# Authors

**Emerson Victoria Johnston** is a research assistant with the Hoover Institution's Technology Policy Accelerator. A Knight-Hennessy Scholar, she holds a master's in international policy from Stanford University, and is on leave from its master's program in the history of science, technology, environment, and medicine.

**Dr. Amy Zegart** is the Morris Arnold and Nona Jean Cox Senior Fellow at the Hoover Institution, director of Hoover's Technology Policy Accelerator, and a senior fellow and associate director at Stanford University's Institute for Human-Centered Artificial Intelligence.

Data come from the Integrated Postsecondary Education Data System (IPEDS), the Department of Homeland Security's SEVIS by the Numbers, the National Assessment of Educational Progress, NSF's Survey of Graduate Students and Postdoctorates and Survey of Earned Doctorates, the Department of Labor's Office of Foreign Labor Certification, the USCIS H-1B Employer Data Hub, the Census Bureau's American Community Survey and USPTO patent data via PatentsView, processed in Python; every figure and table is generated from those sources, and each one names its source.

# About This Profile

This profile is a companion to *The 2026 US Talent Report: Benchmarking America's STEM Pipeline Amid the Great Talent Competition*. It applies the report's measures to Washington: the students the state develops at home, those it draws from abroad, and how both compare with the nation and with the states closest to it in size.

Degrees, enrollment, prices, outcomes and faculty come from IPEDS, the federal census of U.S. colleges and universities, harmonized across 1980–2025. Countries of citizenship come from SEVIS by the Numbers, the Department of Homeland Security's monthly count of active F-1 and M-1 students. Each figure names its source. Peer states are the four closest in total fall enrollment.

# How to Cite this Profile

Emerson V. Johnston and Amy Zegart, “The 2026 Washington Talent Profile,” Technology Policy Accelerator, Hoover Institution, and the Institute for Human-Centered Artificial Intelligence, Stanford University, Stanford, CA, November 2026.

# Public Data and Tools

The data behind every chart come from federal sources: the Integrated Postsecondary Education Data System (IPEDS), published by the National Center for Education Statistics, as the backbone, together with NAEP, NSF's surveys of graduate students, doctorates and research funding, USAspending.gov, DHS and ICE SEVIS data, the Department of Labor, USCIS, the Census Bureau's American Community Survey and Post-Secondary Employment Outcomes, and USPTO PatentsView. Each figure names its source, and the Sources page lists all of them. An interactive version of this profile accompanies the report.

AT A GLANCE

# What Washington's numbers say

1. **International students earn 39% of Washington's STEM master's degrees,** 12.7 points below the U.S. (52%) in 2025, ranking 30th of 51 on dependence. The share is 34% for STEM research doctorates (U.S. 43%) and 8.0% for STEM bachelor's (U.S. 6.6%).
2. **Washington awarded 1.22K STEM master's degrees to international students in 2025,** 1.0% of the U.S. total and 22nd of 51 among states. Since 2015 the count changed 2.5×, against 2.2× nationally.
3. **The heaviest dependence is in math & statistics,** where international students earned 53% of master's degrees (246 degrees; U.S. 55%). One STEM field with at least 50 master's graduates is majority-international.
4. **Among states of similar size,** Washington ranks 5th of 5 on the international share of STEM master's: Washington 39%, Wisconsin 55%, Tennessee 50%, Missouri 83%, Alabama 43%.
5. **85% of Washington's first-time students in fall 2024 were state residents** and 2.3% came from abroad. More residents left for other states (14.8K) than students arrived from them (6.31K), a net loss of 8.54K; the top destination for those leaving was California.

# 39%

of the STEM master's degrees Washington awards go to international students (U.S. 52%).

SECTION 1

# International Dependence

Washington ranks 18th of 51 on the international share of all master's, at 20% in 2025 against 22% for the U.S.

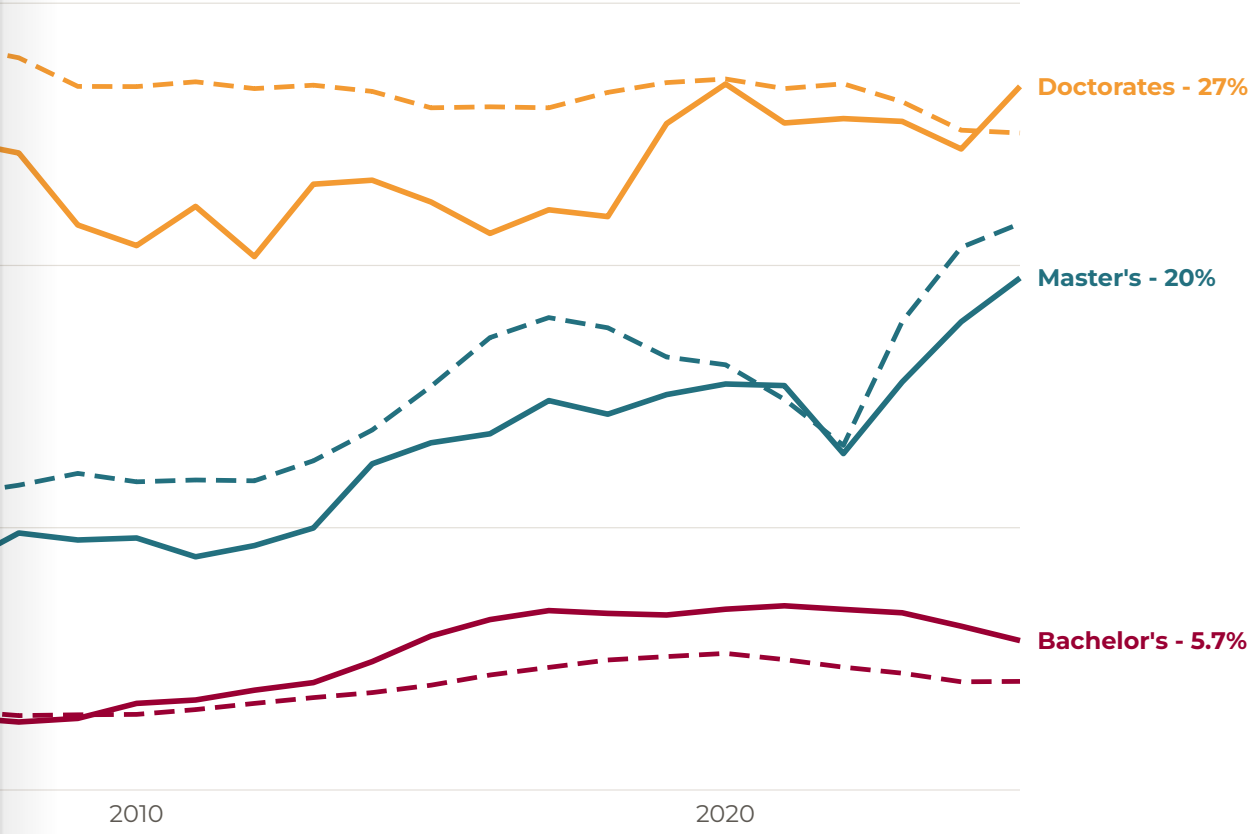

## Figure 1 What Share of Washington's Degrees Go to International Students?

International share of degrees awarded, all fields; state solid, U.S. dashed. Data from NCES, IPEDS Completions, 1985–2025

International students make up 16% of Washington's graduate enrollment and 4.1% of its undergraduates. Dependence climbs with each degree: 5.7% of bachelor's, 20% of master's and 27% of research doctorates go to international students.

In STEM the shares are higher still: 8.0% of STEM bachelor's, 39% of STEM master's and 34% of STEM doctorates. The state awards 1.0% of all U.S. international STEM master's, 22nd of 51.

SECTION 1 · INTERNATIONAL DEPENDENCE

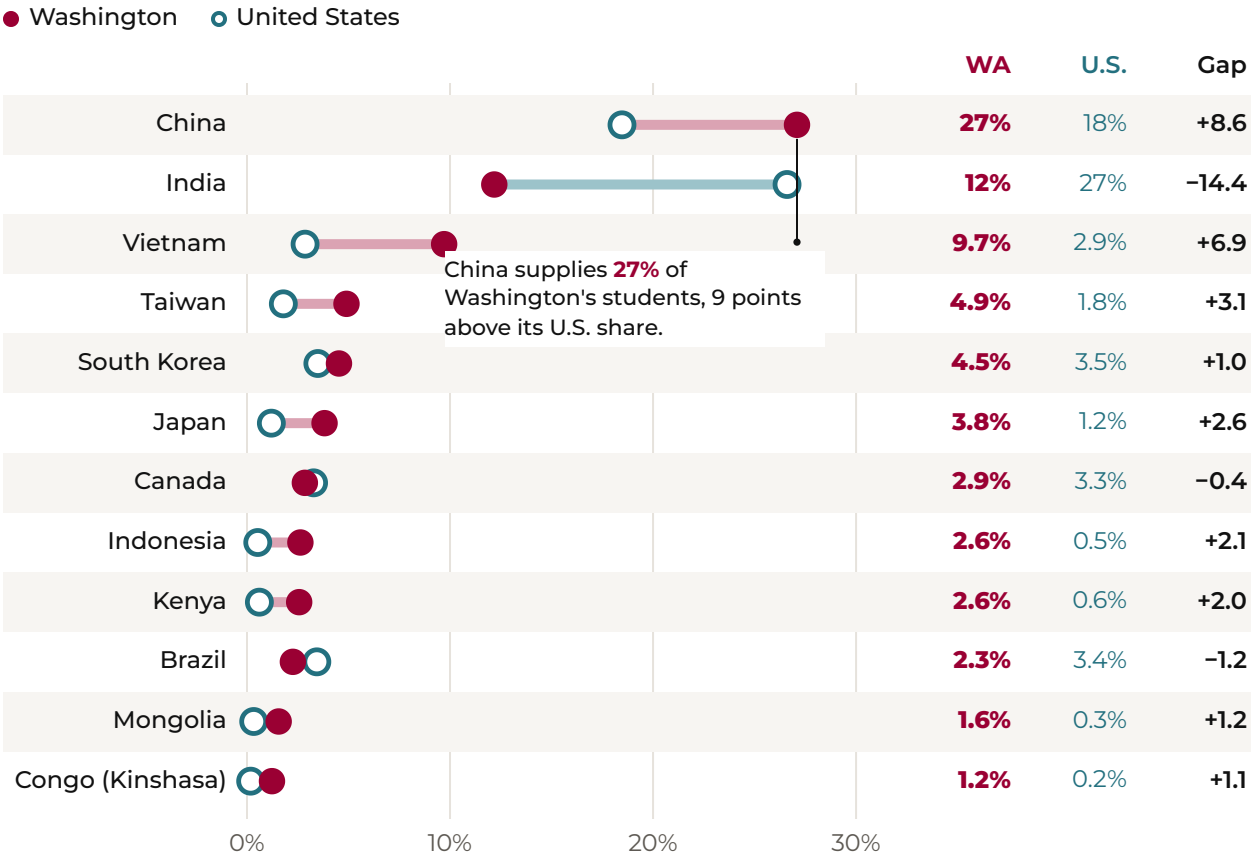

# How Does Washington's Mix of Countries Compare With the Nation's?

In October 2026, Washington had **21.4K** active F-1 and M-1 students, 19th among the 50 states and DC and **1.8%** of the U.S. total. They came from 175 countries.

