# Authors

**Emerson Victoria Johnston** is a research assistant with the Hoover Institution's Technology Policy Accelerator. A Knight-Hennessy Scholar, she holds a master's in international policy from Stanford University, and is on leave from its master's program in the history of science, technology, environment, and medicine.

**Dr. Amy Zegart** is the Morris Arnold and Nona Jean Cox Senior Fellow at the Hoover Institution, director of Hoover's Technology Policy Accelerator, and a senior fellow and associate director at Stanford University's Institute for Human-Centered Artificial Intelligence.

Data come from the Integrated Postsecondary Education Data System (IPEDS), the Department of Homeland Security's SEVIS by the Numbers, the National Assessment of Educational Progress, NSF's Survey of Graduate Students and Postdoctorates and Survey of Earned Doctorates, the Department of Labor's Office of Foreign Labor Certification, the USCIS H-1B Employer Data Hub, the Census Bureau's American Community Survey and USPTO patent data via PatentsView, processed in Python; every figure and table is generated from those sources, and each one names its source.

# About This Profile

This profile is a companion to *The 2026 US Talent Report: Benchmarking America's STEM Pipeline Amid the Great Talent Competition*. It applies the report's measures to Indiana: the students the state develops at home, those it draws from abroad, and how both compare with the nation and with the states closest to it in size.

Degrees, enrollment, prices, outcomes and faculty come from IPEDS, the federal census of U.S. colleges and universities, harmonized across 1980–2025. Countries of citizenship come from SEVIS by the Numbers, the Department of Homeland Security's monthly count of active F-1 and M-1 students. Each figure names its source. Peer states are the four closest in total fall enrollment.

AT A GLANCE

# What Indiana's numbers say

1. **International students earn 63% of Indiana's STEM master's degrees,** 11.1 points above the U.S. (52%) in 2025, ranking 8th of 51 on dependence. The share is 54% for STEM research doctorates (U.S. 43%) and 8.2% for STEM bachelor's (U.S. 6.6%).
2. **Indiana awarded 4.1K STEM master's degrees to international students in 2025,** 3.5% of the U.S. total and 8th of 51 among states. Since 2015 the count changed 3.4×, against 2.2× nationally.
3. **The heaviest dependence is in computer & info sciences,** where international students earned 84% of master's degrees (2.98K degrees; U.S. 65%). 2 STEM fields with at least 50 master's graduates are majority-international.
4. **Among states of similar size,** Indiana ranks 1st of 5 on the international share of STEM master's: Indiana 63%, Massachusetts 61%, Michigan 50%, Utah 7.2%, Virginia 39%.
5. **67% of Indiana's first-time students in fall 2024 were state residents** and 3.6% came from abroad. More students arrived from other states (19.2K) than residents left (9.12K), a net gain of 10.1K; the top destination for those leaving was Ohio.

**63%**

of the STEM master's degrees Indiana awards go to international students (U.S. 52%).

Badges give Indiana's rank among the 50 states and DC (1 = highest). Changes are since 2015.

SECTION 1

# International Dependence

Indiana ranks 6th of 51 states on the international share of graduate enrollment, at 25% in 2024 against 17% for the U.S.

**Figure 1** What Share of Indiana's Degrees Go to International Students?

International share of degrees awarded, all fields; state solid, U.S. dashed. Data from NCES, IPEDS Completions, 1985–2025.

International students make up 25% of Indiana's graduate enrollment and 3.0% of its undergraduates. Dependence climbs with each degree: 4.6% of bachelor's, 29% of master's and 35% of research doctorates go to international students.

In STEM the shares are higher still: 8.2% of STEM bachelor's, 63% of STEM master's and 54% of STEM doctorates. The state awards 3.5% of all U.S. international STEM master's, 8th of 51.

## Figure 2 Where Do Indiana's International Students Come From?

Active F-1 and M-1 students by country of citizenship, the five largest in October 2026; one fall snapshot per year (the month closest to November), October 2014–October 2026. All education levels. Data from DHS, SEVIS by the Numbers.

In October 2026, Indiana had 31.5K active international students in SEVIS, 11th of 51. India accounted for 44% of them and China for 13%, against 27% and 18% nationally.

Students came from 173 countries, but the two largest supplied 56%. The state's total is up 15% since 2014.

SECTION 1 · INTERNATIONAL DEPENDENCE

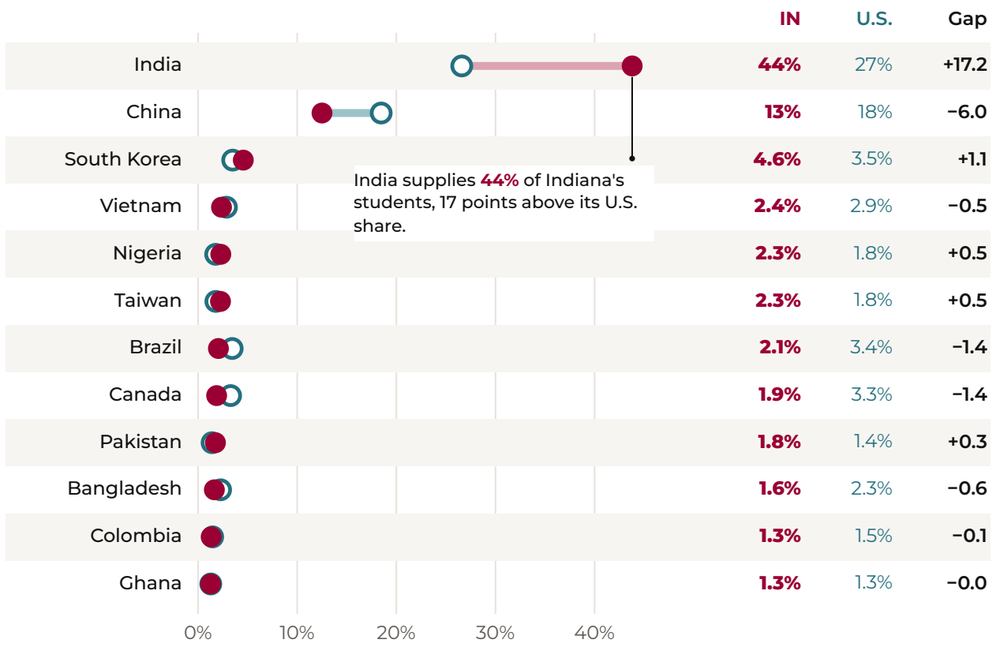

# How Does Indiana's Mix of Countries Compare With the Nation's?

In October 2026, Indiana had **31.5K** active F-1 and M-1 students, 11th of 51 states and **2.6%** of the U.S. total. They came from 173 countries.

India supplied **44%** of them, against 27% nationally, and China **13%**, against 18%. South Korea (4.6%), Vietnam (2.4%), and Nigeria (2.3%) followed.

Together the two largest countries supplied **56%** of the state's international students (U.S. 45%), 7th among the states, against 56% in 2015.

**Figure 3** Is Indiana's Mix of Countries Like the Nation's?

Share of active F-1 and M-1 students, all levels. Data from DHS, SEVIS by the Numbers, October 2026.

The state's count is down 1.0% from 2025 and up 11% since 2015, when it stood at 28.4K. Its share of all U.S. international students is up 0.3 points since 2015, to **2.6%**.

Since 2015, the number of students from India went from 4.94K to 13.8K, China's from 11K to 3.93K, and South Korea's from 2.06K to 1.43K.

Over the same years, the number from Vietnam went from 241 to 742 and Nigeria's from 253 to 720. The table gives each country's count for the first, previous and latest years.

