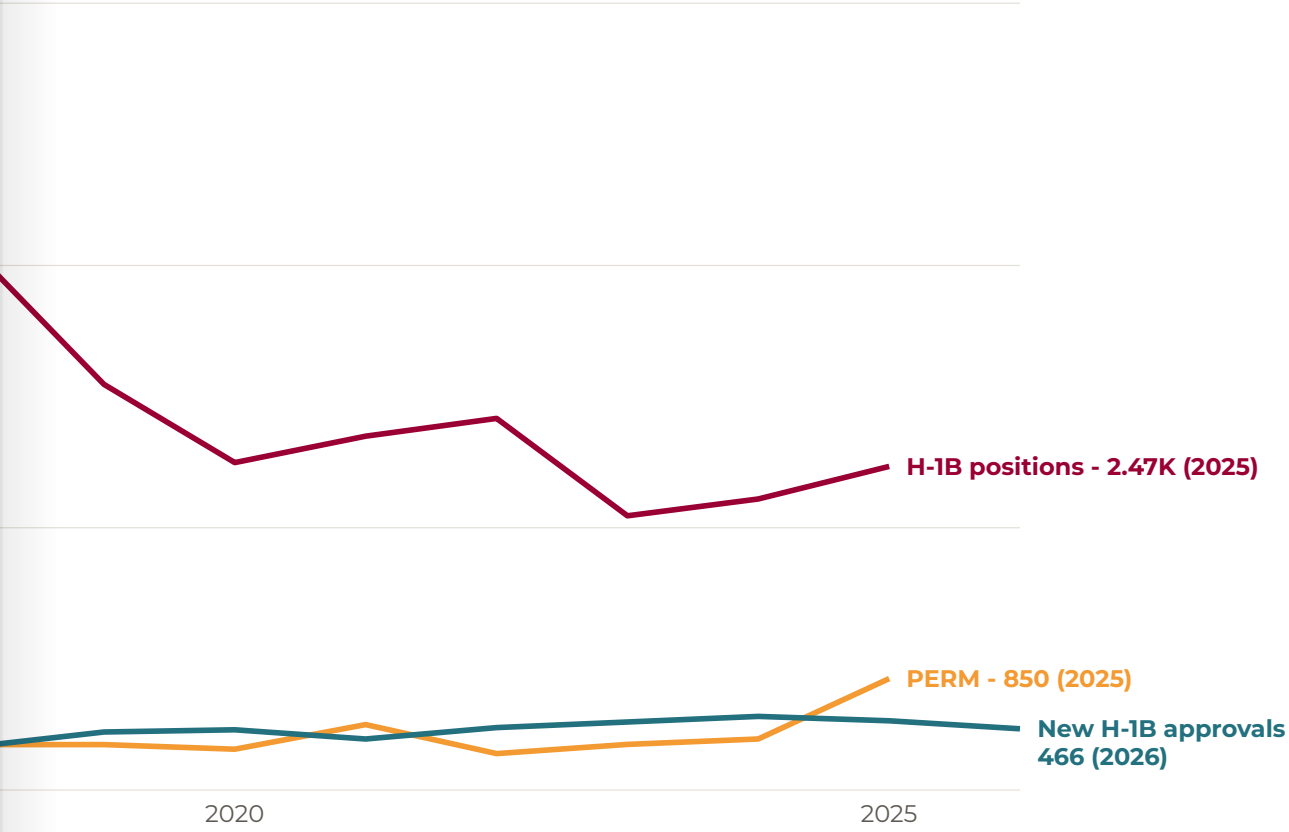

Certified H-1B positions on labor condition applications by worksite and certified PERM green-card applications, by fiscal
from USCIS, H-1B Employer Data Hub).

Employers were certified for 2.47K H-1B positions at Kansas worksites in FY2025, 34th of 51 among the states. A labor condition application comes before the petition and covers renewals and job changes as well as new hires, by the worksite's state, so it runs well above approvals. USCIS approved 466 new H-1B petitions in FY2026 and 772 continuing ones, counted by the employer's address.

DOL certified 850 PERM applications, the employer's step toward an employment-based green card, for jobs in the state in FY2025. In FY2024, 13% were for workers still on F-1 student visas (U.S. 8.7%): the most direct link from classroom to permanent residence.