China supplied **27%** of them, against 18% nationally, and India **12%**, against 27%. Vietnam (9.7%), Taiwan (4.9%), and South Korea (4.5%) followed.

Together the two largest countries supplied **39%** of the state's international students (U.S. 45%), 25th among the states, against 44% in 2015.

## Figure 3 Is Washington's Mix of Countries Like the Nation's?

d level of study, October 2026; the eight largest countries are shown. DHS does not draw its STEM pages on the same evel count for India (8.18K against 2.6K). Data from DHS, SEVIS by the Numbers, October 2026.

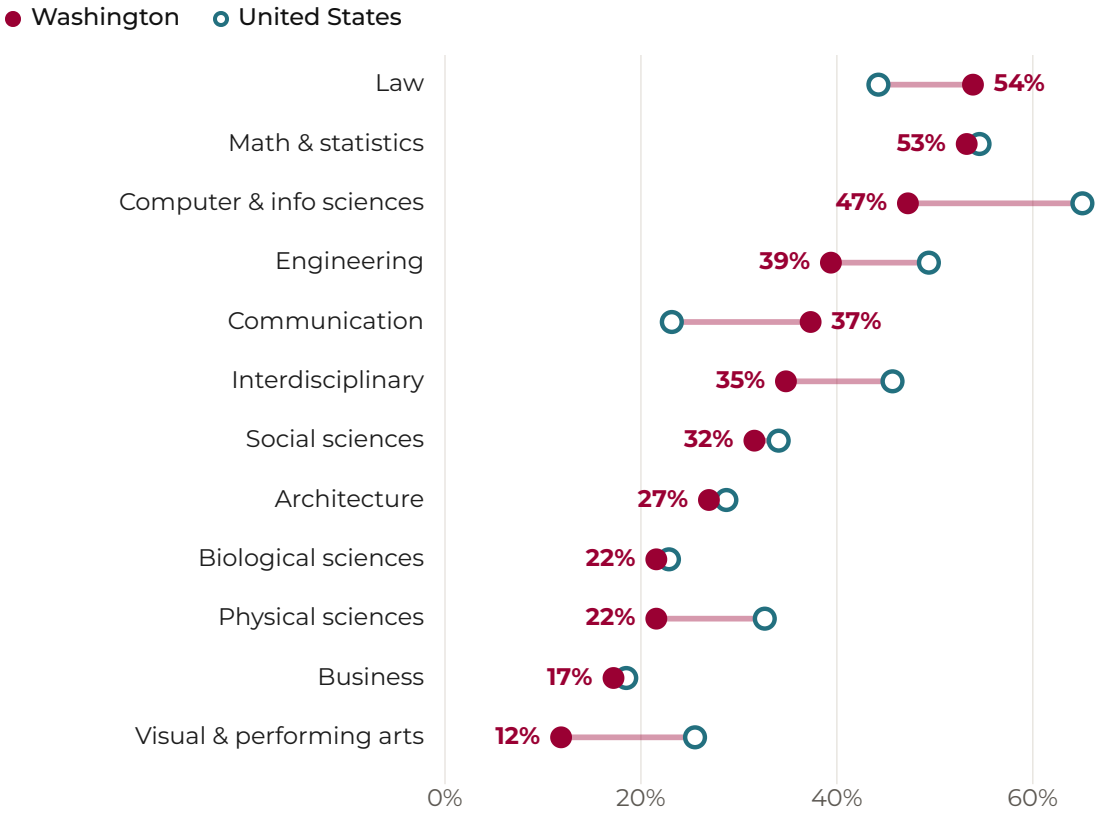

SECTION 1 · INTERNATIONAL DEPENDENCE

# How International Are Washington's Master's Fields?

Each row is a master's field with at least 30 graduates in Washington in 2025, ranked by the share of degrees earned by international students (U.S. nonresidents on temporary visas). The filled dot is the state's share; the open dot is the national share for the same field.

**Highest international shares.** International students earned the largest shares of master's degrees in law (54%, against 44% for the U.S.), math & statistics (53%, against 55% for the U.S.), and computer & info sciences (47%, against 65% for the U.S.).

## Figure 5 Which Master's Fields Depend Most on International Students?

International share of master's degrees by field, 2025; fields with 30+ graduates. Data from NCES, IPEDS Completions.

**20%**
Int. share of all master's, 2025
U.S. **22%** · **18th** of 51

**39%**
Int. share of STEM master's, 2025
U.S. **52%** · **30th** of 51

**47%**
Int. share of CS master's, 2025
U.S. **65%** · **32nd** of 47

The table gives the international share of degrees in each STEM field at three levels: Washington first, the United States after the slash. The master's column is highlighted. A dash means the state awarded no degrees in the field at that level.

**Highest international share among STEM master's fields.** International students earned 53% of the master's degrees in math & statistics, against 55% for the U.S.

**Fields with an international majority.** International students earned more than half of the master's degrees in one STEM field.

## Table 2 How International Is Each STEM Field?

| Field | Bachelor's | Master's | Doctorates |
|---|---|---|---|
| Computer & info sciences | 10.0% / 8.6% | **47% / 65%** | 47% / 56% |
| Engineering | 6.5% / 7.2% | **39% / 49%** | 52% / 55% |
| Engineering technology | 1.8% / 4.5% | **15% / 54%** | – / 42% |
| Math & statistics | 32% / 17% | **53% / 55%** | 39% / 53% |
| Physical sciences | 6.1% / 6.0% | **22% / 33%** | 25% / 38% |
| Biological sciences | 4.4% / 3.4% | **22% / 23%** | 17% / 23% |
| Natural resources | 2.7% / 2.0% | **4.9% / 17%** | 14% / 27% |
| Architecture | 4.7% / 7.3% | **27% / 29%** | – / 55% |

International share in Washington / U.S., 2025. Data from NCES, IPEDS Completions.

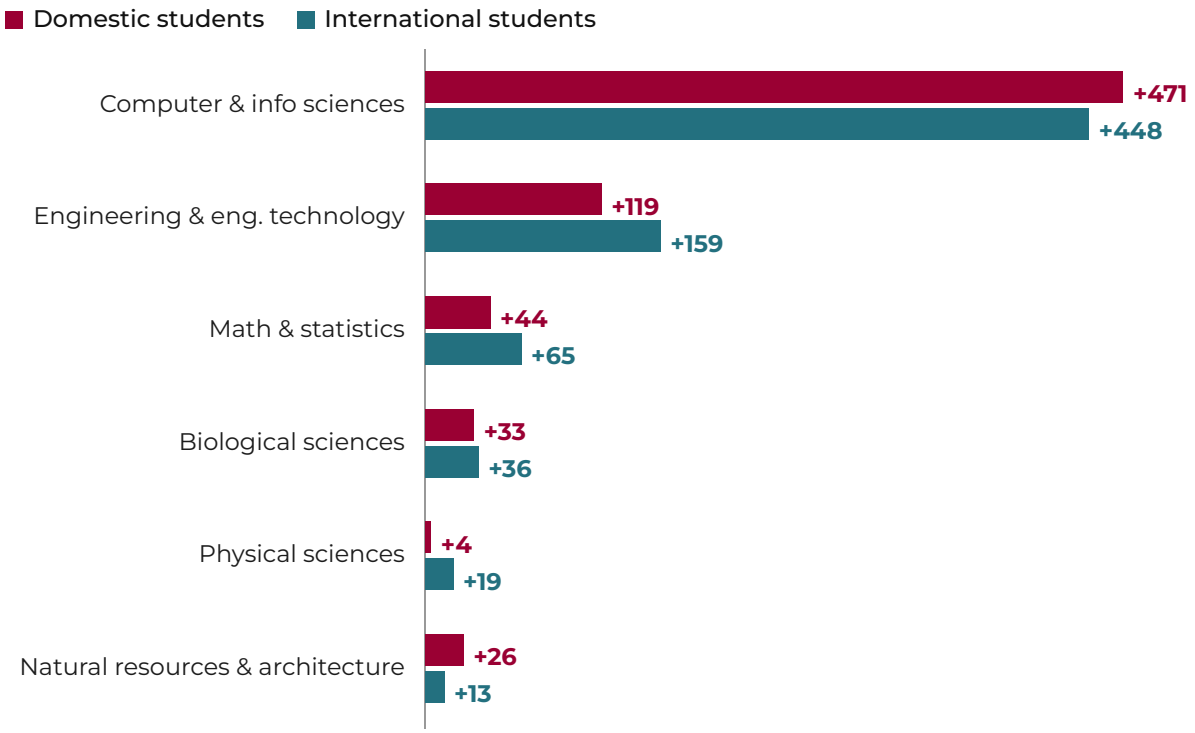

SECTION 1 · INTERNATIONAL DEPENDENCE

# How Has Washington's STEM Master's Output Grown?

Each pair of bars is the change in the number of STEM master's degrees awarded in Washington between 2015 and 2025 in one field: to domestic students (U.S. citizens and permanent residents) and to international students. Bars to the left of the axis are declines.

**STEM master's degrees.** The state awarded 3.1K in 2025 and 1.67K in 2015, a change of +740 for international students and +697 for domestic students.

## Figure 6 Where Did the STEM Master's Growth Come From?

Change in STEM master's degrees by field, 2015–2025. Data from NCES, IPEDS Completions.

**1.22K**
International STEM master's, 2025
U.S. **117K** · **22nd** of 51

**28%**
STEM share of master's, 2025

# H-1B Jobs and Green Cards

Washington ranks 3rd of 51 on certified H-1B positions, by worksite, at 83K in 2025 against 914K for the U.S.

