Authors

Emerson Victoria Johnston is a research assistant with the Hoover Institution's Technology Policy Accelerator. A Knight-Hennessy Scholar, she holds a master's in international policy from Stanford University, and is on leave from its master's program in the history of science, technology, environment, and medicine.

Dr. Amy Zegart is the Morris Arnold and Nona Jean Cox Senior Fellow at the Hoover Institution, director of Hoover's Technology Policy Accelerator, and a senior fellow and associate director at Stanford University's Institute for Human-Centered Artificial Intelligence.

Data come from the Integrated Postsecondary Education Data System (IPEDS), the Department of Homeland Security's SEVIS by the Numbers, the National Assessment of Educational Progress, NSF's Survey of Graduate Students and Postdoctorates and Survey of Earned Doctorates, the Department of Labor's Office of Foreign Labor Certification, the USCIS H-1B Employer Data Hub, the Census Bureau's American Community Survey and USPTO patent data via PatentsView, processed in Python; every figure and table is generated from those sources, and each one names its source.

About This Profile

This profile is a companion to *The 2026 US Talent Report: Benchmarking America's STEM Pipeline Amid the Great Talent Competition*. It applies the report's measures to Tennessee: the students the state develops at home, those it draws from abroad, and how both compare with the nation and with the states closest to it in size.

Degrees, enrollment, prices, outcomes and faculty come from IPEDS, the federal census of U.S. colleges and universities, harmonized across 1980–2025. Countries of citizenship come from SEVIS by the Numbers, the Department of Homeland Security's monthly count of active F-1 and M-1 students. Each figure names its source. Peer states are the four closest in total fall enrollment.

Public Data and Tools

The data behind every chart come from federal sources: the Integrated Postsecondary Education Data System (IPEDS), published by the National Center for Education Statistics, as the backbone, together with NAEP, NSF's surveys of graduate students, doctorates and research funding, USAspending.gov, DHS and ICE SEVIS data, the Department of Labor, USCIS, the Census Bureau's American Community Survey and Post-Secondary Employment Outcomes, and USPTO PatentsView. Each figure names its source, and the Sources page lists all of them. An interactive version of this profile accompanies the report.

AT A GLANCE

What Tennessee's numbers say

1. **International students earn 50% of Tennessee's STEM master's degrees,** 2.3 points below the U.S. (52%) in 2025, ranking 18th of 51 on dependence. The share is 35% for STEM research doctorates (U.S. 43%) and 3.9% for STEM bachelor's (U.S. 6.6%).
2. **Tennessee awarded 1.14K STEM master's degrees to international students in 2025,** 1.0% of the U.S. total and 23rd of 51 among states. Since 2015 the count changed 4.8×, against 2.2× nationally.
3. **The heaviest dependence is in computer & info sciences,** where international students earned 76% of master's degrees (1.08K degrees; U.S. 65%). 2 STEM fields with at least 50 master's graduates are majority-international.
4. **Among states of similar size,** Tennessee ranks 3rd of 5 on the international share of STEM master's: Tennessee 50%, Wisconsin 55%, Washington 39%, Alabama 43%, Missouri 83%.
5. **76% of Tennessee's first-time students in fall 2024 were state residents** and 1.6% came from abroad. More students arrived from other states (11.7K) than residents left (11.4K), a net gain of 370; the top destination for those leaving was Alabama.

50%

of the STEM master's degrees Tennessee awards go to international students (U.S. 52%).

SECTION 1

International Dependence

Tennessee ranks 18th of 51 on the international share of STEM master's, at 50% in 2025 against 52% for the U.S.

Figure 1 What Share of Tennessee's Degrees Go to International Students?

International share of degrees awarded, all fields; state solid, U.S. dashed. Data from NCES, IPEDS Completions, 1985–2025.

International students make up 11% of Tennessee's graduate enrollment and 2.0% of its undergraduates. Dependence climbs with each degree: 2.6% of bachelor's, 14% of master's and 15% of research doctorates go to international students.

In STEM the shares are higher still: 3.9% of STEM bachelor's, 50% of STEM master's and 35% of STEM doctorates. The state awards 1.0% of all U.S. international STEM master's, 23rd of 51.

Figure 2 Where Do Tennessee's International Students Come From?

Active F-1 and M-1 students by country of citizenship, the five largest in October 2026; one fall snapshot per year (the month closest to November), October 2014–October 2026. All education levels. Data from DHS, SEVIS by the Numbers.

In October 2026, Tennessee had 13.7K active international students in SEVIS, 23rd of 51. India accounted for 28% of them and China for 10%, against 27% and 18% nationally.

Students came from 169 countries, but the two largest supplied 39%. The state's total is up 29% since 2015, when it stood at 10.6K.

SECTION 1 · INTERNATIONAL DEPENDENCE

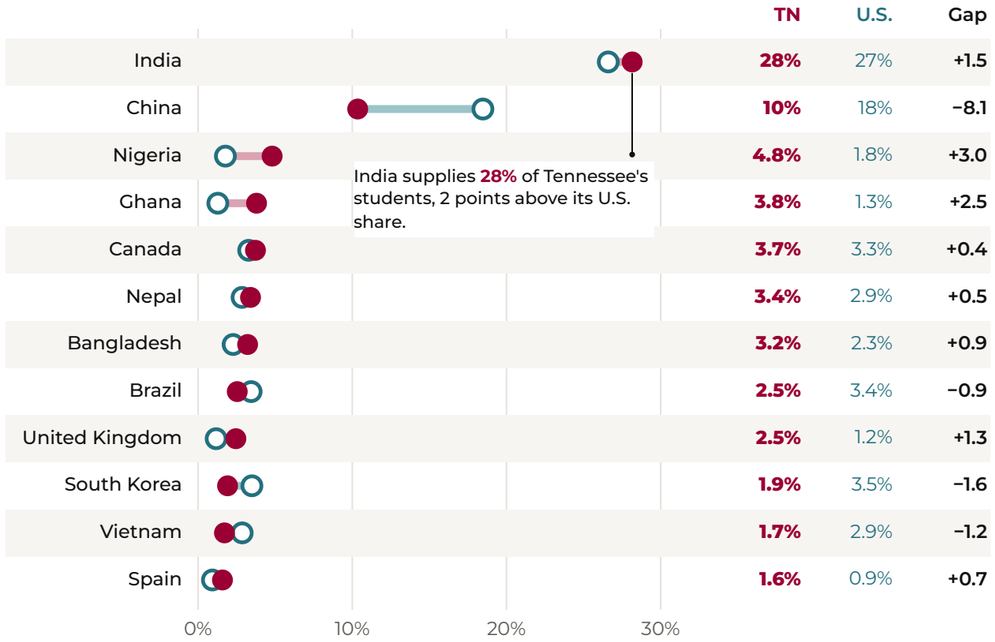

How Does Tennessee's Mix of Countries Compare With the Nation's?

In October 2026, Tennessee had **13.7K** active F-1 and M-1 students, 23rd among the 50 states and DC and **1.1%** of the U.S. total. They came from 169 countries.

India supplied **28%** of them, against 27% nationally, and China **10%**, against 18%. Nigeria (4.8%), Ghana (3.8%), and Canada (3.7%) followed.

Together the two largest countries supplied **38%** of the state's international students (U.S. 45%), 28th among the states, against 43% in 2015.

Figure 3 Is Tennessee's Mix of Countries Like the Nation's?

The state's count is down 4.9% from 2025 and up 29% since 2015, when it stood at 10.6K. Its share of all U.S. international students is up 0.3 points since 2015, to **1.1%**.

Since 2015, the number of students from India went from 822 to 3.84K, China's from 2.21K to 1.41K, and Nigeria's from 306 to 656.

Over the same years, the number from Ghana went from 77 to 517 and Canada's from 349 to 508. The table gives each country's count for the first, previous and latest years.

Table 1 International Students in Tennessee, 2015–2026

	2015	2025	2026	Change since 2015	U.S. 2026	Rank
ALL INTERNATIONAL STUDENTS						
Active F-1 and M-1 students	10.6K	14.4K	**13.7K**	+29%	1.19M	23rd

Active F-1 and M-1 students, one fall snapshot per year (the month closest to November; 2019 has none; the latest year is October 2026). Rank among the 50 states and DC. Data from DHS, SEVIS by the Numbers.

Figure 4

Which Countries Supply Tennessee's International STEM Students?

8.64K of Tennessee's international students were in STEM fields in October 2026, **63%** of the total against 63% nationally, up 99% since 2015.

