Authors

Emerson Victoria Johnston is a research assistant with the Hoover Institution's Technology Policy Accelerator. A Knight-Hennessy Scholar, she holds a master's in international policy from Stanford University, and is on leave from its master's program in the history of science, technology, environment, and medicine.

Dr. Amy Zegart is the Morris Arnold and Nona Jean Cox Senior Fellow at the Hoover Institution, director of Hoover's Technology Policy Accelerator, and a senior fellow and associate director at Stanford University's Institute for Human-Centered Artificial Intelligence.

Data come from the Integrated Postsecondary Education Data System (IPEDS), the Department of Homeland Security's SEVIS by the Numbers, the National Assessment of Educational Progress, NSF's Survey of Graduate Students and Postdoctorates and Survey of Earned Doctorates, the Department of Labor's Office of Foreign Labor Certification, the USCIS H-1B Employer Data Hub, the Census Bureau's American Community Survey and USPTO patent data via PatentsView, processed in Python; every figure and table is generated from those sources, and each one names its source.

About This Profile

This profile is a companion to *The 2026 US Talent Report: Benchmarking America's STEM Pipeline Amid the Great Talent Competition*. It applies the report's measures to Mississippi: the students the state develops at home, those it draws from abroad, and how both compare with the nation and with the states closest to it in size.

Degrees, enrollment, prices, outcomes and faculty come from IPEDS, the federal census of U.S. colleges and universities, harmonized across 1980–2025. Countries of citizenship come from SEVIS by the Numbers, the Department of Homeland Security's monthly count of active F-1 and M-1 students. Each figure names its source. Peer states are the four closest in total fall enrollment.

Public Data and Tools

The data behind every chart come from federal sources: the Integrated Postsecondary Education Data System (IPEDS), published by the National Center for Education Statistics, as the backbone, together with NAEP, NSF's surveys of graduate students, doctorates and research funding, USAspending.gov, DHS and ICE SEVIS data, the Department of Labor, USCIS, the Census Bureau's American Community Survey and Post-Secondary Employment Outcomes, and USPTO PatentsView. Each figure names its source, and the Sources page lists all of them. An interactive version of this profile accompanies the report.

AT A GLANCE

What Mississippi's numbers say

1. **International students earn 48% of Mississippi's STEM master's degrees,** 3.9 points below the U.S. (52%) in 2025, ranking 21st of 51 on dependence. The share is 36% for STEM research doctorates (U.S. 43%) and 2.7% for STEM bachelor's (U.S. 6.6%).
2. **Mississippi awarded 502 STEM master's degrees to international students in 2025,** 0.4% of the U.S. total and 33rd of 51 among states. Since 2015 the count changed 2.2×, against 2.2× nationally.
3. **The heaviest dependence is in computer & info sciences,** where international students earned 87% of master's degrees (381 degrees; U.S. 65%). One STEM field with at least 50 master's graduates is majority-international.
4. **Among states of similar size,** Mississippi ranks 4th of 5 on the international share of STEM master's: Mississippi 48%, Arkansas 65%, Nebraska 25%, Connecticut 68%, Kansas 50%.
5. **70% of Mississippi's first-time students in fall 2024 were state residents** and 1.5% came from abroad. More students arrived from other states (8.52K) than residents left (3.14K), a net gain of 5.38K; the top destination for those leaving was Alabama.

48%

of the STEM master's degrees Mississippi awards go to international students (U.S. 52%).

SECTION 1

International Dependence

Mississippi ranks 37th of 51 on the international share of all master's, at 11% in 2025 against 22% for the U.S.

Figure 1 What Share of Mississippi's Degrees Go to International Students?

International share of degrees awarded, all fields; state solid, U.S. dashed. Data from NCES, IPEDS Completions, 1985–2025.

International students make up 12% of Mississippi's graduate enrollment and 1.4% of its undergraduates. Dependence climbs with each degree: 1.6% of bachelor's, 11% of master's and 14% of research doctorates go to international students.

In STEM the shares are higher still: 2.7% of STEM bachelor's, 48% of STEM master's and 36% of STEM doctorates. The state awards 0.4% of all U.S. international STEM master's, 33rd of 51.

Figure 2 Where Do Mississippi's International Students Come From?

Active F-1 and M-1 students by country of citizenship, the five largest in October 2026; one fall snapshot per year (the month closest to November), October 2014–October 2026. All education levels. Data from DHS, SEVIS by the Numbers.

In October 2026, Mississippi had 9.84K active international students in SEVIS, 27th of 51. India accounted for 60% of them and Nepal for 5.7%, against 27% and 2.9% nationally.

Students came from 141 countries, but the two largest supplied 65%. The state's total is up 165% since 2015, when it stood at 3.71K.

SECTION 1 · INTERNATIONAL DEPENDENCE

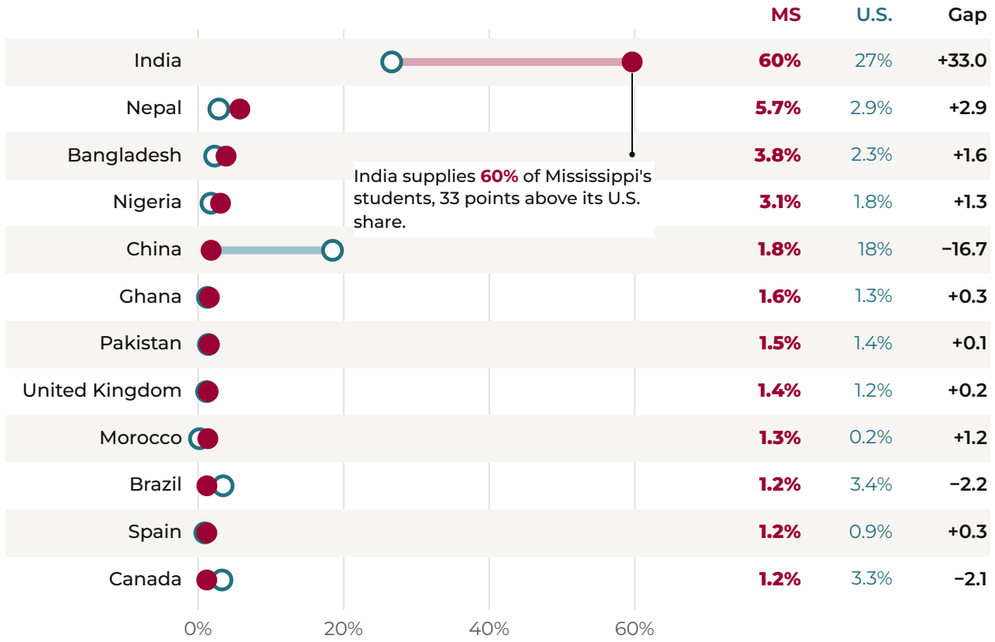

How Does Mississippi's Mix of Countries Compare With the Nation's?