## Figure 18 How Many Skilled-Visa Jobs and Green-Card Certifications Does Washington

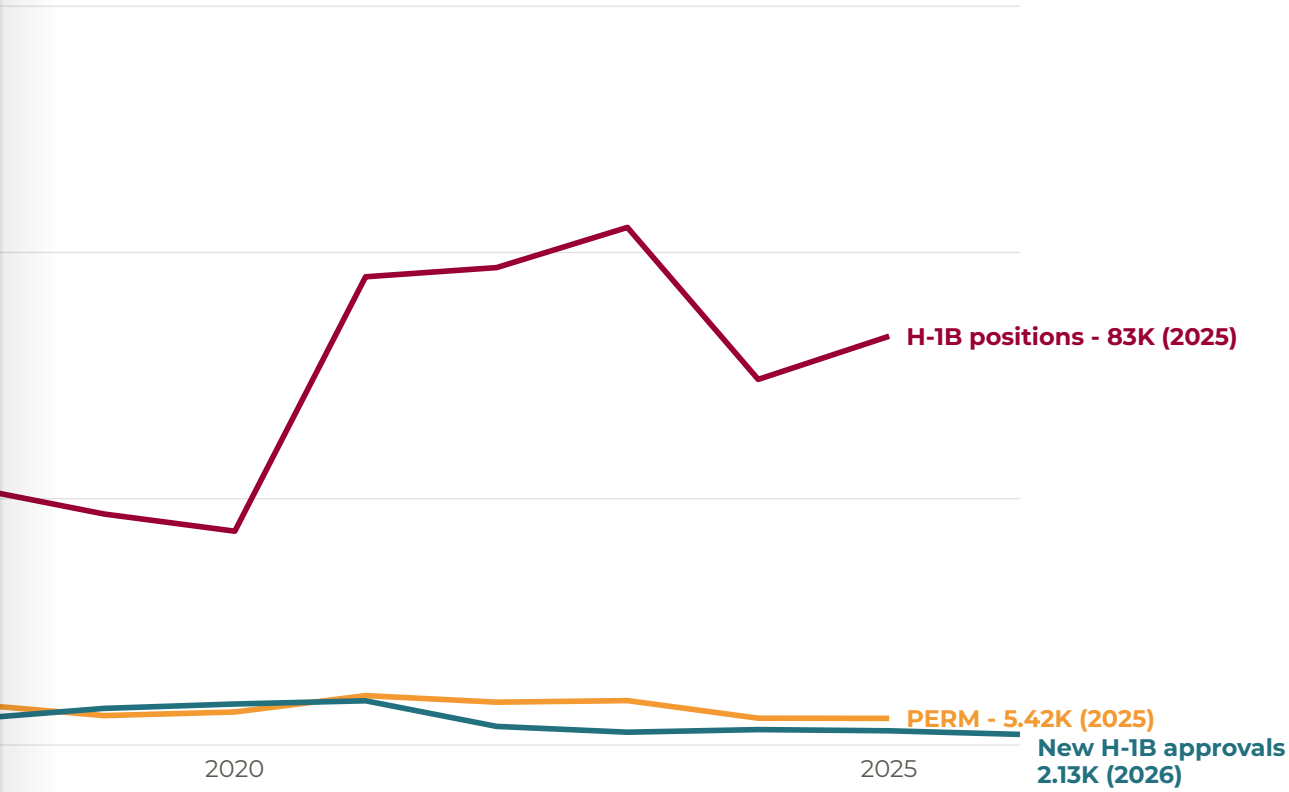

Certified H-1B positions on labor condition applications by worksite and certified PERM green-card applications, by fiscal from USCIS, H-1B Employer Data Hub).

Employers were certified for 83K H-1B positions at Washington worksites in FY2025, 3rd of 51 among the states. A labor condition application comes before the petition and covers renewals and job changes as well as new hires, by the worksite's state, so it runs well above approvals. USCIS approved 2.13K new H-1B petitions in FY2026 and 6.82K continuing ones, counted by the employer's address.

DOL certified 5.42K PERM applications, the employer's step toward an employment-based green card, for jobs in the state in FY2025. In FY2024, 11% were for workers still on F-1 student visas (U.S. 8.7%): the most direct link from classroom to permanent residence.

SECTION 12

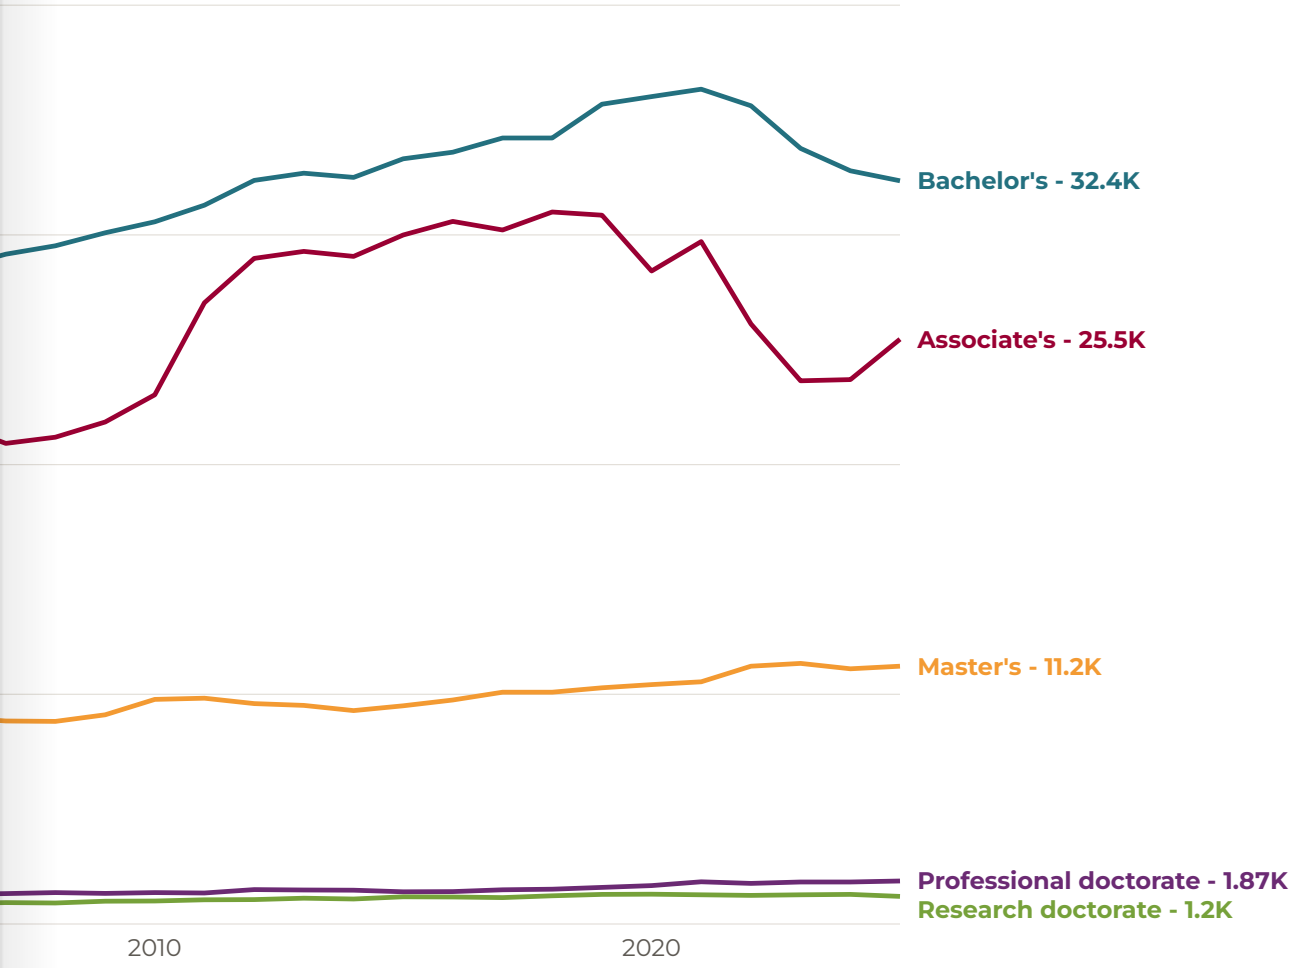

# Fields of Study

## Figure 27 How Many Degrees Does Washington Award?

Degrees awarded by level, first majors. Data from NCES, IPEDS Completions.

