Authors

Emerson Victoria Johnston is a research assistant with the Hoover Institution's Technology Policy Accelerator. A Knight-Hennessy Scholar, she holds a master's in international policy from Stanford University, and is on leave from its master's program in the history of science, technology, environment, and medicine.

Dr. Amy Zegart is the Morris Arnold and Nona Jean Cox Senior Fellow at the Hoover Institution, director of Hoover's Technology Policy Accelerator, and a senior fellow and associate director at Stanford University's Institute for Human-Centered Artificial Intelligence.

Data come from the Integrated Postsecondary Education Data System (IPEDS), the Department of Homeland Security's SEVIS by the Numbers, the National Assessment of Educational Progress, NSF's Survey of Graduate Students and Postdoctorates and Survey of Earned Doctorates, the Department of Labor's Office of Foreign Labor Certification, the USCIS H-1B Employer Data Hub, the Census Bureau's American Community Survey and USPTO patent data via PatentsView, processed in Python; every figure and table is generated from those sources, and each one names its source.

About This Profile

This profile is a companion to *The 2026 US Talent Report: Benchmarking America's STEM Pipeline Amid the Great Talent Competition*. It applies the report's measures to Missouri: the students the state develops at home, those it draws from abroad, and how both compare with the nation and with the states closest to it in size.

Degrees, enrollment, prices, outcomes and faculty come from IPEDS, the federal census of U.S. colleges and universities, harmonized across 1980–2025. Countries of citizenship come from SEVIS by the Numbers, the Department of Homeland Security's monthly count of active F-1 and M-1 students. Each figure names its source. Peer states are the four closest in total fall enrollment.

Public Data and Tools

The data behind every chart come from federal sources: the Integrated Postsecondary Education Data System (IPEDS), published by the National Center for Education Statistics, as the backbone, together with NAEP, NSF's surveys of graduate students, doctorates and research funding, USAspending.gov, DHS and ICE SEVIS data, the Department of Labor, USCIS, the Census Bureau's American Community Survey and Post-Secondary Employment Outcomes, and USPTO PatentsView. Each figure names its source, and the Sources page lists all of them. An interactive version of this profile accompanies the report.

AT A GLANCE

What Missouri's numbers say

1. **International students earn 83% of Missouri's STEM master's degrees,** 30.6 points above the U.S. (52%) in 2025, ranking 1st of 51 on dependence. The share is 51% for STEM research doctorates (U.S. 43%) and 5.7% for STEM bachelor's (U.S. 6.6%).
2. **Missouri awarded 7.27K STEM master's degrees to international students in 2025,** 6.2% of the U.S. total and 6th of 51 among states. Since 2015 the count changed 3.3×, against 2.2× nationally.
3. **The heaviest dependence is in computer & info sciences,** where international students earned 94% of master's degrees (6.55K degrees; U.S. 65%). 3 STEM fields with at least 50 master's graduates are majority-international.
4. **Among states of similar size,** Missouri ranks 1st of 5 on the international share of STEM master's: Missouri 83%, Washington 39%, Maryland 31%, Wisconsin 55%, Tennessee 50%.
5. **74% of Missouri's first-time students in fall 2024 were state residents** and 3.6% came from abroad. More students arrived from other states (10.6K) than residents left (10.4K), a net gain of 155; the top destination for those leaving was Kansas.

83%

of the STEM master's degrees Missouri awards go to international students (U.S. 52%).

SECTION 1

International Dependence

Missouri ranks 1st of 51 on the international share of all master's, at 41% in 2025 against 22% for the U.S.

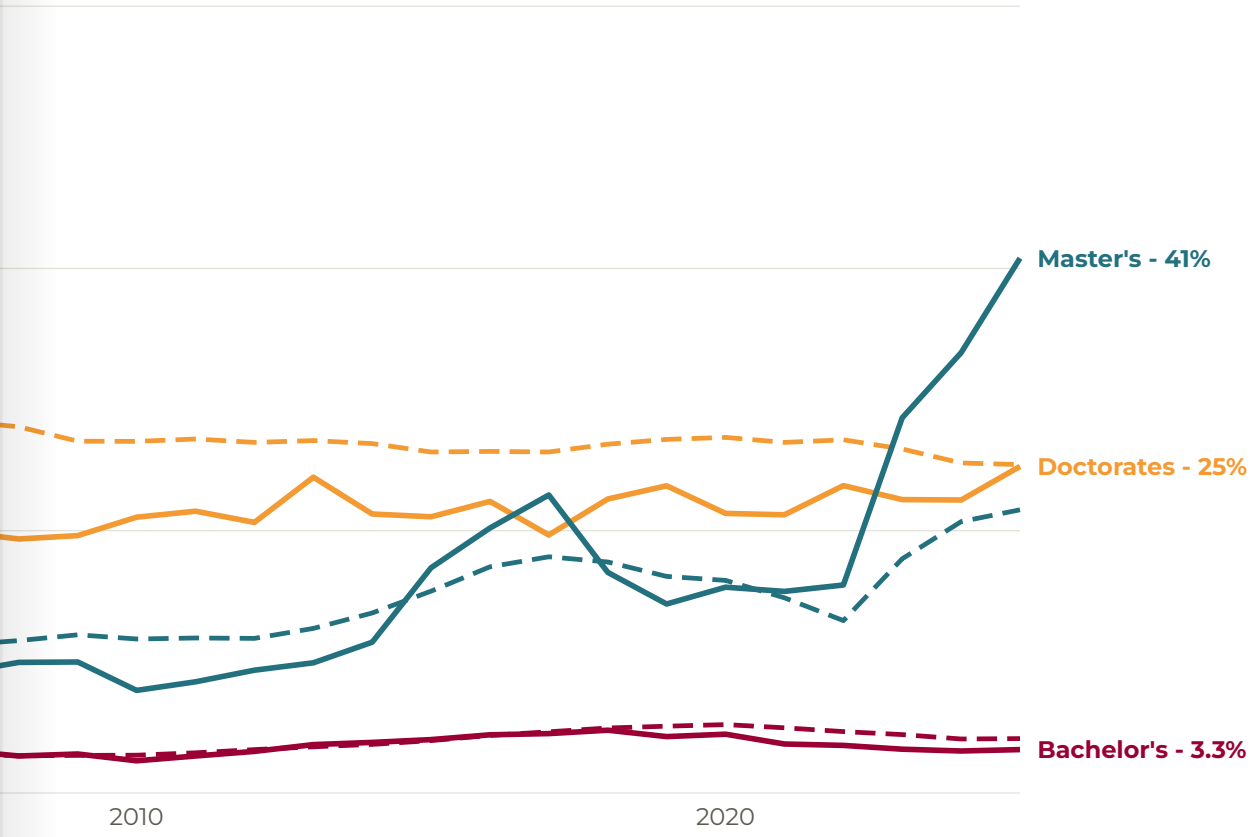

Figure 1 What Share of Missouri's Degrees Go to International Students?

International share of degrees awarded, all fields; state solid, U.S. dashed. Data from NCES, IPEDS Completions, 1985–2025

International students make up 26% of Missouri's graduate enrollment and 2.7% of its undergraduates. Dependence climbs with each degree: 3.3% of bachelor's, 41% of master's and 25% of research doctorates go to international students.

In STEM the shares are higher still: 5.7% of STEM bachelor's, 83% of STEM master's and 51% of STEM doctorates. The state awards 6.2% of all U.S. international STEM master's, 6th of 51.

SECTION 1 · INTERNATIONAL DEPENDENCE

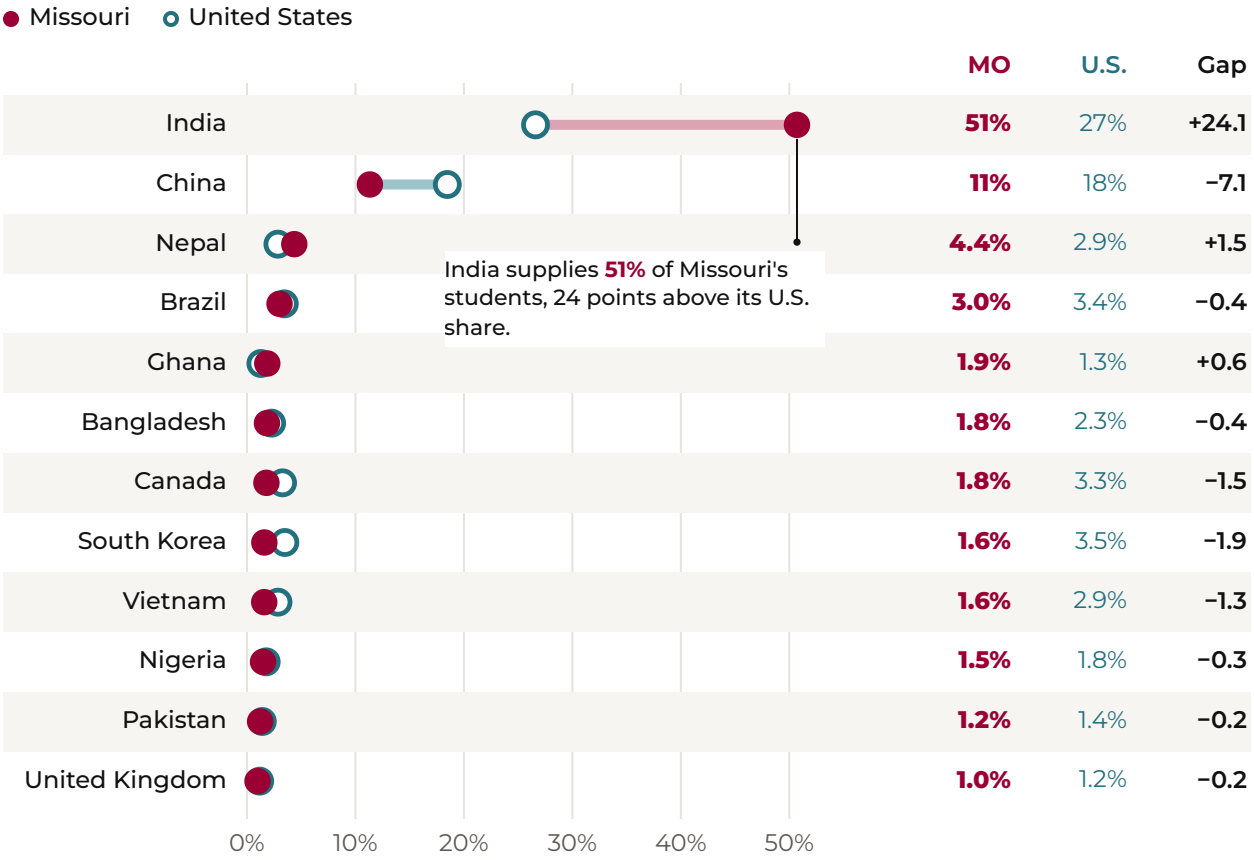

How Does Missouri's Mix of Countries Compare With the Nation's?

