# Authors

**Emerson Victoria Johnston** is a research assistant with the Hoover Institution's Technology Policy Accelerator. A Knight-Hennessy Scholar, she holds a master's in international policy from Stanford University, and is on leave from its master's program in the history of science, technology, environment, and medicine.

**Dr. Amy Zegart** is the Morris Arnold and Nona Jean Cox Senior Fellow at the Hoover Institution, director of Hoover's Technology Policy Accelerator, and a senior fellow and associate director at Stanford University's Institute for Human-Centered Artificial Intelligence.

Data come from the Integrated Postsecondary Education Data System (IPEDS), the Department of Homeland Security's SEVIS by the Numbers, the National Assessment of Educational Progress, NSF's Survey of Graduate Students and Postdoctorates and Survey of Earned Doctorates, the Department of Labor's Office of Foreign Labor Certification, the USCIS H-1B Employer Data Hub, the Census Bureau's American Community Survey and USPTO patent data via PatentsView, processed in Python; every figure and table is generated from those sources, and each one names its source.

# About This Profile

This profile is a companion to *The 2026 US Talent Report: Benchmarking America's STEM Pipeline Amid the Great Talent Competition*. It applies the report's measures to Nebraska: the students the state develops at home, those it draws from abroad, and how both compare with the nation and with the states closest to it in size.

Degrees, enrollment, prices, outcomes and faculty come from IPEDS, the federal census of U.S. colleges and universities, harmonized across 1980–2025. Countries of citizenship come from SEVIS by the Numbers, the Department of Homeland Security's monthly count of active F-1 and M-1 students. Each figure names its source. Peer states are the four closest in total fall enrollment.

AT A GLANCE

# What Nebraska's numbers say

1. **International students earn 25% of Nebraska's STEM master's degrees,** 27.1 points below the U.S. (52%) in 2025, ranking 42nd of 51 on dependence. The share is 38% for STEM research doctorates (U.S. 43%) and 3.7% for STEM bachelor's (U.S. 6.6%).
2. **Nebraska awarded 170 STEM master's degrees to international students in 2025,** 0.1% of the U.S. total and 41st of 51 among states. Since 2015 the count changed +6%, against 2.2× nationally.
3. **The heaviest dependence is in engineering,** where international students earned 34% of master's degrees (128 degrees; U.S. 49%). No STEM field with at least 50 master's graduates are majority-international.
4. **Among states of similar size,** Nebraska ranks 3rd of 5 on the international share of STEM master's: Nebraska 25%, West Virginia 10%, Idaho 18%, Arkansas 65%, Nevada 30%.
5. **77% of Nebraska's first-time students in fall 2024 were state residents** and 1.8% came from abroad. More students arrived from other states (3.9K) than residents left (3.55K), a net gain of 348; the top destination for those leaving was Iowa.

# 25%

of the STEM master's degrees Nebraska awards go to international students (U.S. 52%).