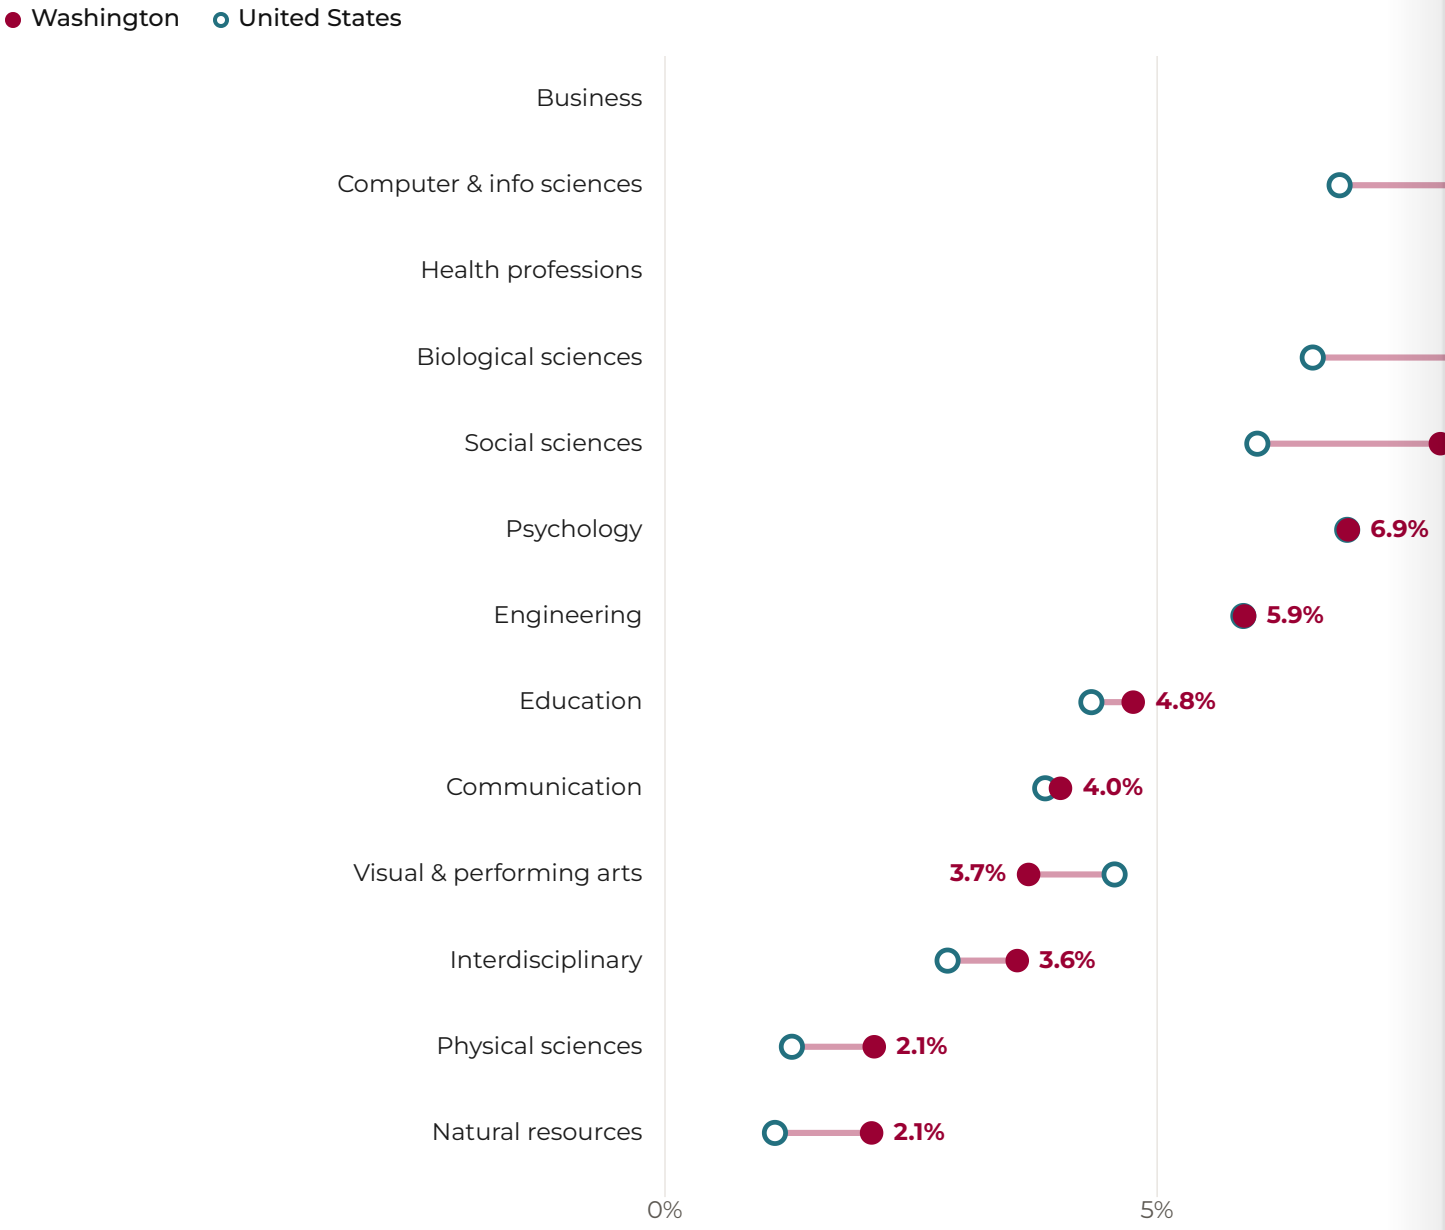

In 2025, Washington's institutions awarded 25.5K associate's degrees, 32.4K bachelor's degrees, 11.2K master's degrees, 1.2K research doctorate degrees, 1.87K professional doctorate degrees.

Since 2015: associate's down 15%; bachelor's down 3%; master's up 18%; research doctorate roughly flat; professional doctorate up 33%. The state awards 11.0 bachelor's degrees for every 100 undergraduates (U.S. 12.3).

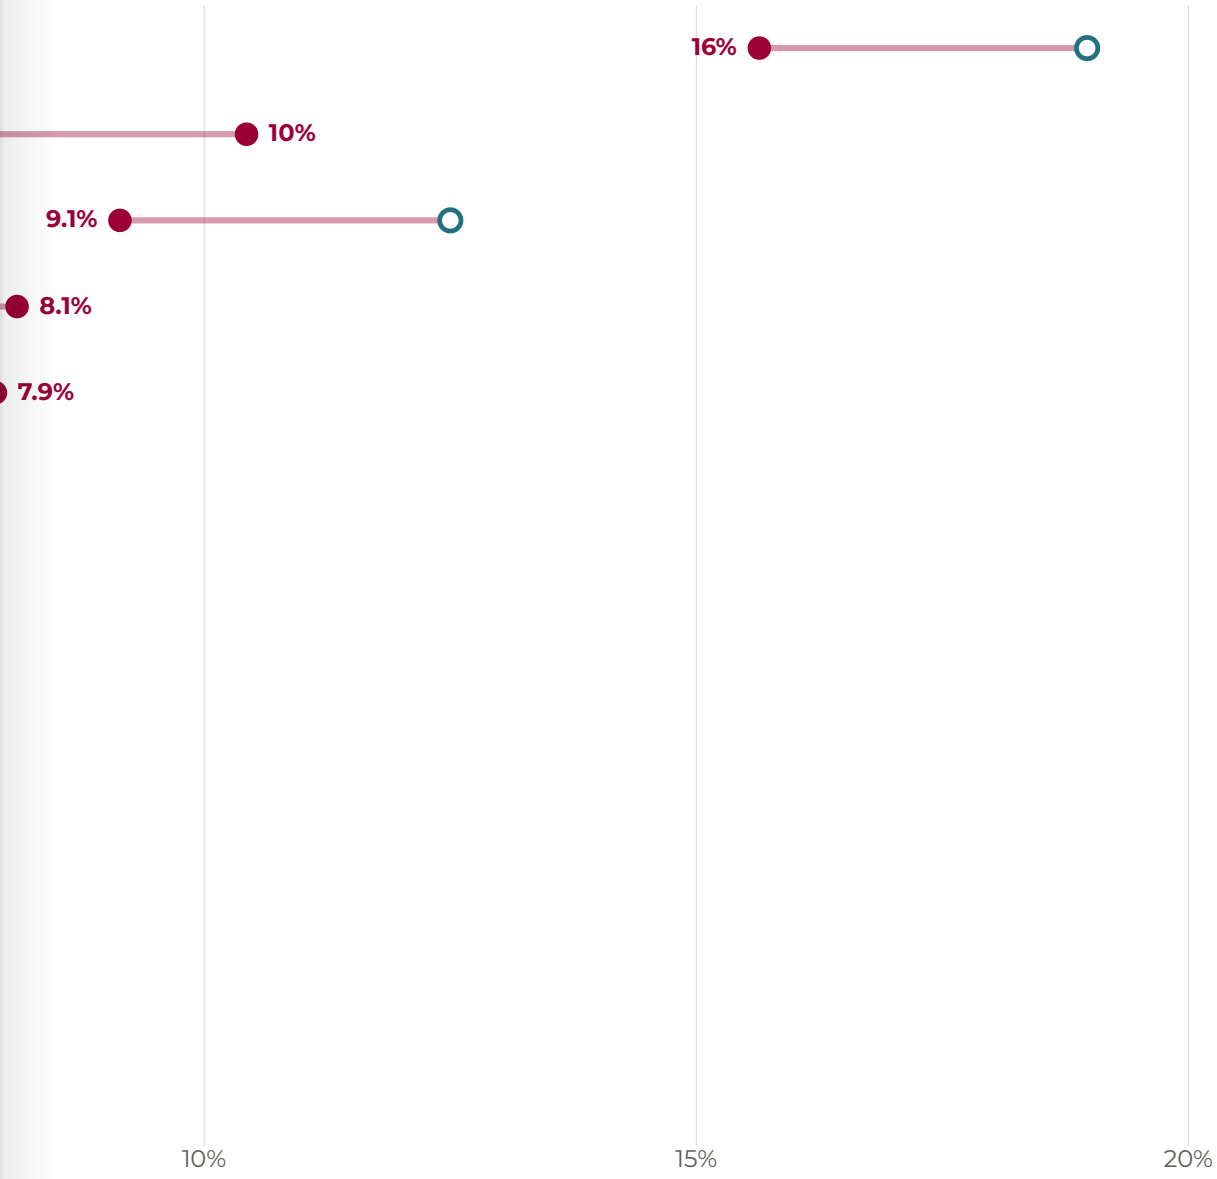

## Figure 28 What Do Washington's Bachelor's Graduates Study?

Share of bachelor's degrees by field, 2025. Data from NCES, IPEDS.

Washington's largest bachelor's fields are business (16%; U.S. 19%), computer & info sciences (10%; U.S. 6.9%), health professions (9.1%; U.S. 13%).

Relative to the nation, Washington's bachelor's degrees are most concentrated in area & ethnic studies (2.44× the U.S. share), natural resources (1.88× the U.S. share), law (1.83× the U.S. share).

## Figure 30 How Has Washington's Bachelor's Field Mix Changed?

Share of bachelor's degrees in the largest fields. Data from NCES, IPEDS Completions.

Since 2015, computer & info sciences has gained the most ground, 6.4 points of the state's bachelor's degrees, while social sciences lost the most (2.3 points).

The chart follows the share of bachelor's degrees in each of the state's largest fields; smaller fields are grouped as other fields.

SECTION 12 · FIELDS OF STUDY

# Where Is Washington Specialized, and What Do Its Doctoral Graduates Study?

The location quotient divides a field's share of Washington's bachelor's degrees by its share of all U.S. bachelor's degrees in 2025. A quotient of 1.00 means the same share as the nation; 2.00 means twice the national share. The table lists the 10 fields with the highest quotients among fields with at least 50 degrees.

**Highest location quotients.** Area & ethnic studies (2.44, with 0.7% of the state's bachelor's degrees against 0.3% for the U.S.), natural resources (1.88, with 2.1% of the state's bachelor's degrees against 1.1% for the U.S.), and law (1.83, with 0.4% of the state's bachelor's degrees against 0.2% for the U.S.) had the highest quotients.

