Authors

Emerson Victoria Johnston is a research assistant with the Hoover Institution's Technology Policy Accelerator. A Knight-Hennessy Scholar, she holds a master's in international policy from Stanford University, and is on leave from its master's program in the history of science, technology, environment, and medicine.

Dr. Amy Zegart is the Morris Arnold and Nona Jean Cox Senior Fellow at the Hoover Institution, director of Hoover's Technology Policy Accelerator, and a senior fellow and associate director at Stanford University's Institute for Human-Centered Artificial Intelligence.

Data come from the Integrated Postsecondary Education Data System (IPEDS), the Department of Homeland Security's SEVIS by the Numbers, the National Assessment of Educational Progress, NSF's Survey of Graduate Students and Postdoctorates and Survey of Earned Doctorates, the Department of Labor's Office of Foreign Labor Certification, the USCIS H-1B Employer Data Hub, the Census Bureau's American Community Survey and USPTO patent data via PatentsView, processed in Python; every figure and table is generated from those sources, and each one names its source.

About This Profile

This profile is a companion to *The 2026 US Talent Report: Benchmarking America's STEM Pipeline Amid the Great Talent Competition*. It applies the report's measures to Maryland: the students the state develops at home, those it draws from abroad, and how both compare with the nation and with the states closest to it in size.

Degrees, enrollment, prices, outcomes and faculty come from IPEDS, the federal census of U.S. colleges and universities, harmonized across 1980–2025. Countries of citizenship come from SEVIS by the Numbers, the Department of Homeland Security's monthly count of active F-1 and M-1 students. Each figure names its source. Peer states are the four closest in total fall enrollment.

Public Data and Tools

The data behind every chart come from federal sources: the Integrated Postsecondary Education Data System (IPEDS), published by the National Center for Education Statistics, as the backbone, together with NAEP, NSF's surveys of graduate students, doctorates and research funding, USAspending.gov, DHS and ICE SEVIS data, the Department of Labor, USCIS, the Census Bureau's American Community Survey and Post-Secondary Employment Outcomes, and USPTO PatentsView. Each figure names its source, and the Sources page lists all of them. An interactive version of this profile accompanies the report.

AT A GLANCE

What Maryland's numbers say

1. **International students earn 31% of Maryland's STEM master's degrees,** 21.2 points below the U.S. (52%) in 2025, ranking 39th of 51 on dependence. The share is 39% for STEM research doctorates (U.S. 43%) and 3.8% for STEM bachelor's (U.S. 6.6%).
2. **Maryland awarded 2.49K STEM master's degrees to international students in 2025,** 2.1% of the U.S. total and 16th of 51 among states. Since 2015 the count changed 2.7×, against 2.2× nationally.
3. **The heaviest dependence is in engineering technology,** where international students earned 59% of master's degrees (261 degrees; U.S. 54%). One STEM field with at least 50 master's graduates is majority-international.
4. **Among states of similar size,** Maryland ranks 4th of 5 on the international share of STEM master's: Maryland 31%, Missouri 83%, Colorado 24%, Washington 39%, Wisconsin 55%.
5. **76% of Maryland's first-time students in fall 2024 were state residents** and 2.4% came from abroad. More residents left for other states (18.3K) than students arrived from them (9.6K), a net loss of 8.68K; the top destination for those leaving was Pennsylvania.

31%

of the STEM master's degrees Maryland awards go to international students (U.S. 52%).

Badges give Maryland's rank among the 50 states and DC (1 = highest). Changes are since 2015.

SECTION 1

International Dependence

Maryland ranks 9th of 51 on the international share of all master's, at 26% in 2025 against 22% for the U.S.

Figure 1 What Share of Maryland's Degrees Go to International Students?

International share of degrees awarded, all fields; state solid, U.S. dashed. Data from NCES, IPEDS Completions, 1985–2025.

International students make up 20% of Maryland's graduate enrollment and 4.0% of its undergraduates. Dependence climbs with each degree: 3.2% of bachelor's, 26% of master's and 33% of research doctorates go to international students.

In STEM the shares are higher still: 3.8% of STEM bachelor's, 31% of STEM master's and 39% of STEM doctorates. The state awards 2.1% of all U.S. international STEM master's, 16th of 51.

Figure 2 Where Do Maryland's International Students Come From?

Active F-1 and M-1 students by country of citizenship, the five largest in October 2026; one fall snapshot per year (the month closest to November), October 2014–October 2026. All education levels. Data from DHS, SEVIS by the Numbers.

In October 2026, Maryland had 22.2K active international students in SEVIS, 17th of 51. China accounted for 32% of them and India for 26%, against 18% and 27% nationally.

Students came from 174 countries, but the two largest supplied 59%. The state's total is up 27% since 2015, when it stood at 17.5K.

SECTION 1 · INTERNATIONAL DEPENDENCE

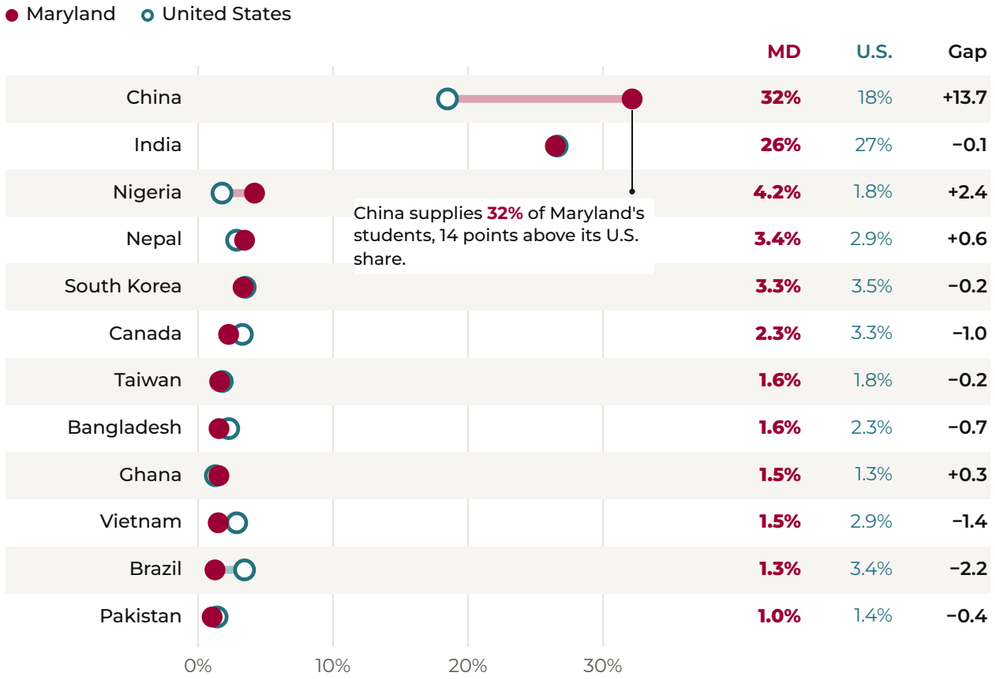

How Does Maryland's Mix of Countries Compare With the Nation's?

In October 2026, Maryland had **22.2K** active F-1 and M-1 students, 17th among the 50 states and DC and **1.9%** of the U.S. total. They came from 174 countries.

China supplied **32%** of them, against 18% nationally, and India **26%**, against 27%. Nigeria (4.2%), Nepal (3.4%), and South Korea (3.3%) followed.

Together the two largest countries supplied **59%** of the state's international students (U.S. 45%), 6th among the states, against 49% in 2015.

Figure 3 Is Maryland's Mix of Countries Like the Nation's?

The state's count is down 7.4% from 2025 and up 27% since 2015, when it stood at 17.5K. Its share of all U.S. international students is up 0.4 points since 2015, to **1.9%**.

Since 2015, the number of students from China went from 6.34K to 7.13K, India's from 2.17K to 5.87K, and Nigeria's from 709 to 927.

Over the same years, the number from Nepal went from 180 to 764 and South Korea's from 1.32K to 739. The table gives each country's count for the first, previous and latest years.

Table 1 International Students in Maryland, 2015–2026

	2015	2025	2026	Change since 2015	U.S. 2026	Rank
ALL INTERNATIONAL STUDENTS						
Active F-1 and M-1 students	17.5K	24K	**22.2K**	+27%	1.19M	17th
Share of U.S. active F-1/M-1 students	1.5%	1.9%	**1.9%**	+0.4 pp	–	17th
Countries of citizenship represented	173	174	**174**	+0.6%	219	16th

South Korea	1.32K	729	**739**	−44%	3.5%	3.3%

Active F-1 and M-1 students, one fall snapshot per year (the month closest to November; 2019 has none; the latest year is October 2026). Rank among the 50 states and DC. Data from DHS, SEVIS by the Numbers.

Figure 4

Which Countries Supply Maryland's International STEM Students?

15.1K of Maryland's international students were in STEM fields in October 2026, **68%** of the total against 63% nationally, up 115% since 2015.