In October 2026, Missouri had **32.7K** active F-1 and M-1 students, 10th among the 50 states and DC and **2.7%** of the U.S. total. They came from 177 countries.

India supplied **51%** of them, against 27% nationally, and China **11%**, against 18%. Nepal (4.4%), Brazil (3.0%), and Ghana (1.9%) followed.

Together the two largest countries supplied **62%** of the state's international students (U.S. 45%), 3rd among the states, against 56% in 2015.

Figure 3 Is Missouri's Mix of Countries Like the Nation's?

	MO	U.S.	Gap
India	51%	27%	+24.1
China	11%	18%	−7.1
Nepal	4.4%	2.9%	+1.5
Brazil	3.0%	3.4%	−0.4
Ghana	1.9%	1.3%	+0.6

The state's count is down 5.7% from 2025 and up 34% since 2015, when it stood at 24.4K. Its share of all U.S. international students is up 0.7 points since 2015, to **2.7%**.

Since 2015, the number of students from India went from 6.71K to 16.6K, China's from 6.89K to 3.71K, and Nepal's from 527 to 1.43K.

Over the same years, the number from Brazil went from 340 to 981 and Ghana's from 113 to 613. The table gives each country's count for the first, previous and latest years.

Table 1 International Students in Missouri, 2015–2026

	2015	2025	2026	Change since 2015	U.S. 2026	Rank

Figure 4

Which Countries Supply Missouri's International STEM Students?

14.8K of Missouri's international students were in STEM fields in October 2026, **45%** of the total against 63% nationally, up 24% since 2015.

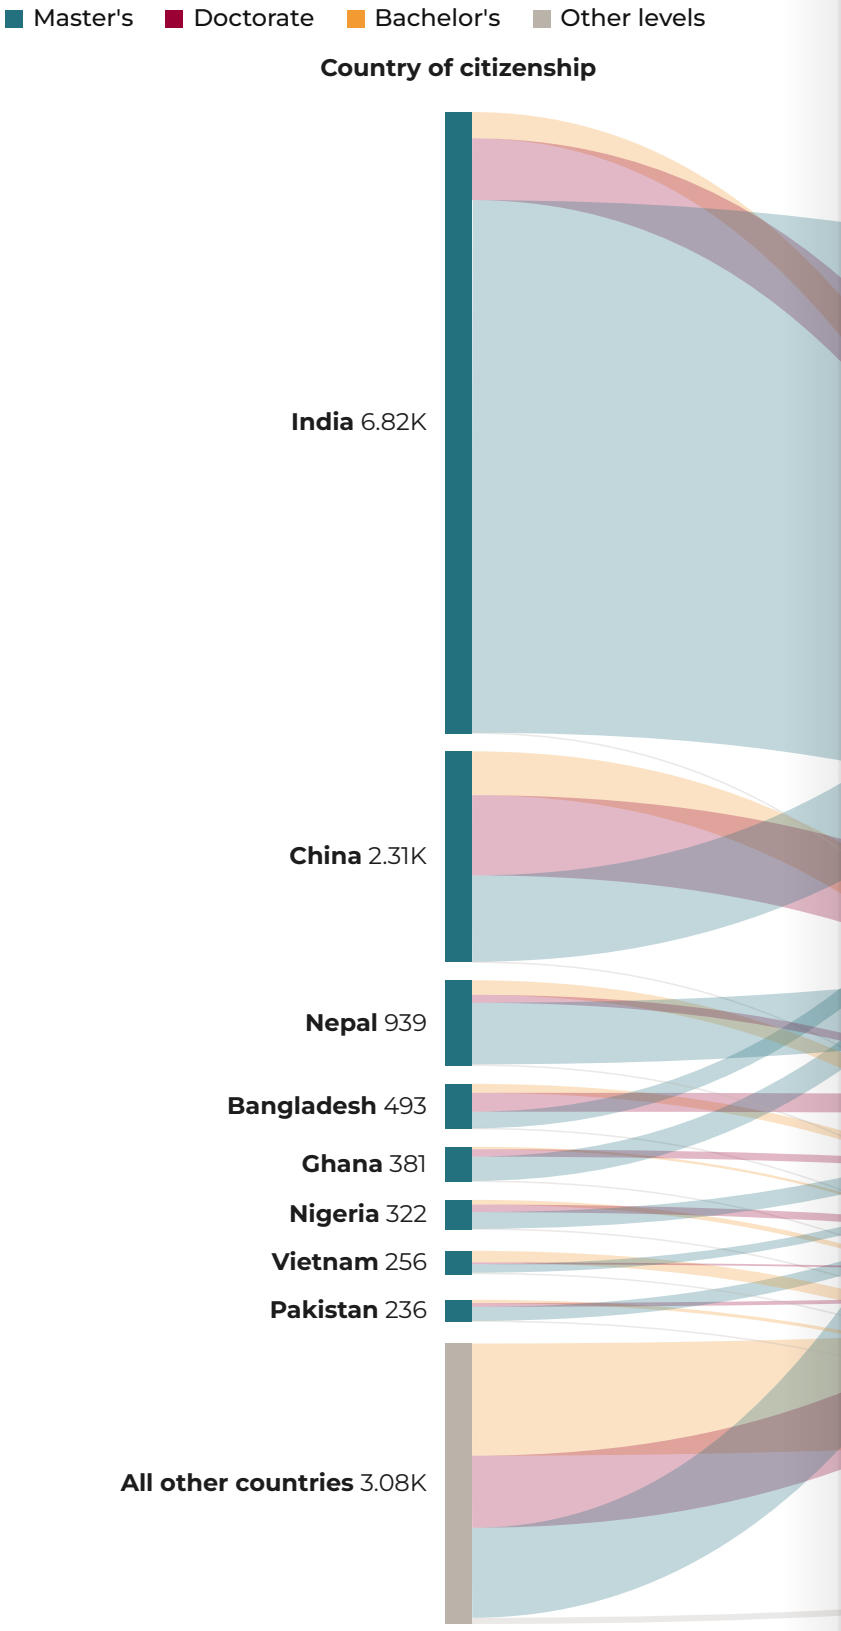

Master's students were the largest group, **9.33K**. India supplied 63% of them and China 10%.

STEM doctoral students went from 1.73K in 2015 to **2.87K**, and STEM master's students from 7.37K to 9.33K.

SECTION 1 · INTERNATIONAL DEPENDENCE

How International Are Missouri's Master's Fields?

Each row is a master's field with at least 30 graduates in Missouri in 2025, ranked by the share of degrees earned by international students (U.S. nonresidents on temporary visas). The filled dot is the state's share; the open dot is the national share for the same field.

Highest international shares. International students earned the largest shares of master's degrees in computer & info sciences (94%, against 65% for the U.S.), math & statistics (77%, against 55% for the U.S.), and law (74%, against 44% for the U.S.).

Figure 5 Which Master's Fields Depend Most on International Students?

International share of master's degrees by field, 2025; fields with 30+ graduates. Data from NCES, IPEDS Completions.

41%
Int. share of all master's, 2025
U.S. **22%** · **1st** of 51

83%
Int. share of STEM master's, 2025
U.S. **52%** · **1st** of 51

94%
Int. share of CS master's, 2025
U.S. **65%** · **1st** of 47

The table gives the international share of degrees in each STEM field at three levels: Missouri first, the United States after the slash. The master's column is highlighted. A dash means the state awarded no degrees in the field at that level.

Highest international share among STEM master's fields. International students earned 94% of the master's degrees in computer & info sciences, against 65% for the U.S.

Fields with an international majority. International students earned more than half of the master's degrees in 3 STEM fields.

Table 2 How International Is Each STEM Field?

Field	Bachelor's	Master's	Doctorates
Computer & info sciences	9.5% / 8.6%	**94% / 65%**	87% / 56%
Engineering	4.9% / 7.2%	**43% / 49%**	60% / 55%
Engineering technology	3.1% / 4.5%	**69% / 54%**	– / 42%
Math & statistics	9.8% / 17%	**77% / 55%**	– / 53%
Physical sciences	6.5% / 6.0%	**35% / 33%**	60% / 38%
Biological sciences	2.7% / 3.4%	**28% / 23%**	30% / 23%
Natural resources	0.4% / 2.0%	**17% / 17%**	– / 27%
Architecture	8.4% / 7.3%	**40% / 29%**	– / 55%

International share in Missouri / U.S., 2025. Data from NCES, IPEDS Completions.