**Table 1** International Students in Indiana, 2015–2026

| | 2015 | 2025 | 2026 | Change since 2015 | U.S. 2026 | Rank |
|---|---|---|---|---|---|---|
| **ALL INTERNATIONAL STUDENTS** | | | | | | |
| Active F-1 and M-1 students | 28.4K | 31.8K | **31.5K** | +11% | 1.19M | 11th |

Active F-1 and M-1 students, one fall snapshot per year (the month closest to November; 2019 has none; the latest year is October 2026). Rank among the 50 states and DC. Data from DHS, SEVIS by the Numbers.

Figure 4

## Which Countries Supply Indiana's International STEM Students?

**16.7K** of Indiana's international students were in STEM fields in October 2026, **53%** of the total against 63% nationally, up 15% since 2015.

Master's students were the largest group, **5.79K**. India supplied 68% of them and China 5.1%.

STEM doctoral students went from 3.45K in 2015 to **5.22K**, and STEM master's students from 4.03K to 5.79K.

SECTION 1 · INTERNATIONAL DEPENDENCE

# How International Are Indiana's Master's Fields?

Each row is a master's field with at least 30 graduates in Indiana in 2025, ranked by the share of degrees earned by international students (U.S. nonresidents on temporary visas). The filled dot is the state's share; the open dot is the national share for the same field.

**Highest international shares.** International students earned the largest shares of master's degrees in computer & info sciences (84%, against 65% for the U.S.), engineering technology (72%, against 54% for the U.S.), and interdisciplinary (52%, against 46% for the U.S.).

## Figure 5 Which Master's Fields Depend Most on International Students?

International share of master's degrees by field, 2025; fields with 30+ graduates. Data from NCES, IPEDS Completions.

**29%**
Int. share of all master's, 2025
U.S. **22%** · **8th** of 51

**63%**
Int. share of STEM master's, 2025
U.S. **52%** · **8th** of 51

**84%**
Int. share of CS master's, 2025
U.S. **65%** · **7th** of 47

The table gives the international share of degrees in each STEM field at three levels: Indiana first, the United States after the slash. The master's column is highlighted. A dash means the state awarded no degrees in the field at that level.

**Highest international share among STEM master's fields.** International students earned 84% of the master's degrees in computer & info sciences, against 65% for the U.S.

**Fields with an international majority.** International students earned more than half of the master's degrees in 2 STEM fields.

## Table 2 How International Is Each STEM Field?

| Field | Bachelor's | Master's | Doctorates |
|---|---|---|---|
| Computer & info sciences | 11% / 8.6% | **84% / 65%** | 66% / 56% |
| Engineering | 9.7% / 7.2% | **41% / 49%** | 65% / 55% |
| Engineering technology | 6.2% / 4.5% | **72% / 54%** | 66% / 42% |
| Math & statistics | 18% / 17% | **35% / 55%** | 66% / 53% |
| Physical sciences | 7.2% / 6.0% | **38% / 33%** | 41% / 38% |
| Biological sciences | 2.9% / 3.4% | **23% / 23%** | 28% / 23% |
| Natural resources | 0.9% / 2.0% | **22% / 17%** | – / 27% |
| Architecture | 3.3% / 7.3% | **29% / 29%** | – / 55% |

International share in Indiana / U.S., 2025. Data from NCES, IPEDS Completions.

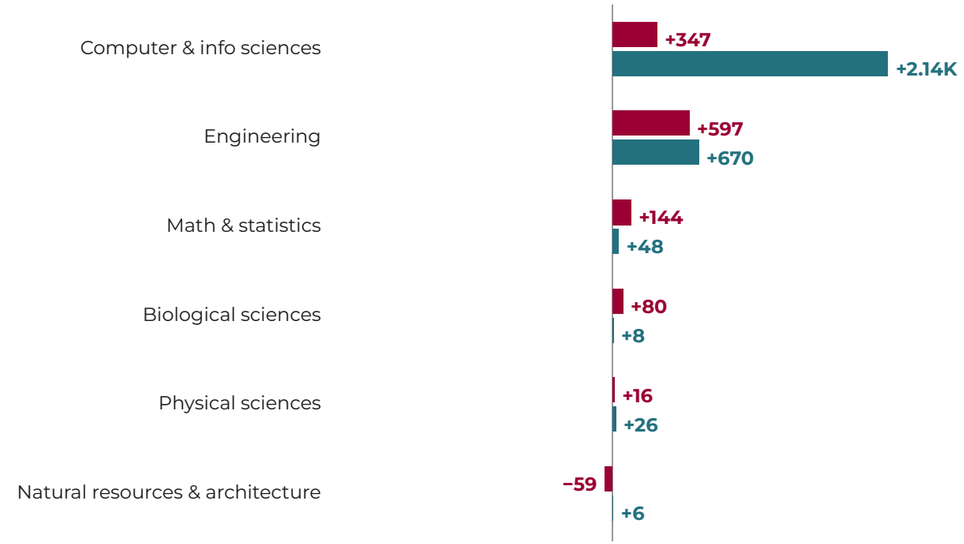

SECTION 1 · INTERNATIONAL DEPENDENCE

# How Has Indiana's STEM Master's Output Grown?

Each pair of bars is the change in the number of STEM master's degrees awarded in Indiana between 2015 and 2025 in one field: to domestic students (U.S. citizens and permanent residents) and to international students. Bars to the left of the axis are declines.

**STEM master's degrees.** The state awarded 6.48K in 2025 and 2.46K in 2015, a change of +2.9K for international students and +1.13K for domestic students.

## Figure 6 Where Did the STEM Master's Growth Come From?

Change in STEM master's degrees by field, 2015–2025. Data from NCES, IPEDS Completions.

**4.1K**
International STEM master's, 2025
U.S. **117K** · **8th** of 51

**20%**
STEM share of master's, 2025
U.S. **23%** · **27th** of 51

**3.5%**
Share of U.S. international STEM master's, 2025
**8th** of 51

**6.2**
STEM master's per doctorate, 2025
U.S. **6.4** · **22nd** of 51

The table gives the number of STEM master's degrees awarded in Indiana in each field in 2015 and 2025, the change between the two years, the number awarded to international students in 2025, and international students' share of the field's degrees in each year.

**STEM share of master's degrees.** The share was 20% in 2025, against 23% for the U.S., 27th among the states, down 0.8 points from 21% in 2024 and up 4.1 points since 2015, when it was 16%.

## Table 3 How Many STEM Master's Degrees Does Each Field Award?

| Field | 2015 | 2025 | Change | International 2025 | Int. share 2015 | Int. share 2025 |
|---|---|---|---|---|---|---|
| Computer & info sciences | 490 | **2.98K** | +508% | 2.51K | 75% | 84% |
| Engineering | 1.3K | **2.57K** | +97% | 1.31K | 49% | 51% |
| Math & statistics | 134 | **326** | +143% | 114 | 49% | 35% |
| Biological sciences | 241 | **329** | +37% | 75 | 28% | 23% |
| Physical sciences | 112 | **154** | +38% | 59 | 29% | 38% |
| Natural resources & architecture | 177 | **124** | −30% | 31 | 14% | 25% |