SECTION 12

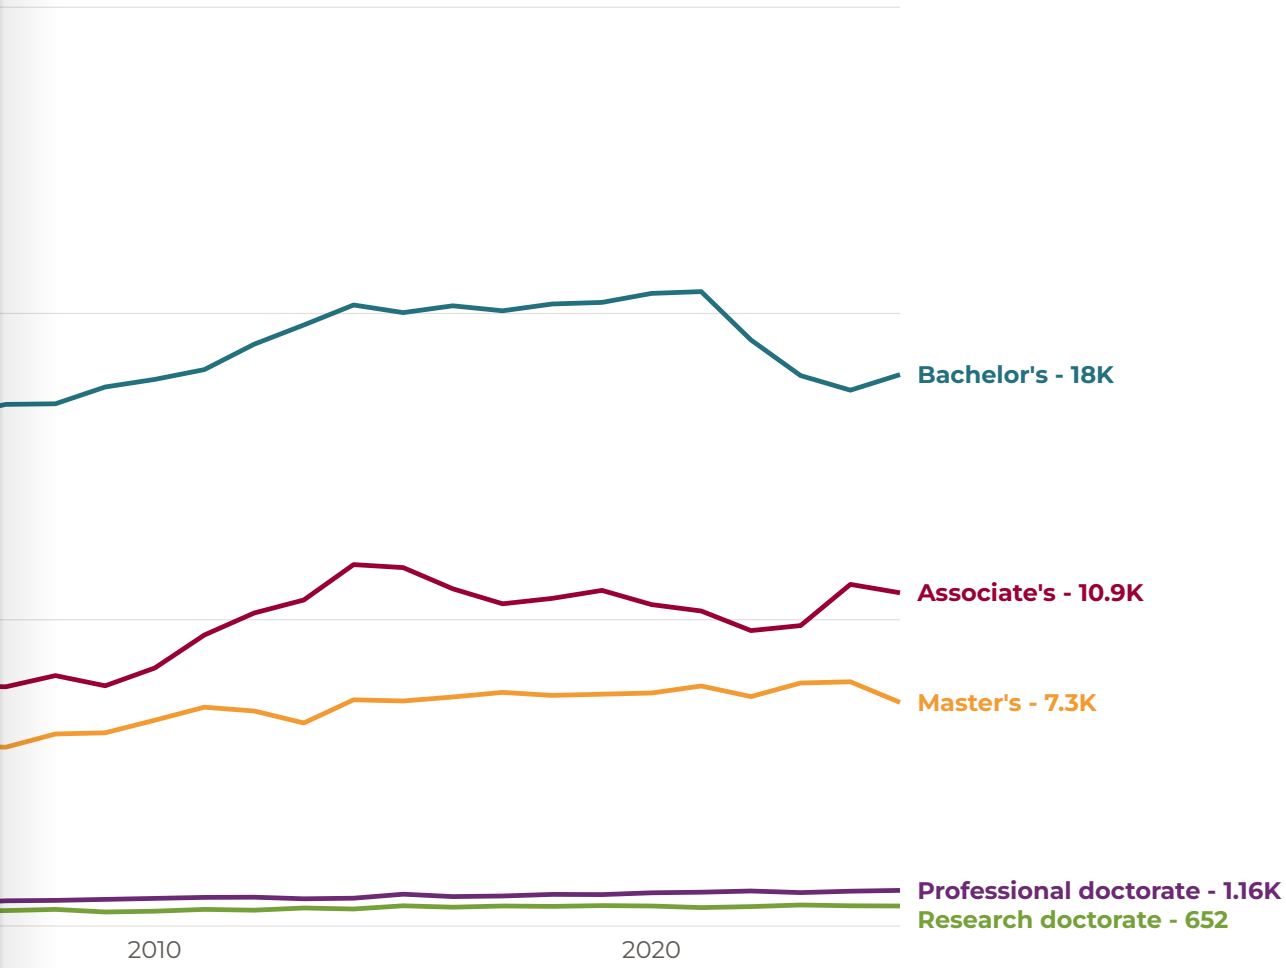

Fields of Study

Figure 27 How Many Degrees Does Kansas Award?

Degrees awarded by level, first majors. Data from NCES, IPEDS Completions.

In 2025, Kansas's institutions awarded 10.9K associate's degrees, 18K bachelor's degrees, 7.3K master's degrees, 652 research doctorate degrees, 1.16K professional doctorate degrees.

Since 2015: associate's down 7%; bachelor's down 10%; master's roughly flat; research doctorate roughly flat; professional doctorate up 12%. The state awards 10.6 bachelor's degrees for every 100 undergraduates (U.S. 12.3).