## Table 5 Where Is Washington Most Specialized?

| Field | Location quotient | State share | U.S. share | Degrees |
|---|---|---|---|---|
| Area & ethnic studies | **2.44** | 0.7% | 0.3% | 230 |
| Natural resources | **1.88** | 2.1% | 1.1% | 679 |
| Law | **1.83** | 0.4% | 0.2% | 139 |
| Languages | **1.74** | 1.0% | 0.6% | 326 |

SECTION 13 · STUDENTS AND MONEY

# How Are Washington's Public Institutions Funded, and What Do They Produce?

The bars give each source's share of the core revenue of Washington's public institutions, with the nation for comparison, and at right the dollars per full-time-equivalent (FTE) student it provides. Values are in 2024 dollars (CPI-U). Net tuition is tuition and fees after institutional discounts and allowances.

**Net tuition per FTE student.** The figure was $10.3K in FY2024, against $8.96K for the U.S., down 4.6% from $10.8K in FY2023 and down 6.2% since FY2015, when it was $11K.

## Figure 36 How Are Public Institutions Funded?

Share of core revenue per FTE student by source, public institutions, FY2024; dollars per FTE at right, 2024 dollars (CPI-U). Shares are of all five sources; the tuition share elsewhere in this profile divides net tuition by net tuition plus state and local appropriations only. Data from NCES, IPEDS Finance.

**$8K**
In-state tuition, public 4-year, 2023
U.S. **$9.71K** · **42nd** of 51

**$11.5K**
Appropriations per student, 2024
U.S. **$11.4K** · **19th** of 51

**47%**
Tuition share of tuition plus appropriations, 2024
U.S. **43%** · **24th** of 51

The table brings together five measures of what public higher education costs and what it produces in Washington: in-state tuition at public four-year institutions, state and local appropriations per full-time-equivalent student, tuition's share of public institutions' core revenue, the six-year bachelor's graduation rate, and the average full-time faculty salary.

**In-state tuition, public 4-year.** The figure was $8K in 2023, against $9.71K for the U.S., 42nd among the states, down 2.2% from $8.18K in 2022 and down 18% since 2015, when it was $9.72K.

## Table 6 Money and Results

| Measure | Year | Washington | U.S. | Rank | Change since 2015 |
|---|---|---|---|---|---|
| In-state tuition, public 4-year | 2023 | **$8K** | $9.71K | 42nd of 51 | −18% |
| Appropriations per student | 2024 | **$11.5K** | $11.4K | 19th of 51 | +70% |
| Tuition share of tuition plus appropriations | 2024 | **47%** | 43% | 24th of 51 | −14.7 pp |
| Six-year graduation rate | 2024 | **69%** | 65% | 10th of 51 | +0.2 pp |
| Average faculty salary | 2024 | **$102K** | $106K | 17th of 51 | −1.2% |

Rank among the 50 states and DC (1 = highest). Dollars in 2024 dollars (CPI-U). Data from NCES, IPEDS.

SECTION 14

# Student Outcomes

Washington ranks 2nd of 50 on the share of completion within 150% of normal time, 2-year institutions, at 69% in 2024 against 41% for the U.S.

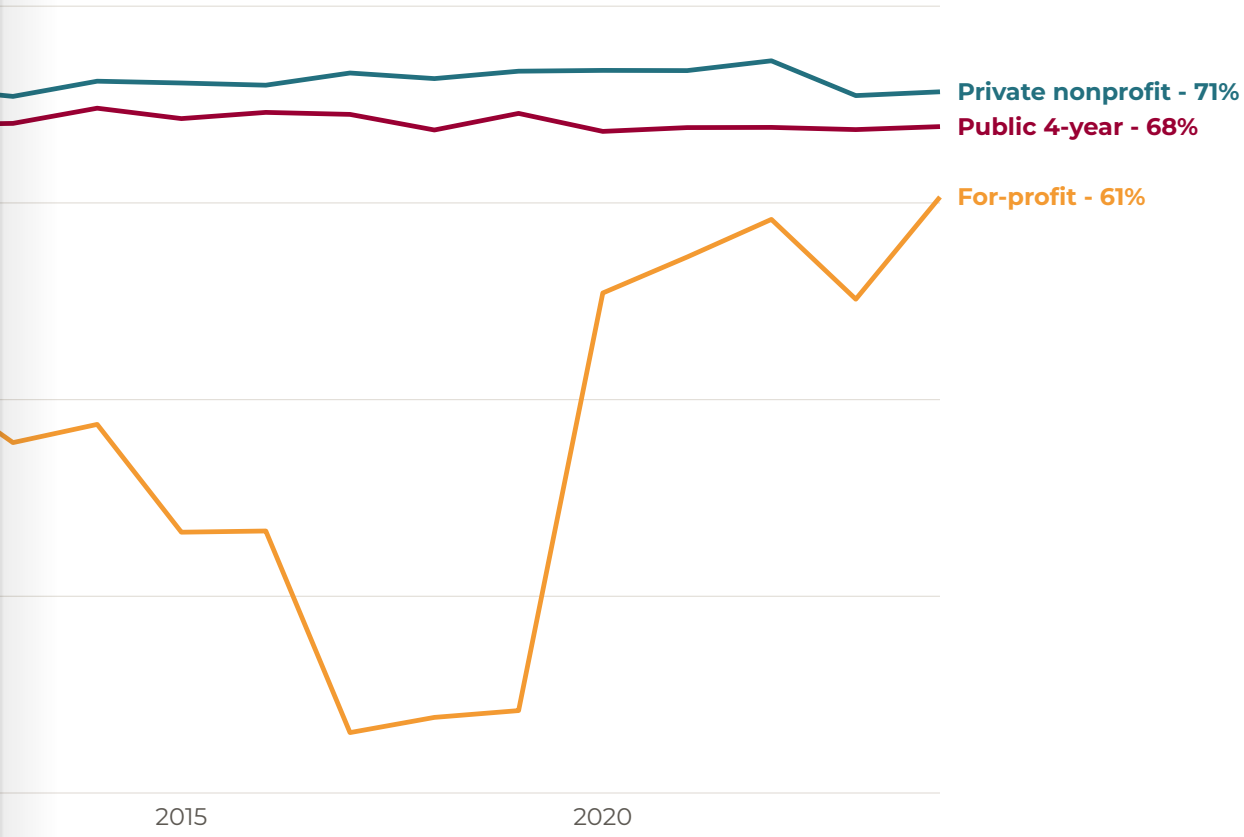

## Figure 37 How Do Graduation Rates Differ by Sector?

Six-year bachelor's graduation rate by sector of institution. Data from NCES, IPEDS Graduation Rates.

69% of students who started a bachelor's degree at a four-year institution in Washington graduated within six years (2024), 3.8 points above the U.S. (65%); the state ranks 10th of 51.

By sector: public 4-year 68%, private nonprofit 71%, for-profit 61%. At two-year institutions, 69% complete within 150% of normal time (U.S. 41%).

U.S. **12.3** · **42nd** of 51 · +0.9 since 2015

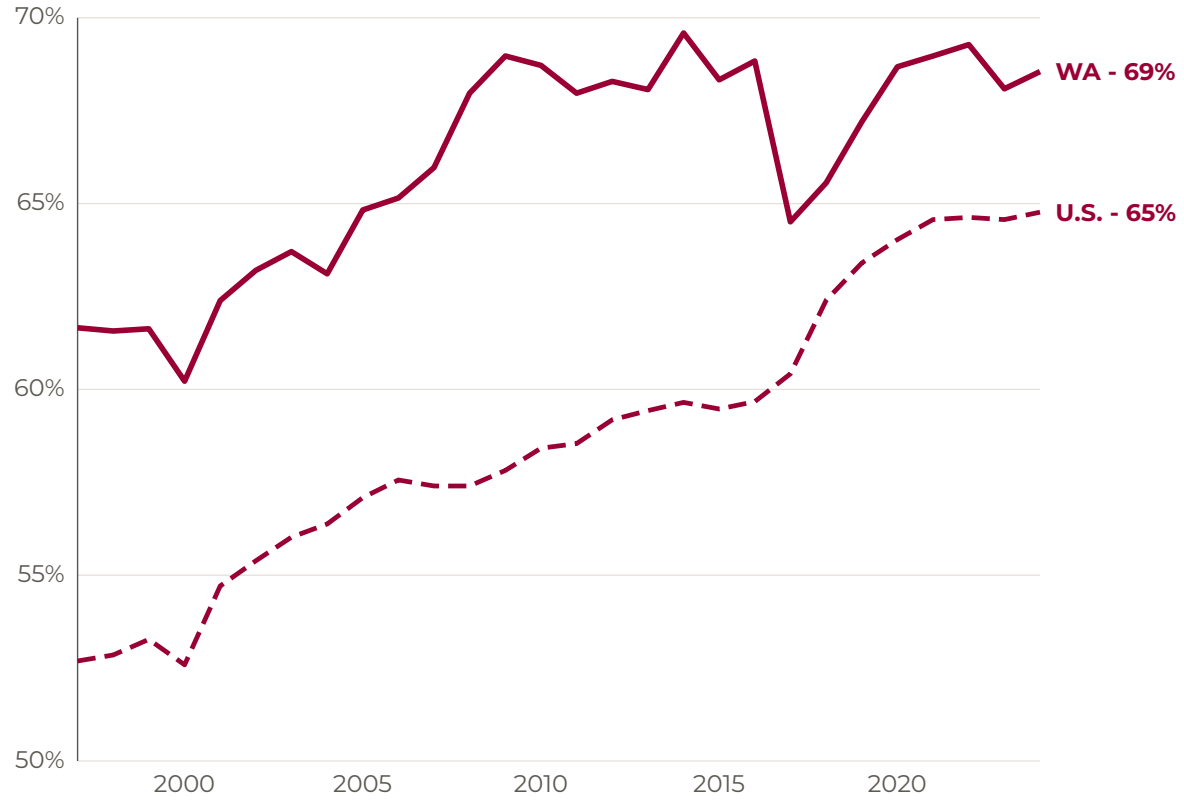

SECTION 14 · STUDENT OUTCOMES

# How Many of Washington's Students Graduate?

The line follows the share of first-time, full-time bachelor's-degree students at Washington's four-year institutions who graduated from the institution where they started within six years (150% of normal time). Each year is the cohort that entered six years earlier. The rate leaves out students who start part-time (32% of the state's students attend part-time, against 39% nationally) and students who transfer and finish elsewhere. The state is solid and the United States dashed.

**Six-year graduation rate.** The rate was 69% in 2024, against 65% for the U.S., up 0.5 points from 68% in 2023 and up 0.2 points since 2015, when it was 68%.

**Figure 38** Six-Year Bachelor's Graduation Rate

Four-year institutions; state solid, U.S. dashed. Data from NCES, IPEDS Graduation Rates.