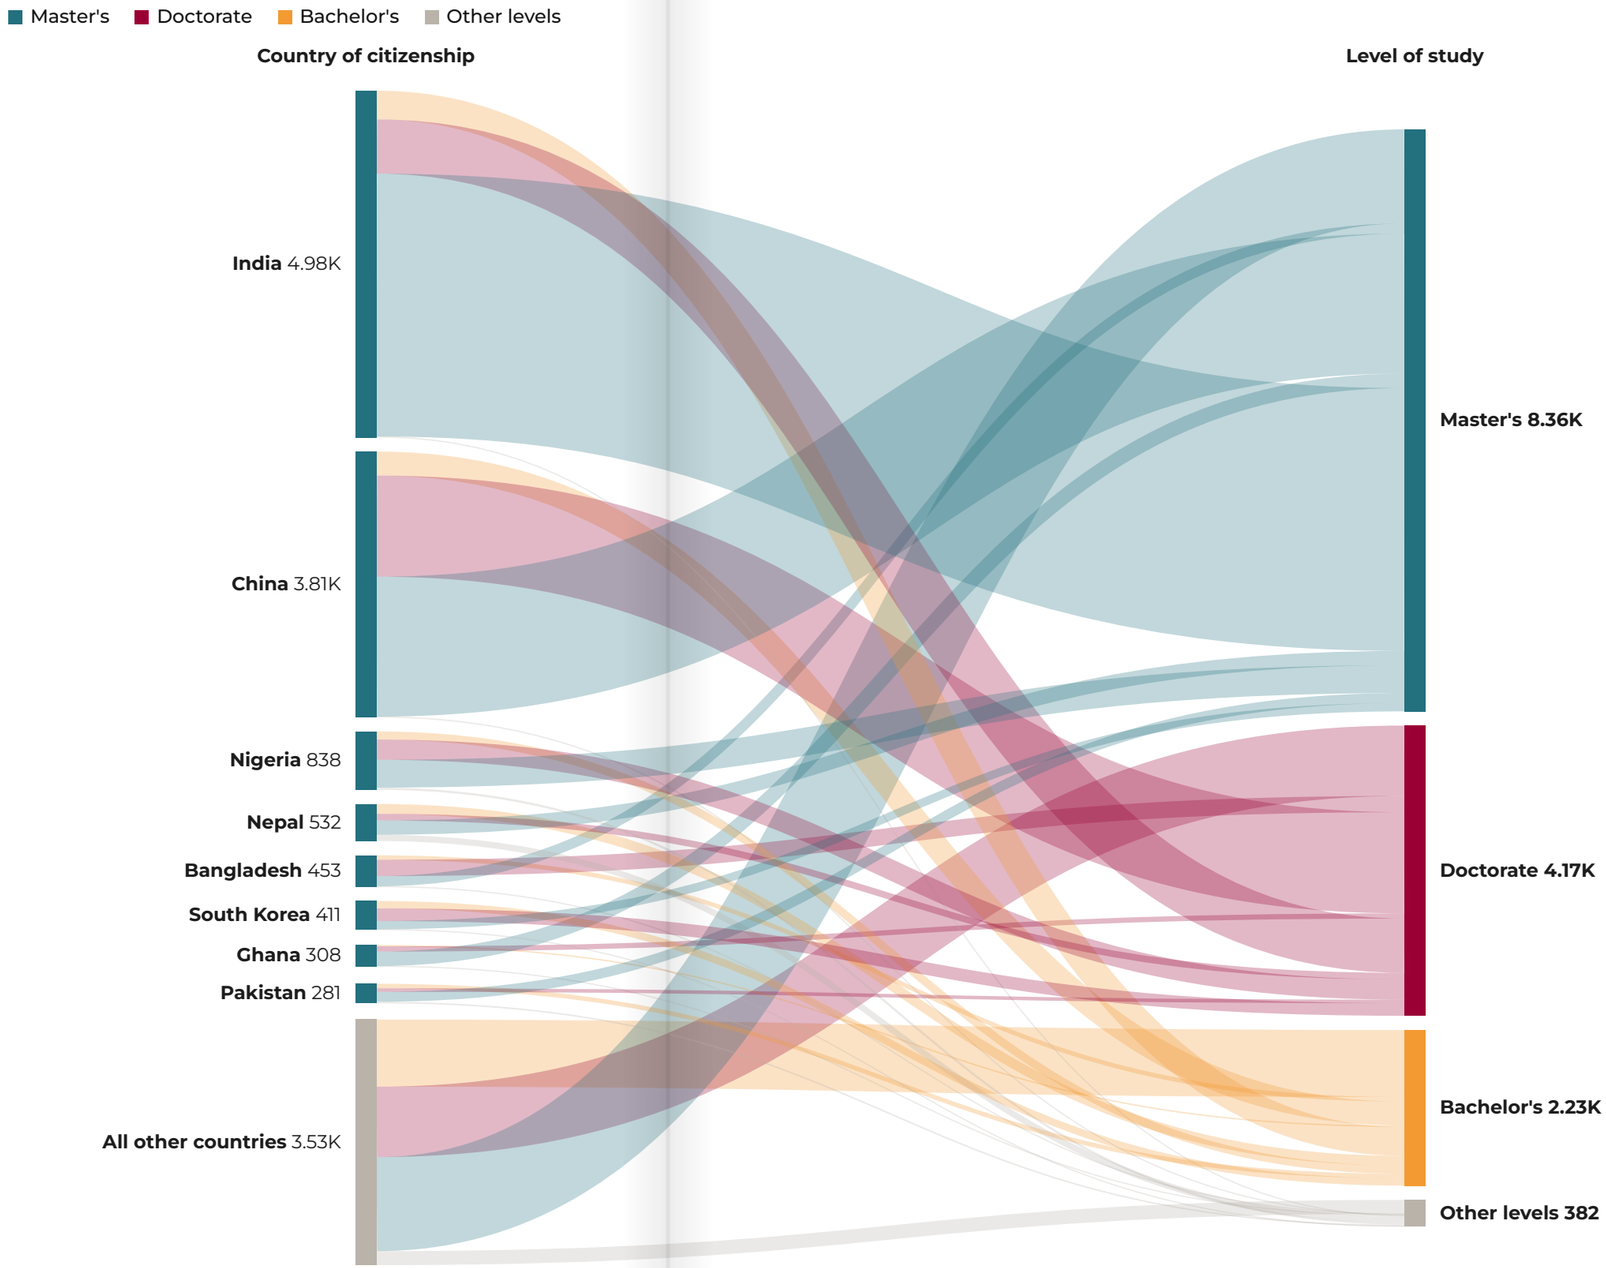

Master's students were the largest group, **8.36K**. India supplied 45% of them and China 24%.

STEM doctoral students went from 2.36K in 2015 to **4.17K**, and STEM master's students from 2.7K to 8.36K.

15.1K
Active STEM F-1/M-1 students, 2026

8.36K
Active STEM master's students, 2026
U.S. **393K** · **17th** of 51 · 3.09× since 2015

Active F-1 and M-1 students in STEM fields by country of citizenship and level of study, October 2026; the eight largest countries are shown. DHS does not draw its STEM pages on the same basis as its all-student pages, so the STEM count here exceeds the all-level count for Bangladesh (453 against 345), Pakistan (281 against 231). Data from DHS, SEVIS by the Numbers, October 2026.

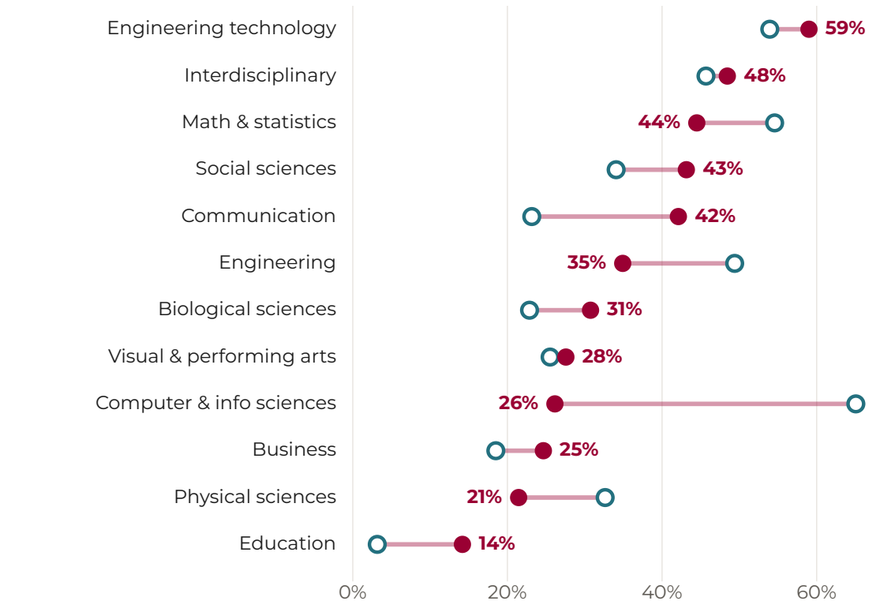

SECTION 1 · INTERNATIONAL DEPENDENCE

How International Are Maryland's Master's Fields?

Each row is a master's field with at least 30 graduates in Maryland in 2025, ranked by the share of degrees earned by international students (U.S. nonresidents on temporary visas). The filled dot is the state's share; the open dot is the national share for the same field.

Highest international shares. International students earned the largest shares of master's degrees in engineering technology (59%, against 54% for the U.S.), interdisciplinary (48%, against 46% for the U.S.), and math & statistics (44%, against 55% for the U.S.).

Figure 5 Which Master's Fields Depend Most on International Students?

International share of master's degrees by field, 2025; fields with 30+ graduates. Data from NCES, IPEDS Completions.

26%
Int. share of all master's, 2025
U.S. **22%** · **9th** of 51

31%
Int. share of STEM master's, 2025
U.S. **52%** · **39th** of 51

26%
Int. share of CS master's, 2025
U.S. **65%** · **43rd** of 47

The table gives the international share of degrees in each STEM field at three levels: Maryland first, the United States after the slash. The master's column is highlighted. A dash means the state awarded no degrees in the field at that level.

Highest international share among STEM master's fields. International students earned 59% of the master's degrees in engineering technology, against 54% for the U.S.

Fields with an international majority. International students earned more than half of the master's degrees in one STEM field.

Table 2 How International Is Each STEM Field?

Field	Bachelor's	Master's	Doctorates
Computer & info sciences	3.2% / 8.6%	**26% / 65%**	41% / 56%
Engineering	4.8% / 7.2%	**35% / 49%**	46% / 55%
Engineering technology	– / 4.5%	**59% / 54%**	– / 42%
Math & statistics	7.9% / 17%	**44% / 55%**	68% / 53%
Physical sciences	4.0% / 6.0%	**21% / 33%**	46% / 38%
Biological sciences	4.6% / 3.4%	**31% / 23%**	22% / 23%
Natural resources	1.3% / 2.0%	**3.7% / 17%**	– / 27%
Architecture	5.2% / 7.3%	**6.1% / 29%**	– / 55%

International share in Maryland / U.S., 2025. Data from NCES, IPEDS Completions.

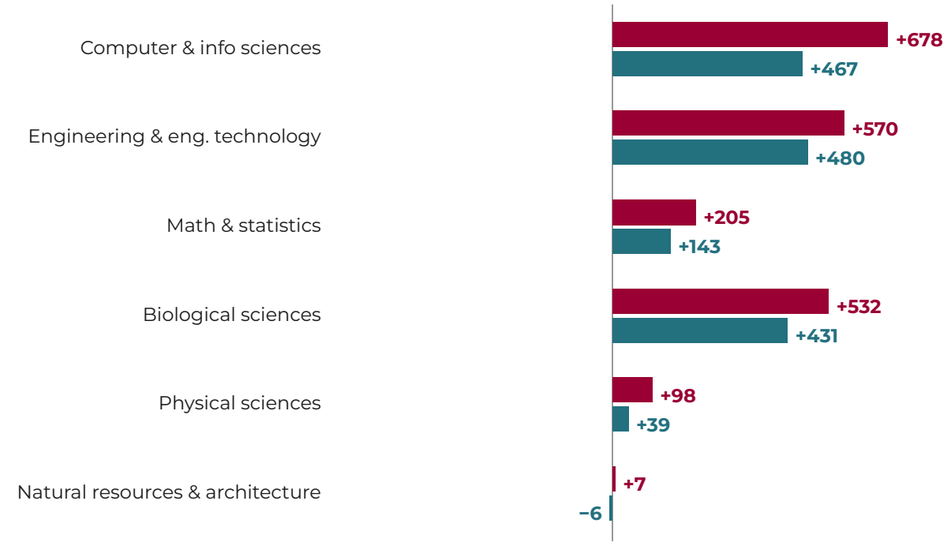

SECTION 1 · INTERNATIONAL DEPENDENCE

How Has Maryland's STEM Master's Output Grown?

Each pair of bars is the change in the number of STEM master's degrees awarded in Maryland between 2015 and 2025 in one field: to domestic students (U.S. citizens and permanent residents) and to international students. Bars to the left of the axis are declines.

STEM master's degrees. The state awarded 8.05K in 2025 and 4.4K in 2015, a change of +1.55K for international students and +2.09K for domestic students.

Figure 6 Where Did the STEM Master's Growth Come From?

Change in STEM master's degrees by field, 2015–2025. Data from NCES, IPEDS Completions.

