Authors

Emerson Victoria Johnston is a research assistant with the Hoover Institution's Technology Policy Accelerator. A Knight-Hennessy Scholar, she holds a master's in international policy from Stanford University, and is on leave from its master's program in the history of science, technology, environment, and medicine.

Dr. Amy Zegart is the Morris Arnold and Nona Jean Cox Senior Fellow at the Hoover Institution, director of Hoover's Technology Policy Accelerator, and a senior fellow and associate director at Stanford University's Institute for Human-Centered Artificial Intelligence.

Data come from the Integrated Postsecondary Education Data System (IPEDS), the Department of Homeland Security's SEVIS by the Numbers, the National Assessment of Educational Progress, NSF's Survey of Graduate Students and Postdoctorates and Survey of Earned Doctorates, the Department of Labor's Office of Foreign Labor Certification, the USCIS H-1B Employer Data Hub, the Census Bureau's American Community Survey and USPTO patent data via PatentsView, processed in Python; every figure and table is generated from those sources, and each one names its source.

About This Profile

This profile is a companion to *The 2026 US Talent Report: Benchmarking America's STEM Pipeline Amid the Great Talent Competition*. It applies the report's measures to Arizona: the students the state develops at home, those it draws from abroad, and how both compare with the nation and with the states closest to it in size.

Degrees, enrollment, prices, outcomes and faculty come from IPEDS, the federal census of U.S. colleges and universities, harmonized across 1980–2025. Countries of citizenship come from SEVIS by the Numbers, the Department of Homeland Security's monthly count of active F-1 and M-1 students. Each figure names its source. Peer states are the four closest in total fall enrollment.

Public Data and Tools

The data behind every chart come from federal sources: the Integrated Postsecondary Education Data System (IPEDS), published by the National Center for Education Statistics, as the backbone, together with NAEP, NSF's surveys of graduate students, doctorates and research funding, USAspending.gov, DHS and ICE SEVIS data, the Department of Labor, USCIS, the Census Bureau's American Community Survey and Post-Secondary Employment Outcomes, and USPTO PatentsView. Each figure names its source, and the Sources page lists all of them. An interactive version of this profile accompanies the report.

AT A GLANCE

What Arizona's numbers say

1. **International students earn 41% of Arizona's STEM master's degrees,** 11.3 points below the U.S. (52%) in 2025, ranking 27th of 51 on dependence. The share is 42% for STEM research doctorates (U.S. 43%) and 5.1% for STEM bachelor's (U.S. 6.6%).
2. **Arizona awarded 2.58K STEM master's degrees to international students in 2025,** 2.2% of the U.S. total and 15th of 51 among states. Since 2015 the count changed 2.2×, against 2.2× nationally.
3. **The heaviest dependence is in engineering technology,** where international students earned 70% of master's degrees (289 degrees; U.S. 54%). One STEM field with at least 50 master's graduates is majority-international.
4. **Among states of similar size,** Arizona ranks 5th of 5 on the international share of STEM master's: Arizona 41%, Illinois 66%, Pennsylvania 54%, Ohio 58%, Georgia 44%.
5. **61% of Arizona's first-time students in fall 2024 were state residents** and 2.3% came from abroad. More students arrived from other states (28.9K) than residents left (7.63K), a net gain of 21.2K; the top destination for those leaving was California.

41%

of the STEM master's degrees Arizona awards go to international students (U.S. 52%).

SECTION 1

International Dependence

Arizona ranks 41st of 51 on the international share of graduate enrollment, at 8.9% in 2024 against 17% for the U.S.

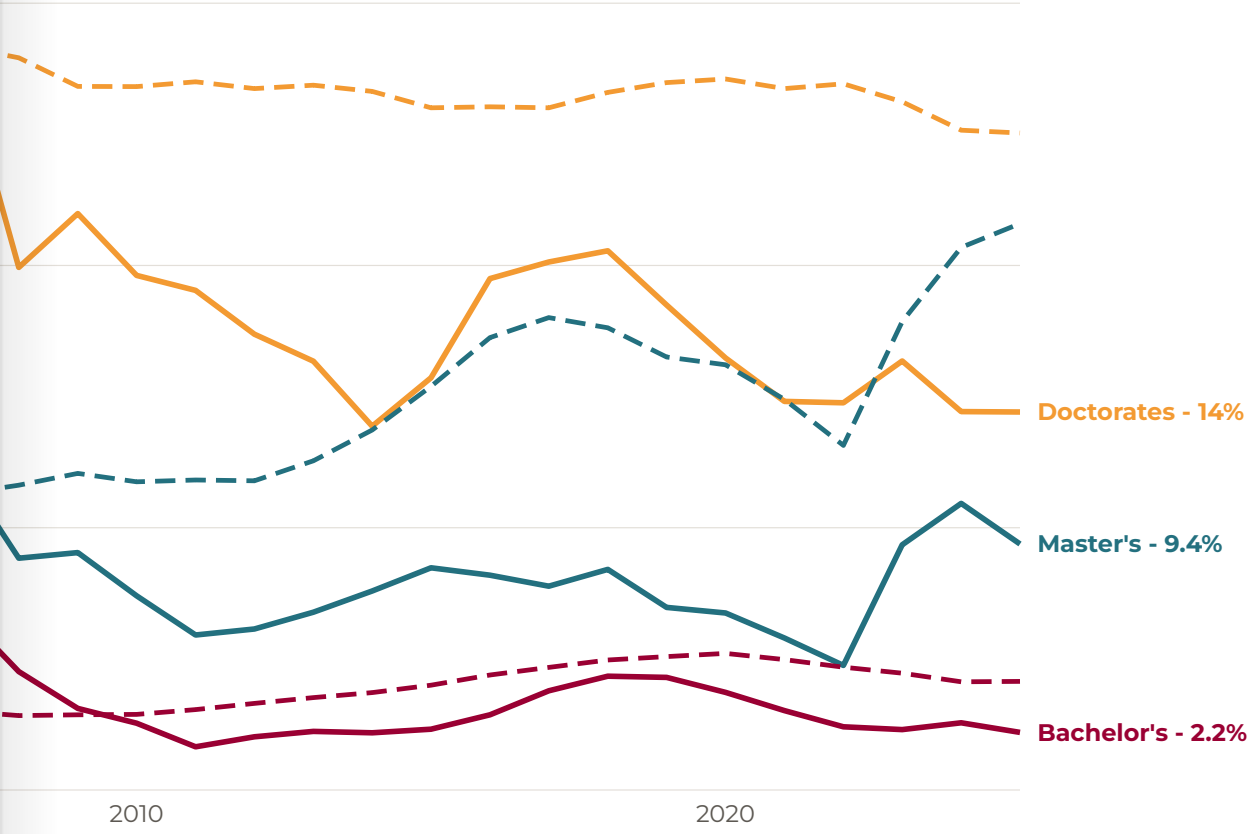

Figure 1 What Share of Arizona's Degrees Go to International Students?

International share of degrees awarded, all fields; state solid, U.S. dashed. Data from NCES, IPEDS Completions, 1985–2025

International students make up 8.9% of Arizona's graduate enrollment and 1.8% of its undergraduates. Dependence climbs with each degree: 2.2% of bachelor's, 9.4% of master's and 14% of research doctorates go to international students.

In STEM the shares are higher still: 5.1% of STEM bachelor's, 41% of STEM master's and 42% of STEM doctorates. The state awards 2.2% of all U.S. international STEM master's, 15th of 51.

SECTION 1 · INTERNATIONAL DEPENDENCE

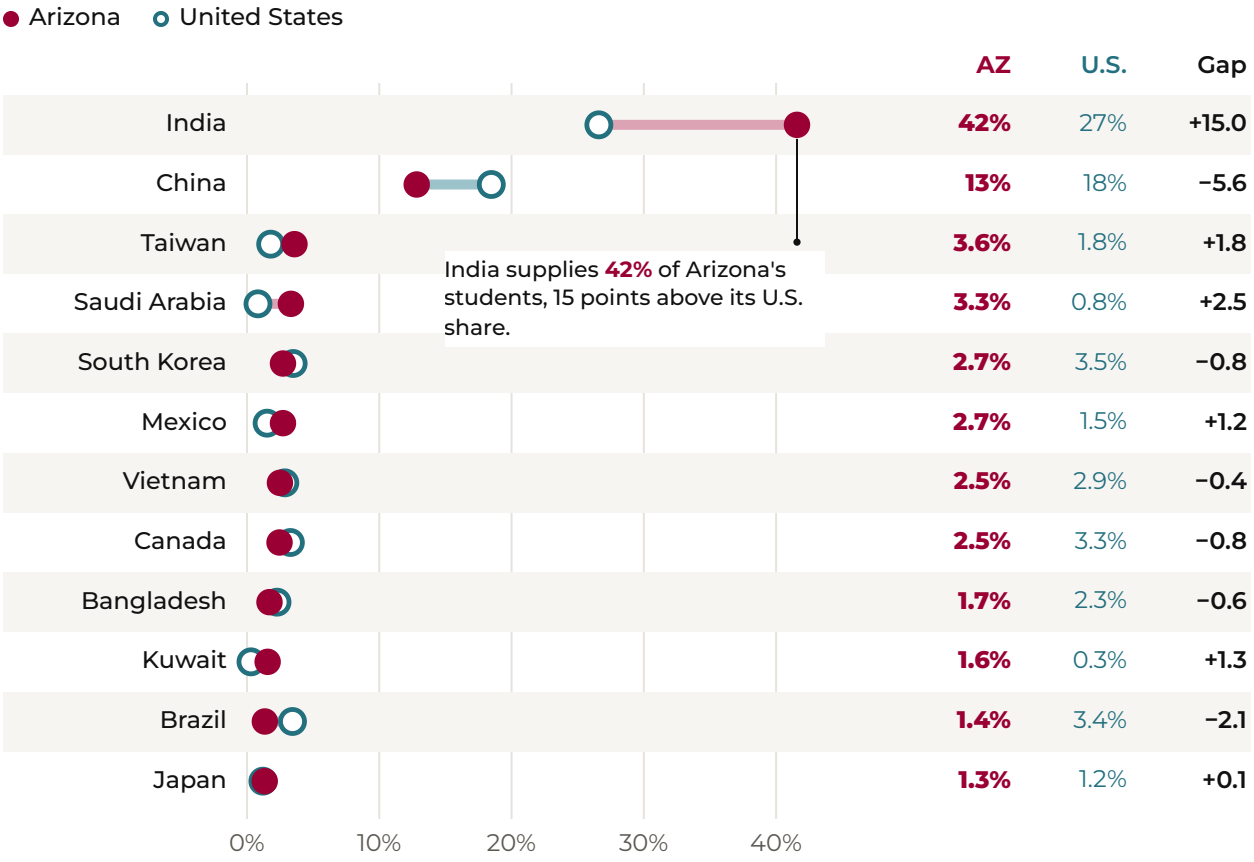

How Does Arizona's Mix of Countries Compare With the Nation's?

In October 2026, Arizona had **26.5K** active F-1 and M-1 students, 15th among the 50 states and DC and **2.2%** of the U.S. total. They came from 169 countries.

India supplied **42%** of them, against 27% nationally, and China **13%**, against 18%. Taiwan (3.6%), Saudi Arabia (3.3%), and South Korea (2.7%) followed.