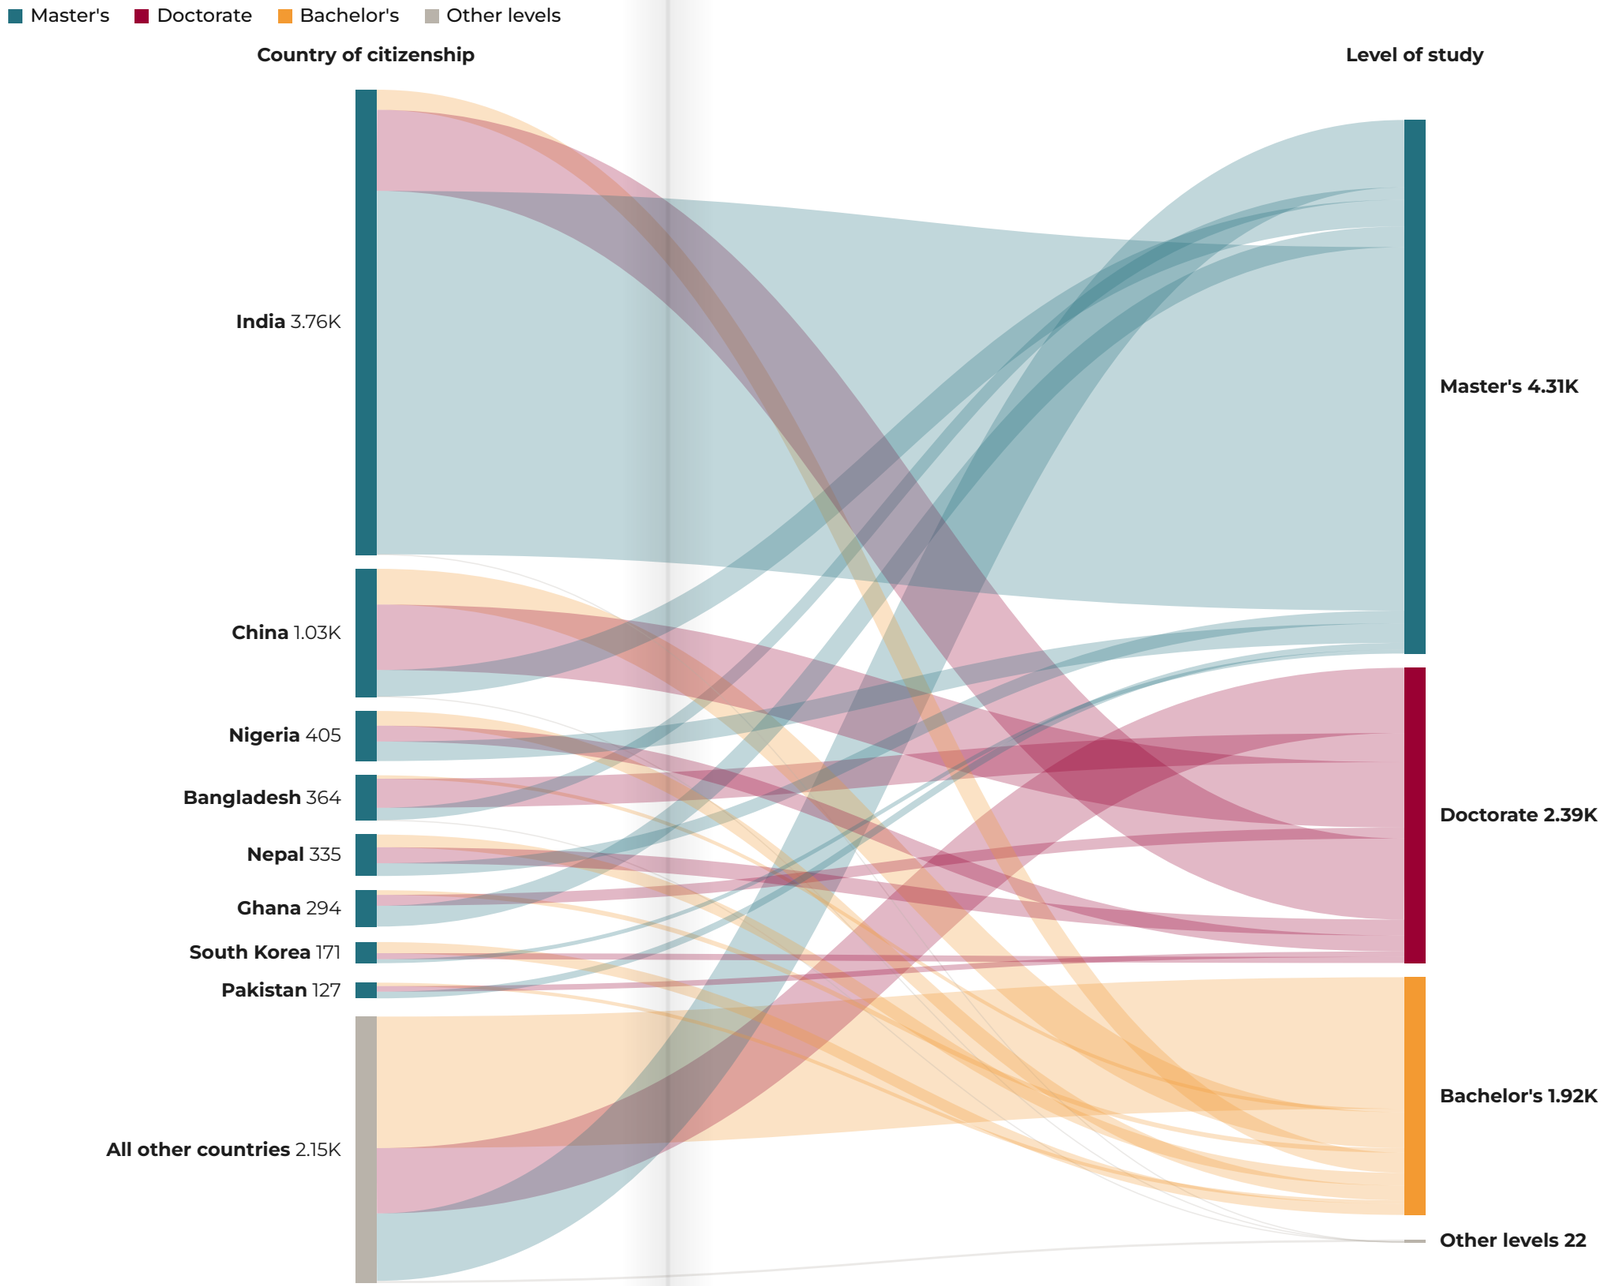

Master's students were the largest group, **4.31K**. India supplied 68% of them and China 5.0%.

STEM doctoral students went from 1.35K in 2015 to **2.39K**, and STEM master's students from 907 to 4.31K.

SECTION 1 · INTERNATIONAL DEPENDENCE

How International Are Tennessee's Master's Fields?

Each row is a master's field with at least 30 graduates in Tennessee in 2025, ranked by the share of degrees earned by international students (U.S. nonresidents on temporary visas). The filled dot is the state's share; the open dot is the national share for the same field.

Highest international shares. International students earned the largest shares of master's degrees in computer & info sciences (76%, against 65% for the U.S.), interdisciplinary (57%, against 46% for the U.S.), and engineering technology (51%, against 54% for the U.S.).

Figure 5 Which Master's Fields Depend Most on International Students?

International share of master's degrees by field, 2025; fields with 30+ graduates. Data from NCES, IPEDS Completions.

14%
Int. share of all master's, 2025
U.S. **22%** · **28th** of 51

50%
Int. share of STEM master's, 2025
U.S. **52%** · **18th** of 51

76%
Int. share of CS master's, 2025
U.S. **65%** · **14th** of 47

The table gives the international share of degrees in each STEM field at three levels: Tennessee first, the United States after the slash. The master's column is highlighted. A dash means the state awarded no degrees in the field at that level.

Highest international share among STEM master's fields. International students earned 76% of the master's degrees in computer & info sciences, against 65% for the U.S.

Fields with an international majority. International students earned more than half of the master's degrees in 2 STEM fields.

Table 2 How International Is Each STEM Field?

Field	Bachelor's	Master's	Doctorates
Computer & info sciences	7.3% / 8.6%	**76% / 65%**	59% / 56%
Engineering	3.4% / 7.2%	**27% / 49%**	47% / 55%
Engineering technology	1.1% / 4.5%	**51% / 54%**	– / 42%
Math & statistics	7.9% / 17%	**26% / 55%**	47% / 53%
Physical sciences	3.9% / 6.0%	**47% / 33%**	33% / 38%
Biological sciences	2.9% / 3.4%	**17% / 23%**	19% / 23%
Natural resources	0.4% / 2.0%	**8.8% / 17%**	– / 27%
Architecture	0.5% / 7.3%	**13% / 29%**	– / 55%

International share in Tennessee / U.S., 2025. Data from NCES, IPEDS Completions.

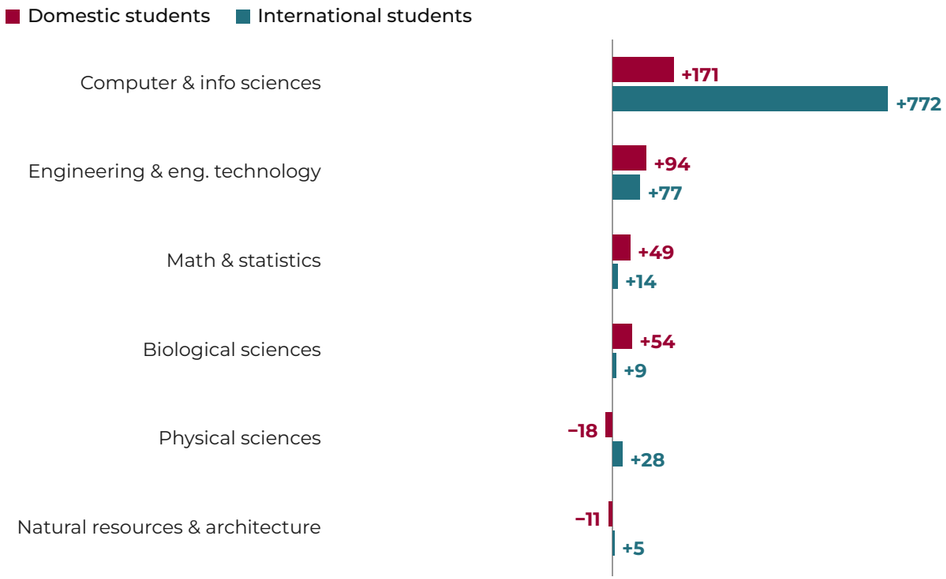

SECTION 1 · INTERNATIONAL DEPENDENCE

How Has Tennessee's STEM Master's Output Grown?

