Authors

Emerson Victoria Johnston is a research assistant with the Hoover Institution's Technology Policy Accelerator. A Knight-Hennessy Scholar, she holds a master's in international policy from Stanford University, and is on leave from its master's program in the history of science, technology, environment, and medicine.

Dr. Amy Zegart is the Morris Arnold and Nona Jean Cox Senior Fellow at the Hoover Institution, director of Hoover's Technology Policy Accelerator, and a senior fellow and associate director at Stanford University's Institute for Human-Centered Artificial Intelligence.

Data come from the Integrated Postsecondary Education Data System (IPEDS), the Department of Homeland Security's SEVIS by the Numbers, the National Assessment of Educational Progress, NSF's Survey of Graduate Students and Postdoctorates and Survey of Earned Doctorates, the Department of Labor's Office of Foreign Labor Certification, the USCIS H-1B Employer Data Hub, the Census Bureau's American Community Survey and USPTO patent data via PatentsView, processed in Python; every figure and table is generated from those sources, and each one names its source.

About This Profile

This profile is a companion to *The 2026 US Talent Report: Benchmarking America's STEM Pipeline Amid the Great Talent Competition*. It applies the report's measures to Illinois: the students the state develops at home, those it draws from abroad, and how both compare with the nation and with the states closest to it in size.

Degrees, enrollment, prices, outcomes and faculty come from IPEDS, the federal census of U.S. colleges and universities, harmonized across 1980–2025. Countries of citizenship come from SEVIS by the Numbers, the Department of Homeland Security's monthly count of active F-1 and M-1 students. Each figure names its source. Peer states are the four closest in total fall enrollment.

Public Data and Tools

The data behind every chart come from federal sources: the Integrated Postsecondary Education Data System (IPEDS), published by the National Center for Education Statistics, as the backbone, together with NAEP, NSF's surveys of graduate students, doctorates and research funding, USAspending.gov, DHS and ICE SEVIS data, the Department of Labor, USCIS, the Census Bureau's American Community Survey and Post-Secondary Employment Outcomes, and USPTO PatentsView. Each figure names its source, and the Sources page lists all of them. An interactive version of this profile accompanies the report.

AT A GLANCE

What Illinois's numbers say

1. **International students earn 66% of Illinois's STEM master's degrees,** 13.8 points above the U.S. (52%) in 2025, ranking 5th of 51 on dependence. The share is 54% for STEM research doctorates (U.S. 43%) and 11% for STEM bachelor's (U.S. 6.6%).
2. **Illinois awarded 7.39K STEM master's degrees to international students in 2025,** 6.3% of the U.S. total and 5th of 51 among states. Since 2015 the count changed 2.1×, against 2.2× nationally.
3. **The heaviest dependence is in engineering technology,** where international students earned 86% of master's degrees (794 degrees; U.S. 54%). 4 STEM fields with at least 50 master's graduates are majority-international.
4. **Among states of similar size,** Illinois ranks 1st of 5 on the international share of STEM master's: Illinois 66%, Arizona 41%, Pennsylvania 54%, Ohio 58%, Georgia 44%.
5. **80% of Illinois's first-time students in fall 2024 were state residents** and 4.6% came from abroad. More residents left for other states (34.7K) than students arrived from them (13.6K), a net loss of 21.1K; the top destination for those leaving was Wisconsin.

66%

of the STEM master's degrees Illinois awards go to international students (U.S. 52%).

SECTION 1

International Dependence

Illinois ranks 5th of 51 on the international share of STEM master's, at 66% in 2025 against 52% for the U.S.

Figure 1 What Share of Illinois's Degrees Go to International Students?

International share of degrees awarded, all fields; state solid, U.S. dashed. Data from NCES, IPEDS Completions, 1985–2025.

International students make up 22% of Illinois's graduate enrollment and 3.8% of its undergraduates. Dependence climbs with each degree: 5.7% of bachelor's, 29% of master's and 33% of research doctorates go to international students.

In STEM the shares are higher still: 11% of STEM bachelor's, 66% of STEM master's and 54% of STEM doctorates. The state awards 6.3% of all U.S. international STEM master's, 5th of 51.

Figure 2 Where Do Illinois's International Students Come From?

Active F-1 and M-1 students by country of citizenship, the five largest in October 2026; one fall snapshot per year (the month closest to November), October 2014–October 2026. All education levels. Data from DHS, SEVIS by the Numbers.

In October 2026, Illinois had 62.7K active international students in SEVIS, 6th of 51. India accounted for 31% of them and China for 22%, against 27% and 18% nationally.

Students came from 186 countries, but the two largest supplied 54%. The state's total is up 14% since 2015, when it stood at 55.1K.

SECTION 1 · INTERNATIONAL DEPENDENCE

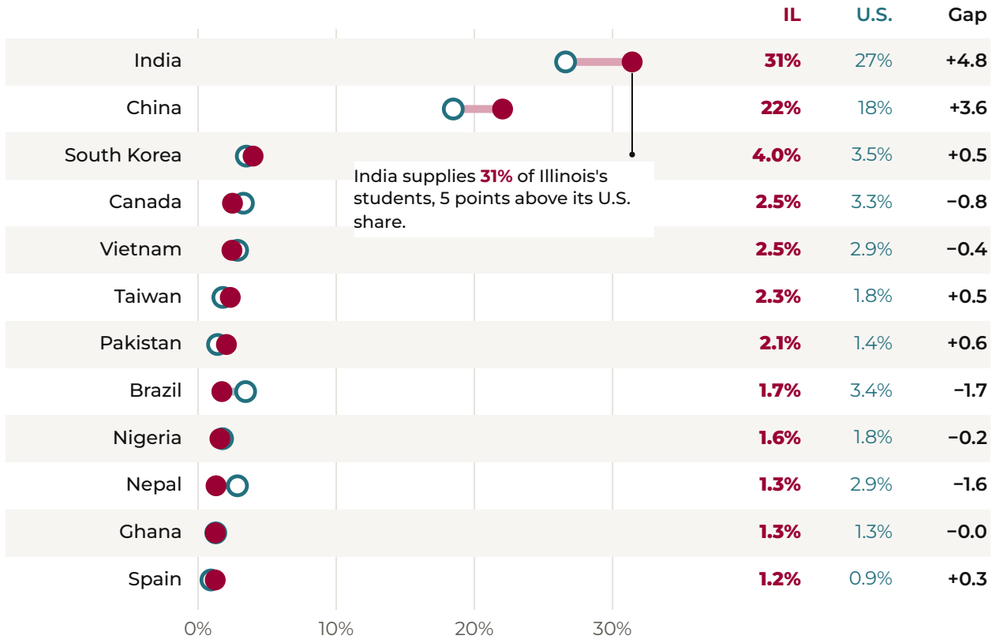

How Does Illinois's Mix of Countries Compare With the Nation's?

In October 2026, Illinois had **62.7K** active F-1 and M-1 students, 6th among the 50 states and DC and **5.3%** of the U.S. total. They came from 186 countries.

India supplied **31%** of them, against 27% nationally, and China **22%**, against 18%. South Korea (4.0%), Canada (2.5%), and Vietnam (2.5%) followed.

Together the two largest countries supplied **53%** of the state's international students (U.S. 45%), 12th among the states, against 52% in 2015.

Figure 3 Is Illinois's Mix of Countries Like the Nation's?

The state's count is down 7.2% from 2025 and up 14% since 2015, when it stood at 55.1K. Its share of all U.S. international students is up 0.6 points since 2015, to **5.3%**.

Since 2015, the number of students from India went from 11.6K to 19.7K, China's from 17K to 13.8K, and South Korea's from 3.91K to 2.49K.

Over the same years, the number from Canada went from 1.24K to 1.56K and Vietnam's from 794 to 1.54K. The table gives each country's count for the first, previous and latest years.

Table 1 International Students in Illinois, 2015–2026

	2015	2025	2026	Change since 2015	U.S. 2026	Rank
ALL INTERNATIONAL STUDENTS						
Active F-1 and M-1 students	55.1K	67.5K	**62.7K**	+14%	1.19M	6th
Share of U.S. active F-1/M-1 students	4.6%	5.3%	**5.3%**	+0.6 pp	–	6th
Countries of citizenship represented	182	186	**186**	+2.2%	219	6th
Share from the two largest countries of origin	52%	55%	**53%**	+1.7 pp	45%	12th
LARGEST COUNTRIES OF CITIZENSHIP (STUDENTS)					**U.S. SHARE**	**STATE SHARE**
India	11.6K	22.5K	**19.7K**	+70%	27%	31%
China	17K	14.8K	**13.8K**	−19%	18%	22%
South Korea	3.91K	2.54K	**2.49K**	−36%	3.5%	4.0%
Canada	1.24K	1.52K	**1.56K**	+26%	3.3%	2.5%
Vietnam	794	1.5K	**1.54K**	+94%	2.9%	2.5%

Active F-1 and M-1 students, one fall snapshot per year (the month closest to November; 2019 has none; the latest year is October 2026). Rank among the 50 states and DC. Data from DHS, SEVIS by the Numbers.

Figure 4

Which Countries Supply Illinois's International STEM Students?

44.7K of Illinois's international students were in STEM fields in October 2026, **71%** of the total against 63% nationally, up 86% since 2015.