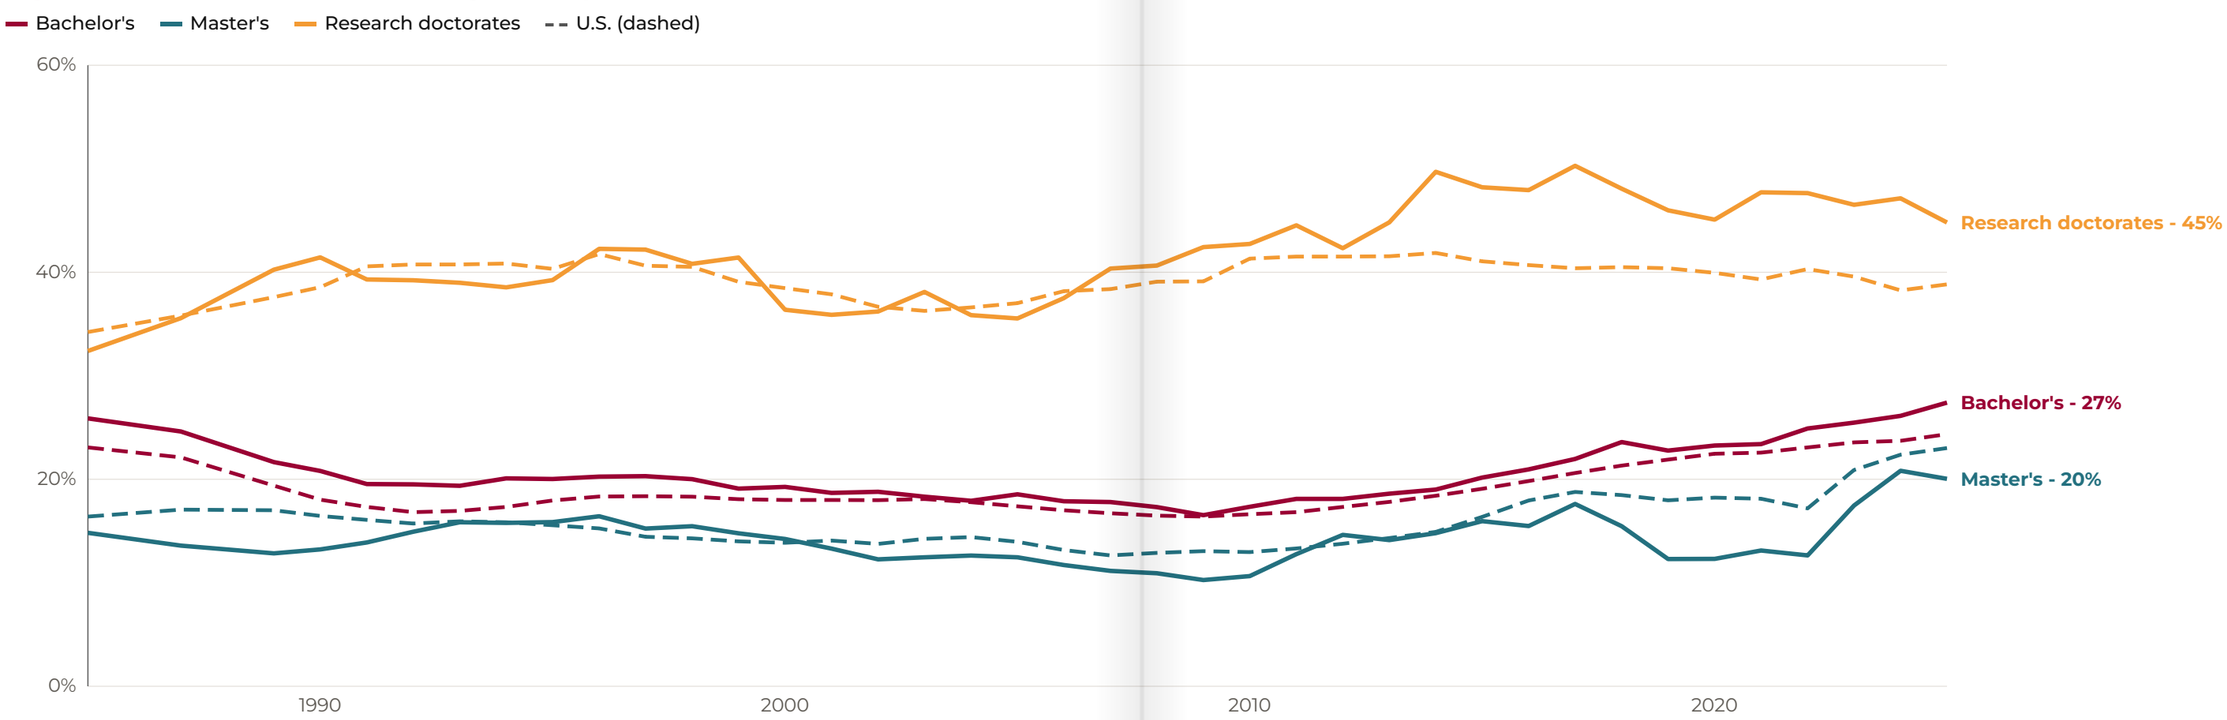

STEM master's degrees awarded in Indiana, all students and international students, 2015 and 2025. Data from NCES, IPEDS Completions.

SECTION 2

# STEM Degrees

Indiana ranks 9th of 51 states on the STEM share of bachelor's, at 27% in 2025 against 24% for the U.S.

## Figure 7 How Much of Indiana's Degree Output Is STEM?

STEM share of degrees by level; state solid, U.S. dashed. Data from NCES, IPEDS Completions.

STEM fields account for 27% of Indiana's bachelor's degrees, 20% of its master's and 45% of its research doctorates (U.S. 24%, 23% and 39%).

The STEM share of master's degrees is up 4.1 points since 2015, and the state ranks 27th of 51 on it. On the STEM share of bachelor's degrees it ranks 9th of 51.

**27%**

SECTION 3

# Where Students Come From

Indiana ranks 11th of 51 states on the share of first-time students whose home is outside the US, at 3.6% in 2024 against 3.1% for the U.S.

## Figure 10 First-Time Students by Home and Destination, Fall 2024

Home of first-time degree-seeking undergraduates (left) and the state of the institution entered (right); the five largest sources and destinations, the rest grouped. Data from NCES, IPEDS Fall Enrollment.

45.4K residents stayed in Indiana for college in fall 2024; 19.2K students arrived from other states and 2.45K from abroad, while 9.12K residents left.

Each band runs from a student's home on the left to the state where they enrolled on the right. 67% of the state's first-time students are residents (U.S. –).

**67%**

SECTION 5

# Graduate Research

Indiana ranks 4th of 51 states on the temporary-visa share of S&E postdocs, at 65% in 2016 against 56% for the U.S.

**Figure 15** How Many of Indiana's Science and Engineering Graduate Students Hold Temporary Visas?

Temporary-visa share of science and engineering graduate students and postdoctoral appointees, by the institution's state; state solid, U.S. dashed. NSF stopped publishing state tables after 2016. Data from NSF NCSES, Survey of Graduate Students and Postdoctorates.

In 2016, the last year NSF published state tables, 44% of Indiana's science and engineering graduate students held temporary visas (U.S. 39%; 11th of 51).

Among postdoctoral researchers, the share was 65% (U.S. 56%). Postdocs are the stage of research training most dependent on international talent, and IPEDS does not count them.

The state's institutions awarded 1.58K research doctorates in 2025, 2.7% of the U.S. total (Data from NSF NCSES, Survey of Earned Doctorates; NSF publishes doctorates by citizenship only for the nation).

SECTION 6

# Do Graduates Stay?

Indiana ranks 25th of 33 states on the share of bachelor's graduates working in the state 1 year after graduating, at 56% in 2019 against 72% for the U.S.

## Figure 16 How Many of Indiana's Graduates Go On to Work in the State?

Share of employed graduates working in the state of their institution, by graduating cohort (Data from U.S. Census Bureau, Post-Secondary Employment Outcomes; participating institutions only); international graduates' OPT jobs in the state where they studied (Data from ICE, SEVIS FOIA releases; shares only, the file is truncated). State solid, U.S. or participating states dashed.