In October 2026, Mississippi had **9.84K** active F-1 and M-1 students, 27th among the 50 states and DC and **0.8%** of the U.S. total. They came from 141 countries.

India supplied **60%** of them, against 27% nationally, and Nepal **5.7%**, against 2.9%. Bangladesh (3.8%), Nigeria (3.1%), and China (1.8%) followed.

Together the two largest countries supplied **65%** of the state's international students (U.S. 45%), 1st among the states, against 33% in 2015.

Figure 3 Is Mississippi's Mix of Countries Like the Nation's?

The state's count is up 81% from 2025 and up 165% since 2015, when it stood at 3.71K. Its share of all U.S. international students is up 0.5 points since 2015, to **0.8%**.

Since 2015, the number of students from India went from 668 to 5.87K, Nepal's from 263 to 565, and Bangladesh's from 55 to 378.

Over the same years, the number from Nigeria went from 113 to 303 and China's from 543 to 176. The table gives each country's count for the first, previous and latest years.

Table 1 International Students in Mississippi, 2015–2026

	2015	2025	2026	Change since 2015	U.S. 2026	Rank
ALL INTERNATIONAL STUDENTS						
Active F-1 and M-1 students	3.71K	5.44K	**9.84K**	2.65×	1.19M	27th

SECTION 1 · INTERNATIONAL DEPENDENCE

How International Are Mississippi's Master's Fields?

Each row is a master's field with at least 30 graduates in Mississippi in 2025, ranked by the share of degrees earned by international students (U.S. nonresidents on temporary visas). The filled dot is the state's share; the open dot is the national share for the same field.

Highest international shares. International students earned the largest shares of master's degrees in computer & info sciences (87%, against 65% for the U.S.), engineering (40%, against 49% for the U.S.), and physical sciences (25%, against 33% for the U.S.).

Figure 5 Which Master's Fields Depend Most on International Students?

International share of master's degrees by field, 2025; fields with 30+ graduates. Data from NCES, IPEDS Completions.

11%
Int. share of all master's, 2025
U.S. **22%** · **37th** of 51

48%
Int. share of STEM master's, 2025
U.S. **52%** · **21st** of 51

87%
Int. share of CS master's, 2025
U.S. **65%** · **4th** of 47

The table gives the international share of degrees in each STEM field at three levels: Mississippi first, the United States after the slash. The master's column is highlighted. A dash means the state awarded no degrees in the field at that level.

Highest international share among STEM master's fields. International students earned 87% of the master's degrees in computer & info sciences, against 65% for the U.S.

Fields with an international majority. International students earned more than half of the master's degrees in one STEM field.

Table 2 How International Is Each STEM Field?

Field	Bachelor's	Master's	Doctorates
Computer & info sciences	8.3% / 8.6%	**87% / 65%**	– / 56%
Engineering	2.1% / 7.2%	**40% / 49%**	35% / 55%
Engineering technology	0.6% / 4.5%	**– / 54%**	– / 42%
Math & statistics	3.8% / 17%	**– / 55%**	– / 53%
Physical sciences	1.0% / 6.0%	**25% / 33%**	42% / 38%
Biological sciences	2.1% / 3.4%	**18% / 23%**	24% / 23%
Natural resources	0.8% / 2.0%	**19% / 17%**	50% / 27%
Architecture	0.0% / 7.3%	**– / 29%**	– / 55%

International share in Mississippi / U.S., 2025. Data from NCES, IPEDS Completions.

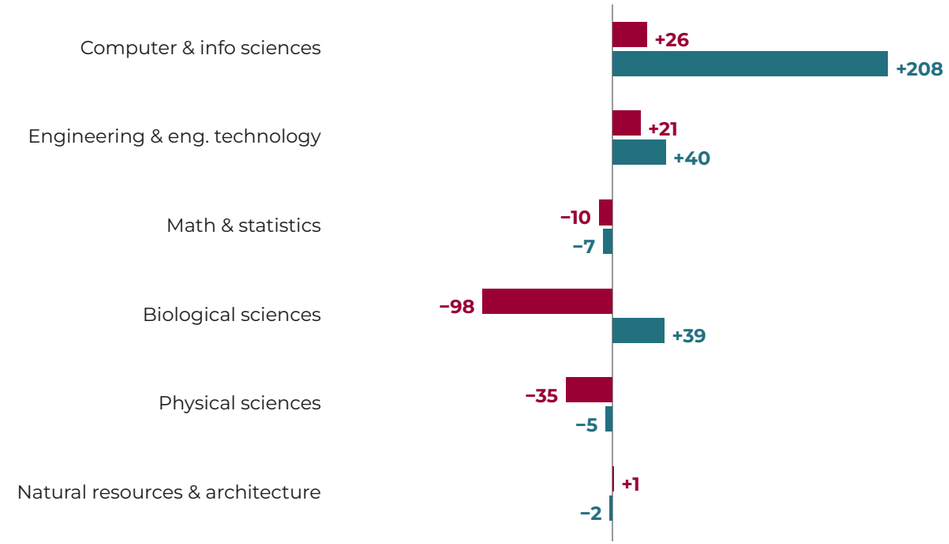

SECTION 1 · INTERNATIONAL DEPENDENCE

How Has Mississippi's STEM Master's Output Grown?

Each pair of bars is the change in the number of STEM master's degrees awarded in Mississippi between 2015 and 2025 in one field: to domestic students (U.S. citizens and permanent residents) and to international students. Bars to the left of the axis are declines.

STEM master's degrees. The state awarded 1.04K in 2025 and 863 in 2015, a change of +273 for international students and −95 for domestic students.