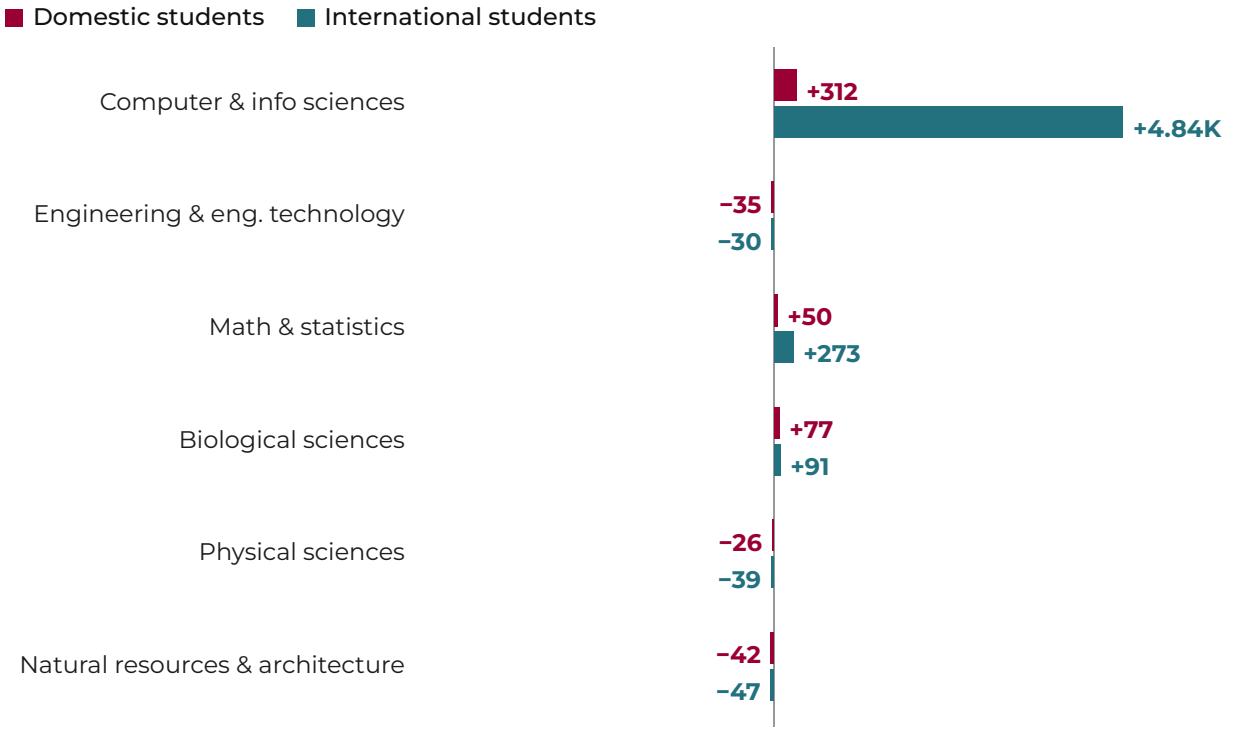

SECTION 1 · INTERNATIONAL DEPENDENCE

How Has Missouri's STEM Master's Output Grown?

Each pair of bars is the change in the number of STEM master's degrees awarded in Missouri between 2015 and 2025 in one field: to domestic students (U.S. citizens and permanent residents) and to international students. Bars to the left of the axis are declines.

STEM master's degrees. The state awarded 8.8K in 2025 and 3.37K in 2015, a change of +5.09K for international students and +336 for domestic students.

Figure 6 Where Did the STEM Master's Growth Come From?

Change in STEM master's degrees by field, 2015–2025. Data from NCES, IPEDS Completions.

Students and Postdoctorates.

In 2016, the last year NSF published state tables, 52% of Missouri's science and engineering graduate students held temporary visas (U.S. 39%; 1st of 51).

Among postdoctoral researchers, the share was 52% (U.S. 56%). Postdocs are the stage of research training most dependent on international talent, and IPEDS does not count them.

The state's institutions awarded 955 research doctorates in 2025, 1.6% of the U.S. total (Data from NSF NCSES, Survey of Earned Doctorates; NSF publishes doctorates by citizenship only for the nation).

SECTION 6

Do Graduates Stay?

Missouri ranks 49th of 51 on the share of international graduates on OPT working in the state where they studied, at 16% in 2016 against 44% for the U.S.

Figure 16 How Many of Missouri's Graduates Go On to Work in the State?

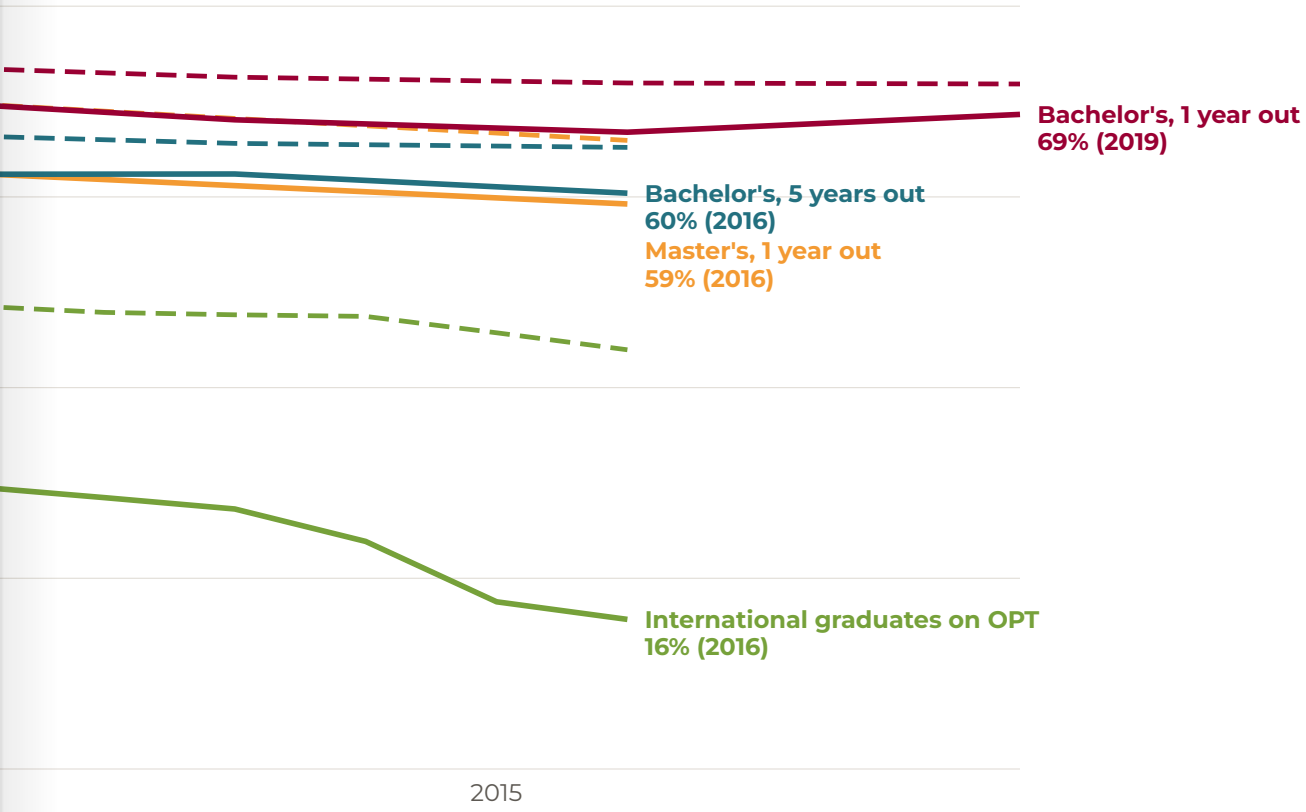

Share of employed graduates working in the state of their institution, by graduating cohort (Data from U.S. Census Burea state where they studied (Data from ICE, SEVIS FOIA releases; shares only, the file is truncated). State solid, U.S. or particip

Of Missouri's bachelor's graduates who were working a year after graduating, 69% worked in the state (participating states 72%). Five years out the share was 60%.

Among international graduates on Optional Practical Training in 2016, 16% worked in the state where they studied (U.S. 44%). That is the last year the released records cover, before most of the growth in international STEM master's degrees since 2015. Through migration between states, the state lost 2.7 bachelor's-plus adults per 1,000 such residents in 2025 (Data from U.S. Census Bureau, American Community Survey).