Of Indiana's bachelor's graduates who were working a year after graduating, 56% worked in the state (participating states 72%). Five years out the share was 54%.

Among international graduates on Optional Practical Training in 2016, 23% worked in the state where they studied (U.S. 44%). Through migration between states, the state lost 3.5 bachelor's-plus adults per 1,000 such residents in 2025 (Data from U.S. Census Bureau, American Community Survey).

**56%**

SECTION 7

# Research Funding

Indiana ranks 15th of 51 states on university R&D spending, at $2.3B in 2024 against $118B for the U.S.

## Figure 17 How Much Research Money Flows Into Indiana?

Millions of nominal dollars, fiscal years. University R&D: Data from NSF NCSES, Higher Education Research and Development Survey (FY2003-09 predecessor survey). Federal R&D obligations by state of performance: Data from NSF NCSES, Survey of Federal Funds for R&D (coverage widens in FY2021). Grants from NSF, NIH, NASA and DOE Science plus R&D contracts: Data from USAspending.gov.

Indiana's universities spent $2.3B on research and development in FY2024, 15th of 51 among the states; 48% of it was federally funded (U.S. 55%).

Federal agencies obligated $2.81B for R&D performed in the state in FY2024. Research funding drives demand for graduate students and postdocs, the stage of training most dependent on international talent.

SECTION 8

# H-1B Jobs and Green Cards

Indiana ranks 21st of 51 states on certified H-1B positions, by worksite, at 8.1K in 2025 against 914K for the U.S.

## Figure 18 How Many Skilled-Visa Jobs and Green-Card Certifications Does Indiana Generate?

Certified H-1B positions on labor condition applications by worksite and certified PERM green-card applications, by fiscal year (Data from DOL, Office of Foreign Labor Certification); new H-1B petition approvals by the employer's address (Data from USCIS, H-1B Employer Data Hub).

Employers were certified for 8.1K H-1B positions at Indiana worksites in FY2025, 21st of 51 among the states. A labor certification comes before the petition, so this overstates hires; USCIS approved 1.09K new H-1B petitions from employers in the state in FY2026.

DOL certified 1.37K PERM applications, the employer's step toward an employment-based green card, for jobs in the state in FY2025. In FY2024, 9.2% were for workers still on F-1 student visas (U.S. 8.7%): the most direct link from classroom to permanent residence.

**8.1K**

SECTION 9

# STEM Workforce

Indiana ranks 20th of 44 states on the foreign-born share of STEM workers with a graduate degree, at 33% in 2024 against 41% for the U.S.

## Figure 20 How Much of Indiana's STEM Workforce Was Born Abroad?

Foreign-born share of employed workers in STEM occupations, by state of residence; state solid, U.S. dashed. Shares resting on fewer than 100 survey records are left out. No 2020 (experimental data). Data from U.S. Census Bureau, American Community Survey.

In 2024, 14% of the people working in STEM occupations in Indiana were born abroad (U.S. 24%; 25th of 51).

The share rises with education: 33% of STEM workers with a graduate degree were foreign-born (U.S. 41%). 8.1% of all STEM workers were not U.S. citizens.