Together the two largest countries supplied **54%** of the state's international students (U.S. 45%), 10th among the states, against 54% in 2015.

Figure 3 Is Arizona's Mix of Countries Like the Nation's?

	AZ	U.S.	Gap
India	42%	27%	+15.0
China	13%	18%	−5.6
Taiwan	3.6%	1.8%	+1.8
Saudi Arabia	3.3%	0.8%	+2.5
South Korea	2.7%	3.5%	−0.8
Mexico	2.7%	1.5%	+1.2
Vietnam	2.5%	2.9%	−0.4

The state's count is down 9.2% from 2025 and up 27% since 2015, when it stood at 20.8K. Its share of all U.S. international students is up 0.5 points since 2015, to **2.2%**.

Since 2015, the number of students from India went from 3.63K to 11K, China's from 7.63K to 3.4K, and Taiwan's from 377 to 953.

Over the same years, the number from Saudi Arabia went from 2K to 881 and South Korea's from 853 to 721. The table gives each country's count for the first, previous and latest years.

Table 1 International Students in Arizona, 2015–2026

Active F-1 and M-1 students, one fall snapshot per year (the month closest to November; 2019 has none; the latest year is October 2026). Rank among the 50 states and DC. Data from DHS, SEVIS by the Numbers.

Figure 4

Which Countries Supply Arizona's International STEM Students?

16.2K of Arizona's international students were in STEM fields in October 2026, **61%** of the total against 63% nationally, up 84% since 2015.

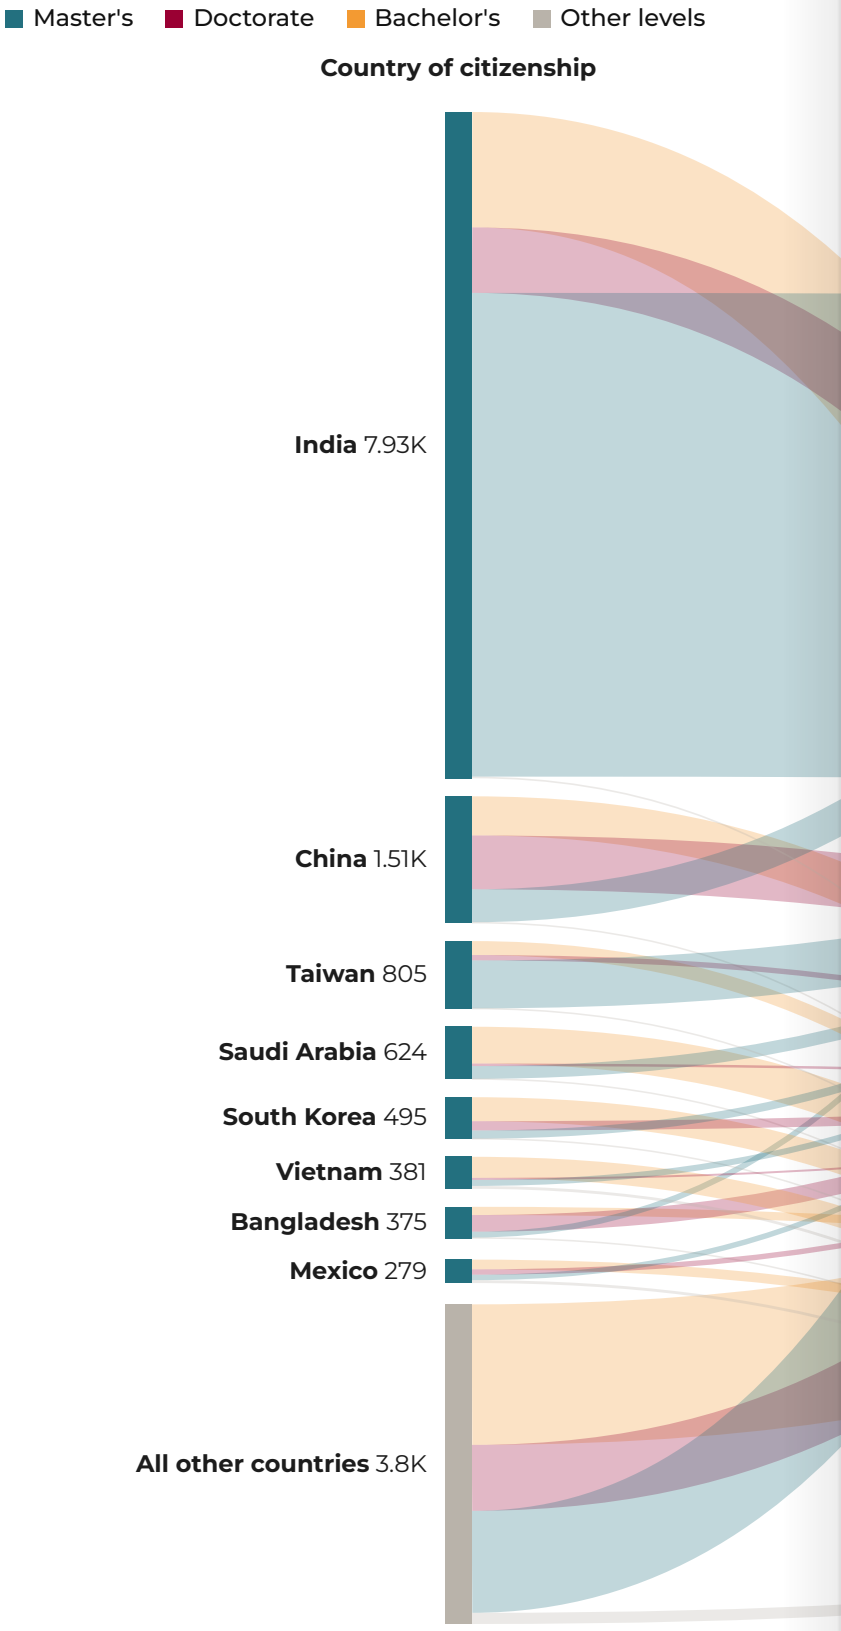

Master's students were the largest group, **8.39K**. India supplied 69% of them and Taiwan 6.8%.

STEM doctoral students went from 1.71K in 2015 to **2.69K**, and STEM master's students from 3.53K to 8.39K.

SECTION 1 · INTERNATIONAL DEPENDENCE

How International Are Arizona's Master's Fields?

Each row is a master's field with at least 30 graduates in Arizona in 2025, ranked by the share of degrees earned by international students (U.S. nonresidents on temporary visas). The filled dot is the state's share; the open dot is the national share for the same field.

Highest international shares. International students earned the largest shares of master's degrees in engineering technology (70%, against 54% for the U.S.), engineering (48%, against 49% for the U.S.), and computer & info sciences (46%, against 65% for the U.S.).

Figure 5 Which Master's Fields Depend Most on International Students?

International share of master's degrees by field, 2025; fields with 30+ graduates. Data from NCES, IPEDS Completions.

9.4%
Int. share of all master's, 2025
U.S. **22%** · **39th** of 51

41%
Int. share of STEM master's, 2025
U.S. **52%** · **27th** of 51

46%
Int. share of CS master's, 2025
U.S. **65%** · **34th** of 47

The table gives the international share of degrees in each STEM field at three levels: Arizona first, the United States after the slash. The master's column is highlighted. A dash means the state awarded no degrees in the field at that level.

Highest international share among STEM master's fields. International students earned 70% of the master's degrees in engineering technology, against 54% for the U.S.

Fields with an international majority. International students earned more than half of the master's degrees in one STEM field.

Table 2 How International Is Each STEM Field?

Field	Bachelor's	Master's	Doctorates
Computer & info sciences	7.2% / 8.6%	**46% / 65%**	55% / 56%
Engineering	7.2% / 7.2%	**48% / 49%**	59% / 55%
Engineering technology	2.7% / 4.5%	**70% / 54%**	– / 42%
Math & statistics	11% / 17%	**32% / 55%**	37% / 53%
Physical sciences	5.9% / 6.0%	**23% / 33%**	33% / 38%
Biological sciences	1.9% / 3.4%	**10% / 23%**	21% / 23%
Natural resources	0.5% / 2.0%	**3.4% / 17%**	37% / 27%
Architecture	6.1% / 7.3%	**17% / 29%**	– / 55%

International share in Arizona / U.S., 2025. Data from NCES, IPEDS Completions.

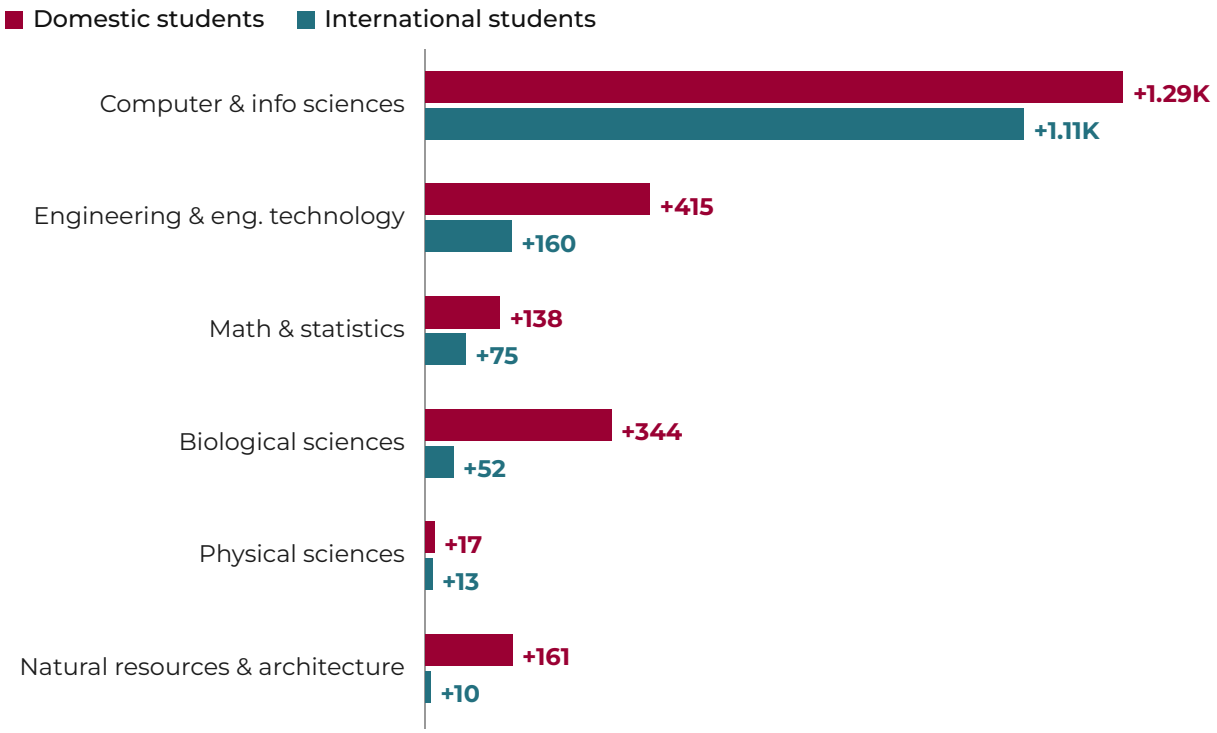

SECTION 1 · INTERNATIONAL DEPENDENCE

How Has Arizona's STEM Master's Output Grown?

