# Authors

**Emerson Victoria Johnston** is a research assistant with the Hoover Institution's Technology Policy Accelerator. A Knight-Hennessy Scholar, she holds a master's in international policy from Stanford University, and is on leave from its master's program in the history of science, technology, environment, and medicine.

**Dr. Amy Zegart** is the Morris Arnold and Nona Jean Cox Senior Fellow at the Hoover Institution, director of Hoover's Technology Policy Accelerator, and a senior fellow and associate director at Stanford University's Institute for Human-Centered Artificial Intelligence.

Data come from the Integrated Postsecondary Education Data System (IPEDS), the Department of Homeland Security's SEVIS by the Numbers, the National Assessment of Educational Progress, NSF's Survey of Graduate Students and Postdoctorates and Survey of Earned Doctorates, the Department of Labor's Office of Foreign Labor Certification, the USCIS H-1B Employer Data Hub, the Census Bureau's American Community Survey and USPTO patent data via PatentsView, processed in Python; every figure and table is generated from those sources, and each one names its source.

# About This Profile

This profile is a companion to *The 2026 US Talent Report: Benchmarking America's STEM Pipeline Amid the Great Talent Competition*. It applies the report's measures to Alabama: the students the state develops at home, those it draws from abroad, and how both compare with the nation and with the states closest to it in size.

Degrees, enrollment, prices, outcomes and faculty come from IPEDS, the federal census of U.S. colleges and universities, harmonized across 1980–2025. Countries of citizenship come from SEVIS by the Numbers, the Department of Homeland Security's monthly count of active F-1 and M-1 students. Each figure names its source. Peer states are the four closest in total fall enrollment.

# Public Data and Tools

The data behind every chart come from federal sources: the Integrated Postsecondary Education Data System (IPEDS), published by the National Center for Education Statistics, as the backbone, together with NAEP, NSF's surveys of graduate students, doctorates and research funding, USAspending.gov, DHS and ICE SEVIS data, the Department of Labor, USCIS, the Census Bureau's American Community Survey and Post-Secondary Employment Outcomes, and USPTO PatentsView. Each figure names its source, and the Sources page lists all of them. An interactive version of this profile accompanies the report.

AT A GLANCE

# What Alabama's numbers say

1. **International students earn 43% of Alabama's STEM master's degrees,** 9.6 points below the U.S. (52%) in 2025, ranking 26th of 51 on dependence. The share is 49% for STEM research doctorates (U.S. 43%) and 2.7% for STEM bachelor's (U.S. 6.6%).
2. **Alabama awarded 1.47K STEM master's degrees to international students in 2025,** 1.3% of the U.S. total and 20th of 51 among states. Since 2015 the count changed 3.5×, against 2.2× nationally.
3. **The heaviest dependence is in computer & info sciences,** where international students earned 82% of master's degrees (1.27K degrees; U.S. 65%). One STEM field with at least 50 master's graduates is majority-international.
4. **Among states of similar size,** Alabama ranks 4th of 5 on the international share of STEM master's: Alabama 43%, Tennessee 50%, Wisconsin 55%, Washington 39%, Kentucky 75%.
5. **68% of Alabama's first-time students in fall 2024 were state residents** and 1.2% came from abroad. More students arrived from other states (14.8K) than residents left (5.56K), a net gain of 9.19K; the top destination for those leaving was Mississippi.

**43%**

of the STEM master's degrees Alabama awards go to international students (U.S. 52%).

SECTION 1

# International Dependence

Alabama ranks 36th of 51 on the international share of all master's, at 11% in 2025 against 22% for the U.S.

**Figure 1** What Share of Alabama's Degrees Go to International Students?

International share of degrees awarded, all fields; state solid, U.S. dashed. Data from NCES, IPEDS Completions, 1985–2025.

International students make up 10% of Alabama's graduate enrollment and 1.5% of its undergraduates. Dependence climbs with each degree: 1.7% of bachelor's, 11% of master's and 27% of research doctorates go to international students.

In STEM the shares are higher still: 2.7% of STEM bachelor's, 43% of STEM master's and 49% of STEM doctorates. The state awards 1.3% of all U.S. international STEM master's, 20th of 51.

## Figure 2 Where Do Alabama's International Students Come From?

Active F-1 and M-1 students by country of citizenship, the five largest in October 2026; one fall snapshot per year (the month closest to November), October 2014–October 2026. All education levels. Data from DHS, SEVIS by the Numbers.

In October 2026, Alabama had 10.2K active international students in SEVIS, 26th of 51. India accounted for 34% of them and China for 5.6%, against 27% and 18% nationally.

Students came from 158 countries, but the two largest supplied 40%. The state's total is up 19% since 2015, when it stood at 8.63K.

SECTION 1 · INTERNATIONAL DEPENDENCE

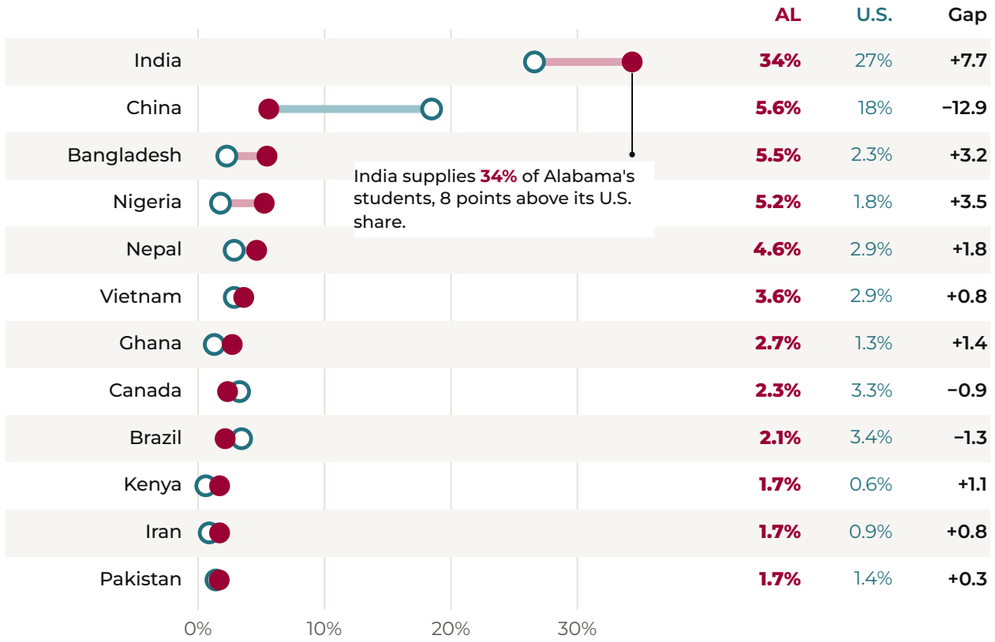

# How Does Alabama's Mix of Countries Compare With the Nation's?

In October 2026, Alabama had **10.2K** active F-1 and M-1 students, 26th among the 50 states and DC and **0.9%** of the U.S. total. They came from 158 countries.

India supplied **34%** of them, against 27% nationally, and China **5.6%**, against 18%. Bangladesh (5.5%), Nigeria (5.2%), and Nepal (4.6%) followed.

Together the two largest countries supplied **40%** of the state's international students (U.S. 45%), 24th among the states, against 47% in 2015.

## Figure 3 Is Alabama's Mix of Countries Like the Nation's?

Share of active F-1 and M-1 students, all levels. Data from DHS, SEVIS by the Numbers, October 2026.

The state's count is down 8.0% from 2025 and up 19% since 2015, when it stood at 8.63K. Its share of all U.S. international students is up 0.1 points since 2015, to **0.9%**.

Since 2015, the number of students from India went from 1.3K to 3.51K, China's from 2.79K to 572, and Bangladesh's from 147 to 557.

Over the same years, the number from Nigeria went from 212 to 535 and Nepal's from 220 to 473. The table gives each country's count for the first, previous and latest years.

## Table 1 International Students in Alabama, 2015–2026

| | 2015 | 2025 | 2026 | Change since 2015 | U.S. 2026 | Rank |
|---|---|---|---|---|---|---|
| **ALL INTERNATIONAL STUDENTS** | | | | | | |
| Active F-1 and M-1 students | 8.63K | 11.1K | **10.2K** | +19% | 1.19M | 26th |

## Which Countries Supply Alabama's International STEM Students?

**6.3K** of Alabama's international students were in STEM fields in October 2026, **62%** of the total against 63% nationally, up 61% since 2015.