SECTION 1

# International Dependence

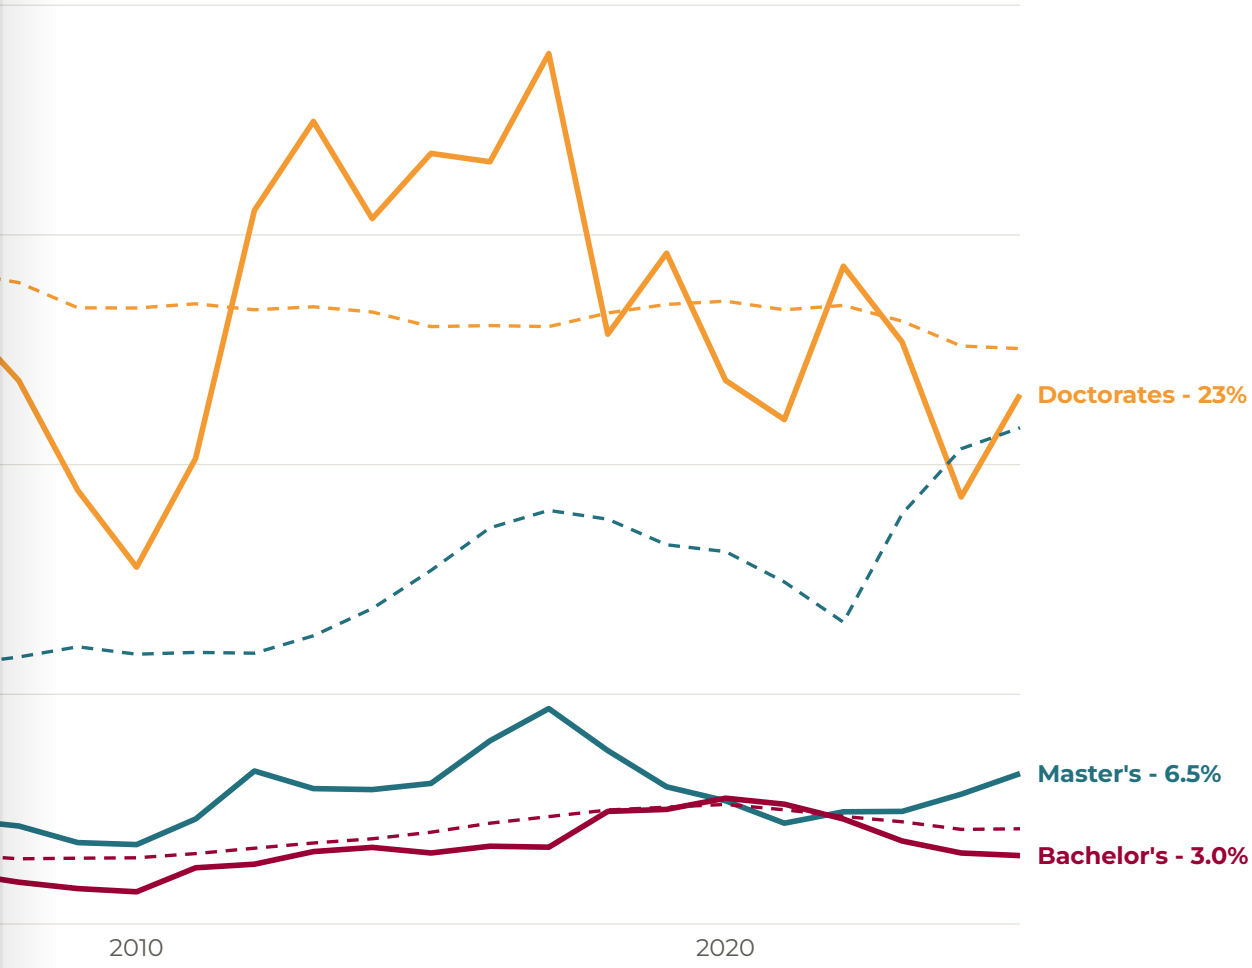

## Figure 1 What Share of Nebraska's Degrees Go to International Students?

International share of degrees awarded, all fields; state solid, U.S. dashed. Data from NCES, IPEDS Completions, 1985–2025

International students make up 7.8% of Nebraska's graduate enrollment and 2.1% of its undergraduates. Dependence climbs with each degree: 3.0% of bachelor's, 6.5% of master's and 23% of research doctorates go to international students.

In STEM the shares are higher still: 3.7% of STEM bachelor's, 25% of STEM master's and 38% of STEM doctorates. The state awards 0.1% of all U.S. international STEM master's, 41st of 51.

INTERNATIONAL STUDENTS

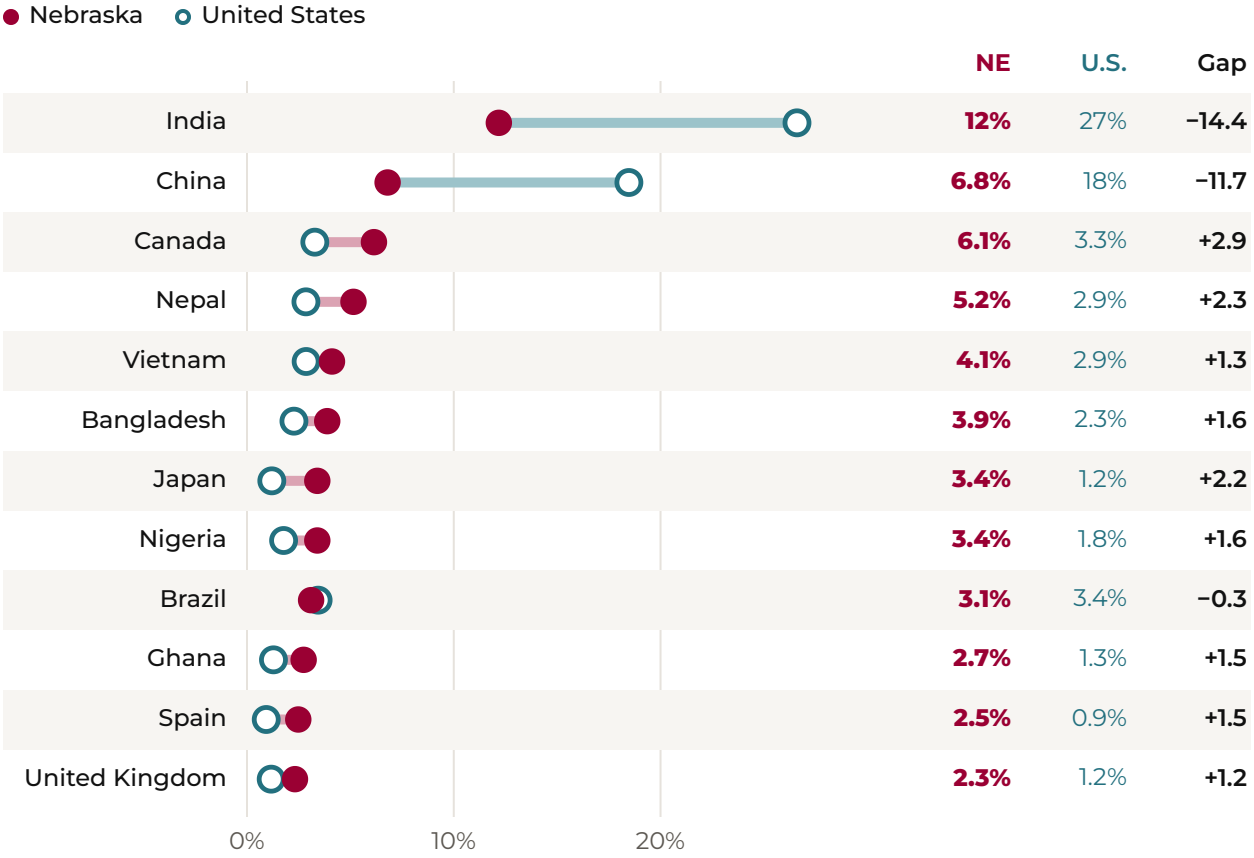

# How Does Nebraska's Mix of Countries Compare With the Nation's?

In October 2026, Nebraska had **4.35K** active F-1 and M-1 students, 38th of 51 states and **0.4%** of the U.S. total. They came from 152 countries.

India supplied **12%** of them, against 27% nationally, and China **6.8%**, against 18%. Canada (6.1%), Nepal (5.2%) and Vietnam (4.1%) followed.

Together the two largest countries supplied **19%** of the state's international students (U.S. 45%), 47th among the states, against 46% in 2015.

## Figure 3 Is Nebraska's Mix of Countries Like the Nation's?

The state's count is down 3.3% from 2025 and down 27% since 2015, when it stood at 5.97K. Its share of all U.S. international students is down 0.1 points since 2015, to **0.4%**.

Since 2015, students from India went from 823 to 530; students from China went from 1.94K to 296; students from Canada went from 95 to 267.

Over the same years, students from Nepal went from 156 to 224, and students from Vietnam went from 207 to 179. The table gives each country's count for the first, previous and latest years.