SECTION 12

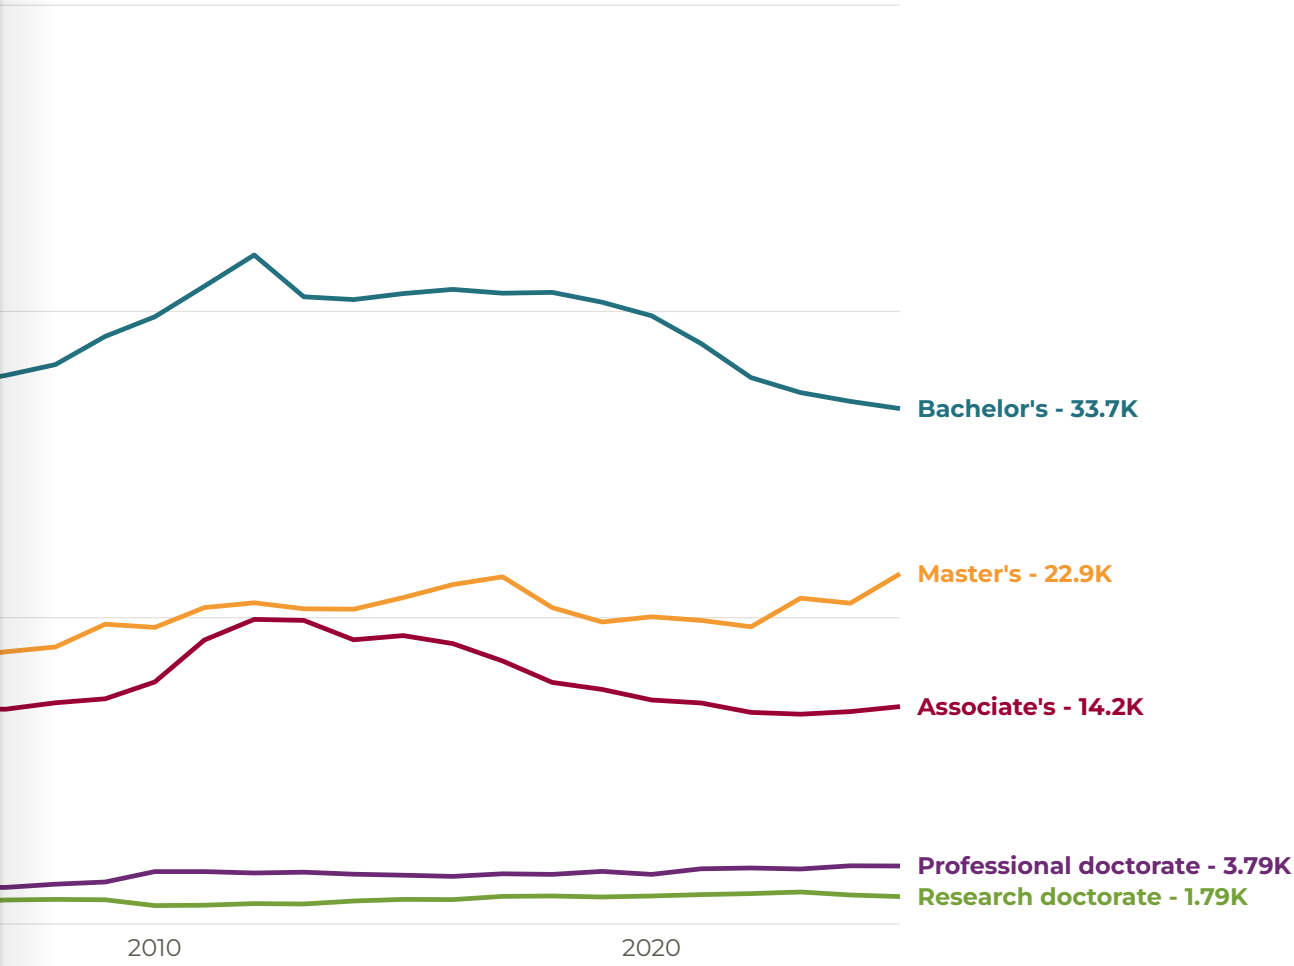

Fields of Study

Figure 27 How Many Degrees Does Missouri Award?

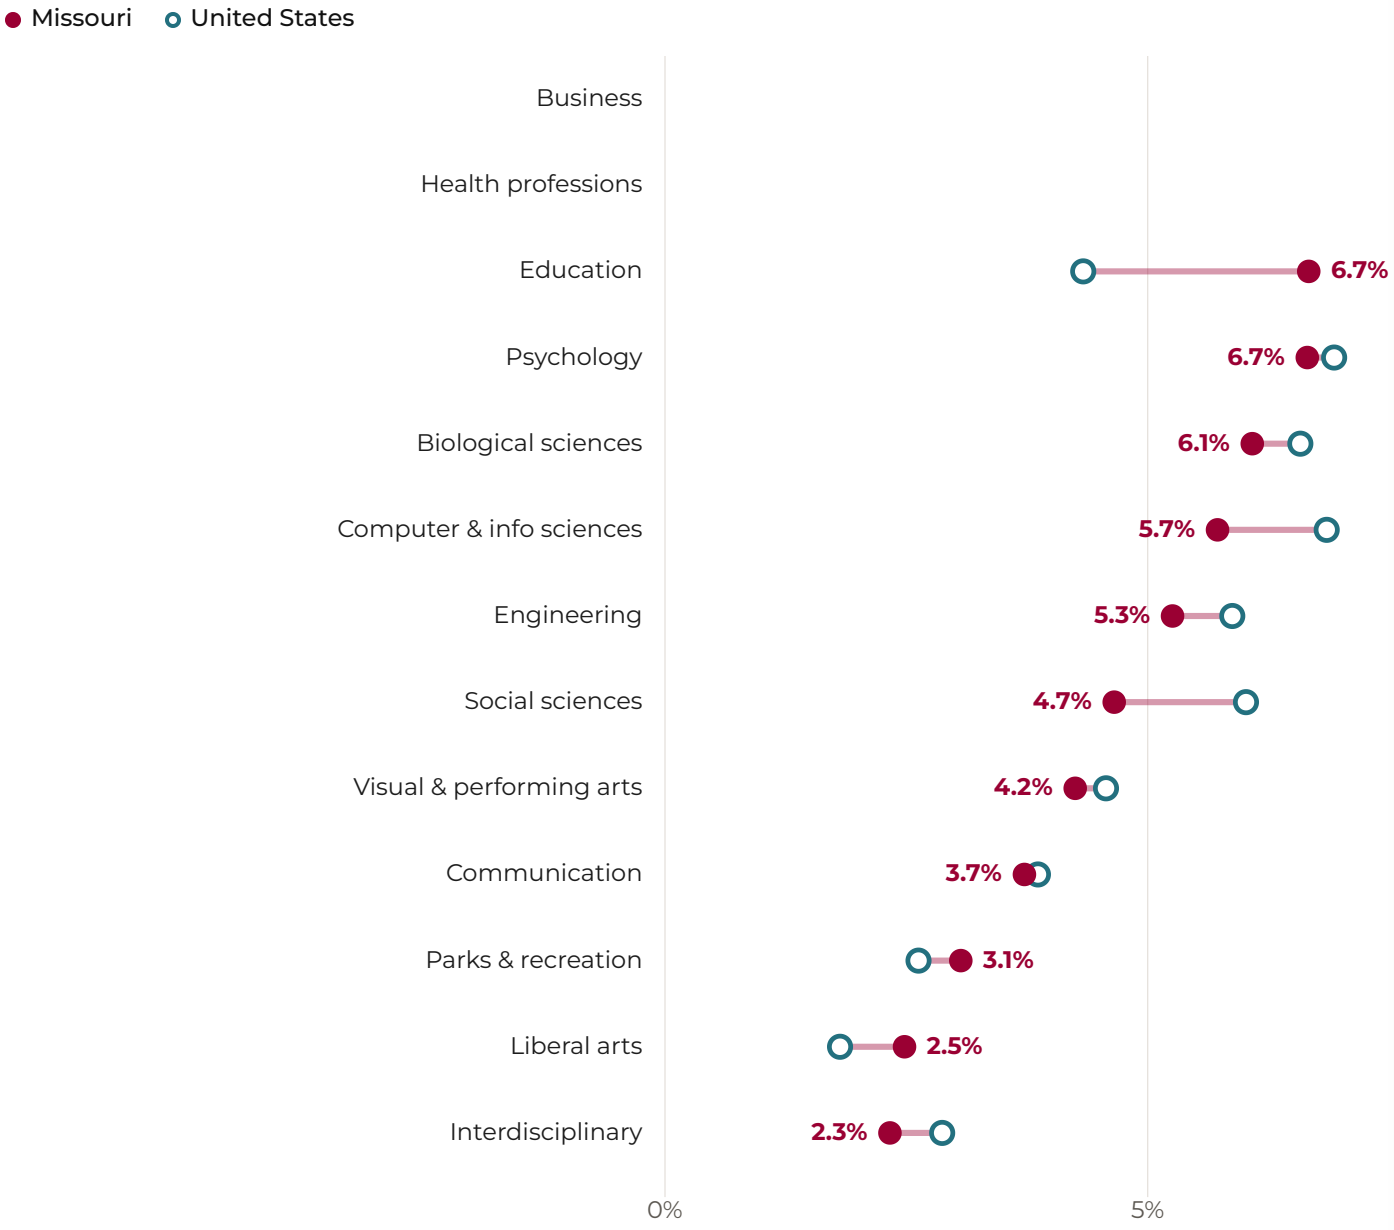

Degrees awarded by level, first majors. Data from NCES, IPEDS Completions.

In 2025, Missouri's institutions awarded 14.2K associate's degrees, 33.7K bachelor's degrees, 22.9K master's degrees, 1.79K research doctorate degrees, 3.79K professional doctorate degrees.

Since 2015: associate's down 25%; bachelor's down 18%; master's up 7%; research doctorate up 11%; professional doctorate up 19%. The state awards 12.8 bachelor's degrees for every 100 undergraduates (U.S. 12.3).