2.49K
International STEM master's, 2025

Natural resources & architecture	92	**93**	+1.1%	5	12%	5.4%

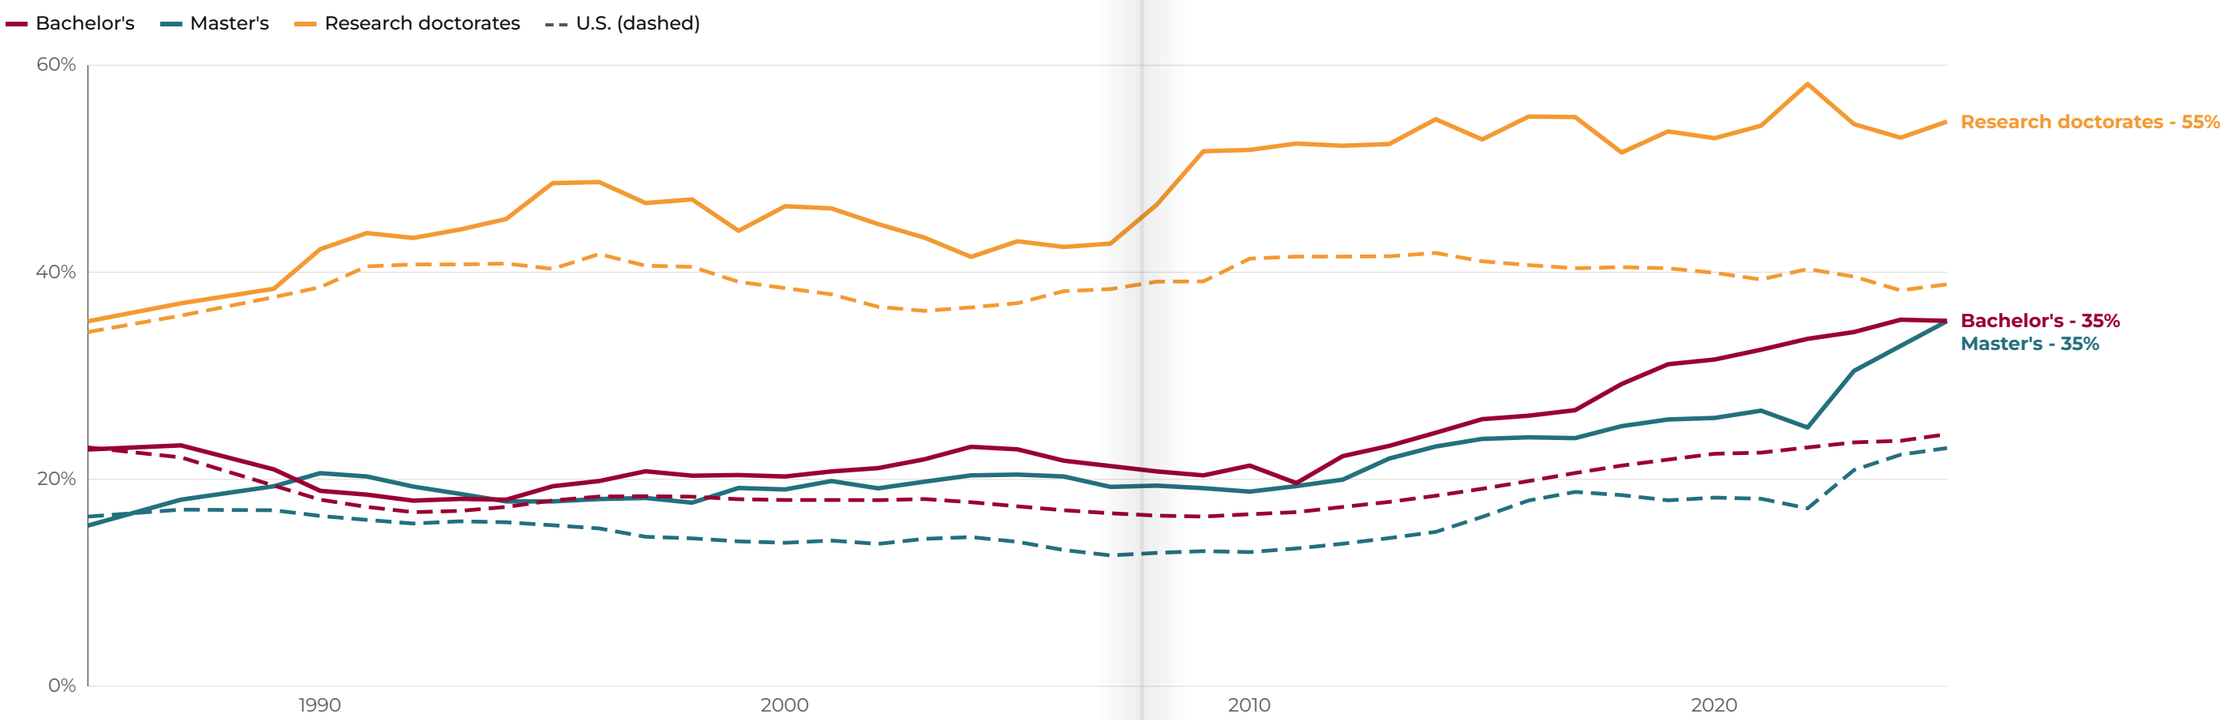

STEM master's degrees awarded in Maryland, all students and international students, 2015 and 2025. Data from NCES, IPEDS Completions.

SECTION 2

STEM Degrees

Maryland ranks 1st of 51 on the STEM share of bachelor's, at 35% in 2025 against 24% for the U.S.

Figure 7 How Much of Maryland's Degree Output Is STEM?

STEM share of degrees by level; state solid, U.S. dashed. Data from NCES, IPEDS Completions.

STEM fields account for 35% of Maryland's bachelor's degrees, 35% of its master's and 55% of its research doctorates (U.S. 24%, 23% and 39%).

The STEM share of master's degrees is up 11.4 points since 2015, and the state ranks 3rd of 51 on it. On the STEM share of bachelor's degrees it ranks 1st of 51.

SECTION 5

Graduate Research

Maryland ranks 13th of 51 on research doctorates awarded, at 1.6K in 2025 against 59K for the U.S.

Figure 15 How Many of Maryland's Science and Engineering Graduate Students Hold Temporary Visas?

Temporary-visa share of science and engineering graduate students and postdoctoral appointees, by the institution's state; state solid, U.S. dashed. NSF stopped publishing state tables after 2016. Data from NSF NCSES, Survey of Graduate Students and Postdoctorates.

In 2016, the last year NSF published state tables, 27% of Maryland's science and engineering graduate students held temporary visas (U.S. 39%; 38th of 51).

Among postdoctoral researchers, the share was 61% (U.S. 56%). Postdocs are the stage of research training most dependent on international talent, and IPEDS does not count them.

The state's institutions awarded 1.6K research doctorates in 2025, 2.7% of the U.S. total (Data from NSF NCSES, Survey of Earned Doctorates; NSF publishes doctorates by citizenship only for the nation).

SECTION 6

Do Graduates Stay?

Maryland ranks 43rd of 51 on net domestic migration of bachelor's-plus adults, per 1,000 residents, at −5.9 in 2025.

Figure 16 How Many of Maryland's Graduates Go On to Work in the State?

Share of employed graduates working in the state of their institution, by graduating cohort (Data from U.S. Census Bureau, Post-Secondary Employment Outcomes; participating institutions only); international graduates' OPT jobs in the state where they studied (Data from ICE, SEVIS FOIA releases; shares only, the file is truncated). State solid, U.S. or participating states dashed.

Of Maryland's bachelor's graduates who were working a year after graduating, 59% worked in the state (participating states 72%). Five years out the share was 51%.

Among international graduates on Optional Practical Training in 2016, 35% worked in the state where they studied (U.S. 44%). That is the last year the released records cover, before most of the growth in international STEM master's degrees since 2015. Through migration between states, the state lost 5.9 bachelor's-plus adults per 1,000 such residents in 2025 (Data from U.S. Census Bureau, American Community Survey).