SECTION 12

# Fields of Study

## Figure 27 How Many Degrees Does Indiana Award?

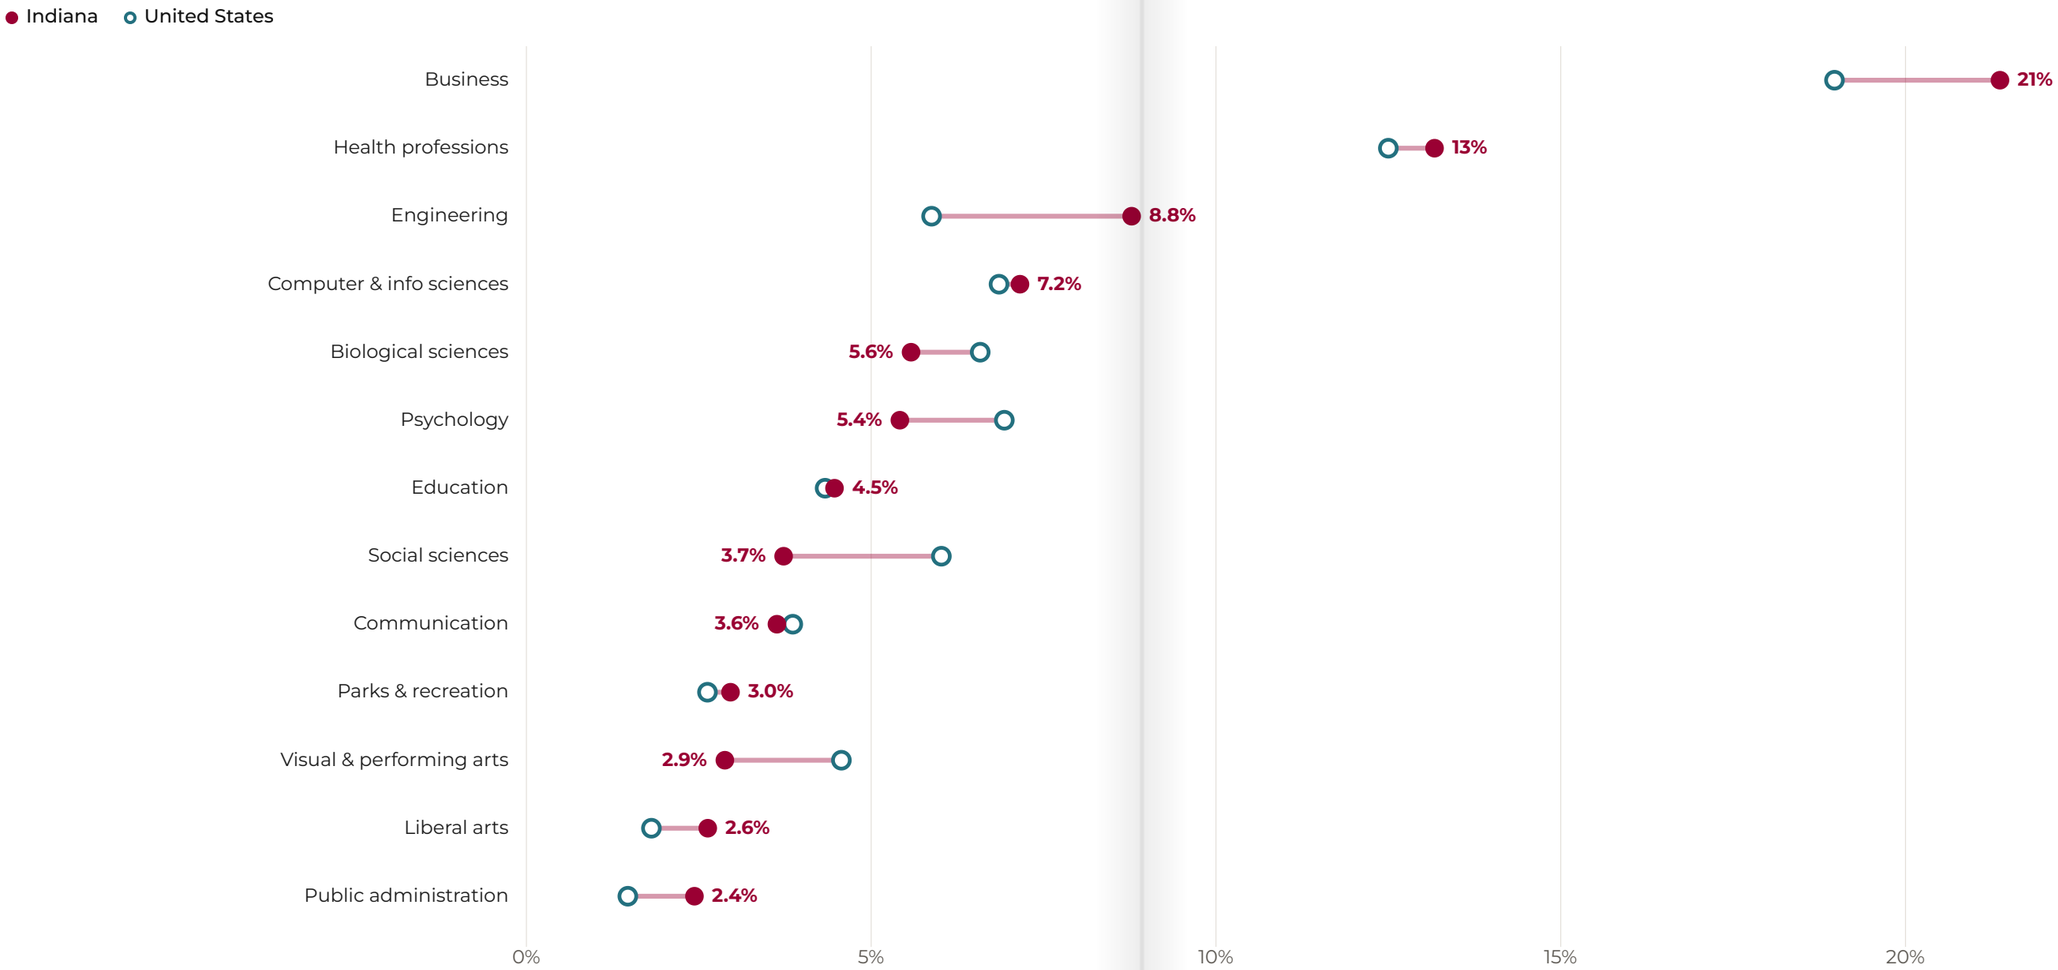

Degrees awarded by level, first majors. Data from NCES, IPEDS Completions.

In 2025, Indiana's institutions awarded 14.5K associate's degrees, 51.3K bachelor's degrees, 32.3K master's degrees, 2.35K research doctorate degrees, 2.65K professional doctorate degrees.

Since 2015: associate's down 16%; bachelor's up 7%; master's up 110%; research doctorate up 34%; professional doctorate up 40%. The state awards 13.2 bachelor's degrees for every 100 undergraduates (U.S. 12.3).

## Figure 28 What Do Indiana's Bachelor's Graduates Study?

Share of bachelor's degrees by field, 2025. Data from NCES, IPEDS.

Indiana's largest bachelor's fields are business (21%; U.S. 19%), health professions (13%; U.S. 13%), engineering (8.8%; U.S. 5.9%).

Relative to the nation, Indiana's bachelor's degrees are most concentrated in engineering technology (2.44× the U.S. share), public administration (1.66× the U.S. share), law (1.63× the U.S. share).

**7.2%**

## Figure 30 How Has Indiana's Bachelor's Field Mix Changed?

Share of bachelor's degrees in the largest fields. Data from NCES, IPEDS Completions.

Since 2015, computer & info sciences has gained the most ground, 3.5 points of the state's bachelor's degrees, while social sciences lost the most (1.7 points).

The chart follows the share of bachelor's degrees in each of the state's largest fields; smaller fields are grouped as other fields.

SECTION 12 · FIELDS OF STUDY

# Where Is Indiana Specialized, and What Do Its Doctoral Graduates Study?

The location quotient divides a field's share of Indiana's bachelor's degrees by its share of all U.S. bachelor's degrees in 2025. A quotient of 1.00 means the same share as the nation; 2.00 means twice the national share. The table lists the 10 fields with the highest quotients among fields with at least 50 degrees.

**Highest location quotients.** Engineering technology (2.44, with 2.2% of the state's bachelor's degrees against 0.9% for the U.S.), public administration (1.66, with 2.4% of the state's bachelor's degrees against 1.5% for the U.S.), and law (1.63, with 0.4% of the state's bachelor's degrees against 0.2% for the U.S.) had the highest quotients.

## Table 5 Where Is Indiana Most Specialized?

| Field | Location quotient | State share | U.S. share | Degrees |
|---|---|---|---|---|
| Engineering technology | **2.44** | 2.2% | 0.9% | 1.12K |
| Public administration | **1.66** | 2.4% | 1.5% | 1.25K |
| Law | **1.63** | 0.4% | 0.2% | 196 |
| Transportation | **1.52** | 0.6% | 0.4% | 283 |
| Engineering | **1.49** | 8.8% | 5.9% | 4.5K |
| Liberal arts | **1.45** | 2.6% | 1.8% | 1.35K |
| Theology | **1.24** | 0.4% | 0.3% | 182 |
| Math & statistics | **1.16** | 1.4% | 1.2% | 698 |
| Parks & recreation | **1.13** | 3.0% | 2.6% | 1.52K |
| Business | **1.13** | 21% | 19% | 11K |

SECTION 13 · STUDENTS AND MONEY

# How Are Indiana's Public Institutions Funded, and What Do They Produce?

The bars give each source's share of the core revenue of Indiana's public institutions, with the nation for comparison, and at right the dollars per full-time-equivalent (FTE) student it provides. Values are in 2024 dollars (CPI-U). Net tuition is tuition and fees after institutional discounts and allowances.

**Net tuition per FTE student.** The figure was $13.1K in FY2024, against $8.96K for the U.S., down 3.0% from $13.5K in FY2023 and up 2.3% since FY2015, when it was $12.8K.

## Figure 36 How Are Public Institutions Funded?

Share of core revenue per FTE student by source, public institutions, FY2024; dollars per FTE at right, 2024 dollars (CPI-U). Data from NCES, IPEDS Finance.

**$10.2K**
In-state tuition, public 4-year, 2023
U.S. **$9.71K** · **23rd** of 51

**$7.12K**
Appropriations per student, 2024
U.S. **$11.4K** · **47th** of 51

**65%**
Tuition share of public revenue, 2024
U.S. **43%** · **5th** of 51

**66%**
Six-year graduation rate, 2024
U.S. **65%** · **20th** of 51

The table brings together five measures of what public higher education costs and what it produces in Indiana: in-state tuition at public four-year institutions, state and local appropriations per full-time-equivalent student, tuition's share of public institutions' core revenue, the six-year bachelor's graduation rate, and the average full-time faculty salary.

**In-state tuition, public 4-year.** The figure was $10.2K in 2023, against $9.71K for the U.S., 23rd among the states, down 2.4% from $10.5K in 2022 and down 9.7% since 2015, when it was $11.3K.