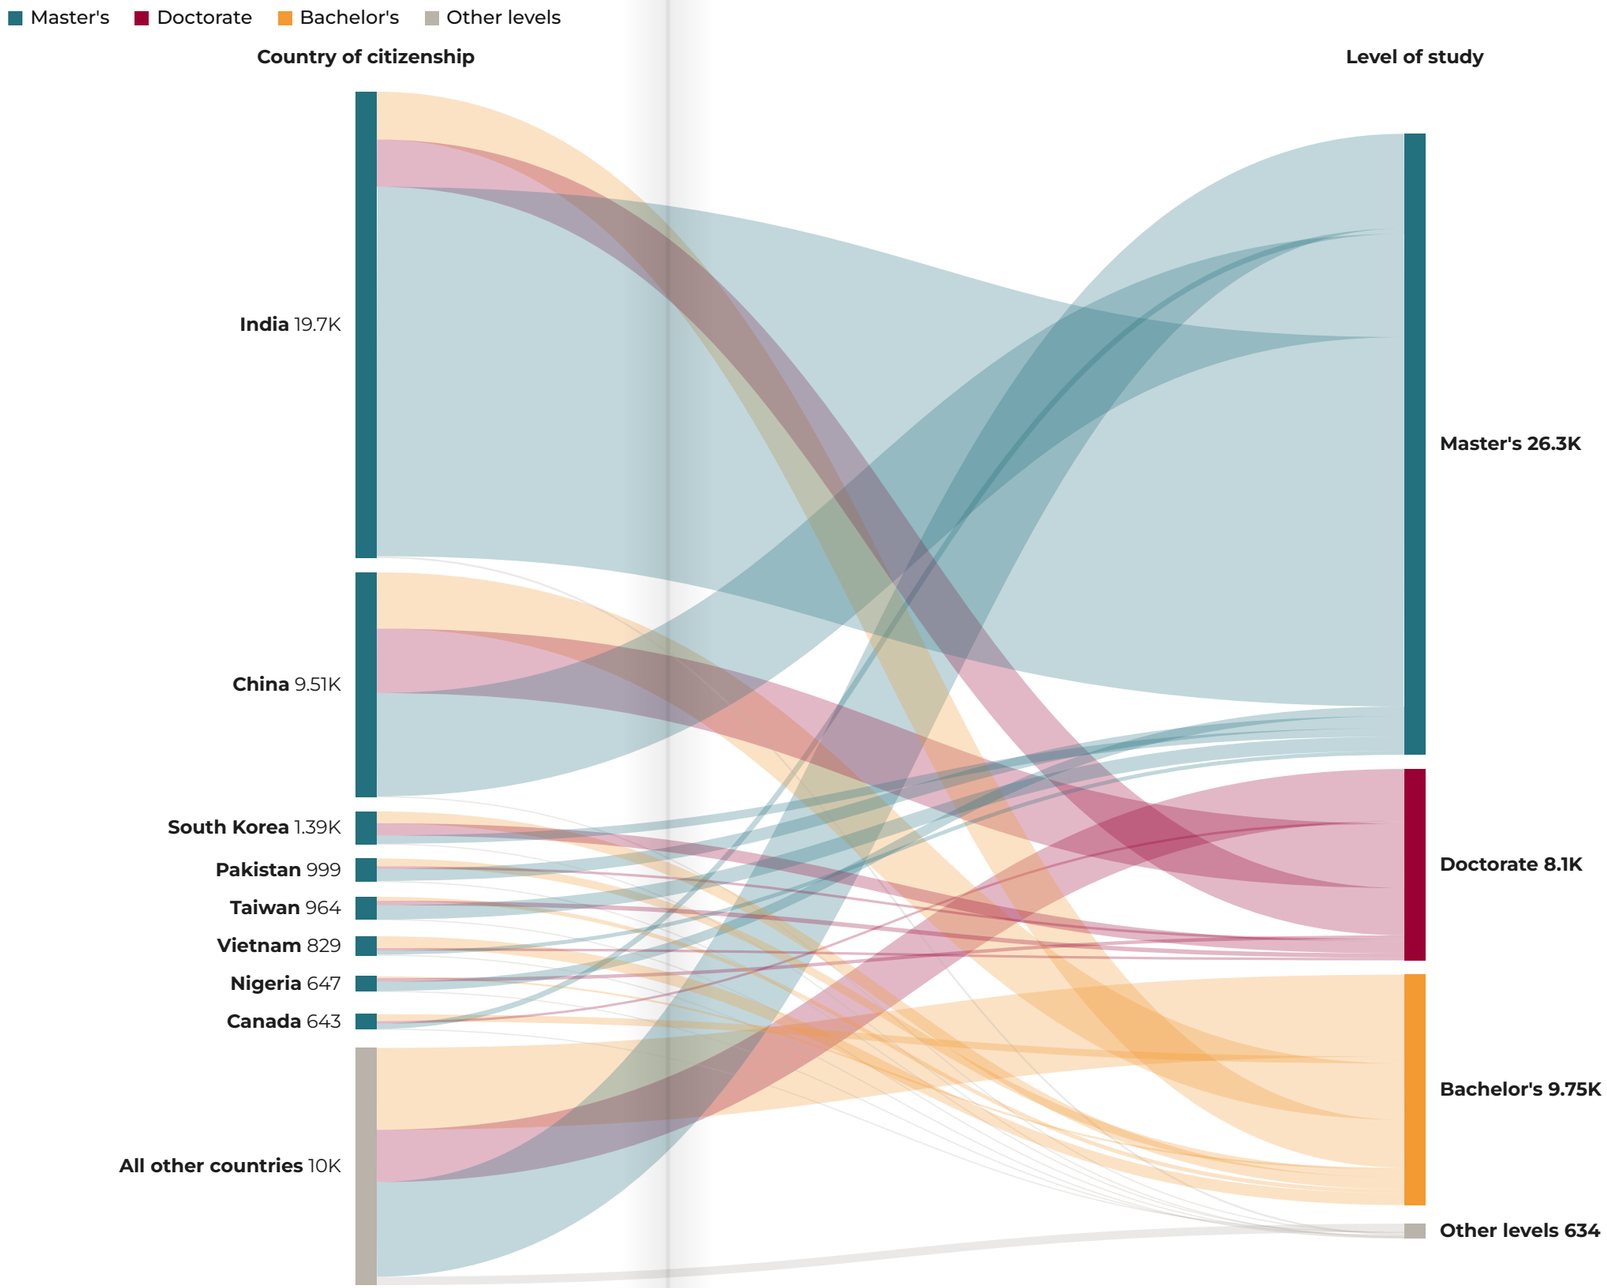

Master's students were the largest group, **26.3K**. India supplied 59% of them and China 17%.

STEM doctoral students went from 4.5K in 2015 to **8.1K**, and STEM master's students from 13.2K to 26.3K.

44.7K

71%
Share in STEM fields
U.S. **63%**

26.3K
Active STEM master's students, 2026
U.S. **393K** · **5th** of 51 · +99% since 2015

Active F-1 and M-1 students in STEM fields by country of citizenship and level of study, October 2026; the eight largest countries are shown. DHS does not draw its STEM pages on the same basis as its all-student pages, so the STEM count here exceeds the all-level count for India (19.7K against 19.7K). Data from DHS, SEVIS by the Numbers, October 2026.

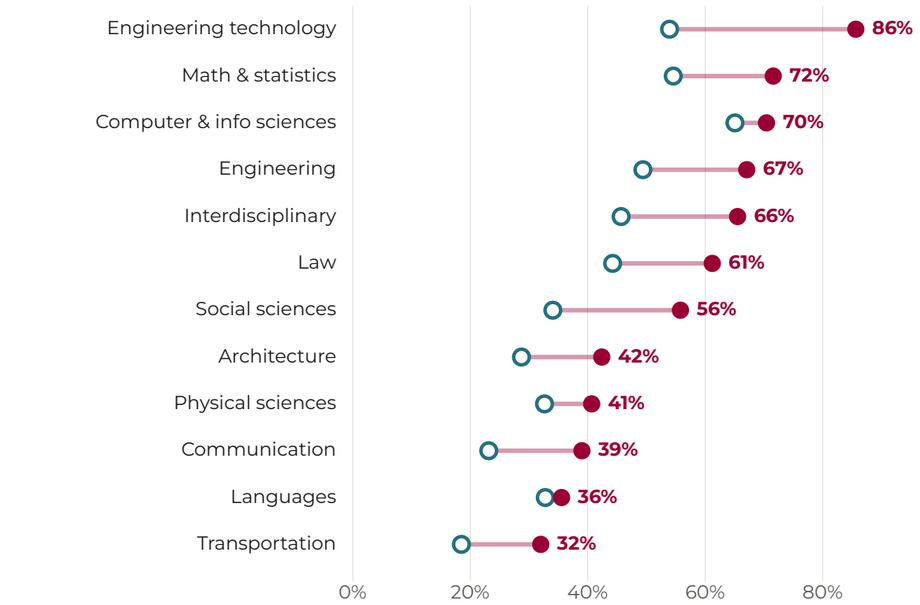

SECTION 1 · INTERNATIONAL DEPENDENCE

How International Are Illinois's Master's Fields?

Each row is a master's field with at least 30 graduates in Illinois in 2025, ranked by the share of degrees earned by international students (U.S. nonresidents on temporary visas). The filled dot is the state's share; the open dot is the national share for the same field.

Highest international shares. International students earned the largest shares of master's degrees in engineering technology (86%, against 54% for the U.S.), math & statistics (72%, against 55% for the U.S.), and computer & info sciences (70%, against 65% for the U.S.).

Figure 5 Which Master's Fields Depend Most on International Students?

International share of master's degrees by field, 2025; fields with 30+ graduates. Data from NCES, IPEDS Completions.

29%
Int. share of all master's, 2025
U.S. **22%** · **6th** of 51

66%
Int. share of STEM master's, 2025
U.S. **52%** · **5th** of 51

70%
Int. share of CS master's, 2025
U.S. **65%** · **17th** of 47

The table gives the international share of degrees in each STEM field at three levels: Illinois first, the United States after the slash. The master's column is highlighted. A dash means the state awarded no degrees in the field at that level.

Highest international share among STEM master's fields. International students earned 86% of the master's degrees in engineering technology, against 54% for the U.S.

Fields with an international majority. International students earned more than half of the master's degrees in 4 STEM fields.

Table 2 How International Is Each STEM Field?

Field	Bachelor's	Master's	Doctorates
Computer & info sciences	11% / 8.6%	**70% / 65%**	71% / 56%
Engineering	17% / 7.2%	**67% / 49%**	65% / 55%
Engineering technology	2.4% / 4.5%	**86% / 54%**	– / 42%
Math & statistics	23% / 17%	**72% / 55%**	65% / 53%
Physical sciences	9.8% / 6.0%	**41% / 33%**	38% / 38%
Biological sciences	3.9% / 3.4%	**26% / 23%**	29% / 23%
Natural resources	2.0% / 2.0%	**18% / 17%**	– / 27%
Architecture	13% / 7.3%	**42% / 29%**	– / 55%

International share in Illinois / U.S., 2025. Data from NCES, IPEDS Completions.

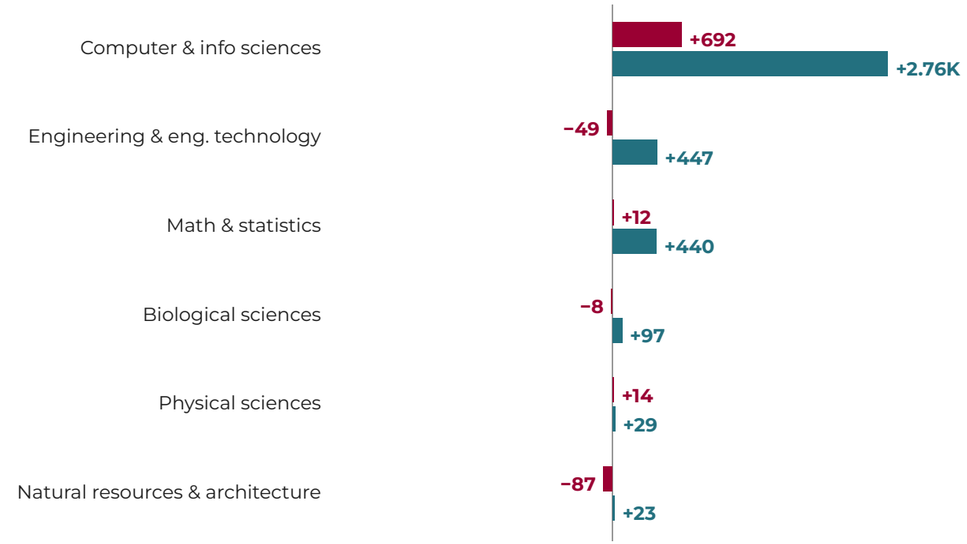

SECTION 1 · INTERNATIONAL DEPENDENCE

How Has Illinois's STEM Master's Output Grown?