Each pair of bars is the change in the number of STEM master's degrees awarded in Tennessee between 2015 and 2025 in one field: to domestic students (U.S. citizens and permanent residents) and to international students. Bars to the left of the axis are declines.

STEM master's degrees. The state awarded 2.29K in 2025 and 1.05K in 2015, a change of +905 for international students and +339 for domestic students.

Figure 6 Where Did the STEM Master's Growth Come From?

Change in STEM master's degrees by field, 2015–2025. Data from NCES, IPEDS Completions.

Natural resources & architecture	80	**74**	−7.5%	8	3.8%	11%

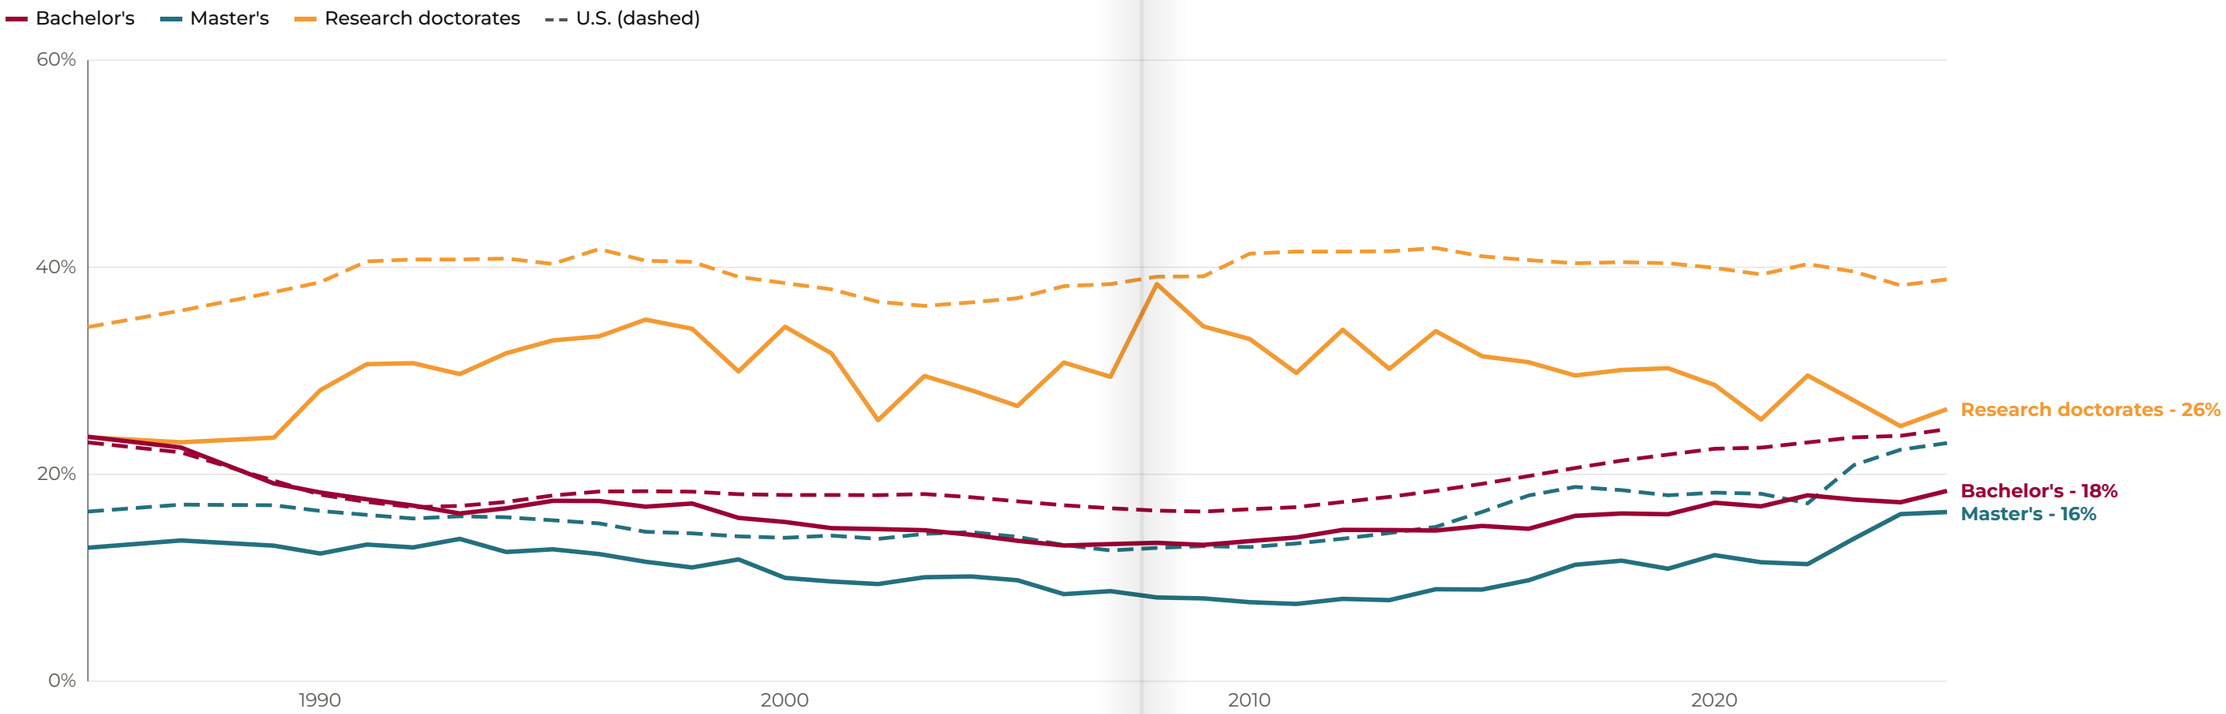

STEM master's degrees awarded in Tennessee, all students and international students, 2015 and 2025. Data from NCES, IPEDS Completions.

SECTION 2

STEM Degrees

Tennessee ranks 44th of 51 on the STEM share of bachelor's, at 18% in 2025 against 24% for the U.S.

Figure 7 How Much of Tennessee's Degree Output Is STEM?

STEM share of degrees by level; state solid, U.S. dashed. Data from NCES, IPEDS Completions.

STEM fields account for 18% of Tennessee's bachelor's degrees, 16% of its master's and 26% of its research doctorates (U.S. 24%, 23% and 39%).

The STEM share of master's degrees is up 7.5 points since 2015, and the state ranks 38th of 51 on it. On the STEM share of bachelor's degrees it ranks 44th of 51.

SECTION 3

Where Students Come From

Tennessee ranks 41st of 51 on the share of first-time students whose home is outside the US, at 1.6% in 2024 against 3.1% for the U.S.

Figure 10 First-Time Students by Home and Destination, Fall 2024

Home of first-time degree-seeking undergraduates (left) and the state of the institution entered (right); the five largest sources and destinations (more when states tie at the printed figure), the rest grouped; ties are ordered by exact count. Data from NCES, IPEDS Fall Enrollment.

41K residents stayed in Tennessee for college in fall 2024; 11.7K students arrived from other states and 848 from abroad, while 11.4K residents left.

Each band runs from a student's home on the left to the state where they enrolled on the right. 76% of the state's first-time students are residents.

SECTION 5

Graduate Research

Tennessee ranks 39th of 51 on the temporary-visa share of S&E graduate students, at 27% in 2016 against 39% for the U.S.

Figure 15 How Many of Tennessee's Science and Engineering Graduate Students Hold Temporary Visas?

Temporary-visa share of science and engineering graduate students and postdoctoral appointees, by the institution's state; state solid, U.S. dashed. NSF stopped publishing state tables after 2016. Data from NSF NCSES, Survey of Graduate Students and Postdoctorates.

In 2016, the last year NSF published state tables, 27% of Tennessee's science and engineering graduate students held temporary visas (U.S. 39%; 39th of 51).

Among postdoctoral researchers, the share was 52% (U.S. 56%). Postdocs are the stage of research training most dependent on international talent, and IPEDS does not count them.

The state's institutions awarded 1.01K research doctorates in 2025, 1.7% of the U.S. total (Data from NSF NCSES, Survey of Earned Doctorates; NSF publishes doctorates by citizenship only for the nation).

SECTION 6

Do Graduates Stay?

Tennessee ranks 5th of 33 on the share of bachelor's graduates working in the state 1 year after graduating, at 78% in 2019 against 72% for the U.S.

Figure 16 How Many of Tennessee's Graduates Go On to Work in the State?

Share of employed graduates working in the state of their institution, by graduating cohort (Data from U.S. Census Bureau, Post-Secondary Employment Outcomes; participating institutions only); international graduates' OPT jobs in the state where they studied (Data from ICE, SEVIS FOIA releases; shares only, the file is truncated). State solid, U.S. or participating states dashed.

Of Tennessee's bachelor's graduates who were working a year after graduating, 78% worked in the state (participating states 72%). Five years out the share was 73%.

Among international graduates on Optional Practical Training in 2016, 42% worked in the state where they studied (U.S. 44%). That is the last year the released records cover, before most of the growth in international STEM master's degrees since 2015. Through migration between states, the state gained 0.5 bachelor's-plus adults per 1,000 such residents in 2025 (Data from U.S. Census Bureau, American Community Survey).