## Table 6 Money and Results

| Measure | Year | Indiana | U.S. | Rank | Change since 2015 |
|---|---|---|---|---|---|
| In-state tuition, public 4-year | 2023 | **$10.2K** | $9.71K | 23rd of 51 | −9.7% |
| Appropriations per student | 2024 | **$7.12K** | $11.4K | 47th of 51 | −14% |

| Average faculty salary | 2024 | **$99.3K** | $106K | 19th of 51 | −6.8% |

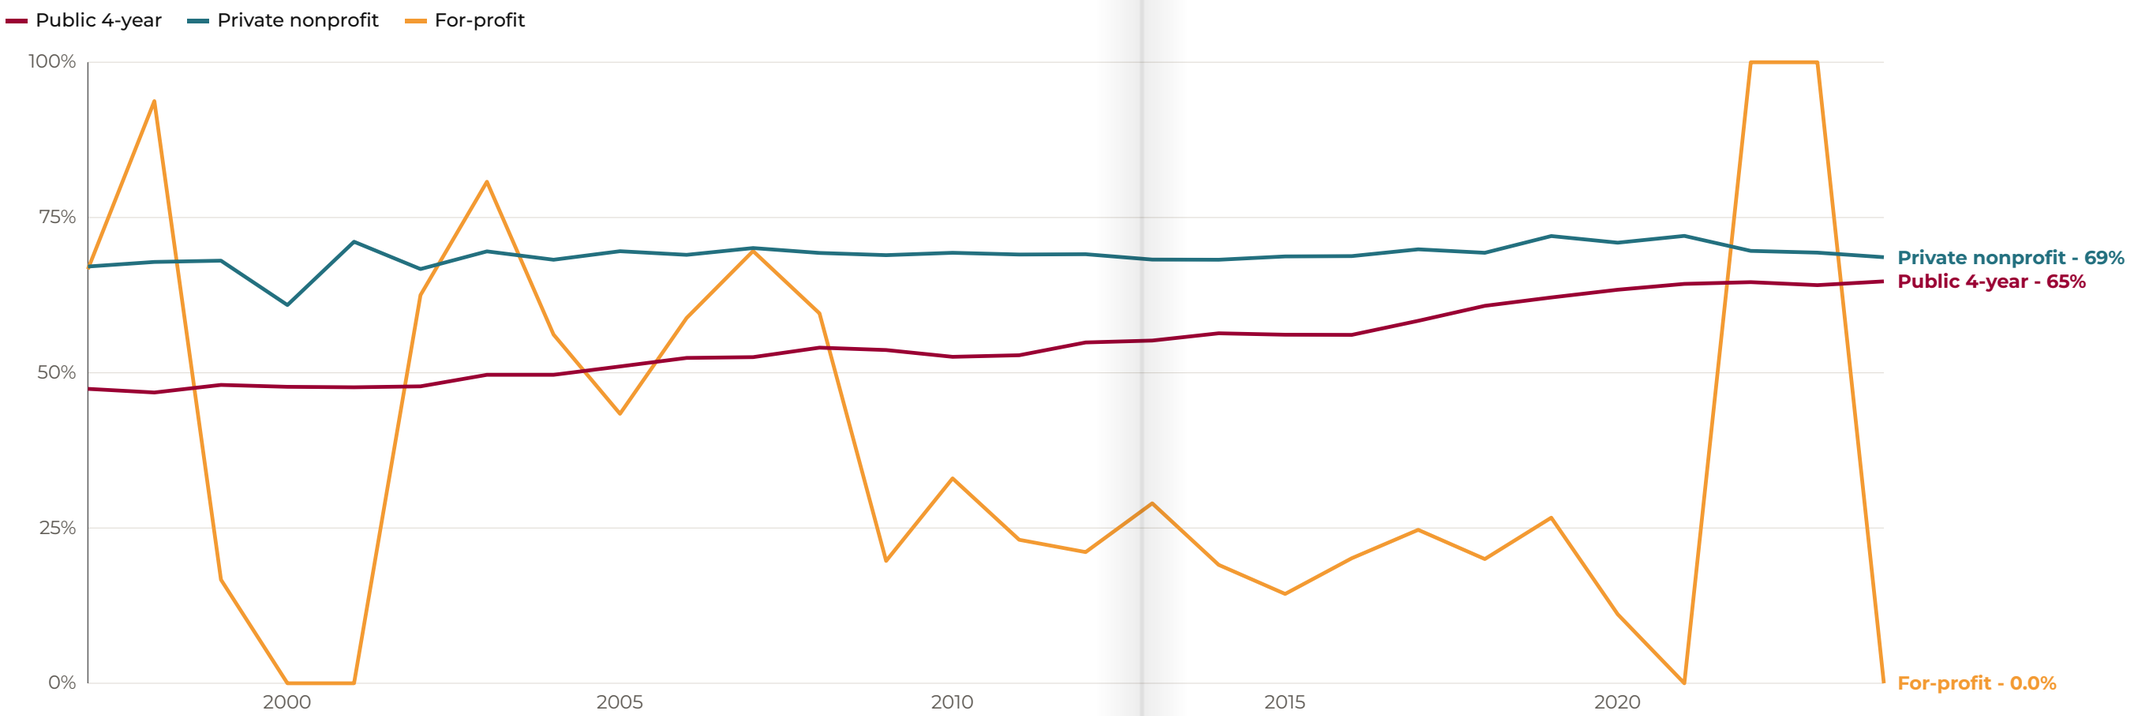

Rank among the 50 states and DC (1 = highest). Dollars in 2024 dollars (CPI-U). Data from NCES, IPEDS.

SECTION 14

# Student Outcomes

Indiana ranks 17th of 50 states on the share of completion within 150% of normal time, 2-year institutions, at 44% in 2024 against 41% for the U.S.

## Figure 37 How Do Graduation Rates Differ by Sector?

Six-year bachelor's graduation rate by sector of institution. Data from NCES, IPEDS Graduation Rates.

66% of students who started a bachelor's degree at a four-year institution in Indiana graduated within six years (2024), 1.1 points above the U.S. (65%); the state ranks 20th of 51.

By sector: public 4-year 65%, private nonprofit 69%, for-profit 0.0%. At two-year institutions, 44% complete within 150% of normal time (U.S. 41%).

**66%**

SECTION 14 · STUDENT OUTCOMES

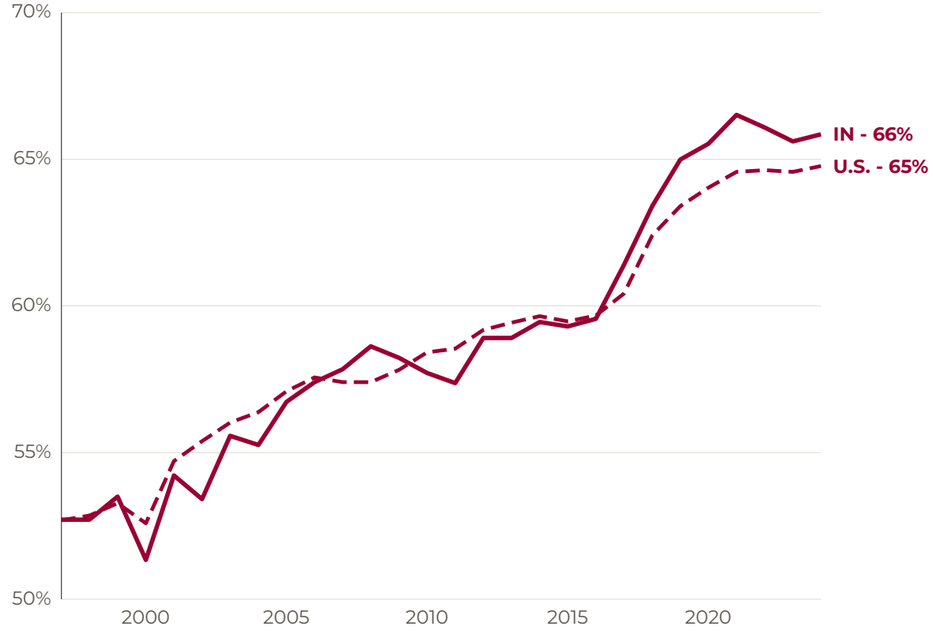

# How Many of Indiana's Students Graduate?

The line follows the share of first-time, full-time bachelor's-degree students at Indiana's four-year institutions who graduated from the institution where they started within six years (150% of normal time). Each year is the cohort that entered six years earlier. The state is solid and the United States dashed.