59%

Bachelor's grads working in-state, 1 year out, 2019

Net migration, bachelor's-plus, per 1,000, 2025

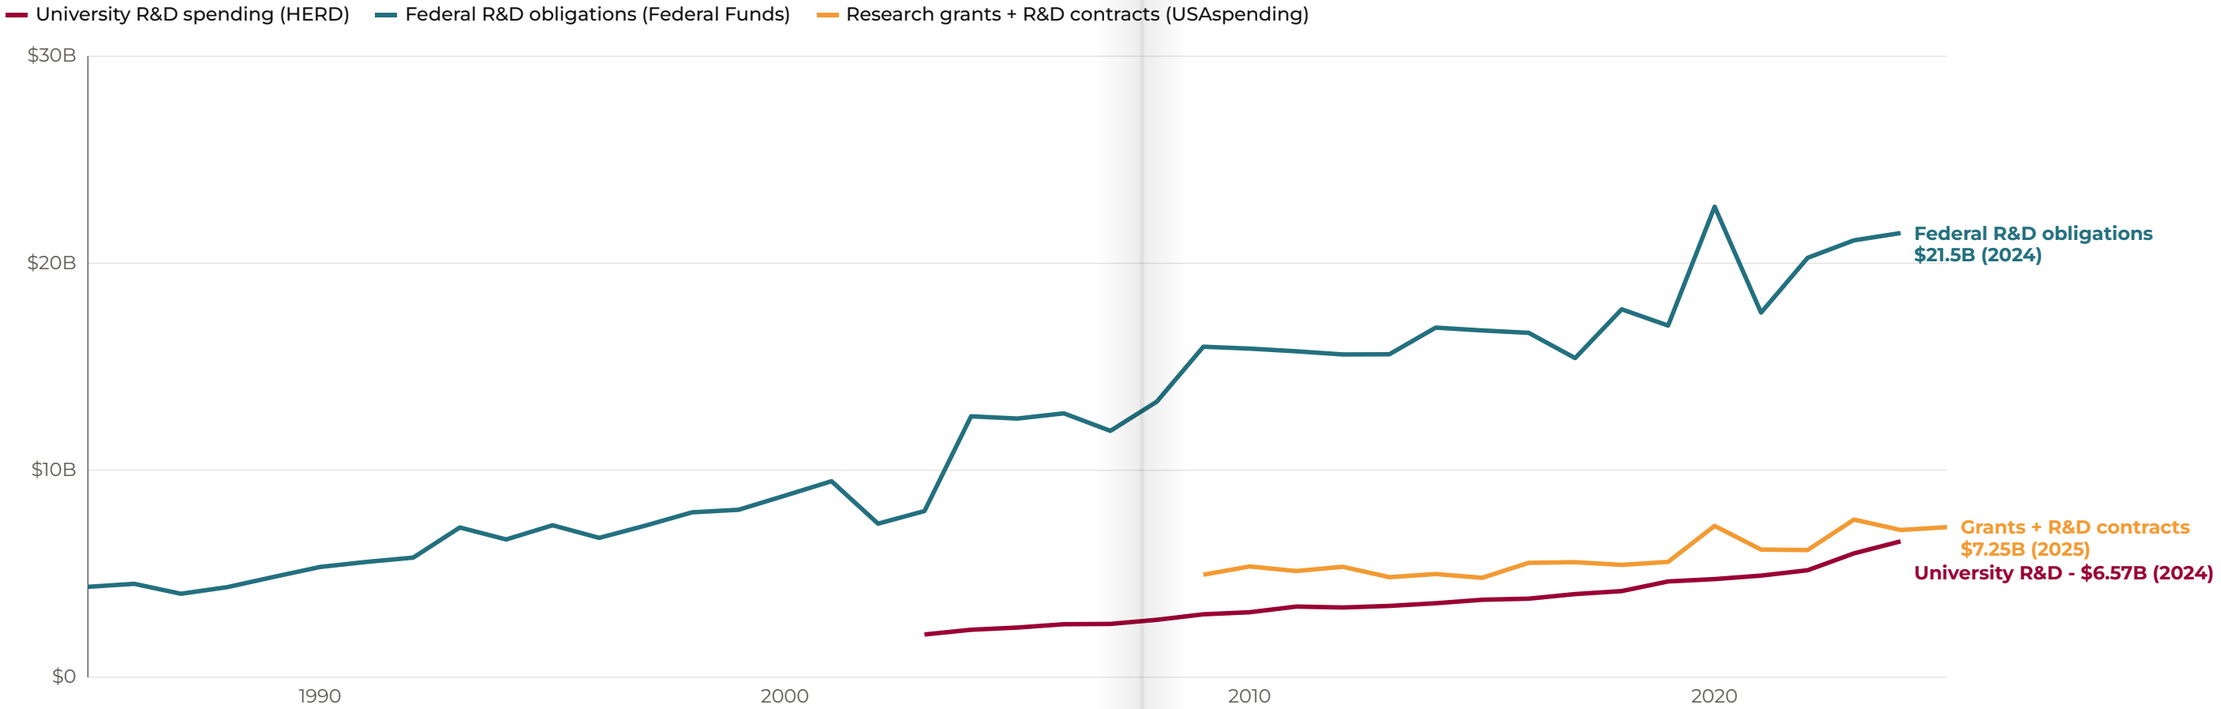

43rd of 51 · −3.5 since 2015

SECTION 7

Research Funding

Maryland ranks 1st of 51 on the federally funded share of university R&D, at 79% in 2024 against 55% for the U.S.

Figure 17 How Much Research Money Flows Into Maryland?

Nominal dollars (not adjusted for inflation), fiscal years; a line ending before the others is labeled with its last year. University R&D: Data from NSF NCSES, Higher Education Research and Development Survey (FY2003-09 predecessor survey). Federal R&D obligations by state of performance: Data from NSF NCSES, Survey of Federal Funds for R&D (coverage widens in FY2021). Grants from NSF, NIH, NASA and DOE Science plus R&D contracts: Data from USAspending.gov.

Maryland's universities spent $6.57B on research and development in FY2024, 4th of 51 among the states; 79% of it was federally funded (U.S. 55%).

Federal agencies obligated $21.5B for R&D performed in the state in FY2024. Research funding drives demand for graduate students and postdocs, the stage of training most dependent on international talent.

$6.57B

SECTION 8

H-1B Jobs and Green Cards

Maryland ranks 17th of 51 on certified H-1B positions, by worksite, at 10.8K in 2025 against 914K for the U.S.

Figure 18 How Many Skilled-Visa Jobs and Green-Card Certifications Does Maryland Generate?

Certified H-1B positions on labor condition applications by worksite and certified PERM green-card applications, by fiscal year (Data from DOL, Office of Foreign Labor Certification); new H-1B petition approvals by the employer's address (Data from USCIS, H-1B Employer Data Hub).

Employers were certified for 10.8K H-1B positions at Maryland worksites in FY2025, 17th of 51 among the states. A labor condition application comes before the petition and covers renewals and job changes as well as new hires, by the worksite's state, so it runs well above approvals. USCIS approved 3.1K new H-1B petitions in FY2026 and 7.31K continuing ones, counted by the employer's address.

DOL certified 1.45K PERM applications, the employer's step toward an employment-based green card, for jobs in the state in FY2025. In FY2024, 8.0% were for workers still on F-1 student visas (U.S. 8.7%): the most direct link from classroom to permanent residence.

10.8K

Certified H-1B positions (worksite), 2025

U.S. **$119K** · **19th** of 51 · +51% since 2015

SECTION 9

STEM Workforce

Maryland ranks 10th of 51 on the foreign-born share of STEM workers, at 25% in 2024 against 24% for the U.S.

Figure 20 How Much of Maryland's STEM Workforce Was Born Abroad?

Foreign-born share of employed workers in STEM occupations, by state of residence; state solid, U.S. dashed. Shares resting on fewer than 100 survey records are left out. No 2020 (experimental data). Data from U.S. Census Bureau, American Community Survey.

In 2024, 25% of the people working in STEM occupations in Maryland were born abroad (U.S. 24%; 10th of 51).

The share rises with education: 35% of STEM workers with a graduate degree were foreign-born (U.S. 41%), and 45% of those with a doctorate (U.S. 47%; 10th of 20). 8.6% of all STEM workers were not U.S. citizens.

SECTION 11

Competitors

The four states closest in total fall enrollment, measured proportionally (a state 1.5 times as large counts as near as one two-thirds the size), are Missouri, Colorado, Washington, and Wisconsin. Maryland ranks 4th of the five on the international share of STEM master's; Missouri is the most dependent at 83%.

Figure 22 How Dependent Are Maryland and Its Peers on International STEM Master's?

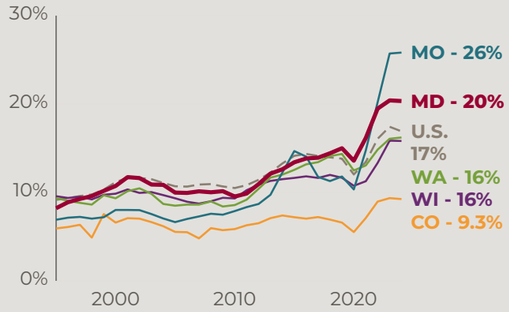

Data from NCES, IPEDS Completions.

SECTION 12

Fields of Study

Figure 27 How Many Degrees Does Maryland Award?

Degrees awarded by level, first majors. Data from NCES, IPEDS Completions.

In 2025, Maryland's institutions awarded 17K associate's degrees, 36.5K bachelor's degrees, 22.8K master's degrees, 1.87K research doctorate degrees, 1.55K professional doctorate degrees.

Since 2015: associate's roughly flat; bachelor's up 7%; master's up 24%; research doctorate up 23%; professional doctorate up 5%. The state awards 13.0 bachelor's degrees for every 100 undergraduates (U.S. 12.3).

Figure 28 What Do Maryland's Bachelor's Graduates Study?

Share of bachelor's degrees by field, 2025. Data from NCES, IPEDS.

Maryland's largest bachelor's fields are computer & info sciences (20%; U.S. 6.9%), business (17%; U.S. 19%), health professions (8.1%; U.S. 13%).

Relative to the nation, Maryland's bachelor's degrees are most concentrated in computer & info sciences (2.96× the U.S. share), communications tech (2.42× the U.S. share), law (1.62× the U.S. share).

20%

U.S. **65%** · **43rd** of 47 · +7.7 pp since 2015

Figure 30 How Has Maryland's Bachelor's Field Mix Changed?

Share of bachelor's degrees in the largest fields. Data from NCES, IPEDS Completions.

Since 2015, computer & info sciences has gained the most ground, 11.4 points of the state's bachelor's degrees, while social sciences lost the most (3.1 points).

The chart follows the share of bachelor's degrees in each of the state's largest fields; smaller fields are grouped as other fields.

SECTION 12 · FIELDS OF STUDY

Where Is Maryland Specialized, and What Do Its Doctoral Graduates Study?

The location quotient divides a field's share of Maryland's bachelor's degrees by its share of all U.S. bachelor's degrees in 2025. A quotient of 1.00 means the same share as the nation; 2.00 means twice the national share. The table lists the 10 fields with the highest quotients among fields with at least 50 degrees.

Highest location quotients. Computer & info sciences (2.96, with 20% of the state's bachelor's degrees against 6.9% for the U.S.), communications tech (2.42, with 0.6% of the state's bachelor's degrees against 0.3% for the U.S.), and law (1.62, with 0.4% of the state's bachelor's degrees against 0.2% for the U.S.) had the highest quotients.

Table 5 Where Is Maryland Most Specialized?

Field	Location quotient	State share	U.S. share	Degrees
Computer & info sciences	**2.96**	20%	6.9%	7.41K
Communications tech	**2.42**	0.6%	0.3%	235
Law	**1.62**	0.4%	0.2%	139
Area & ethnic studies	**1.51**	0.4%	0.3%	161
History	**1.26**	1.3%	1.0%	474
Social sciences	**1.21**	7.3%	6.0%	2.66K
Security & protective	**1.18**	3.0%	2.6%	1.1K
Physical sciences	**1.07**	1.4%	1.3%	502
Philosophy & religion	**1.06**	0.6%	0.6%	216
Public administration	**0.99**	1.5%	1.5%	533

Bachelor's degrees; location quotient = state share ÷ U.S. share; fields with 50+ degrees. Data from NCES, IPEDS.

Each row is a field's share of the research doctorates awarded in Maryland in 2025 (filled dot), against its share nationally (open dot), for the ten largest fields with at least 20 doctorates. Research doctorates exclude professional doctorates such as the M.D. and J.D.

Largest doctoral fields. The state's largest doctoral fields were engineering (17% of research doctorates, against 14% for the U.S.), biological sciences (15% of research doctorates, against 10% for the U.S.), and computer & info sciences (13% of research doctorates, against 4.2% for the U.S.).

Figure 31 What Do Maryland's Doctoral Graduates Study?