Each pair of bars is the change in the number of STEM master's degrees awarded in Arizona between 2015 and 2025 in one field: to domestic students (U.S. citizens and permanent residents) and to international students. Bars to the left of the axis are declines.

STEM master's degrees. The state awarded 6.32K in 2025 and 2.54K in 2015, a change of +1.42K for international students and +2.36K for domestic students.

Figure 6 Where Did the STEM Master's Growth Come From?

SECTION 5

Graduate Research

Arizona ranks 16th of 51 on the temporary-visa share of S&E graduate students, at 39% in 2016 against 39% for the U.S.

Figure 15 How Many of Arizona's Science and Engineering Graduate Students Hold Ten

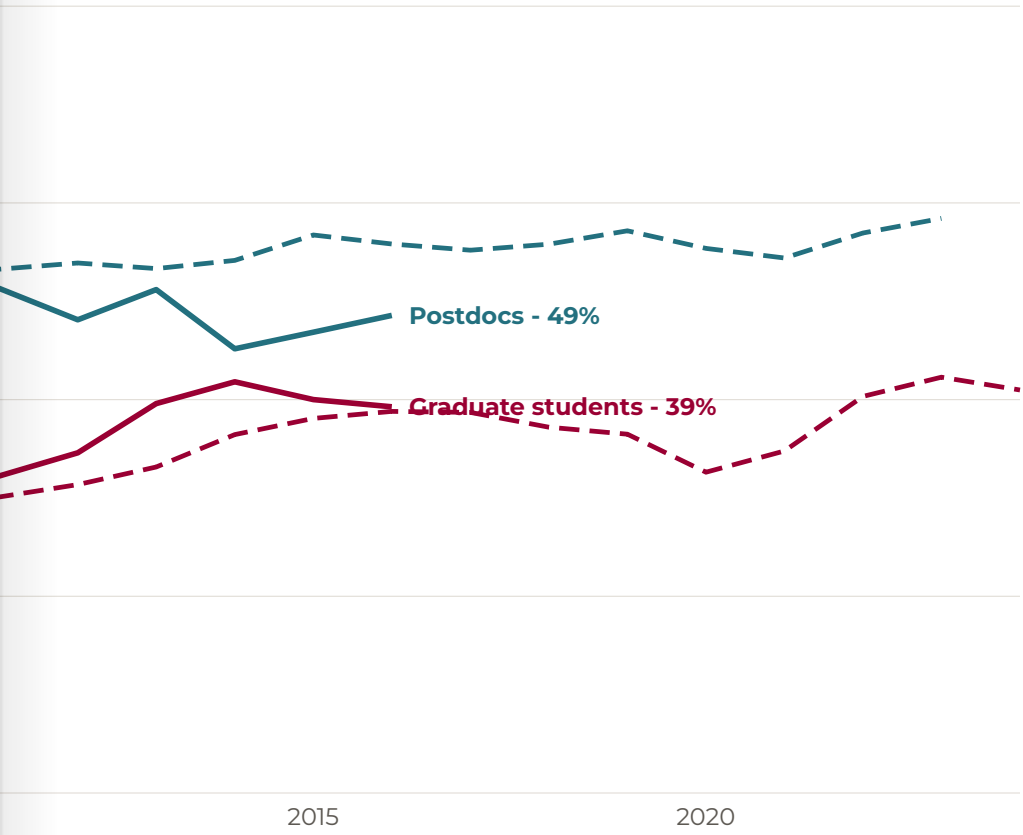

Temporary-visa share of science and engineering graduate students and postdoctoral appointees, by the institution's sta
Students and Postdoctorates.

In 2016, the last year NSF published state tables, 39% of Arizona's science and engineering graduate students held temporary visas (U.S. 39%; 16th of 51).

Among postdoctoral researchers, the share was 49% (U.S. 56%). Postdocs are the stage of research training most dependent on international talent, and IPEDS does not count them.

The state's institutions awarded 1.07K research doctorates in 2025, 1.8% of the U.S. total (Data from NSF NCSES, Survey of Earned Doctorates; NSF publishes doctorates by citizenship only for the nation).

SECTION 6

Do Graduates Stay?

Arizona ranks 7th of 51 on net domestic migration of bachelor's-plus adults, per 1,000 residents, at +8.3 in 2025.

Figure 16 How Many of Arizona's Graduates Go On to Work in the State?

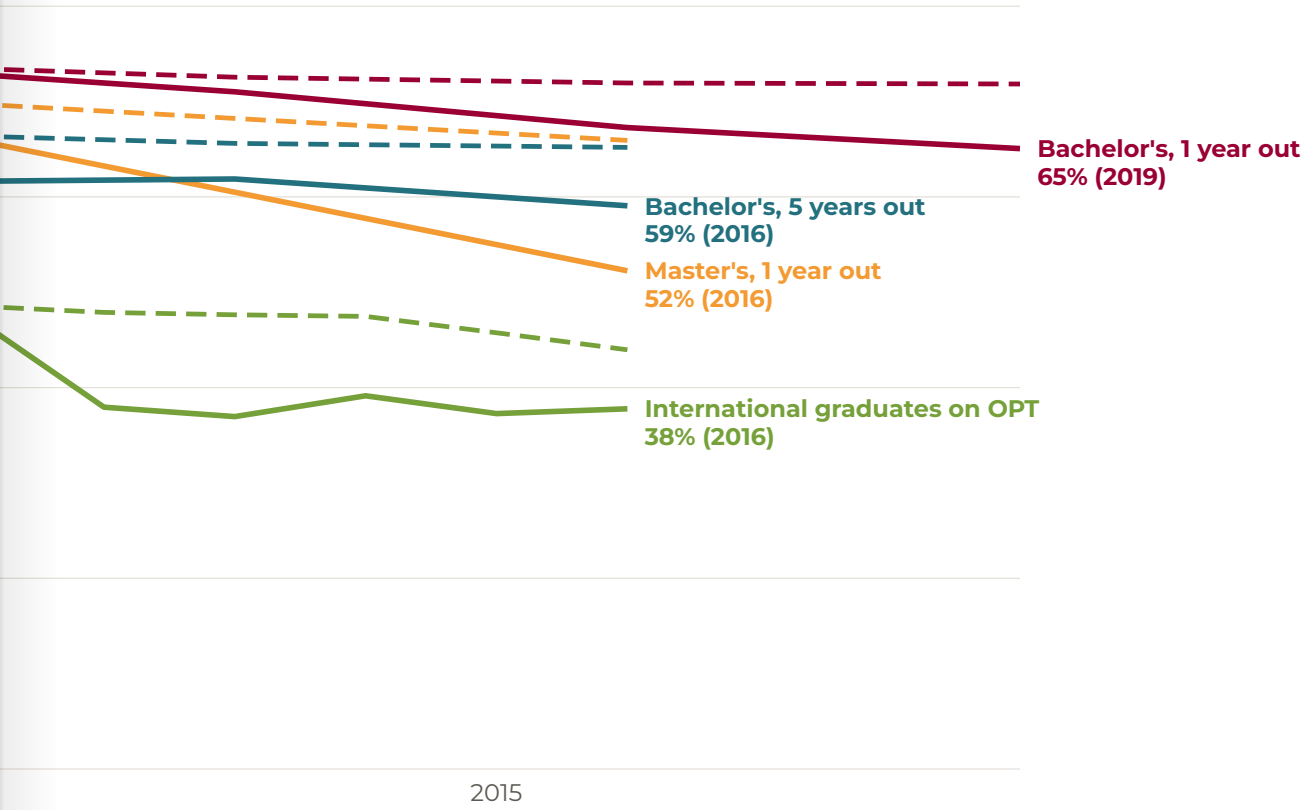

Share of employed graduates working in the state of their institution, by graduating cohort (Data from U.S. Census Burea state where they studied (Data from ICE, SEVIS FOIA releases; shares only, the file is truncated). State solid, U.S. or particip

Of Arizona's bachelor's graduates who were working a year after graduating, 65% worked in the state (participating states 72%). Five years out the share was 59%.

Among international graduates on Optional Practical Training in 2016, 38% worked in the state where they studied (U.S. 44%). That is the last year the released records cover, before most of the growth in international STEM master's degrees since 2015. Through migration between states, the state gained 8.3 bachelor's-plus adults per 1,000 such residents in 2025 (Data from U.S. Census Bureau, American Community Survey).

SECTION 8

H-1B Jobs and Green Cards

Arizona ranks 15th of 51 on certified H-1B positions, by worksite, at 12.4K in 2025 against 914K for the U.S.

Figure 18 How Many Skilled-Visa Jobs and Green-Card Certifications Does Arizona Gen

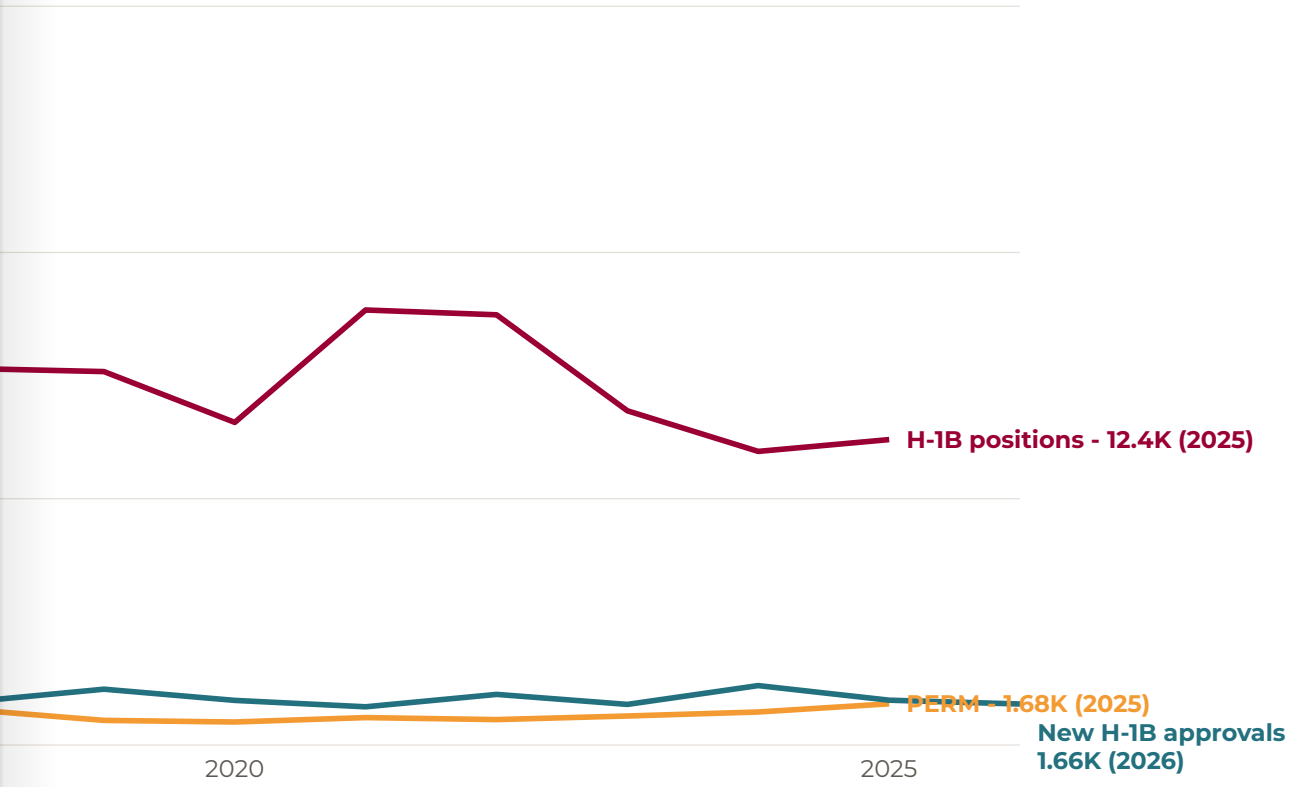

Certified H-1B positions on labor condition applications by worksite and certified PERM green-card applications, by fiscal
from USCIS, H-1B Employer Data Hub).