## Table 1 International Students in Nebraska, 2015–2026

| | 2015 | 2025 | 2026 | Change since 2015 | U.S. 2026 | Rank |

## Which Countries Supply Nebraska's International STEM Students?

**2.59K** of Nebraska's international students were in STEM fields in October 2026, **60%** of the total against 63% nationally, down 3.6% since 2015.

Doctorate students were the largest group, **1.02K**. India supplied 23% of them and China 13%.

STEM doctoral students went from 802 in 2015 to **1.02K**, and STEM master's students from 854 to 855.

d level of study, October 2026; the eight largest countries are shown. DHS does not draw its STEM pages on the same evel count for India (803 against 530). Data from DHS, SEVIS by the Numbers, October 2026.

INTERNATIONAL DEPENDENCE

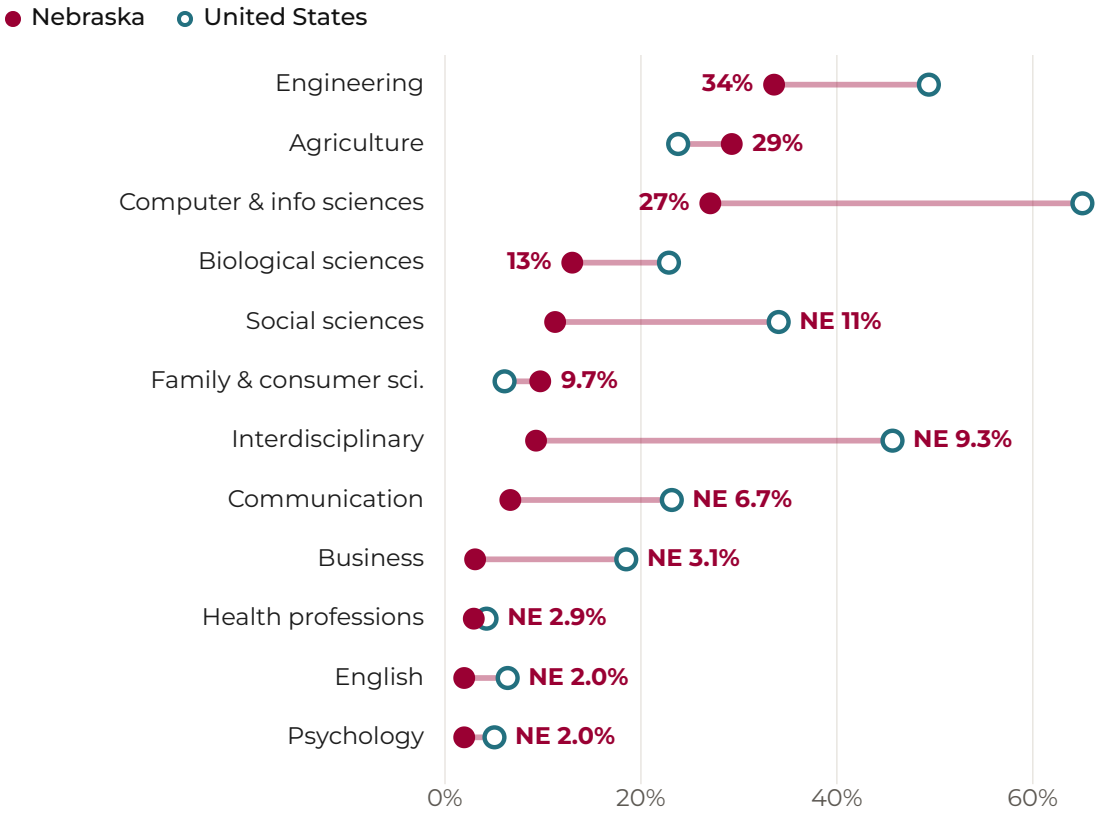

# How International Are Nebraska's Master's Fields?

Each row is a master's field with at least 30 graduates in Nebraska in 2025, ranked by the share of degrees earned by international students (U.S. nonresidents on temporary visas). The filled dot is the state's share; the open dot is the national share for the same field.

**Highest international shares.** Engineering 34% (U.S. 49%); agriculture 29% (U.S. 24%); computer & info sciences 27% (U.S. 65%).

**All master's degrees.** 6.5% in 2025 (U.S. 22%; 44th of 51 states), up 0.9 points from 5.6% in 2024, and up 0.4 points since 2015 (6.1%).

**Figure 5 Which Master's Fields Depend Most on International Students?**

International share of master's degrees by field, 2025; fields with 30+ graduates. Data from NCES, IPEDS Completions.

**6.5%**
Int. share of all master's, 2025
U.S. **22%** · **44th** of 51

**25%**
Int. share of STEM master's, 2025
U.S. **52%** · **42nd** of 51

**27%**
Int. share of CS master's, 2025
U.S. **65%** · **42nd** of 47

The table gives the international share of degrees in each STEM field at three levels: Nebraska first, the United States after the slash. The master's column is highlighted. A dash means the state awarded no degrees in the field at that level.

**Highest international share among STEM master's fields.** Engineering, 34% (U.S. 49%).

**International share of STEM bachelor's.** 3.7% in 2025 (U.S. 6.6%; 40th of 51 states), down 0.4 points from 4.1% in 2024, and down 1.2 points since 2015 (5.0%).

## Table 2 How International Is Each STEM Field?

| Field | Bachelor's | Master's | Doctorates |
|---|---|---|---|
| Computer & info sciences | 5.1% / 8.6% | **27% / 65%** | – / 56% |
| Engineering | 2.9% / 7.2% | **34% / 49%** | 51% / 55% |
| Engineering technology | 2.5% / 4.5% | **– / 54%** | – / 42% |
| Math & statistics | 5.9% / 17% | **29% / 55%** | – / 53% |
| Physical sciences | 4.5% / 6.0% | **60% / 33%** | 44% / 38% |
| Biological sciences | 2.9% / 3.4% | **13% / 23%** | 32% / 23% |
| Natural resources | 0.7% / 2.0% | **– / 17%** | – / 27% |
| Architecture | 3.9% / 7.3% | **5.0% / 29%** | – / 55% |

International share in Nebraska / U.S., 2025. Data from NCES, IPEDS Completions.

