Authors

Emerson Victoria Johnston is a research assistant with the Hoover Institution's Technology Policy Accelerator. A Knight-Hennessy Scholar, she holds a master's in international policy from Stanford University, and is on leave from its master's program in the history of science, technology, environment, and medicine.

Dr. Amy Zegart is the Morris Arnold and Nona Jean Cox Senior Fellow at the Hoover Institution, director of Hoover's Technology Policy Accelerator, and a senior fellow and associate director at Stanford University's Institute for Human-Centered Artificial Intelligence.

Data come from the Integrated Postsecondary Education Data System (IPEDS), the Department of Homeland Security's SEVIS by the Numbers, the National Assessment of Educational Progress, NSF's Survey of Graduate Students and Postdoctorates and Survey of Earned Doctorates, the Department of Labor's Office of Foreign Labor Certification, the USCIS H-1B Employer Data Hub, the Census Bureau's American Community Survey and USPTO patent data via PatentsView, processed in Python; every figure and table is generated from those sources, and each one names its source.

About This Profile

This profile is a companion to *The 2026 US Talent Report: Benchmarking America's STEM Pipeline Amid the Great Talent Competition*. It applies the report's measures to Arkansas: the students the state develops at home, those it draws from abroad, and how both compare with the nation and with the states closest to it in size.

Degrees, enrollment, prices, outcomes and faculty come from IPEDS, the federal census of U.S. colleges and universities, harmonized across 1980–2025. Countries of citizenship come from SEVIS by the Numbers, the Department of Homeland Security's monthly count of active F-1 and M-1 students. Each figure names its source. Peer states are the four closest in total fall enrollment.

Public Data and Tools

The data behind every chart come from federal sources: the Integrated Postsecondary Education Data System (IPEDS), published by the National Center for Education Statistics, as the backbone, together with NAEP, NSF's surveys of graduate students, doctorates and research funding, USAspending.gov, DHS and ICE SEVIS data, the Department of Labor, USCIS, the Census Bureau's American Community Survey and Post-Secondary Employment Outcomes, and USPTO PatentsView. Each figure names its source, and the Sources page lists all of them. An interactive version of this profile accompanies the report.

AT A GLANCE

What Arkansas's numbers say

1. **International students earn 65% of Arkansas's STEM master's degrees,** 13.0 points above the U.S. (52%) in 2025, ranking 6th of 51 on dependence. The share is 58% for STEM research doctorates (U.S. 43%) and 5.2% for STEM bachelor's (U.S. 6.6%).
2. **Arkansas awarded 918 STEM master's degrees to international students in 2025,** 0.8% of the U.S. total and 27th of 51 among states. Since 2015 the count changed 6.2×, against 2.2× nationally.
3. **The heaviest dependence is in computer & info sciences,** where international students earned 87% of master's degrees (861 degrees; U.S. 65%). One STEM field with at least 50 master's graduates is majority-international.
4. **Among states of similar size,** Arkansas ranks 1st of 5 on the international share of STEM master's: Arkansas 65%, Mississippi 48%, Nebraska 25%, West Virginia 10%, Idaho 18%.
5. **70% of Arkansas's first-time students in fall 2024 were state residents** and 2.6% came from abroad. More students arrived from other states (7.13K) than residents left (3.71K), a net gain of 3.42K; the top destination for those leaving was Missouri.

65%

of the STEM master's degrees Arkansas awards go to international students (U.S. 52%).

SECTION 1

International Dependence

Arkansas ranks 6th of 51 on the international share of STEM master's, at 65% in 2025 against 52% for the U.S.

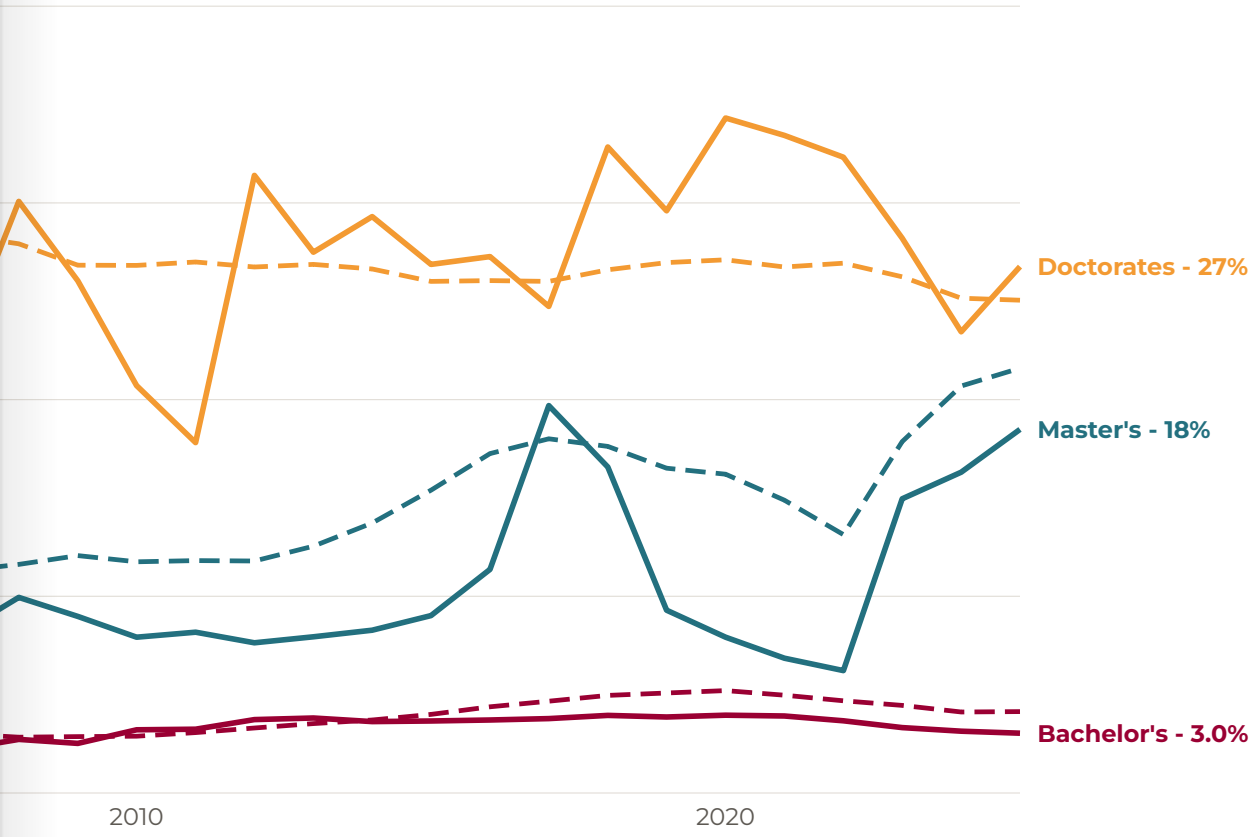

Figure 1 What Share of Arkansas's Degrees Go to International Students?

International share of degrees awarded, all fields; state solid, U.S. dashed. Data from NCES, IPEDS Completions, 1985–2025

International students make up 10% of Arkansas's graduate enrollment and 2.3% of its undergraduates. Dependence climbs with each degree: 3.0% of bachelor's, 18% of master's and 27% of research doctorates go to international students.

In STEM the shares are higher still: 5.2% of STEM bachelor's, 65% of STEM master's and 58% of STEM doctorates. The state awards 0.8% of all U.S. international STEM master's, 27th of 51.