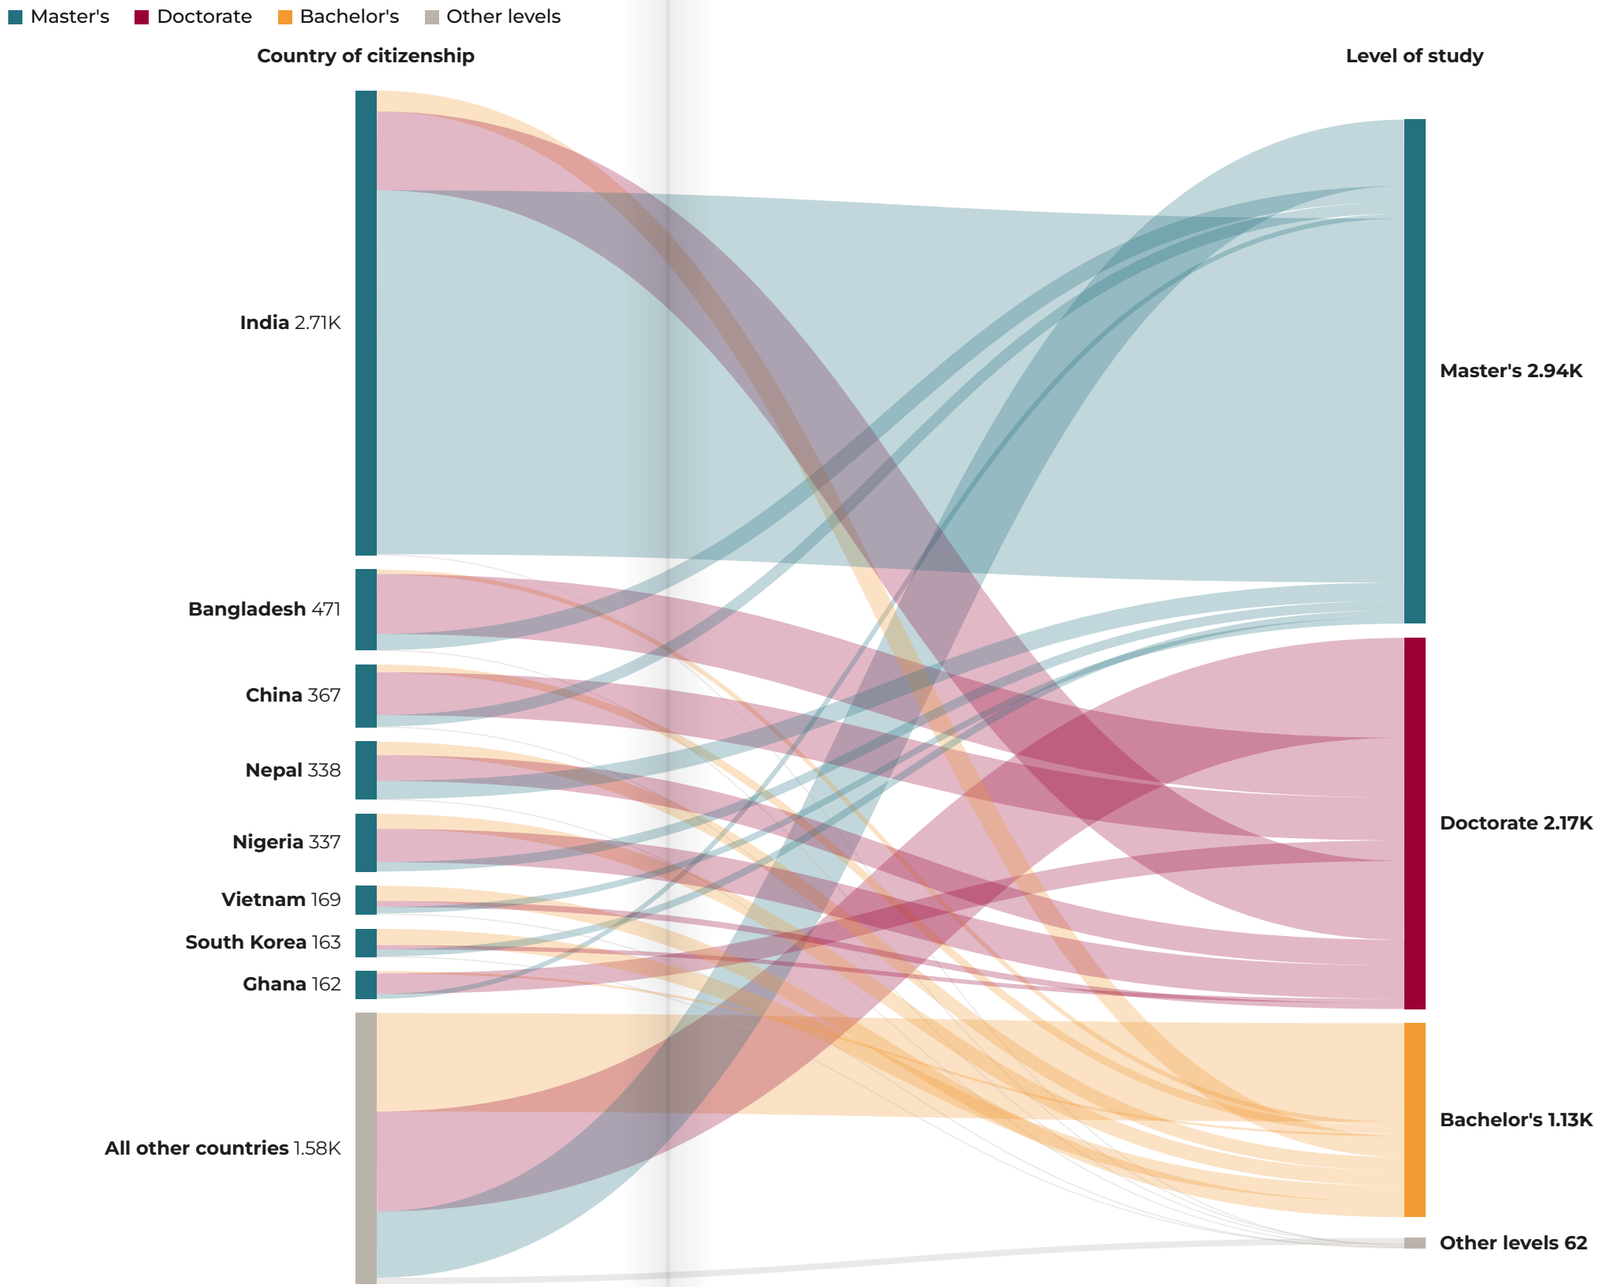

Master's students were the largest group, **2.94K**. India supplied 72% of them and Nepal 3.6%.

STEM doctoral students went from 1.15K in 2015 to **2.17K**, and STEM master's students from 1.42K to 2.94K.

**6.3K**

SECTION 1 · INTERNATIONAL DEPENDENCE

# How International Are Alabama's Master's Fields?

Each row is a master's field with at least 30 graduates in Alabama in 2025, ranked by the share of degrees earned by international students (U.S. nonresidents on temporary visas). The filled dot is the state's share; the open dot is the national share for the same field.

**Highest international shares.** International students earned the largest shares of master's degrees in computer & info sciences (82%, against 65% for the U.S.), physical sciences (44%, against 33% for the U.S.), and engineering (31%, against 49% for the U.S.).

## Figure 5 Which Master's Fields Depend Most on International Students?

International share of master's degrees by field, 2025; fields with 30+ graduates. Data from NCES, IPEDS Completions.

**11%**
Int. share of all master's, 2025
U.S. **22%** · **36th** of 51

**43%**
Int. share of STEM master's, 2025
U.S. **52%** · **26th** of 51

**82%**
Int. share of CS master's, 2025
U.S. **65%** · **9th** of 47

The table gives the international share of degrees in each STEM field at three levels: Alabama first, the United States after the slash. The master's column is highlighted. A dash means the state awarded no degrees in the field at that level.

**Highest international share among STEM master's fields.** International students earned 82% of the master's degrees in computer & info sciences, against 65% for the U.S.

**Fields with an international majority.** International students earned more than half of the master's degrees in one STEM field.

## Table 2 How International Is Each STEM Field?

| Field | Bachelor's | Master's | Doctorates |
|---|---|---|---|
| Computer & info sciences | 6.4% / 8.6% | **82% / 65%** | – / 56% |
| Engineering | 2.5% / 7.2% | **31% / 49%** | 64% / 55% |
| Engineering technology | 0.3% / 4.5% | **0.2% / 54%** | – / 42% |
| Math & statistics | 3.7% / 17% | **24% / 55%** | 50% / 53% |
| Physical sciences | 2.1% / 6.0% | **44% / 33%** | 40% / 38% |
| Biological sciences | 1.6% / 3.4% | **21% / 23%** | 35% / 23% |
| Natural resources | 1.0% / 2.0% | **9.0% / 17%** | – / 27% |
| Architecture | 7.8% / 7.3% | **12% / 29%** | – / 55% |

International share in Alabama / U.S., 2025. Data from NCES, IPEDS Completions.

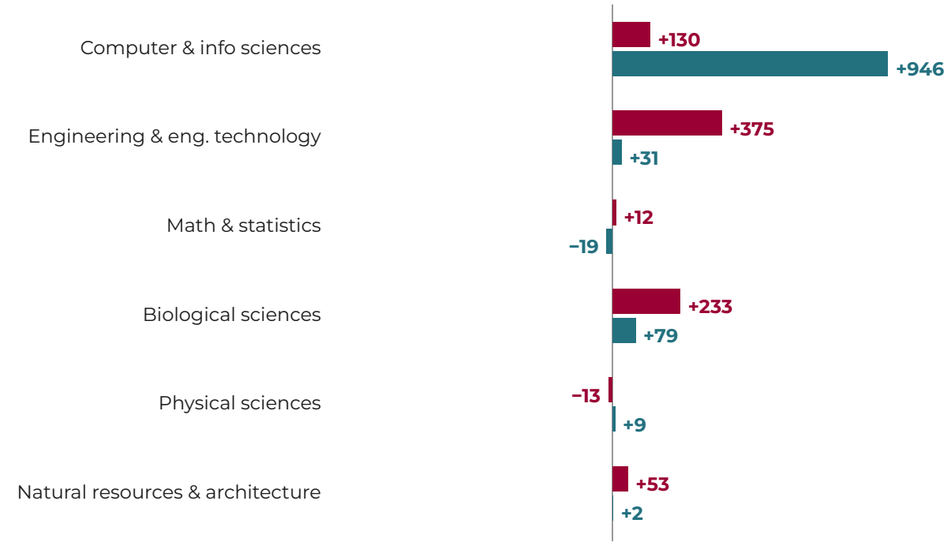

SECTION 1 · INTERNATIONAL DEPENDENCE

# How Has Alabama's STEM Master's Output Grown?

Each pair of bars is the change in the number of STEM master's degrees awarded in Alabama between 2015 and 2025 in one field: to domestic students (U.S. citizens and permanent residents) and to international students. Bars to the left of the axis are declines.

**STEM master's degrees.** The state awarded 3.45K in 2025 and 1.61K in 2015, a change of +1.05K for international students and +790 for domestic students.

## Figure 6 Where Did the STEM Master's Growth Come From?

Change in STEM master's degrees by field, 2015–2025. Data from NCES, IPEDS Completions.

**1.47K**
International STEM master's, 2025
U.S. **117K** · **20th** of 51

**21%**
STEM share of master's, 2025
U.S. **23%** · **26th** of 51

**1.3%**
Share of U.S. international STEM master's, 2025
**20th** of 51

**8.2**
STEM master's per STEM research doctorate, 2025
U.S. **6.4** · **10th** of 51

The table gives the number of STEM master's degrees awarded in Alabama in each field in 2015 and 2025, the change between the two years, the number awarded to international students in 2025, and international students' share of the field's degrees in each year.

**STEM share of master's degrees.** The share was 21% in 2025, against 23% for the U.S., 26th among the states, up 2.0 points from 19% in 2024 and up 7.0 points since 2015, when it was 14%.

## Table 3 How Many STEM Master's Degrees Does Each Field Award?

| Field | 2015 | 2025 | Change | International 2025 | Int. share 2015 | Int. share 2025 |
|---|---|---|---|---|---|---|
| Computer & info sciences | 191 | **1.27K** | +563% | 1.04K | 50% | 82% |
| Engineering & eng. technology | 1.07K | **1.47K** | +38% | 266 | 22% | 18% |
| Math & statistics | 78 | **71** | −9.0% | 17 | 46% | 24% |
| Biological sciences | 121 | **433** | +258% | 91 | 9.9% | 21% |
| Physical sciences | 92 | **88** | −4.3% | 39 | 33% | 44% |
| Natural resources & architecture | 65 | **120** | +85% | 12 | 15% | 10% |