Employers were certified for 12.4K H-1B positions at Arizona worksites in FY2025, 15th of 51 among the states. A labor condition application comes before the petition and covers renewals and job changes as well as new hires, by the worksite's state, so it runs well above approvals. USCIS approved 1.66K new H-1B petitions in FY2026 and 3.15K continuing ones, counted by the employer's address.

DOL certified 1.68K PERM applications, the employer's step toward an employment-based green card, for jobs in the state in FY2025. In FY2024, 11% were for workers still on F-1 student visas (U.S. 8.7%): the most direct link from classroom to permanent residence.

SECTION 12

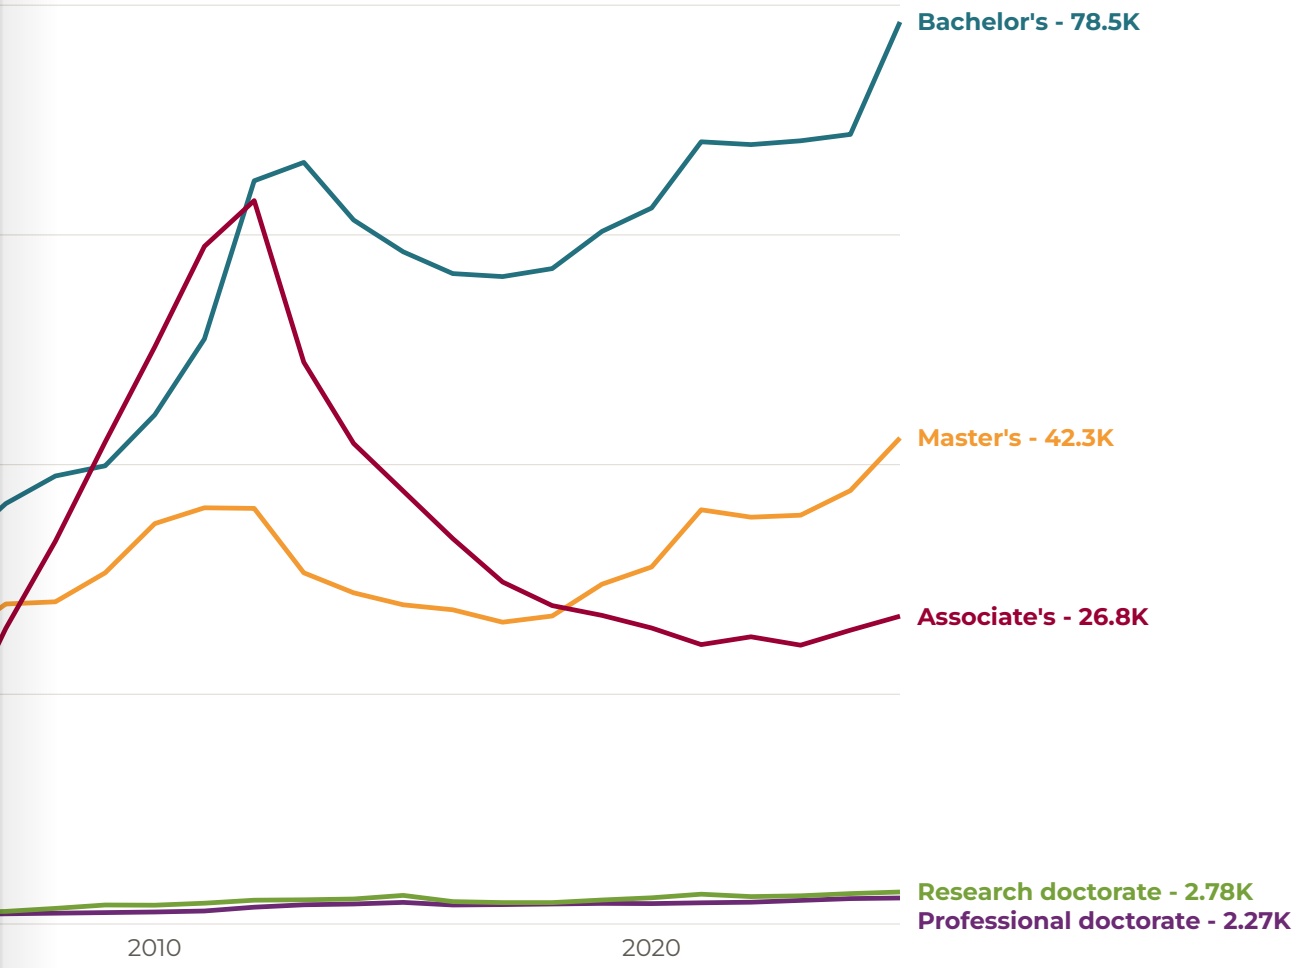

Fields of Study

Figure 27 How Many Degrees Does Arizona Award?

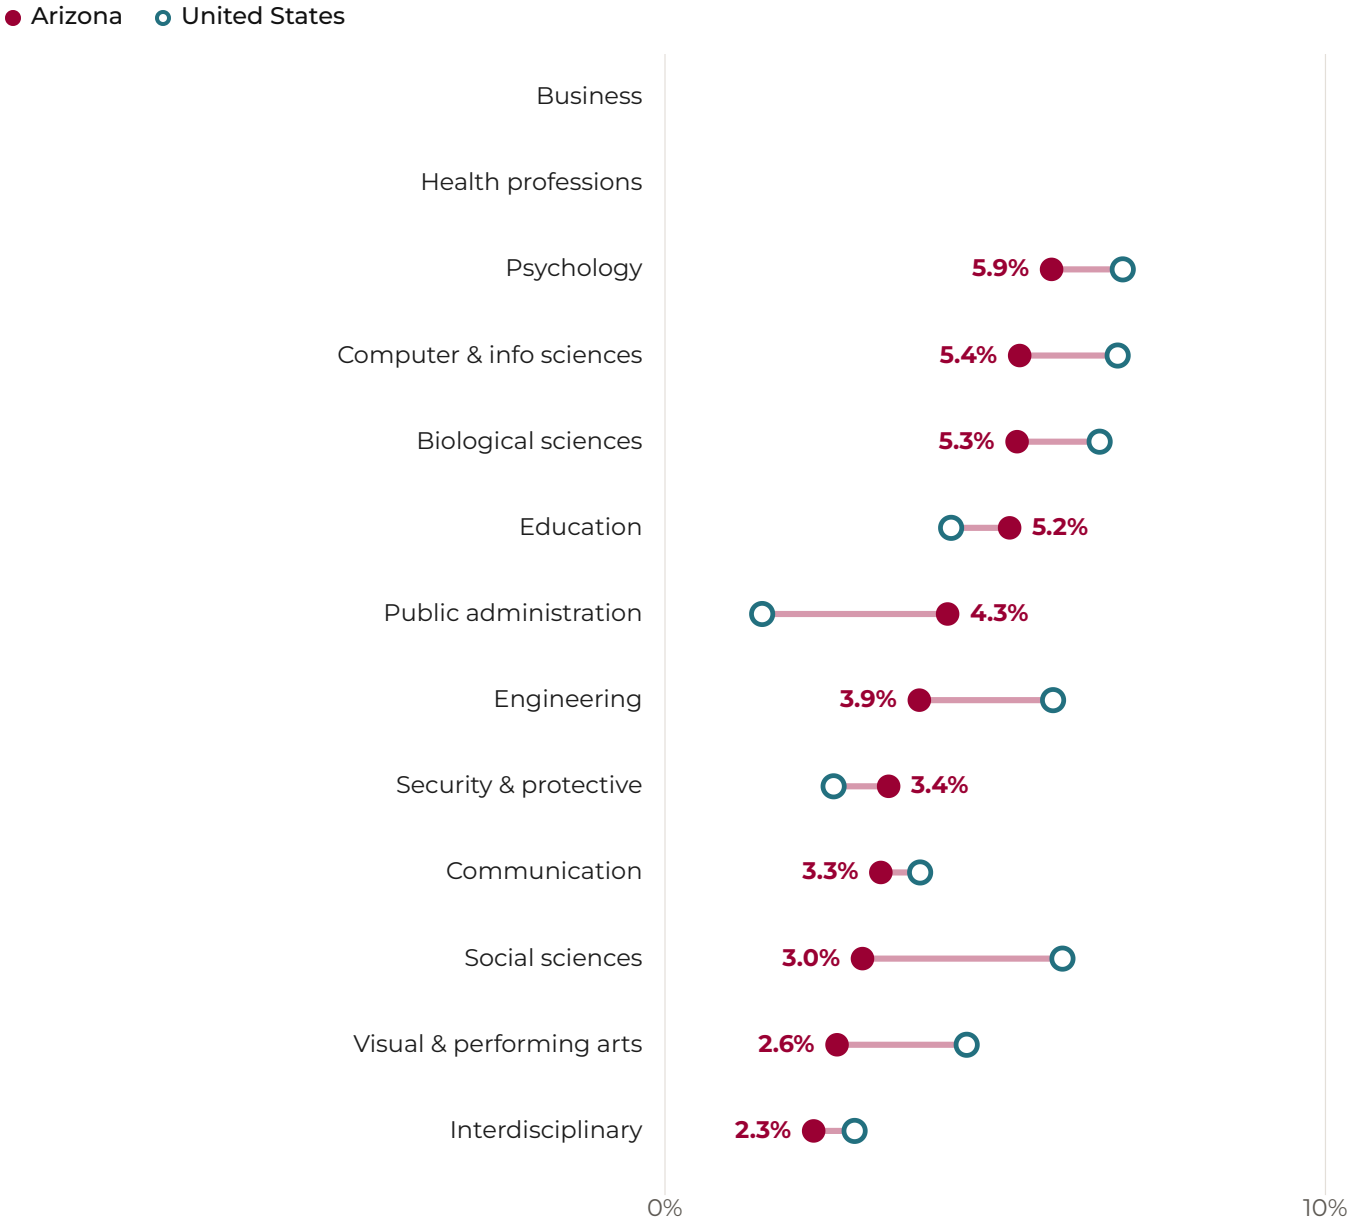

Degrees awarded by level, first majors. Data from NCES, IPEDS Completions.

In 2025, Arizona's institutions awarded 26.8K associate's degrees, 78.5K bachelor's degrees, 42.3K master's degrees, 2.78K research doctorate degrees, 2.27K professional doctorate degrees.