SECTION 1 · INTERNATIONAL DEPENDENCE

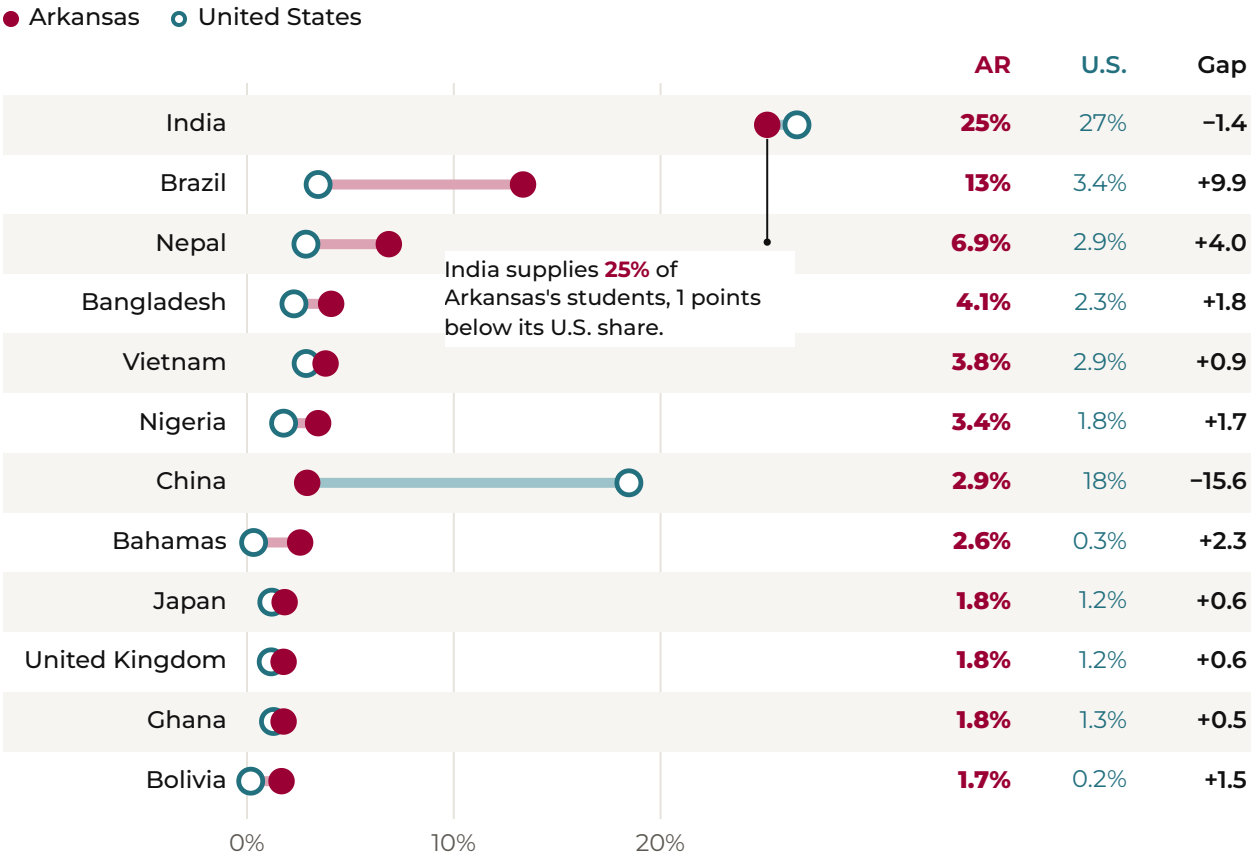

How Does Arkansas's Mix of Countries Compare With the Nation's?

In October 2026, Arkansas had **6.67K** active F-1 and M-1 students, 35th among the 50 states and DC and **0.6%** of the U.S. total. They came from 143 countries.

India supplied **25%** of them, against 27% nationally, and Brazil **13%**, against 3.4%. Nepal (6.9%), Bangladesh (4.1%), and Vietnam (3.8%) followed.

Together the two largest countries supplied **39%** of the state's international students (U.S. 45%), 27th among the states, against 35% in 2015.

Figure 3 Is Arkansas's Mix of Countries Like the Nation's?

The state's count is down 6.9% from 2025 and up 8.7% since 2015, when it stood at 6.13K. Its share of all U.S. international students is unchanged since 2015, at **0.6%**.

Since 2015, the number of students from India went from 1.13K to 1.68K, Brazil's from 79 to 890, and Nepal's from 100 to 457.

Over the same years, the number from Bangladesh went from 82 to 271 and Vietnam's from 190 to 253. The table gives each country's count for the first, previous and latest years.

Table 1 International Students in Arkansas, 2015–2026

	2015	2025	2026	Change since 2015	U.S. 2026	Rank

SECTION 1 · INTERNATIONAL DEPENDENCE

How International Are Arkansas's Master's Fields?

Each row is a master's field with at least 30 graduates in Arkansas in 2025, ranked by the share of degrees earned by international students (U.S. nonresidents on temporary visas). The filled dot is the state's share; the open dot is the national share for the same field.

Highest international shares. International students earned the largest shares of master's degrees in computer & info sciences (87%, against 65% for the U.S.), engineering (31%, against 49% for the U.S.), and engineering technology (30%, against 54% for the U.S.).

Figure 5 Which Master's Fields Depend Most on International Students?

International share of master's degrees by field, 2025; fields with 30+ graduates. Data from NCES, IPEDS Completions.

18%
Int. share of all master's, 2025
U.S. **22%** · **22nd** of 51

65%
Int. share of STEM master's, 2025
U.S. **52%** · **6th** of 51

87%
Int. share of CS master's, 2025
U.S. **65%** · **5th** of 47

The table gives the international share of degrees in each STEM field at three levels: Arkansas first, the United States after the slash. The master's column is highlighted. A dash means the state awarded no degrees in the field at that level.

Highest international share among STEM master's fields. International students earned 87% of the master's degrees in computer & info sciences, against 65% for the U.S.

Fields with an international majority. International students earned more than half of the master's degrees in one STEM field.

Table 2 How International Is Each STEM Field?

Field	Bachelor's	Master's	Doctorates
Computer & info sciences	8.0% / 8.6%	**87% / 65%**	– / 56%
Engineering	7.7% / 7.2%	**31% / 49%**	59% / 55%
Engineering technology	5.1% / 4.5%	**30% / 54%**	– / 42%
Math & statistics	5.1% / 17%	**28% / 55%**	– / 53%
Physical sciences	4.0% / 6.0%	**46% / 33%**	59% / 38%
Biological sciences	3.1% / 3.4%	**16% / 23%**	71% / 23%
Natural resources	2.1% / 2.0%	**65% / 17%**	– / 27%
Architecture	0.6% / 7.3%	**– / 29%**	– / 55%

International share in Arkansas / U.S., 2025. Data from NCES, IPEDS Completions.

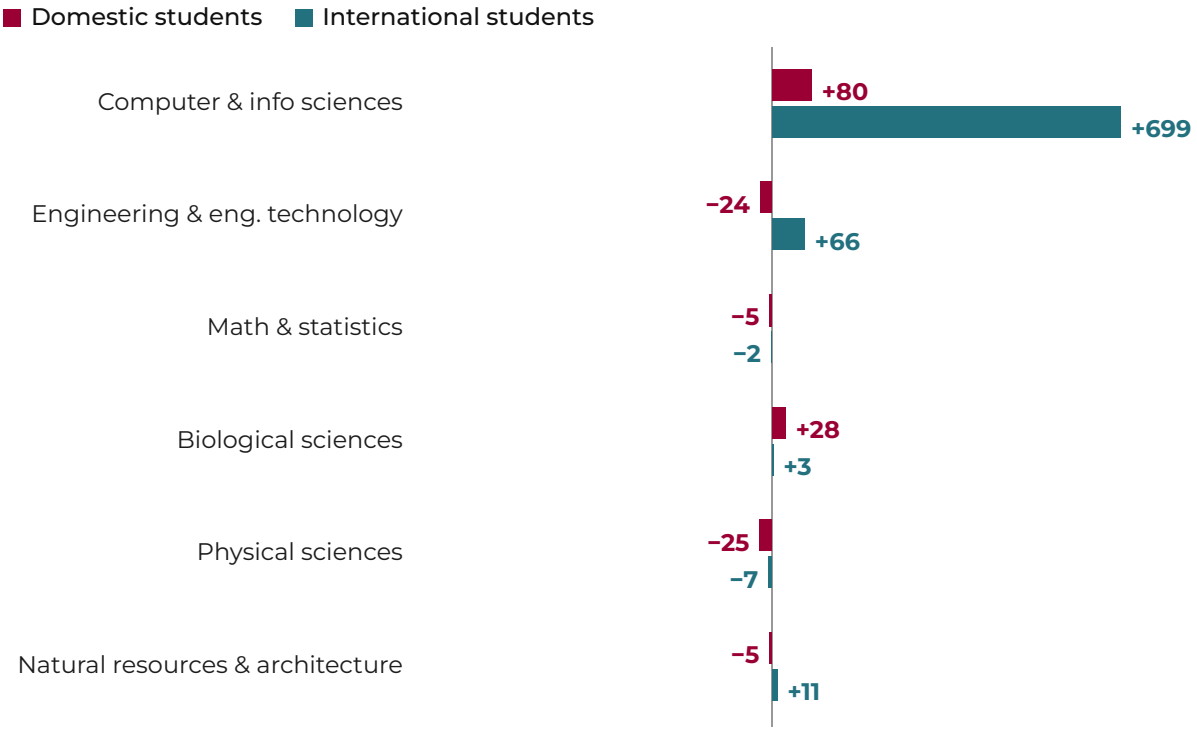

SECTION 1 · INTERNATIONAL DEPENDENCE

How Has Arkansas's STEM Master's Output Grown?

Each pair of bars is the change in the number of STEM master's degrees awarded in Arkansas between 2015 and 2025 in one field: to domestic students (U.S. citizens and permanent residents) and to international students. Bars to the left of the axis are declines.

STEM master's degrees. The state awarded 1.41K in 2025 and 592 in 2015, a change of +770 for international students and +49 for domestic students.

Figure 6 Where Did the STEM Master's Growth Come From?

Change in STEM master's degrees by field, 2015–2025. Data from NCES, IPEDS Completions.

SECTION 2

STEM Degrees

Arkansas ranks 48th of 51 on the STEM share of bachelor's, at 17% in 2025 against 24% for the U.S.