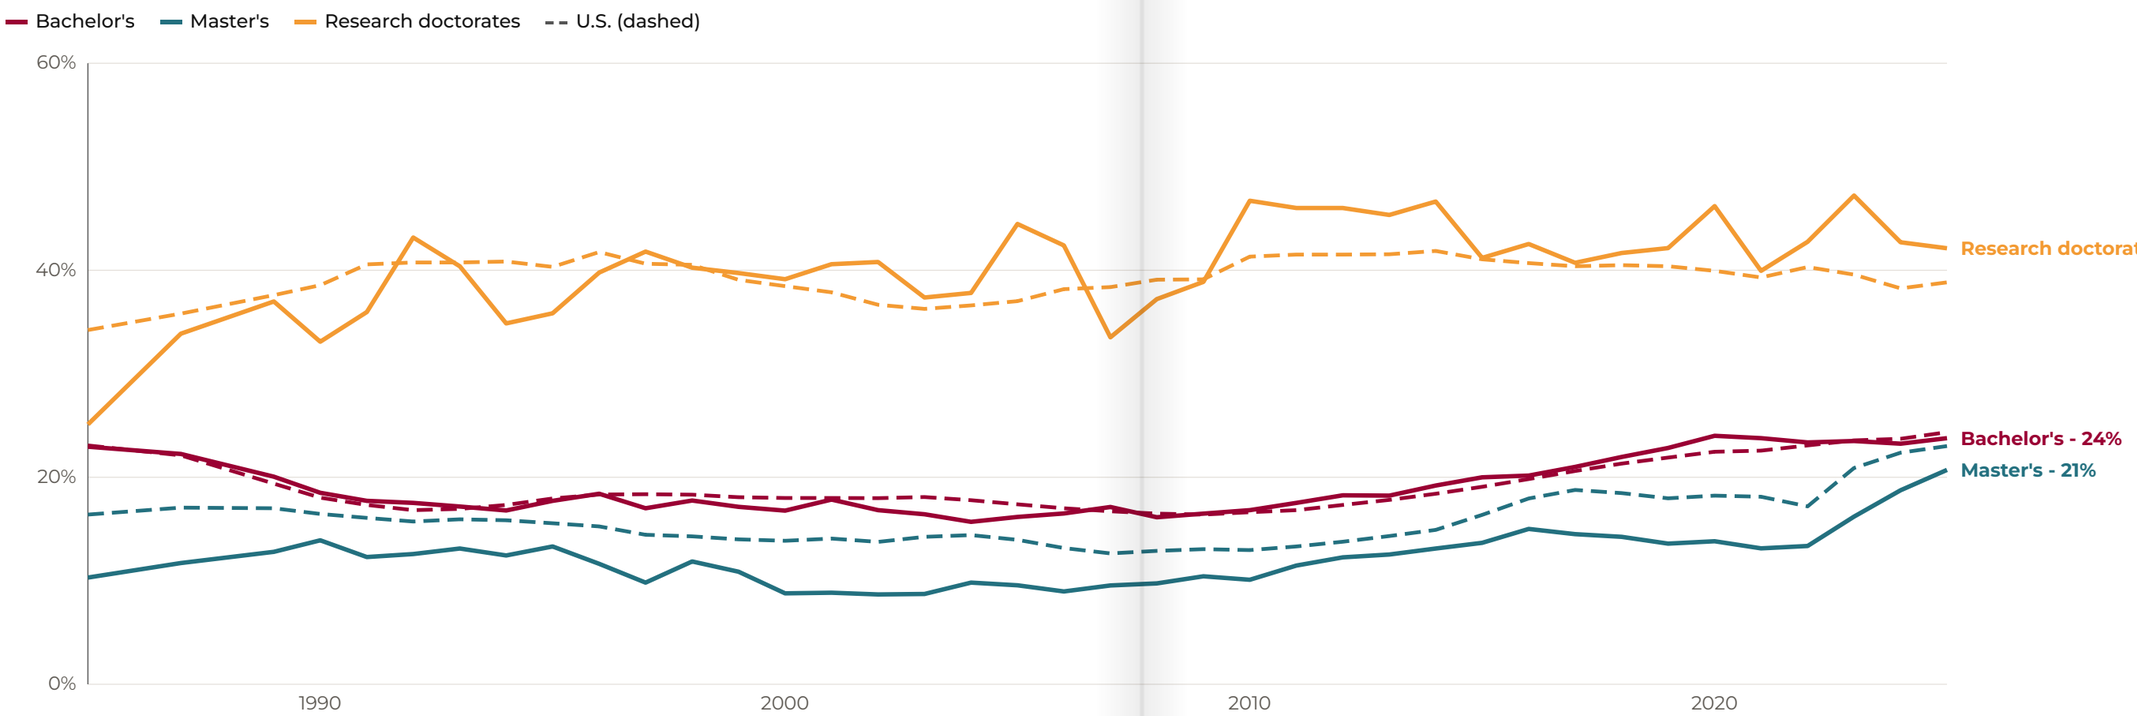

STEM master's degrees awarded in Alabama, all students and international students, 2015 and 2025. Data from NCES, IPEDS Completions.

SECTION 2

# STEM Degrees

Alabama ranks 23rd of 51 on the STEM share of bachelor's, at 24% in 2025 against 24% for the U.S.

## Figure 7 How Much of Alabama's Degree Output Is STEM?

STEM share of degrees by level; state solid, U.S. dashed. Data from NCES, IPEDS Completions.

STEM fields account for 24% of Alabama's bachelor's degrees, 21% of its master's and 42% of its research doctorates (U.S. 24%, 23% and 39%).

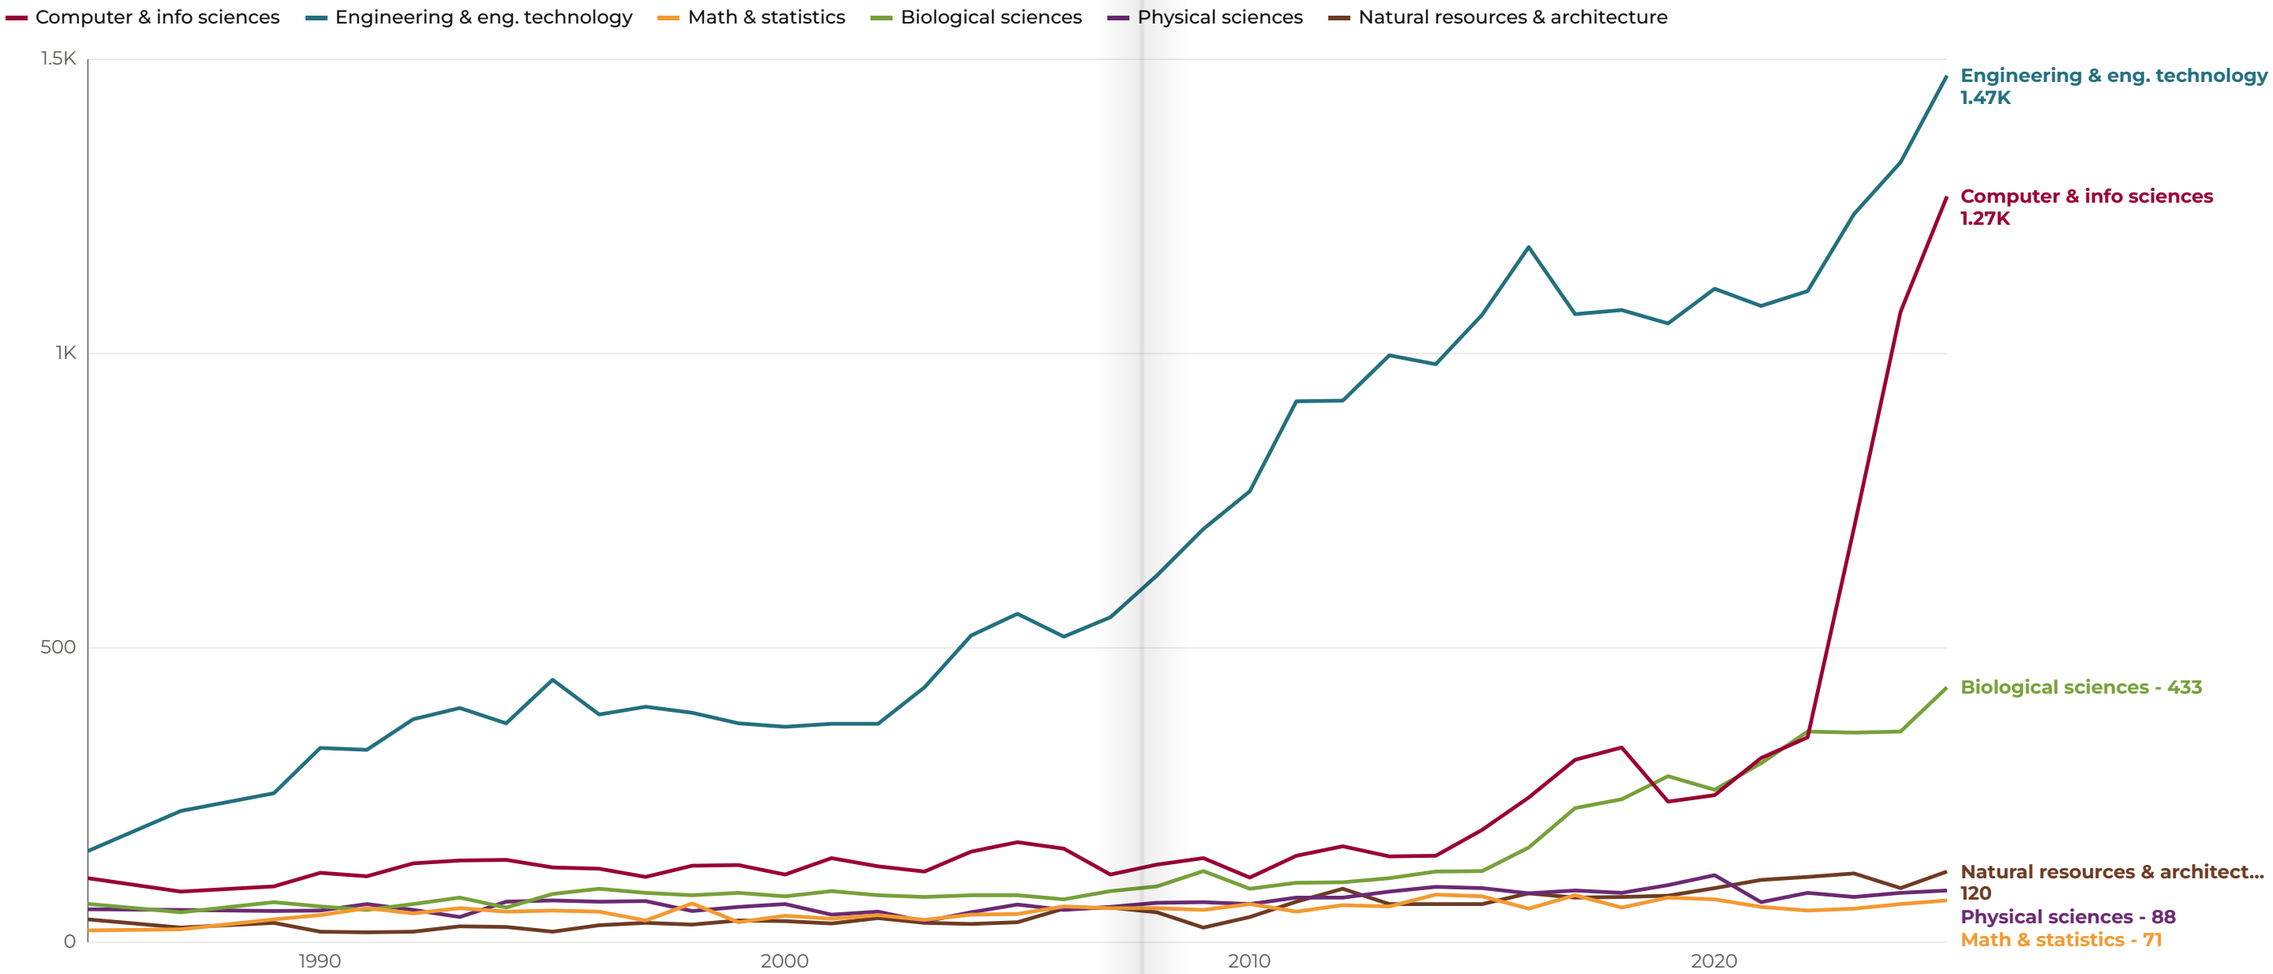

The STEM share of master's degrees is up 7.0 points since 2015, and the state ranks 26th of 51 on it. On the STEM share of bachelor's degrees it ranks 23rd of 51.

**24%**
**STEM share of bachelor's, 2025**
U.S. **24%** · **23rd** of 51 · +3.8 pp since 2015

SECTION 3

# Where Students Come From

Alabama ranks 45th of 51 on the share of first-time students whose home is outside the US, at 1.2% in 2024 against 3.1% for the U.S.

## Figure 10 First-Time Students by Home and Destination, Fall 2024

Home of first-time degree-seeking undergraduates (left) and the state of the institution entered (right); the five largest sources and destinations (more when states tie at the printed figure), the rest grouped; ties are ordered by exact count. Data from NCES, IPEDS Fall Enrollment.

33.8K residents stayed in Alabama for college in fall 2024; 14.8K students arrived from other states and 574 from abroad, while 5.56K residents left.

Each band runs from a student's home on the left to the state where they enrolled on the right. 68% of the state's first-time students are residents.

SECTION 5

# Graduate Research

Alabama ranks 15th of 51 on the temporary-visa share of S&E postdocs, at 60% in 2016 against 56% for the U.S.

**Figure 15** How Many of Alabama's Science and Engineering Graduate Students Hold Temporary Visas?

Temporary-visa share of science and engineering graduate students and postdoctoral appointees, by the institution's state; state solid, U.S. dashed. NSF stopped publishing state tables after 2016. Data from NSF NCSES, Survey of Graduate Students and Postdoctorates.

In 2016, the last year NSF published state tables, 30% of Alabama's science and engineering graduate students held temporary visas (U.S. 39%; 32nd of 51).

Among postdoctoral researchers, the share was 60% (U.S. 56%). Postdocs are the stage of research training most dependent on international talent, and IPEDS does not count them.

The state's institutions awarded 771 research doctorates in 2025, 1.3% of the U.S. total (Data from NSF NCSES, Survey of Earned Doctorates; NSF publishes doctorates by citizenship only for the nation).

**30%**

SECTION 6

# Do Graduates Stay?

Alabama ranks 29th of 33 on the share of bachelor's graduates working in the state 1 year after graduating, at 53% in 2019 against 72% for the U.S.

## Figure 16 How Many of Alabama's Graduates Go On to Work in the State?

Share of employed graduates working in the state of their institution, by graduating cohort (Data from U.S. Census Bureau, Post-Secondary Employment Outcomes; participating institutions only); international graduates' OPT jobs in the state where they studied (Data from ICE, SEVIS FOIA releases; shares only, the file is truncated). State solid, U.S. or participating states dashed.