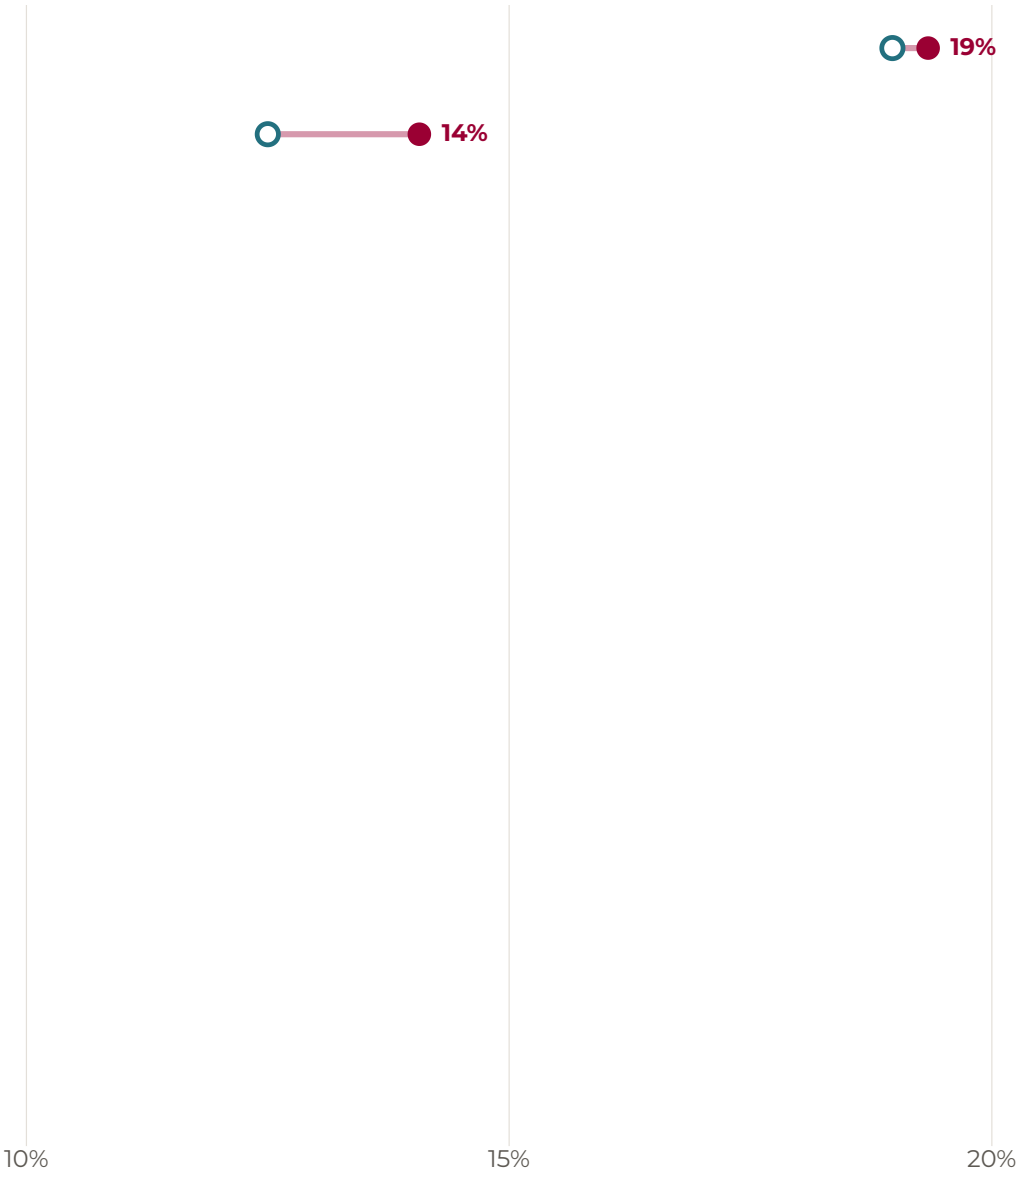

Figure 28 What Do Missouri's Bachelor's Graduates Study?

Share of bachelor's degrees by field, 2025. Data from NCES, IPEDS.

Missouri's largest bachelor's fields are business (19%; U.S. 19%), health professions (14%; U.S. 13%), education (6.7%; U.S. 4.3%).

Relative to the nation, Missouri's bachelor's degrees are most concentrated in theology (3.79× the U.S. share), agriculture (1.77× the U.S. share), education (1.54× the U.S. share).

Figure 30 How Has Missouri's Bachelor's Field Mix Changed?

Share of bachelor's degrees in the largest fields. Data from NCES, IPEDS Completions.

Since 2015, computer & info sciences has gained the most ground, 2.6 points of the state's bachelor's degrees, while business lost the most (2.3 points).

The chart follows the share of bachelor's degrees in each of the state's largest fields; smaller fields are grouped as other fields.

SECTION 12 · FIELDS OF STUDY

Where Is Missouri Specialized, and What Do Its Doctoral Graduates Study?

The location quotient divides a field's share of Missouri's bachelor's degrees by its share of all U.S. bachelor's degrees in 2025. A quotient of 1.00 means the same share as the nation; 2.00 means twice the national share. The table lists the 10 fields with the highest quotients among fields with at least 50 degrees.

Highest location quotients. Theology (3.79, with 1.1% of the state's bachelor's degrees against 0.3% for the U.S.), agriculture (1.77, with 1.8% of the state's bachelor's degrees against 1.0% for the U.S.), and education (1.54, with 6.7% of the state's bachelor's degrees against 4.3% for the U.S.) had the highest quotients.

Table 5 Where Is Missouri Most Specialized?

Field	Location quotient	State share	U.S. share	Degrees
Theology	**3.79**	1.1%	0.3%	364
Agriculture	**1.77**	1.8%	1.0%	612
Education	**1.54**	6.7%	4.3%	2.24K
Liberal arts	**1.37**	2.5%	1.8%	835

SECTION 13 · STUDENTS AND MONEY

How Are Missouri's Public Institutions Funded, and What Do They Produce?

The bars give each source's share of the core revenue of Missouri's public institutions, with the nation for comparison, and at right the dollars per full-time-equivalent (FTE) student it provides. Values are in 2024 dollars (CPI-U). Net tuition is tuition and fees after institutional discounts and allowances.

Net tuition per FTE student. The figure was $7.96K in FY2024, against $8.96K for the U.S., up 1.2% from $7.86K in FY2023 and down 2.5% since FY2015, when it was $8.16K.

Figure 36 How Are Public Institutions Funded?

Share of core revenue per FTE student by source, public institutions, FY2024; dollars per FTE at right, 2024 dollars (CPI-U). Shares are of all five sources; the tuition share elsewhere in this profile divides net tuition by net tuition plus state and local appropriations only. Data from NCES, IPEDS Finance.

$10.5K

Average faculty salary	2024	**$93.7K**	$106K	31st of 51	−4.5%

Rank among the 50 states and DC (1 = highest). Dollars in 2024 dollars (CPI-U). Data from NCES, IPEDS.

SECTION 14

Student Outcomes

Missouri ranks 13th of 50 on the share of completion within 150% of normal time, 2-year institutions, at 45% in 2024 against 41% for the U.S.

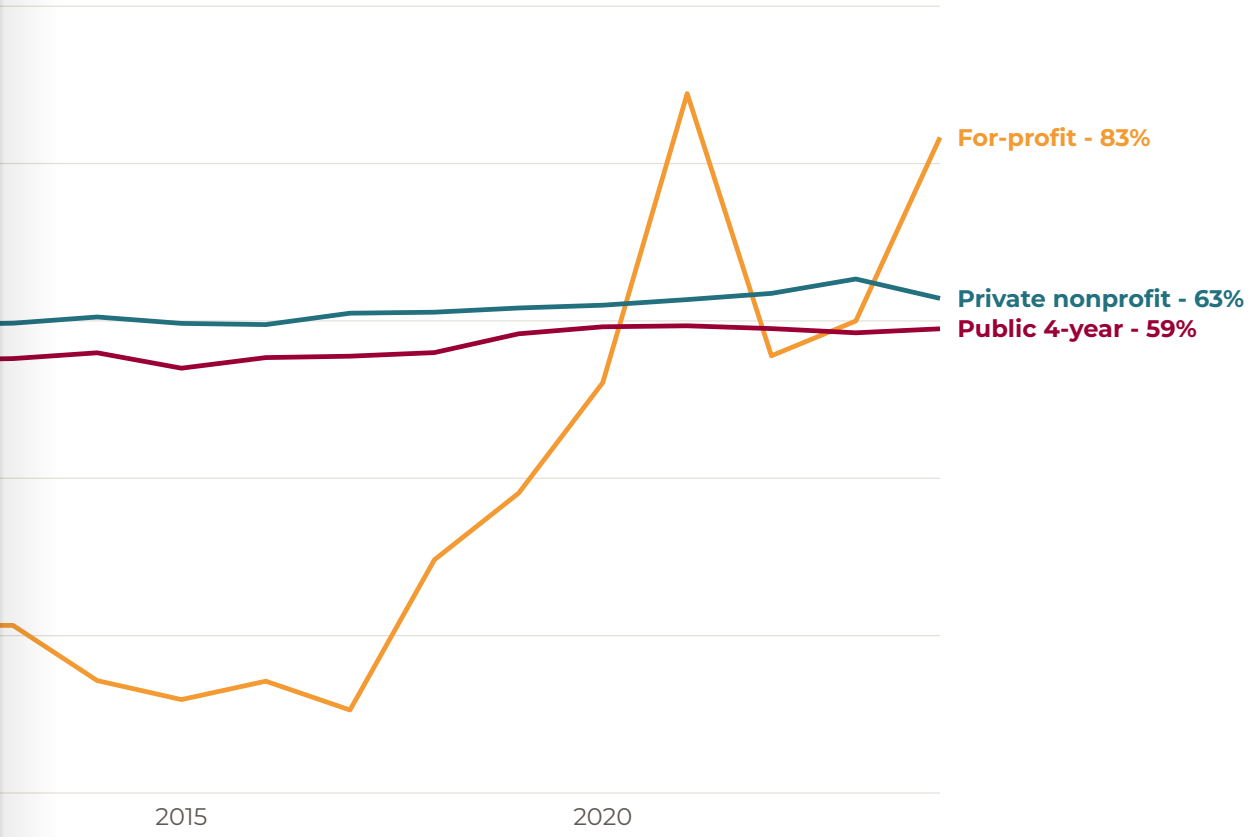

Figure 37 How Do Graduation Rates Differ by Sector?

Six-year bachelor's graduation rate by sector of institution. Data from NCES, IPEDS Graduation Rates.

60% of students who started a bachelor's degree at a four-year institution in Missouri graduated within six years (2024), 4.3 points below the U.S. (65%); the state ranks 28th of 51.

By sector: public 4-year 59%, private nonprofit 63%, for-profit 83%. At two-year institutions, 45% complete within 150% of normal time (U.S. 41%).

SECTION 14 · STUDENT OUTCOMES

How Many of Missouri's Students Graduate?

The line follows the share of first-time, full-time bachelor's-degree students at Missouri's four-year institutions who graduated from the institution where they started within six years (150% of normal time). Each year is the cohort that entered six years earlier. The rate leaves out students who start part-time (40% of the state's students attend part-time, against 39% nationally) and students who transfer and finish elsewhere. The state is solid and the United States dashed.

Six-year graduation rate. The rate was 60% in 2024, against 65% for the U.S., down 0.6 points from 61% in 2023 and up 6.0 points since 2015, when it was 54%.