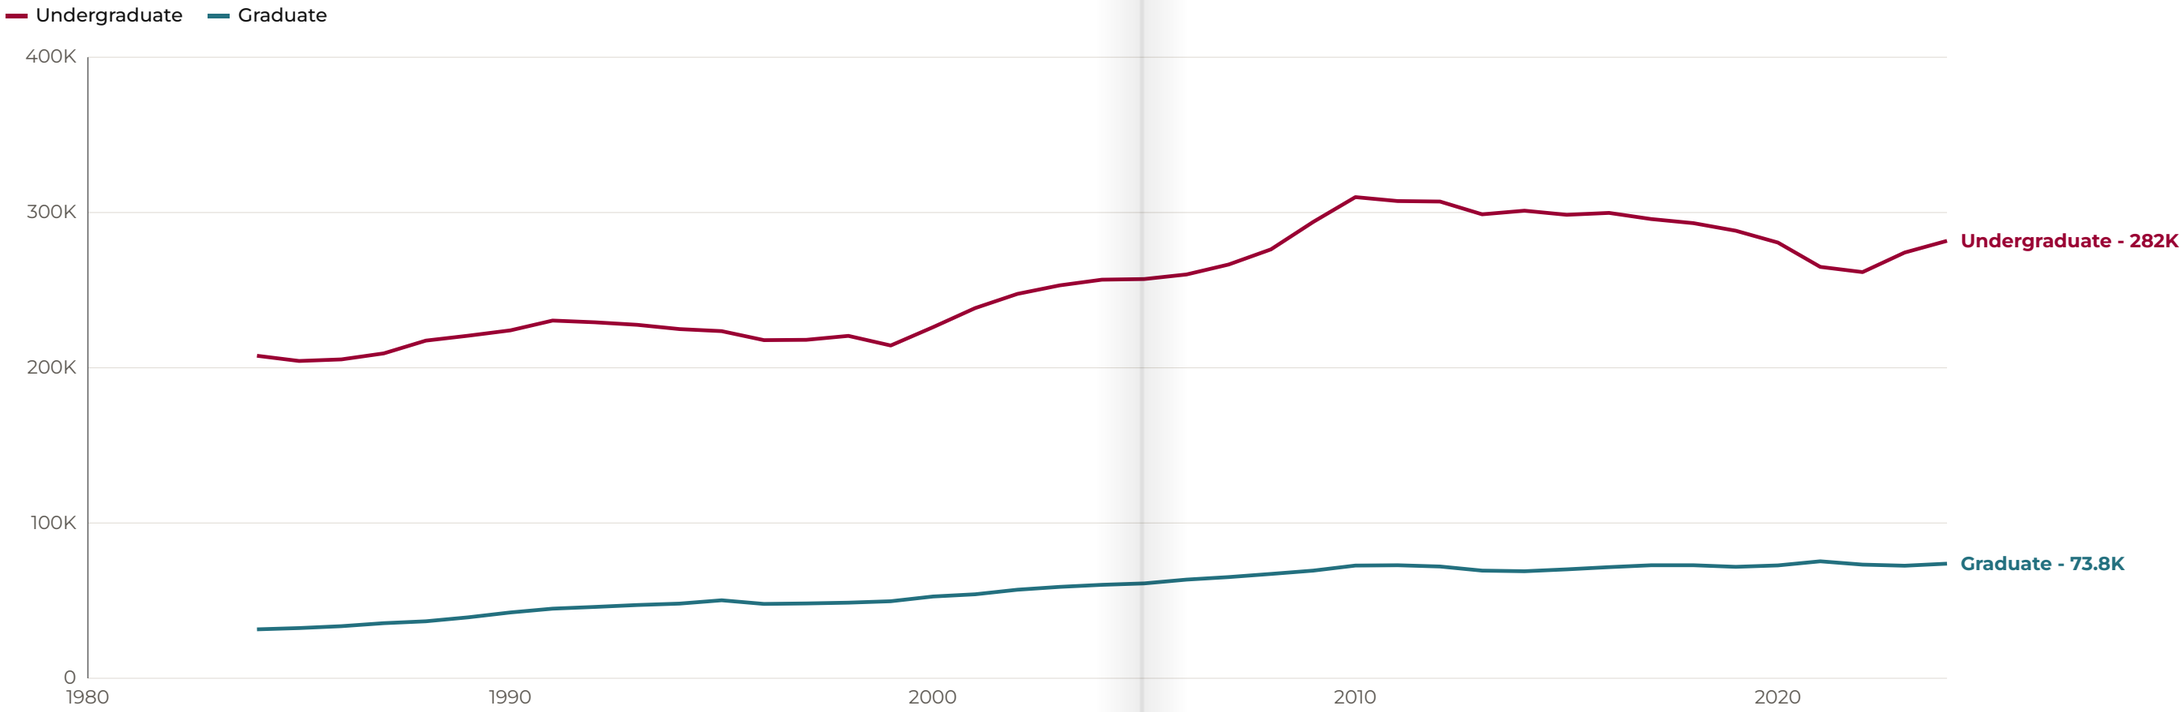

Share of research doctorates by field, 2025; fields with 20+ doctorates. Data from NCES, IPEDS.

SECTION 13

Students and Money

Maryland ranks 7th of 51 on the share of students enrolled part-time, at 47% in 2024 against 39% for the U.S.

Figure 32 How Has Enrollment Changed?

Fall headcount enrollment. Data from NCES, IPEDS Fall Enrollment.

In fall 2024, Maryland enrolled 282K undergraduates and 73.8K graduate students, 356K in all (19th of 51).

Undergraduate enrollment is down 6% since 2015 and graduate enrollment up 5% since 2015. Graduate students are 21% of all students (U.S. 17%).

SECTION 13 · STUDENTS AND MONEY

Who Enrolls in Maryland, and Where?

In fall 2024, White students were the largest group at Maryland's degree-granting institutions, **34%** of enrollment against 45% nationally, down 10.9 points since 2015.

Black students were **26%** (U.S. 12%), down 0.3 points since 2015, and Hispanic students were **12%** (U.S. 21%), up 4.3 points since 2015.

Asian and Pacific Islander students were **9.0%** (U.S. 7.4%), up 1.9 points since 2015, and International students were **7.4%** (U.S. 5.3%), up 2.2 points since 2015. "International" counts U.S. nonresidents on temporary visas, whatever their race.

Figure 33 Who Enrolls in Maryland?

■ Maryland ■ United States

		Change since 2015
White	34% · U.S. 45%	−10.9 pts
Black	26% · U.S. 12%	−0.3 pts
Hispanic	12% · U.S. 21%	+4.3 pts
Asian / Pacific Islander	9.0% · U.S. 7.4%	+1.9 pts
International	7.4% · U.S. 5.3%	+2.2 pts
Two or more	4.7% · U.S. 4.2%	+1.2 pts
American Indian	0.2% · U.S. 0.6%	−0.1 pts

Share of fall 2024 headcount enrollment by race and ethnicity; students of unknown race are left out of the chart. Data from NCES, IPEDS.

34% White students — U.S. **45%** · −10.9 pp since 2015

26% Black students — U.S. **12%** · −0.3 pp since 2015

53% At public 4-year institutions — +4.4 pp since 2015

30% At public 2-year institutions — −5.1 pp since 2015

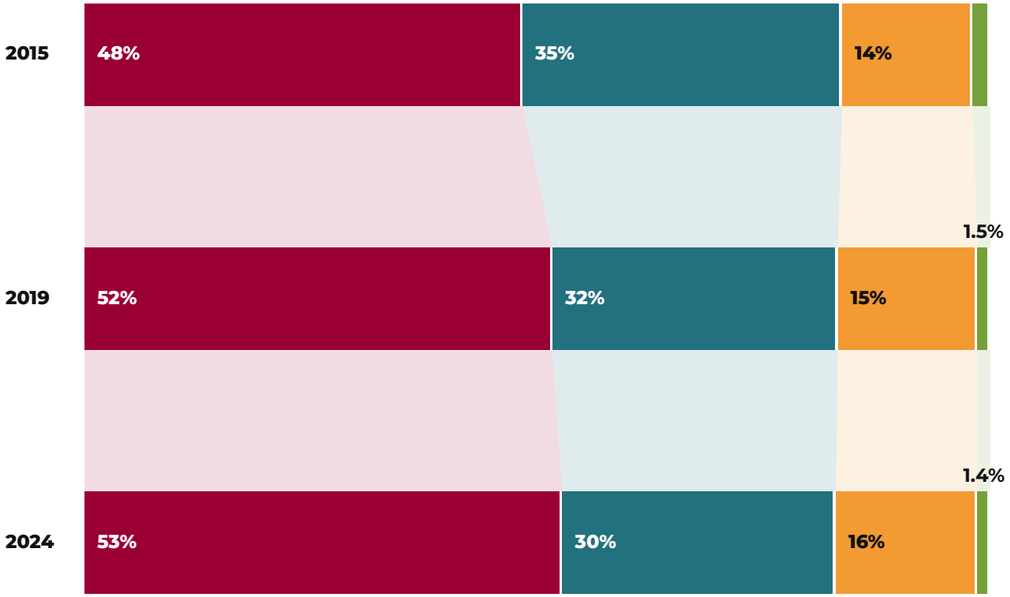

In fall 2024, public 4-year institutions enrolled **53%** of students, up 4.4 points from 48% in 2015. Public 2-year institutions enrolled **30%** of students, down 5.1 points from 35% in 2015.

Private nonprofit institutions enrolled **16%** of students, up 1.2 points from 14% in 2015, and for-profit institutions enrolled **1.4%** of students, down 0.6 points from 2.0% in 2015.

Public institutions together enrolled **83%** of students, against 73% nationally, 21st among the states.

Figure 34 Where Do Students Enroll?

Figure 35 What Does In-State Tuition Cost?

Published in-state tuition and fees, 2024 dollars (CPI-U); state solid, U.S. dashed. Data from NCES, IPEDS.

In-state tuition and fees at Maryland's public four-year institutions are $10.1K (2023, 2024 dollars), 5% above the U.S. ($9.71K); the state ranks 24th of 51.

State and local appropriations come to $17.5K per full-time-equivalent student at public institutions (5th of 51), and net tuition makes up 34% of net tuition plus state and local appropriations (U.S. 43%).

SECTION 13 · STUDENTS AND MONEY

How Are Maryland's Public Institutions Funded, and What Do They Produce?

The bars give each source's share of the core revenue of Maryland's public institutions, with the nation for comparison, and at right the dollars per full-time-equivalent (FTE) student it provides. Values are in 2024 dollars (CPI-U). Net tuition is tuition and fees after institutional discounts and allowances.

Net tuition per FTE student. The figure was $9.27K in FY2024, against $8.96K for the U.S., down 3.6% from $9.62K in FY2023 and down 8.8% since FY2015, when it was $10.2K.

Figure 36 How Are Public Institutions Funded?

Share of core revenue per FTE student by source, public institutions, FY2024; dollars per FTE at right, 2024 dollars (CPI-U). Shares are of all five sources; the tuition share elsewhere in this profile divides net tuition by net tuition plus state and local appropriations only. Data from NCES, IPEDS Finance.

$10.1K
In-state tuition, public 4-year, 2023
U.S. **$9.71K** · **24th** of 51

$17.5K
Appropriations per student, 2024
U.S. **$11.4K** · **5th** of 51

Tuition share of tuition plus appropriations, 2024
U.S. **43%** · **41st** of 51

71%
Six-year graduation rate, 2024
U.S. **65%** · **5th** of 51

The table brings together five measures of what public higher education costs and what it produces in Maryland: in-state tuition at public four-year institutions, state and local appropriations per full-time-equivalent student, tuition's share of public institutions' core revenue, the six-year bachelor's graduation rate, and the average full-time faculty salary.

In-state tuition, public 4-year. The figure was $10.1K in 2023, against $9.71K for the U.S., 24th among the states, down 2.3% from $10.4K in 2022 and down 12% since 2015, when it was $11.5K.