**69%**
Six-year graduation rate, 2024
U.S. **65%** · **10th** of 51

**69%**
Two-year completion rate, 2024
U.S. **41%** · **2nd** of 50

**11.0**
Bachelor's per 100 undergraduates, 2025
U.S. **12.3** · **42nd** of 51

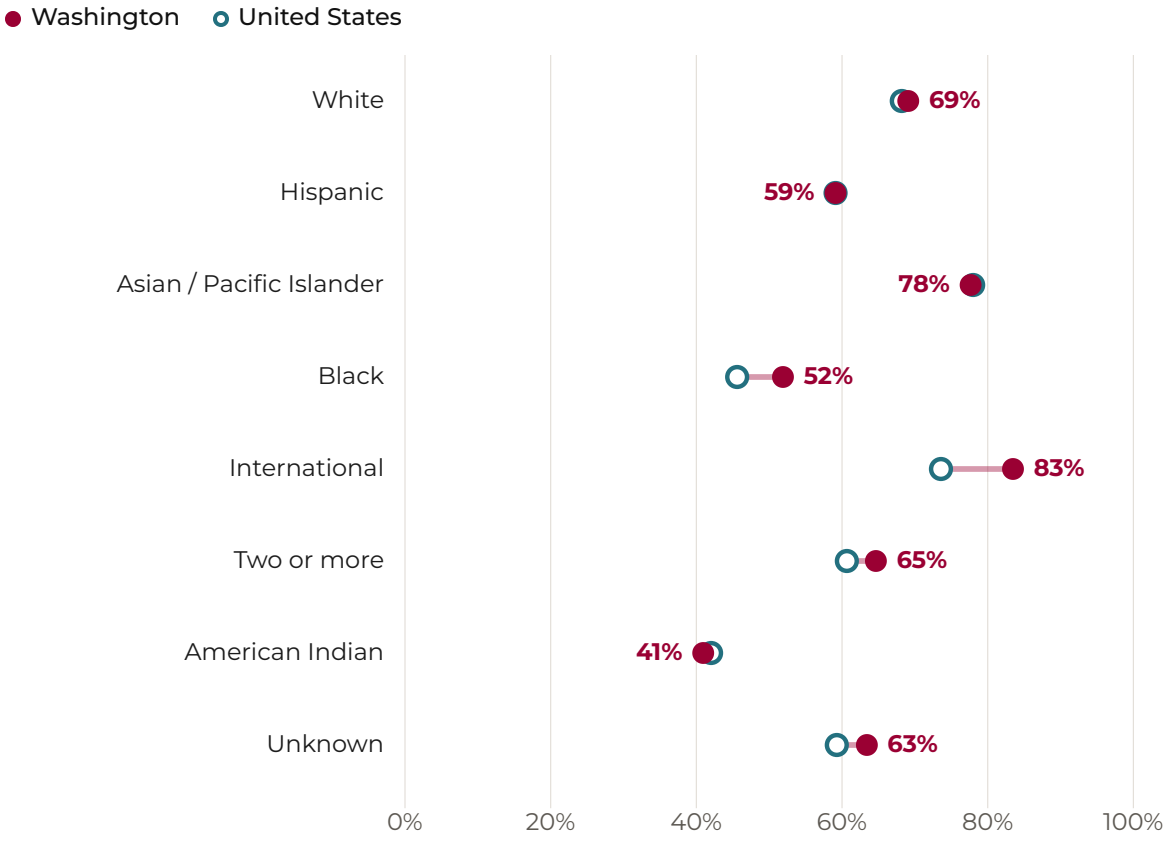

Each row is the six-year bachelor's graduation rate for one racial or ethnic group of students at Washington's four-year institutions (filled dot), against the national rate for the same group (open dot). Groups with fewer than 100 students in the cohort are left out.

**White.** The six-year rate was 69% in 2024, against 68% for the U.S.

**Hispanic.** The six-year rate was 59% in 2024, against 59% for the U.S.

**Asian / Pacific Islander.** The six-year rate was 78% in 2024, against 78% for the U.S.

## Figure 39 How Do Graduation Rates Differ by Race and Ethnicity?

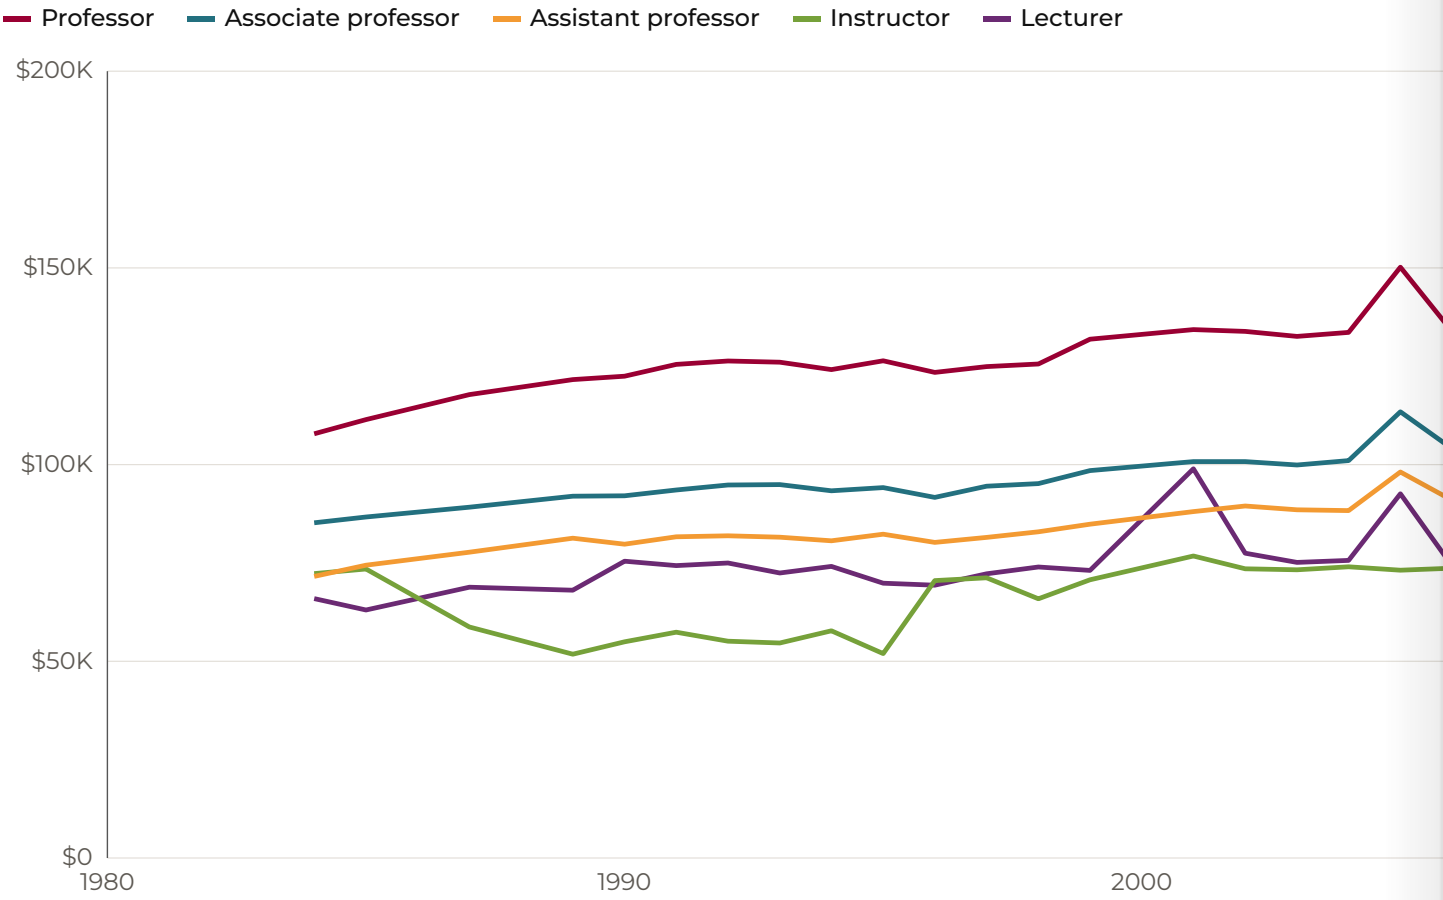

Six-year rate, 2024; groups with 100+ students. Data from NCES, IPEDS.

SECTION 15

# Faculty

Washington ranks 17th of 51 on the average full-time faculty salary, at $102K in 2024 against $106K for the U.S.