INTERNATIONAL DEPENDENCE

# How Has Nebraska's STEM Master's Output Grown?

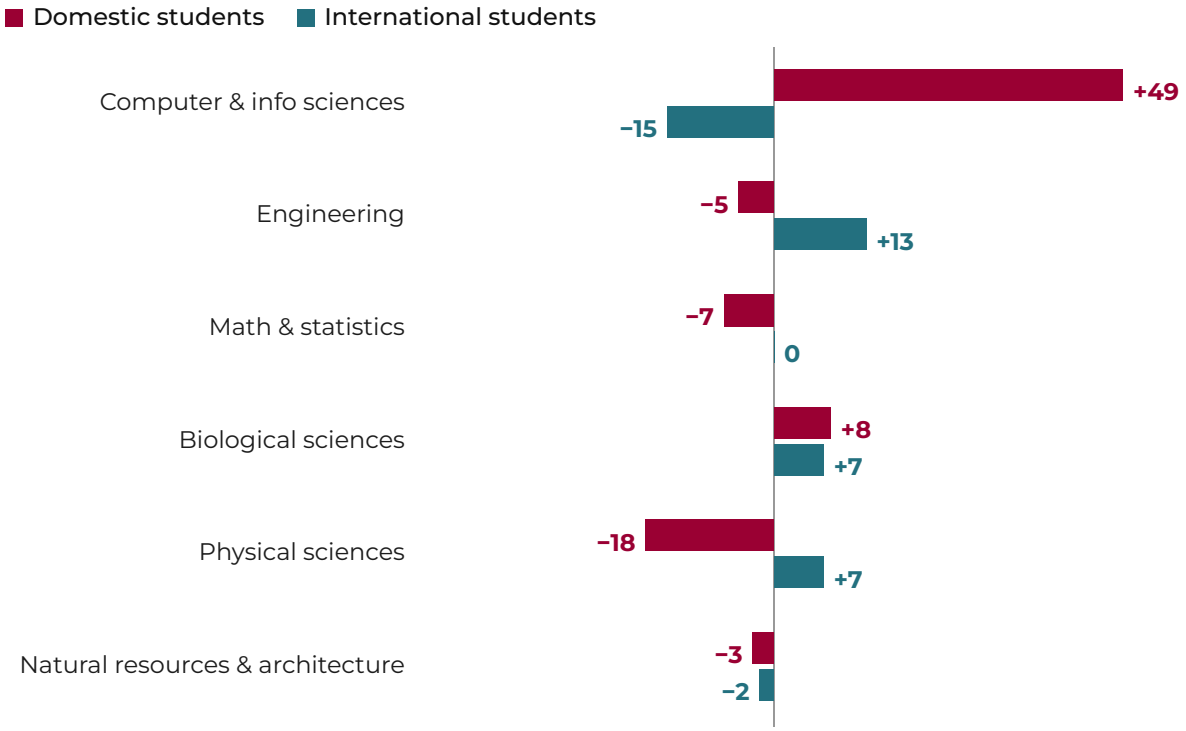

Each pair of bars is the change in the number of STEM master's degrees awarded in Nebraska between 2015 and 2025 in one field: to domestic students (U.S. citizens and permanent residents) and to international students. Bars to the left of the axis are declines.

**STEM master's degrees.** 680 in 2025, against 646 in 2015: +10 for international students and +24 for domestic students.

**Computer & info sciences.** +49 for domestic students and −15 for international students.

**Engineering.** −5 for domestic students and +13 for international students.

## Figure 6 Where Did the STEM Master's Growth Come From?

Change in STEM master's degrees by field, 2015–2025. Data from NCES, IPEDS Completions.

**170**
International STEM master's, 2025

Students and Postdoctorates.

In 2016, the last year NSF published state tables, 32% of Nebraska's science and engineering graduate students held temporary visas (U.S. 39%; 30th of 51).

Among postdoctoral researchers, the share was 72% (U.S. 56%). Postdocs are the stage of research training most dependent on international talent, and IPEDS does not count them.

The state's institutions awarded 386 research doctorates in 2025, 0.7% of the U.S. total (Data from NSF NCSES, Survey of Earned Doctorates; NSF publishes doctorates by citizenship only for the nation).