Table 6 Money and Results

Measure	Year	Maryland	U.S.	Rank	Change since 2015
In-state tuition, public 4-year	2023	**$10.1K**	$9.71K	24th of 51	−12%
Appropriations per student	2024	**$17.5K**	$11.4K	5th of 51	+44%
Tuition share of tuition plus appropriations	2024	**34%**	43%	41st of 51	−10.8 pp
Six-year graduation rate	2024	**71%**	65%	5th of 51	+3.8 pp
Average faculty salary	2024	**$115K**	$106K	10th of 51	+4.0%

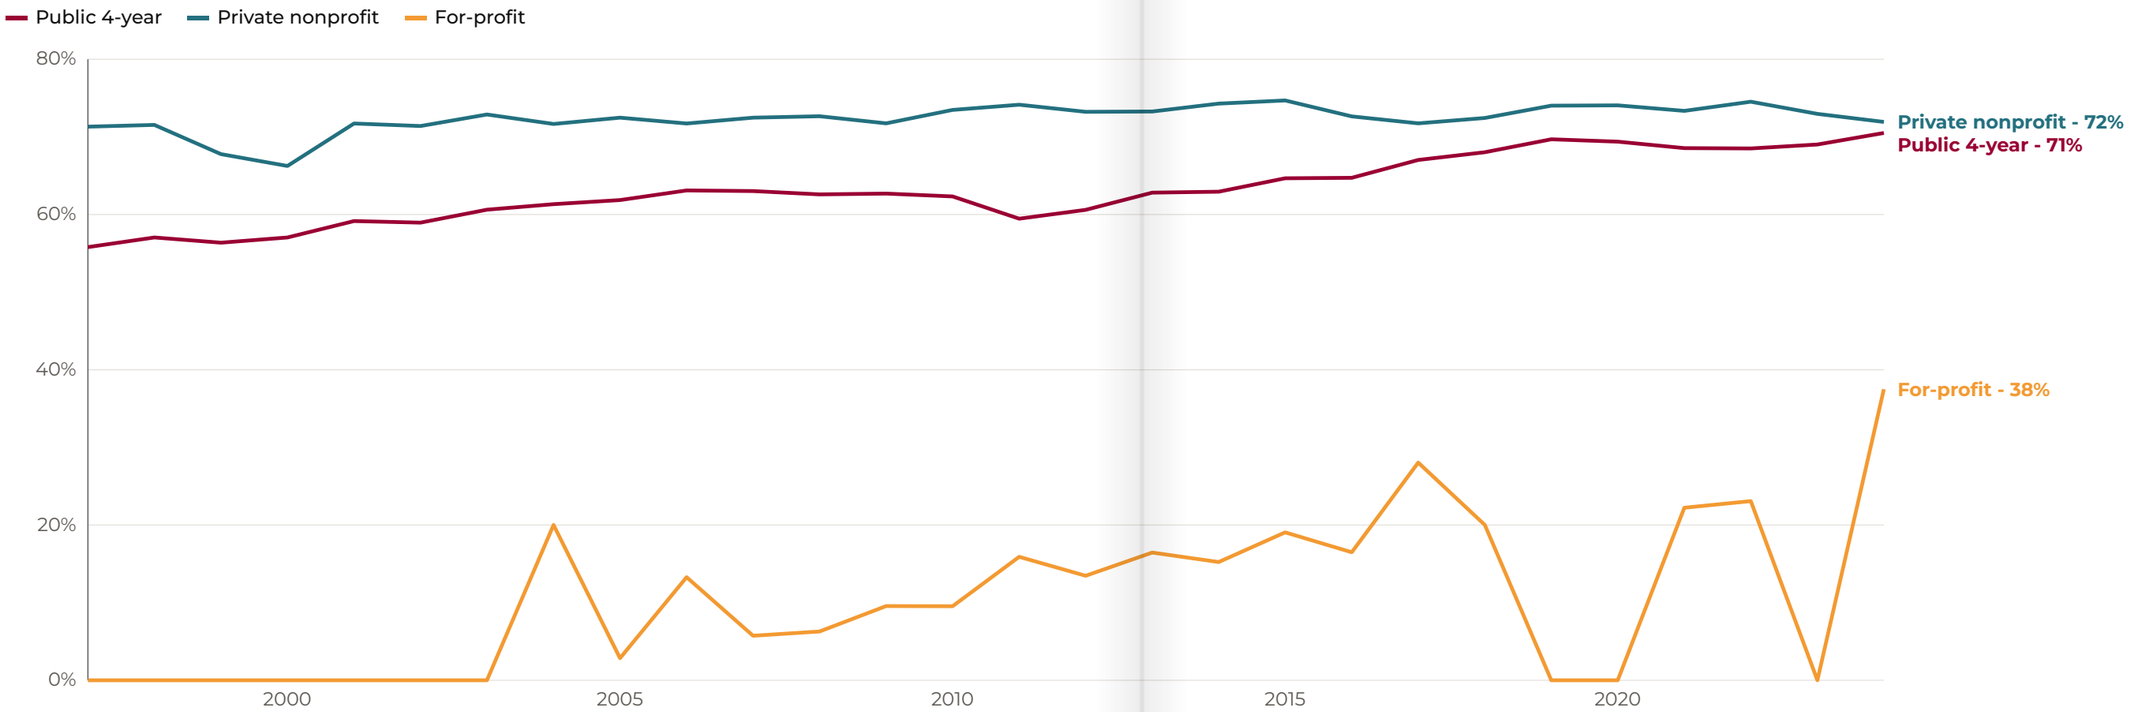

Rank among the 50 states and DC (1 = highest). Dollars in 2024 dollars (CPI-U). Data from NCES, IPEDS.

SECTION 14

Student Outcomes

Maryland ranks 5th of 51 on the six-year bachelor's graduation rate, 4-year institutions, at 71% in 2024 against 65% for the U.S.

Figure 37 How Do Graduation Rates Differ by Sector?

Six-year bachelor's graduation rate by sector of institution. Data from NCES, IPEDS Graduation Rates.

71% of students who started a bachelor's degree at a four-year institution in Maryland graduated within six years (2024), 6.1 points above the U.S. (65%); the state ranks 5th of 51.

By sector: public 4-year 71%, private nonprofit 72%, for-profit 38%. At two-year institutions, 33% complete within 150% of normal time (U.S. 41%).

SECTION 14 · STUDENT OUTCOMES

How Many of Maryland's Students Graduate?

The line follows the share of first-time, full-time bachelor's-degree students at Maryland's four-year institutions who graduated from the institution where they started within six years (150% of normal time). Each year is the cohort that entered six years earlier. The rate leaves out students who start part-time (47% of the state's students attend part-time, against 39% nationally) and students who transfer and finish elsewhere. The state is solid and the United States dashed.

Six-year graduation rate. The rate was 71% in 2024, against 65% for the U.S., up 0.8 points from 70% in 2023 and up 3.8 points since 2015, when it was 67%.

Figure 38 Six-Year Bachelor's Graduation Rate

Four-year institutions; state solid, U.S. dashed. Data from NCES, IPEDS Graduation Rates.

13.0
Bachelor's per 100 undergraduates, 2025
U.S. **12.3** · **22nd** of 51

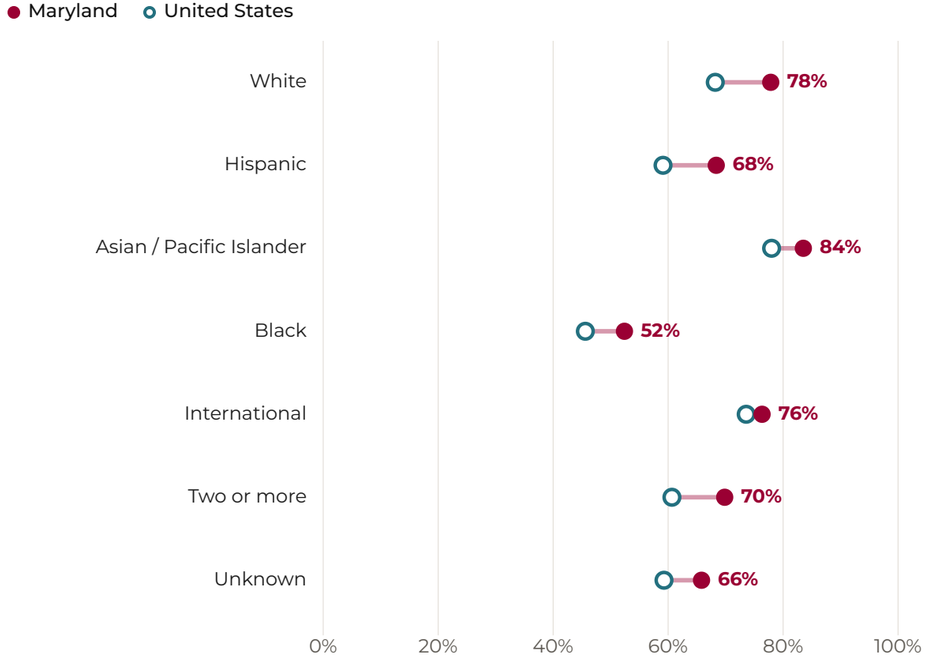

Each row is the six-year bachelor's graduation rate for one racial or ethnic group of students at Maryland's four-year institutions (filled dot), against the national rate for the same group (open dot). Groups with fewer than 100 students in the cohort are left out.

White. The six-year rate was 78% in 2024, against 68% for the U.S.

Hispanic. The six-year rate was 68% in 2024, against 59% for the U.S.

Asian / Pacific Islander. The six-year rate was 84% in 2024, against 78% for the U.S.

Six-year rate, 2024; groups with 100+ students. Data from NCES, IPEDS.