Since 2015: associate's down 29%; bachelor's up 34%; master's up 52%; research doctorate up 12%; professional doctorate up 20%. The state awards 13.9 bachelor's degrees for every 100 undergraduates (U.S. 12.3).

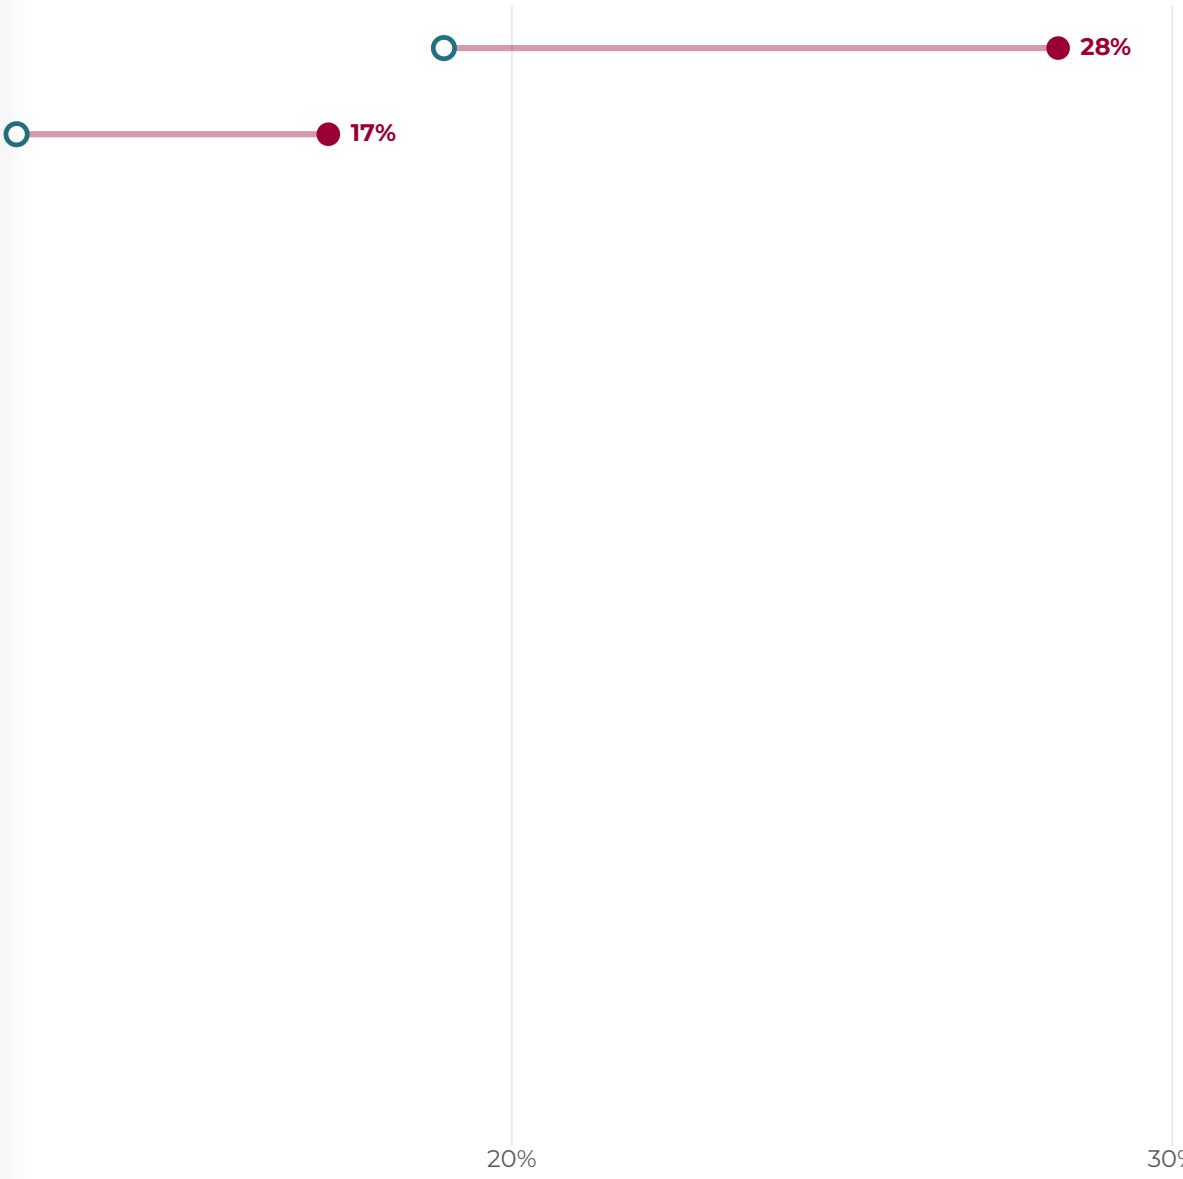

Figure 28 What Do Arizona's Bachelor's Graduates Study?

Share of bachelor's degrees by field, 2025. Data from NCES, IPEDS.

Arizona's largest bachelor's fields are business (28%; U.S. 19%), health professions (17%; U.S. 13%), psychology (5.9%; U.S. 6.9%).

Relative to the nation, Arizona's bachelor's degrees are most concentrated in science technologies (11.56× the U.S. share), military technologies (3.94× the U.S. share), public administration (2.91× the U.S. share).

Figure 30 How Has Arizona's Bachelor's Field Mix Changed?

Share of bachelor's degrees in the largest fields. Data from NCES, IPEDS Completions.

Since 2015, business has gained the most ground, 5.3 points of the state's bachelor's degrees, while health professions lost the most (3.1 points).

The chart follows the share of bachelor's degrees in each of the state's largest fields; smaller fields are grouped as other fields.

SECTION 12 · FIELDS OF STUDY

Where Is Arizona Specialized, and What Do Its Doctoral Graduates Study?

The location quotient divides a field's share of Arizona's bachelor's degrees by its share of all U.S. bachelor's degrees in 2025. A quotient of 1.00 means the same share as the nation; 2.00 means twice the national share. The table lists the 10 fields with the highest quotients among fields with at least 50 degrees.

Highest location quotients. Science technologies (11.56, with 0.3% of the state's bachelor's degrees against 0.0% for the U.S.), military technologies (3.94, with 0.3% of the state's bachelor's degrees against 0.1% for the U.S.), and public administration (2.91, with 4.3% of the state's bachelor's degrees against 1.5% for the U.S.) had the highest quotients.

Table 5 Where Is Arizona Most Specialized?

Field	Location quotient	State share	U.S. share	Degrees
Science technologies	**11.56**	0.3%	0.0%	208
Military technologies	**3.94**	0.3%	0.1%	272
Public administration	**2.91**	4.3%	1.5%	3.36K
Law	**1.95**	0.5%	0.2%	359

SECTION 13 · STUDENTS AND MONEY

How Are Arizona's Public Institutions Funded, and What Do They Produce?

The bars give each source's share of the core revenue of Arizona's public institutions, with the nation for comparison, and at right the dollars per full-time-equivalent (FTE) student it provides. Values are in 2024 dollars (CPI-U). Net tuition is tuition and fees after institutional discounts and allowances.

Net tuition per FTE student. The figure was $14.4K in FY2024, against $8.96K for the U.S., up 0.3% from $14.3K in FY2023 and up 14% since FY2015, when it was $12.6K.

Figure 36 How Are Public Institutions Funded?

Share of core revenue per FTE student by source, public institutions, FY2024; dollars per FTE at right, 2024 dollars (CPI-U). Shares are of all five sources; the tuition share elsewhere in this profile divides net tuition by net tuition plus state and local appropriations only. Data from NCES, IPEDS Finance.

$10K
In-state tuition, public 4-year, 2023
U.S. **$9.71K** · **26th** of 51

$9.12K
Appropriations per student, 2024
U.S. **$11.4K** · **37th** of 51

59%
Tuition share of tuition plus appropriations, 2024
U.S. **43%** · **10th** of 51

The table brings together five measures of what public higher education costs and what it produces in Arizona: in-state tuition at public four-year institutions, state and local appropriations per full-time-equivalent student, tuition's share of public institutions' core revenue, the six-year bachelor's graduation rate, and the average full-time faculty salary.

In-state tuition, public 4-year. The figure was $10K in 2023, against $9.71K for the U.S., 26th among the states, down 23% from $13K in 2022 and down 26% since 2015, when it was $13.5K.

Table 6 Money and Results

Measure	Year	Arizona	U.S.	Rank	Change since 2015
In-state tuition, public 4-year	2023	**$10K**	$9.71K	26th of 51	−26%

Tuition share of tuition plus appropriations	2024	**59%**	43%	10th of 51	+3.4 pp
Six-year graduation rate	2024	**58%**	65%	37th of 51	+7.6 pp
Average faculty salary	2024	**$102K**	$106K	18th of 51	−6.5%

Rank among the 50 states and DC (1 = highest). Dollars in 2024 dollars (CPI-U). Data from NCES, IPEDS.

SECTION 14

Student Outcomes

Arizona ranks 11th of 50 on the share of completion within 150% of normal time, 2-year institutions, at 47% in 2024 against 41% for the U.S.

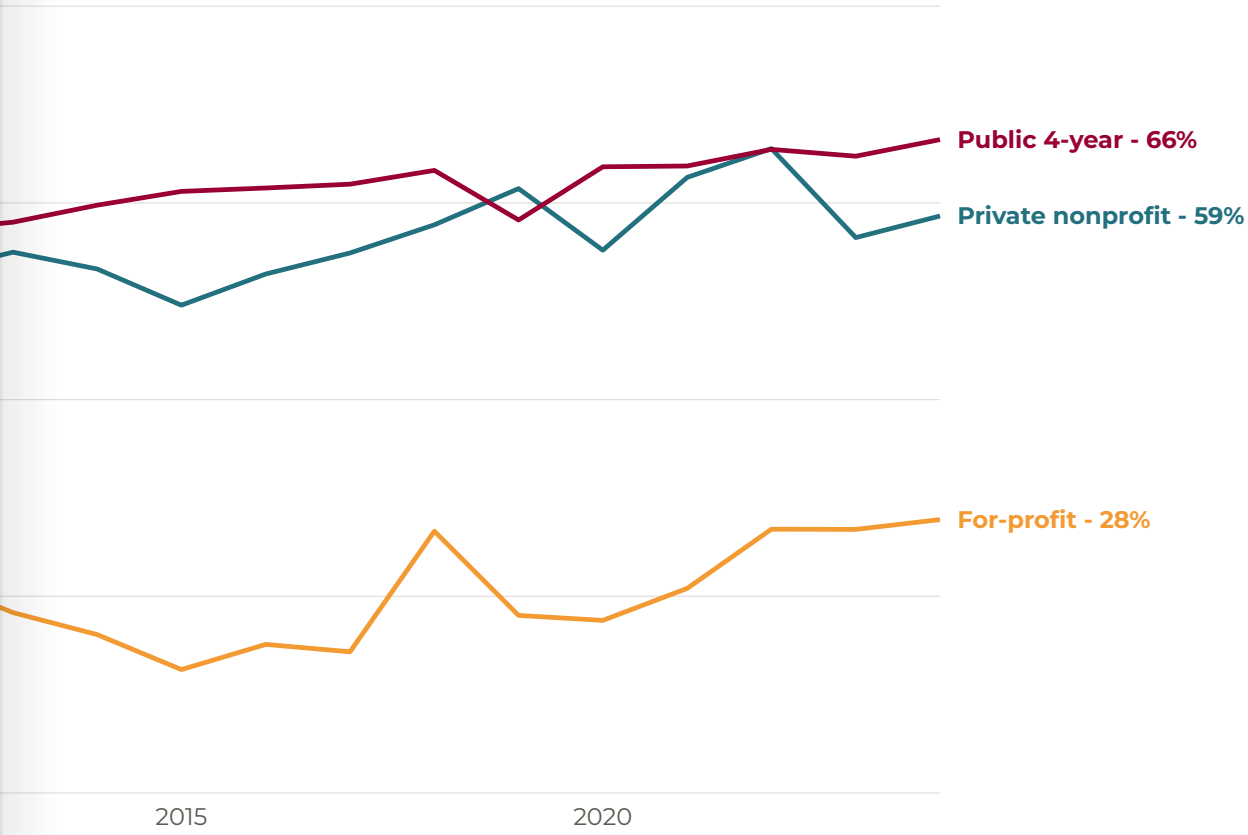

Figure 37 How Do Graduation Rates Differ by Sector?