SECTION 12

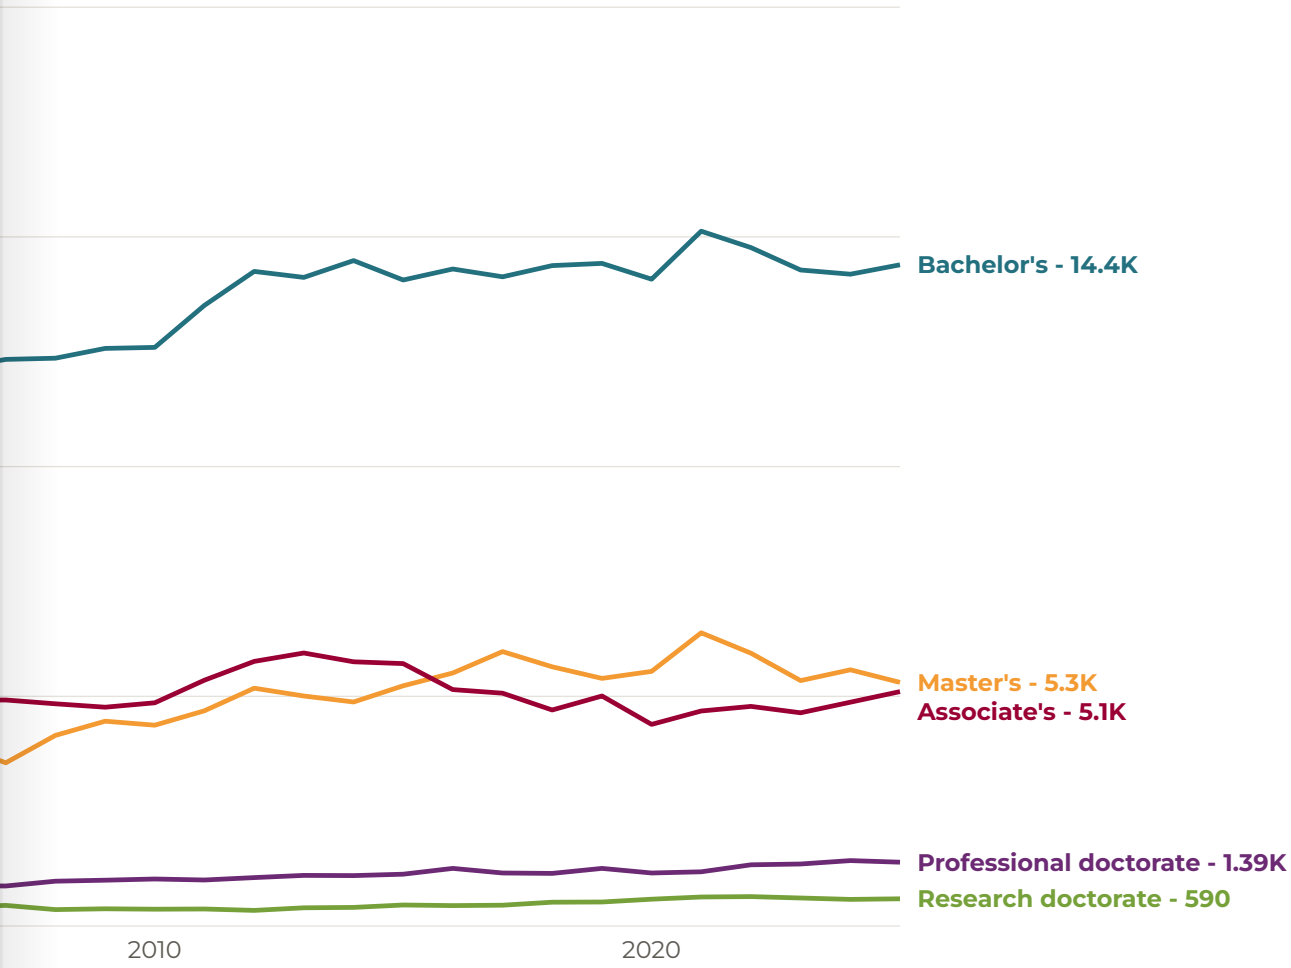

# Fields of Study

## Figure 27 How Many Degrees Does Nebraska Award?

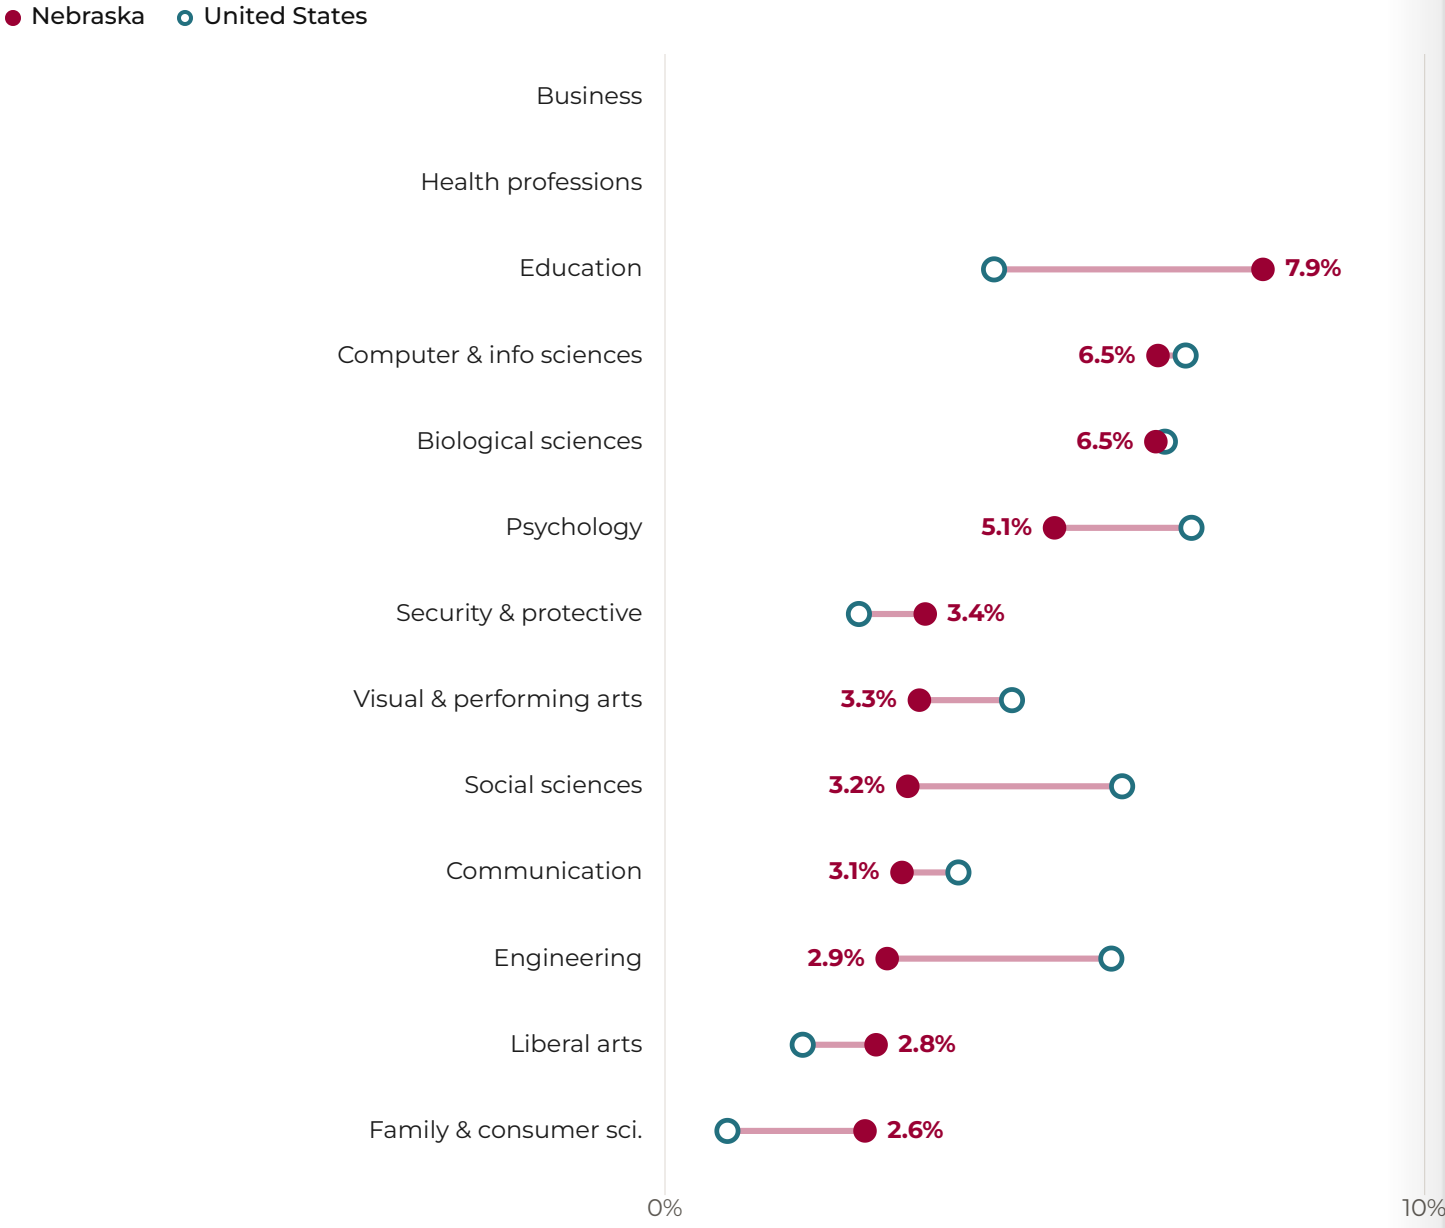

Degrees awarded by level, first majors. Data from NCES, IPEDS Completions.

In 2025, Nebraska's institutions awarded 5.1K associate's degrees, 14.4K bachelor's degrees, 5.3K master's degrees, 590 research doctorate degrees, 1.39K professional doctorate degrees.

Since 2015: associate's down 11%; bachelor's up 2%; master's roughly flat; research doctorate up 29%; professional doctorate up 23%. The state awards 12.4 bachelor's degrees for every 100 undergraduates (U.S. 12.3).