Figure 6 Where Did the STEM Master's Growth Come From?

Change in STEM master's degrees by field, 2015–2025. Data from NCES, IPEDS Completions.

SECTION 5

Graduate Research

Mississippi ranks 43rd of 51 on the temporary-visa share of S&E graduate students, at 23% in 2016 against 39% for the U.S.

Figure 15 How Many of Mississippi's Science and Engineering Graduate Students Hold Temporary Visas?

Temporary-visa share of science and engineering graduate students and postdoctoral appointees, by the institution's state; state solid, U.S. dashed. NSF stopped publishing state tables after 2016. Data from NSF NCSES, Survey of Graduate Students and Postdoctorates.

In 2016, the last year NSF published state tables, 23% of Mississippi's science and engineering graduate students held temporary visas (U.S. 39%; 43rd of 51).

Among postdoctoral researchers, the share was 57% (U.S. 56%). Postdocs are the stage of research training most dependent on international talent, and IPEDS does not count them.

The state's institutions awarded 469 research doctorates in 2025, 0.8% of the U.S. total (Data from NSF NCSES, Survey of Earned Doctorates; NSF publishes doctorates by citizenship only for the nation).

23%

SECTION 6

Do Graduates Stay?

Mississippi ranks 46th of 51 on the share of international graduates on OPT working in the state where they studied, at 21% in 2016 against 44% for the U.S.

Figure 16 How Many of Mississippi's Graduates Go On to Work in the State?

Share of employed graduates working in the state of their institution, by graduating cohort (Data from U.S. Census Bureau, Post-Secondary Employment Outcomes; participating institutions only); international graduates' OPT jobs in the state where they studied (Data from ICE, SEVIS FOIA releases; shares only, the file is truncated). State solid, U.S. or participating states dashed.

Mississippi's institutions do not take part in the Census Post-Secondary Employment Outcomes program, so in-state employment of its graduates is not published.

Among international graduates on Optional Practical Training in 2016, 21% worked in the state where they studied (U.S. 44%). That is the last year the released records cover, before most of the growth in international STEM master's degrees since 2015. Through migration between states, the state lost 1.1 bachelor's-plus adults per 1,000 such residents in 2025 (Data from U.S. Census Bureau, American Community Survey).

SECTION 7

Research Funding

Mississippi ranks 39th of 51 on federal R&D obligations to the state, at $479M in 2024 against $193B for the U.S.

Figure 17 How Much Research Money Flows Into Mississippi?

Nominal dollars (not adjusted for inflation), fiscal years; a line ending before the others is labeled with its last year. University R&D: Data from NSF NCSES, Higher Education Research and Development Survey (FY2003-09 predecessor survey). Federal R&D obligations by state of performance: Data from NSF NCSES, Survey of Federal Funds for R&D (coverage widens in FY2021). Grants from NSF, NIH, NASA and DOE Science plus R&D contracts: Data from USAspending.gov.

Mississippi's universities spent $669M on research and development in FY2024, 35th of 51 among the states; 53% of it was federally funded (U.S. 55%).

Federal agencies obligated $479M for R&D performed in the state in FY2024. Research funding drives demand for graduate students and postdocs, the stage of training most dependent on international talent.

$669M

SECTION 8

H-1B Jobs and Green Cards

Mississippi ranks 44th of 51 on green-card labor certifications, at 163 in 2025 against 138K for the U.S.

Figure 18 How Many Skilled-Visa Jobs and Green-Card Certifications Does Mississippi Generate?

Certified H-1B positions on labor condition applications by worksite and certified PERM green-card applications, by fiscal year (Data from DOL, Office of Foreign Labor Certification); new H-1B petition approvals by the employer's address (Data from USCIS, H-1B Employer Data Hub).

Employers were certified for 931 H-1B positions at Mississippi worksites in FY2025, 42nd of 51 among the states. A labor condition application comes before the petition and covers renewals and job changes as well as new hires, by the worksite's state, so it runs well above approvals. USCIS approved 169 new H-1B petitions in FY2026 and 284 continuing ones, counted by the employer's address.

DOL certified 163 PERM applications, the employer's step toward an employment-based green card, for jobs in the state in FY2025. In FY2024, 8.2% were for workers still on F-1 student visas (U.S. 8.7%): the most direct link from classroom to permanent residence.

931

Certified H-1B positions (worksite), 2025

SECTION 9

STEM Workforce

Mississippi ranks 43rd of 44 on the foreign-born share of STEM workers with a graduate degree, at 14% in 2024 against 41% for the U.S.

Figure 20 How Much of Mississippi's STEM Workforce Was Born Abroad?

Foreign-born share of employed workers in STEM occupations, by state of residence; state solid, U.S. dashed. Shares resting on fewer than 100 survey records are left out. No 2020 (experimental data). Data from U.S. Census Bureau, American Community Survey.

In 2024, 6.3% of the people working in STEM occupations in Mississippi were born abroad (U.S. 24%; 46th of 51).

The share rises with education: 14% of STEM workers with a graduate degree were foreign-born (U.S. 41%). 3.8% of all STEM workers were not U.S. citizens.

SECTION 11

Competitors

The four states closest in total fall enrollment, measured proportionally (a state 1.5 times as large counts as near as one two-thirds the size), are Arkansas, Nebraska, Connecticut, and Kansas. Mississippi ranks 4th of the five on the international share of STEM master's; Connecticut is the most dependent at 68%.

Figure 22 How Dependent Are Mississippi and Its Peers on International STEM Master's?

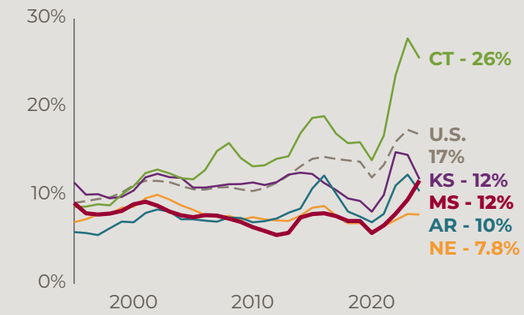

Data from NCES, IPEDS Completions.

SECTION 12

Fields of Study

Figure 27 How Many Degrees Does Mississippi Award?