Of Alabama's bachelor's graduates who were working a year after graduating, 53% worked in the state (participating states 72%). Five years out the share was 47%.

Among international graduates on Optional Practical Training in 2016, 25% worked in the state where they studied (U.S. 44%). That is the last year the released records cover, before most of the growth in international STEM master's degrees since 2015. Through migration between states, the state gained 5.1 bachelor's-plus adults per 1,000 such residents in 2025 (Data from U.S. Census Bureau, American Community Survey).

**53%**

**Bachelor's grads working in-state, 1 year out, 2019**

**13th** of 51 · +5.4 since 2015

SECTION 7

# Research Funding

Alabama ranks 8th of 51 on federal R&D obligations to the state, at $7.78B in 2024 against $193B for the U.S.

## Figure 17 How Much Research Money Flows Into Alabama?

Nominal dollars (not adjusted for inflation), fiscal years; a line ending before the others is labeled with its last year. University R&D: Data from NSF NCSES, Higher Education Research and Development Survey (FY2003-09 predecessor survey). Federal R&D obligations by state of performance: Data from NSF NCSES, Survey of Federal Funds for R&D (coverage widens in FY2021). Grants from NSF, NIH, NASA and DOE Science plus R&D contracts: Data from USAspending.gov.

Alabama's universities spent $1.76B on research and development in FY2024, 23rd of 51 among the states; 54% of it was federally funded (U.S. 55%).

Federal agencies obligated $7.78B for R&D performed in the state in FY2024. Research funding drives demand for graduate students and postdocs, the stage of training most dependent on international talent.

**$1.76B**

U.S. **$193B** · **8th** of 51 · +71% since 2015

SECTION 8

# H-1B Jobs and Green Cards

Alabama ranks 16th of 51 on green-card labor certifications, at 2.55K in 2025 against 138K for the U.S.

**Figure 18** How Many Skilled-Visa Jobs and Green-Card Certifications Does Alabama Generate?

Certified H-1B positions on labor condition applications by worksite and certified PERM green-card applications, by fiscal year (Data from DOL, Office of Foreign Labor Certification); new H-1B petition approvals by the employer's address (Data from USCIS, H-1B Employer Data Hub).

Employers were certified for 2.17K H-1B positions at Alabama worksites in FY2025, 35th of 51 among the states. A labor condition application comes before the petition and covers renewals and job changes as well as new hires, by the worksite's state, so it runs well above approvals. USCIS approved 457 new H-1B petitions in FY2026 and 676 continuing ones, counted by the employer's address.

DOL certified 2.55K PERM applications, the employer's step toward an employment-based green card, for jobs in the state in FY2025. In FY2024, 7.2% were for workers still on F-1 student visas (U.S. 8.7%): the most direct link from classroom to permanent residence.

**2.17K**

U.S. **$119K** · **43rd** of 51 · +40% since 2015

SECTION 9

# STEM Workforce

Alabama ranks 37th of 44 on the foreign-born share of STEM workers with a graduate degree, at 20% in 2024 against 41% for the U.S.

## Figure 20 How Much of Alabama's STEM Workforce Was Born Abroad?

Foreign-born share of employed workers in STEM occupations, by state of residence; state solid, U.S. dashed. Shares resting on fewer than 100 survey records are left out. No 2020 (experimental data). Data from U.S. Census Bureau, American Community Survey.

In 2024, 9.0% of the people working in STEM occupations in Alabama were born abroad (U.S. 24%; 41st of 51).

The share rises with education: 20% of STEM workers with a graduate degree were foreign-born (U.S. 41%). 3.9% of all STEM workers were not U.S. citizens.

SECTION 12

# Fields of Study

## Figure 27 How Many Degrees Does Alabama Award?

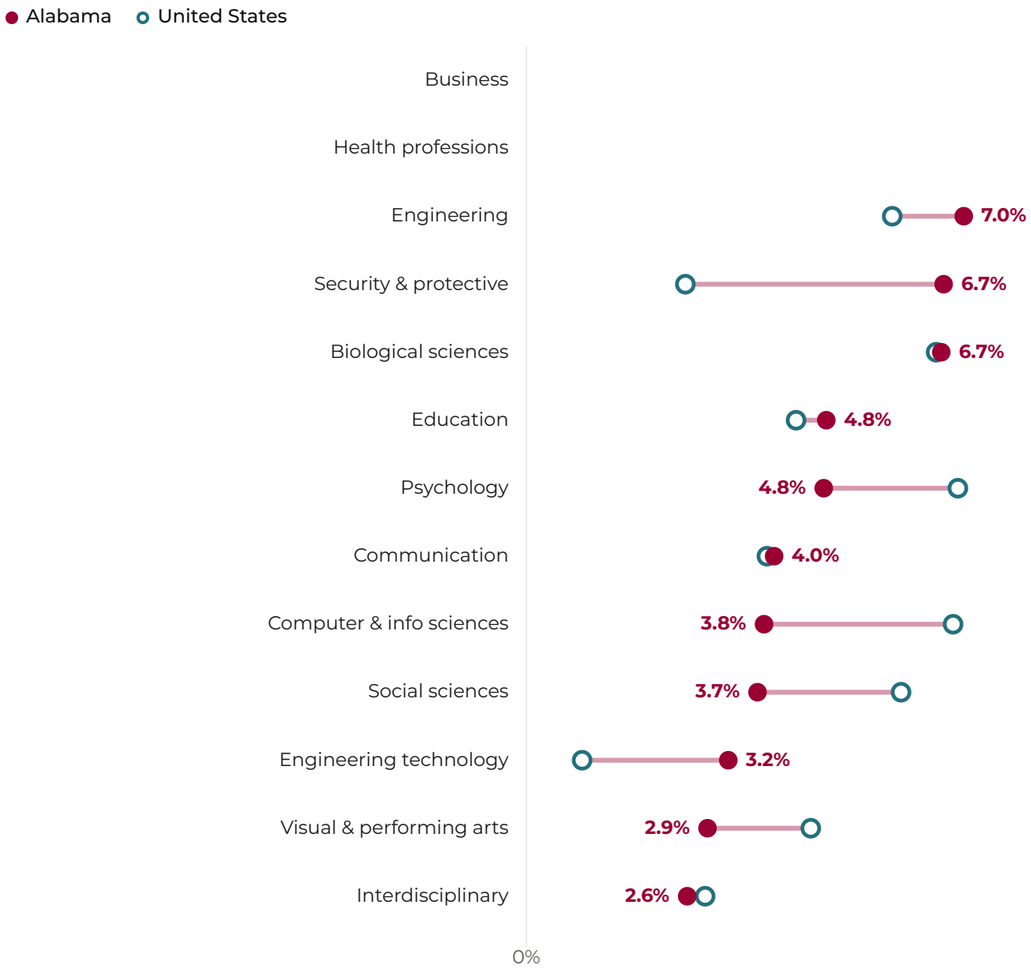

Degrees awarded by level, first majors. Data from NCES, IPEDS Completions.

In 2025, Alabama's institutions awarded 13.3K associate's degrees, 34.4K bachelor's degrees, 16.7K master's degrees, 1K research doctorate degrees, 2.21K professional doctorate degrees.

Since 2015: associate's down 2%; bachelor's up 14%; master's up 41%; research doctorate up 23%; professional doctorate up 37%. The state awards 13.4 bachelor's degrees for every 100 undergraduates (U.S. 12.3).

## Figure 28 What Do Alabama's Bachelor's Graduates Study?

Share of bachelor's degrees by field, 2025. Data from NCES, IPEDS.

Alabama's largest bachelor's fields are business (24%; U.S. 19%), health professions (12%; U.S. 13%), engineering (7.0%; U.S. 5.9%).

Relative to the nation, Alabama's bachelor's degrees are most concentrated in engineering technology (3.62× the U.S. share), family & consumer sci. (2.63× the U.S. share), security & protective (2.63× the U.S. share).

**3.8%**

**Bachelor's in computer science, 2025**

## Figure 30 How Has Alabama's Bachelor's Field Mix Changed?

Share of bachelor's degrees in the largest fields. Data from NCES, IPEDS Completions.

Since 2015, biological sciences has gained the most ground, 1.4 points of the state's bachelor's degrees, while education lost the most (2.6 points).

The chart follows the share of bachelor's degrees in each of the state's largest fields; smaller fields are grouped as other fields.

SECTION 12 · FIELDS OF STUDY

# Where Is Alabama Specialized, and What Do Its Doctoral Graduates Study?

The location quotient divides a field's share of Alabama's bachelor's degrees by its share of all U.S. bachelor's degrees in 2025. A quotient of 1.00 means the same share as the nation; 2.00 means twice the national share. The table lists the 10 fields with the highest quotients among fields with at least 50 degrees.

**Highest location quotients.** Engineering technology (3.62, with 3.2% of the state's bachelor's degrees against 0.9% for the U.S.), family & consumer sci. (2.63, with 2.2% of the state's bachelor's degrees against 0.8% for the U.S.), and security & protective (2.63, with 6.7% of the state's bachelor's degrees against 2.6% for the U.S.) had the highest quotients.

## Table 5 Where Is Alabama Most Specialized?

| Field | Location quotient | State share | U.S. share | Degrees |
|---|---|---|---|---|
| Engineering technology | **3.62** | 3.2% | 0.9% | 1.11K |
| Family & consumer sci. | **2.63** | 2.2% | 0.8% | 742 |
| Security & protective | **2.63** | 6.7% | 2.6% | 2.3K |
| Transportation | **1.40** | 0.5% | 0.4% | 175 |
| Business | **1.25** | 24% | 19% | 8.14K |
| Engineering | **1.20** | 7.0% | 5.9% | 2.42K |
| Education | **1.11** | 4.8% | 4.3% | 1.66K |
| Communication | **1.03** | 4.0% | 3.9% | 1.37K |
| Biological sciences | **1.01** | 6.7% | 6.6% | 2.29K |
| Architecture | **0.98** | 0.6% | 0.6% | 192 |

Bachelor's degrees; location quotient = state share ÷ U.S. share; fields with 50+ degrees. Data from NCES, IPEDS.

**58%**
At public 4-year institutions
+3.6 pp since 2015

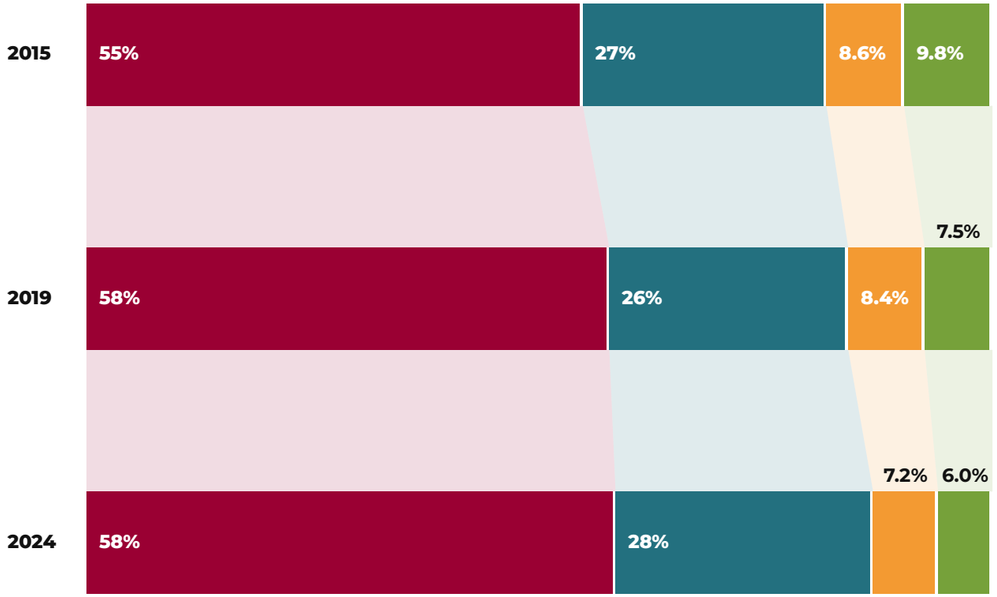

**28%**
At public 2-year institutions
+1.5 pp since 2015

In fall 2024, public 4-year institutions enrolled **58%** of students, up 3.6 points from 55% in 2015. Public 2-year institutions enrolled **28%** of students, up 1.5 points from 27% in 2015.