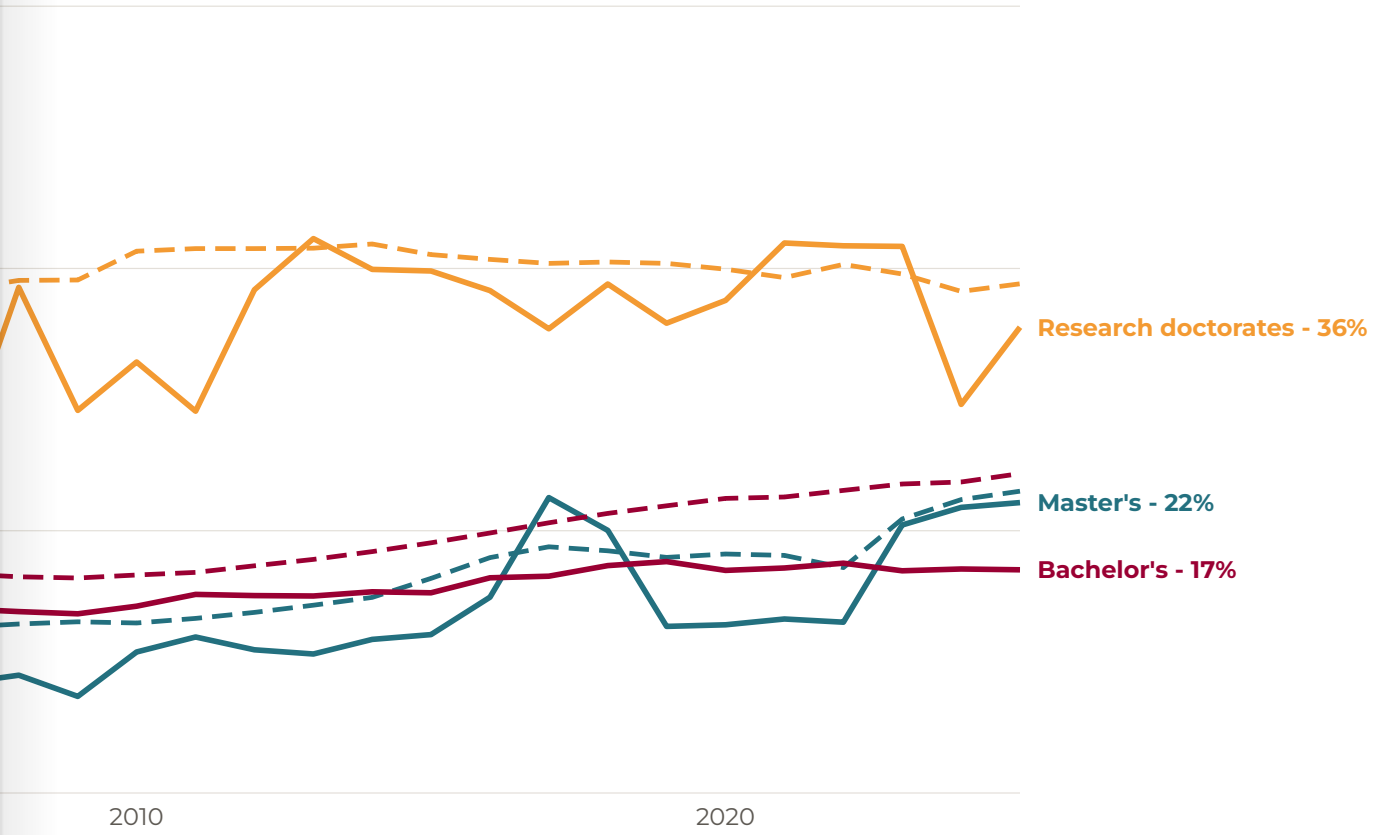

Figure 7 How Much of Arkansas's Degree Output Is STEM?

STEM share of degrees by level; state solid, U.S. dashed. Data from NCES, IPEDS Completions.

STEM fields account for 17% of Arkansas's bachelor's degrees, 22% of its master's and 36% of its research doctorates (U.S. 24%, 23% and 39%).

The STEM share of master's degrees is up 10.1 points since 2015, and the state ranks 21st of 51 on it. On the STEM share of bachelor's degrees it ranks 48th of 51.

SECTION 5

Graduate Research

Arkansas ranks 3rd of 51 on the temporary-visa share of S&E graduate students, at 50% in 2016 against 39% for the U.S.

Figure 15 How Many of Arkansas's Science and Engineering Graduate Students Hold Te

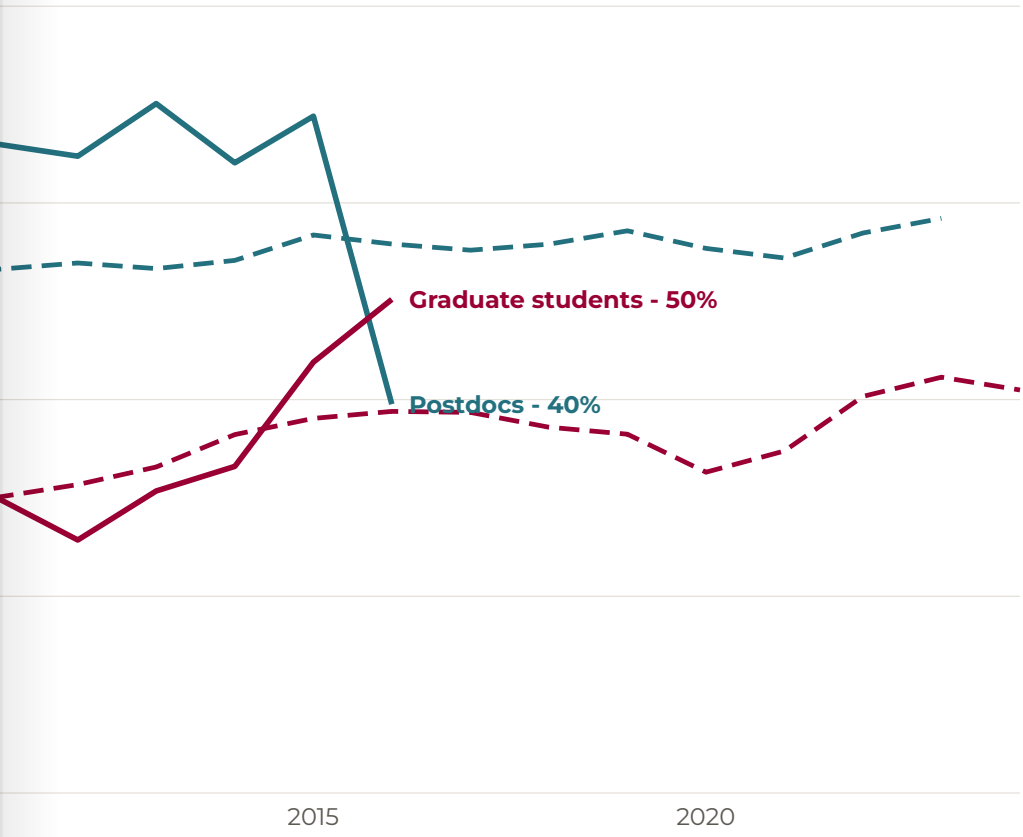

Temporary-visa share of science and engineering graduate students and postdoctoral appointees, by the institution's sta
Students and Postdoctorates.

In 2016, the last year NSF published state tables, 50% of Arkansas's science and engineering graduate students held temporary visas (U.S. 39%; 3rd of 51).

Among postdoctoral researchers, the share was 40% (U.S. 56%). Postdocs are the stage of research training most dependent on international talent, and IPEDS does not count them.

The state's institutions awarded 242 research doctorates in 2025, 0.4% of the U.S. total (Data from NSF NCSES, Survey of Earned Doctorates; NSF publishes doctorates by citizenship only for the nation).

SECTION 8

H-1B Jobs and Green Cards

Arkansas ranks 45th of 51 on the share of PERM certifications for workers on F-1 student visas, at 4.0% in 2024 against 8.7% for the U.S.

Figure 18 How Many Skilled-Visa Jobs and Green-Card Certifications Does Arkansas Ge