Figure 38 Six-Year Bachelor's Graduation Rate

12.8
Bachelor's per 100 undergraduates, 2025
U.S. **12.3** · **23rd** of 51

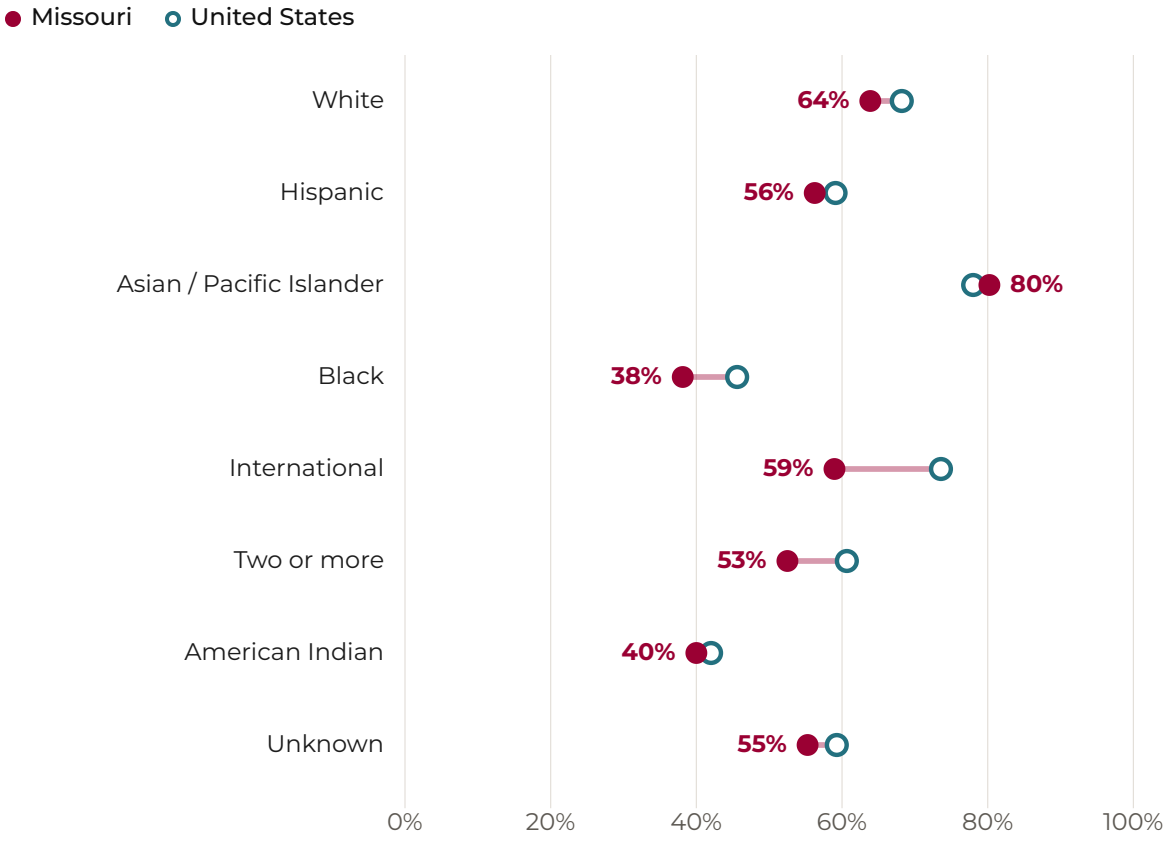

Each row is the six-year bachelor's graduation rate for one racial or ethnic group of students at Missouri's four-year institutions (filled dot), against the national rate for the same group (open dot). Groups with fewer than 100 students in the cohort are left out.

White. The six-year rate was 64% in 2024, against 68% for the U.S.

Hispanic. The six-year rate was 56% in 2024, against 59% for the U.S.

Asian / Pacific Islander. The six-year rate was 80% in 2024, against 78% for the U.S.

Six-year rate, 2024; groups with 100+ students. Data from NCES, IPEDS.

SECTION 15

Faculty

Missouri ranks 31st of 51 on the average full-time faculty salary, at $93.7K in 2024 against $106K for the U.S.

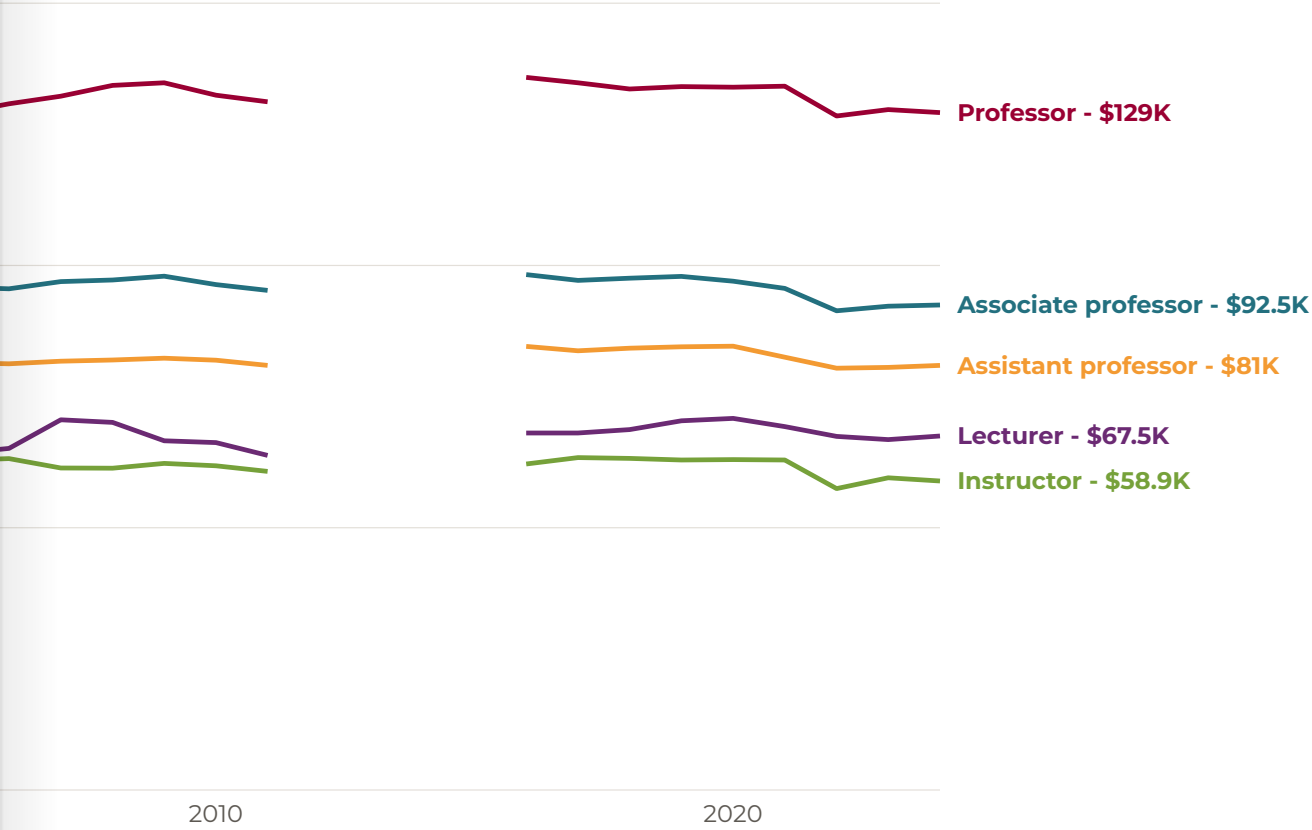

Figure 40 What Do Missouri's Faculty Earn, by Rank?

Average salary of full-time instructional faculty on 9/10-month contracts, by academic rank, 2024 dollars (CPI-U). Data fro

Full-time instructional faculty on 9/10-month contracts at Missouri's institutions earned an average of $93.7K in 2024 (2024 dollars), 11% below the U.S. ($106K); the state ranks 31st of 51. By rank (2024): professors $129K, associate professors $92.5K, assistant professors $81K, instructors $58.9K, lecturers $67.5K.

Missouri's institutions had 12.8K full-time instructional staff in 2024, down 10% since 2015. Average salary across all ranks is down 5% since 2016.

SECTION 15 · FACULTY

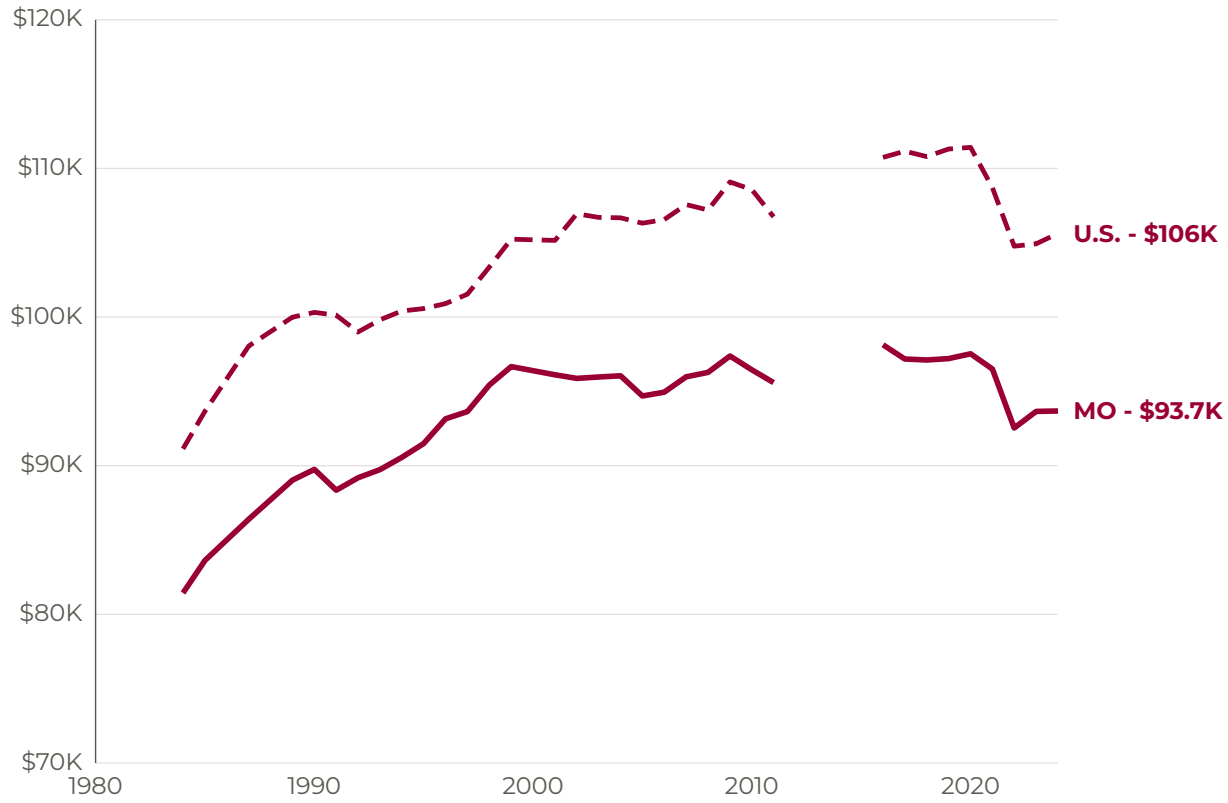

What Do Missouri's Faculty Earn, and How Many Hold Tenure?