Each pair of bars is the change in the number of STEM master's degrees awarded in Illinois between 2015 and 2025 in one field: to domestic students (U.S. citizens and permanent residents) and to international students. Bars to the left of the axis are declines.

STEM master's degrees. The state awarded 11.2K in 2025 and 6.85K in 2015, a change of +3.79K for international students and +574 for domestic students.

Figure 6 Where Did the STEM Master's Growth Come From?

Change in STEM master's degrees by field, 2015–2025. Data from NCES, IPEDS Completions.

7.39K
International STEM master's, 2025
U.S. **117K** · **5th** of 51

23%

Physical sciences	316	**359**	+14%	146	37%	41%
Natural resources & architecture	413	**349**	−15%	122	24%	35%

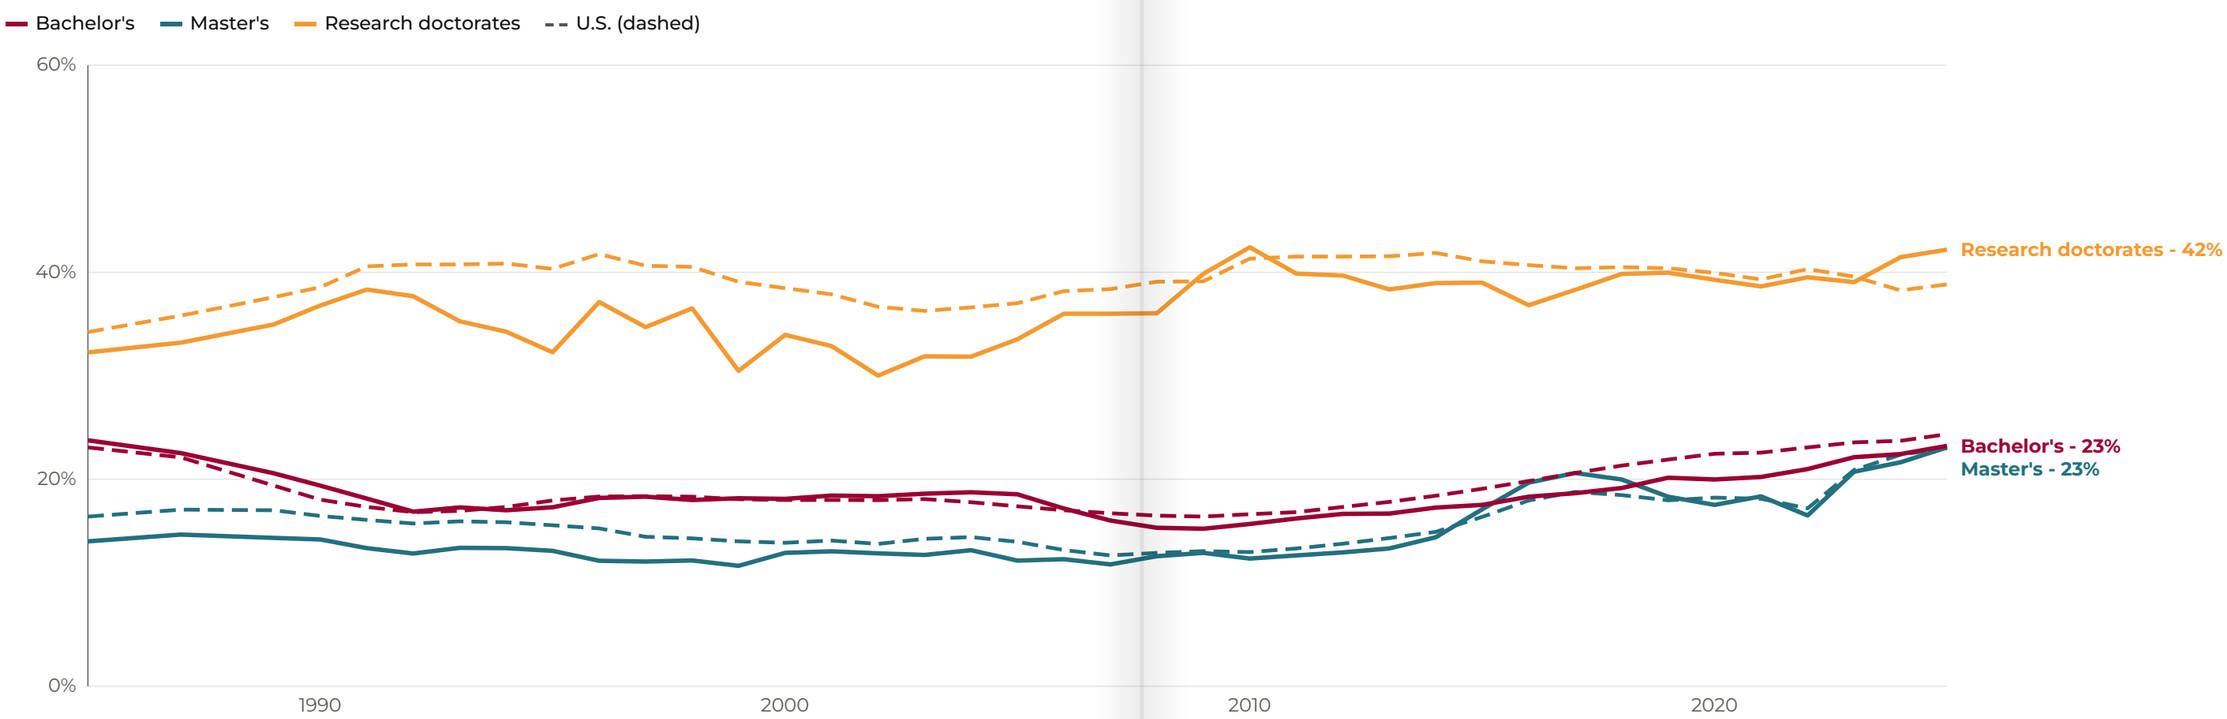

STEM master's degrees awarded in Illinois, all students and international students, 2015 and 2025. Data from NCES, IPEDS Completions.

SECTION 2

STEM Degrees

Illinois ranks 20th of 51 on the STEM share of master's, at 23% in 2025 against 23% for the U.S.

Figure 7 How Much of Illinois's Degree Output Is STEM?

STEM share of degrees by level; state solid, U.S. dashed. Data from NCES, IPEDS Completions.

STEM fields account for 23% of Illinois's bachelor's degrees, 23% of its master's and 42% of its research doctorates (U.S. 24%, 23% and 39%).