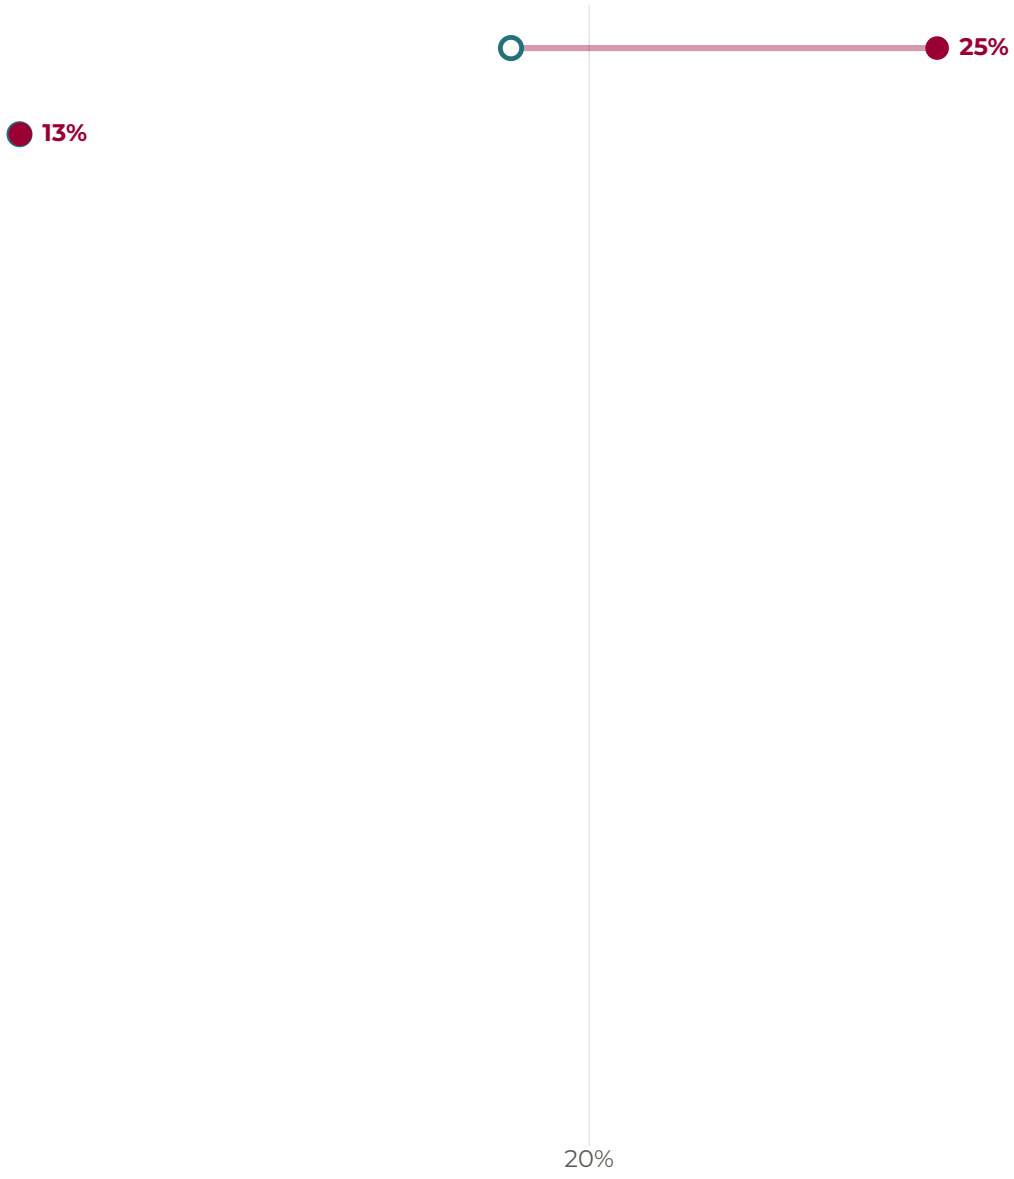

## Figure 28 What Do Nebraska's Bachelor's Graduates Study?

Share of bachelor's degrees by field, 2025. Data from NCES, IPEDS.

Nebraska's largest bachelor's fields are business (25%; U.S. 19%), health professions (13%; U.S. 13%), education (7.9%; U.S. 4.3%).

Relative to the nation, Nebraska's bachelor's degrees are most concentrated in family & consumer sci. (3.20× the U.S. share), agriculture (2.41× the U.S. share), education (1.82× the U.S. share).

## Figure 36 How Do Graduation Rates Differ by Sector?

Six-year bachelor's graduation rate by sector of institution. Data from NCES, IPEDS Graduation Rates.

61% of students who started a bachelor's degree at a four-year institution in Nebraska graduated within six years (2024), 3.9 points below the U.S. (65%); the state ranks 27th of 51.

By sector: public 4-year 59%, private nonprofit 65%, for-profit 0.0%. At two-year institutions, 44% complete within 150% of normal time (U.S. 41%).

STUDENT OUTCOMES

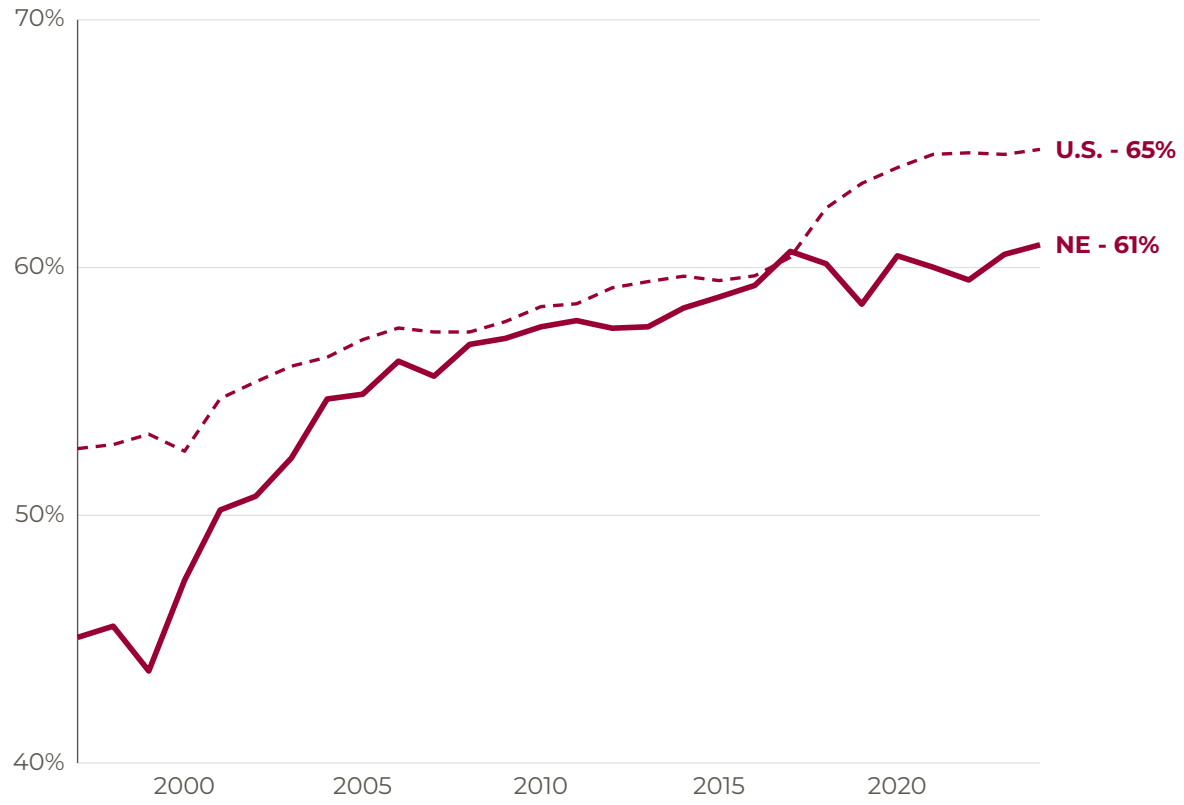

# How Many of Nebraska's Students Graduate?

The line follows the share of first-time, full-time bachelor's-degree students at Nebraska's four-year institutions who graduated from the institution where they started within six years (150% of normal time). Each year is the cohort that entered six years earlier. The state is solid and the United States dashed.

**Six-year graduation rate.** 61% in 2024 (U.S. 65%), up 0.4 points from 61% in 2023, and up 2.1 points since 2015 (59%).