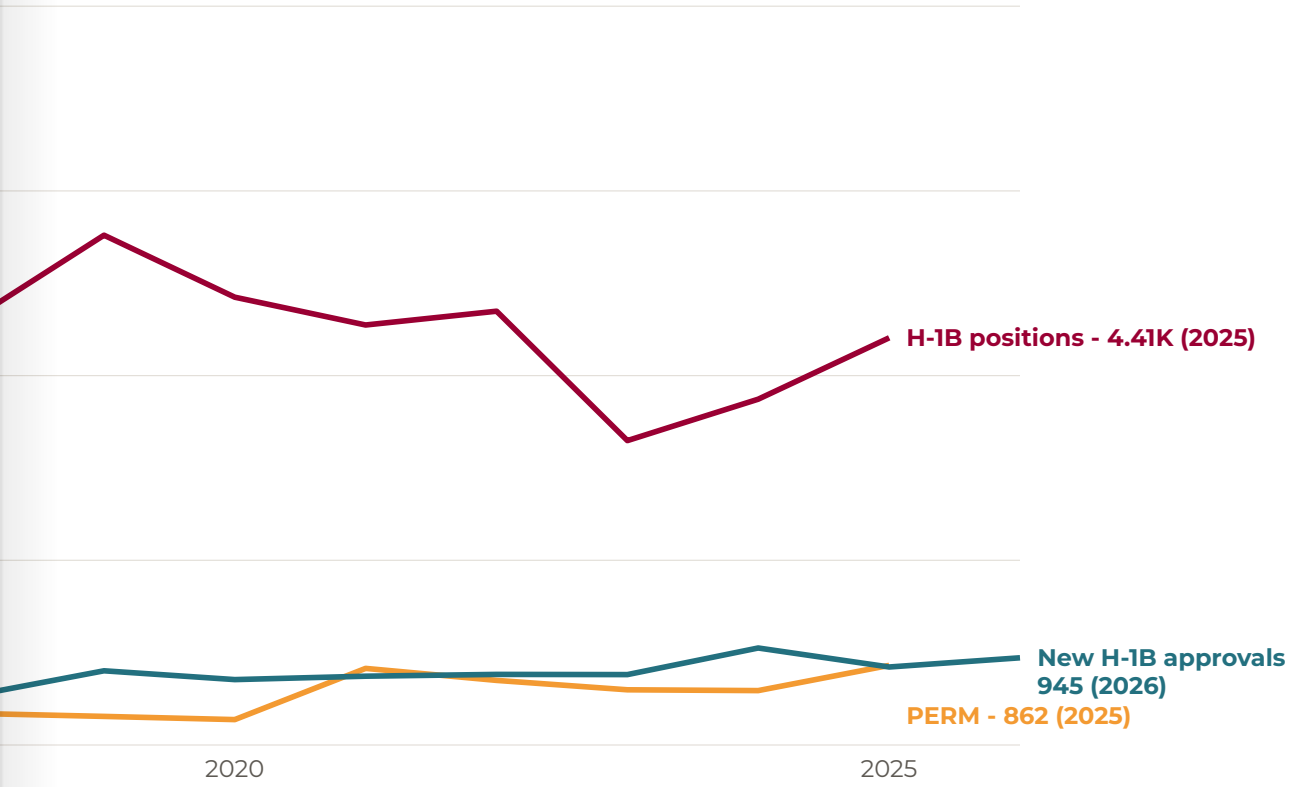

Certified H-1B positions on labor condition applications by worksite and certified PERM green-card applications, by fiscal
from USCIS, H-1B Employer Data Hub).

Employers were certified for 4.41K H-1B positions at Arkansas worksites in FY2025, 26th of 51 among the states. A labor condition application comes before the petition and covers renewals and job changes as well as new hires, by the worksite's state, so it runs well above approvals. USCIS approved 945 new H-1B petitions in FY2026 and 2.37K continuing ones, counted by the employer's address.

DOL certified 862 PERM applications, the employer's step toward an employment-based green card, for jobs in the state in FY2025. In FY2024, 4.0% were for workers still on F-1 student visas (U.S. 8.7%): the most direct link from classroom to permanent residence.

SECTION 12

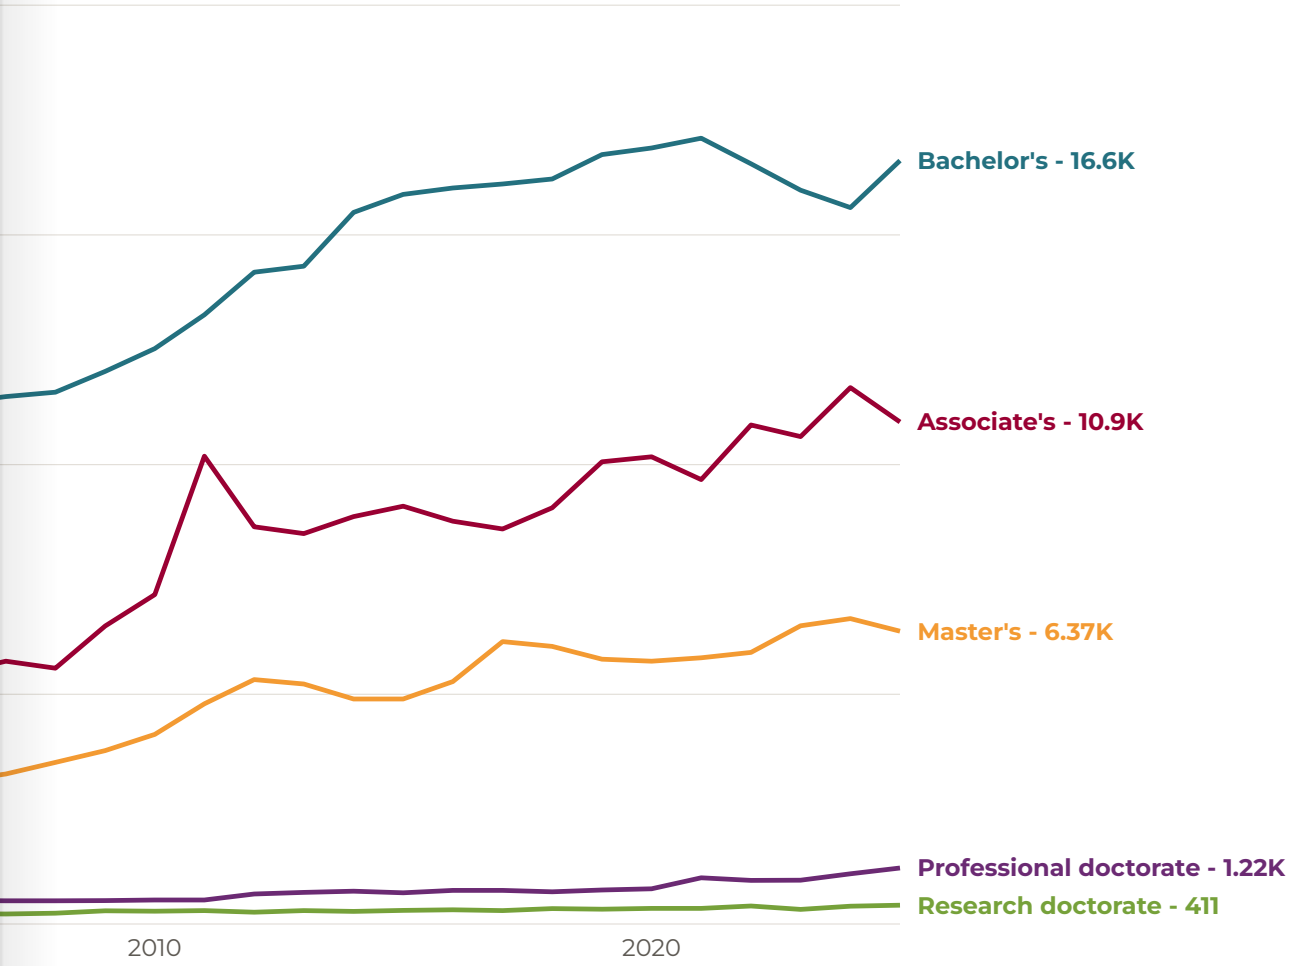

Fields of Study

Figure 27 How Many Degrees Does Arkansas Award?