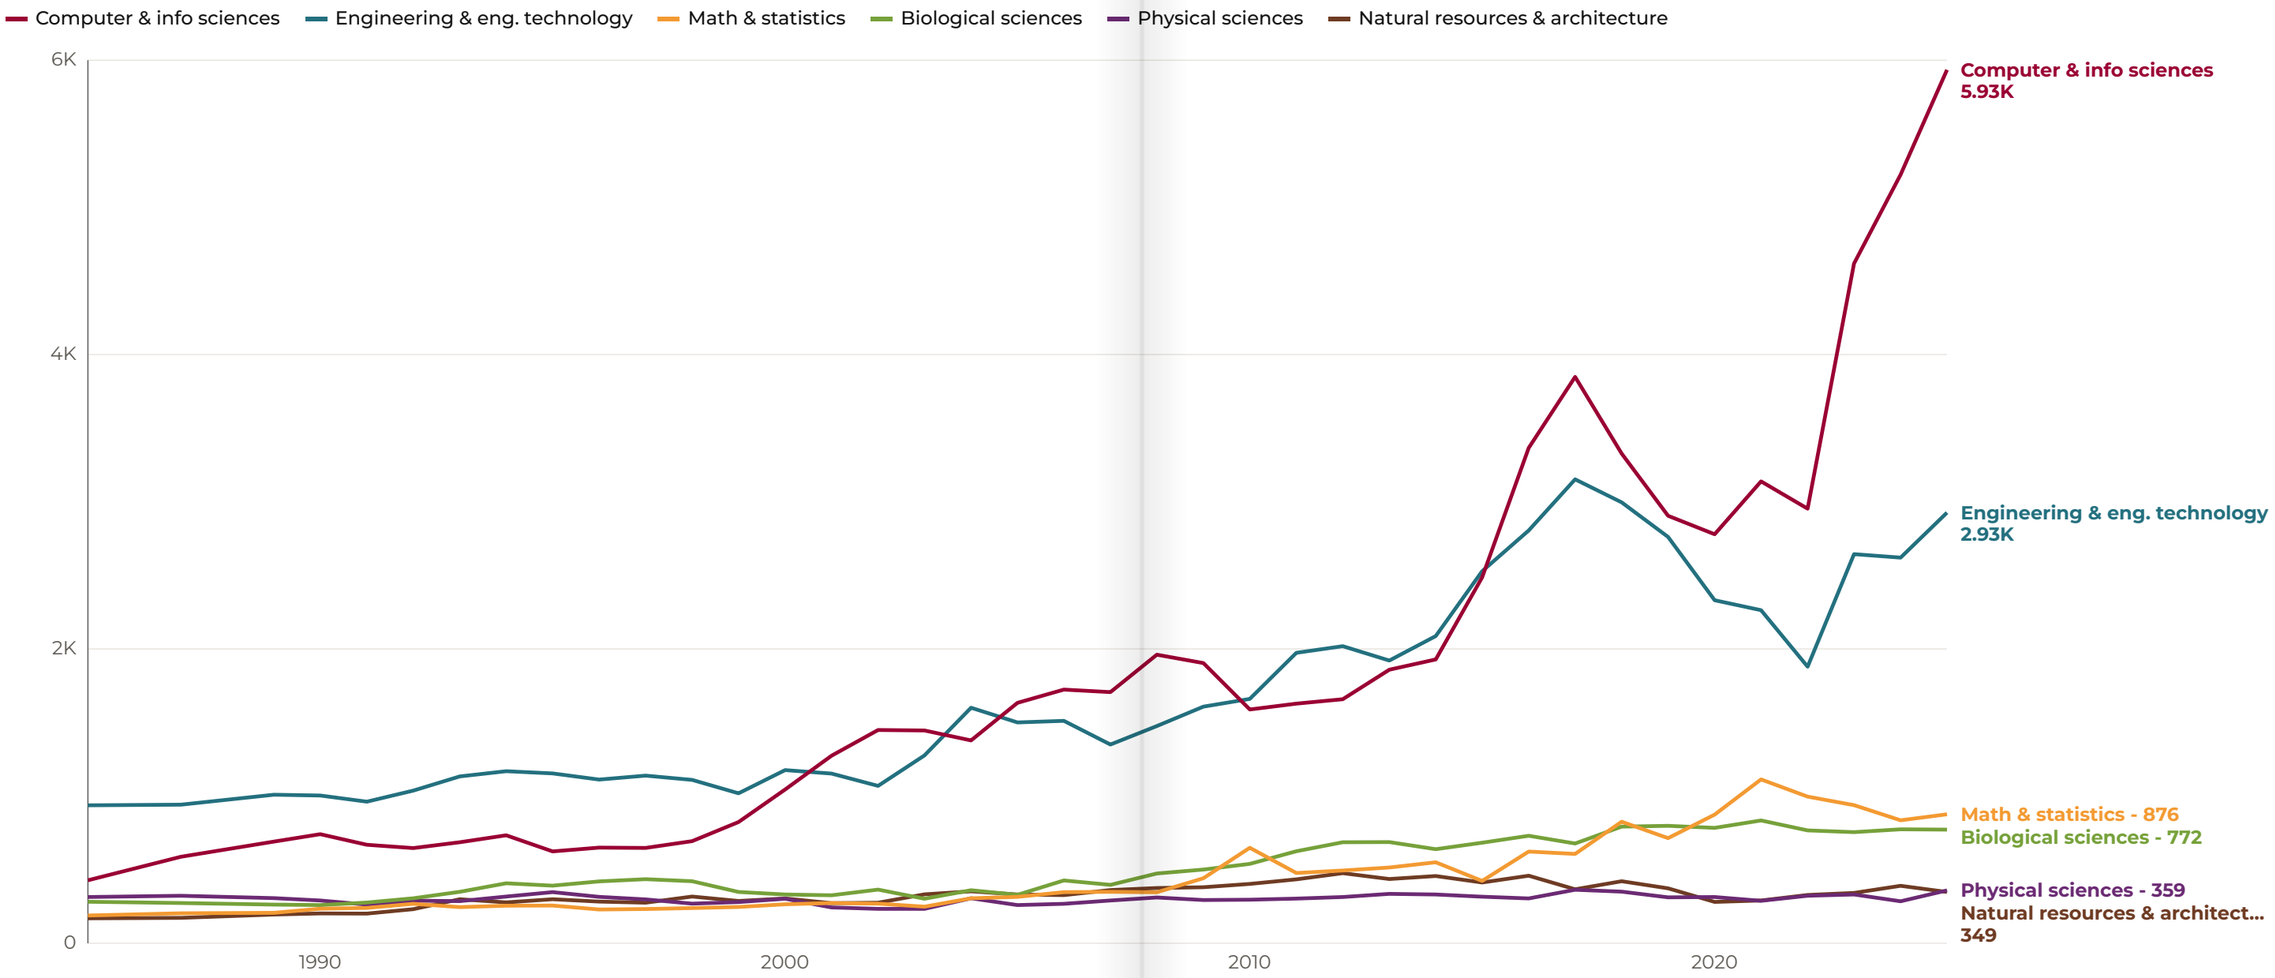

The STEM share of master's degrees is up 6.0 points since 2015, and the state ranks 20th of 51 on it. On the STEM share of bachelor's degrees it ranks 24th of 51.

23%
STEM share of bachelor's, 2025

SECTION 5

Graduate Research

Illinois ranks 2nd of 51 on the temporary-visa share of S&E graduate students, at 50% in 2016 against 39% for the U.S.

Figure 15 How Many of Illinois's Science and Engineering Graduate Students Hold Temporary Visas?

Temporary-visa share of science and engineering graduate students and postdoctoral appointees, by the institution's state; state solid, U.S. dashed. NSF stopped publishing state tables after 2016. Data from NSF NCSES, Survey of Graduate Students and Postdoctorates.

In 2016, the last year NSF published state tables, 50% of Illinois's science and engineering graduate students held temporary visas (U.S. 39%; 2nd of 51).

Among postdoctoral researchers, the share was 62% (U.S. 56%). Postdocs are the stage of research training most dependent on international talent, and IPEDS does not count them.

The state's institutions awarded 2.53K research doctorates in 2025, 4.3% of the U.S. total (Data from NSF NCSES, Survey of Earned Doctorates; NSF publishes doctorates by citizenship only for the nation).

50%

U.S. **59K** · **6th** of 51 · +2.2% since 2015

SECTION 6

Do Graduates Stay?

Illinois ranks 7th of 33 on the share of bachelor's graduates working in the state 1 year after graduating, at 77% in 2019 against 72% for the U.S.

Figure 16 How Many of Illinois's Graduates Go On to Work in the State?

Share of employed graduates working in the state of their institution, by graduating cohort (Data from U.S. Census Bureau, Post-Secondary Employment Outcomes; participating institutions only); international graduates' OPT jobs in the state where they studied (Data from ICE, SEVIS FOIA releases; shares only, the file is truncated). State solid, U.S. or participating states dashed.

Of Illinois's bachelor's graduates who were working a year after graduating, 77% worked in the state (participating states 72%). Five years out the share was 69%.

Among international graduates on Optional Practical Training in 2016, 37% worked in the state where they studied (U.S. 44%). That is the last year the released records cover, before most of the growth in international STEM master's degrees since 2015. Through migration between states, the state lost 3.2 bachelor's-plus adults per 1,000 such residents in 2025 (Data from U.S. Census Bureau, American Community Survey).

77%

Bachelor's grads working in-state, 1 year out, 2019

36th of 51 · +7.9 since 2015

SECTION 7

Research Funding

Illinois ranks 9th of 51 on university R&D spending, at $3.83B in 2024 against $118B for the U.S.

Figure 17 How Much Research Money Flows Into Illinois?

Nominal dollars (not adjusted for inflation), fiscal years; a line ending before the others is labeled with its last year. University R&D: Data from NSF NCSES, Higher Education Research and Development Survey (FY2003-09 predecessor survey). Federal R&D obligations by state of performance: Data from NSF NCSES, Survey of Federal Funds for R&D (coverage widens in FY2021). Grants from NSF, NIH, NASA and DOE Science plus R&D contracts: Data from USAspending.gov.

Illinois's universities spent $3.83B on research and development in FY2024, 9th of 51 among the states; 60% of it was federally funded (U.S. 55%).

Federal agencies obligated $4.01B for R&D performed in the state in FY2024. Research funding drives demand for graduate students and postdocs, the stage of training most dependent on international talent.

U.S. **$193B** · **14th** of 51 · +62% since 2015

SECTION 8

H-1B Jobs and Green Cards

Illinois ranks 5th of 51 on certified H-1B positions, by worksite, at 51.6K in 2025 against 914K for the U.S.

Figure 18 How Many Skilled-Visa Jobs and Green-Card Certifications Does Illinois Generate?

Certified H-1B positions on labor condition applications by worksite and certified PERM green-card applications, by fiscal year (Data from DOL, Office of Foreign Labor Certification); new H-1B petition approvals by the employer's address (Data from USCIS, H-1B Employer Data Hub).

Employers were certified for 51.6K H-1B positions at Illinois worksites in FY2025, 5th of 51 among the states. A labor condition application comes before the petition and covers renewals and job changes as well as new hires, by the worksite's state, so it runs well above approvals. USCIS approved 5.89K new H-1B petitions in FY2026 and 14K continuing ones, counted by the employer's address.

DOL certified 5.57K PERM applications, the employer's step toward an employment-based green card, for jobs in the state in FY2025. In FY2024, 8.7% were for workers still on F-1 student visas (U.S. 8.7%): the most direct link from classroom to permanent residence.

51.6K

Certified H-1B positions (worksite), 2025

U.S. **$119K** · **18th** of 51 · +57% since 2015

SECTION 9

STEM Workforce

Illinois ranks 7th of 44 on the foreign-born share of STEM workers with a graduate degree, at 42% in 2024 against 41% for the U.S.

Figure 20 How Much of Illinois's STEM Workforce Was Born Abroad?

Foreign-born share of employed workers in STEM occupations, by state of residence; state solid, U.S. dashed. Shares resting on fewer than 100 survey records are left out. No 2020 (experimental data). Data from U.S. Census Bureau, American Community Survey.

In 2024, 26% of the people working in STEM occupations in Illinois were born abroad (U.S. 24%; 9th of 51).

The share rises with education: 42% of STEM workers with a graduate degree were foreign-born (U.S. 41%), and 50% of those with a doctorate (U.S. 47%; 9th of 20). 12% of all STEM workers were not U.S. citizens.

SECTION 11

Competitors

The four states closest in total fall enrollment, measured proportionally (a state 1.5 times as large counts as near as one two-thirds the size), are Arizona, Pennsylvania, Ohio, and Georgia. Illinois ranks 1st of the five on the international share of STEM master's; Illinois is the most dependent at 66%.

Figure 22 How Dependent Are Illinois and Its Peers on International STEM Master's?

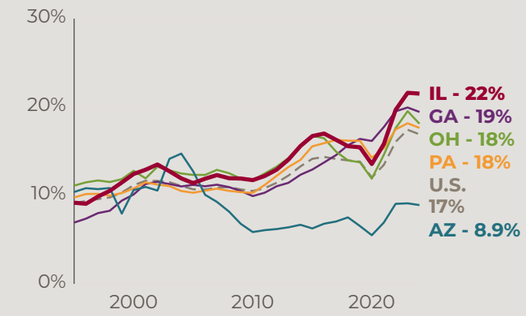

Data from NCES, IPEDS Completions.

Table 4 How Does Illinois Compare With States of Similar Size?

SECTION 12

Fields of Study

Figure 27 How Many Degrees Does Illinois Award?

Degrees awarded by level, first majors. Data from NCES, IPEDS Completions.

In 2025, Illinois's institutions awarded 34.9K associate's degrees, 66.5K bachelor's degrees, 48.6K master's degrees, 3.63K research doctorate degrees, 6.15K professional doctorate degrees.