Six-year bachelor's graduation rate by sector of institution. Data from NCES, IPEDS Graduation Rates.

58% of students who started a bachelor's degree at a four-year institution in Arizona graduated within six years (2024), 6.4 points below the U.S. (65%); the state ranks 37th of 51.

By sector: public 4-year 66%, private nonprofit 59%, for-profit 28%. At two-year institutions, 47% complete within 150% of normal time (U.S. 41%).

SECTION 14 · STUDENT OUTCOMES

How Many of Arizona's Students Graduate?

The line follows the share of first-time, full-time bachelor's-degree students at Arizona's four-year institutions who graduated from the institution where they started within six years (150% of normal time). Each year is the cohort that entered six years earlier. The rate leaves out students who start part-time (43% of the state's students attend part-time, against 39% nationally) and students who transfer and finish elsewhere. The state is solid and the United States dashed.

Six-year graduation rate. The rate was 58% in 2024, against 65% for the U.S., up 1.4 points from 57% in 2023 and up 7.6 points since 2015, when it was 51%.

Figure 38 Six-Year Bachelor's Graduation Rate

Four-year institutions; state solid, U.S. dashed. Data from NCES, IPEDS Graduation Rates.

13.9
Bachelor's per 100 undergraduates, 2025
U.S. **12.3** · **13th** of 51

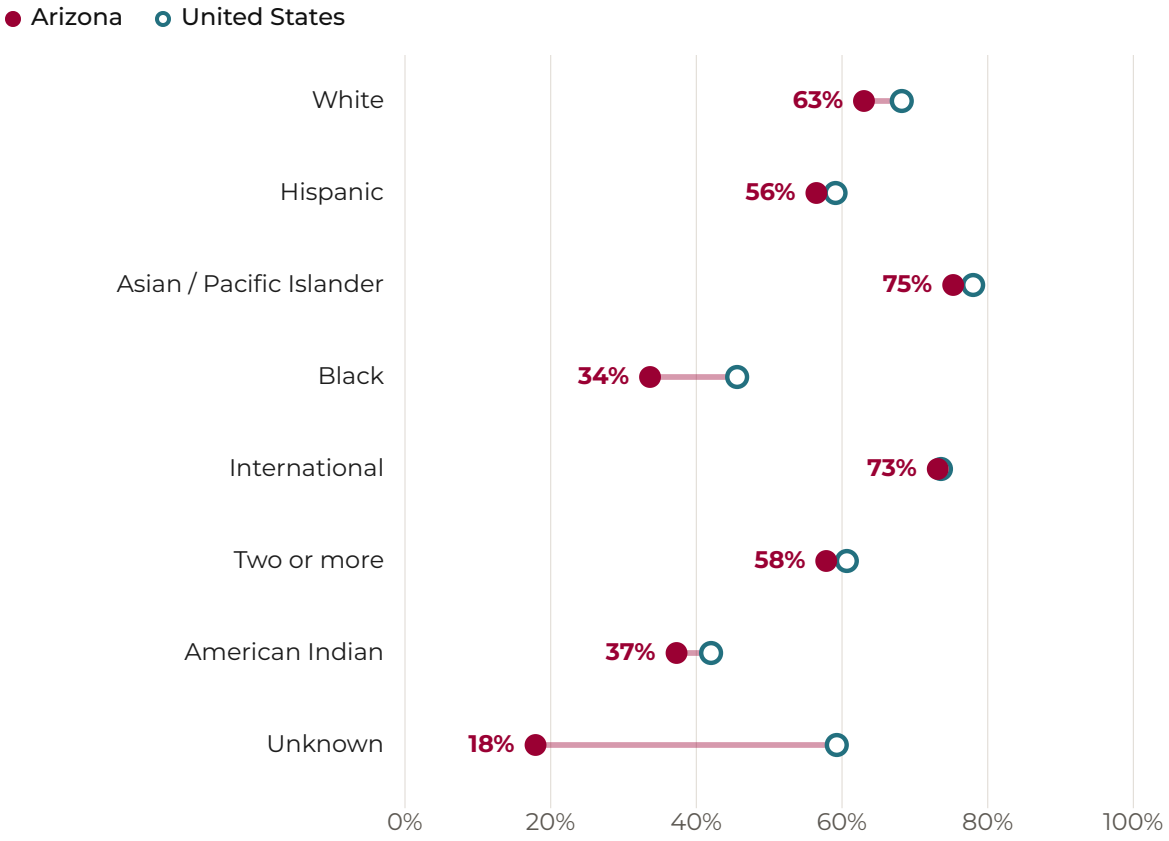

Each row is the six-year bachelor's graduation rate for one racial or ethnic group of students at Arizona's four-year institutions (filled dot), against the national rate for the same group (open dot). Groups with fewer than 100 students in the cohort are left out.

White. The six-year rate was 63% in 2024, against 68% for the U.S.

Hispanic. The six-year rate was 56% in 2024, against 59% for the U.S.

Asian / Pacific Islander. The six-year rate was 75% in 2024, against 78% for the U.S.

SECTION 15

Faculty

Arizona ranks 18th of 51 on the average full-time faculty salary, at $102K in 2024 against $106K for the U.S.

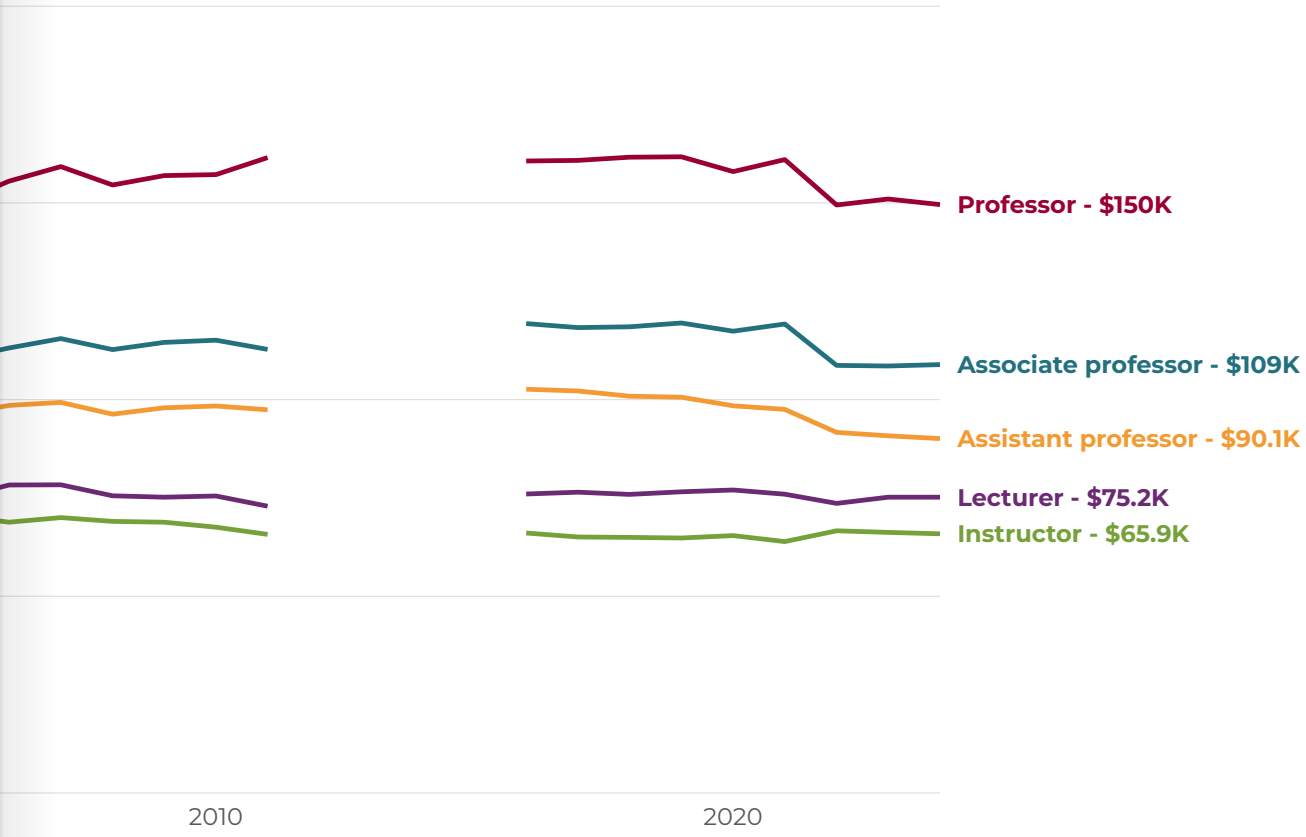

Figure 40 What Do Arizona's Faculty Earn, by Rank?

Average salary of full-time instructional faculty on 9/10-month contracts, by academic rank, 2024 dollars (CPI-U). Data fro

Full-time instructional faculty on 9/10-month contracts at Arizona's institutions earned an average of $102K in 2024 (2024 dollars), 4% below the U.S. ($106K); the state ranks 18th of 51. By rank (2024): professors $150K, associate professors $109K, assistant professors $90.1K, instructors $65.9K, lecturers $75.2K.

Arizona's institutions had 12.5K full-time instructional staff in 2024, up 20% since 2015. Average salary across all ranks is down 7% since 2016.

m NCES, IPEDS Human Resources.