The line follows the average salary of full-time instructional faculty on 9- or 10-month contracts at Missouri's degree-granting institutions, all ranks combined, in 2024 dollars (CPI-U). The state is solid and the United States dashed.

Average salary. The figure was $93.7K in 2024, against $106K for the U.S., 31st among the states, unchanged from $93.7K in 2023 and down 4.5% since 2016, when it was $98.1K.

Full-time instructional staff. The number was 12.8K in 2024, up 0.1% from 12.8K in 2023 and down 10% since 2015, when it was 14.3K.

Figure 41 Average Faculty Salary

Tenured, 2024

The bars divide Missouri's full-time instructional staff by tenure status in 2015, 2019 and 2024: tenured, on the tenure track, not on the tenure track (for example, lecturers on fixed-term contracts), and staff at institutions with no tenure system.

Tenured, share of full-time instructional staff. The share was 38% in 2024, down 0.7 points from 38% in 2023 and down 0.5 points since 2015, when it was 38%.

Figure 42 Tenure Status

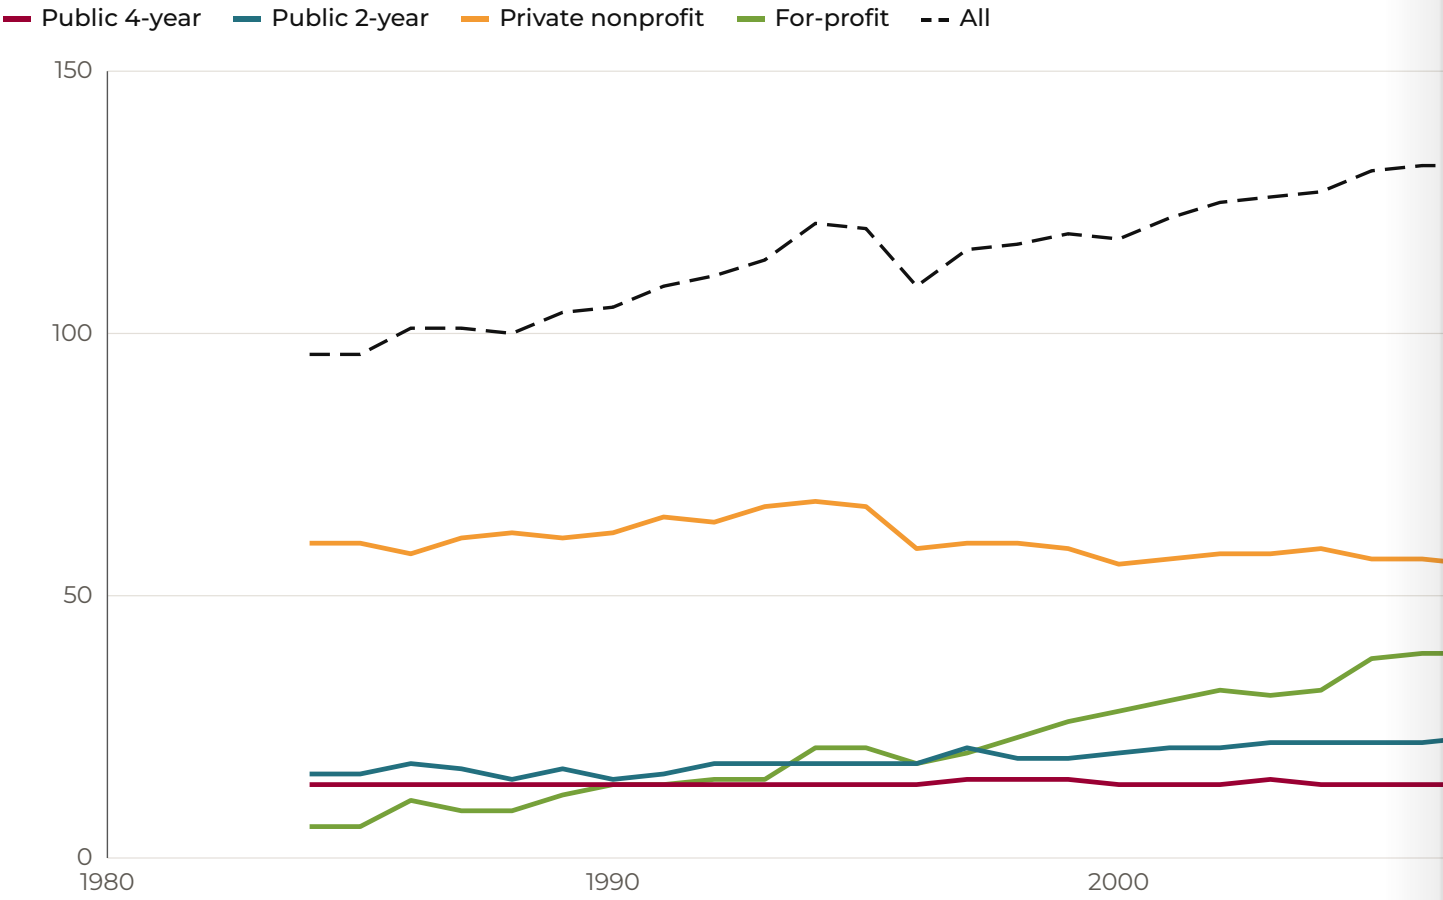

Full-time instructional staff by tenure status, 2015, 2019, 2024. Data from NCES, IPEDS.

SECTION 16

Institutions

Missouri ranks 38th of 51 on the share of enrollment at public institutions, at 63% in 2024 against 73% for the U.S.

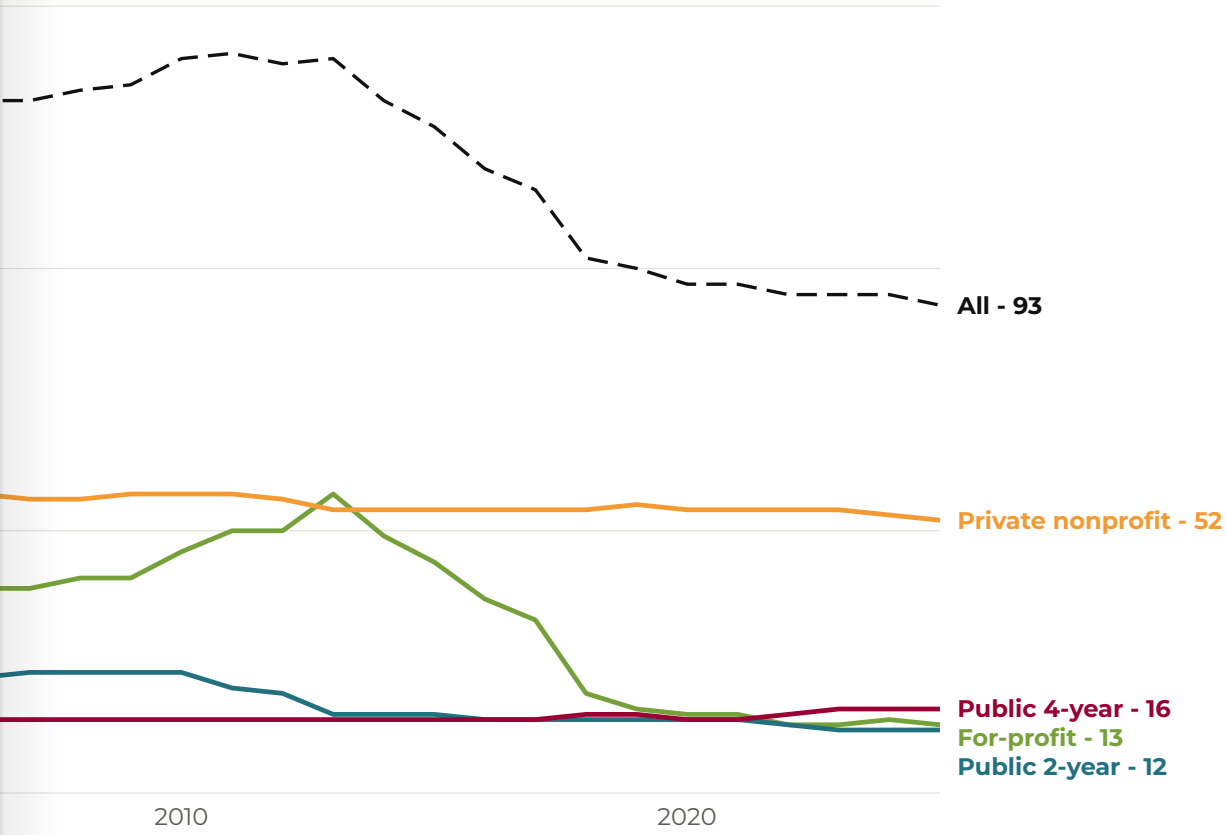

Figure 43 How Many Institutions Does Missouri Have?

Degree-granting institutions by sector. Data from NCES, IPEDS.

Missouri has 93 degree-granting institutions:16 public 4-year, 12 public 2-year, 52 private nonprofit, 13 for-profit (2025).