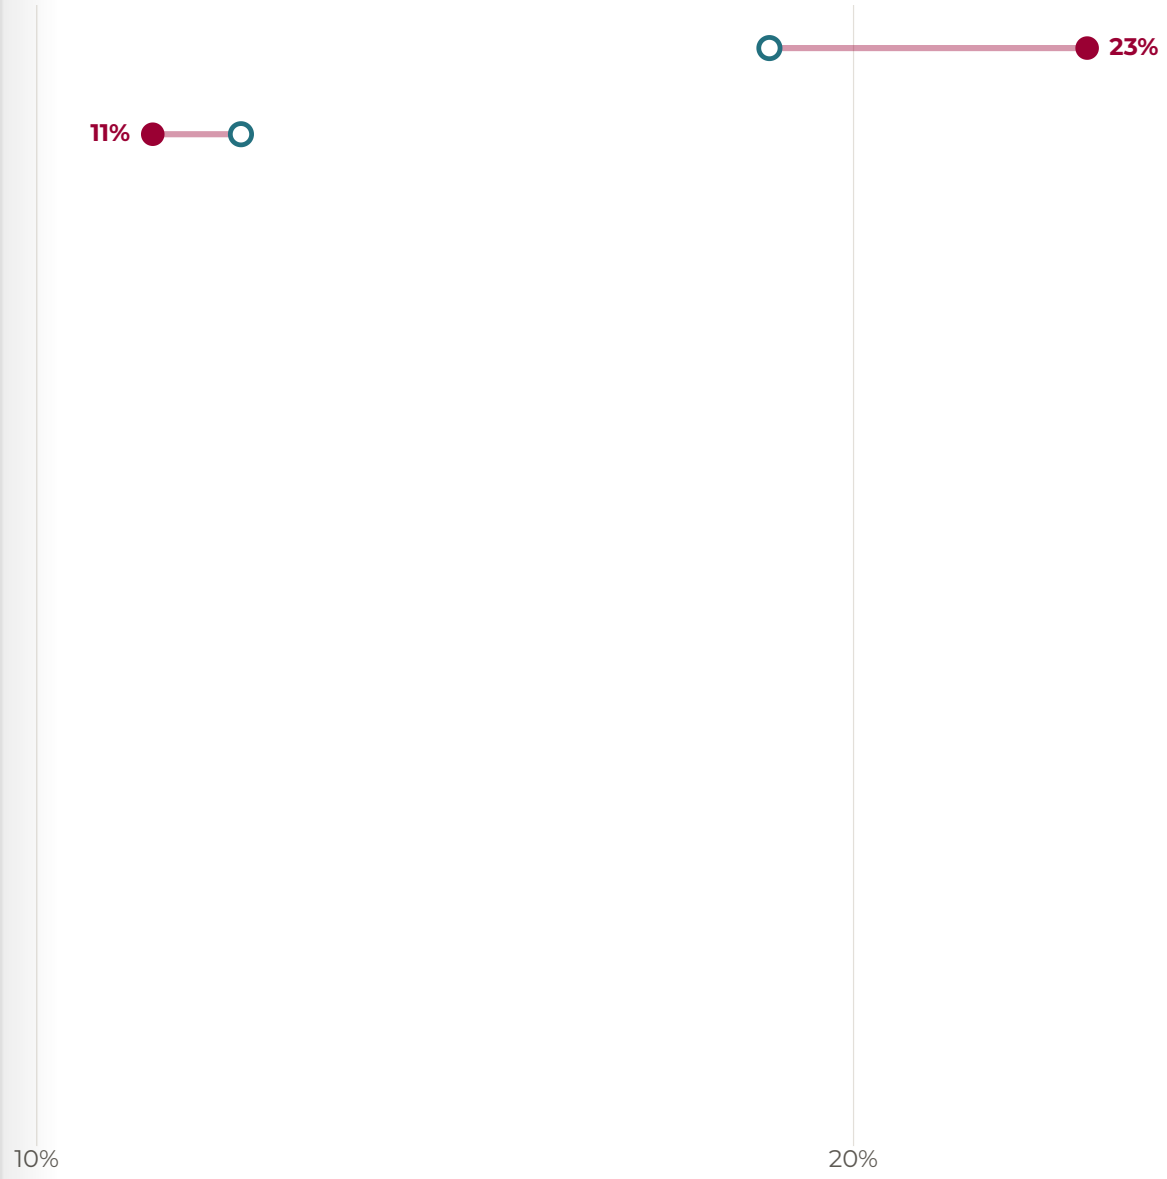

Figure 28 What Do Kansas's Bachelor's Graduates Study?

Share of bachelor's degrees by field, 2025. Data from NCES, IPEDS.

Kansas's largest bachelor's fields are business (23%; U.S. 19%), health professions (11%; U.S. 13%), education (8.6%; U.S. 4.3%).

Relative to the nation, Kansas's bachelor's degrees are most concentrated in agriculture (2.85× the U.S. share), engineering technology (2.04× the U.S. share), education (1.98× the U.S. share).

Figure 30 How Has Kansas's Bachelor's Field Mix Changed?

Share of bachelor's degrees in the largest fields. Data from NCES, IPEDS Completions.

Since 2015, psychology has gained the most ground, 2.1 points of the state's bachelor's degrees, while business lost the most (1.3 points).

The chart follows the share of bachelor's degrees in each of the state's largest fields; smaller fields are grouped as other fields.

SECTION 12 · FIELDS OF STUDY

Where Is Kansas Most Specialized?

The location quotient divides a field's share of Kansas's bachelor's degrees by its share of all U.S. bachelor's degrees in 2025. A quotient of 1.00 means the same share as the nation; 2.00 means twice the national share. The table lists the 10 fields with the highest quotients among fields with at least 50 degrees.

Highest location quotients. Agriculture (2.85, with 2.9% of the state's bachelor's degrees against 1.0% for the U.S.), engineering technology (2.04, with 1.8% of the state's bachelor's degrees against 0.9% for the U.S.), and education (1.98, with 8.6% of the state's bachelor's degrees against 4.3% for the U.S.) had the highest quotients.

Table 5 Where Is Kansas Most Specialized?

Field	Location quotient	State share	U.S. share	Degrees
Agriculture	**2.85**	2.9%	1.0%	527
Engineering technology	**2.04**	1.8%	0.9%	329
Education	**1.98**	8.6%	4.3%	1.54K

SECTION 13 · STUDENTS AND MONEY

How Are Kansas's Public Institutions Funded, and What Do They Produce?

The bars give each source's share of the core revenue of Kansas's public institutions, with the nation for comparison, and at right the dollars per full-time-equivalent (FTE) student it provides. Values are in 2024 dollars (CPI-U). Net tuition is tuition and fees after institutional discounts and allowances.

Net tuition per FTE student. The figure was $7.96K in FY2024, against $8.96K for the U.S., down 1.9% from $8.11K in FY2023 and down 11% since FY2015, when it was $8.92K.

Figure 35 How Are Public Institutions Funded?

Share of core revenue per FTE student by source, public institutions, FY2024; dollars per FTE at right, 2024 dollars (CPI-U). Shares are of all five sources; the tuition share elsewhere in this profile divides net tuition by net tuition plus state and local appropriations only. Data from NCES, IPEDS Finance.

SECTION 14 · STUDENT OUTCOMES

How Many of Kansas's Students Graduate?

The line follows the share of first-time, full-time bachelor's-degree students at Kansas's four-year institutions who graduated from the institution where they started within six years (150% of normal time). Each year is the cohort that entered six years earlier. The rate leaves out students who start part-time (42% of the state's students attend part-time, against 39% nationally) and students who transfer and finish elsewhere. The state is solid and the United States dashed.

Six-year graduation rate. The rate was 58% in 2024, against 65% for the U.S., down 0.2 points from 58% in 2023 and up 5.0 points since 2015, when it was 53%.