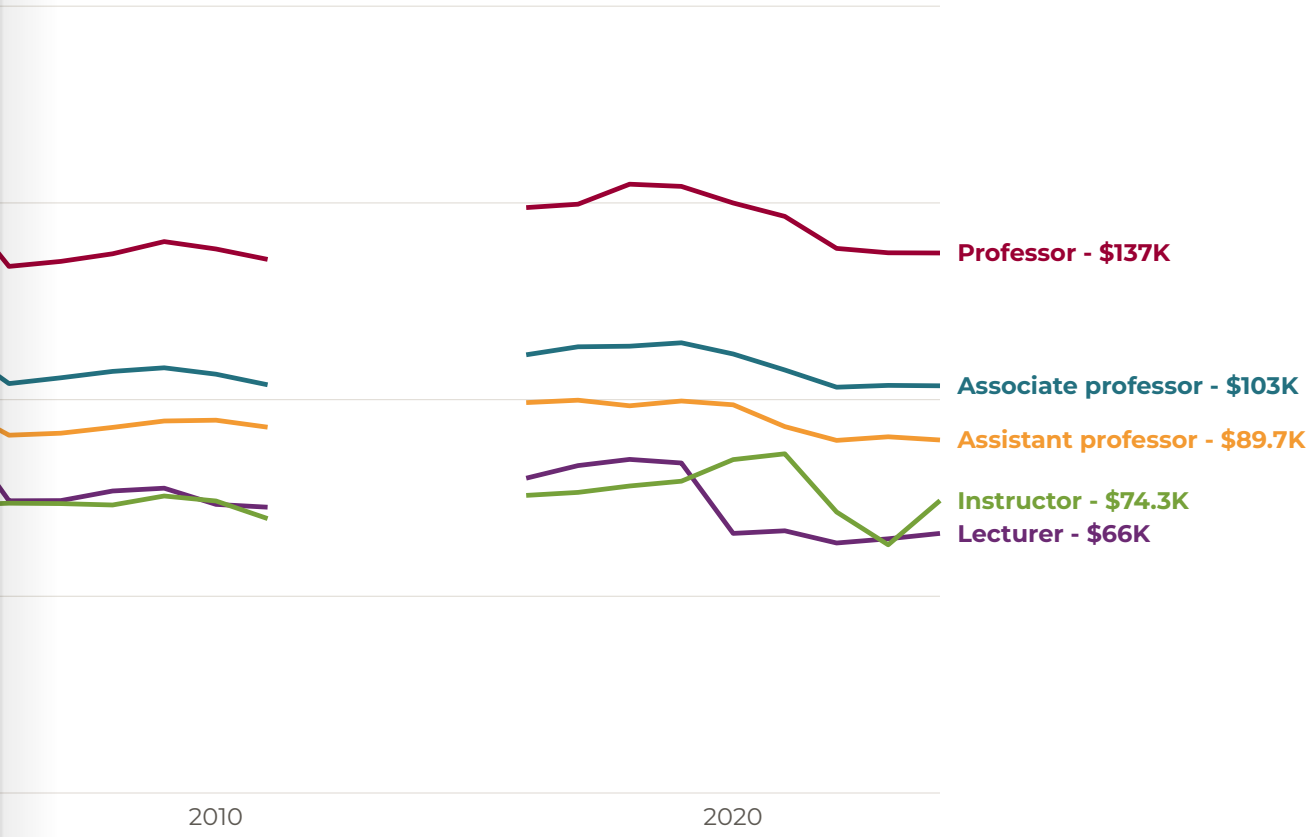

## Figure 40 What Do Washington's Faculty Earn, by Rank?

Average salary of full-time instructional faculty on 9/10-month contracts, by academic rank, 2024 dollars (CPI-U). Data fro

Full-time instructional faculty on 9/10-month contracts at Washington's institutions earned an average of $102K in 2024 (2024 dollars), 3% below the U.S. ($106K); the state ranks 17th of 51. By rank (2024): professors $137K, associate professors $103K, assistant professors $89.7K, instructors $74.3K, lecturers $66K.

Washington's institutions had 15.3K full-time instructional staff in 2024, up 13% since 2015. Average salary across all ranks is roughly flat since 2016.

m NCES, IPEDS Human Resources.

# $102K

U.S. **$106K** · **17th** of 51 · −1.2% since 2016

SECTION 15 · FACULTY

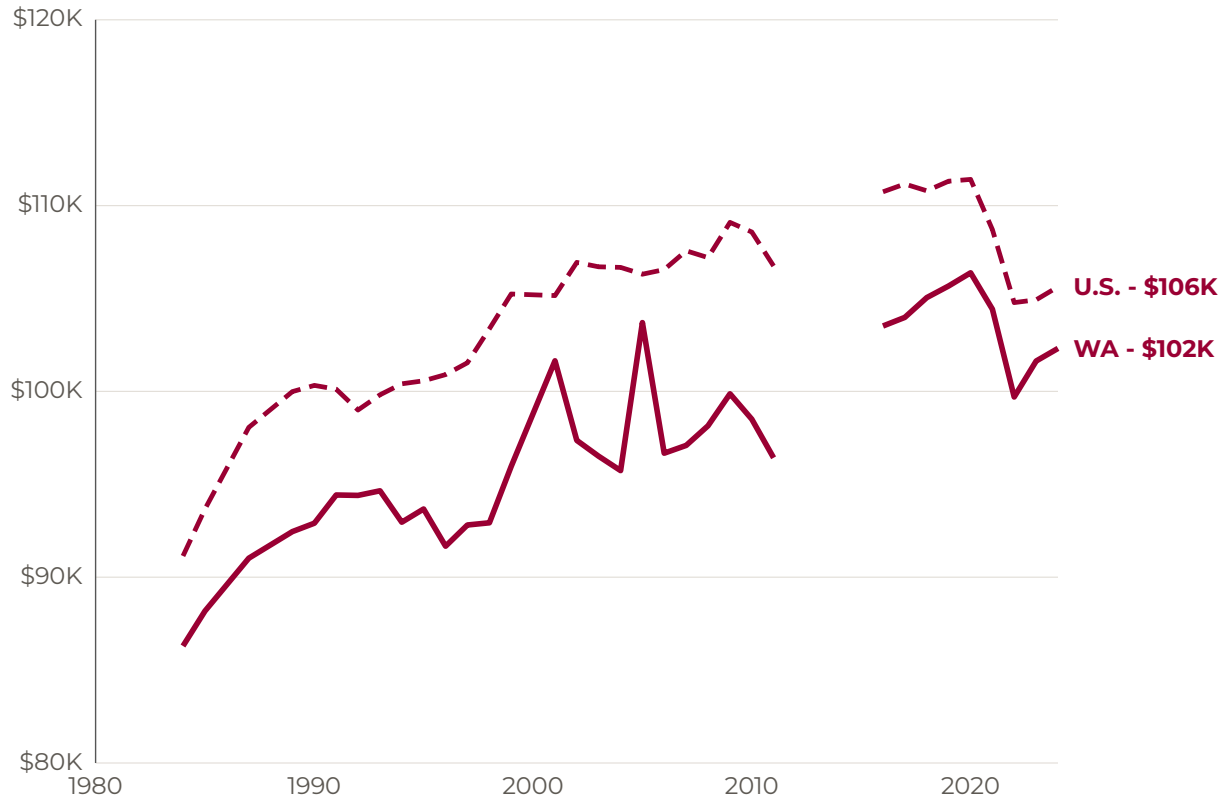

# What Do Washington's Faculty Earn, and How Many Hold Tenure?

The line follows the average salary of full-time instructional faculty on 9- or 10-month contracts at Washington's degree-granting institutions, all ranks combined, in 2024 dollars (CPI-U). The state is solid and the United States dashed.

**Average salary.** The figure was $102K in 2024, against $106K for the U.S., 17th among the states, up 0.7% from $102K in 2023 and down 1.2% since 2016, when it was $104K.

**Full-time instructional staff.** The number was 15.3K in 2024, up 0.9% from 15.1K in 2023 and up 13% since 2015, when it was 13.5K.

## Figure 41 Average Faculty Salary

Full-time instructional faculty, 9/10-month, 2024 dollars. Data from NCES, IPEDS.

**$102K**
Average faculty salary, 2024
U.S. **$106K** · **17th** of 51

Full-time instructional staff, 2024

**50%**
Tenured, 2024

The bars divide Washington's full-time instructional staff by tenure status in 2015, 2019 and 2024: tenured, on the tenure track, not on the tenure track (for example, lecturers on fixed-term contracts), and staff at institutions with no tenure system.

**Tenured, share of full-time instructional staff.** The share was 50% in 2024, down 0.7 points from 51% in 2023 and down 2.3 points since 2015, when it was 52%.

## Figure 42 Tenure Status

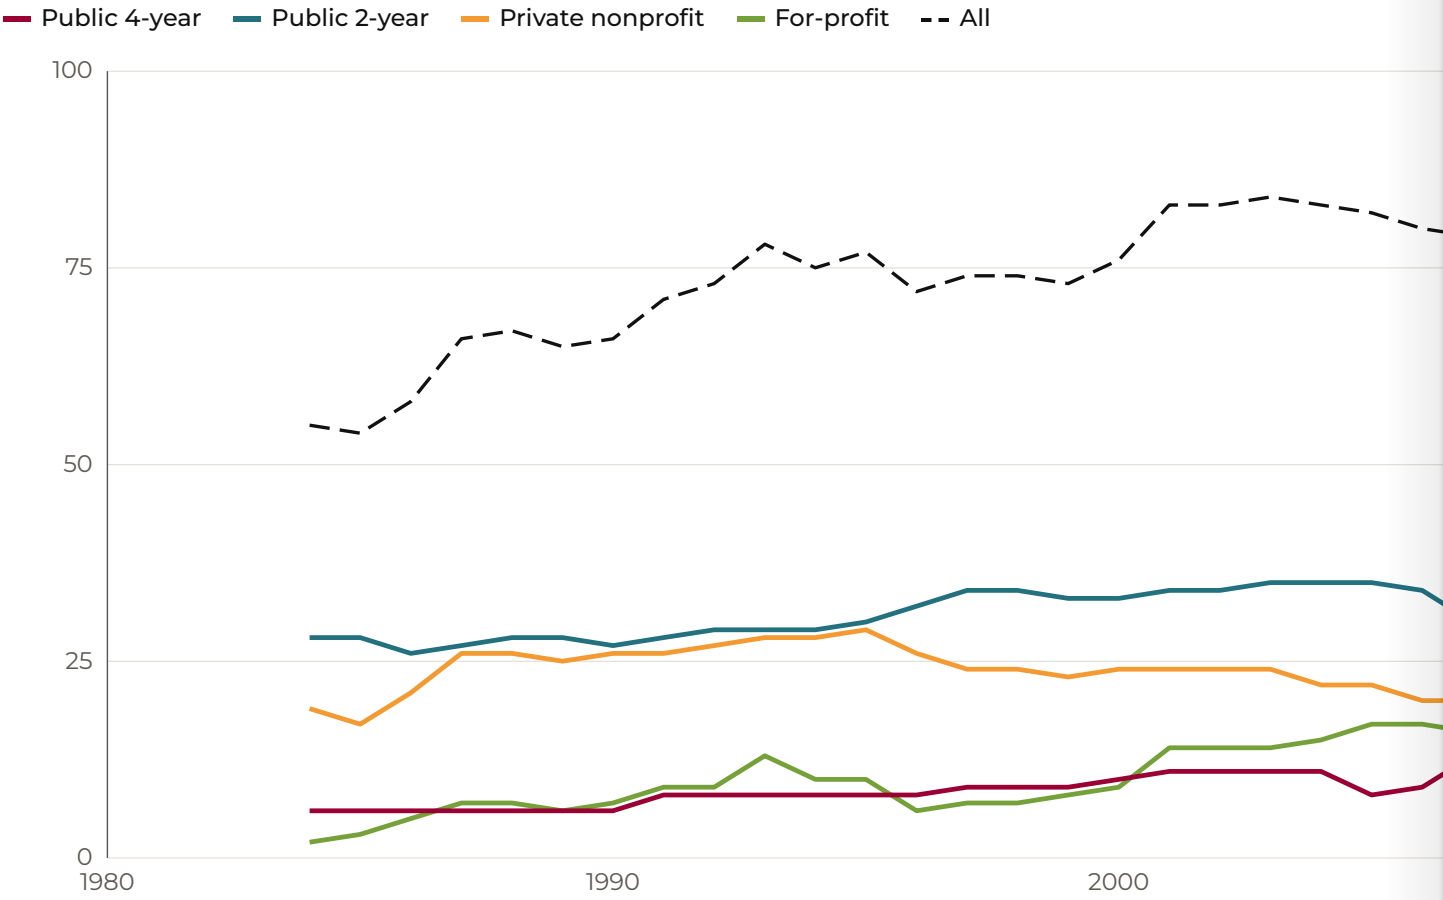

Full-time instructional staff by tenure status, 2015, 2019, 2024. Data from NCES, IPEDS.