Since 2015: associate's down 13%; bachelor's down 10%; master's up 21%; research doctorate up 14%; professional doctorate up 11%. The state awards 11.8 bachelor's degrees for every 100 undergraduates (U.S. 12.3).

Figure 28 What Do Illinois's Bachelor's Graduates Study?

Share of bachelor's degrees by field, 2025. Data from NCES, IPEDS.

Illinois's largest bachelor's fields are health professions (19%; U.S. 13%), business (15%; U.S. 19%), computer & info sciences (6.9%; U.S. 6.9%).

Relative to the nation, Illinois's bachelor's degrees are most concentrated in theology (2.35× the U.S. share), health professions (1.49× the U.S. share), math & statistics (1.46× the U.S. share).

6.9%

U.S. **65%** · **17th** of 47 · +13.2 pp since 2015

Figure 30 How Has Illinois's Bachelor's Field Mix Changed?

Share of bachelor's degrees in the largest fields. Data from NCES, IPEDS Completions.

Since 2015, computer & info sciences has gained the most ground, 3.6 points of the state's bachelor's degrees, while business lost the most (3.1 points).

The chart follows the share of bachelor's degrees in each of the state's largest fields; smaller fields are grouped as other fields.

SECTION 12 · FIELDS OF STUDY

Where Is Illinois Specialized, and What Do Its Doctoral Graduates Study?

The location quotient divides a field's share of Illinois's bachelor's degrees by its share of all U.S. bachelor's degrees in 2025. A quotient of 1.00 means the same share as the nation; 2.00 means twice the national share. The table lists the 10 fields with the highest quotients among fields with at least 50 degrees.

Highest location quotients. Theology (2.35, with 0.7% of the state's bachelor's degrees against 0.3% for the U.S.), health professions (1.49, with 19% of the state's bachelor's degrees against 13% for the U.S.), and math & statistics (1.46, with 1.7% of the state's bachelor's degrees against 1.2% for the U.S.) had the highest quotients.

Table 5 Where Is Illinois Most Specialized?

Field	Location quotient	State share	U.S. share	Degrees
Theology	**2.35**	0.7%	0.3%	446
Health professions	**1.49**	19%	13%	12.4K
Math & statistics	**1.46**	1.7%	1.2%	1.14K
Education	**1.39**	6.0%	4.3%	4K
Visual & performing arts	**1.35**	6.1%	4.6%	4.09K
Transportation	**1.16**	0.4%	0.4%	280
Communications tech	**1.14**	0.3%	0.3%	202
Physical sciences	**1.08**	1.4%	1.3%	924
Agriculture	**1.07**	1.1%	1.0%	733
History	**1.05**	1.1%	1.0%	720

Bachelor's degrees; location quotient = state share ÷ U.S. share; fields with 50+ degrees. Data from NCES, IPEDS.

In fall 2024, public 2-year institutions enrolled **37%** of students, down 2.8 points from 39% in 2015. Private nonprofit institutions enrolled **28%** of students, up 0.5 points from 28% in 2015.

Public 4-year institutions enrolled **26%** of students, up 1.6 points from 24% in 2015, and for-profit institutions enrolled **9.6%** of students, up 0.6 points from 8.9% in 2015.

Public institutions together enrolled **62%** of students, against 73% nationally, 40th among the states.

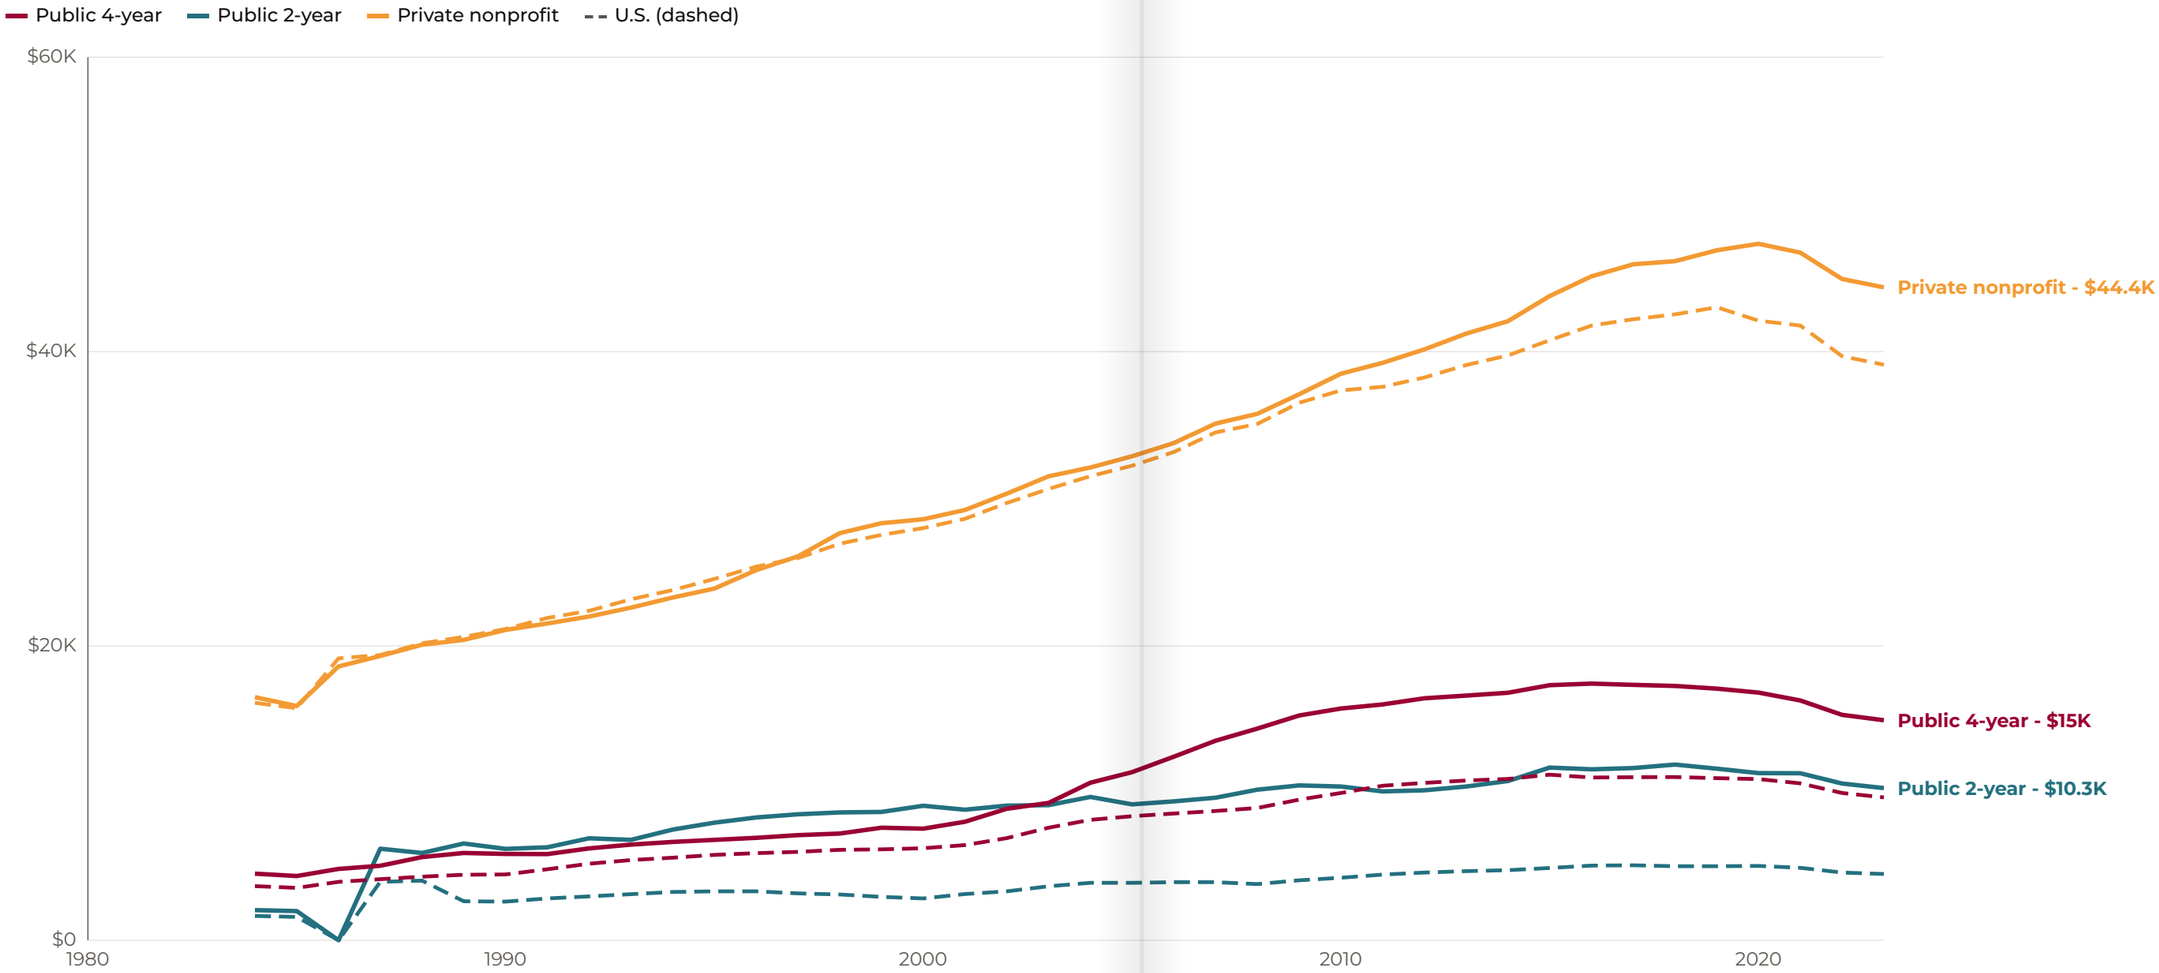

Figure 34 Where Do Students Enroll?

Share of fall headcount enrollment by sector, 2015, 2019, 2024. Sectors as IPEDS classifies them each year. Data from NCES, IPEDS.

13

Figure 35 What Does In-State Tuition Cost?

Published in-state tuition and fees, 2024 dollars (CPI-U); state solid, U.S. dashed. Data from NCES, IPEDS.

In-state tuition and fees at Illinois's public four-year institutions are $15K (2023, 2024 dollars), 54% above the U.S. ($9.71K); the state ranks 9th of 51.

State and local appropriations come to $10.3K per full-time-equivalent student at public institutions (29th of 51), and net tuition makes up 45% of net tuition plus state and local appropriations (U.S. 43%).