SECTION 7

Research Funding

Tennessee ranks 15th of 51 on federal R&D obligations to the state, at $3.89B in 2024 against $193B for the U.S.

Figure 17 How Much Research Money Flows Into Tennessee?

Nominal dollars (not adjusted for inflation), fiscal years; a line ending before the others is labeled with its last year. University R&D: Data from NSF NCSES, Higher Education Research and Development Survey (FY2003-09 predecessor survey). Federal R&D obligations by state of performance: Data from NSF NCSES, Survey of Federal Funds for R&D (coverage widens in FY2021). Grants from NSF, NIH, NASA and DOE Science plus R&D contracts: Data from USAspending.gov.

Tennessee's universities spent $2.12B on research and development in FY2024, 18th of 51 among the states; 55% of it was federally funded (U.S. 55%).

Federal agencies obligated $3.89B for R&D performed in the state in FY2024. Research funding drives demand for graduate students and postdocs, the stage of training most dependent on international talent.

SECTION 8

H-1B Jobs and Green Cards

Tennessee ranks 19th of 51 on certified H-1B positions, by worksite, at 8.81K in 2025 against 914K for the U.S.

Figure 18 How Many Skilled-Visa Jobs and Green-Card Certifications Does Tennessee Generate?

Certified H-1B positions on labor condition applications by worksite and certified PERM green-card applications, by fiscal year (Data from DOL, Office of Foreign Labor Certification); new H-1B petition approvals by the employer's address (Data from USCIS, H-1B Employer Data Hub).

Employers were certified for 8.81K H-1B positions at Tennessee worksites in FY2025, 19th of 51 among the states. A labor condition application comes before the petition and covers renewals and job changes as well as new hires, by the worksite's state, so it runs well above approvals. USCIS approved 1.46K new H-1B petitions in FY2026 and 3.65K continuing ones, counted by the employer's address.

DOL certified 1.16K PERM applications, the employer's step toward an employment-based green card, for jobs in the state in FY2025. In FY2024, 9.6% were for workers still on F-1 student visas (U.S. 8.7%): the most direct link from classroom to permanent residence.

8.81K

U.S. **$119K** · **30th** of 51 · +47% since 2015

SECTION 9

STEM Workforce

Tennessee ranks 27th of 44 on the foreign-born share of STEM workers with a graduate degree, at 26% in 2024 against 41% for the U.S.

Figure 20 How Much of Tennessee's STEM Workforce Was Born Abroad?

Foreign-born share of employed workers in STEM occupations, by state of residence; state solid, U.S. dashed. Shares resting on fewer than 100 survey records are left out. No 2020 (experimental data). Data from U.S. Census Bureau, American Community Survey.

In 2024, 12% of the people working in STEM occupations in Tennessee were born abroad (U.S. 24%; 33rd of 51).

The share rises with education: 26% of STEM workers with a graduate degree were foreign-born (U.S. 41%), and 37% of those with a doctorate (U.S. 47%; 17th of 20). 6.7% of all STEM workers were not U.S. citizens.

SECTION 11

Competitors

The four states closest in total fall enrollment, measured proportionally (a state 1.5 times as large counts as near as one two-thirds the size), are Wisconsin, Washington, Alabama, and Missouri. Tennessee ranks 3rd of the five on the international share of STEM master's; Missouri is the most dependent at 83%.

Figure 22 How Dependent Are Tennessee and Its Peers on International STEM Master's?

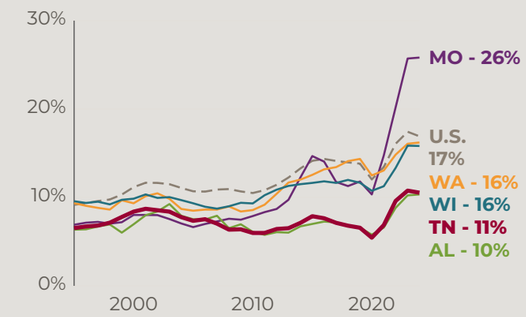

Data from NCES, IPEDS Completions.

SECTION 12

Fields of Study

Figure 27 How Many Degrees Does Tennessee Award?

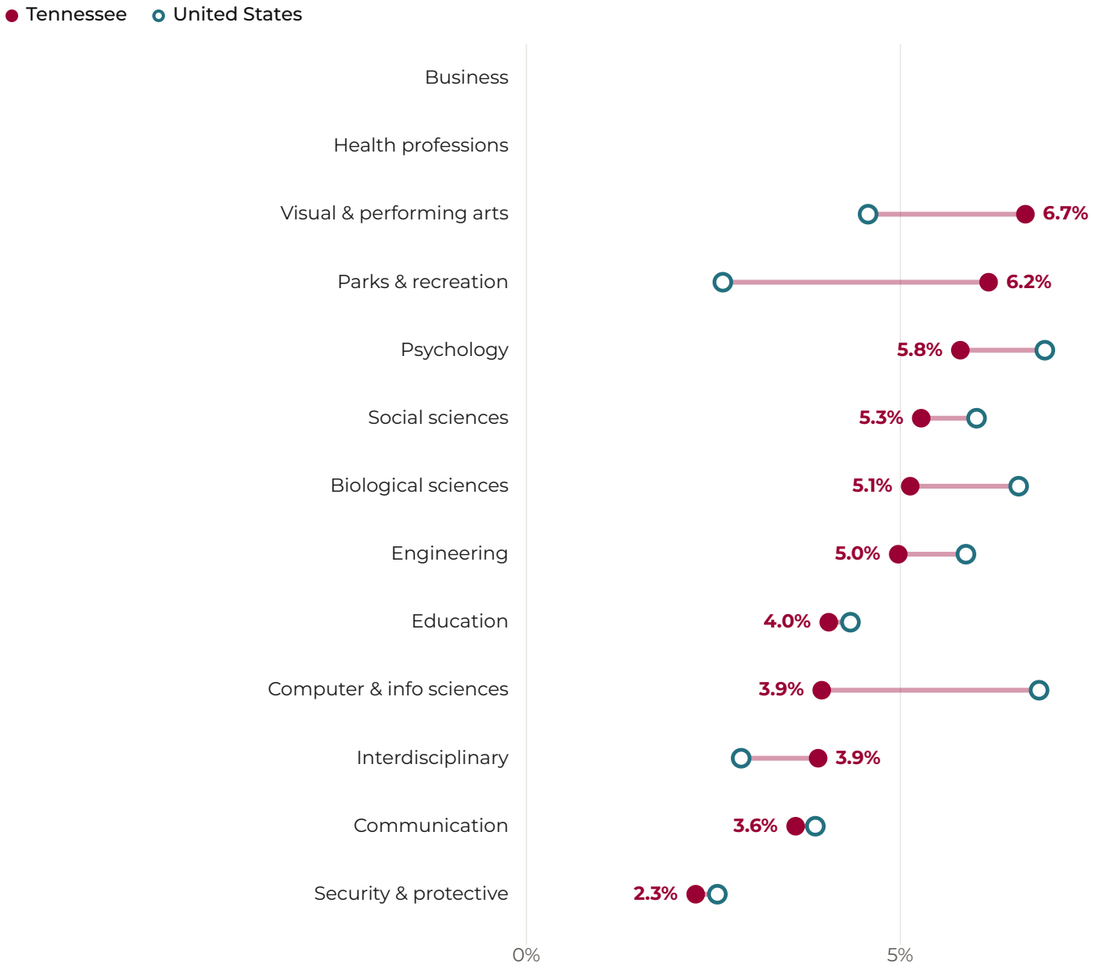

Degrees awarded by level, first majors. Data from NCES, IPEDS Completions.

In 2025, Tennessee's institutions awarded 17.5K associate's degrees, 35.2K bachelor's degrees, 14K master's degrees, 2.12K research doctorate degrees, 3.21K professional doctorate degrees.

Since 2015: associate's up 37%; bachelor's up 3%; master's up 19%; research doctorate up 51%; professional doctorate up 42%. The state awards 13.0 bachelor's degrees for every 100 undergraduates (U.S. 12.3).

Figure 28 What Do Tennessee's Bachelor's Graduates Study?

Share of bachelor's degrees by field, 2025. Data from NCES, IPEDS.

Tennessee's largest bachelor's fields are business (20%; U.S. 19%), health professions (12%; U.S. 13%), visual & performing arts (6.7%; U.S. 4.6%).

Relative to the nation, Tennessee's bachelor's degrees are most concentrated in communications tech (2.57× the U.S. share), theology (2.50× the U.S. share), parks & recreation (2.35× the U.S. share).

12

Figure 30 How Has Tennessee's Bachelor's Field Mix Changed?

Share of bachelor's degrees in the largest fields. Data from NCES, IPEDS Completions.

Since 2015, business has gained the most ground, 1.7 points of the state's bachelor's degrees, while social sciences lost the most (0.3 points).

The chart follows the share of bachelor's degrees in each of the state's largest fields; smaller fields are grouped as other fields.

SECTION 12 · FIELDS OF STUDY

Where Is Tennessee Specialized, and What Do Its Doctoral Graduates Study?

The location quotient divides a field's share of Tennessee's bachelor's degrees by its share of all U.S. bachelor's degrees in 2025. A quotient of 1.00 means the same share as the nation; 2.00 means twice the national share. The table lists the 10 fields with the highest quotients among fields with at least 50 degrees.