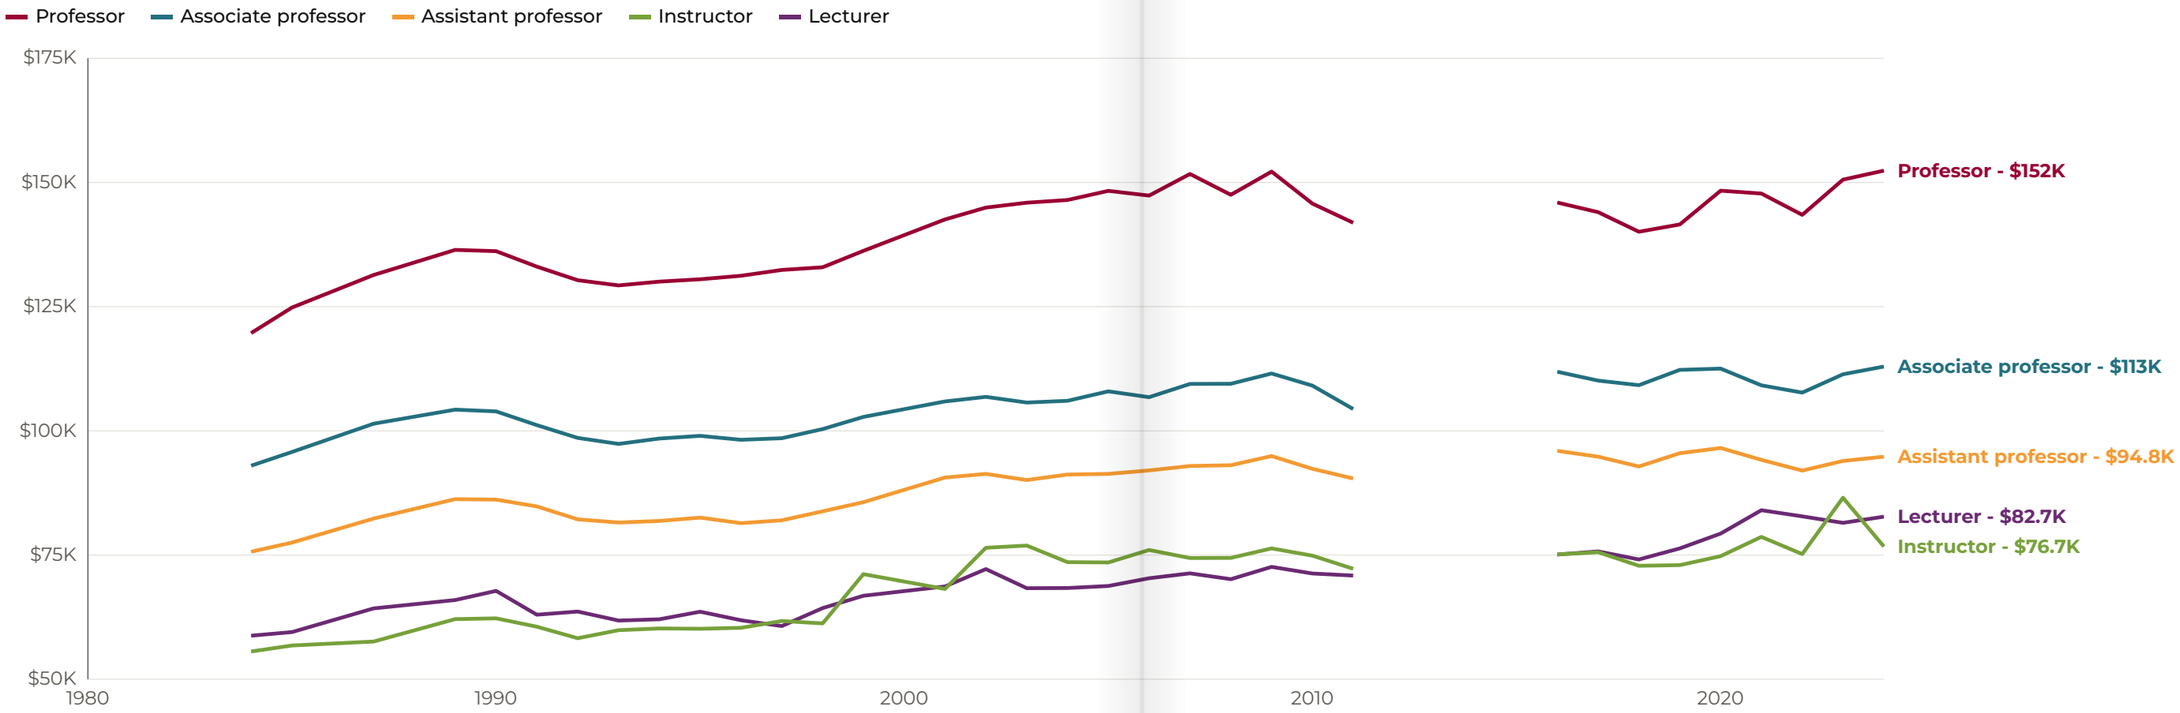

14

SECTION 15

Faculty

Maryland ranks 10th of 51 on the average full-time faculty salary, at $115K in 2024 against $106K for the U.S.

Figure 40 What Do Maryland's Faculty Earn, by Rank?

Average salary of full-time instructional faculty on 9/10-month contracts, by academic rank, 2024 dollars (CPI-U). Data from NCES, IPEDS Human Resources.

Full-time instructional faculty on 9/10-month contracts at Maryland's institutions earned an average of $115K in 2024 (2024 dollars), 9% above the U.S. ($106K); the state ranks 10th of 51. By rank (2024): professors $152K, associate professors $113K, assistant professors $94.8K, instructors $76.7K, lecturers $82.7K.

Maryland's institutions had 15.7K full-time instructional staff in 2024, up 2% since 2015. Average salary across all ranks is up 4% since 2016.

U.S. **$106K** · **10th** of 51 · +4.0% since 2016

SECTION 15 · FACULTY

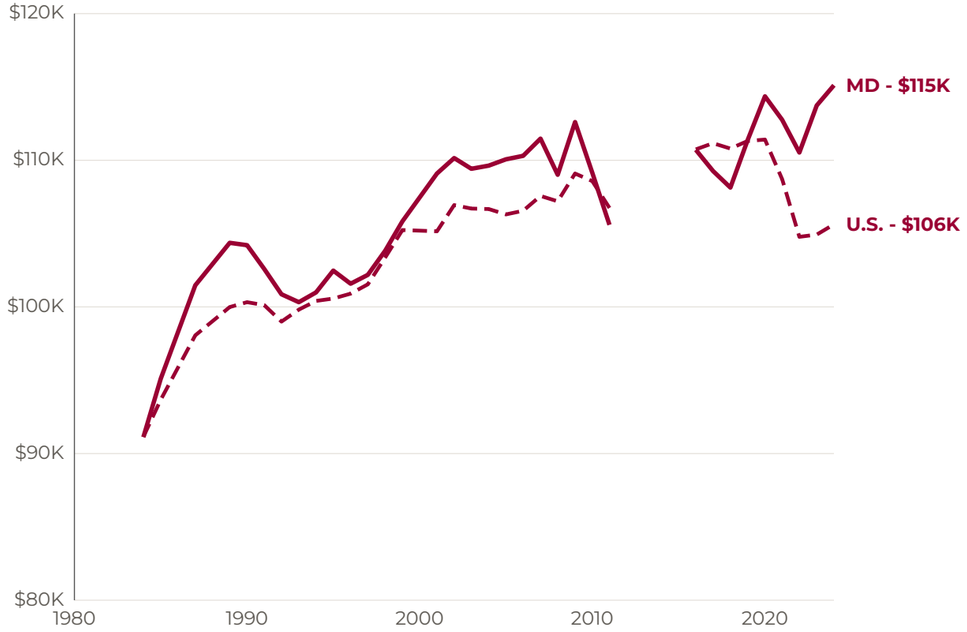

What Do Maryland's Faculty Earn, and How Many Hold Tenure?

The line follows the average salary of full-time instructional faculty on 9- or 10-month contracts at Maryland's degree-granting institutions, all ranks combined, in 2024 dollars (CPI-U). The state is solid and the United States dashed.

Average salary. The figure was $115K in 2024, against $106K for the U.S., 10th among the states, up 1.2% from $114K in 2023 and up 4.0% since 2016, when it was $111K.

Full-time instructional staff. The number was 15.7K in 2024, up 1.1% from 15.5K in 2023 and up 2.1% since 2015, when it was 15.4K.

Figure 41 Average Faculty Salary

Full-time instructional faculty, 9/10-month, 2024 dollars. Data from NCES, IPEDS.

37%
Tenured, 2024

The bars divide Maryland's full-time instructional staff by tenure status in 2015, 2019 and 2024: tenured, on the tenure track, not on the tenure track (for example, lecturers on fixed-term contracts), and staff at institutions with no tenure system.

Tenured, share of full-time instructional staff. The share was 37% in 2024, unchanged from 37% in 2023 and up 0.9 points since 2015, when it was 36%.

Figure 42 Tenure Status

Full-time instructional staff by tenure status, 2015, 2019, 2024. Data from NCES, IPEDS.

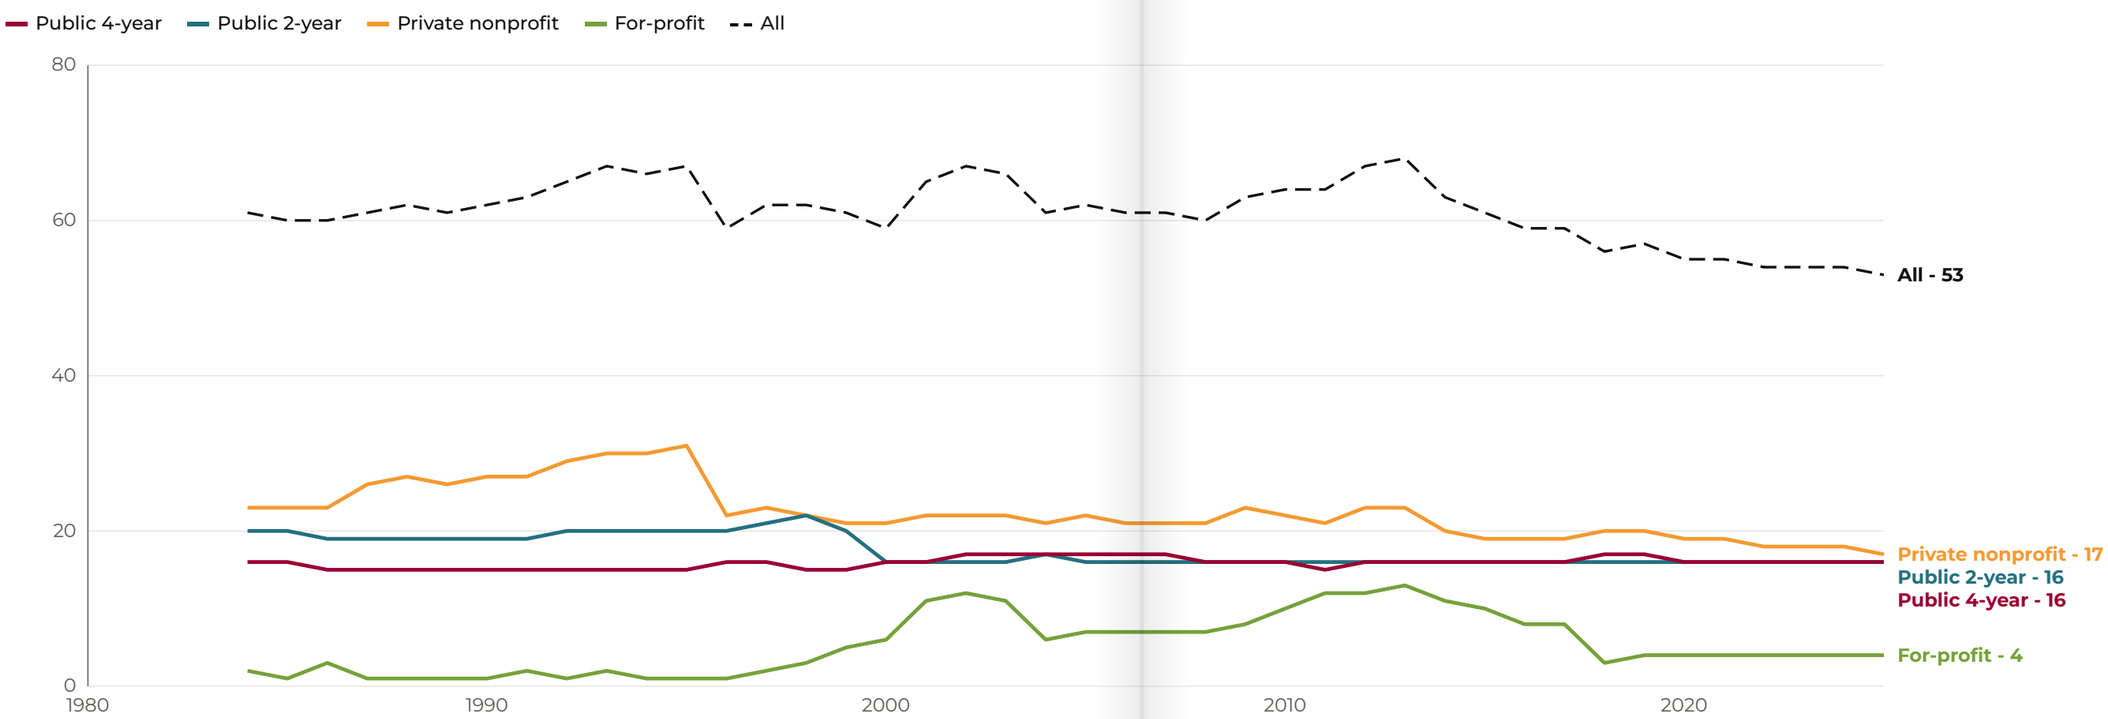

15

SECTION 16

Institutions

Maryland ranks 8th of 51 on the share of students enrolled exclusively online, at 32% in 2024 against 27% for the U.S.