Figure 37 Six-Year Bachelor's Graduation Rate

U.S. **12.3** · **45th** of 51

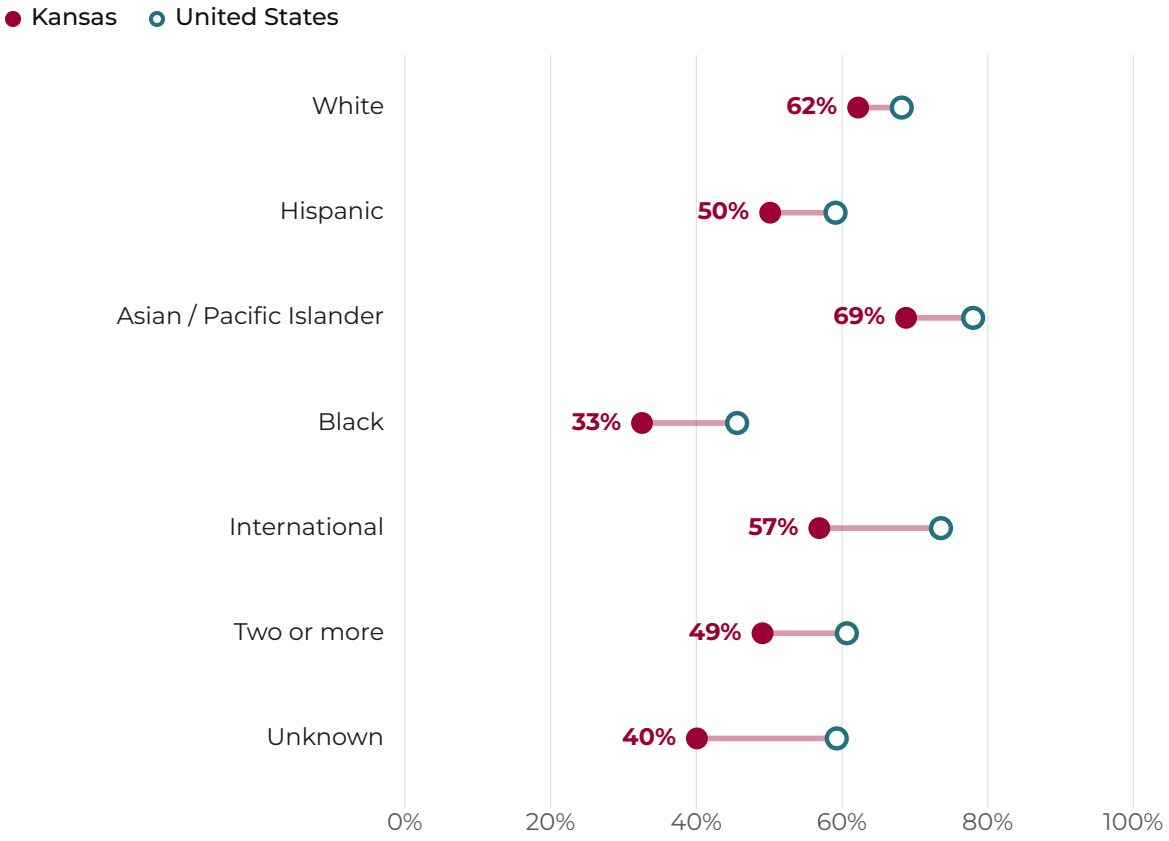

Each row is the six-year bachelor's graduation rate for one racial or ethnic group of students at Kansas's four-year institutions (filled dot), against the national rate for the same group (open dot). Groups with fewer than 100 students in the cohort are left out.

White. The six-year rate was 62% in 2024, against 68% for the U.S.

Hispanic. The six-year rate was 50% in 2024, against 59% for the U.S.

Asian / Pacific Islander. The six-year rate was 69% in 2024, against 78% for the U.S.

Six-year rate, 2024; groups with 100+ students. Data from NCES, IPEDS.

SECTION 15

Faculty

Kansas ranks 46th of 51 on the average full-time faculty salary, at $80.1K in 2024 against $106K for the U.S.

