# Authors

**Emerson Victoria Johnston** is a research assistant with the Hoover Institution's Technology Policy Accelerator. A Knight-Hennessy Scholar, she holds a master's in international policy from Stanford University, and is on leave from its master's program in the history of science, technology, environment, and medicine.

**Dr. Amy Zegart** is the Morris Arnold and Nona Jean Cox Senior Fellow at the Hoover Institution, director of Hoover's Technology Policy Accelerator, and a senior fellow and associate director at Stanford University's Institute for Human-Centered Artificial Intelligence.

Data come from the Integrated Postsecondary Education Data System (IPEDS), the Department of Homeland Security's SEVIS by the Numbers, the National Assessment of Educational Progress, NSF's Survey of Graduate Students and Postdoctorates and Survey of Earned Doctorates, the Department of Labor's Office of Foreign Labor Certification, the USCIS H-1B Employer Data Hub, the Census Bureau's American Community Survey and USPTO patent data via PatentsView, processed in Python; every figure and table is generated from those sources, and each one names its source.

# About This Profile

This profile is a companion to *The 2026 US Talent Report: Benchmarking America's STEM Pipeline Amid the Great Talent Competition*. It applies the report's measures to Alaska: the students the state develops at home, those it draws from abroad, and how both compare with the nation and with the states closest to it in size.

Degrees, enrollment, prices, outcomes and faculty come from IPEDS, the federal census of U.S. colleges and universities, harmonized across 1980–2025. Countries of citizenship come from SEVIS by the Numbers, the Department of Homeland Security's monthly count of active F-1 and M-1 students. Each figure names its source. Peer states are the four closest in total fall enrollment.

AT A GLANCE

# What Alaska's numbers say

1. **International students earn 16% of Alaska's STEM master's degrees,** 36.5 points below the U.S. (52%) in 2025, ranking 47th of 51 on dependence. The share is 9.1% for STEM research doctorates (U.S. 43%) and 2.6% for STEM bachelor's (U.S. 6.6%).
2. **Alaska awarded 10 STEM master's degrees to international students in 2025,** 0.0% of the U.S. total and 51st of 51 among states. Since 2015 the count changed −44%, against 2.2× nationally.
3. **Among states of similar size,** Alaska ranks 4th of 5 on the international share of STEM master's: Alaska 16%, Wyoming 37%, Vermont 9.6%, Montana 18%, North Dakota 36%.
4. **77% of Alaska's first-time students in fall 2024 were state residents** and 1.1% came from abroad. More residents left for other states (1.8K) than students arrived from them (668), a net loss of 1.13K; the top destination for those leaving was Arizona.

**16%**

of the STEM master's degrees Alaska awards go to international students (U.S. 52%).