Figure 43 How Many Institutions Does Maryland Have?

Degree-granting institutions by sector. Data from NCES, IPEDS.

Maryland has 53 degree-granting institutions:16 public 4-year, 16 public 2-year, 17 private nonprofit, 4 for-profit (2025).

The number of institutions is down 13% since 2015. 83% of students attend public institutions and 1.4% attend for-profit ones.

SECTION 16 · INSTITUTIONS

Which Institutions Lead in Maryland?

The table ranks institutions in Maryland by the STEM master's degrees and research doctorates they awarded to international students in 2025, the two counted together. The share columns give international students' share of each institution's STEM degrees at that level.

Largest. Johns Hopkins University (1.29K international STEM master's degrees and 161 doctorates), University of Maryland-College Park (595 international STEM master's degrees and 171 doctorates), and University of Maryland-Baltimore County (372 international STEM master's degrees and 36 doctorates) awarded the most.

Table 7 Which Institutions Train the Most International STEM Graduates?

Institution	Intl STEM total	Intl STEM master's	Int. share	Intl STEM doctorates	Int. share
Johns Hopkins University Baltimore · Private nonprofit	**1.46K**	1.29K	32%	161	39%
University of Maryland-College Park College Park · Public 4-year	**766**	595	60%	171	48%
University of Maryland-Baltimore County Baltimore · Public 4-year	**408**	372	68%	36	45%

The table lists Maryland's largest degree-granting institutions by fall 2024 headcount enrollment, with the international share of graduate students, STEM bachelor's degrees awarded in 2025, the six-year graduation rate and the admission rate (a dash where the institution admits all applicants or does not report one).

Largest. The three largest were University of Maryland Global Campus (63K students), University of Maryland-College Park (41.7K students), and Johns Hopkins University (30.2K students).

Table 8 What Are Maryland's Largest Institutions?

Institution	Enrollment	Int. share, grad	STEM bachelor's	Six-year grad rate	Admit rate
University of Maryland Global Campus	**63K**	2.5%	3.37K	20%	–
University of Maryland-College Park	**41.7K**	35%	4.21K	89%	45%

Fall 2024 enrollment; degrees 2025. Data from NCES, IPEDS.

16

NOTES

About These Data

International students

U.S. nonresidents on temporary visas, as IPEDS defines them. IPEDS does not record country of citizenship. Permanent residents count with U.S. citizens.

STEM

CIP families 03, 04, 11, 14, 15, 26, 27 and 40. Doctorates are research and scholarship doctorates; professional doctorates appear only in the degree-count figure. Degrees are first majors only.

Universe

Degree-granting institutions located in the state; Title IV participants from 1996. Geography is the institution's location, not the student's home. Enrollment is fall headcount.

Migration

First-time degree-seeking undergraduates by home state, reported in even years before 2001 and every year since; odd years with incomplete reporting are omitted. Net migration is students arriving from other states minus residents leaving, per 100 resident first-time students.

Money

Tuition, appropriations, revenue and faculty salaries are in 2024 dollars using the CPI-U. Research funding (HERD, Federal Funds, USAspending), wages and the NAFSA economic contribution are nominal dollars, and are labeled so. Appropriations and revenue are per full-time-equivalent student at public institutions; the tuition share divides net tuition by net tuition plus state and local appropriations.

Race and ethnicity

IPEDS did not collect race and ethnicity in every year before 2010, and categories changed in 2008–2010; “Two or more” exists only from then.

Caveat for Maryland

University of Maryland Global Campus's online students (nationwide) are counted in Maryland.

Countries of citizenship

From DHS SEVIS by the Numbers: active F-1 and M-1 student records in the month named, at every level from primary school to doctorate, by the state of the school. IPEDS records only whether a student is a U.S. nonresident, not where they come from. SEVIS counts are monthly snapshots and are not directly comparable with IPEDS fall enrollment or degree counts. Year-to-year comparisons use one fall snapshot per year (the month closest to November).

Peers

Comparison states are the four closest in total fall enrollment, measured proportionally: a state 1.5 times as large counts as near as one two-thirds the size.

Sources

IPEDS (National Center for Education Statistics) is the backbone: Institutional Characteristics, Fall Enrollment, Completions, Graduation Rates, Finance, Human Resources and Admissions, 1980–2025, harmonized into a state panel. The profile also draws on NAEP, NSF's Survey of Graduate Students and Postdoctorates, Survey of Earned Doctorates, HERD and Federal Funds surveys, USAspending.gov, DHS SEVIS by the Numbers and ICE SEVIS releases, the Department of Labor's Office of Foreign Labor Certification and BLS wage data, the USCIS H-1B Employer Data Hub, the Census Bureau's American Community Survey and Post-Secondary Employment Outcomes, USPTO PatentsView, and other federal sources; every figure names its source, and the Sources page lists them in full. Generated November 2026.

NOTES

How the Numbers Are Counted

Ranks

Ranks are among the 50 states and the District of Columbia (1 = highest value, whether or not a high value is good). Where fewer than 51 report, the count is given ("23rd of 33").

Sectors

Sectors are as IPEDS classifies institutions each year. IPEDS moves a whole institution to "public, 4-year or above" once it awards any bachelor's degree, so community colleges that began offering applied bachelor's degrees carry all of their students into the public 4-year sector. Sector series (enrollment shares, public 4-year tuition, graduation rates by sector) reflect these moves.

Research doctorates

Two counts appear. IPEDS counts degrees institutions report as "doctor's degree, research/scholarship", which includes some practice-oriented degrees such as many Ed.D.s; the NSF Survey of Earned Doctorates counts research doctorate recipients and is smaller. Each figure names which it uses. "STEM master's per STEM research doctorate" divides IPEDS STEM master's degrees by IPEDS STEM research doctorates.

Engineering

"Engineering" alone is CIP 14. Where engineering technology (CIP 15) is added, the label says "engineering & eng. technology".

Graduation rates

IPEDS graduation rates follow first-time, full-time students and count only those who finish at the institution where they started, so they leave out part-time starters and students who transfer and finish elsewhere.

International students in SEVIS

SEVIS counts active F-1 and M-1 records, which include graduates on Optional Practical Training (up to 36 months for STEM graduates, 12 for others), so STEM shares run high. STEM follows the DHS STEM Designated Degree Program List, which is broader than the eight CIP families above, and DHS draws its STEM pages on a different basis from its all-student pages, so a country's STEM count can exceed its all-level count.

Visas and green cards

DOL labor condition applications (H-1B positions) are counted by worksite and include renewals and job changes; USCIS approvals are counted by the employer's address and split into new and continuing. PERM certifications are the employer's step toward a green card.

Patents

Patents are counted by the owner's (assignee's) location, not where inventors live; a company headquartered in another state takes its patents there.

Years

Each measure uses its latest year, so years differ across a page; every figure, table and statement gives its year, and lines that stop early are labeled with their last year.

Five largest employers' share of new H-1B approvals	81%	**62%**[2026]	−19.1 pp ▼	9.1%	−6.7 pp ▼	#6	[13]
STEM WORKFORCE AND INNOVATION							
Workers in STEM occupations	291K	**406K**[2024]	+39% ▲	13.7M	+51% ▲	#15	[12]
STEM workers as a share of all workers	9.5%	**12%**[2024]	+2.9 pp ▲	8.1%	+2.1 pp ▲	#3	[12]
Foreign-born share of STEM workers	24%	**25%**[2024]	+1.0 pp ▲	24%	+1.6 pp ▲	#10	[12]
Foreign-born share of STEM workers with a graduate degree	37%	**35%**[2024]	−2.0 pp ▼	41%	+2.2 pp ▲	#17	[12]
Foreign-born share of STEM workers with a doctorate	55%	**45%**[2024]	−9.5 pp ▼	47%	+0.9 pp ▲	#10	[12]
Noncitizen share of STEM workers	8.5%	**8.6%**[2024]	+0.1 pp ▲	11%	+0.7 pp ▲	#18	[12]
STEM workers born abroad who arrived in the last 10 years	5.9%	**5.4%**[2024]	−0.4 pp ▼	7.5%	+0.3 pp ▲	#19	[12]
Share of foreign-born STEM workers born in India	19%	**18%**[2024]	−1.3 pp ▼	28%	+0.7 pp ▲	#25	[12]
Foreign-born share of residents	15%	**18%**[2025]	+2.5 pp ▲	15%	+1.3 pp ▲	#9	[12]
Foreign-born share of graduate-degree holders, 25+	22%	**24%**[2025]	+1.6 pp ▲	21%	+2.8 pp ▲	#8	[12]
STEM jobs, employer survey	234K	**267K**[2025]	+14% ▲	10.4M	+26% ▲	#15	[10]
STEM jobs concentration vs the U.S., location quotient	1.51	**1.45**[2025]	−0.1 ▼	1.00	0.0	#4	[10]
Mean annual STEM wage, nominal, nominal dollars	$96.7K	**$128K**[2025]	+33% ▲	$120K	+38% ▲	#7	[10]
Median software developer wage, nominal, nominal dollars	$112K[2019]	**$139K**[2025]	+23% ▲	$136K	+26% ▲	#7	[10]
Software developer jobs	27.9K	**31.4K**[2025]	+12% ▲	1.69M	+48% ▲	#19	[10]
Mean annual wage, all occupations, nominal, nominal dollars	$54.6K	**$77.6K**[2025]	+42% ▲	$69.8K	+44% ▲	#7	[10]
Patents granted to assignees in the state	1.22K	**1.32K**[2025]	+8.0% ▲	135K	−0.6% ▼	#23	[22]
Share of U.S.-assignee patents	0.9%	**1.0%**[2025]	+0.1 pp ▲	–	–	#23	[22]
Share of the state's patents in digital technologies	34%	**30%**[2025]	−3.6 pp ▼	43%	+1.6 pp ▲	#15	[22]
Share of the state's patents in life sciences	29%	**37%**[2025]	+7.7 pp ▲	17%	+0.4 pp ▲	#6	[22]
Share of the state's patents in semiconductors	2.4%	**1.4%**[2025]	−1.0 pp ▼	2.9%	−1.7 pp ▼	#14	[22]
Women's share of inventors on the state's patents	13%	**17%**[2025]	+3.8 pp ▲	14%	+3.4 pp ▲	#3	[22]

Superscript years mark the year observed; changes since 2015 start from 2015 or the first later year with data. Rank is among the 50 states and DC (1 = highest). "pp" is percentage points. Dollars are 2024 dollars (CPI-U) unless the measure is labeled nominal. Counts and dollars are rounded to three significant figures (K, M, B). Arrow colors show direction only. Source numbers refer to the list of sources that follows the tables.