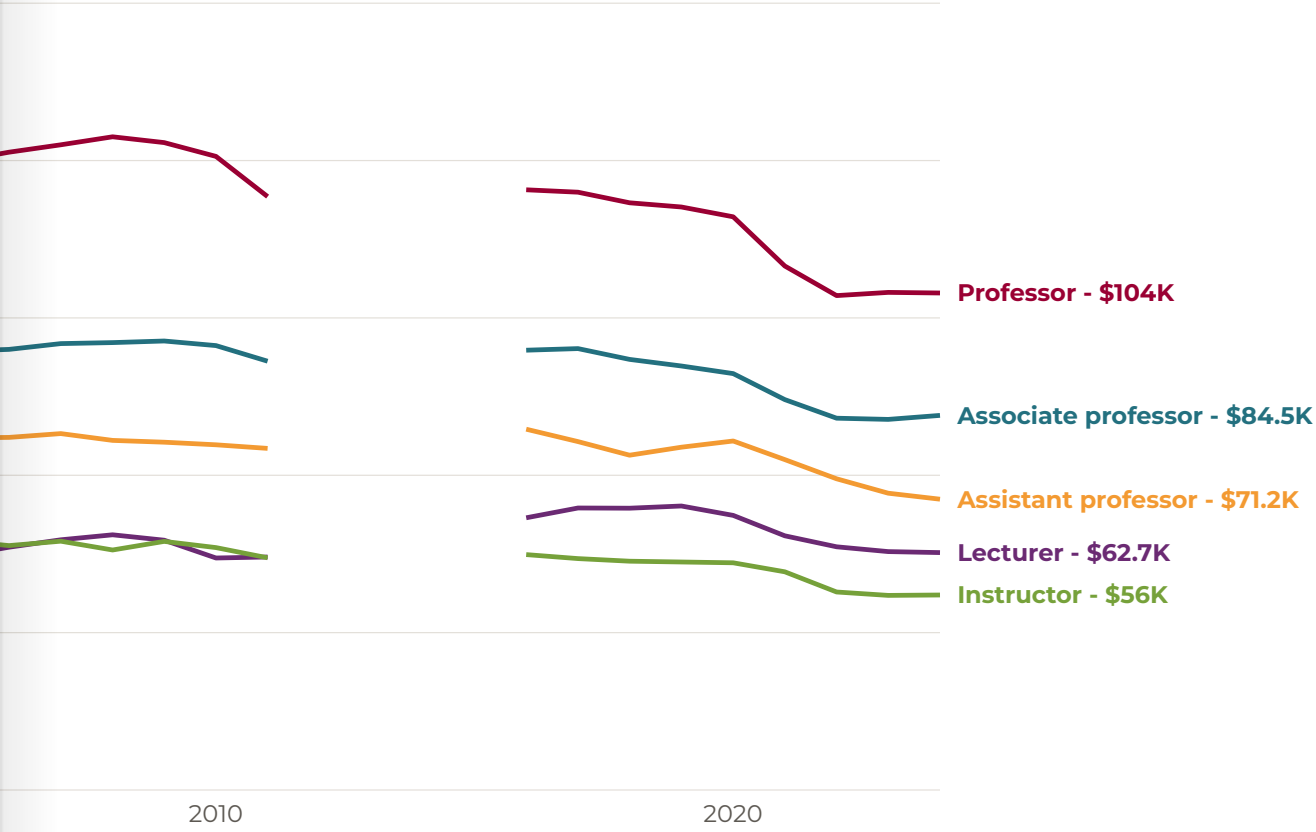

Figure 39 What Do Kansas's Faculty Earn, by Rank?

Average salary of full-time instructional faculty on 9/10-month contracts, by academic rank, 2024 dollars (CPI-U). Data fro

Full-time instructional faculty on 9/10-month contracts at Kansas's institutions earned an average of $80.1K in 2024 (2024 dollars), 24% below the U.S. ($106K); the state ranks 46th of 51. By rank (2024): professors $104K, associate professors $84.5K, assistant professors $71.2K, instructors $56K, lecturers $62.7K.

Kansas's institutions had 8.04K full-time instructional staff in 2024, up 3% since 2015. Average salary across all ranks is down 10% since 2016.

m NCES, IPEDS Human Resources.

SECTION 15 · FACULTY

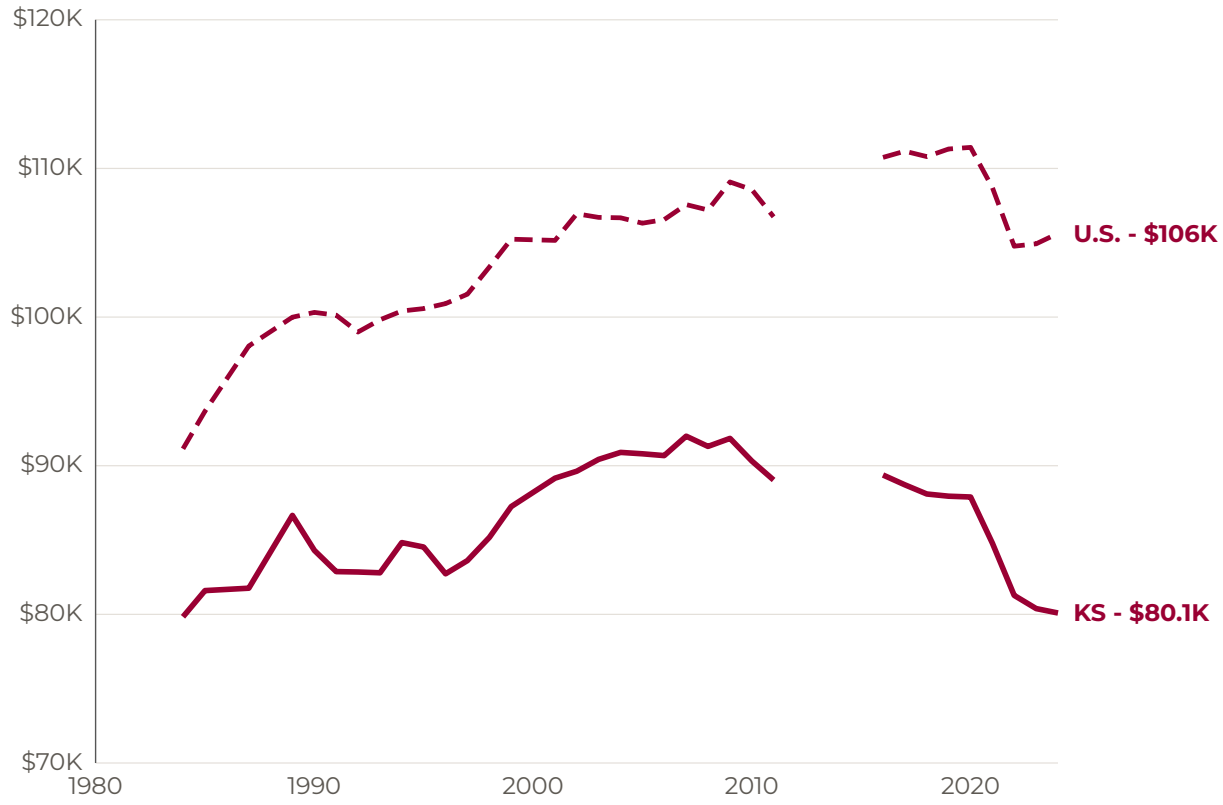

What Do Kansas's Faculty Earn, and How Many Hold Tenure?