SECTION 16

# Institutions

Washington ranks 9th of 51 on the share of enrollment at public institutions, at 88% in 2024 against 73% for the U.S.

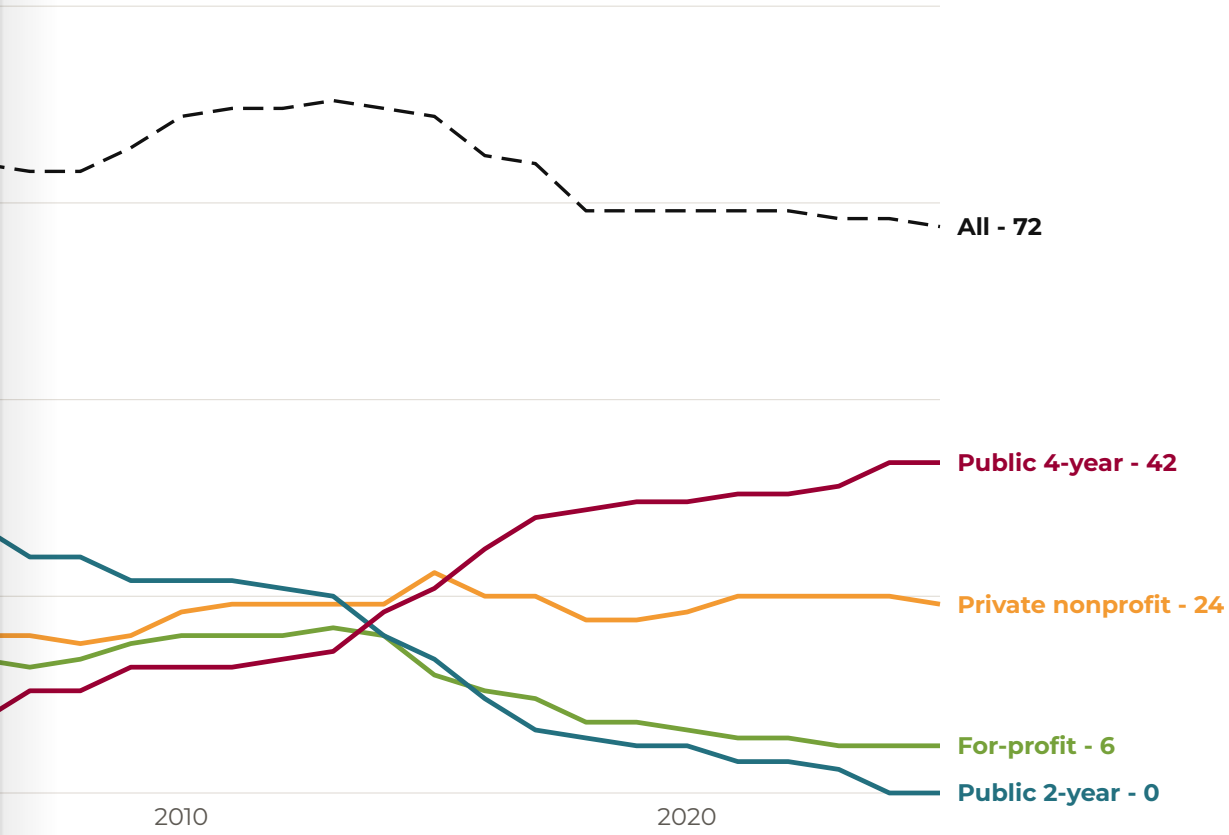

## Figure 43 How Many Institutions Does Washington Have?

Degree-granting institutions by sector. Data from NCES, IPEDS.

Washington has 72 degree-granting institutions:42 public 4-year, 0 public 2-year, 24 private nonprofit, 6 for-profit (2025).

The number of institutions is down 16% since 2015. 88% of students attend public institutions and 0.8% attend for-profit ones.

SECTION 16 · INSTITUTIONS

# Which Institutions Lead in Washington?

The table ranks institutions in Washington by the STEM master's degrees and research doctorates they awarded to international students in 2025, the two counted together. The share columns give international students' share of each institution's STEM degrees at that level.

**Largest.** University of Washington-Seattle Campus (896 international STEM master's degrees and 149 doctorates), Washington State University (78 international STEM master's degrees and 50 doctorates), and Seattle University (89 international STEM master's degrees and – doctorates) awarded the most.

**Table 7 Which Institutions Train the Most International STEM Graduates?**

| Institution | Intl STEM total | Intl STEM master's | Int. share | Intl STEM doctorates | Int. share |
|---|---|---|---|---|---|
| University of Washington-Seattle Campus<br>Seattle · Public 4-year | **1.04K** | 896 | 41% | 149 | 32% |
| Washington State University<br>Pullman · Public 4-year | **128** | 78 | 35% | 50 | 44% |
| Seattle University<br>Seattle · Private nonprofit | **89** | 89 | 64% | – | – |
| University of Washington-Tacoma Campus<br>Tacoma · Public 4-year | **60** | 58 | 35% | 2 | 100% |
| University of Washington-Bothell Campus<br>Bothell · Public 4-year | **56** | 56 | 56% | – | – |
| City University of Seattle<br>Seattle · Private nonprofit | **15** | 15 | 48% | – | – |

Fall 2024 enrollment; degrees 2025. Data from NCES, IPEDS.

NOTES

# About These Data

### International students

U.S. nonresidents on temporary visas, as IPEDS defines them. IPEDS does not record country of citizenship. Permanent residents count with U.S. citizens.

### STEM

CIP families 03, 04, 11, 14, 15, 26, 27 and 40. Doctorates are research and scholarship doctorates; professional doctorates appear only in the degree-count figure. Degrees are first majors only.

### Universe

Degree-granting institutions located in the state; Title IV participants from 1996. Geography is the institution's location, not the student's home. Enrollment is fall headcount.

### Migration

First-time degree-seeking undergraduates by home state, reported in even years before 2001 and every year since; odd years with incomplete reporting are omitted. Net migration is students arriving from other states minus residents leaving, per 100 resident first-time students.

### Money

Tuition, appropriations, revenue and faculty salaries are in 2024 dollars using the CPI-U. Research funding (HERD, Federal Funds, USAspending), wages and the NAFSA economic contribution are nominal dollars, and are labeled so. Appropriations and revenue are per full-time-equivalent student at public institutions; the tuition share divides net tuition by net tuition plus state and local appropriations.

### Race and ethnicity

IPEDS did not collect race and ethnicity in every year before 2010, and categories changed in 2008–2010; “Two or more” exists only from then.

### Countries of citizenship

From DHS SEVIS by the Numbers: active F-1 and M-1 student records in the month named, at every level from primary school to doctorate, by the state of the school. IPEDS records only whether a student is a U.S. nonresident, not where they come from. SEVIS counts are monthly snapshots and are not directly comparable with IPEDS fall enrollment or degree counts. Year-to-year comparisons use one fall snapshot per year (the month closest to November).

### Peers

Comparison states are the four closest in total fall enrollment, measured proportionally: a state 1.5 times as large counts as near as one two-thirds the size.

### Sources

IPEDS (National Center for Education Statistics) is the backbone: Institutional Characteristics, Fall Enrollment, Completions, Graduation Rates, Finance, Human Resources and Admissions, 1980–2025, harmonized into a state panel. The profile also draws on NAEP, NSF's Survey of Graduate Students and Postdoctorates, Survey of Earned Doctorates, HERD and Federal Funds surveys, USAspending.gov, DHS SEVIS by the Numbers and ICE SEVIS releases, the Department of Labor's Office of Foreign Labor Certification and BLS wage data, the USCIS H-1B Employer Data Hub, the Census Bureau's American Community Survey and Post-Secondary Employment Outcomes, USPTO PatentsView, and other federal sources; every figure names its source, and the Sources page lists them in full. Generated November 2026.

NOTES

# How the Numbers Are Counted

### Ranks

Ranks are among the 50 states and the District of Columbia (1 = highest value, whether or not a high value is good). Where fewer than 51 report, the count is given ("23rd of 33").

### Sectors

Sectors are as IPEDS classifies institutions each year. IPEDS moves a whole institution to "public, 4-year or above" once it awards any bachelor's degree, so community colleges that began offering applied bachelor's degrees carry all of their students into the public 4-year sector. In Washington, 16 institutions counted as public 2-year in 2015 are counted as public 4-year in 2024; they enrolled 70.1K students (21% of the state's total, 24% of its public 4-year enrollment). Sector series (enrollment shares, public 4-year tuition, graduation rates by sector) reflect these moves.

### Research doctorates

Two counts appear. IPEDS counts degrees institutions report as "doctor's degree, research/scholarship", which includes some practice-oriented degrees such as many Ed.D.s; the NSF Survey of Earned Doctorates counts research doctorate recipients and is smaller. Each figure names which it uses. "STEM master's per STEM research doctorate" divides IPEDS STEM master's degrees by IPEDS STEM research doctorates.

### Engineering

"Engineering" alone is CIP 14. Where engineering technology (CIP 15) is added, the label says "engineering & eng. technology".

### Graduation rates

IPEDS graduation rates follow first-time, full-time students and count only those who finish at the institution where they started, so they leave out part-time starters and students who transfer and finish elsewhere.

### International students in SEVIS

SEVIS counts active F-1 and M-1 records, which include graduates on Optional Practical Training (up to 36 months for STEM graduates, 12 for others), so STEM shares run high. STEM follows the DHS STEM Designated Degree Program List, which is broader than the eight CIP families above, and DHS draws its STEM pages on a different basis from its all-student pages, so a country's STEM count can exceed its all-level count.

### Visas and green cards

DOL labor condition applications (H-1B positions) are counted by worksite and include renewals and job changes; USCIS approvals are counted by the employer's address and split into new and continuing. PERM certifications are the employer's step toward a green card.

### Patents

Patents are counted by the owner's (assignee's) location, not where inventors live; a company headquartered in another state takes its patents there.

### Years

Each measure uses its latest year, so years differ across a page; every figure, table and statement gives its year, and lines that stop early are labeled with their last year.

# Washington – By the Numbers