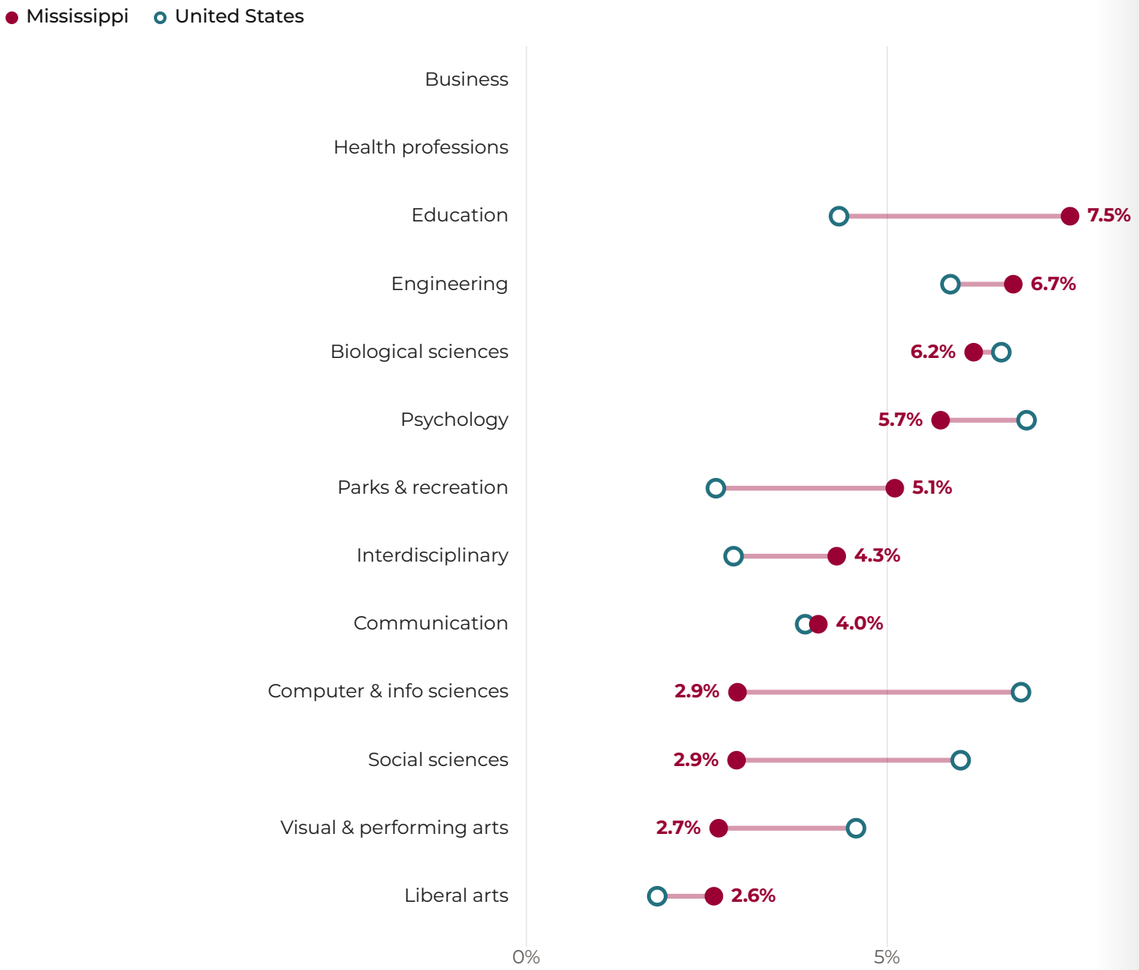

Degrees awarded by level, first majors. Data from NCES, IPEDS Completions.

In 2025, Mississippi's institutions awarded 12.9K associate's degrees, 15.3K bachelor's degrees, 5.98K master's degrees, 985 research doctorate degrees, 981 professional doctorate degrees.

Since 2015: associate's down 3%; bachelor's up 7%; master's up 18%; research doctorate up 72%; professional doctorate up 36%. The state awards 10.8 bachelor's degrees for every 100 undergraduates (U.S. 12.3).

Figure 28 What Do Mississippi's Bachelor's Graduates Study?

Share of bachelor's degrees by field, 2025. Data from NCES, IPEDS.

Mississippi's largest bachelor's fields are business (20%; U.S. 19%), health professions (13%; U.S. 13%), education (7.5%; U.S. 4.3%).

Relative to the nation, Mississippi's bachelor's degrees are most concentrated in agriculture (1.97× the U.S. share), parks & recreation (1.94× the U.S. share), education (1.74× the U.S. share).

Figure 30 How Has Mississippi's Bachelor's Field Mix Changed?

Share of bachelor's degrees in the largest fields. Data from NCES, IPEDS Completions.

Since 2015, engineering has gained the most ground, 2.0 points of the state's bachelor's degrees, while education lost the most (2.0 points).

The chart follows the share of bachelor's degrees in each of the state's largest fields; smaller fields are grouped as other fields.

SECTION 12 · FIELDS OF STUDY

Where Is Mississippi Specialized, and What Do Its Doctoral Graduates Study?

The location quotient divides a field's share of Mississippi's bachelor's degrees by its share of all U.S. bachelor's degrees in 2025. A quotient of 1.00 means the same share as the nation; 2.00 means twice the national share. The table lists the 10 fields with the highest quotients among fields with at least 50 degrees.

Highest location quotients. Agriculture (1.97, with 2.0% of the state's bachelor's degrees against 1.0% for the U.S.), parks & recreation (1.94, with 5.1% of the state's bachelor's degrees against 2.6% for the U.S.), and education (1.74, with 7.5% of the state's bachelor's degrees against 4.3% for the U.S.) had the highest quotients.

Table 5 Where Is Mississippi Most Specialized?

Field	Location quotient	State share	U.S. share	Degrees
Agriculture	**1.97**	2.0%	1.0%	309
Parks & recreation	**1.94**	5.1%	2.6%	780
Education	**1.74**	7.5%	4.3%	1.15K
Architecture	**1.72**	1.0%	0.6%	149
Interdisciplinary	**1.50**	4.3%	2.9%	657
Liberal arts	**1.43**	2.6%	1.8%	397
Public administration	**1.42**	2.1%	1.5%	318
Engineering technology	**1.32**	1.2%	0.9%	180
Family & consumer sci.	**1.22**	1.0%	0.8%	153
Engineering	**1.15**	6.7%	5.9%	1.03K

Bachelor's degrees; location quotient = state share ÷ U.S. share; fields with 50+ degrees. Data from NCES, IPEDS.