Private nonprofit institutions enrolled **7.2%** of students, down 1.4 points from 8.6% in 2015, and for-profit institutions enrolled **6.0%** of students, down 3.7 points from 9.8% in 2015.

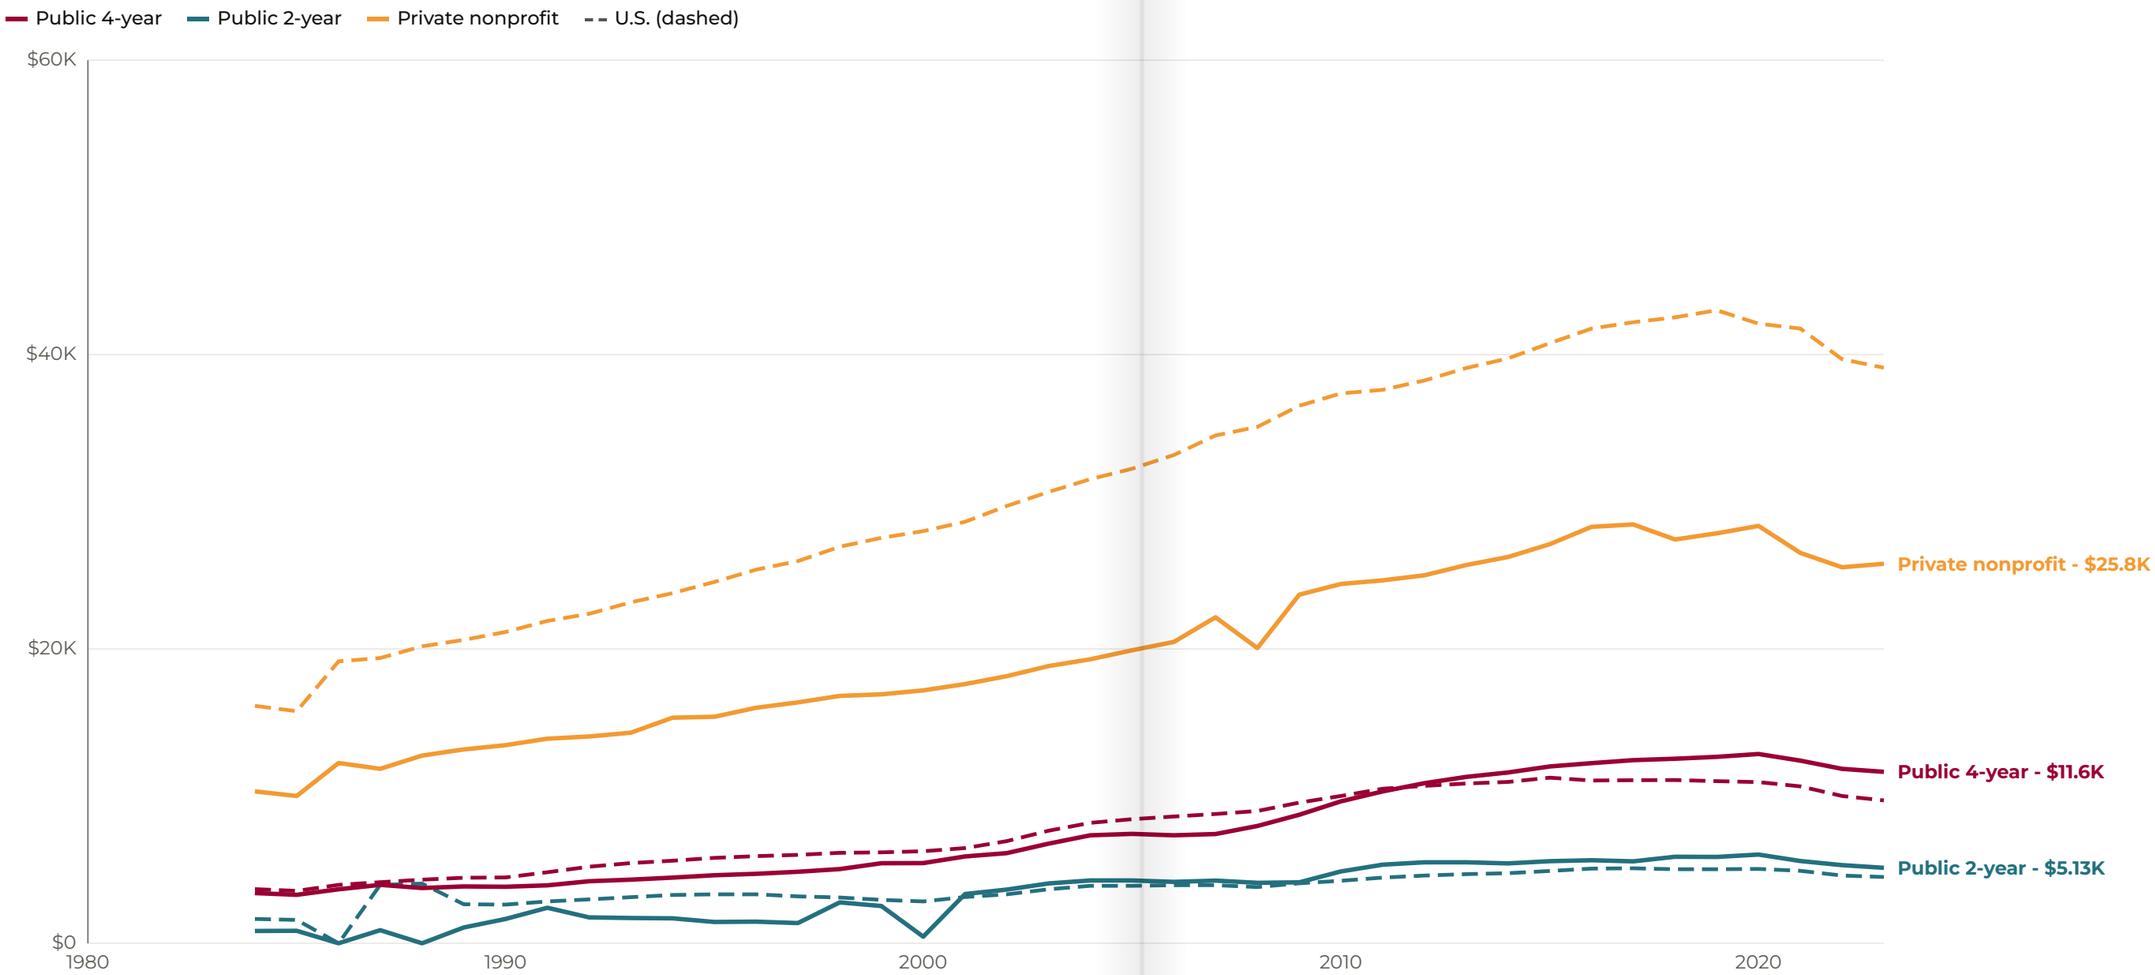

Public institutions together enrolled **87%** of students, against 73% nationally, 13th among the states.

## Figure 34 Where Do Students Enroll?

Share of fall headcount enrollment by sector, 2015, 2019, 2024. Sectors as IPEDS classifies them each year. Data from NCES, IPEDS.

## Figure 35 What Does In-State Tuition Cost?

Published in-state tuition and fees, 2024 dollars (CPI-U); state solid, U.S. dashed. Data from NCES, IPEDS.

In-state tuition and fees at Alabama's public four-year institutions are $11.6K (2023, 2024 dollars), 20% above the U.S. ($9.71K); the state ranks 16th of 51.

State and local appropriations come to $11.4K per full-time-equivalent student at public institutions (20th of 51), and net tuition makes up 47% of net tuition plus state and local appropriations (U.S. 43%).

**$11.6K**

**In-state tuition, public 4-year, 2023**

U.S. **$11.4K** · **20th** of 51 · +25% since 2015

**47%**

**Tuition share of tuition plus appropriations, 2024**

U.S. **43%** · **25th** of 51 · −9.3 pp since 2015

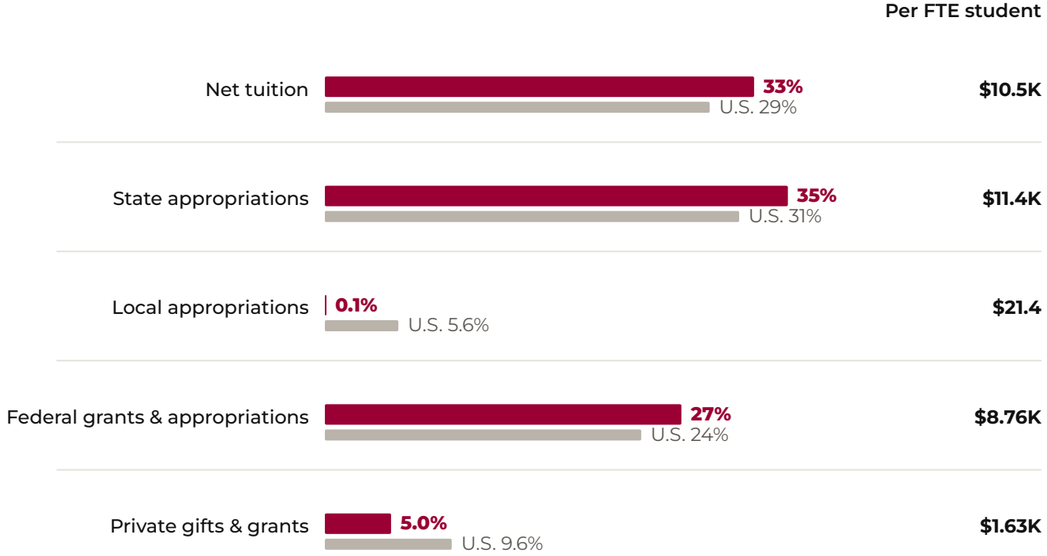

SECTION 13 · STUDENTS AND MONEY

# How Are Alabama's Public Institutions Funded, and What Do They Produce?

The bars give each source's share of the core revenue of Alabama's public institutions, with the nation for comparison, and at right the dollars per full-time-equivalent (FTE) student it provides. Values are in 2024 dollars (CPI-U). Net tuition is tuition and fees after institutional discounts and allowances.

**Net tuition per FTE student.** The figure was $10.5K in FY2024, against $8.96K for the U.S., down 1.9% from $10.8K in FY2023 and down 9.1% since FY2015, when it was $11.6K.

## Figure 36 How Are Public Institutions Funded?

Share of core revenue per FTE student by source, public institutions, FY2024; dollars per FTE at right, 2024 dollars (CPI-U). Shares are of all five sources; the tuition share elsewhere in this profile divides net tuition by net tuition plus state and local appropriations only. Data from NCES, IPEDS Finance.

**$11.6K**
In-state tuition, public 4-year, 2023
U.S. **$9.71K** · **16th** of 51

**$11.4K**
Appropriations per student, 2024
U.S. **$11.4K** · **20th** of 51

**47%**
Tuition share of tuition plus appropriations, 2024
U.S. **43%** · **25th** of 51

The table brings together five measures of what public higher education costs and what it produces in Alabama: in-state tuition at public four-year institutions, state and local appropriations per full-time-equivalent student, tuition's share of public institutions' core revenue, the six-year bachelor's graduation rate, and the average full-time faculty salary.

**In-state tuition, public 4-year.** The figure was $11.6K in 2023, against $9.71K for the U.S., 16th among the states, down 1.8% from $11.9K in 2022 and down 3.0% since 2015, when it was $12K.