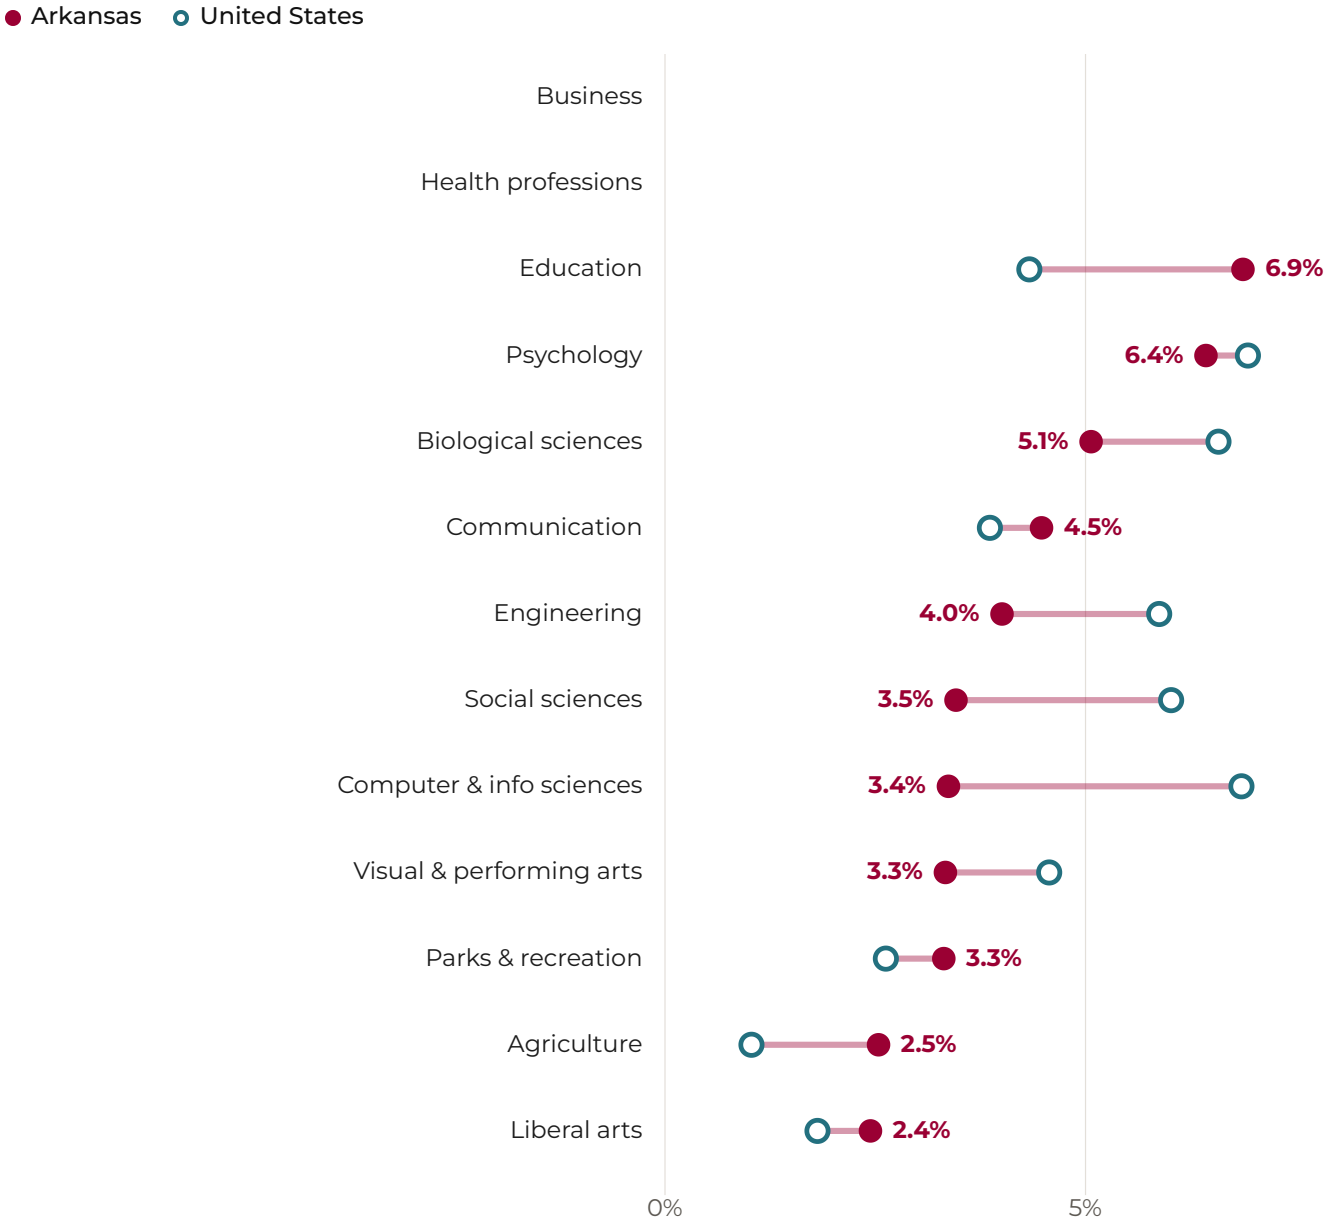

Degrees awarded by level, first majors. Data from NCES, IPEDS Completions.

In 2025, Arkansas's institutions awarded 10.9K associate's degrees, 16.6K bachelor's degrees, 6.37K master's degrees, 411 research doctorate degrees, 1.22K professional doctorate degrees.

Since 2015: associate's up 20%; bachelor's up 5%; master's up 30%; research doctorate up 40%; professional doctorate up 80%. The state awards 12.2 bachelor's degrees for every 100 undergraduates (U.S. 12.3).

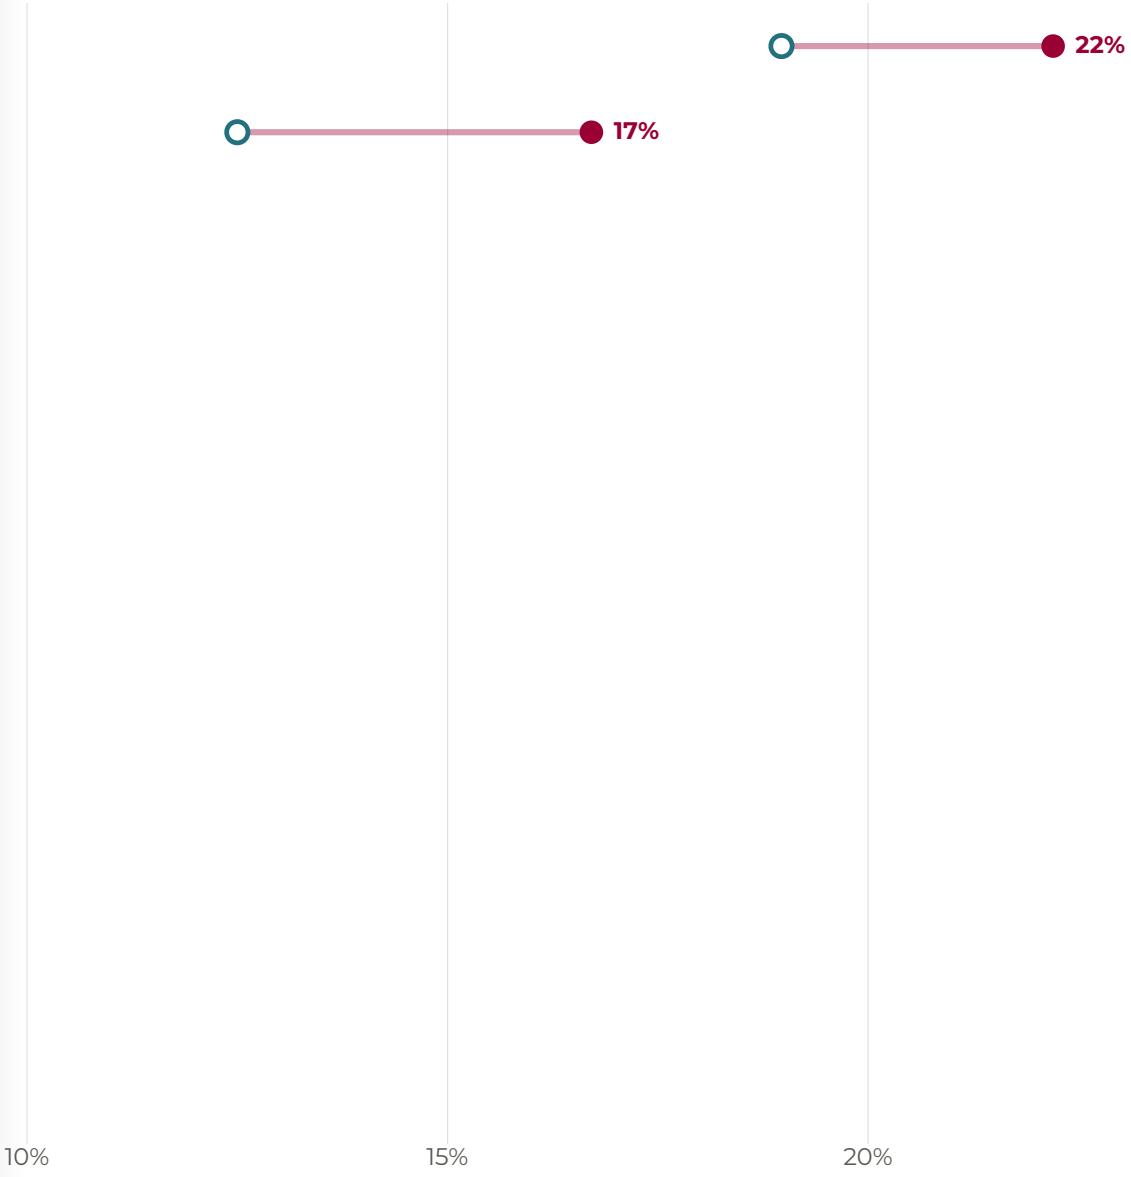

Figure 28 What Do Arkansas's Bachelor's Graduates Study?

Share of bachelor's degrees by field, 2025. Data from NCES, IPEDS.

Arkansas's largest bachelor's fields are business (22%; U.S. 19%), health professions (17%; U.S. 13%), education (6.9%; U.S. 4.3%).

Relative to the nation, Arkansas's bachelor's degrees are most concentrated in agriculture (2.47× the U.S. share), family & consumer sci. (2.46× the U.S. share), architecture (1.69× the U.S. share).

Figure 30 How Has Arkansas's Bachelor's Field Mix Changed?

Share of bachelor's degrees in the largest fields. Data from NCES, IPEDS Completions.

Since 2015, health professions has gained the most ground, 4.0 points of the state's bachelor's degrees, while education lost the most (2.4 points).

The chart follows the share of bachelor's degrees in each of the state's largest fields; smaller fields are grouped as other fields.

SECTION 12 · FIELDS OF STUDY

Where Is Arkansas Most Specialized?

The location quotient divides a field's share of Arkansas's bachelor's degrees by its share of all U.S. bachelor's degrees in 2025. A quotient of 1.00 means the same share as the nation; 2.00 means twice the national share. The table lists the 10 fields with the highest quotients among fields with at least 50 degrees.