Figure 35 What Does In-State Tuition Cost?

Published in-state tuition and fees, 2024 dollars (CPI-U); state solid, U.S. dashed. Data from NCES, IPEDS.

In-state tuition and fees at Mississippi's public four-year institutions are $9.66K (2023, 2024 dollars), close to the U.S. figure ($9.71K); the state ranks 30th of 51.

State and local appropriations come to $10.3K per full-time-equivalent student at public institutions (30th of 51), and net tuition makes up 40% of net tuition plus state and local appropriations (U.S. 43%).

SECTION 13 · STUDENTS AND MONEY

How Are Mississippi's Public Institutions Funded, and What Do They Produce?

The bars give each source's share of the core revenue of Mississippi's public institutions, with the nation for comparison, and at right the dollars per full-time-equivalent (FTE) student it provides. Values are in 2024 dollars (CPI-U). Net tuition is tuition and fees after institutional discounts and allowances.

Net tuition per FTE student. The figure was $7.2K in FY2024, against $8.96K for the U.S., up 2.6% from $7.02K in FY2023 and up 11% since FY2015, when it was $6.48K.

Figure 36 How Are Public Institutions Funded?

Share of core revenue per FTE student by source, public institutions, FY2024; dollars per FTE at right, 2024 dollars (CPI-U). Shares are of all five sources; the tuition share elsewhere in this profile divides net tuition by net tuition plus state and local appropriations only. Data from NCES, IPEDS Finance.

U.S. **12.3** · **44th** of 51 · +1.2 since 2015

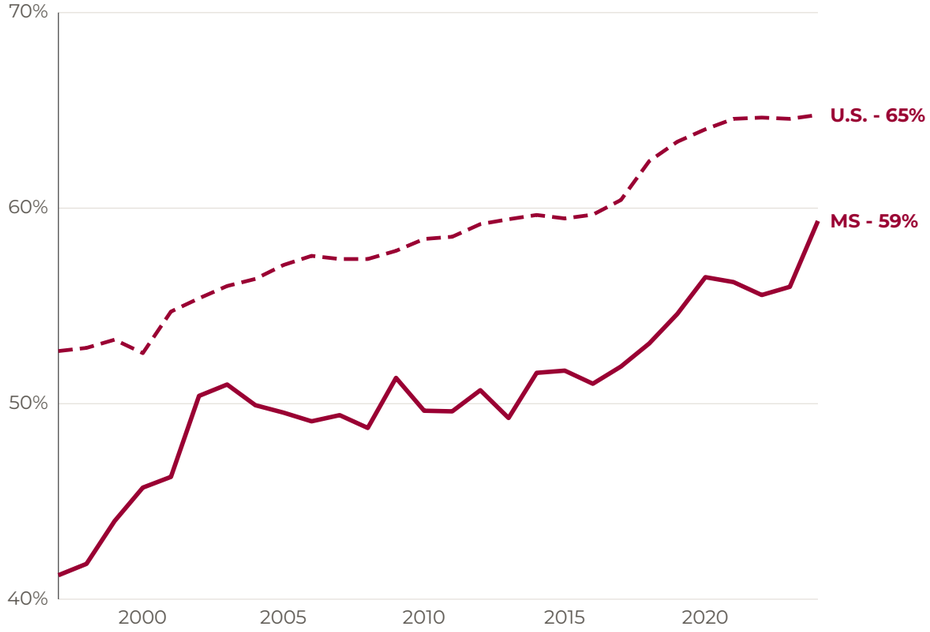

SECTION 14 · STUDENT OUTCOMES

How Many of Mississippi's Students Graduate?

The line follows the share of first-time, full-time bachelor's-degree students at Mississippi's four-year institutions who graduated from the institution where they started within six years (150% of normal time). Each year is the cohort that entered six years earlier. The rate leaves out students who start part-time (28% of the state's students attend part-time, against 39% nationally) and students who transfer and finish elsewhere. The state is solid and the United States dashed.

Six-year graduation rate. The rate was 59% in 2024, against 65% for the U.S., up 3.4 points from 56% in 2023 and up 7.7 points since 2015, when it was 52%.

Figure 38 Six-Year Bachelor's Graduation Rate

10.8
Bachelor's per 100 undergraduates, 2025
U.S. **12.3** · **44th** of 51

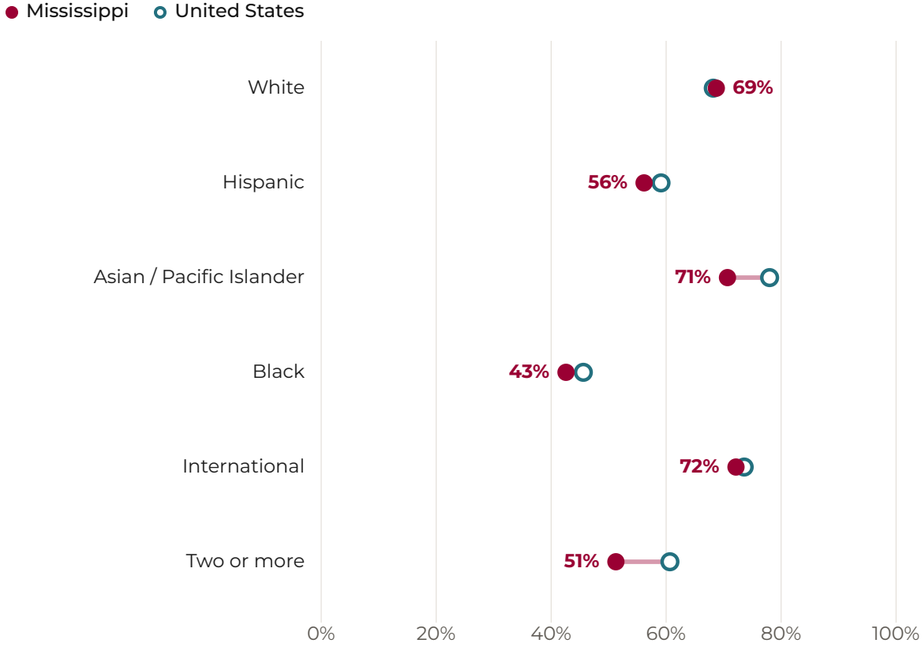

Each row is the six-year bachelor's graduation rate for one racial or ethnic group of students at Mississippi's four-year institutions (filled dot), against the national rate for the same group (open dot). Groups with fewer than 100 students in the cohort are left out.