U.S. **43%** · **26th** of 51 · −1.4 pp since 2015

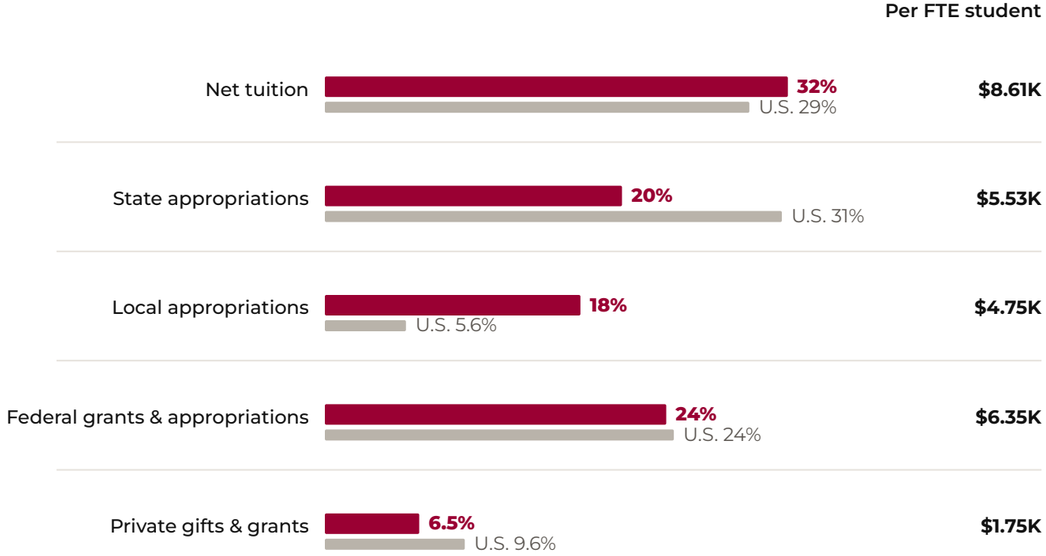

SECTION 13 · STUDENTS AND MONEY

How Are Illinois's Public Institutions Funded, and What Do They Produce?

The bars give each source's share of the core revenue of Illinois's public institutions, with the nation for comparison, and at right the dollars per full-time-equivalent (FTE) student it provides. Values are in 2024 dollars (CPI-U). Net tuition is tuition and fees after institutional discounts and allowances.

Net tuition per FTE student. The figure was $8.61K in FY2024, against $8.96K for the U.S., down 2.4% from $8.82K in FY2023 and down 3.5% since FY2015, when it was $8.93K.

Figure 36 How Are Public Institutions Funded?

Share of core revenue per FTE student by source, public institutions, FY2024; dollars per FTE at right, 2024 dollars (CPI-U). Shares are of all five sources; the tuition share elsewhere in this profile divides net tuition by net tuition plus state and local appropriations only. Data from NCES, IPEDS Finance.

$15K
In-state tuition, public 4-year, 2023
U.S. **$9.71K** · **9th** of 51

$10.3K
Appropriations per student, 2024
U.S. **$11.4K** · **29th** of 51

45%
Tuition share of tuition plus appropriations, 2024
U.S. **43%** · **26th** of 51

The table brings together five measures of what public higher education costs and what it produces in Illinois: in-state tuition at public four-year institutions, state and local appropriations per full-time-equivalent student, tuition's share of public institutions' core revenue, the six-year bachelor's graduation rate, and the average full-time faculty salary.

In-state tuition, public 4-year. The figure was $15K in 2023, against $9.71K for the U.S., 9th among the states, down 2.3% from $15.3K in 2022 and down 14% since 2015, when it was $17.3K.

Table 6 Money and Results

Measure	Year	Illinois	U.S.	Rank	Change since 2015
In-state tuition, public 4-year	2023	**$15K**	$9.71K	9th of 51	−14%
Appropriations per student	2024	**$10.3K**	$11.4K	29th of 51	+4.6%
Tuition share of tuition plus appropriations	2024	**45%**	43%	26th of 51	−1.4 pp

SECTION 14 · STUDENT OUTCOMES

How Many of Illinois's Students Graduate?

The line follows the share of first-time, full-time bachelor's-degree students at Illinois's four-year institutions who graduated from the institution where they started within six years (150% of normal time). Each year is the cohort that entered six years earlier. The rate leaves out students who start part-time (42% of the state's students attend part-time, against 39% nationally) and students who transfer and finish elsewhere. The state is solid and the United States dashed.

Six-year graduation rate. The rate was 67% in 2024, against 65% for the U.S., up 0.6 points from 66% in 2023 and up 4.3 points since 2015, when it was 63%.

Figure 38 Six-Year Bachelor's Graduation Rate

U.S. **12.3** · **36th** of 51

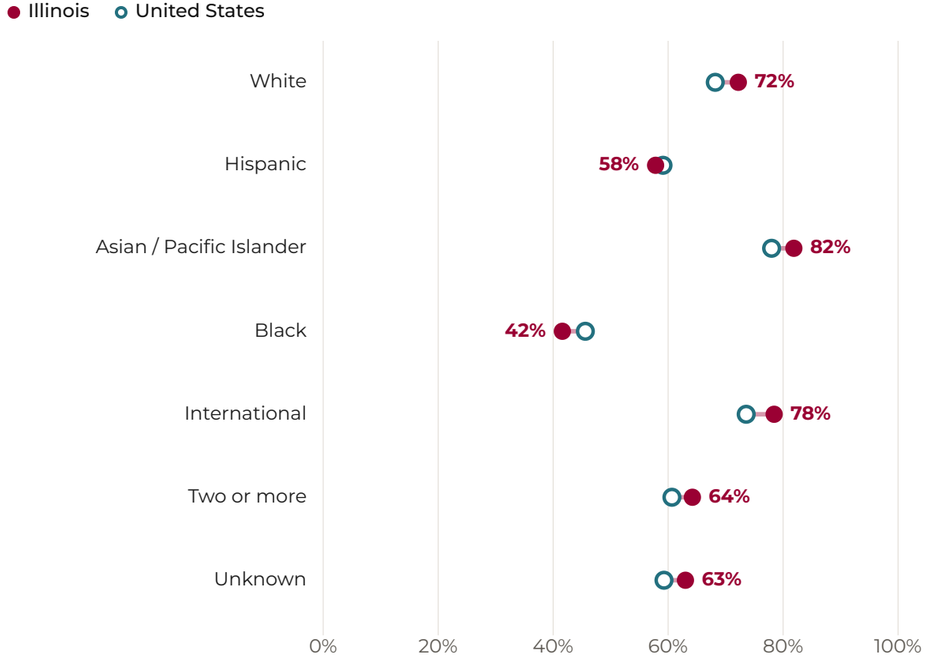

Each row is the six-year bachelor's graduation rate for one racial or ethnic group of students at Illinois's four-year institutions (filled dot), against the national rate for the same group (open dot). Groups with fewer than 100 students in the cohort are left out.

White. The six-year rate was 72% in 2024, against 68% for the U.S.

Hispanic. The six-year rate was 58% in 2024, against 59% for the U.S.

Asian / Pacific Islander. The six-year rate was 82% in 2024, against 78% for the U.S.

Six-year rate, 2024; groups with 100+ students. Data from NCES, IPEDS.

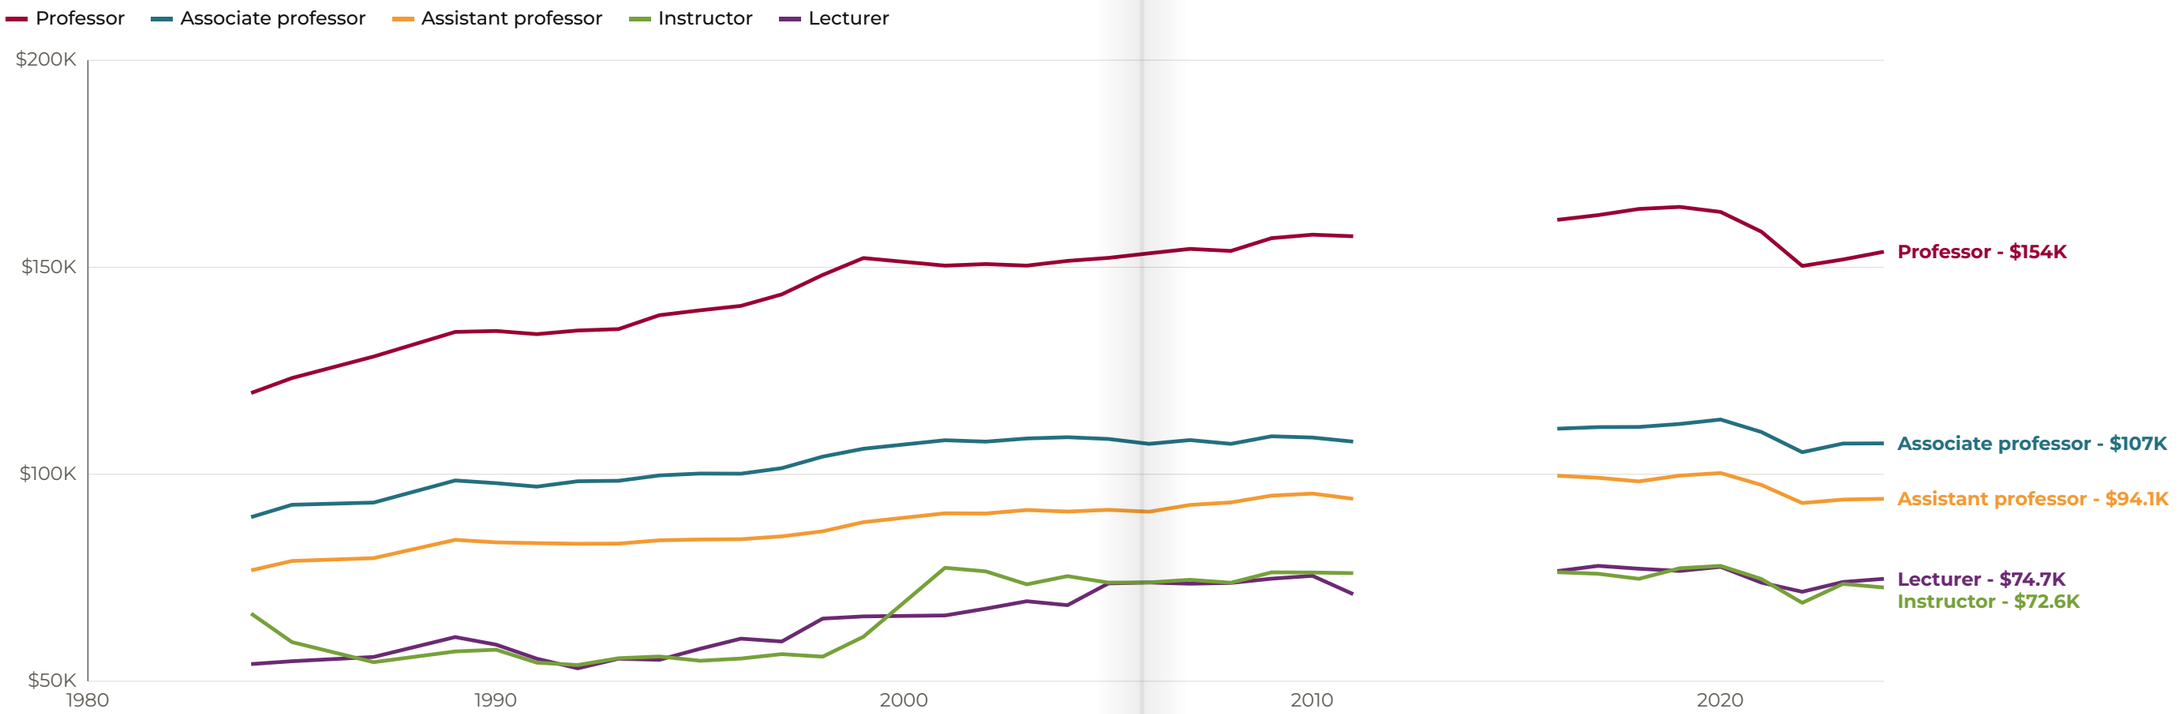

14

SECTION 15

Faculty

Illinois ranks 11th of 51 on the average full-time faculty salary, at $112K in 2024 against $106K for the U.S.