Highest location quotients. Agriculture (2.47, with 2.5% of the state's bachelor's degrees against 1.0% for the U.S.), family & consumer sci. (2.46, with 2.0% of the state's bachelor's degrees against 0.8% for the U.S.), and architecture (1.69, with 1.0% of the state's bachelor's degrees against 0.6% for the U.S.) had the highest quotients.

Table 5 Where Is Arkansas Most Specialized?

Field	Location quotient	State share	U.S. share	Degrees
Agriculture	**2.47**	2.5%	1.0%	422
Family & consumer sci.	**2.46**	2.0%	0.8%	336

SECTION 13 · STUDENTS AND MONEY

How Are Arkansas's Public Institutions Funded, and What Do They Produce?

The bars give each source's share of the core revenue of Arkansas's public institutions, with the nation for comparison, and at right the dollars per full-time-equivalent (FTE) student it provides. Values are in 2024 dollars (CPI-U). Net tuition is tuition and fees after institutional discounts and allowances.

Net tuition per FTE student. The figure was $6.72K in FY2024, against $8.96K for the U.S., up 0.8% from $6.66K in FY2023 and up 8.2% since FY2015, when it was $6.21K.

Figure 35 How Are Public Institutions Funded?

Share of core revenue per FTE student by source, public institutions, FY2024; dollars per FTE at right, 2024 dollars (CPI-U). Shares are of all five sources; the tuition share elsewhere in this profile divides net tuition by net tuition plus state and local appropriations only. Data from NCES, IPEDS Finance.

SECTION 14 · STUDENT OUTCOMES

How Many of Arkansas's Students Graduate?

The line follows the share of first-time, full-time bachelor's-degree students at Arkansas's four-year institutions who graduated from the institution where they started within six years (150% of normal time). Each year is the cohort that entered six years earlier. The rate leaves out students who start part-time (41% of the state's students attend part-time, against 39% nationally) and students who transfer and finish elsewhere. The state is solid and the United States dashed.

Six-year graduation rate. The rate was 54% in 2024, against 65% for the U.S., down 0.8 points from 54% in 2023 and up 10.0 points since 2015, when it was 44%.

Figure 37 Six-Year Bachelor's Graduation Rate

Each row is the six-year bachelor's graduation rate for one racial or ethnic group of students at Arkansas's four-year institutions (filled dot), against the national rate for the same group (open dot). Groups with fewer than 100 students in the cohort are left out.

White. The six-year rate was 60% in 2024, against 68% for the U.S.

Hispanic. The six-year rate was 49% in 2024, against 59% for the U.S.

Asian / Pacific Islander. The six-year rate was 70% in 2024, against 78% for the U.S.

Six-year rate, 2024; groups with 100+ students. Data from NCES, IPEDS.

SECTION 15

Faculty

Arkansas ranks 51st of 51 on the average full-time faculty salary, at $70.1K in 2024 against $106K for the U.S.

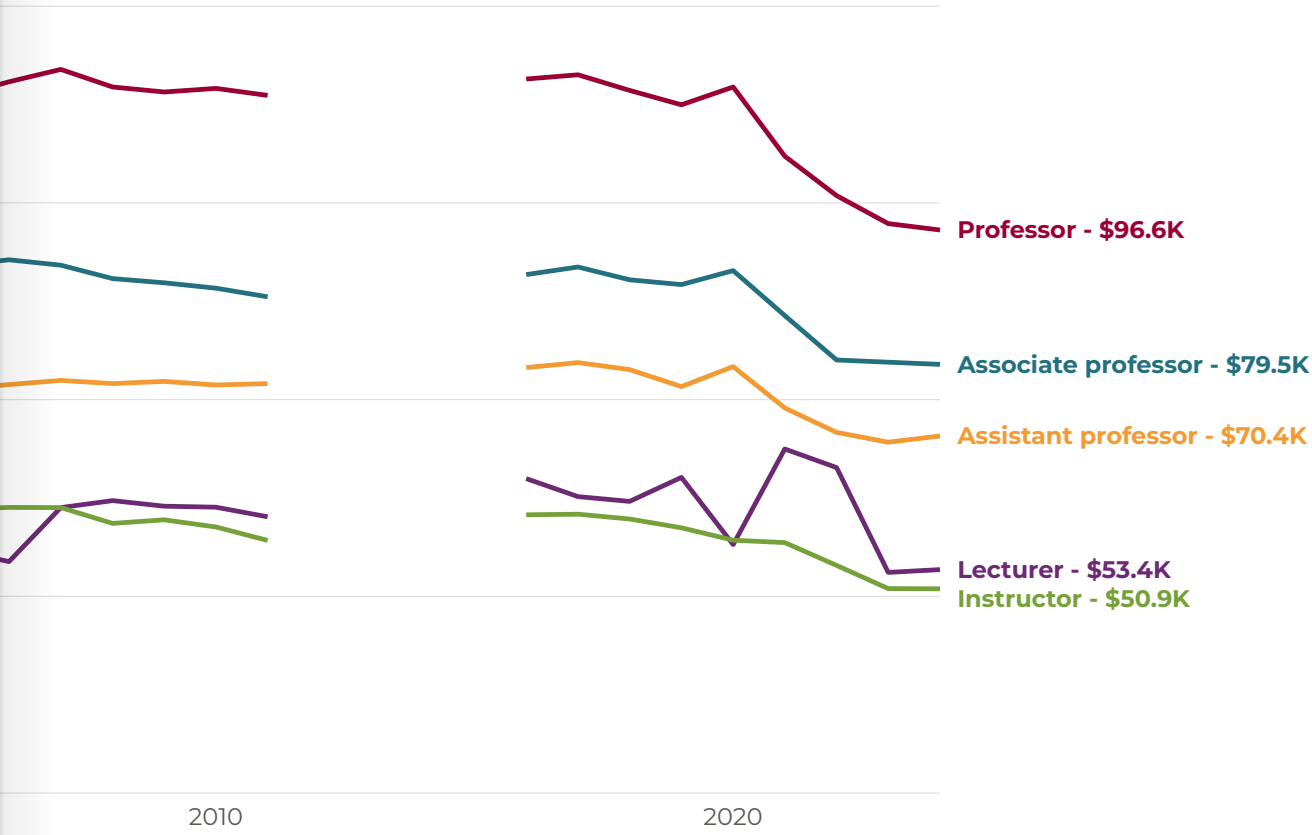

Figure 39 What Do Arkansas's Faculty Earn, by Rank?

Average salary of full-time instructional faculty on 9/10-month contracts, by academic rank, 2024 dollars (CPI-U). Data fro

Full-time instructional faculty on 9/10-month contracts at Arkansas's institutions earned an average of $70.1K in 2024 (2024 dollars), 34% below the U.S. ($106K); the state ranks 51st of 51. By rank (2024): professors $96.6K, associate professors $79.5K, assistant professors $70.4K, instructors $50.9K, lecturers $53.4K.

Arkansas's institutions had 6.47K full-time instructional staff in 2024, roughly flat since 2015. Average salary across all ranks is down 13% since 2016.

m NCES, IPEDS Human Resources.

SECTION 15 · FACULTY

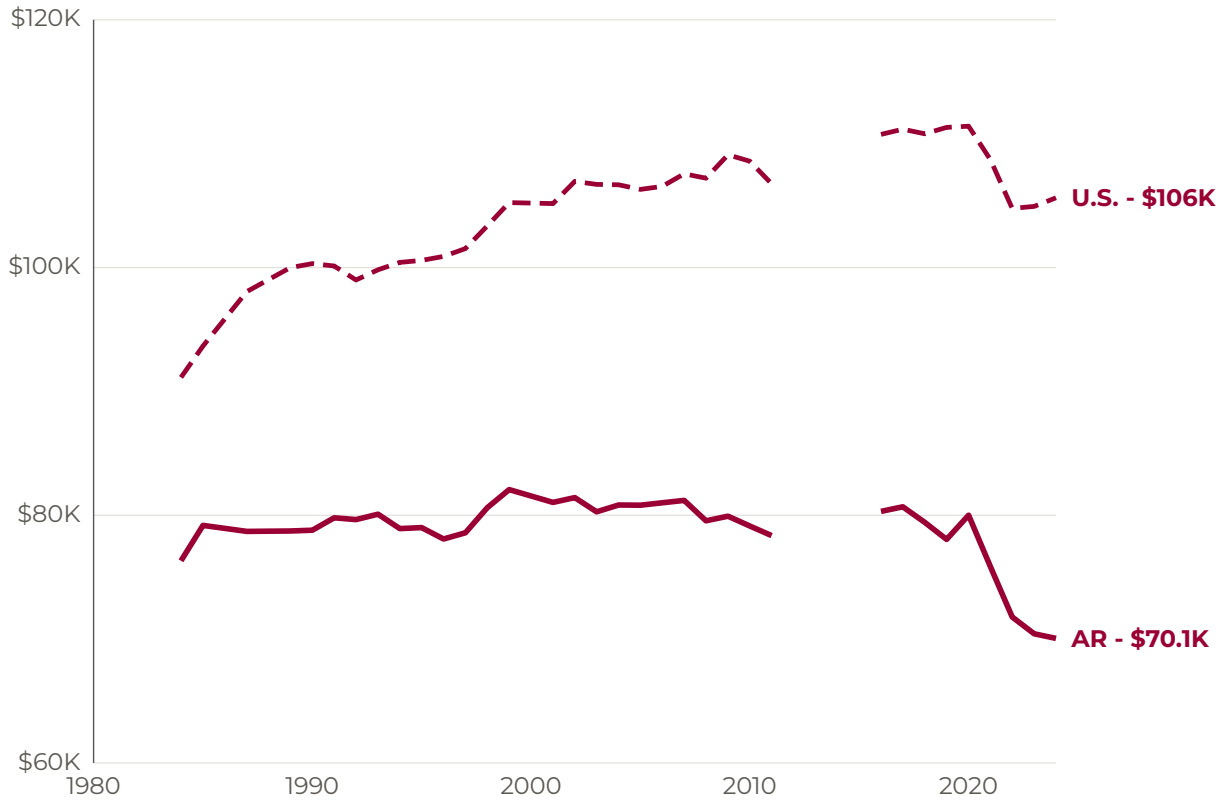

What Do Arkansas's Faculty Earn, and How Many Hold Tenure?