## Table 6 Money and Results

| Measure | Year | Alabama | U.S. | Rank | Change since 2015 |
|---|---|---|---|---|---|
| In-state tuition, public 4-year | 2023 | **$11.6K** | $9.71K | 16th of 51 | −3.0% |
| Appropriations per student | 2024 | **$11.4K** | $11.4K | 20th of 51 | +25% |
| Tuition share of tuition plus appropriations | 2024 | **47%** | 43% | 25th of 51 | −9.3 pp |
| Six-year graduation rate | 2024 | **60%** | 65% | 30th of 51 | +11.4 pp |
| Average faculty salary | 2024 | **$86.4K** | $106K | 37th of 51 | −6.7% |

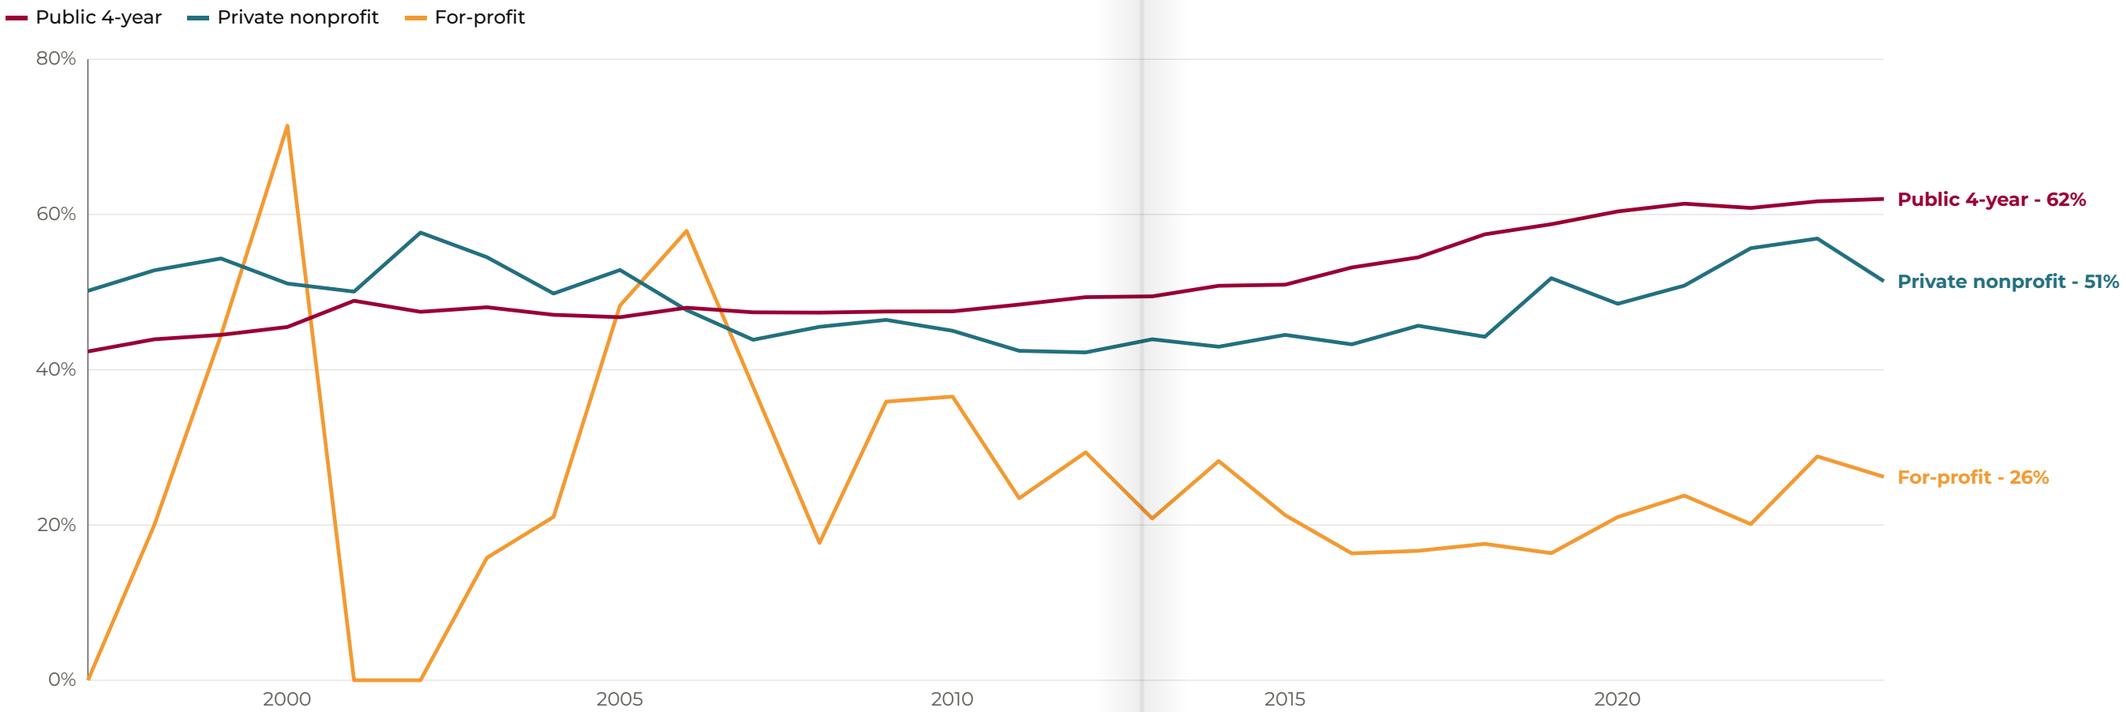

Rank among the 50 states and DC (1 = highest). Dollars in 2024 dollars (CPI-U). Data from NCES, IPEDS.

SECTION 14

# Student Outcomes

Alabama ranks 16th of 51 on bachelor's degrees per 100 undergraduates, at 13.4 in 2025 against 12.3 for the U.S.

## Figure 37 How Do Graduation Rates Differ by Sector?

Six-year bachelor's graduation rate by sector of institution. Data from NCES, IPEDS Graduation Rates.

60% of students who started a bachelor's degree at a four-year institution in Alabama graduated within six years (2024), 4.6 points below the U.S. (65%); the state ranks 30th of 51.

By sector: public 4-year 62%, private nonprofit 51%, for-profit 26%. At two-year institutions, 37% complete within 150% of normal time (U.S. 41%).

**60%**

U.S. **12.3** · **16th** of 51 · +1.8 since 2015

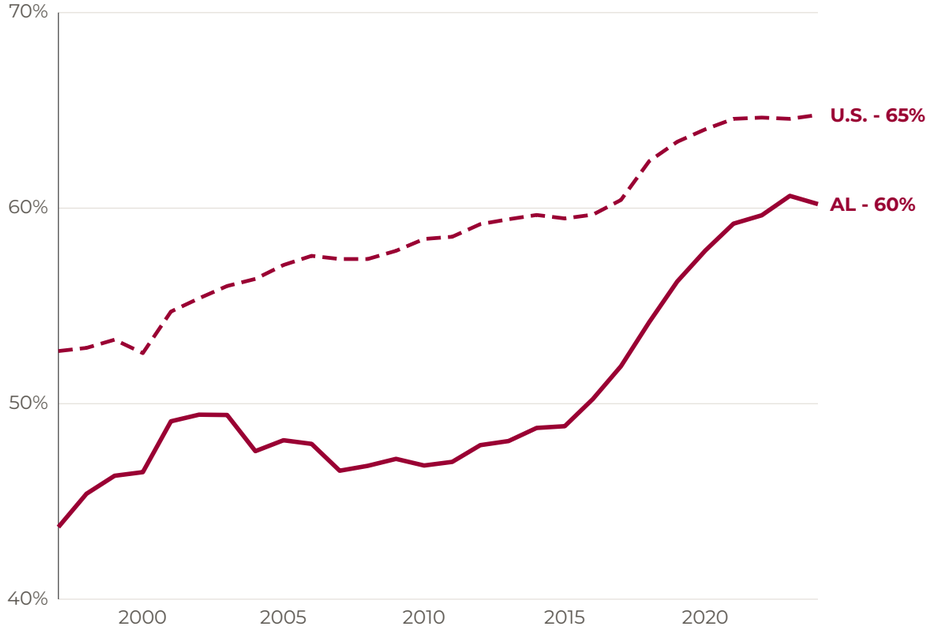

SECTION 14 · STUDENT OUTCOMES

# How Many of Alabama's Students Graduate?

The line follows the share of first-time, full-time bachelor's-degree students at Alabama's four-year institutions who graduated from the institution where they started within six years (150% of normal time). Each year is the cohort that entered six years earlier. The rate leaves out students who start part-time (35% of the state's students attend part-time, against 39% nationally) and students who transfer and finish elsewhere. The state is solid and the United States dashed.

**Six-year graduation rate.** The rate was 60% in 2024, against 65% for the U.S., down 0.4 points from 61% in 2023 and up 11.4 points since 2015, when it was 49%.

## Figure 38 Six-Year Bachelor's Graduation Rate

Four-year institutions; state solid, U.S. dashed. Data from NCES, IPEDS Graduation Rates.

**60%**
Six-year graduation rate, 2024
U.S. **65%** · **30th** of 51

**37%**
Two-year completion rate, 2024
U.S. **41%** · **30th** of 50

**13.4**
Bachelor's per 100 undergraduates, 2025
U.S. **12.3** · **16th** of 51

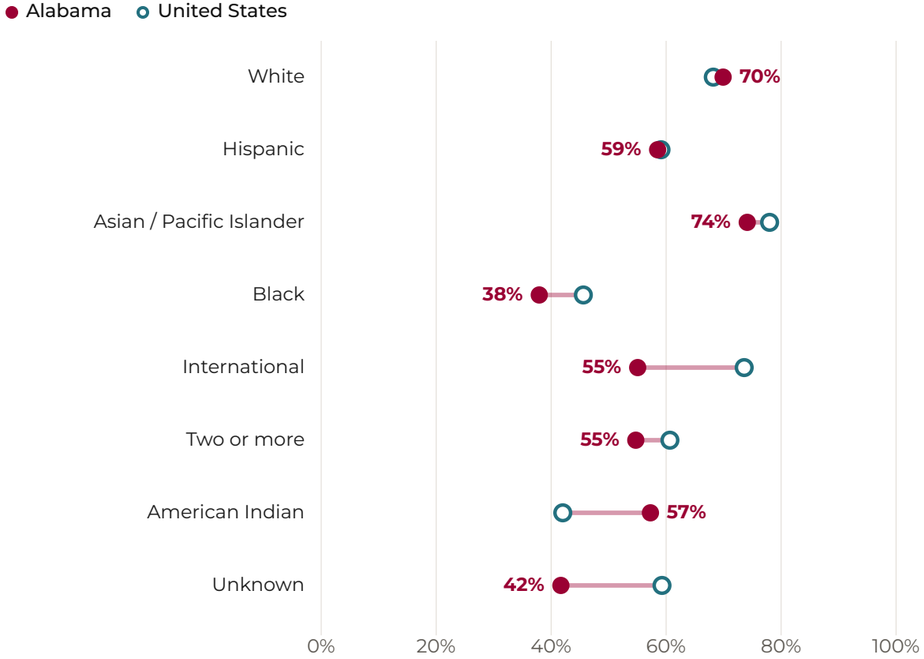

Each row is the six-year bachelor's graduation rate for one racial or ethnic group of students at Alabama's four-year institutions (filled dot), against the national rate for the same group (open dot). Groups with fewer than 100 students in the cohort are left out.