**Six-year graduation rate.** The rate was 66% in 2024, against 65% for the U.S., up 0.2 points from 66% in 2023 and up 6.5 points since 2015, when it was 59%.

**Public 4-year institutions.** The rate was 65% in 2024, up 0.6 points from 64% in 2023 and up 8.6 points since 2015, when it was 56%.

## Figure 38 Six-Year Bachelor's Graduation Rate

Four-year institutions; state solid, U.S. dashed. Data from NCES, IPEDS Graduation Rates.

**66%**

**13.2**
Bachelor's per 100 undergraduates, 2025
U.S. **12.3** · **20th** of 51

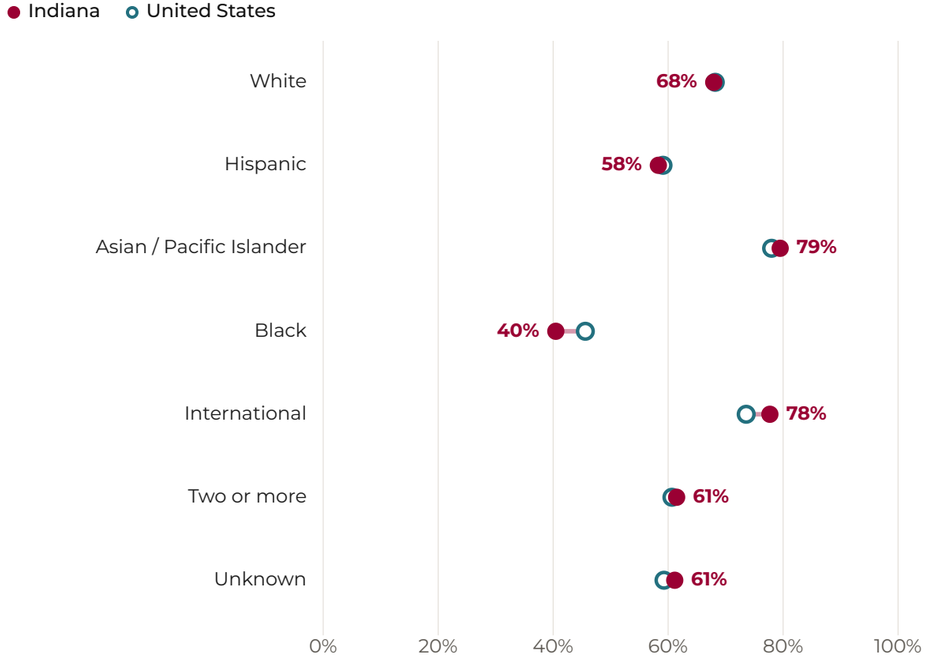

Each row is the six-year bachelor's graduation rate for one racial or ethnic group of students at Indiana's four-year institutions (filled dot), against the national rate for the same group (open dot). Groups with fewer than 100 students in the cohort are left out.

**White.** The six-year rate was 68% in 2024, against 68% for the U.S.

**Hispanic.** The six-year rate was 58% in 2024, against 59% for the U.S.

**Asian / Pacific Islander.** The six-year rate was 79% in 2024, against 78% for the U.S.

SECTION 15

# Faculty

Indiana ranks 19th of 51 states on the average full-time faculty salary, at $99.3K in 2024 against $106K for the U.S.

## Figure 40 What Do Indiana's Faculty Earn, by Rank?

Average salary of full-time instructional faculty on 9/10-month contracts, by academic rank, 2024 dollars (CPI-U). Data from NCES, IPEDS Human Resources.

Full-time instructional faculty on 9/10-month contracts at Indiana's institutions earned an average of $99.3K in 2024 (2024 dollars), 6% below the U.S. ($106K); the state ranks 19th of 51. By rank (2024): professors $138K, associate professors $97.8K, assistant professors $85.4K, instructors $58.4K, lecturers $65.4K.

Indiana's institutions had 16.7K full-time instructional staff in 2024, up 4% since 2015. Average salary across all ranks is down 7% since 2016.

**$99.3K**

SECTION 15 · FACULTY

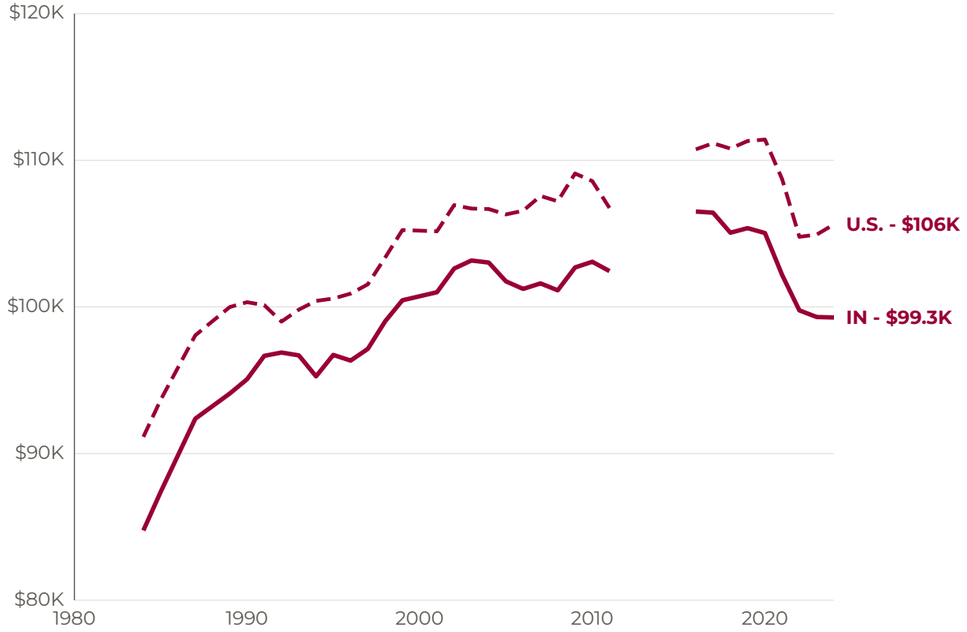

# What Do Indiana's Faculty Earn, and How Many Hold Tenure?

The line follows the average salary of full-time instructional faculty on 9- or 10-month contracts at Indiana's degree-granting institutions, all ranks combined, in 2024 dollars (CPI-U). The state is solid and the United States dashed.

**Average salary.** The figure was $99.3K in 2024, against $106K for the U.S., 19th among the states, unchanged from $99.3K in 2023 and down 6.8% since 2016, when it was $107K.

**Full-time instructional staff.** The number was 16.7K in 2024, up 0.4% from 16.6K in 2023 and up 3.9% since 2015, when it was 16K.

## Figure 41 Average Faculty Salary

Full-time instructional faculty, 9/10-month, 2024 dollars. Data from NCES, IPEDS.

**38%**
Tenured, 2024

The bars divide Indiana's full-time instructional staff by tenure status in 2015, 2019 and 2024: tenured, on the tenure track, not on the tenure track (for example, lecturers on fixed-term contracts), and staff at institutions with no tenure system.

**Tenured, share of full-time instructional staff.** The share was 38% in 2024, down 0.8 points from 39% in 2023 and down 5.1 points since 2015, when it was 43%.