The line follows the average salary of full-time instructional faculty on 9- or 10-month contracts at Kansas's degree-granting institutions, all ranks combined, in 2024 dollars (CPI-U). The state is solid and the United States dashed.

Average salary. The figure was $80.1K in 2024, against $106K for the U.S., 46th among the states, down 0.4% from $80.4K in 2023 and down 10% since 2016, when it was $89.4K.

Full-time instructional staff. The number was 8.04K in 2024, up 1.9% from 7.89K in 2023 and up 2.8% since 2015, when it was 7.82K.

Figure 40 Average Faculty Salary

Tenured, 2024

The bars divide Kansas's full-time instructional staff by tenure status in 2015, 2019 and 2024: tenured, on the tenure track, not on the tenure track (for example, lecturers on fixed-term contracts), and staff at institutions with no tenure system.

Tenured, share of full-time instructional staff. The share was 37% in 2024, down 1.3 points from 39% in 2023 and down 7.1 points since 2015, when it was 44%.

Figure 41 Tenure Status

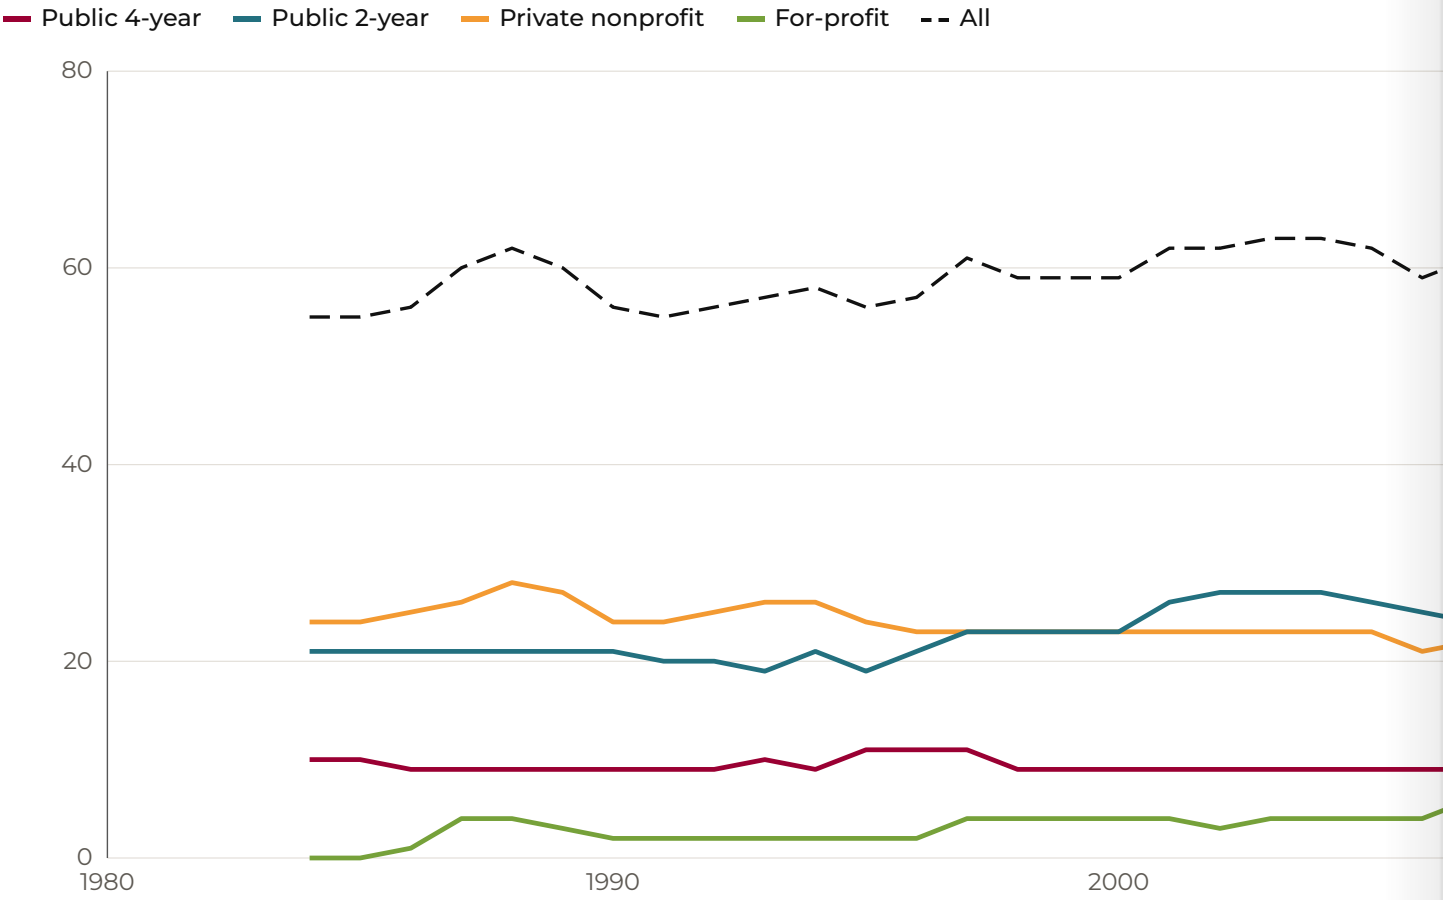

Full-time instructional staff by tenure status, 2015, 2019, 2024. Data from NCES, IPEDS.

SECTION 16

Institutions

Kansas ranks 8th of 51 on the share of enrollment at public institutions, at 88% in 2024 against 73% for the U.S.