The line follows the average salary of full-time instructional faculty on 9- or 10-month contracts at Arkansas's degree-granting institutions, all ranks combined, in 2024 dollars (CPI-U). The state is solid and the United States dashed.

Average salary. The figure was $70.1K in 2024, against $106K for the U.S., 51st among the states, down 0.5% from $70.4K in 2023 and down 13% since 2016, when it was $80.3K.

Full-time instructional staff. The number was 6.47K in 2024, up 3.4% from 6.26K in 2023 and up 1.4% since 2015, when it was 6.38K.

Figure 40 Average Faculty Salary

Tenured, 2024

The bars divide Arkansas's full-time instructional staff by tenure status in 2015, 2019 and 2024: tenured, on the tenure track, not on the tenure track (for example, lecturers on fixed-term contracts), and staff at institutions with no tenure system.

Tenured, share of full-time instructional staff. The share was 27% in 2024, down 2.4 points from 29% in 2023 and down 6.2 points since 2015, when it was 33%.

Figure 41 Tenure Status

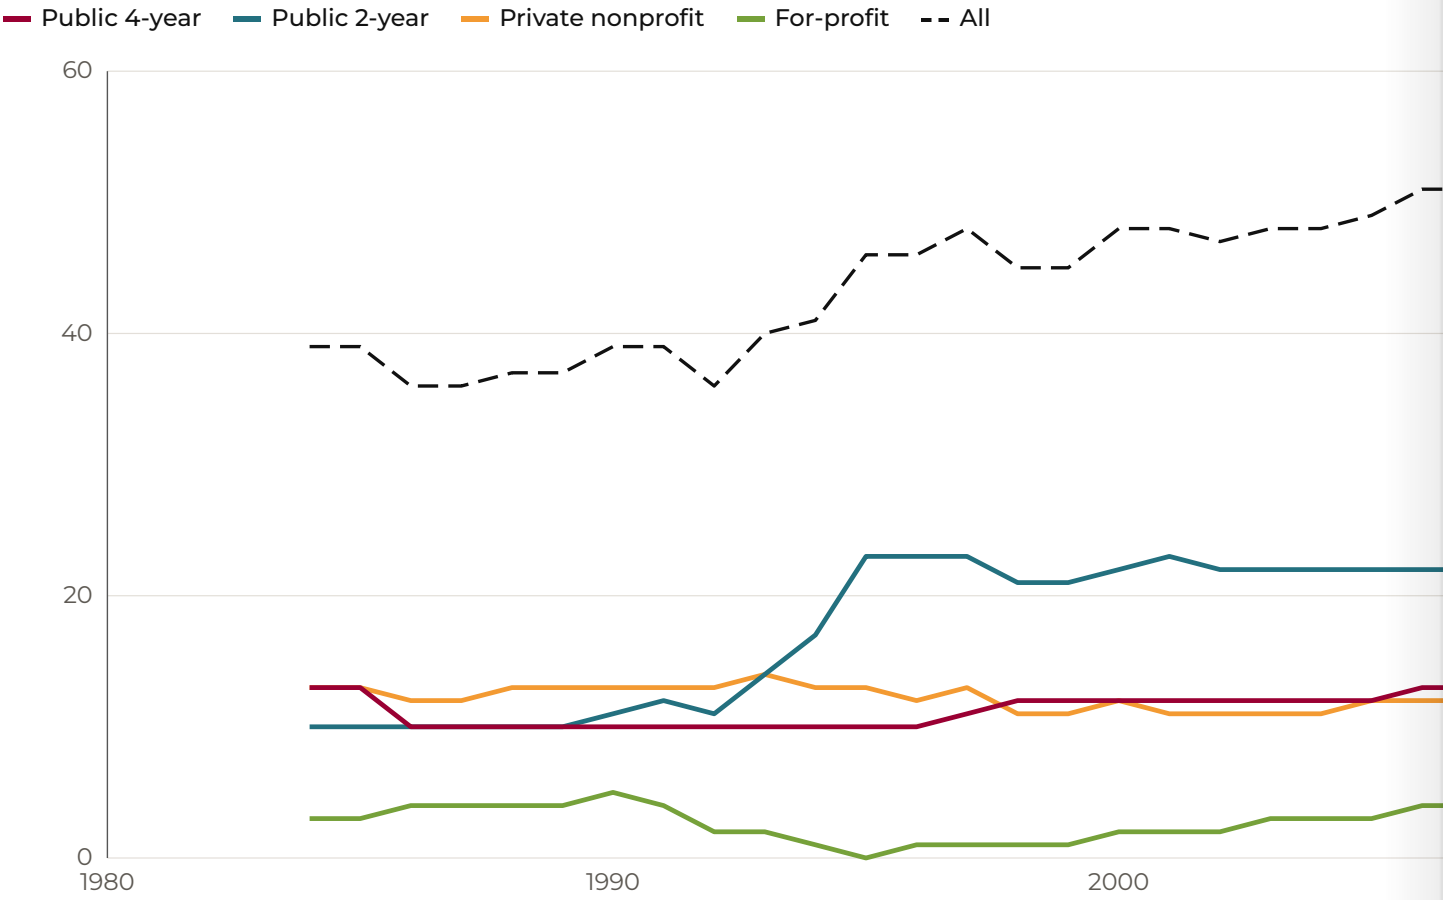

Full-time instructional staff by tenure status, 2015, 2019, 2024. Data from NCES, IPEDS.

SECTION 16

Institutions

Arkansas ranks 5th of 51 on the share of enrollment at public institutions, at 90% in 2024 against 73% for the U.S.

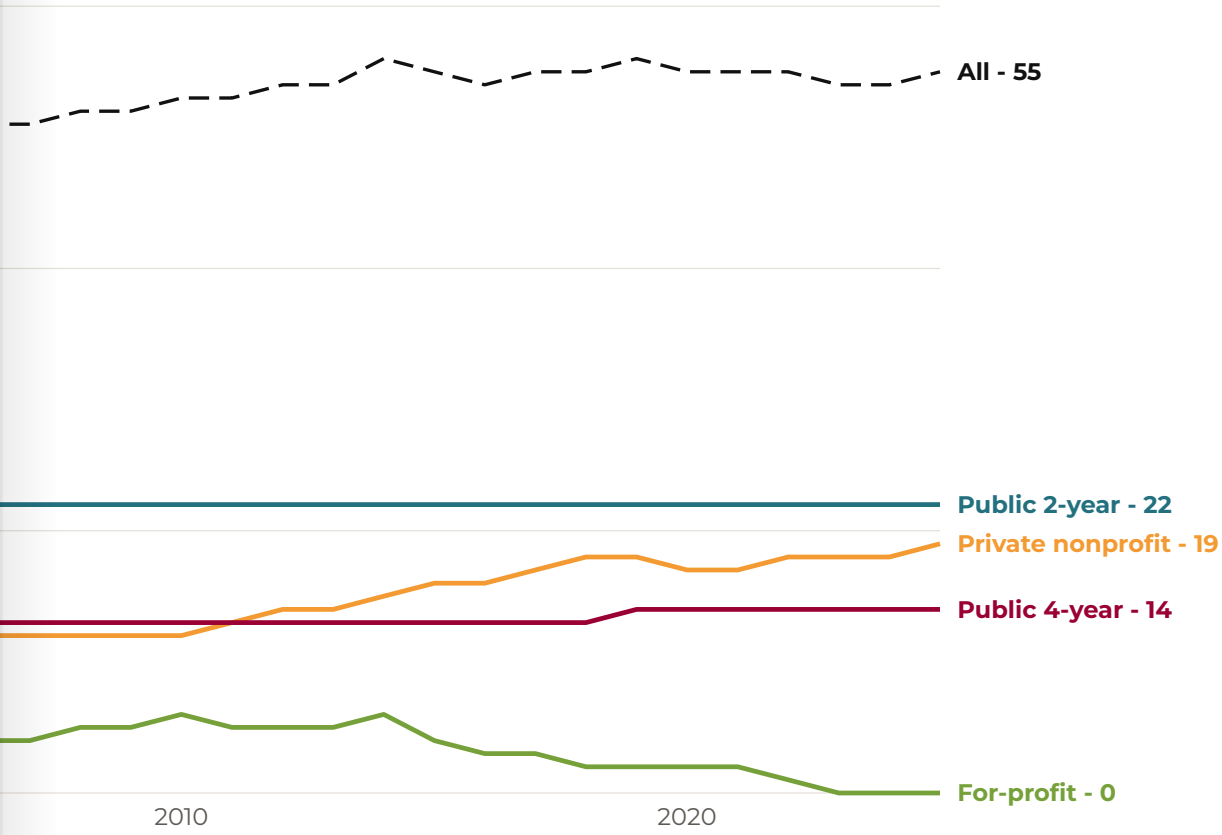

Figure 42 How Many Institutions Does Arkansas Have?