Highest location quotients. Communications tech (2.57, with 0.7% of the state's bachelor's degrees against 0.3% for the U.S.), theology (2.50, with 0.7% of the state's bachelor's degrees against 0.3% for the U.S.), and parks & recreation (2.35, with 6.2% of the state's bachelor's degrees against 2.6% for the U.S.) had the highest quotients.

Table 5 Where Is Tennessee Most Specialized?

Field	Location quotient	State share	U.S. share	Degrees
Communications tech	**2.57**	0.7%	0.3%	240
Theology	**2.50**	0.7%	0.3%	251
Parks & recreation	**2.35**	6.2%	2.6%	2.17K
Transportation	**1.98**	0.7%	0.4%	254
Agriculture	**1.83**	1.9%	1.0%	662
Visual & performing arts	**1.46**	6.7%	4.6%	2.35K
Interdisciplinary	**1.36**	3.9%	2.9%	1.37K
English	**1.17**	1.8%	1.5%	620
Engineering technology	**1.16**	1.0%	0.9%	364
Languages	**1.12**	0.6%	0.6%	227

Bachelor's degrees; location quotient = state share ÷ U.S. share; fields with 50+ degrees. Data from NCES, IPEDS.

Figure 35 What Does In-State Tuition Cost?

Published in-state tuition and fees, 2024 dollars (CPI-U); state solid, U.S. dashed. Data from NCES, IPEDS.

In-state tuition and fees at Tennessee's public four-year institutions are $11K (2023, 2024 dollars), 13% above the U.S. ($9.71K); the state ranks 19th of 51.

State and local appropriations come to $12.1K per full-time-equivalent student at public institutions (13th of 51), and net tuition makes up 37% of net tuition plus state and local appropriations (U.S. 43%).

SECTION 13 · STUDENTS AND MONEY

How Are Tennessee's Public Institutions Funded, and What Do They Produce?

The bars give each source's share of the core revenue of Tennessee's public institutions, with the nation for comparison, and at right the dollars per full-time-equivalent (FTE) student it provides. Values are in 2024 dollars (CPI-U). Net tuition is tuition and fees after institutional discounts and allowances.

Net tuition per FTE student. The figure was $7.58K in FY2024, against $8.96K for the U.S., down 3.8% from $7.88K in FY2023 and down 6.4% since FY2015, when it was $8.1K.

Figure 36 How Are Public Institutions Funded?

Share of core revenue per FTE student by source, public institutions, FY2024; dollars per FTE at right, 2024 dollars (CPI-U). Shares are of all five sources; the tuition share elsewhere in this profile divides net tuition by net tuition plus state and local appropriations only. Data from NCES, IPEDS Finance.

$11K

$12.1K
Appropriations per student, 2024
U.S. **$11.4K** · **13th** of 51

37%
Tuition share of tuition plus appropriations, 2024
U.S. **43%** · **39th** of 51

The table brings together five measures of what public higher education costs and what it produces in Tennessee: in-state tuition at public four-year institutions, state and local appropriations per full-time-equivalent student, tuition's share of public institutions' core revenue, the six-year bachelor's graduation rate, and the average full-time faculty salary.

In-state tuition, public 4-year. The figure was $11K in 2023, against $9.71K for the U.S., 19th among the states, down 1.0% from $11.1K in 2022 and down 7.3% since 2015, when it was $11.9K.

Table 6 Money and Results

Measure	Year	Tennessee	U.S.	Rank	Change since 2015
In-state tuition, public 4-year	2023	**$11K**	$9.71K	19th of 51	−7.3%
Appropriations per student	2024	**$12.1K**	$11.4K	13th of 51	+64%
Tuition share of tuition plus appropriations	2024	**37%**	43%	39th of 51	−13.0 pp
Six-year graduation rate	2024	**58%**	65%	36th of 51	+8.2 pp
Average faculty salary	2024	**$92.8K**	$106K	33rd of 51	−5.5%

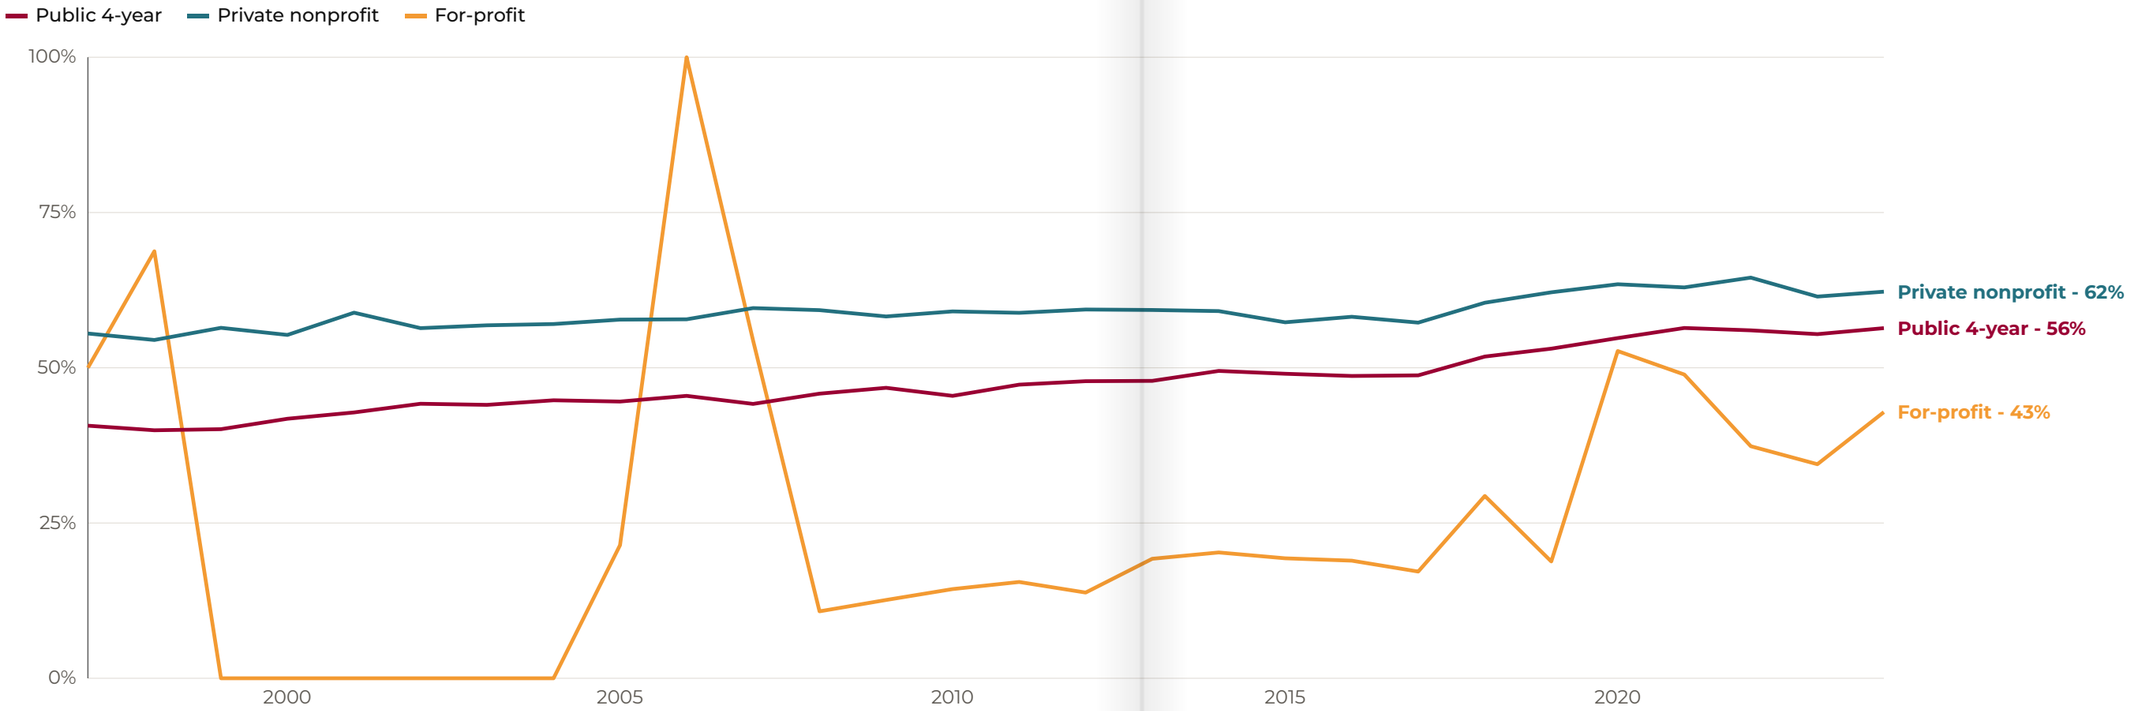

Rank among the 50 states and DC (1 = highest). Dollars in 2024 dollars (CPI-U). Data from NCES, IPEDS.

SECTION 14

Student Outcomes

Tennessee ranks 39th of 50 on the share of completion within 150% of normal time, 2-year institutions, at 34% in 2024 against 41% for the U.S.

Figure 37 How Do Graduation Rates Differ by Sector?

Six-year bachelor's graduation rate by sector of institution. Data from NCES, IPEDS Graduation Rates.

58% of students who started a bachelor's degree at a four-year institution in Tennessee graduated within six years (2024), 6.4 points below the U.S. (65%); the state ranks 36th of 51.