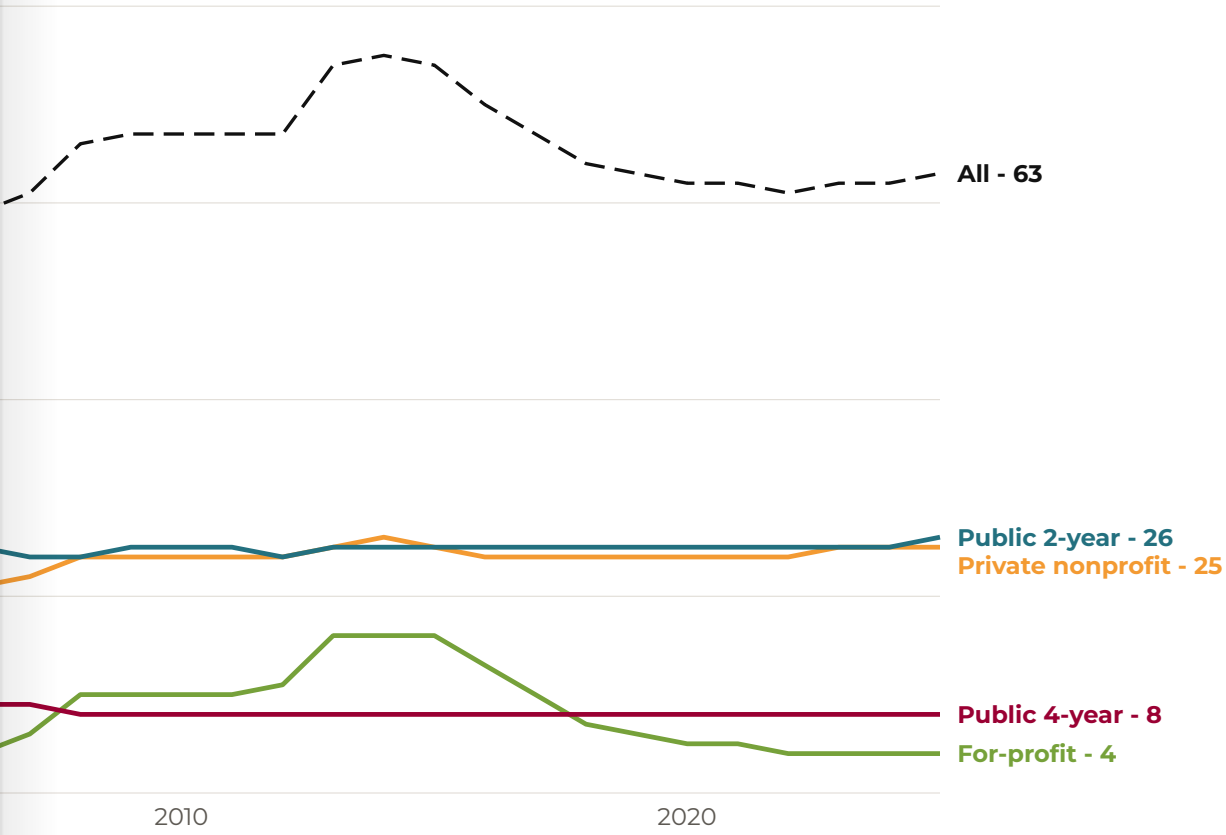

Figure 42 How Many Institutions Does Kansas Have?

Degree-granting institutions by sector. Data from NCES, IPEDS.

Kansas has 63 degree-granting institutions:8 public 4-year, 26 public 2-year, 25 private nonprofit, 4 for-profit (2025).

The number of institutions is down 15% since 2015. 88% of students attend public institutions and 0.3% attend for-profit ones.

SECTION 16 · INSTITUTIONS

Which Institutions Lead in Kansas?

The table ranks institutions in Kansas by the STEM master's degrees and research doctorates they awarded to international students in 2025, the two counted together. The share columns give international students' share of each institution's STEM degrees at that level.

Largest. Wichita State University (228 international STEM master's degrees and 15 doctorates), University of Kansas (157 international STEM master's degrees and 56 doctorates), and Pittsburg State University (101 international STEM master's degrees and – doctorates) awarded the most.

Table 8 Which Institutions Train the Most International STEM Graduates?

Institution	Intl STEM total	Intl STEM master's	Int. share	Intl STEM doctorates	Int. share
Wichita State University Wichita · Public 4-year	**243**	228	79%	15	71%
University of Kansas Lawrence · Public 4-year	**213**	157	40%	56	42%

The table lists Kansas's largest degree-granting institutions by fall 2024 headcount enrollment, with the international share of graduate students, STEM bachelor's degrees awarded in 2025, the six-year graduation rate and the admission rate (a dash where the institution admits all applicants or does not report one).

Largest. The three largest were University of Kansas (29.8K students), Kansas State University (20.3K students), and Johnson County Community College (18.7K students).

Degree-granting institutions. The state had 63 in 2025, and 62 of them reported the enrollment and degree data in these tables.

Table 9 What Are Kansas's Largest Institutions?

Institution	Enrollment	Int. share, grad	STEM bachelor's	Six-year grad rate	Admit rate
University of Kansas	**29.8K**	16%	1.01K	69%	93%
Kansas State University	**20.3K**	15%	931	71%	82%

Hutchinson Community College	**5.12K**	–	–	–	–

Fall 2024 enrollment; degrees 2025. Data from NCES, IPEDS.

NOTES

About These Data

International students

U.S. nonresidents on temporary visas, as IPEDS defines them. IPEDS does not record country of citizenship. Permanent residents count with U.S. citizens.

STEM

CIP families 03, 04, 11, 14, 15, 26, 27 and 40. Doctorates are research and scholarship doctorates; professional doctorates appear only in the degree-count figure. Degrees are first majors only.

Universe

Degree-granting institutions located in the state; Title IV participants from 1996. Geography is the institution's location, not the student's home. Enrollment is fall headcount.