**White.** The six-year rate was 70% in 2024, against 68% for the U.S.

**Hispanic.** The six-year rate was 59% in 2024, against 59% for the U.S.

**Asian / Pacific Islander.** The six-year rate was 74% in 2024, against 78% for the U.S.

## Figure 39 How Do Graduation Rates Differ by Race and Ethnicity?

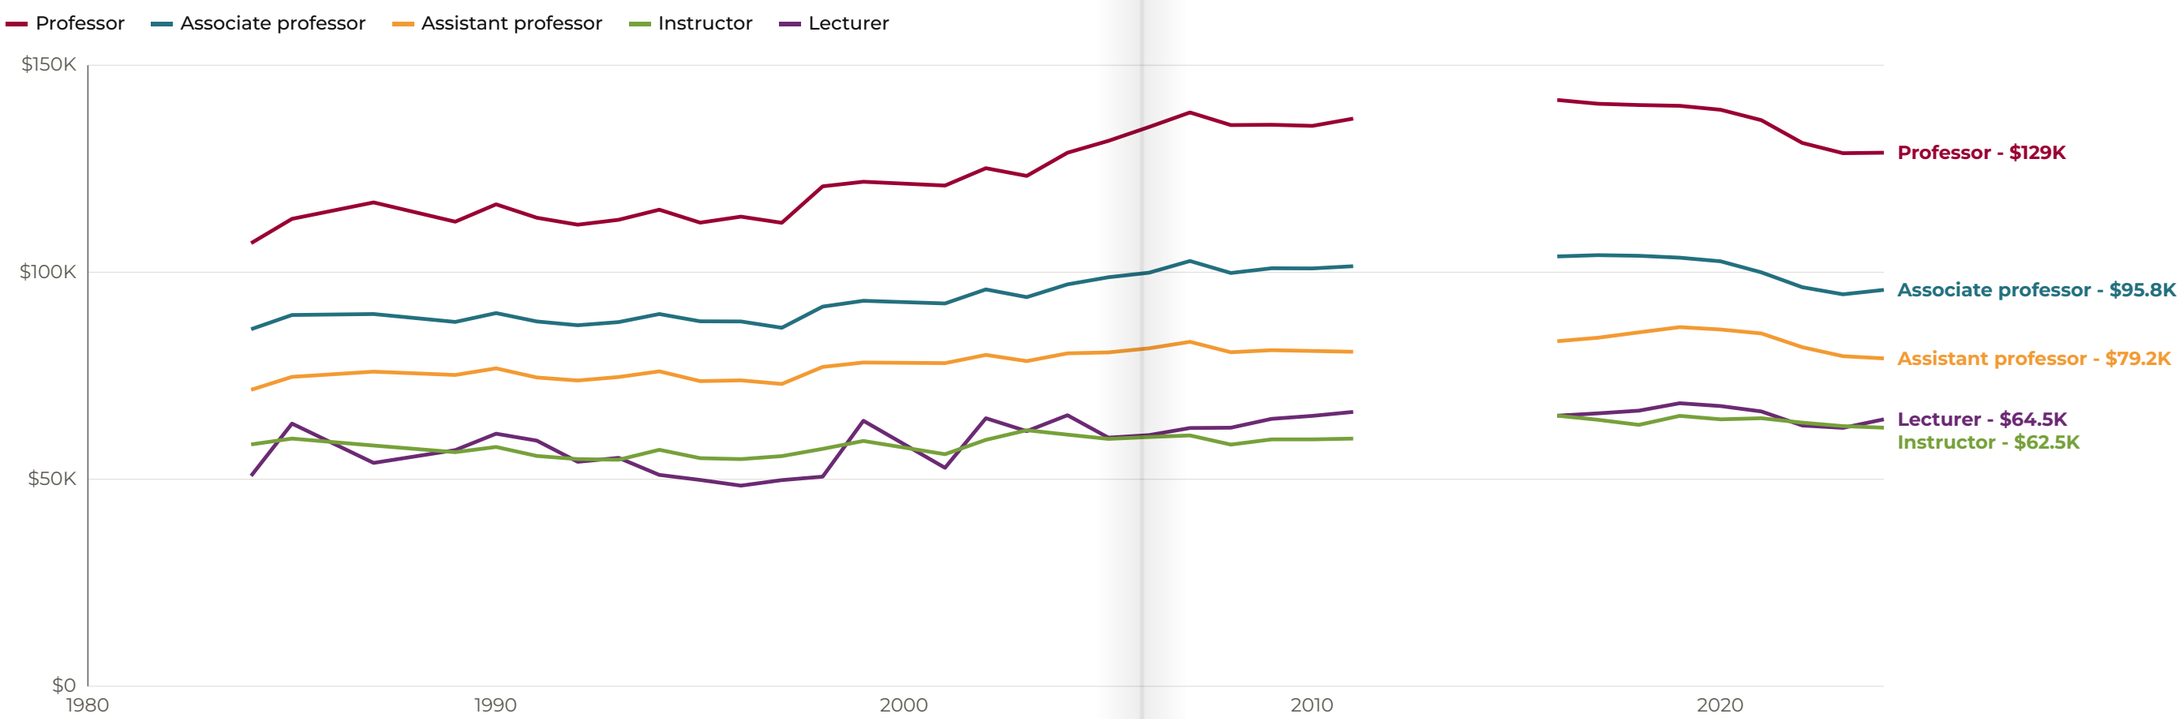

Six-year rate, 2024; groups with 100+ students. Data from NCES, IPEDS.

SECTION 15

# Faculty

Alabama ranks 37th of 51 on the average full-time faculty salary, at $86.4K in 2024 against $106K for the U.S.

## Figure 40 What Do Alabama's Faculty Earn, by Rank?

Average salary of full-time instructional faculty on 9/10-month contracts, by academic rank, 2024 dollars (CPI-U). Data from NCES, IPEDS Human Resources.

Full-time instructional faculty on 9/10-month contracts at Alabama's institutions earned an average of $86.4K in 2024 (2024 dollars), 18% below the U.S. ($106K); the state ranks 37th of 51. By rank (2024): professors $129K, associate professors $95.8K, assistant professors $79.2K, instructors $62.5K, lecturers $64.5K.

Alabama's institutions had 12.8K full-time instructional staff in 2024, up 10% since 2015. Average salary across all ranks is down 7% since 2016.

**$86.4K**

**Average faculty salary, 2024**

U.S. **$106K** · **37th** of 51 · −6.7% since 2016

SECTION 15 · FACULTY

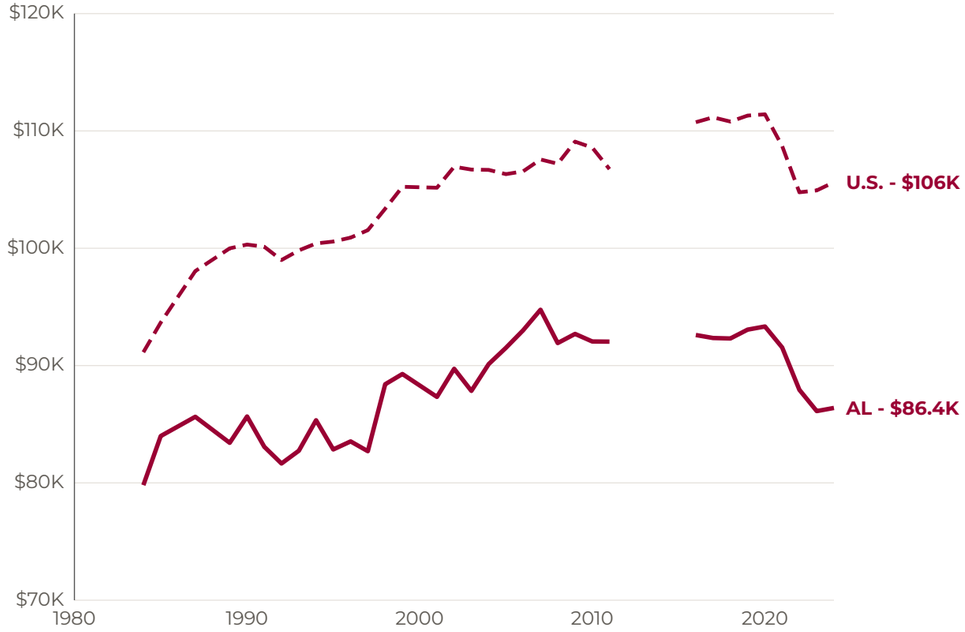

# What Do Alabama's Faculty Earn, and How Many Hold Tenure?

The line follows the average salary of full-time instructional faculty on 9- or 10-month contracts at Alabama's degree-granting institutions, all ranks combined, in 2024 dollars (CPI-U). The state is solid and the United States dashed.

**Average salary.** The figure was $86.4K in 2024, against $106K for the U.S., 37th among the states, up 0.3% from $86.1K in 2023 and down 6.7% since 2016, when it was $92.6K.

**Full-time instructional staff.** The number was 12.8K in 2024, up 1.2% from 12.6K in 2023 and up 9.8% since 2015, when it was 11.6K.

## Figure 41 Average Faculty Salary

Full-time instructional faculty, 9/10-month, 2024 dollars. Data from NCES, IPEDS.

**$86.4K**
Average faculty salary, 2024
U.S. **$106K** · **37th** of 51

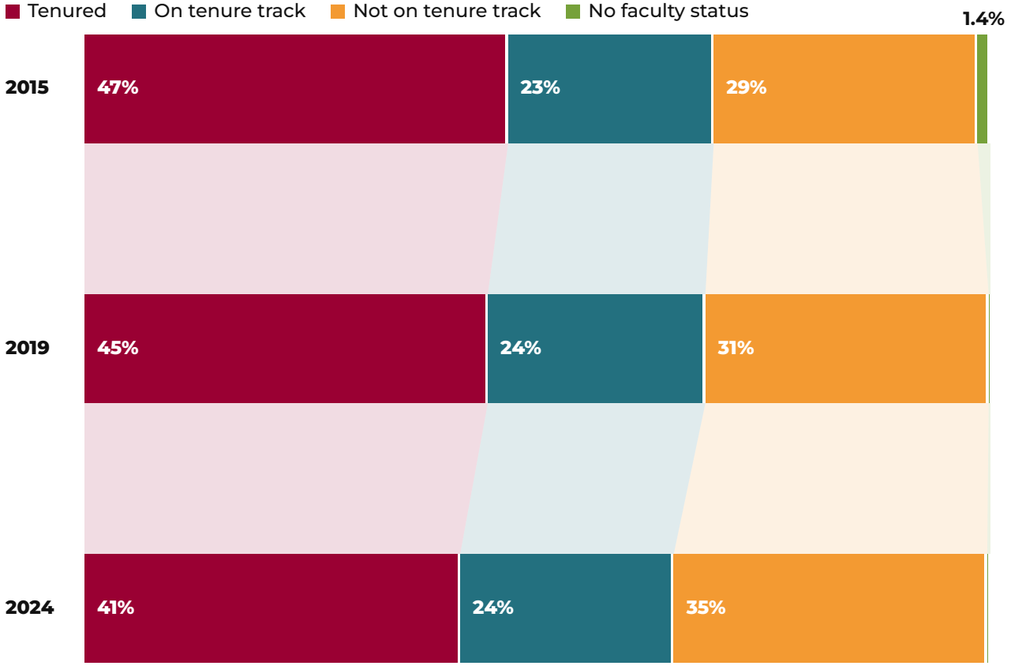

**12.8K**
Full-time instructional staff, 2024

**41%**
Tenured, 2024

The bars divide Alabama's full-time instructional staff by tenure status in 2015, 2019 and 2024: tenured, on the tenure track, not on the tenure track (for example, lecturers on fixed-term contracts), and staff at institutions with no tenure system.

**Tenured, share of full-time instructional staff.** The share was 41% in 2024, down 0.6 points from 42% in 2023 and down 5.3 points since 2015, when it was 47%.