SECTION 15 · FACULTY

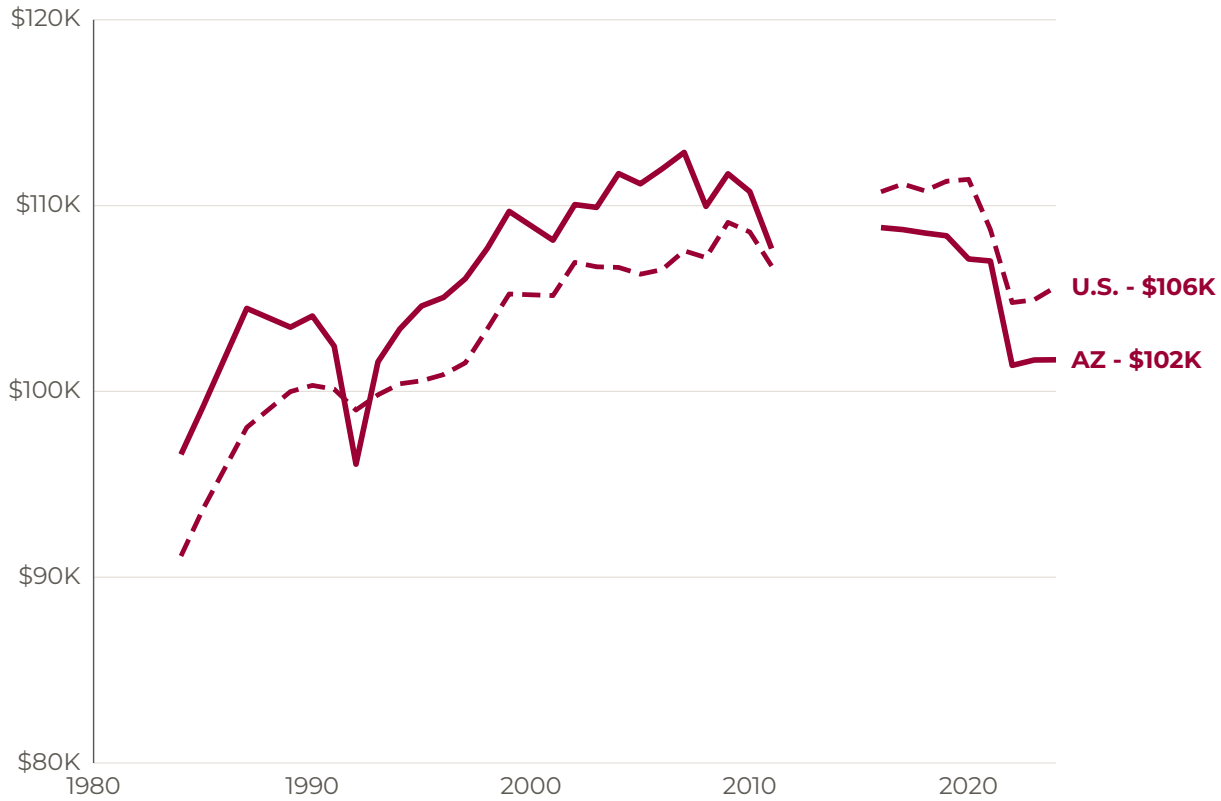

What Do Arizona's Faculty Earn, and How Many Hold Tenure?

The line follows the average salary of full-time instructional faculty on 9- or 10-month contracts at Arizona's degree-granting institutions, all ranks combined, in 2024 dollars (CPI-U). The state is solid and the United States dashed.

Average salary. The figure was $102K in 2024, against $106K for the U.S., 18th among the states, unchanged from $102K in 2023 and down 6.5% since 2016, when it was $109K.

Full-time instructional staff. The number was 12.5K in 2024, up 2.7% from 12.2K in 2023 and up 20% since 2015, when it was 10.5K.

Figure 41 Average Faculty Salary

Full-time instructional faculty, 9/10-month, 2024 dollars. Data from NCES, IPEDS.

34%
Tenured, 2024

The bars divide Arizona's full-time instructional staff by tenure status in 2015, 2019 and 2024: tenured, on the tenure track, not on the tenure track (for example, lecturers on fixed-term contracts), and staff at institutions with no tenure system.

Tenured, share of full-time instructional staff. The share was 34% in 2024, down 0.1 points from 34% in 2023 and down 4.8 points since 2015, when it was 38%.

Figure 42 Tenure Status

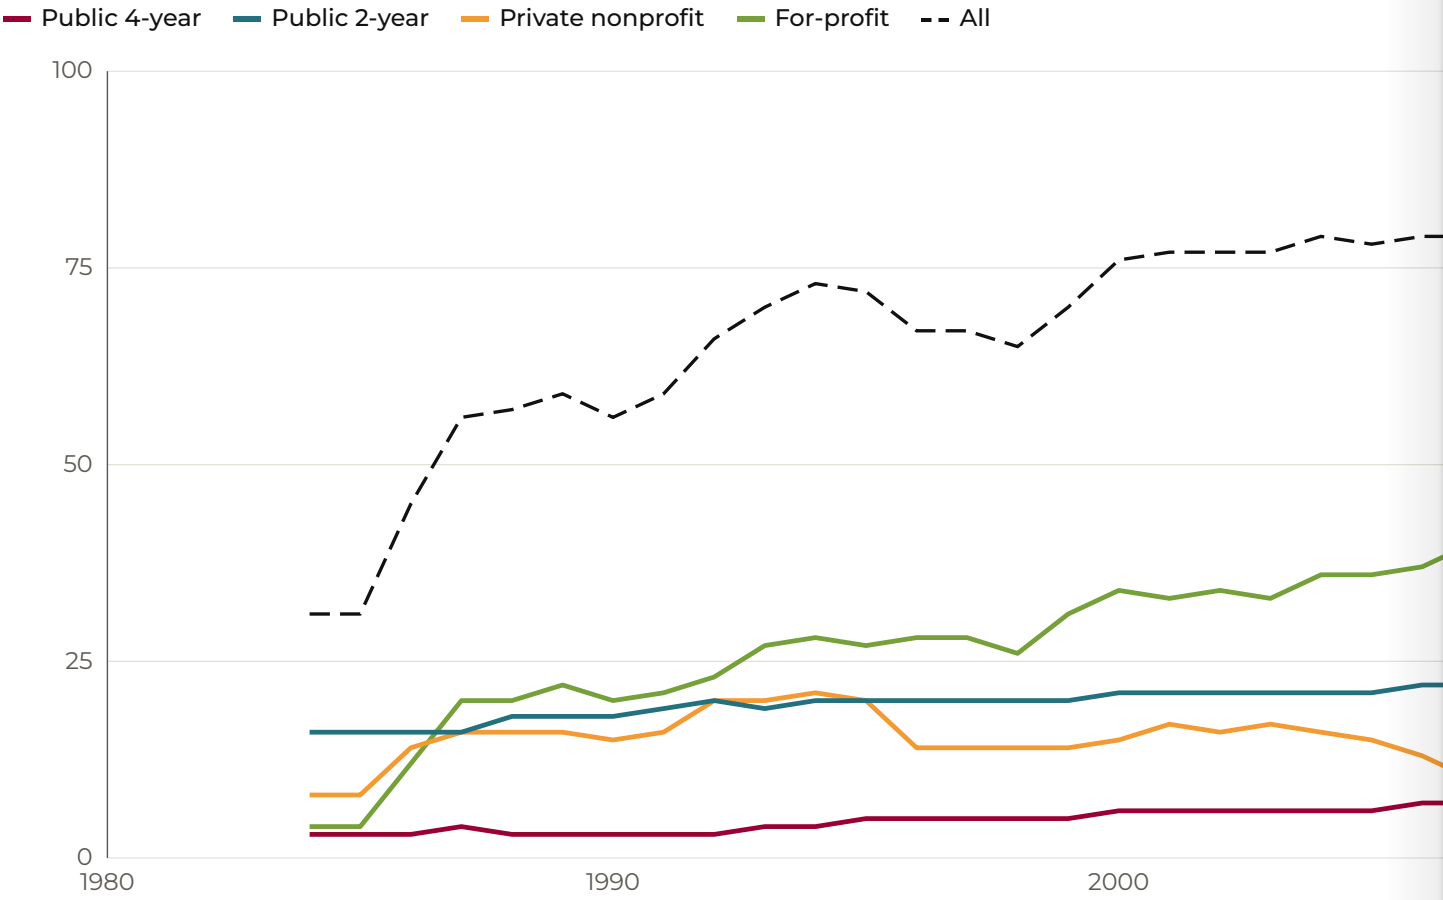

Full-time instructional staff by tenure status, 2015, 2019, 2024. Data from NCES, IPEDS.

SECTION 16

Institutions

Arizona ranks 2nd of 51 on the share of enrollment at for-profit institutions, at 39% in 2024 against 5.5% for the U.S.

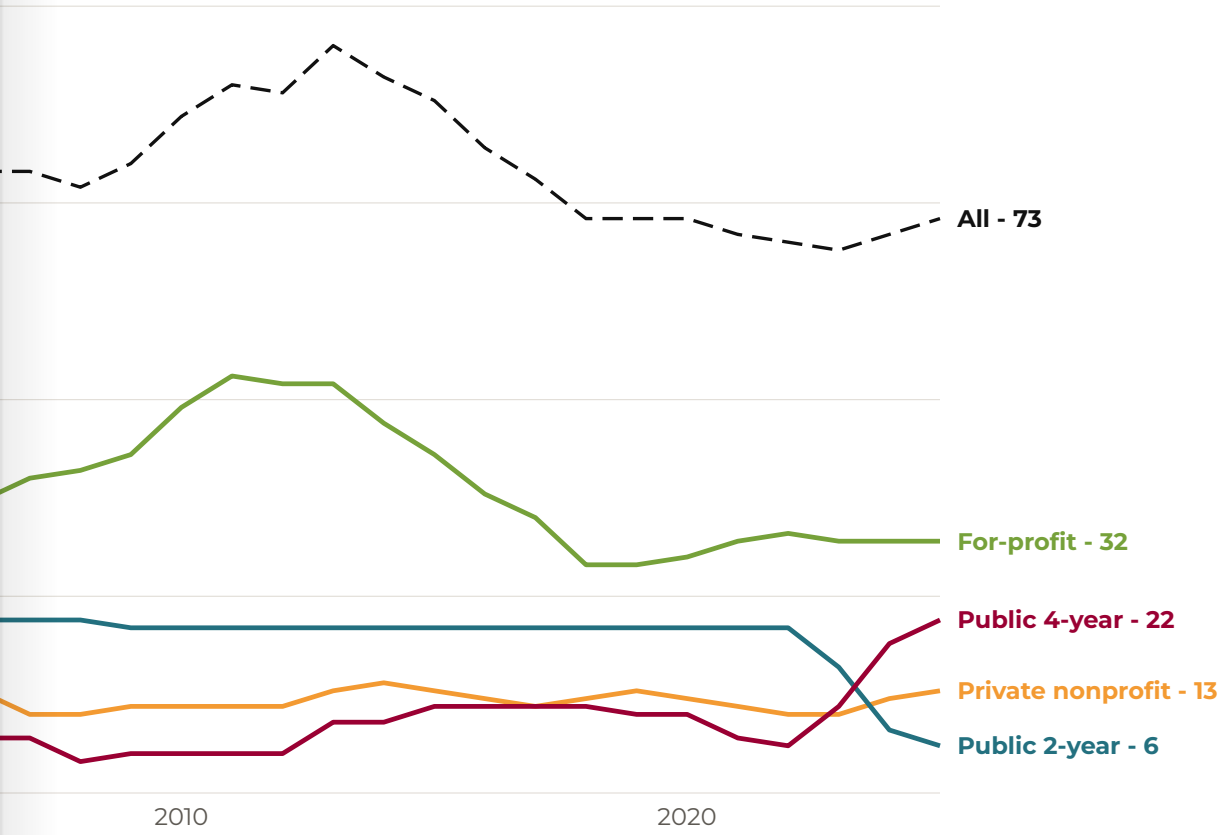

Figure 43 How Many Institutions Does Arizona Have?