White. The six-year rate was 69% in 2024, against 68% for the U.S.

Hispanic. The six-year rate was 56% in 2024, against 59% for the U.S.

Asian / Pacific Islander. The six-year rate was 71% in 2024, against 78% for the U.S.

14

SECTION 15

Faculty

Mississippi ranks 50th of 51 on the average full-time faculty salary, at $71.7K in 2024 against $106K for the U.S.

Figure 40 What Do Mississippi's Faculty Earn, by Rank?

Average salary of full-time instructional faculty on 9/10-month contracts, by academic rank, 2024 dollars (CPI-U). Data from NCES, IPEDS Human Resources.

Full-time instructional faculty on 9/10-month contracts at Mississippi's institutions earned an average of $71.7K in 2024 (2024 dollars), 32% below the U.S. ($106K); the state ranks 50th of 51. By rank (2024): professors $106K, associate professors $84.3K, assistant professors $75.3K, instructors $55.7K, lecturers $48K.

Mississippi's institutions had 7.25K full-time instructional staff in 2024, down 4% since 2015. Average salary across all ranks is down 12% since 2016.

Average faculty salary, 2024

U.S. **$106K** · **50th** of 51 · −12% since 2016

SECTION 15 · FACULTY

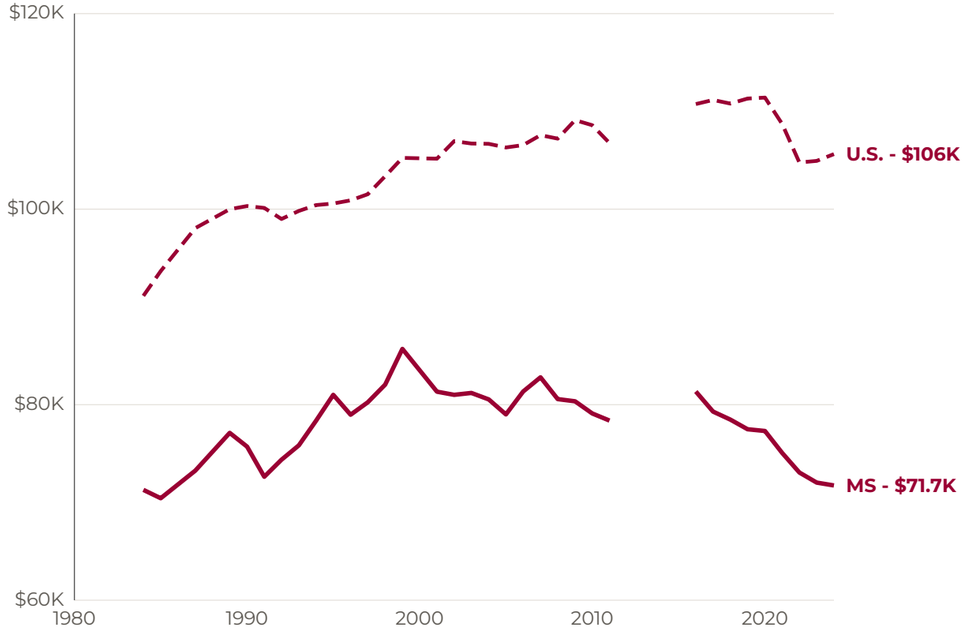

What Do Mississippi's Faculty Earn, and How Many Hold Tenure?

The line follows the average salary of full-time instructional faculty on 9- or 10-month contracts at Mississippi's degree-granting institutions, all ranks combined, in 2024 dollars (CPI-U). The state is solid and the United States dashed.

Average salary. The figure was $71.7K in 2024, against $106K for the U.S., 50th among the states, down 0.4% from $72K in 2023 and down 12% since 2016, when it was $81.3K.

Full-time instructional staff. The number was 7.25K in 2024, up 1.0% from 7.18K in 2023 and down 3.8% since 2015, when it was 7.54K.

Figure 41 Average Faculty Salary

Full-time instructional faculty, 9/10-month, 2024 dollars. Data from NCES, IPEDS.

24%
Tenured, 2024

The bars divide Mississippi's full-time instructional staff by tenure status in 2015, 2019 and 2024: tenured, on the tenure track, not on the tenure track (for example, lecturers on fixed-term contracts), and staff at institutions with no tenure system.

Tenured, share of full-time instructional staff. The share was 24% in 2024, down 0.8 points from 25% in 2023 and down 3.2 points since 2015, when it was 28%.