Figure 40 What Do Illinois's Faculty Earn, by Rank?

Average salary of full-time instructional faculty on 9/10-month contracts, by academic rank, 2024 dollars (CPI-U). Data from NCES, IPEDS Human Resources.

Full-time instructional faculty on 9/10-month contracts at Illinois's institutions earned an average of $112K in 2024 (2024 dollars), 6% above the U.S. ($106K); the state ranks 11th of 51. By rank (2024): professors $154K, associate professors $107K, assistant professors $94.1K, instructors $72.6K, lecturers $74.7K.

Illinois's institutions had 28.6K full-time instructional staff in 2024, roughly flat since 2015. Average salary across all ranks is down 4% since 2016.

$112K

Average faculty salary, 2024

U.S. **$106K** · **11th** of 51 · −3.9% since 2016

SECTION 15 · FACULTY

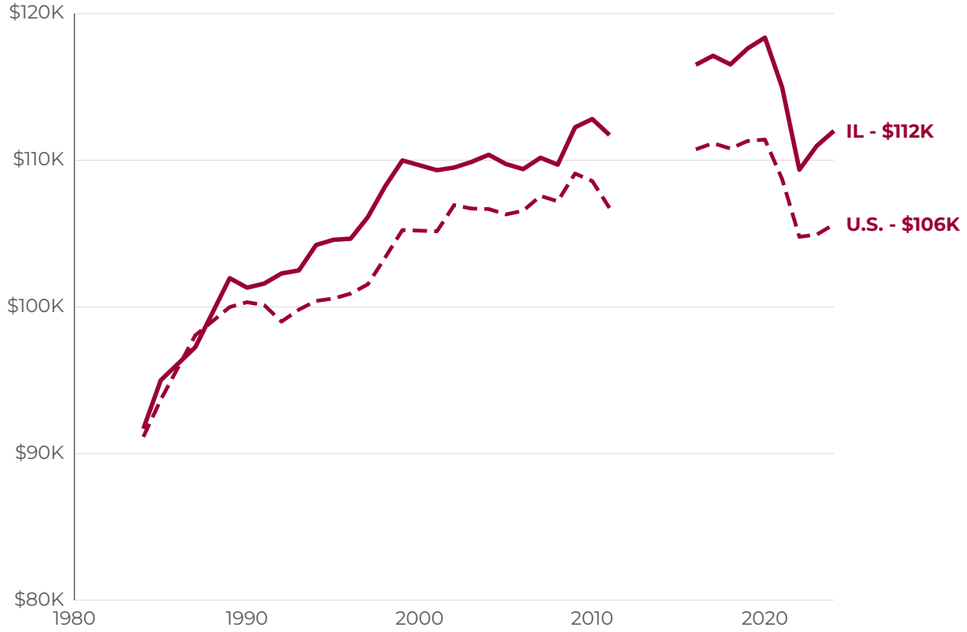

What Do Illinois's Faculty Earn, and How Many Hold Tenure?

The line follows the average salary of full-time instructional faculty on 9- or 10-month contracts at Illinois's degree-granting institutions, all ranks combined, in 2024 dollars (CPI-U). The state is solid and the United States dashed.

Average salary. The figure was $112K in 2024, against $106K for the U.S., 11th among the states, up 0.9% from $111K in 2023 and down 3.9% since 2016, when it was $117K.

Full-time instructional staff. The number was 28.6K in 2024, up 1.0% from 28.3K in 2023 and down 0.4% since 2015, when it was 28.7K.

Figure 41 Average Faculty Salary

Full-time instructional faculty, 9/10-month, 2024 dollars. Data from NCES, IPEDS.

47%
Tenured, 2024

The bars divide Illinois's full-time instructional staff by tenure status in 2015, 2019 and 2024: tenured, on the tenure track, not on the tenure track (for example, lecturers on fixed-term contracts), and staff at institutions with no tenure system.

Tenured, share of full-time instructional staff. The share was 47% in 2024, down 0.9 points from 48% in 2023 and down 4.2 points since 2015, when it was 51%.

Figure 42 Tenure Status

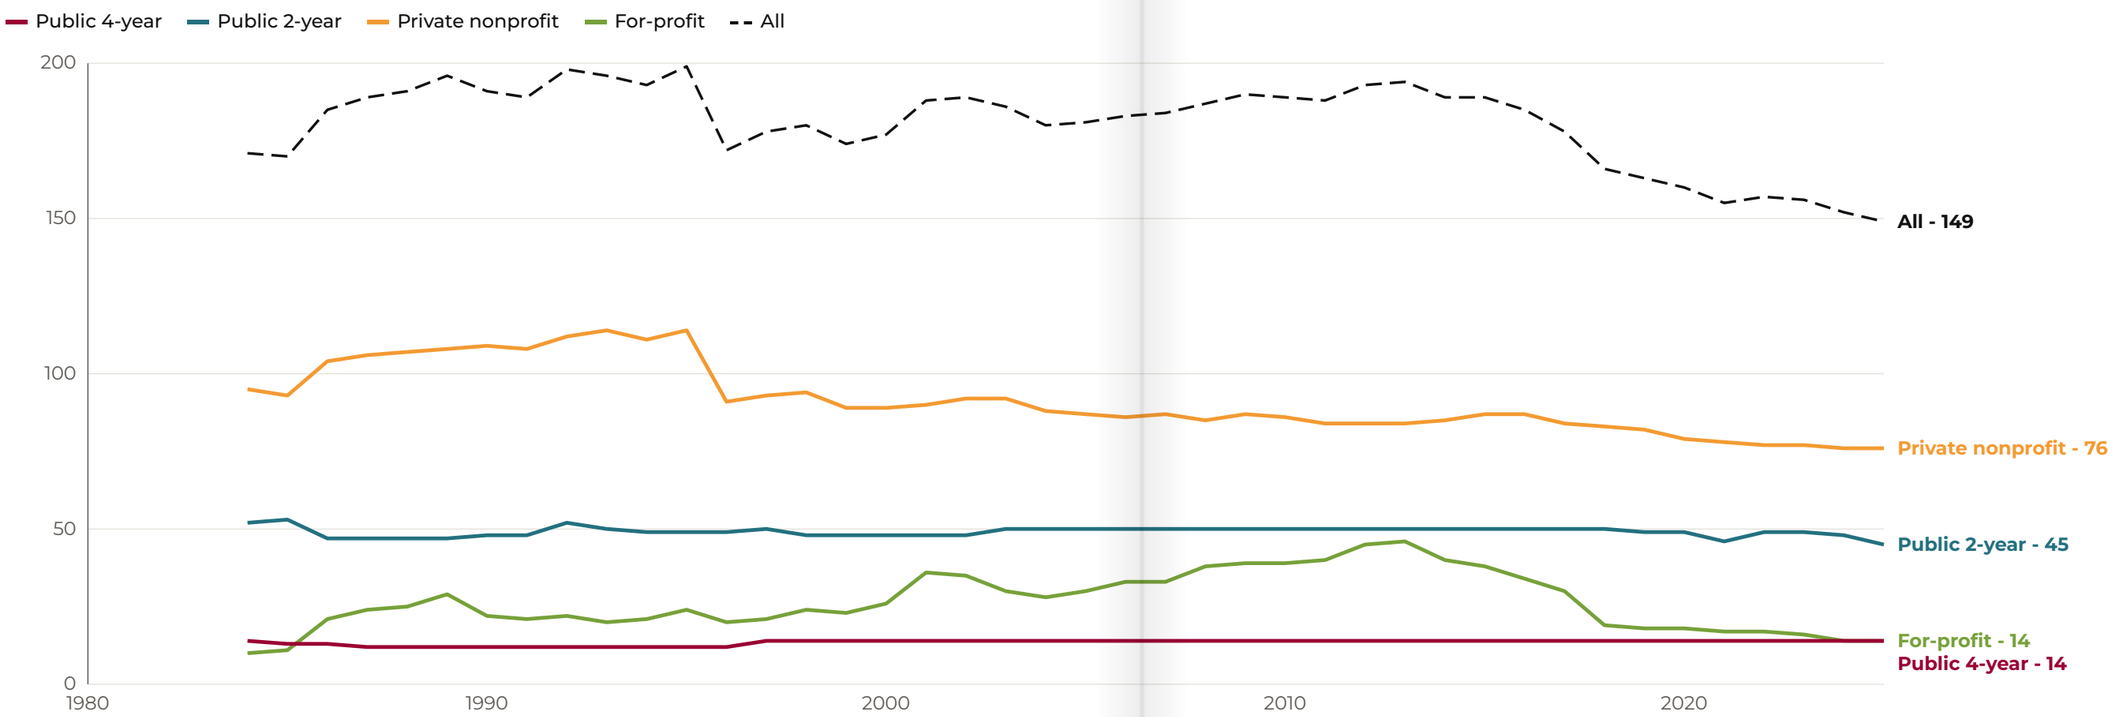

Full-time instructional staff by tenure status, 2015, 2019, 2024. Data from NCES, IPEDS.

SECTION 16

Institutions

Illinois ranks 7th of 51 on the share of enrollment at for-profit institutions, at 9.6% in 2024 against 5.5% for the U.S.