Degree-granting institutions by sector. Data from NCES, IPEDS.

Arizona has 73 degree-granting institutions:22 public 4-year, 6 public 2-year, 13 private nonprofit, 32 for-profit (2025).

The number of institutions is down 17% since 2015. 59% of students attend public institutions and 39% attend for-profit ones.

SECTION 16 · INSTITUTIONS

Which Institutions Lead in Arizona?

The table ranks institutions in Arizona by the STEM master's degrees and research doctorates they awarded to international students in 2025, the two counted together. The share columns give international students' share of each institution's STEM degrees at that level.

Largest. Arizona State University Campus Immersion (1.97K international STEM master's degrees and 175 doctorates), University of Arizona (261 international STEM master's degrees and 86 doctorates), and Northern Arizona University (248 international STEM master's degrees and 4 doctorates) awarded the most.

Table 7 Which Institutions Train the Most International STEM Graduates?

Institution	Intl STEM total	Intl STEM master's	Int. share	Intl STEM doctorates	Int. share
Arizona State University Campus Immersion Tempe · Public 4-year	**2.14K**	1.97K	73%	175	48%
University of Arizona Tucson · Public 4-year	**347**	261	36%	86	38%
Northern Arizona University Flagstaff · Public 4-year	**252**	248	26%	4	13%

The table lists Arizona's largest degree-granting institutions by fall 2024 headcount enrollment, with the international share of graduate students, STEM bachelor's degrees awarded in 2025, the six-year graduation rate and the admission rate (a dash where the institution admits all applicants or does not report one).

Largest. The three largest were Grand Canyon University (113K students), University of Phoenix-Arizona (111K students), and Arizona State University Campus Immersion (79.8K students).

Table 8 What Are Arizona's Largest Institutions?

Institution	Enrollment	Int. share, grad	STEM bachelor's	Six-year grad rate	Admit rate
Grand Canyon University	**113K**	0.8%	949	43%	79%
University of Phoenix-Arizona	**111K**	0.7%	1.32K	16%	–

Fall 2024 enrollment; degrees 2025. Data from NCES, IPEDS.

NOTES

About These Data

International students

U.S. nonresidents on temporary visas, as IPEDS defines them. IPEDS does not record country of citizenship. Permanent residents count with U.S. citizens.

STEM

CIP families 03, 04, 11, 14, 15, 26, 27 and 40. Doctorates are research and scholarship doctorates; professional doctorates appear only in the degree-count figure. Degrees are first majors only.

Universe

Degree-granting institutions located in the state; Title IV participants from 1996. Geography is the institution's location, not the student's home. Enrollment is fall headcount.

Migration

First-time degree-seeking undergraduates by home state, reported in even years before 2001 and every year since; odd years with incomplete reporting are omitted. Net migration is students arriving from other states minus residents leaving, per 100 resident first-time students.

Money

Tuition, appropriations, revenue and faculty salaries are in 2024 dollars using the CPI-U. Research funding (HERD, Federal Funds, USAspending), wages and the NAFSA economic contribution are nominal dollars, and are labeled so. Appropriations and revenue are per full-time-equivalent student at public institutions; the tuition share divides net tuition by net tuition plus state and local appropriations.

Race and ethnicity

IPEDS did not collect race and ethnicity in every year before 2010, and categories changed in 2008–2010; “Two or more” exists only from then.

Countries of citizenship

From DHS SEVIS by the Numbers: active F-1 and M-1 student records in the month named, at every level from primary school to doctorate, by the state of the school. IPEDS records only whether a student is a U.S. nonresident, not where they come from. SEVIS counts are monthly snapshots and are not directly comparable with IPEDS fall enrollment or degree counts. Year-to-year comparisons use one fall snapshot per year (the month closest to November).

Peers

Comparison states are the four closest in total fall enrollment, measured proportionally: a state 1.5 times as large counts as near as one two-thirds the size.

Sources

IPEDS (National Center for Education Statistics) is the backbone: Institutional Characteristics, Fall Enrollment, Completions, Graduation Rates, Finance, Human Resources and Admissions, 1980–2025, harmonized into a state panel. The profile also draws on NAEP, NSF's Survey of Graduate Students and Postdoctorates, Survey of Earned Doctorates, HERD and Federal Funds surveys, USAspending.gov, DHS SEVIS by the Numbers and ICE SEVIS releases, the Department of Labor's Office of Foreign Labor Certification and BLS wage data, the USCIS H-1B Employer Data Hub, the Census Bureau's American Community Survey and Post-Secondary Employment Outcomes, USPTO PatentsView, and other federal sources; every figure names its source, and the Sources page lists them in full. Generated November 2026.

NOTES

How the Numbers Are Counted

Ranks

Ranks are among the 50 states and the District of Columbia (1 = highest value, whether or not a high value is good). Where fewer than 51 report, the count is given ("23rd of 33").

Sectors

Sectors are as IPEDS classifies institutions each year. IPEDS moves a whole institution to "public, 4-year or above" once it awards any bachelor's degree, so community colleges that began offering applied bachelor's degrees carry all of their students into the public 4-year sector. In Arizona, 13 institutions counted as public 2-year in 2015 are counted as public 4-year in 2024; they enrolled 103K students (15% of the state's total, 30% of its public 4-year enrollment). Sector series (enrollment shares, public 4-year tuition, graduation rates by sector) reflect these moves.

Research doctorates

Two counts appear. IPEDS counts degrees institutions report as "doctor's degree, research/scholarship", which includes some practice-oriented degrees such as many Ed.D.s; the NSF Survey of Earned Doctorates counts research doctorate recipients and is smaller. Each figure names which it uses. "STEM master's per STEM research doctorate" divides IPEDS STEM master's degrees by IPEDS STEM research doctorates.

Engineering

"Engineering" alone is CIP 14. Where engineering technology (CIP 15) is added, the label says "engineering & eng. technology".

Graduation rates

IPEDS graduation rates follow first-time, full-time students and count only those who finish at the institution where they started, so they leave out part-time starters and students who transfer and finish elsewhere.

International students in SEVIS

SEVIS counts active F-1 and M-1 records, which include graduates on Optional Practical Training (up to 36 months for STEM graduates, 12 for others), so STEM shares run high. STEM follows the DHS STEM Designated Degree Program List, which is broader than the eight CIP families above, and DHS draws its STEM pages on a different basis from its all-student pages, so a country's STEM count can exceed its all-level count.

Visas and green cards

DOL labor condition applications (H-1B positions) are counted by worksite and include renewals and job changes; USCIS approvals are counted by the employer's address and split into new and continuing. PERM certifications are the employer's step toward a green card.

Patents

Patents are counted by the owner's (assignee's) location, not where inventors live; a company headquartered in another state takes its patents there.

Years

Each measure uses its latest year, so years differ across a page; every figure, table and statement gives its year, and lines that stop early are labeled with their last year.

New H-1B approvals in professional, scientific & technical services	30%	**27%**[2026]	−3.7 pp ▼	44%	−12.5 pp ▼	#27	[13]
Five largest employers' share of new H-1B approvals	30%	**27%**[2026]	−3.1 pp ▼	9.1%	−6.7 pp ▼	#33	[13]
STEM WORKFORCE AND INNOVATION							
Workers in STEM occupations	168K	**283K**[2024]	+68% ▲	13.7M	+51% ▲	#17	[12]
STEM workers as a share of all workers	5.7%	**7.8%**[2024]	+2.1 pp ▲	8.1%	+2.1 pp ▲	#21	[12]
Foreign-born share of STEM workers	18%	**20%**[2024]	+2.9 pp ▲	24%	+1.6 pp ▲	#14	[12]
Foreign-born share of STEM workers with a graduate degree	35%	**39%**[2024]	+4.0 pp ▲	41%	+2.2 pp ▲	#11	[12]
Foreign-born share of STEM workers with a doctorate	39%[2019]	**53%**[2024]	+14.0 pp ▲	47%	+0.9 pp ▲	#6	[12]
Noncitizen share of STEM workers	9.3%	**9.7%**[2024]	+0.4 pp ▲	11%	+0.7 pp ▲	#13	[12]
STEM workers born abroad who arrived in the last 10 years	5.2%	**7.5%**[2024]	+2.3 pp ▲	7.5%	+0.3 pp ▲	#10	[12]
Share of foreign-born STEM workers born in India	33%	**26%**[2024]	−7.6 pp ▼	28%	+0.7 pp ▲	#20	[12]
Foreign-born share of residents	13%	**13%**[2025]	−0.2 pp ▼	15%	+1.3 pp ▲	#16	[12]
Foreign-born share of graduate-degree holders, 25+	16%	**18%**[2025]	+2.7 pp ▲	21%	+2.8 pp ▲	#16	[12]
STEM jobs, employer survey	168K	**203K**[2025]	+20% ▲	10.4M	+26% ▲	#18	[10]
STEM jobs concentration vs the U.S., location quotient	1.09	**0.94**[2025]	−0.2 ▼	1.00	0.0	#21	[10]
Mean annual STEM wage, nominal, nominal dollars	$81.1K	**$112K**[2025]	+38% ▲	$120K	+38% ▲	#19	[10]
Median software developer wage, nominal, nominal dollars	$99.3K[2019]	**$130K**[2025]	+31% ▲	$136K	+26% ▲	#22	[10]
Software developer jobs	24.6K	**38K**[2025]	+55% ▲	1.69M	+48% ▲	#16	[10]
Mean annual wage, all occupations, nominal, nominal dollars	$45.3K	**$67.6K**[2025]	+49% ▲	$69.8K	+44% ▲	#20	[10]
Patents granted to assignees in the state	1.2K	**1.78K**[2025]	+49% ▲	135K	−0.6% ▼	#20	[22]
Share of U.S.-assignee patents	0.9%	**1.3%**[2025]	+0.4 pp ▲	–	–	#20	[22]
Share of the state's patents in digital technologies	27%	**28%**[2025]	+0.9 pp ▲	43%	+1.6 pp ▲	#18	[22]
Share of the state's patents in life sciences	15%	**14%**[2025]	−1.2 pp ▼	17%	+0.4 pp ▲	#33	[22]

Superscript years mark the year observed; changes since 2015 start from 2015 or the first later year with data. Rank is among the 50 states and DC (1 = highest). "pp" is percentage points. Dollars are 2024 dollars (CPI-U) unless the measure is labeled nominal. Counts and dollars are rounded to three significant figures (K, M, B). Arrow colors show direction only. Source numbers refer to the list of sources that follows the tables.

ARIZONA – BY THE NUMBERS (CONTINUED)

Measure	2015	Latest	Change since 2015	U.S., latest	U.S. change since 2015	Rank	Source
STEM WORKFORCE AND INNOVATION (CONTINUED)							
Share of the state's patents in semiconductors	15%	**9.7%**[2025]	−5.6 pp ▼	2.9%	−1.7 pp ▼	#2	[22]
Women's share of inventors on the state's patents	7.3%	**11%**[2025]	+4.2 pp ▲	14%	+3.4 pp ▲	#26	[22]