By sector: public 4-year 56%, private nonprofit 62%, for-profit 43%. At two-year institutions, 34% complete within 150% of normal time (U.S. 41%).

SECTION 14 · STUDENT OUTCOMES

How Many of Tennessee's Students Graduate?

The line follows the share of first-time, full-time bachelor's-degree students at Tennessee's four-year institutions who graduated from the institution where they started within six years (150% of normal time). Each year is the cohort that entered six years earlier. The rate leaves out students who start part-time (29% of the state's students attend part-time, against 39% nationally) and students who transfer and finish elsewhere. The state is solid and the United States dashed.

Six-year graduation rate. The rate was 58% in 2024, against 65% for the U.S., up 0.9 points from 58% in 2023 and up 8.2 points since 2015, when it was 50%.

Figure 38 Six-Year Bachelor's Graduation Rate

Four-year institutions; state solid, U.S. dashed. Data from NCES, IPEDS Graduation Rates.

13.0
Bachelor's per 100 undergraduates, 2025
U.S. **12.3** · **21st** of 51

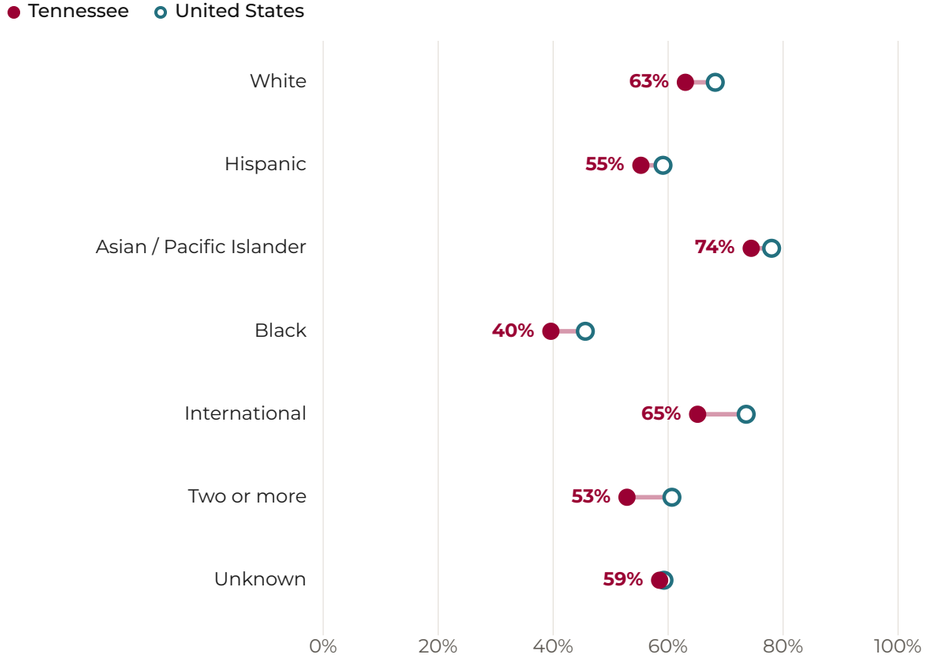

Each row is the six-year bachelor's graduation rate for one racial or ethnic group of students at Tennessee's four-year institutions (filled dot), against the national rate for the same group (open dot). Groups with fewer than 100 students in the cohort are left out.

White. The six-year rate was 63% in 2024, against 68% for the U.S.

Hispanic. The six-year rate was 55% in 2024, against 59% for the U.S.

Asian / Pacific Islander. The six-year rate was 74% in 2024, against 78% for the U.S.

Figure 39 How Do Graduation Rates Differ by Race and Ethnicity?

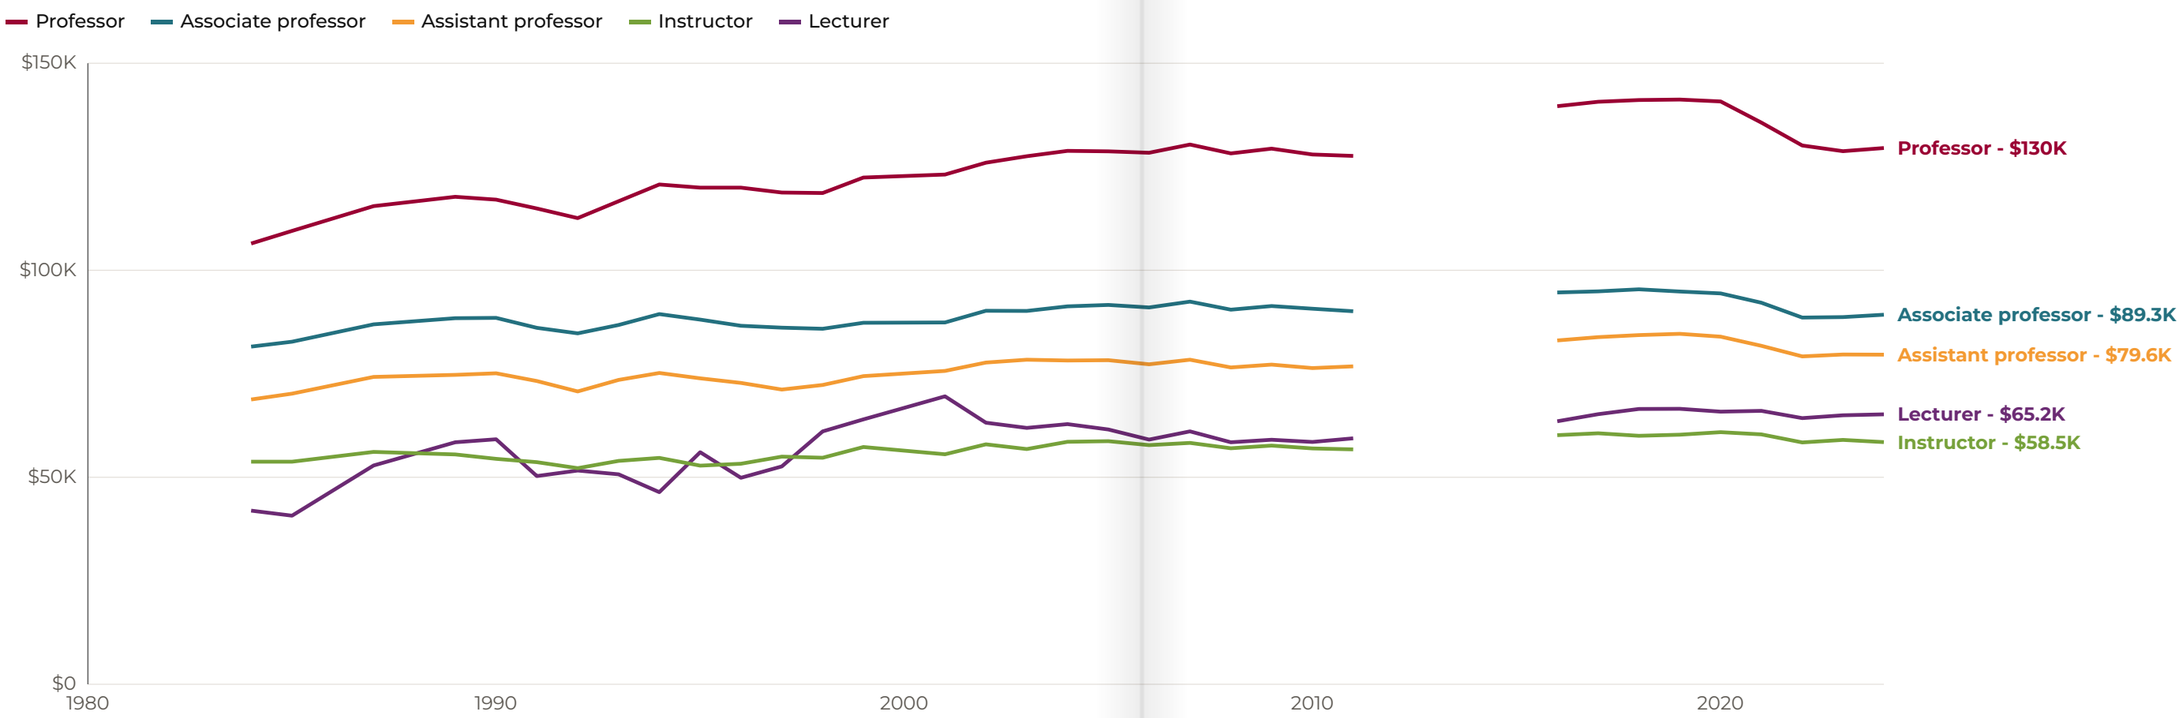

Six-year rate, 2024; groups with 100+ students. Data from NCES, IPEDS.

SECTION 15

Faculty

Tennessee ranks 33rd of 51 on the average full-time faculty salary, at $92.8K in 2024 against $106K for the U.S.

Figure 40 What Do Tennessee's Faculty Earn, by Rank?

Average salary of full-time instructional faculty on 9/10-month contracts, by academic rank, 2024 dollars (CPI-U). Data from NCES, IPEDS Human Resources.

Full-time instructional faculty on 9/10-month contracts at Tennessee's institutions earned an average of $92.8K in 2024 (2024 dollars), 12% below the U.S. ($106K); the state ranks 33rd of 51. By rank (2024): professors $130K, associate professors $89.3K, assistant professors $79.6K, instructors $58.5K, lecturers $65.2K.

Tennessee's institutions had 15.6K full-time instructional staff in 2024, down 5% since 2015. Average salary across all ranks is down 5% since 2016.