Figure 42 Tenure Status

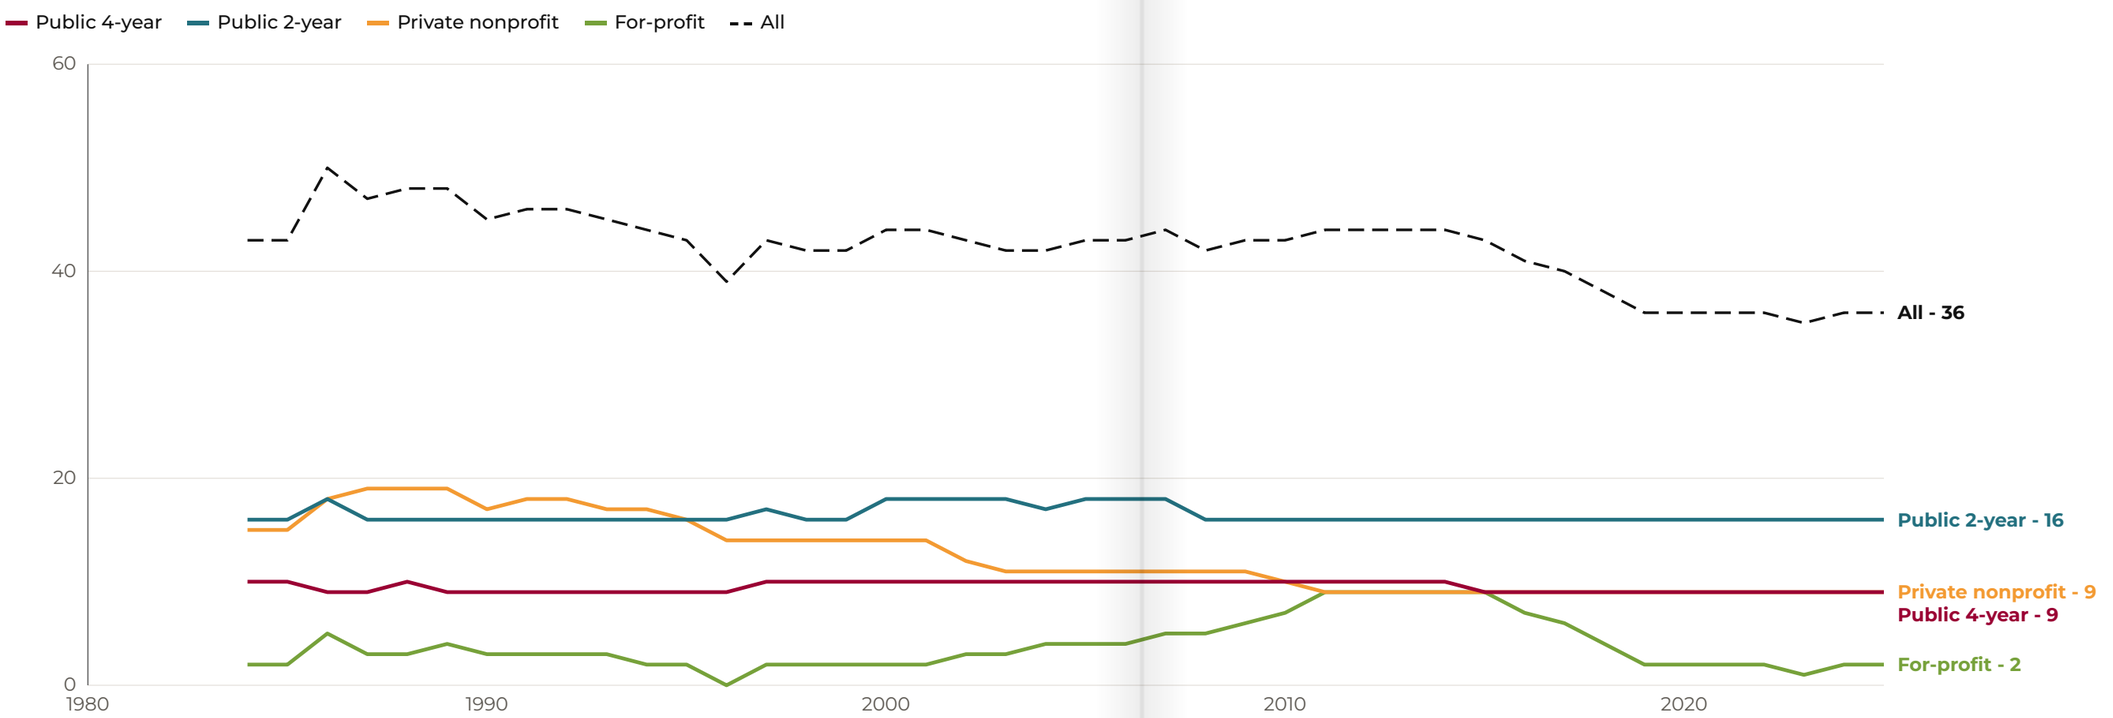

Full-time instructional staff by tenure status, 2015, 2019, 2024. Data from NCES, IPEDS.

SECTION 16

Institutions

Mississippi ranks 6th of 51 on the share of enrollment at public institutions, at 89% in 2024 against 73% for the U.S.

Figure 43 How Many Institutions Does Mississippi Have?

Degree-granting institutions by sector. Data from NCES, IPEDS.

Mississippi has 36 degree-granting institutions:9 public 4-year, 16 public 2-year, 9 private nonprofit, 2 for-profit (2025).

The number of institutions is down 16% since 2015. 89% of students attend public institutions and 0.2% attend for-profit ones.

SECTION 16 · INSTITUTIONS

Which Institutions Lead in Mississippi?

The table ranks institutions in Mississippi by the STEM master's degrees and research doctorates they awarded to international students in 2025, the two counted together. The share columns give international students' share of each institution's STEM degrees at that level.

Largest. Belhaven University (233 international STEM master's degrees and – doctorates), Mississippi State University (101 international STEM master's degrees and 41 doctorates), and University of Southern Mississippi (88 international STEM master's degrees and 1 doctorates) awarded the most.

Table 7 Which Institutions Train the Most International STEM Graduates?

Institution	STEM total	STEM master's	Int. share	STEM doctorates	Int. share
Belhaven University Jackson · Private nonprofit	**233**	233	97%	–	–
Mississippi State University Mississippi State · Public 4-year	**142**	101	27%	41	42%
University of Southern Mississippi Hattiesburg · Public 4-year	**89**	88	62%	1	3.8%
University of Mississippi University · Public 4-year	**54**	24	17%	30	45%
Mississippi Christian University Clinton · Private nonprofit	**23**	23	36%	–	–
Alcorn State University Alcorn State · Public 4-year	**18**	18	58%	–	–
Jackson State University Jackson · Public 4-year	**15**	15	52%	–	–%

Ranked by the total (shaded) of international STEM master's degrees and research doctorates. Degrees awarded in 2025. Data from NCES, IPEDS.

The table lists Mississippi's largest degree-granting institutions by fall 2024 headcount enrollment, with the international share of graduate students, STEM bachelor's degrees awarded in 2025, the six-year graduation rate and the admission rate (a dash where the institution admits all applicants or does not report one).

Largest. The three largest were University of Mississippi (26.4K students), Mississippi State University (23.1K students), and University of Southern Mississippi (13.2K students).

Degree-granting institutions. The state had 36 in 2025, and 34 of them reported the enrollment and degree data in these tables.

Table 8 What Are Mississippi's Largest Institutions?