Degree-granting institutions by sector. Data from NCES, IPEDS.

Arkansas has 55 degree-granting institutions:14 public 4-year, 22 public 2-year, 19 private nonprofit, 0 for-profit (2025).

The number of institutions is roughly flat since 2015. 90% of students attend public institutions and 0.0% attend for-profit ones.

SECTION 16 · INSTITUTIONS

Which Institutions Lead in Arkansas?

The table ranks institutions in Arkansas by the STEM master's degrees and research doctorates they awarded to international students in 2025, the two counted together. The share columns give international students' share of each institution's STEM degrees at that level.

Largest. Southern Arkansas University Main Campus (545 international STEM master's degrees and – doctorates), University of Arkansas at Little Rock (155 international STEM master's degrees and 21 doctorates), and University of Arkansas (92 international STEM master's degrees and 58 doctorates) awarded the most.

Table 8 Which Institutions Train the Most International STEM Graduates?

Institution	Intl STEM total	Intl STEM master's	Int. share	Intl STEM doctorates	Int. share
Southern Arkansas University Main Campus Magnolia · Public 4-year	**545**	545	97%	–	–
University of Arkansas at Little Rock Little Rock · Public 4-year	**176**	155	81%	21	62%
University of Arkansas Fayetteville · Public 4-year	**150**	92	27%	58	55%
Arkansas State University Jonesboro · Public 4-year	**65**	59	43%	6	100%

The table lists Arkansas's largest degree-granting institutions by fall 2024 headcount enrollment, with the international share of graduate students, STEM bachelor's degrees awarded in 2025, the six-year graduation rate and the admission rate (a dash where the institution admits all applicants or does not report one).

Largest. The three largest were University of Arkansas (33.6K students), Arkansas State University (15.7K students), and University of Central Arkansas (10.1K students).

Degree-granting institutions. The state had 55 in 2025, and 52 of them reported the enrollment and degree data in these tables.

Table 9 What Are Arkansas's Largest Institutions?

Institution	Enrollment	Int. share, grad	STEM bachelor's	Six-year grad rate	Admit rate
University of Arkansas	**33.6K**	18%	1.29K	71%	74%
Arkansas State University	**15.7K**	5.6%	178	53%	82%

Fall 2024 enrollment; degrees 2025. Data from NCES, IPEDS.

NOTES

About These Data

International students

U.S. nonresidents on temporary visas, as IPEDS defines them. IPEDS does not record country of citizenship. Permanent residents count with U.S. citizens.

STEM

CIP families 03, 04, 11, 14, 15, 26, 27 and 40. Doctorates are research and scholarship doctorates; professional doctorates appear only in the degree-count figure. Degrees are first majors only.

Universe

Degree-granting institutions located in the state; Title IV participants from 1996. Geography is the institution's location, not the student's home. Enrollment is fall headcount.

Migration

First-time degree-seeking undergraduates by home state, reported in even years before 2001 and every year since; odd years with incomplete reporting are omitted. Net migration is students arriving from other states minus residents leaving, per 100 resident first-time students.

Money

Tuition, appropriations, revenue and faculty salaries are in 2024 dollars using the CPI-U. Research funding (HERD, Federal Funds, USAspending), wages and the NAFSA economic contribution are nominal dollars, and are labeled so. Appropriations and revenue are per full-time-equivalent student at public institutions; the tuition share divides net tuition by net tuition plus state and local appropriations.

Race and ethnicity

IPEDS did not collect race and ethnicity in every year before 2010, and categories changed in 2008–2010; “Two or more” exists only from then.

Countries of citizenship

From DHS SEVIS by the Numbers: active F-1 and M-1 student records in the month named, at every level from primary school to doctorate, by the state of the school. IPEDS records only whether a student is a U.S. nonresident, not where they come from. SEVIS counts are monthly snapshots and are not directly comparable with IPEDS fall enrollment or degree counts. Year-to-year comparisons use one fall snapshot per year (the month closest to November).

Peers

Comparison states are the four closest in total fall enrollment, measured proportionally: a state 1.5 times as large counts as near as one two-thirds the size.

Sources

IPEDS (National Center for Education Statistics) is the backbone: Institutional Characteristics, Fall Enrollment, Completions, Graduation Rates, Finance, Human Resources and Admissions, 1980–2025, harmonized into a state panel. The profile also draws on NAEP, NSF's Survey of Graduate Students and Postdoctorates, Survey of Earned Doctorates, HERD and Federal Funds surveys, USAspending.gov, DHS SEVIS by the Numbers and ICE SEVIS releases, the Department of Labor's Office of Foreign Labor Certification and BLS wage data, the USCIS H-1B Employer Data Hub, the Census Bureau's American Community Survey and Post-Secondary Employment Outcomes, USPTO PatentsView, and other federal sources; every figure names its source, and the Sources page lists them in full. Generated November 2026.

NOTES

How the Numbers Are Counted

Ranks

Ranks are among the 50 states and the District of Columbia (1 = highest value, whether or not a high value is good). Where fewer than 51 report, the count is given ("23rd of 33").

Sectors

Sectors are as IPEDS classifies institutions each year. IPEDS moves a whole institution to "public, 4-year or above" once it awards any bachelor's degree, so community colleges that began offering applied bachelor's degrees carry all of their students into the public 4-year sector. Sector series (enrollment shares, public 4-year tuition, graduation rates by sector) reflect these moves.

Research doctorates

Two counts appear. IPEDS counts degrees institutions report as "doctor's degree, research/scholarship", which includes some practice-oriented degrees such as many Ed.D.s; the NSF Survey of Earned Doctorates counts research doctorate recipients and is smaller. Each figure names which it uses. "STEM master's per STEM research doctorate" divides IPEDS STEM master's degrees by IPEDS STEM research doctorates.

Engineering

"Engineering" alone is CIP 14. Where engineering technology (CIP 15) is added, the label says "engineering & eng. technology".

Graduation rates

IPEDS graduation rates follow first-time, full-time students and count only those who finish at the institution where they started, so they leave out part-time starters and students who transfer and finish elsewhere.

International students in SEVIS

SEVIS counts active F-1 and M-1 records, which include graduates on Optional Practical Training (up to 36 months for STEM graduates, 12 for others), so STEM shares run high. STEM follows the DHS STEM Designated Degree Program List, which is broader than the eight CIP families above, and DHS draws its STEM pages on a different basis from its all-student pages, so a country's STEM count can exceed its all-level count.

Visas and green cards

DOL labor condition applications (H-1B positions) are counted by worksite and include renewals and job changes; USCIS approvals are counted by the employer's address and split into new and continuing. PERM certifications are the employer's step toward a green card.

Patents

Patents are counted by the owner's (assignee's) location, not where inventors live; a company headquartered in another state takes its patents there.

Years

Each measure uses its latest year, so years differ across a page; every figure, table and statement gives its year, and lines that stop early are labeled with their last year.

Software developer jobs	2.93K	**6.05K**[2025]	2.06× ▲	1.69M	+48% ▲	#35	[10]
Mean annual wage, all occupations, nominal, nominal dollars	$38.5K	**$54.9K**[2025]	+42% ▲	$69.8K	+44% ▲	#50	[10]
Patents granted to assignees in the state	160	**304**[2025]	+90% ▲	135K	−0.6% ▼	#37	[22]
Share of U.S.-assignee patents	0.1%	**0.2%**[2025]	+0.1 pp ▲	–	–	#37	[22]
Share of the state's patents in digital technologies	46%	**64%**[2025]	+17.8 pp ▲	43%	+1.6 pp ▲	#4	[22]
Share of the state's patents in life sciences	15%	**10%**[2025]	−4.1 pp ▼	17%	+0.4 pp ▲	#40	[22]
Share of the state's patents in semiconductors	2.4%	**0.3%**[2025]	−2.1 pp ▼	2.9%	−1.7 pp ▼	#37	[22]
Women's share of inventors on the state's patents	10%	**18%**[2025]	+8.0 pp ▲	14%	+3.4 pp ▲	#1	[22]

Superscript years mark the year observed; changes since 2015 start from 2015 or the first later year with data. Rank is among the 50 states and DC (1 = highest). "pp" is percentage points. Dollars are 2024 dollars (CPI-U) unless the measure is labeled nominal. Counts and dollars are rounded to three significant figures (K, M, B). Arrow colors show direction only. Source numbers refer to the list of sources that follows the tables.