**Public 4-year institutions.** 59% in 2024, up 0.3 points from 59% in 2023, and up 1.7 points since 2015 (58%).

SECTION 15

# Faculty

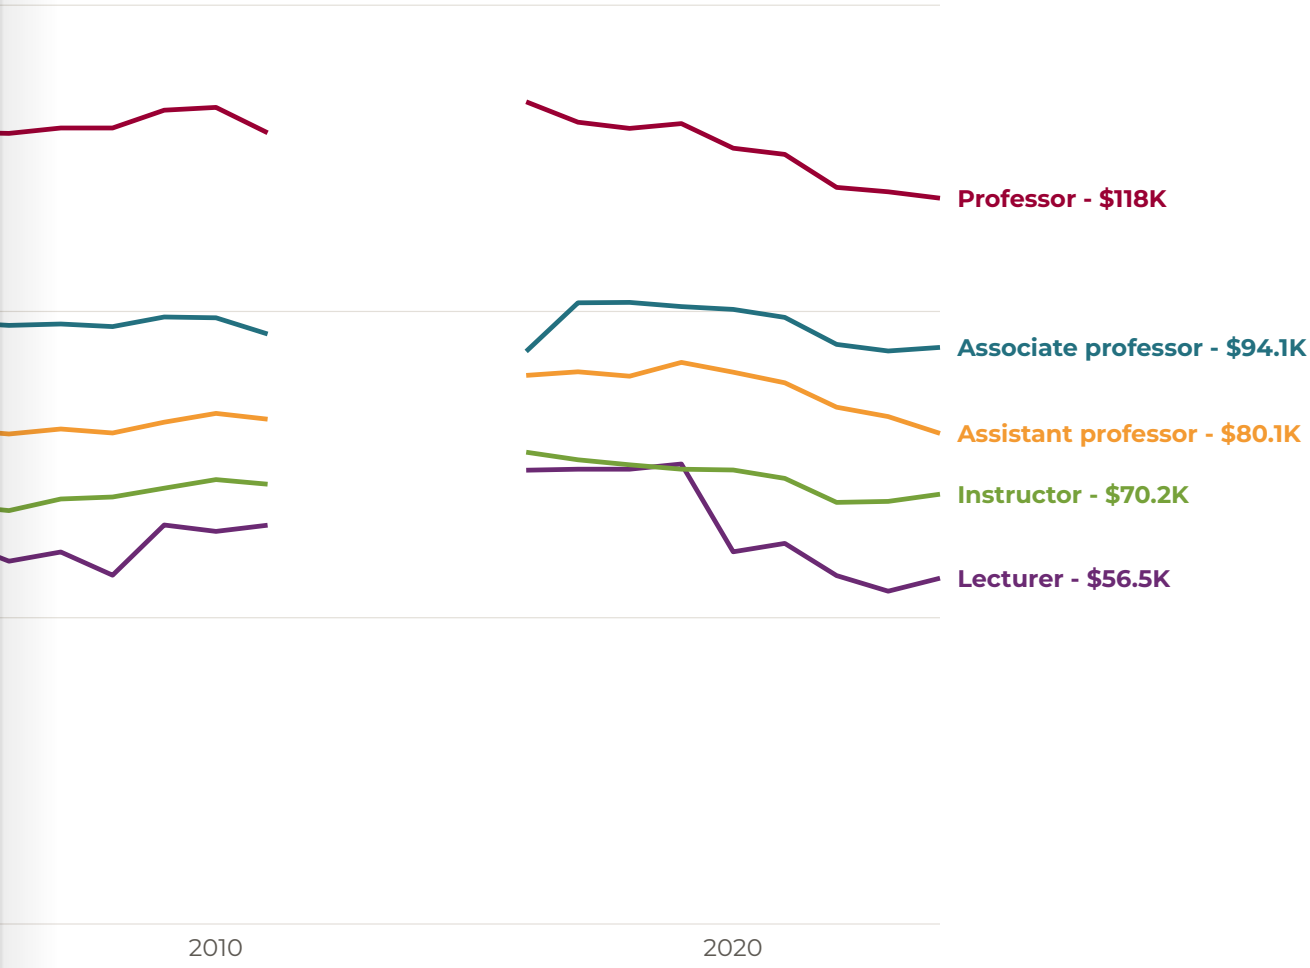

## Figure 39 What Do Nebraska's Faculty Earn, by Rank?

Average salary of full-time instructional faculty on 9/10-month contracts, by academic rank, 2024 dollars (CPI-U). Data fro

Full-time instructional faculty on 9/10-month contracts at Nebraska's institutions earned an average of $88.5K in 2024 (2024 dollars), 16% below the U.S. ($106K); the state ranks 35th of 51. By rank (2024): professors $118K, associate professors $94.1K, assistant professors $80.1K, instructors $70.2K, lecturers $56.5K.

Nebraska's institutions had 5.51K full-time instructional staff in 2024, up 5% since 2015. Average salary across all ranks is down 10% since 2016.

| Wayne State College | **4.67K** | 0.8% | 152 | 52% | – |

Fall 2024 enrollment; degrees 2025. Data from NCES, IPEDS.

NOTES

# About These Data

**International students**

U.S. nonresidents on temporary visas, as IPEDS defines them. IPEDS does not record country of citizenship. Permanent residents count with U.S. citizens.

**STEM**

CIP families 03, 04, 11, 14, 15, 26, 27 and 40. Doctorates are research and scholarship doctorates; professional doctorates appear only in the degree-count figure. Degrees are first majors only.

**Universe**

Degree-granting institutions located in the state; Title IV participants from 1996. Geography is the institution's location, not the student's home. Enrollment is fall headcount.

**Migration**

First-time degree-seeking undergraduates by home state, reported in even years before 2001 and every year since; odd years with incomplete reporting are omitted. Net migration is students arriving from other states minus residents leaving, per 100 resident first-time students.

**Money**

All dollar values are in 2024 dollars using the CPI-U. Appropriations and revenue are per full-time-equivalent student at public institutions.

**Race and ethnicity**

IPEDS did not collect race and ethnicity in every year before 2010, and categories changed in 2008–2010; “Two or more” exists only from then.

**Countries of citizenship**

From DHS SEVIS by the Numbers: active F-1 and M-1 student records in the month named, at every level from primary school to doctorate, by the state of the school. IPEDS records only whether a student is a U.S. nonresident, not where they come from. SEVIS counts are monthly snapshots and are not directly comparable with IPEDS fall enrollment or degree counts.

**Peers**

Comparison states are the four closest in total fall enrollment.