Institution	Enrollment	Int. share, grad	STEM bachelor's	Six-year grad rate	Admit rate
University of Mississippi	**26.4K**	11%	492	72%	97%
Mississippi State University	**23.1K**	15%	1.57K	67%	78%
University of Southern Mississippi	**13.2K**	10%	462	49%	99%
Hinds Community College	**8.86K**	–	–	–	–
Mississippi Gulf Coast Community College	**8.69K**	–	–	–	–

William Carey University	**5.32K**	5.4%	58	60%	60%
Itawamba Community College	**5.14K**	–	–	–	–

Fall 2024 enrollment; degrees 2025. Data from NCES, IPEDS.

NOTES

About These Data

International students

U.S. nonresidents on temporary visas, as IPEDS defines them. IPEDS does not record country of citizenship. Permanent residents count with U.S. citizens.

STEM

CIP families 03, 04, 11, 14, 15, 26, 27 and 40. Doctorates are research and scholarship doctorates; professional doctorates appear only in the degree-count figure. Degrees are first majors only.

Universe

Degree-granting institutions located in the state; Title IV participants from 1996. Geography is the institution's location, not the student's home. Enrollment is fall headcount.

Migration

First-time degree-seeking undergraduates by home state, reported in even years before 2001 and every year since; odd years with incomplete reporting are omitted. Net migration is students arriving from other states minus residents leaving, per 100 resident first-time students.

Money

Tuition, appropriations, revenue and faculty salaries are in 2024 dollars using the CPI-U. Research funding (HERD, Federal Funds, USAspending), wages and the NAFSA economic contribution are nominal dollars, and are labeled so. Appropriations and revenue are per full-time-equivalent student at public institutions; the tuition share divides net tuition by net tuition plus state and local appropriations.

Race and ethnicity

IPEDS did not collect race and ethnicity in every year before 2010, and categories changed in 2008–2010; “Two or more” exists only from then.

Countries of citizenship

From DHS SEVIS by the Numbers: active F-1 and M-1 student records in the month named, at every level from primary school to doctorate, by the state of the school. IPEDS records only whether a student is a U.S. nonresident, not where they come from. SEVIS counts are monthly snapshots and are not directly comparable with IPEDS fall enrollment or degree counts. Year-to-year comparisons use one fall snapshot per year (the month closest to November).

Peers

Comparison states are the four closest in total fall enrollment, measured proportionally: a state 1.5 times as large counts as near as one two-thirds the size.

Sources

IPEDS (National Center for Education Statistics) is the backbone: Institutional Characteristics, Fall Enrollment, Completions, Graduation Rates, Finance, Human Resources and Admissions, 1980–2025, harmonized into a state panel. The profile also draws on NAEP, NSF's Survey of Graduate Students and Postdoctorates, Survey of Earned Doctorates, HERD and Federal Funds surveys, USAspending.gov, DHS SEVIS by the Numbers and ICE SEVIS releases, the Department of Labor's Office of Foreign Labor Certification and BLS wage data, the USCIS H-1B Employer Data Hub, the Census Bureau's American Community Survey and Post-Secondary Employment Outcomes, USPTO PatentsView, and other federal sources; every figure names its source, and the Sources page lists them in full. Generated November 2026.

NOTES

How the Numbers Are Counted

Ranks

Ranks are among the 50 states and the District of Columbia (1 = highest value, whether or not a high value is good). Where fewer than 51 report, the count is given ("23rd of 33").

Sectors

Sectors are as IPEDS classifies institutions each year. IPEDS moves a whole institution to "public, 4-year or above" once it awards any bachelor's degree, so community colleges that began offering applied bachelor's degrees carry all of their students into the public 4-year sector. Sector series (enrollment shares, public 4-year tuition, graduation rates by sector) reflect these moves.

Research doctorates

Two counts appear. IPEDS counts degrees institutions report as "doctor's degree, research/scholarship", which includes some practice-oriented degrees such as many Ed.D.s; the NSF Survey of Earned Doctorates counts research doctorate recipients and is smaller. Each figure names which it uses. "STEM master's per STEM research doctorate" divides IPEDS STEM master's degrees by IPEDS STEM research doctorates.

Engineering

"Engineering" alone is CIP 14. Where engineering technology (CIP 15) is added, the label says "engineering & eng. technology".

Graduation rates

IPEDS graduation rates follow first-time, full-time students and count only those who finish at the institution where they started, so they leave out part-time starters and students who transfer and finish elsewhere.

International students in SEVIS

SEVIS counts active F-1 and M-1 records, which include graduates on Optional Practical Training (up to 36 months for STEM graduates, 12 for others), so STEM shares run high. STEM follows the DHS STEM Designated Degree Program List, which is broader than the eight CIP families above, and DHS draws its STEM pages on a different basis from its all-student pages, so a country's STEM count can exceed its all-level count.

Visas and green cards

DOL labor condition applications (H-1B positions) are counted by worksite and include renewals and job changes; USCIS approvals are counted by the employer's address and split into new and continuing. PERM certifications are the employer's step toward a green card.

Patents

Patents are counted by the owner's (assignee's) location, not where inventors live; a company headquartered in another state takes its patents there.

Years

Each measure uses its latest year, so years differ across a page; every figure, table and statement gives its year, and lines that stop early are labeled with their last year.

Share of the state's patents in digital technologies	8.5%	**6.4%**[2025]	−2.1 pp ▼	43%	+1.6 pp ▲	#51	[22]
Share of the state's patents in life sciences	19%	**17%**[2025]	−2.1 pp ▼	17%	+0.4 pp ▲	#25	[22]
Share of the state's patents in semiconductors	2.1%	**2.1%**[2025]	0.0 pp	2.9%	−1.7 pp ▼	#10	[22]
Women's share of inventors on the state's patents	7.7%	**7.5%**[2025]	−0.2 pp ▼	14%	+3.4 pp ▲	#48	[22]

Superscript years mark the year observed; changes since 2015 start from 2015 or the first later year with data. Rank is among the 50 states and DC (1 = highest). “pp” is percentage points. Dollars are 2024 dollars (CPI-U) unless the measure is labeled nominal. Counts and dollars are rounded to three significant figures (K, M, B). Arrow colors show direction only. Source numbers refer to the list of sources that follows the tables.