## Figure 42 Tenure Status

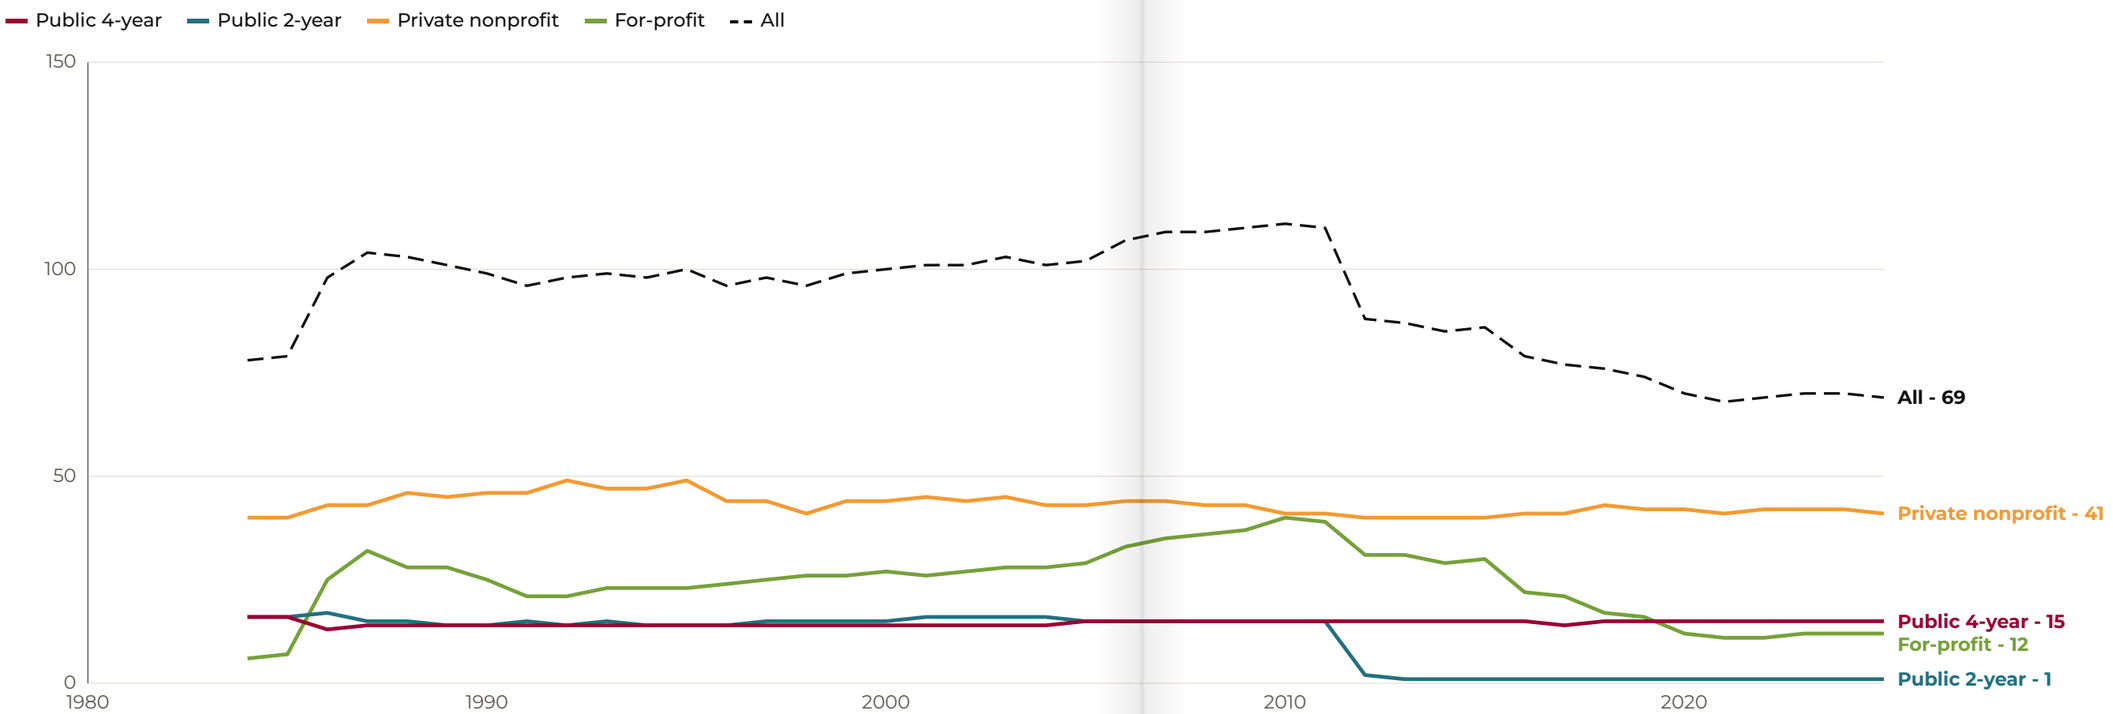

Full-time instructional staff by tenure status, 2015, 2019, 2024. Data from NCES, IPEDS.

SECTION 16

# Institutions

Indiana ranks 17th of 51 states on the share of enrollment at for-profit institutions, at 3.8% in 2024 against 5.5% for the U.S.

## Figure 43 How Many Institutions Does Indiana Have?

Degree-granting institutions by sector. Data from NCES, IPEDS.

Indiana has 69 degree-granting institutions:15 public 4-year, 1 public 2-year, 41 private nonprofit, 12 for-profit (2025).

The number of institutions is down 20% since 2015. 77% of students attend public institutions and 3.8% attend for-profit ones.

**77%**

SECTION 16 · INSTITUTIONS

# Which Institutions Lead in Indiana?

The table ranks institutions in Indiana by the STEM master's degrees and research doctorates they awarded to international students in 2025, the two counted together. The share columns give international students' share of each institution's STEM degrees at that level.

**Largest.** Trine University-Regional/Non-Traditional Campuses (1.72K international STEM master's degrees and – doctorates), Purdue University-Main Campus (795 international STEM master's degrees and 386 doctorates), and Indiana University-Bloomington (300 international STEM master's degrees and 60 doctorates) awarded the most.

## Table 7 Which Institutions Train the Most International STEM Graduates?

| Institution | Intl STEM master's | Int. share | Intl STEM doctorates | Int. share |
|---|---|---|---|---|
| Trine University-Regional/Non-Traditional Campuses<br>Angola · Private nonprofit | **1.72K** | 99% | – | – |
| Purdue University-Main Campus<br>West Lafayette · Public 4-year | **795** | 42% | 386 | 63% |

Fall 2024 enrollment; degrees 2025. Data from NCES, IPEDS.

NOTES

# About These Data

**International students**

U.S. nonresidents on temporary visas, as IPEDS defines them. IPEDS does not record country of citizenship. Permanent residents count with U.S. citizens.

**STEM**

CIP families 03, 04, 11, 14, 15, 26, 27 and 40. Doctorates are research and scholarship doctorates; professional doctorates appear only in the degree-count figure. Degrees are first majors only.

**Universe**

Degree-granting institutions located in the state; Title IV participants from 1996. Geography is the institution's location, not the student's home. Enrollment is fall headcount.

**Migration**

First-time degree-seeking undergraduates by home state, reported in even years before 2001 and every year since; odd years with incomplete reporting are omitted. Net migration is students arriving from other states minus residents leaving, per 100 resident first-time students.

**Money**

All dollar values are in 2024 dollars using the CPI-U. Appropriations and revenue are per full-time-equivalent student at public institutions.

**Race and ethnicity**

IPEDS did not collect race and ethnicity in every year before 2010, and categories changed in 2008–2010; “Two or more” exists only from then.

**Countries of citizenship**

From DHS SEVIS by the Numbers: active F-1 and M-1 student records in the month named, at every level from primary school to doctorate, by the state of the school. IPEDS records only whether a student is a U.S. nonresident, not where they come from. SEVIS counts are monthly snapshots and are not directly comparable with IPEDS fall enrollment or degree counts.

**Peers**

Comparison states are the four closest in total fall enrollment.