## Figure 42 Tenure Status

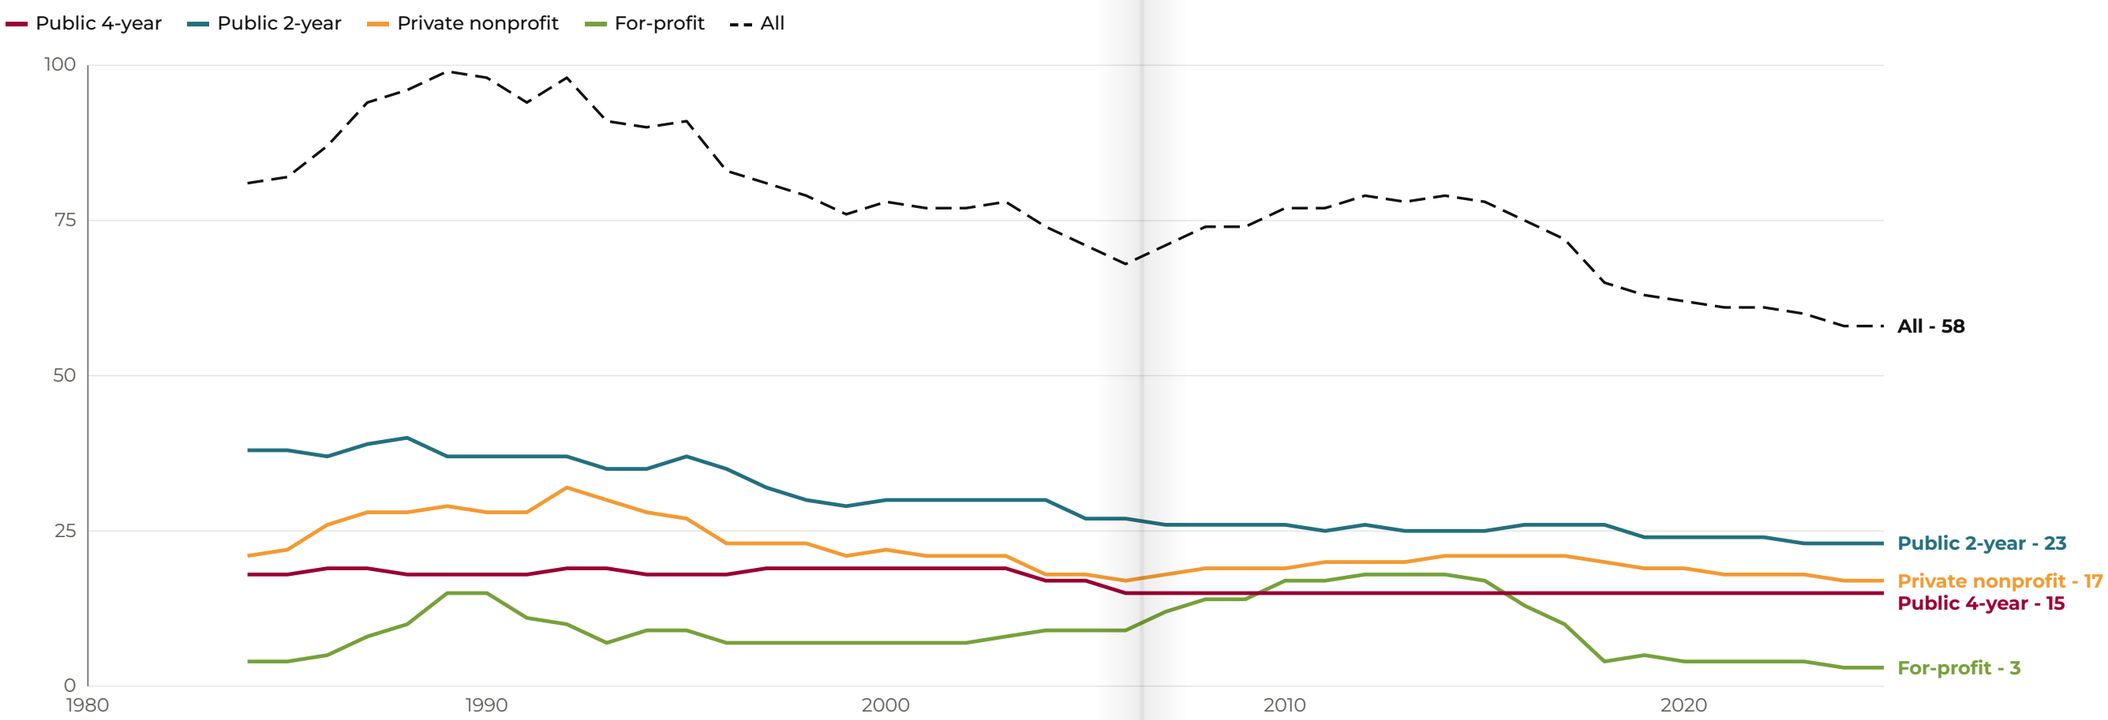

Full-time instructional staff by tenure status, 2015, 2019, 2024. Data from NCES, IPEDS.

SECTION 16

# Institutions

Alabama ranks 11th of 51 on the share of enrollment at for-profit institutions, at 6.0% in 2024 against 5.5% for the U.S.

## Figure 43 How Many Institutions Does Alabama Have?

Degree-granting institutions by sector. Data from NCES, IPEDS.

Alabama has 58 degree-granting institutions:15 public 4-year, 23 public 2-year, 17 private nonprofit, 3 for-profit (2025).

The number of institutions is down 26% since 2015. 87% of students attend public institutions and 6.0% attend for-profit ones.

SECTION 16 · INSTITUTIONS

# Which Institutions Lead in Alabama?

The table ranks institutions in Alabama by the STEM master's degrees and research doctorates they awarded to international students in 2025, the two counted together. The share columns give international students' share of each institution's STEM degrees at that level.

**Largest.** Auburn University at Montgomery (636 international STEM master's degrees and – doctorates), University of Alabama at Birmingham (461 international STEM master's degrees and 38 doctorates), and Auburn University (161 international STEM master's degrees and 86 doctorates) awarded the most.

## Table 7 Which Institutions Train the Most International STEM Graduates?

| Institution | STEM total | STEM master's | Int. share | STEM doctorates | Int. share |
|---|---|---|---|---|---|
| Auburn University at Montgomery<br>Montgomery · Public 4-year | **636** | 636 | 98% | – | – |
| University of Alabama at Birmingham<br>Birmingham · Public 4-year | **499** | 461 | 57% | 38 | 37% |
| Auburn University<br>Auburn · Public 4-year | **247** | 161 | 31% | 86 | 58% |
| The University of Alabama<br>Tuscaloosa · Public 4-year | **125** | 66 | 28% | 59 | 58% |
| University of Alabama in Huntsville<br>Huntsville · Public 4-year | **70** | 54 | 20% | 16 | 39% |
| University of South Alabama<br>Mobile · Public 4-year | **50** | 43 | 40% | 7 | 39% |
| Troy University<br>Troy · Public 4-year | **29** | 29 | 48% | – | – |
| Alabama A & M University<br>Normal · Public 4-year | **8** | 8 | 13% | – | –% |

Ranked by the total (shaded) of international STEM master's degrees and research doctorates. Degrees awarded in 2025. Data from NCES, IPEDS.

**58**
Degree-granting institutions, 2025

**87%**
Students at public institutions, 2024
U.S. **73%** · **13th** of 51

**6.0%**
Students at for-profit institutions, 2024
U.S. **5.5%** · **11th** of 51

**29%**
Students fully online, 2024
U.S. **27%** · **18th** of 51

The table lists Alabama's largest degree-granting institutions by fall 2024 headcount enrollment, with the international share of graduate students, STEM bachelor's degrees awarded in 2025, the six-year graduation rate and the admission rate (a dash where the institution admits all applicants or does not report one).

**Largest.** The three largest were The University of Alabama (40.8K students), Auburn University (34.1K students), and University of Alabama at Birmingham (20.9K students).

**Degree-granting institutions.** The state had 58 in 2025, and 57 of them reported the enrollment and degree data in these tables.

## Table 8 What Are Alabama's Largest Institutions?

| Institution | Enrollment | Int. share, grad | STEM bachelor's | Six-year grad rate | Admit rate |
|---|---|---|---|---|---|
| The University of Alabama | **40.8K** | 13% | 1.12K | 73% | 77% |
| Auburn University | **34.1K** | 21% | 2.18K | 82% | 46% |
| University of Alabama at Birmingham | **20.9K** | 17% | 772 | 64% | 88% |
| Columbia Southern University | **17.8K** | 0.1% | 1.29K | 26% | – |

| John C Calhoun State Community College | **9.12K** | – | – | – | – |

Fall 2024 enrollment; degrees 2025. Data from NCES, IPEDS.

NOTES

# About These Data

### International students

U.S. nonresidents on temporary visas, as IPEDS defines them. IPEDS does not record country of citizenship. Permanent residents count with U.S. citizens.

### STEM

CIP families 03, 04, 11, 14, 15, 26, 27 and 40. Doctorates are research and scholarship doctorates; professional doctorates appear only in the degree-count figure. Degrees are first majors only.

### Universe

Degree-granting institutions located in the state; Title IV participants from 1996. Geography is the institution's location, not the student's home. Enrollment is fall headcount.

### Migration

First-time degree-seeking undergraduates by home state, reported in even years before 2001 and every year since; odd years with incomplete reporting are omitted. Net migration is students arriving from other states minus residents leaving, per 100 resident first-time students.

### Money

Tuition, appropriations, revenue and faculty salaries are in 2024 dollars using the CPI-U. Research funding (HERD, Federal Funds, USAspending), wages and the NAFSA economic contribution are nominal dollars, and are labeled so. Appropriations and revenue are per full-time-equivalent student at public institutions; the tuition share divides net tuition by net tuition plus state and local appropriations.

### Race and ethnicity

IPEDS did not collect race and ethnicity in every year before 2010, and categories changed in 2008–2010; “Two or more” exists only from then.

### Countries of citizenship

From DHS SEVIS by the Numbers: active F-1 and M-1 student records in the month named, at every level from primary school to doctorate, by the state of the school. IPEDS records only whether a student is a U.S. nonresident, not where they come from. SEVIS counts are monthly snapshots and are not directly comparable with IPEDS fall enrollment or degree counts. Year-to-year comparisons use one fall snapshot per year (the month closest to November).

### Peers

Comparison states are the four closest in total fall enrollment, measured proportionally: a state 1.5 times as large counts as near as one two-thirds the size.

### Sources

IPEDS (National Center for Education Statistics) is the backbone: Institutional Characteristics, Fall Enrollment, Completions, Graduation Rates, Finance, Human Resources and Admissions, 1980–2025, harmonized into a state panel. The profile also draws on NAEP, NSF's Survey of Graduate Students and Postdoctorates, Survey of Earned Doctorates, HERD and Federal Funds surveys, USAspending.gov, DHS SEVIS by the Numbers and ICE SEVIS releases, the Department of Labor's Office of Foreign Labor Certification and BLS wage data, the USCIS H-1B Employer Data Hub, the Census Bureau's American Community Survey and Post-Secondary Employment Outcomes, USPTO PatentsView, and other federal sources; every figure names its source, and the Sources page lists them in full. Generated November 2026.

NOTES

# How the Numbers Are Counted

### Ranks

Ranks are among the 50 states and the District of Columbia (1 = highest value, whether or not a high value is good). Where fewer than 51 report, the count is given ("23rd of 33").

### Sectors

Sectors are as IPEDS classifies institutions each year. IPEDS moves a whole institution to "public, 4-year or above" once it awards any bachelor's degree, so community colleges that began offering applied bachelor's degrees carry all of their students into the public 4-year sector. Sector series (enrollment shares, public 4-year tuition, graduation rates by sector) reflect these moves.

### Research doctorates

Two counts appear. IPEDS counts degrees institutions report as "doctor's degree, research/scholarship", which includes some practice-oriented degrees such as many Ed.D.s; the NSF Survey of Earned Doctorates counts research doctorate recipients and is smaller. Each figure names which it uses. "STEM master's per STEM research doctorate" divides IPEDS STEM master's degrees by IPEDS STEM research doctorates.

### Engineering

"Engineering" alone is CIP 14. Where engineering technology (CIP 15) is added, the label says "engineering & eng. technology".

### Graduation rates

IPEDS graduation rates follow first-time, full-time students and count only those who finish at the institution where they started, so they leave out part-time starters and students who transfer and finish elsewhere.

### International students in SEVIS

SEVIS counts active F-1 and M-1 records, which include graduates on Optional Practical Training (up to 36 months for STEM graduates, 12 for others), so STEM shares run high. STEM follows the DHS STEM Designated Degree Program List, which is broader than the eight CIP families above, and DHS draws its STEM pages on a different basis from its all-student pages, so a country's STEM count can exceed its all-level count.

### Visas and green cards

DOL labor condition applications (H-1B positions) are counted by worksite and include renewals and job changes; USCIS approvals are counted by the employer's address and split into new and continuing. PERM certifications are the employer's step toward a green card.

### Patents

Patents are counted by the owner's (assignee's) location, not where inventors live; a company headquartered in another state takes its patents there.

### Years

Each measure uses its latest year, so years differ across a page; every figure, table and statement gives its year, and lines that stop early are labeled with their last year.

# Alabama – By the Numbers