The number of institutions is down 27% since 2015. 63% of students attend public institutions and 0.9% attend for-profit ones.

SECTION 16 · INSTITUTIONS

Which Institutions Lead in Missouri?

The table ranks institutions in Missouri by the STEM master's degrees and research doctorates they awarded to international students in 2025, the two counted together. The share columns give international students' share of each institution's STEM degrees at that level.

Largest. University of Central Missouri (2.12K international STEM master's degrees and – doctorates), Saint Louis University (1.46K international STEM master's degrees and 15 doctorates), and Webster University (1.08K international STEM master's degrees and – doctorates) awarded the most.

Table 7 Which Institutions Train the Most International STEM Graduates?

Institution	Intl STEM total	Intl STEM master's	Int. share	Intl STEM doctorates	Int. share
University of Central Missouri Warrensburg · Public 4-year	**2.12K**	2.12K	97%	–	–
Saint Louis University Saint Louis · Private nonprofit	**1.47K**	1.46K	95%	15	52%
Webster University Saint Louis · Private nonprofit	**1.08K**	1.08K	94%	–	–
Washington University in St Louis St. Louis · Private nonprofit	**721**	597	68%	124	49%
Northwest Missouri State University Maryville · Public 4-year	**493**	493	83%	–	–
University of Missouri-Kansas City Kansas City · Public 4-year	**400**	396	79%	4	67%

The table lists Missouri's largest degree-granting institutions by fall 2024 headcount enrollment, with the international share of graduate students, STEM bachelor's degrees awarded in 2025, the six-year graduation rate and the admission rate (a dash where the institution admits all applicants or does not report one).

Largest. The three largest were University of Missouri-Columbia (31.5K students), Missouri State University-Springfield (24.4K students), and Saint Louis University (17.1K students).

Degree-granting institutions. The state had 93 in 2025, and 92 of them reported the enrollment and degree data in these tables.

Table 8 What Are Missouri's Largest Institutions?

Institution	Enrollment	Int. share, grad	STEM bachelor's	Six-year grad rate	Admit rate
University of Missouri-Columbia	**31.5K**	16%	1.25K	75%	78%
Missouri State University-Springfield	**24.4K**	16%	404	58%	91%

Ozarks Technical Community College	**11.4K**	–	–	–	–

Fall 2024 enrollment; degrees 2025. Data from NCES, IPEDS.

NOTES

About These Data

International students

U.S. nonresidents on temporary visas, as IPEDS defines them. IPEDS does not record country of citizenship. Permanent residents count with U.S. citizens.

STEM

CIP families 03, 04, 11, 14, 15, 26, 27 and 40. Doctorates are research and scholarship doctorates; professional doctorates appear only in the degree-count figure. Degrees are first majors only.

Universe

Degree-granting institutions located in the state; Title IV participants from 1996. Geography is the institution's location, not the student's home. Enrollment is fall headcount.

Migration

First-time degree-seeking undergraduates by home state, reported in even years before 2001 and every year since; odd years with incomplete reporting are omitted. Net migration is students arriving from other states minus residents leaving, per 100 resident first-time students.

Money

Tuition, appropriations, revenue and faculty salaries are in 2024 dollars using the CPI-U. Research funding (HERD, Federal Funds, USAspending), wages and the NAFSA economic contribution are nominal dollars, and are labeled so. Appropriations and revenue are per full-time-equivalent student at public institutions; the tuition share divides net tuition by net tuition plus state and local appropriations.

Race and ethnicity

IPEDS did not collect race and ethnicity in every year before 2010, and categories changed in 2008–2010; “Two or more” exists only from then.

Countries of citizenship

From DHS SEVIS by the Numbers: active F-1 and M-1 student records in the month named, at every level from primary school to doctorate, by the state of the school. IPEDS records only whether a student is a U.S. nonresident, not where they come from. SEVIS counts are monthly snapshots and are not directly comparable with IPEDS fall enrollment or degree counts. Year-to-year comparisons use one fall snapshot per year (the month closest to November).

Peers

Comparison states are the four closest in total fall enrollment, measured proportionally: a state 1.5 times as large counts as near as one two-thirds the size.

Sources

IPEDS (National Center for Education Statistics) is the backbone: Institutional Characteristics, Fall Enrollment, Completions, Graduation Rates, Finance, Human Resources and Admissions, 1980–2025, harmonized into a state panel. The profile also draws on NAEP, NSF's Survey of Graduate Students and Postdoctorates, Survey of Earned Doctorates, HERD and Federal Funds surveys, USAspending.gov, DHS SEVIS by the Numbers and ICE SEVIS releases, the Department of Labor's Office of Foreign Labor Certification and BLS wage data, the USCIS H-1B Employer Data Hub, the Census Bureau's American Community Survey and Post-Secondary Employment Outcomes, USPTO PatentsView, and other federal sources; every figure names its source, and the Sources page lists them in full. Generated November 2026.

NOTES

How the Numbers Are Counted

Ranks

Ranks are among the 50 states and the District of Columbia (1 = highest value, whether or not a high value is good). Where fewer than 51 report, the count is given ("23rd of 33").

Sectors

Sectors are as IPEDS classifies institutions each year. IPEDS moves a whole institution to "public, 4-year or above" once it awards any bachelor's degree, so community colleges that began offering applied bachelor's degrees carry all of their students into the public 4-year sector. In Missouri, 2 institutions counted as public 2-year in 2015 are counted as public 4-year in 2024; they enrolled 27K students (7.9% of the state's total, 16% of its public 4-year enrollment). Sector series (enrollment shares, public 4-year tuition, graduation rates by sector) reflect these moves.

Research doctorates

Two counts appear. IPEDS counts degrees institutions report as "doctor's degree, research/scholarship", which includes some practice-oriented degrees such as many Ed.D.s; the NSF Survey of Earned Doctorates counts research doctorate recipients and is smaller. Each figure names which it uses. "STEM master's per STEM research doctorate" divides IPEDS STEM master's degrees by IPEDS STEM research doctorates.

Engineering

"Engineering" alone is CIP 14. Where engineering technology (CIP 15) is added, the label says "engineering & eng. technology".

Graduation rates

IPEDS graduation rates follow first-time, full-time students and count only those who finish at the institution where they started, so they leave out part-time starters and students who transfer and finish elsewhere.

International students in SEVIS

SEVIS counts active F-1 and M-1 records, which include graduates on Optional Practical Training (up to 36 months for STEM graduates, 12 for others), so STEM shares run high. STEM follows the DHS STEM Designated Degree Program List, which is broader than the eight CIP families above, and DHS draws its STEM pages on a different basis from its all-student pages, so a country's STEM count can exceed its all-level count.

Visas and green cards

DOL labor condition applications (H-1B positions) are counted by worksite and include renewals and job changes; USCIS approvals are counted by the employer's address and split into new and continuing. PERM certifications are the employer's step toward a green card.

Patents

Patents are counted by the owner's (assignee's) location, not where inventors live; a company headquartered in another state takes its patents there.

Years

Each measure uses its latest year, so years differ across a page; every figure, table and statement gives its year, and lines that stop early are labeled with their last year.

Foreign-born share of STEM workers with a graduate degree	27%	**31%**[2024]	+4.4 pp ▲	41%	+2.2 pp ▲	#21	[12]
Noncitizen share of STEM workers	6.1%	**6.0%**[2024]	−0.2 pp ▼	11%	+0.7 pp ▲	#32	[12]
STEM workers born abroad who arrived in the last 10 years	3.4%	**3.8%**[2024]	+0.4 pp ▲	7.5%	+0.3 pp ▲	#35	[12]
Share of foreign-born STEM workers born in India	36%	**29%**[2024]	−7.4 pp ▼	28%	+0.7 pp ▲	#17	[12]
Foreign-born share of residents	4.0%	**4.7%**[2025]	+0.7 pp ▲	15%	+1.3 pp ▲	#45	[12]
Foreign-born share of graduate-degree holders, 25+	8.7%	**11%**[2025]	+1.9 pp ▲	21%	+2.8 pp ▲	#33	[12]
STEM jobs, employer survey	139K	**164K**[2025]	+18% ▲	10.4M	+26% ▲	#21	[10]
STEM jobs concentration vs the U.S., location quotient	0.86	**0.84**[2025]	0.0	1.00	0.0	#35	[10]
Mean annual STEM wage, nominal, nominal dollars	$78.6K	**$101K**[2025]	+28% ▲	$120K	+38% ▲	#34	[10]
Median software developer wage, nominal, nominal dollars	$91.2K[2019]	**$126K**[2025]	+38% ▲	$136K	+26% ▲	#27	[10]
Software developer jobs	17.2K	**20K**[2025]	+16% ▲	1.69M	+48% ▲	#22	[10]
Mean annual wage, all occupations, nominal, nominal dollars	$43.6K	**$62.2K**[2025]	+42% ▲	$69.8K	+44% ▲	#34	[10]
Patents granted to assignees in the state	1.14K	**1.29K**[2025]	+13% ▲	135K	−0.6% ▼	#24	[22]
Share of U.S.-assignee patents	0.8%	**1.0%**[2025]	+0.1 pp ▲	–	–	#24	[22]
Share of the state's patents in digital technologies	8.8%	**23%**[2025]	+13.8 pp ▲	43%	+1.6 pp ▲	#26	[22]
Share of the state's patents in life sciences	33%	**19%**[2025]	−14.0 pp ▼	17%	+0.4 pp ▲	#20	[22]
Share of the state's patents in semiconductors	1.3%	**0.6%**[2025]	−0.7 pp ▼	2.9%	−1.7 pp ▼	#27	[22]

Superscript years mark the year observed; changes since 2015 start from 2015 or the first later year with data. Rank is among the 50 states and DC (1 = highest). "pp" is percentage points. Dollars are 2024 dollars (CPI-U) unless the measure is labeled nominal. Counts and dollars are rounded to three significant figures (K, M, B). Arrow colors show direction only. Source numbers refer to the list of sources that follows the tables.