Migration

First-time degree-seeking undergraduates by home state, reported in even years before 2001 and every year since; odd years with incomplete reporting are omitted. Net migration is students arriving from other states minus residents leaving, per 100 resident first-time students.

Money

Tuition, appropriations, revenue and faculty salaries are in 2024 dollars using the CPI-U. Research funding (HERD, Federal Funds, USAspending), wages and the NAFSA economic contribution are nominal dollars, and are labeled so. Appropriations and revenue are per full-time-equivalent student at public institutions; the tuition share divides net tuition by net tuition plus state and local appropriations.

Race and ethnicity

IPEDS did not collect race and ethnicity in every year before 2010, and categories changed in 2008–2010; “Two or more” exists only from then.

Countries of citizenship

From DHS SEVIS by the Numbers: active F-1 and M-1 student records in the month named, at every level from primary school to doctorate, by the state of the school. IPEDS records only whether a student is a U.S. nonresident, not where they come from. SEVIS counts are monthly snapshots and are not directly comparable with IPEDS fall enrollment or degree counts. Year-to-year comparisons use one fall snapshot per year (the month closest to November).

Peers

Comparison states are the four closest in total fall enrollment, measured proportionally: a state 1.5 times as large counts as near as one two-thirds the size.

Sources

IPEDS (National Center for Education Statistics) is the backbone: Institutional Characteristics, Fall Enrollment, Completions, Graduation Rates, Finance, Human Resources and Admissions, 1980–2025, harmonized into a state panel. The profile also draws on NAEP, NSF's Survey of Graduate Students and Postdoctorates, Survey of Earned Doctorates, HERD and Federal Funds surveys, USAspending.gov, DHS SEVIS by the Numbers and ICE SEVIS releases, the Department of Labor's Office of Foreign Labor Certification and BLS wage data, the USCIS H-1B Employer Data Hub, the Census Bureau's American Community Survey and Post-Secondary Employment Outcomes, USPTO PatentsView, and other federal sources; every figure names its source, and the Sources page lists them in full. Generated November 2026.

NOTES

How the Numbers Are Counted

Ranks

Ranks are among the 50 states and the District of Columbia (1 = highest value, whether or not a high value is good). Where fewer than 51 report, the count is given ("23rd of 33").

Sectors

Sectors are as IPEDS classifies institutions each year. IPEDS moves a whole institution to "public, 4-year or above" once it awards any bachelor's degree, so community colleges that began offering applied bachelor's degrees carry all of their students into the public 4-year sector. Sector series (enrollment shares, public 4-year tuition, graduation rates by sector) reflect these moves.

Research doctorates

Two counts appear. IPEDS counts degrees institutions report as "doctor's degree, research/scholarship", which includes some practice-oriented degrees such as many Ed.D.s; the NSF Survey of Earned Doctorates counts research doctorate recipients and is smaller. Each figure names which it uses. "STEM master's per STEM research doctorate" divides IPEDS STEM master's degrees by IPEDS STEM research doctorates.

Engineering

"Engineering" alone is CIP 14. Where engineering technology (CIP 15) is added, the label says "engineering & eng. technology".

Graduation rates

IPEDS graduation rates follow first-time, full-time students and count only those who finish at the institution where they started, so they leave out part-time starters and students who transfer and finish elsewhere.

International students in SEVIS

SEVIS counts active F-1 and M-1 records, which include graduates on Optional Practical Training (up to 36 months for STEM graduates, 12 for others), so STEM shares run high. STEM follows the DHS STEM Designated Degree Program List, which is broader than the eight CIP families above, and DHS draws its STEM pages on a different basis from its all-student pages, so a country's STEM count can exceed its all-level count.

Visas and green cards

DOL labor condition applications (H-1B positions) are counted by worksite and include renewals and job changes; USCIS approvals are counted by the employer's address and split into new and continuing. PERM certifications are the employer's step toward a green card.

Patents

Patents are counted by the owner's (assignee's) location, not where inventors live; a company headquartered in another state takes its patents there.

Years

Each measure uses its latest year, so years differ across a page; every figure, table and statement gives its year, and lines that stop early are labeled with their last year.

Software developer jobs	7.14K	**13.6K**[2025]	+90% ▲	1.69M	+48% ▲	#27	[10]
Mean annual wage, all occupations, nominal, nominal dollars	$42.9K	**$60.6K**[2025]	+41% ▲	$69.8K	+44% ▲	#41	[10]
Patents granted to assignees in the state	777	**510**[2025]	−34% ▼	135K	−0.6% ▼	#33	[22]
Share of U.S.-assignee patents	0.6%	**0.4%**[2025]	−0.2 pp ▼	–	–	#33	[22]
Share of the state's patents in digital technologies	69%	**48%**[2025]	−21.1 pp ▼	43%	+1.6 pp ▲	#8	[22]
Share of the state's patents in life sciences	9.8%	**15%**[2025]	+5.0 pp ▲	17%	+0.4 pp ▲	#29	[22]
Share of the state's patents in semiconductors	0.3%	**0.2%**[2025]	−0.1 pp ▼	2.9%	−1.7 pp ▼	#42	[22]
Women's share of inventors on the state's patents	8.0%	**11%**[2025]	+3.2 pp ▲	14%	+3.4 pp ▲	#31	[22]

Superscript years mark the year observed; changes since 2015 start from 2015 or the first later year with data. Rank is among the 50 states and DC (1 = highest). "pp" is percentage points. Dollars are 2024 dollars (CPI-U) unless the measure is labeled nominal. Counts and dollars are rounded to three significant figures (K, M, B). Arrow colors show direction only. Source numbers refer to the list of sources that follows the tables.