SECTION 15 · FACULTY

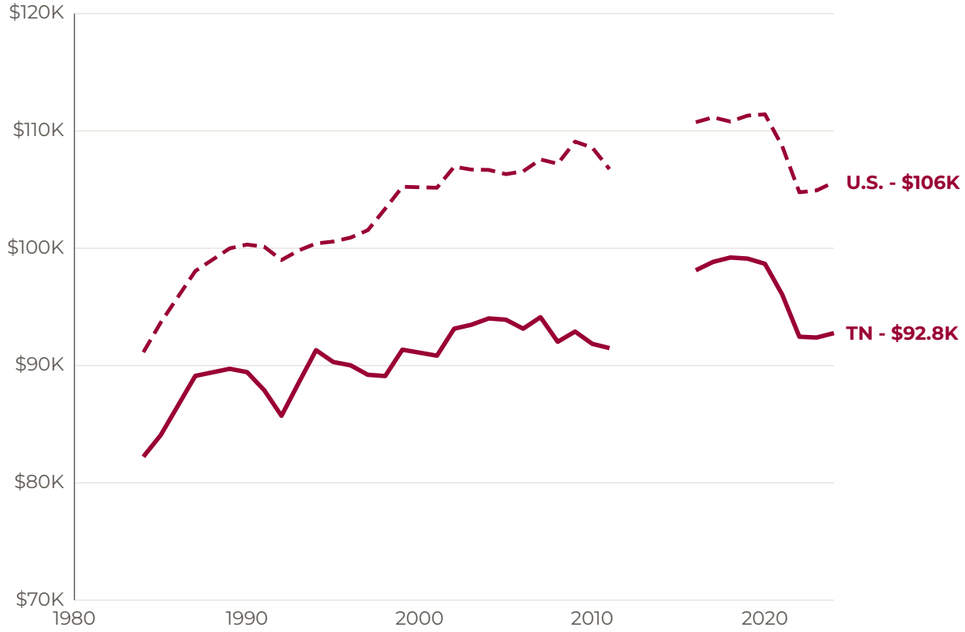

What Do Tennessee's Faculty Earn, and How Many Hold Tenure?

The line follows the average salary of full-time instructional faculty on 9- or 10-month contracts at Tennessee's degree-granting institutions, all ranks combined, in 2024 dollars (CPI-U). The state is solid and the United States dashed.

Average salary. The figure was $92.8K in 2024, against $106K for the U.S., 33rd among the states, up 0.4% from $92.4K in 2023 and down 5.5% since 2016, when it was $98.1K.

Full-time instructional staff. The number was 15.6K in 2024, up 3.0% from 15.1K in 2023 and down 5.2% since 2015, when it was 16.4K.

Figure 41 Average Faculty Salary

Full-time instructional staff, 2024

39%
Tenured, 2024

The bars divide Tennessee's full-time instructional staff by tenure status in 2015, 2019 and 2024: tenured, on the tenure track, not on the tenure track (for example, lecturers on fixed-term contracts), and staff at institutions with no tenure system.

Tenured, share of full-time instructional staff. The share was 39% in 2024, down 0.7 points from 39% in 2023 and down 1.6 points since 2015, when it was 40%.

Figure 42 Tenure Status

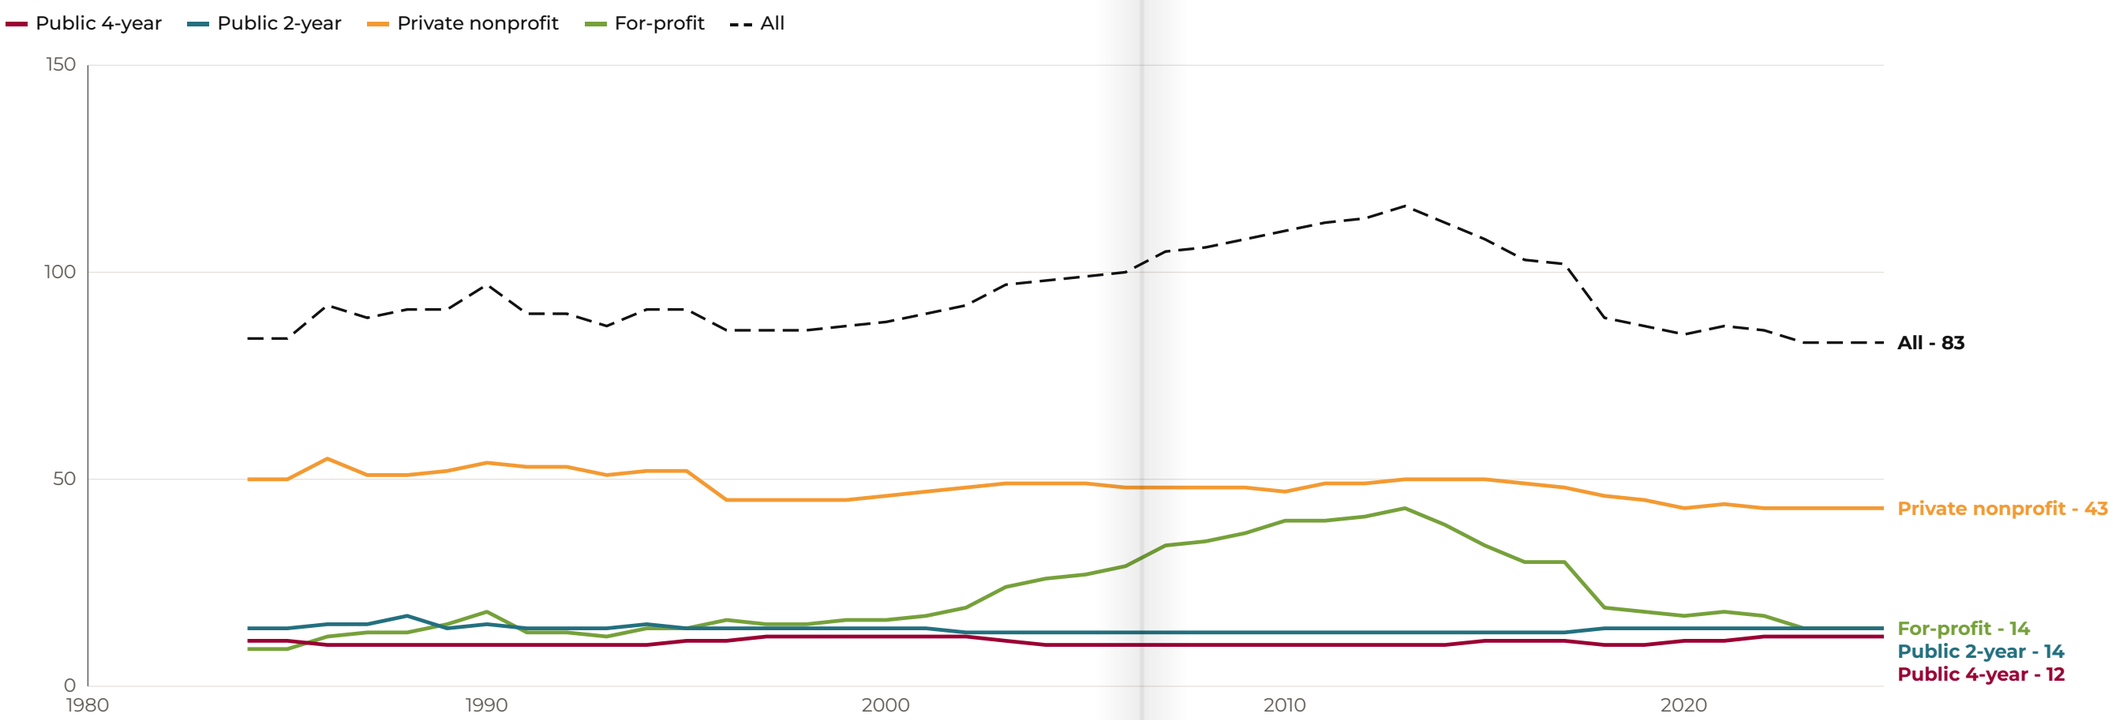

Full-time instructional staff by tenure status, 2015, 2019, 2024. Data from NCES, IPEDS.

SECTION 16

Institutions

Tennessee ranks 9th of 51 on the share of enrollment at for-profit institutions, at 7.5% in 2024 against 5.5% for the U.S.

Figure 43 How Many Institutions Does Tennessee Have?

Degree-granting institutions by sector. Data from NCES, IPEDS.

Tennessee has 83 degree-granting institutions:12 public 4-year, 14 public 2-year, 43 private nonprofit, 14 for-profit (2025).

The number of institutions is down 23% since 2015. 68% of students attend public institutions and 7.5% attend for-profit ones.

SECTION 16 · INSTITUTIONS

Which Institutions Lead in Tennessee?

The table ranks institutions in Tennessee by the STEM master's degrees and research doctorates they awarded to international students in 2025, the two counted together. The share columns give international students' share of each institution's STEM degrees at that level.

Largest. University of Memphis (345 international STEM master's degrees and 36 doctorates), Christian Brothers University (251 international STEM master's degrees and – doctorates), and The University of Tennessee-Knoxville (98 international STEM master's degrees and 84 doctorates) awarded the most.

Table 7 Which Institutions Train the Most International STEM Graduates?