Figure 43 How Many Institutions Does Illinois Have?

Degree-granting institutions by sector. Data from NCES, IPEDS.

Illinois has 149 degree-granting institutions:14 public 4-year, 45 public 2-year, 76 private nonprofit, 14 for-profit (2025).

The number of institutions is down 21% since 2015. 62% of students attend public institutions and 9.6% attend for-profit ones.

SECTION 16 · INSTITUTIONS

Which Institutions Lead in Illinois?

The table ranks institutions in Illinois by the STEM master's degrees and research doctorates they awarded to international students in 2025, the two counted together. The share columns give international students' share of each institution's STEM degrees at that level.

Largest. University of Illinois Urbana-Champaign (1.54K international STEM master's degrees and 370 doctorates), Illinois Institute of Technology (1.5K international STEM master's degrees and 30 doctorates), and University of Chicago (554 international STEM master's degrees and 131 doctorates) awarded the most.

Table 7 Which Institutions Train the Most International STEM Graduates?

Institution	STEM total	STEM master's	Int. share	STEM doctorates	Int. share
University of Illinois Urbana-Champaign Champaign · Public 4-year	**1.91K**	1.54K	53%	370	60%
Illinois Institute of Technology Chicago · Private nonprofit	**1.52K**	1.5K	86%	30	75%
University of Chicago Chicago · Private nonprofit	**685**	554	60%	131	54%
Northwestern University Evanston · Private nonprofit	**678**	551	57%	127	40%
University of Illinois Chicago Chicago · Public 4-year	**527**	418	71%	109	56%
DePaul University Chicago · Private nonprofit	**400**	396	63%	4	67%
University of Illinois Springfield Springfield · Public 4-year	**349**	349	74%	–	–
Eastern Illinois University Charleston · Public 4-year	**328**	328	89%	–	–

The table lists Illinois's largest degree-granting institutions by fall 2024 headcount enrollment, with the international share of graduate students, STEM bachelor's degrees awarded in 2025, the six-year graduation rate and the admission rate (a dash where the institution admits all applicants or does not report one).

Largest. The three largest were University of Illinois Urbana-Champaign (59.2K students), University of Illinois Chicago (33.9K students), and Chamberlain University-Illinois (32.9K students).

Table 8 What Are Illinois's Largest Institutions?

Institution	Enrollment	Int. share, grad	STEM bachelor's	Six-year grad rate	Admit rate
University of Illinois Urbana-Champaign	**59.2K**	35%	4.2K	85%	42%
University of Illinois Chicago	**33.9K**	21%	1.82K	62%	77%

Loyola University Chicago	**17.4K**	5.9%	633	75%	82%

Fall 2024 enrollment; degrees 2025. Data from NCES, IPEDS.

NOTES

About These Data

International students

U.S. nonresidents on temporary visas, as IPEDS defines them. IPEDS does not record country of citizenship. Permanent residents count with U.S. citizens.

STEM

CIP families 03, 04, 11, 14, 15, 26, 27 and 40. Doctorates are research and scholarship doctorates; professional doctorates appear only in the degree-count figure. Degrees are first majors only.

Universe

Degree-granting institutions located in the state; Title IV participants from 1996. Geography is the institution's location, not the student's home. Enrollment is fall headcount.

Migration

First-time degree-seeking undergraduates by home state, reported in even years before 2001 and every year since; odd years with incomplete reporting are omitted. Net migration is students arriving from other states minus residents leaving, per 100 resident first-time students.

Money

Tuition, appropriations, revenue and faculty salaries are in 2024 dollars using the CPI-U. Research funding (HERD, Federal Funds, USAspending), wages and the NAFSA economic contribution are nominal dollars, and are labeled so. Appropriations and revenue are per full-time-equivalent student at public institutions; the tuition share divides net tuition by net tuition plus state and local appropriations.

Race and ethnicity

IPEDS did not collect race and ethnicity in every year before 2010, and categories changed in 2008–2010; “Two or more” exists only from then.

Countries of citizenship

From DHS SEVIS by the Numbers: active F-1 and M-1 student records in the month named, at every level from primary school to doctorate, by the state of the school. IPEDS records only whether a student is a U.S. nonresident, not where they come from. SEVIS counts are monthly snapshots and are not directly comparable with IPEDS fall enrollment or degree counts. Year-to-year comparisons use one fall snapshot per year (the month closest to November).

Peers

Comparison states are the four closest in total fall enrollment, measured proportionally: a state 1.5 times as large counts as near as one two-thirds the size.

Sources

IPEDS (National Center for Education Statistics) is the backbone: Institutional Characteristics, Fall Enrollment, Completions, Graduation Rates, Finance, Human Resources and Admissions, 1980–2025, harmonized into a state panel. The profile also draws on NAEP, NSF's Survey of Graduate Students and Postdoctorates, Survey of Earned Doctorates, HERD and Federal Funds surveys, USAspending.gov, DHS SEVIS by the Numbers and ICE SEVIS releases, the Department of Labor's Office of Foreign Labor Certification and BLS wage data, the USCIS H-1B Employer Data Hub, the Census Bureau's American Community Survey and Post-Secondary Employment Outcomes, USPTO PatentsView, and other federal sources; every figure names its source, and the Sources page lists them in full. Generated November 2026.

NOTES

How the Numbers Are Counted

Ranks

Ranks are among the 50 states and the District of Columbia (1 = highest value, whether or not a high value is good). Where fewer than 51 report, the count is given ("23rd of 33").

Sectors

Sectors are as IPEDS classifies institutions each year. IPEDS moves a whole institution to "public, 4-year or above" once it awards any bachelor's degree, so community colleges that began offering applied bachelor's degrees carry all of their students into the public 4-year sector. Sector series (enrollment shares, public 4-year tuition, graduation rates by sector) reflect these moves.

Research doctorates

Two counts appear. IPEDS counts degrees institutions report as "doctor's degree, research/scholarship", which includes some practice-oriented degrees such as many Ed.D.s; the NSF Survey of Earned Doctorates counts research doctorate recipients and is smaller. Each figure names which it uses. "STEM master's per STEM research doctorate" divides IPEDS STEM master's degrees by IPEDS STEM research doctorates.

Engineering

"Engineering" alone is CIP 14. Where engineering technology (CIP 15) is added, the label says "engineering & eng. technology".

Graduation rates

IPEDS graduation rates follow first-time, full-time students and count only those who finish at the institution where they started, so they leave out part-time starters and students who transfer and finish elsewhere.

International students in SEVIS

SEVIS counts active F-1 and M-1 records, which include graduates on Optional Practical Training (up to 36 months for STEM graduates, 12 for others), so STEM shares run high. STEM follows the DHS STEM Designated Degree Program List, which is broader than the eight CIP families above, and DHS draws its STEM pages on a different basis from its all-student pages, so a country's STEM count can exceed its all-level count.

Visas and green cards

DOL labor condition applications (H-1B positions) are counted by worksite and include renewals and job changes; USCIS approvals are counted by the employer's address and split into new and continuing. PERM certifications are the employer's step toward a green card.

Patents

Patents are counted by the owner's (assignee's) location, not where inventors live; a company headquartered in another state takes its patents there.

Years

Each measure uses its latest year, so years differ across a page; every figure, table and statement gives its year, and lines that stop early are labeled with their last year.

Foreign-born share of STEM workers with a graduate degree	39%	**42%**[2024]	+2.8 pp ▲	41%	+2.2 pp ▲	#7	[12]
Foreign-born share of STEM workers with a doctorate	40%	**50%**[2024]	+10.0 pp ▲	47%	+0.9 pp ▲	#9	[12]
Noncitizen share of STEM workers	12%	**12%**[2024]	+0.6 pp ▲	11%	+0.7 pp ▲	#8	[12]
STEM workers born abroad who arrived in the last 10 years	8.2%	**8.3%**[2024]	+0.1 pp ▲	7.5%	+0.3 pp ▲	#7	[12]
Share of foreign-born STEM workers born in India	33%	**31%**[2024]	−2.2 pp ▼	28%	+0.7 pp ▲	#14	[12]
Foreign-born share of residents	14%	**16%**[2025]	+1.4 pp ▲	15%	+1.3 pp ▲	#12	[12]
Foreign-born share of graduate-degree holders, 25+	19%	**22%**[2025]	+3.5 pp ▲	21%	+2.8 pp ▲	#9	[12]
STEM jobs, employer survey	314K	**353K**[2025]	+12% ▲	10.4M	+26% ▲	#10	[10]
STEM jobs concentration vs the U.S., location quotient	0.90	**0.87**[2025]	0.0	1.00	0.0	#31	[10]
Mean annual STEM wage, nominal, nominal dollars	$83.9K	**$115K**[2025]	+37% ▲	$120K	+38% ▲	#16	[10]
Median software developer wage, nominal, nominal dollars	$102K[2019]	**$132K**[2025]	+30% ▲	$136K	+26% ▲	#16	[10]
Software developer jobs	36.3K	**56.3K**[2025]	+55% ▲	1.69M	+48% ▲	#8	[10]
Mean annual wage, all occupations, nominal, nominal dollars	$50K	**$71.1K**[2025]	+42% ▲	$69.8K	+44% ▲	#16	[10]
Patents granted to assignees in the state	5.51K	**4.68K**[2025]	−15% ▼	135K	−0.6% ▼	#6	[22]
Share of U.S.-assignee patents	4.1%	**3.5%**[2025]	−0.6 pp ▼	–	–	#6	[22]
Share of the state's patents in digital technologies	20%	**30%**[2025]	+10.3 pp ▲	43%	+1.6 pp ▲	#14	[22]
Share of the state's patents in life sciences	13%	**12%**[2025]	−1.4 pp ▼	17%	+0.4 pp ▲	#37	[22]

Superscript years mark the year observed; changes since 2015 start from 2015 or the first later year with data. Rank is among the 50 states and DC (1 = highest). "pp" is percentage points. Dollars are 2024 dollars (CPI-U) unless the measure is labeled nominal. Counts and dollars are rounded to three significant figures (K, M, B). Arrow colors show direction only. Source numbers refer to the list of sources that follows the tables.

ILLINOIS – BY THE NUMBERS (CONTINUED)

Measure	2015	Latest	Change since 2015	U.S., latest	U.S. change since 2015	Rank	Source
STEM WORKFORCE AND INNOVATION (CONTINUED)							
Share of the state's patents in semiconductors	1.7%	**1.0%**[2025]	−0.6 pp ▼	2.9%	−1.7 pp ▼	#18	[22]
Women's share of inventors on the state's patents	9.8%	**12%**[2025]	+2.6 pp ▲	14%	+3.4 pp ▲	#21	[22]