Institution	STEM total	STEM master's	Int. share	STEM doctorates	Int. share
University of Memphis Memphis · Public 4-year	**381**	345	73%	36	63%
Christian Brothers University Memphis · Private nonprofit	**251**	251	95%	–	–
The University of Tennessee-Knoxville Knoxville · Public 4-year	**182**	98	20%	84	38%
Cumberland University Lebanon · Private nonprofit	**159**	159	100%	–	–
Vanderbilt University Nashville · Private nonprofit	**139**	91	28%	48	23%
Middle Tennessee State University Murfreesboro · Public 4-year	**58**	55	39%	3	50%
East Tennessee State University Johnson City · Public 4-year	**55**	54	62%	1	33%
Tennessee Technological University Cookeville · Public 4-year	**36**	23	33%	13	52%

The table lists Tennessee's largest degree-granting institutions by fall 2024 headcount enrollment, with the international share of graduate students, STEM bachelor's degrees awarded in 2025, the six-year graduation rate and the admission rate (a dash where the institution admits all applicants or does not report one).

Largest. The three largest were The University of Tennessee-Knoxville (38.7K students), Middle Tennessee State University (20.5K students), and University of Memphis (20.3K students).

Degree-granting institutions. The state had 83 in 2025, and 80 of them reported the enrollment and degree data in these tables.

Table 8 What Are Tennessee's Largest Institutions?

Institution	Enrollment	Int. share, grad	STEM bachelor's	Six-year grad rate	Admit rate
The University of Tennessee-Knoxville	**38.7K**	14%	1.55K	74%	42%
Middle Tennessee State University	**20.5K**	9.4%	500	54%	69%

Pellissippi State Community College	**9.4K**	–	–	–	–

Fall 2024 enrollment; degrees 2025. Data from NCES, IPEDS.

NOTES

About These Data

International students

U.S. nonresidents on temporary visas, as IPEDS defines them. IPEDS does not record country of citizenship. Permanent residents count with U.S. citizens.

STEM

CIP families 03, 04, 11, 14, 15, 26, 27 and 40. Doctorates are research and scholarship doctorates; professional doctorates appear only in the degree-count figure. Degrees are first majors only.

Universe

Degree-granting institutions located in the state; Title IV participants from 1996. Geography is the institution's location, not the student's home. Enrollment is fall headcount.

Migration

First-time degree-seeking undergraduates by home state, reported in even years before 2001 and every year since; odd years with incomplete reporting are omitted. Net migration is students arriving from other states minus residents leaving, per 100 resident first-time students.

Money

Tuition, appropriations, revenue and faculty salaries are in 2024 dollars using the CPI-U. Research funding (HERD, Federal Funds, USAspending), wages and the NAFSA economic contribution are nominal dollars, and are labeled so. Appropriations and revenue are per full-time-equivalent student at public institutions; the tuition share divides net tuition by net tuition plus state and local appropriations.

Race and ethnicity

IPEDS did not collect race and ethnicity in every year before 2010, and categories changed in 2008–2010; “Two or more” exists only from then.

Countries of citizenship

From DHS SEVIS by the Numbers: active F-1 and M-1 student records in the month named, at every level from primary school to doctorate, by the state of the school. IPEDS records only whether a student is a U.S. nonresident, not where they come from. SEVIS counts are monthly snapshots and are not directly comparable with IPEDS fall enrollment or degree counts. Year-to-year comparisons use one fall snapshot per year (the month closest to November).

Peers

Comparison states are the four closest in total fall enrollment, measured proportionally: a state 1.5 times as large counts as near as one two-thirds the size.

Sources

IPEDS (National Center for Education Statistics) is the backbone: Institutional Characteristics, Fall Enrollment, Completions, Graduation Rates, Finance, Human Resources and Admissions, 1980–2025, harmonized into a state panel. The profile also draws on NAEP, NSF's Survey of Graduate Students and Postdoctorates, Survey of Earned Doctorates, HERD and Federal Funds surveys, USAspending.gov, DHS SEVIS by the Numbers and ICE SEVIS releases, the Department of Labor's Office of Foreign Labor Certification and BLS wage data, the USCIS H-1B Employer Data Hub, the Census Bureau's American Community Survey and Post-Secondary Employment Outcomes, USPTO PatentsView, and other federal sources; every figure names its source, and the Sources page lists them in full. Generated November 2026.

NOTES

How the Numbers Are Counted

Ranks

Ranks are among the 50 states and the District of Columbia (1 = highest value, whether or not a high value is good). Where fewer than 51 report, the count is given ("23rd of 33").

Sectors

Sectors are as IPEDS classifies institutions each year. IPEDS moves a whole institution to "public, 4-year or above" once it awards any bachelor's degree, so community colleges that began offering applied bachelor's degrees carry all of their students into the public 4-year sector. Sector series (enrollment shares, public 4-year tuition, graduation rates by sector) reflect these moves.

Research doctorates

Two counts appear. IPEDS counts degrees institutions report as "doctor's degree, research/scholarship", which includes some practice-oriented degrees such as many Ed.D.s; the NSF Survey of Earned Doctorates counts research doctorate recipients and is smaller. Each figure names which it uses. "STEM master's per STEM research doctorate" divides IPEDS STEM master's degrees by IPEDS STEM research doctorates.

Engineering

"Engineering" alone is CIP 14. Where engineering technology (CIP 15) is added, the label says "engineering & eng. technology".

Graduation rates

IPEDS graduation rates follow first-time, full-time students and count only those who finish at the institution where they started, so they leave out part-time starters and students who transfer and finish elsewhere.

International students in SEVIS

SEVIS counts active F-1 and M-1 records, which include graduates on Optional Practical Training (up to 36 months for STEM graduates, 12 for others), so STEM shares run high. STEM follows the DHS STEM Designated Degree Program List, which is broader than the eight CIP families above, and DHS draws its STEM pages on a different basis from its all-student pages, so a country's STEM count can exceed its all-level count.

Visas and green cards

DOL labor condition applications (H-1B positions) are counted by worksite and include renewals and job changes; USCIS approvals are counted by the employer's address and split into new and continuing. PERM certifications are the employer's step toward a green card.

Patents

Patents are counted by the owner's (assignee's) location, not where inventors live; a company headquartered in another state takes its patents there.

Years

Each measure uses its latest year, so years differ across a page; every figure, table and statement gives its year, and lines that stop early are labeled with their last year.

Foreign-born share of STEM workers with a doctorate	27%[2021]	**37%**[2024]	+9.2 pp ▲	47%	+0.8 pp ▲	#17	[12]
Noncitizen share of STEM workers	5.1%	**6.7%**[2024]	+1.6 pp ▲	11%	+0.7 pp ▲	#25	[12]
STEM workers born abroad who arrived in the last 10 years	3.4%	**4.9%**[2024]	+1.5 pp ▲	7.5%	+0.3 pp ▲	#21	[12]
Share of foreign-born STEM workers born in India	28%	**28%**[2024]	+0.1 pp ▲	28%	+0.7 pp ▲	#18	[12]
Foreign-born share of residents	5.0%	**6.8%**[2025]	+1.7 pp ▲	15%	+1.3 pp ▲	#32	[12]
Foreign-born share of graduate-degree holders, 25+	7.5%	**11%**[2025]	+3.3 pp ▲	21%	+2.8 pp ▲	#32	[12]
STEM jobs, employer survey	118K	**167K**[2025]	+41% ▲	10.4M	+26% ▲	#20	[10]
STEM jobs concentration vs the U.S., location quotient	0.70	**0.76**[2025]	+0.1 ▲	1.00	0.0	#40	[10]
Mean annual STEM wage, nominal, nominal dollars	$72.9K	**$101K**[2025]	+39% ▲	$120K	+38% ▲	#33	[10]
Median software developer wage, nominal, nominal dollars	$90.9K[2019]	**$122K**[2025]	+35% ▲	$136K	+26% ▲	#35	[10]
Software developer jobs	8.9K	**19K**[2025]	2.14× ▲	1.69M	+48% ▲	#23	[10]
Mean annual wage, all occupations, nominal, nominal dollars	$41.3K	**$60.8K**[2025]	+47% ▲	$69.8K	+44% ▲	#40	[10]
Patents granted to assignees in the state	732	**984**[2025]	+35% ▲	135K	−0.6% ▼	#28	[22]
Share of U.S.-assignee patents	0.5%	**0.7%**[2025]	+0.2 pp ▲	–	–	#28	[22]
Share of the state's patents in digital technologies	8.2%	**11%**[2025]	+3.2 pp ▲	43%	+1.6 pp ▲	#39	[22]
Share of the state's patents in life sciences	37%	**33%**[2025]	−4.2 pp ▼	17%	+0.4 pp ▲	#8	[22]

Superscript years mark the year observed; changes since 2015 start from 2015 or the first later year with data. Rank is among the 50 states and DC (1 = highest). "pp" is percentage points. Dollars are 2024 dollars (CPI-U) unless the measure is labeled nominal. Counts and dollars are rounded to three significant figures (K, M, B). Arrow colors show direction only. Source numbers refer to the list of sources that follows the tables.

TENNESSEE – BY THE NUMBERS (CONTINUED)

Measure	2015	Latest	Change since 2015	U.S., latest	U.S. change since 2015	Rank	Source
STEM WORKFORCE AND INNOVATION (CONTINUED)							
Share of the state's patents in semiconductors	0.9%	**0.3%**[2025]	−0.7 pp ▼	2.9%	−1.7 pp ▼	#39	[22]
Women's share of inventors on the state's patents	11%	**11%**[2025]	0.0 pp	14%	+3.4 pp ▲	#28	[22]