# International Dependence

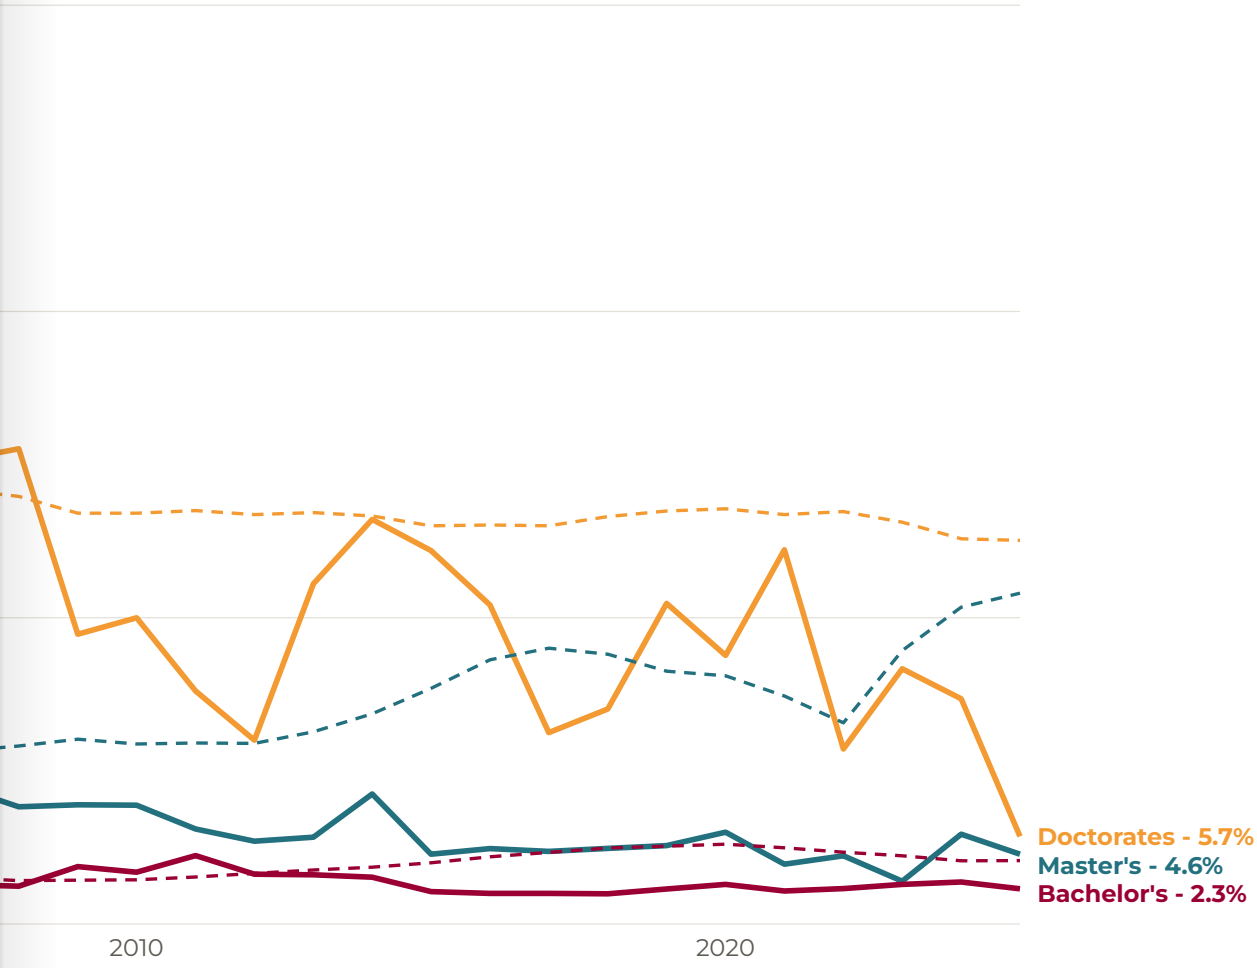

## Figure 1 What Share of Alaska's Degrees Go to International Students?

International share of degrees awarded, all fields; state solid, U.S. dashed. Data from NCES, IPEDS Completions, 1985–2025

International students make up 6.0% of Alaska's graduate enrollment and 1.2% of its undergraduates. Dependence climbs with each degree: 2.3% of bachelor's, 4.6% of master's and 5.7% of research doctorates go to international students.

In STEM the shares are higher still: 2.6% of STEM bachelor's, 16% of STEM master's and 9.1% of STEM doctorates. The state awards 0.0% of all U.S. international STEM master's, 51st of 51.

# How Does Alaska's Mix of Countries Compare With the Nation's?

In October 2026, Alaska had **300** active F-1 and M-1 students, 51st of 51 states and **0.0%** of the U.S. total. They came from 56 countries.

Canada supplied **18%** of them, against 3.3% nationally, and India **8.7%**, against 27%. Ghana (6.0%), South Korea (5.3%) and Nepal (5.0%) followed.

Together the two largest countries supplied **26%** of the state's international students (U.S. 45%), 41st among the states, against 27% in 2015.

## Figure 3 Is Alaska's Mix of Countries Like the Nation's?

INTERNATIONAL DEPENDENCE

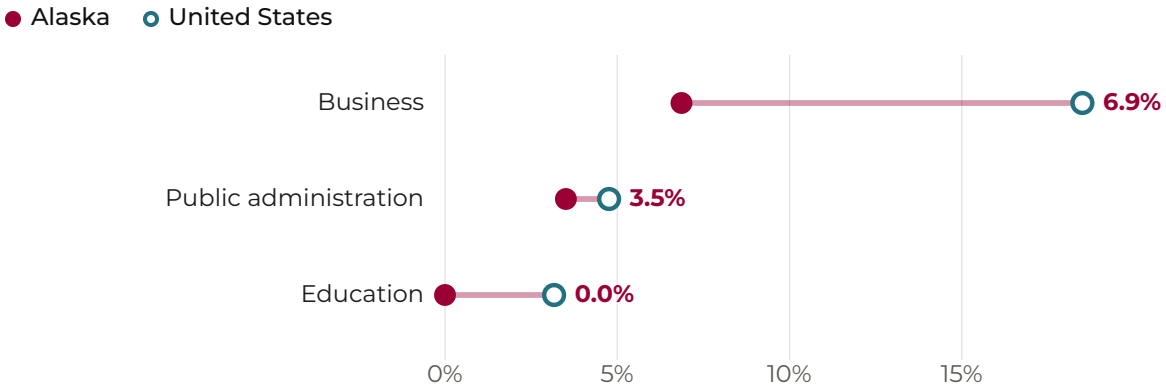

# How International Are Alaska's Master's Fields?

Each row is a master's field with at least 30 graduates in Alaska in 2025, ranked by the share of degrees earned by international students (U.S. nonresidents on temporary visas). The filled dot is the state's share; the open dot is the national share for the same field.

**Highest international shares.** Business 6.9% (U.S. 19%); public administration 3.5% (U.S. 4.8%); education 0.0% (U.S. 3.2%).

**All master's degrees.** 4.6% in 2025 (U.S. 22%; 48th of 51 states), down 1.3 points from 5.9% in 2024, and unchanged since 2015 (4.6%).

**Figure 5 Which Master's Fields Depend Most on International Students?**

International share of master's degrees by field, 2025; fields with 30+ graduates. Data from NCES, IPEDS Completions.

**4.6%**
Int. share of all master's, 2025
U.S. **22%** · **48th** of 51

**16%**
Int. share of STEM master's, 2025
U.S. **52%** · **47th** of 51

**18%**
Int. share of engineering & eng. technology master's, 2020
U.S. **48%** · **45th** of 51

The table gives the international share of degrees in each STEM field at three levels: Alaska first, the United States after the slash. The master's column is highlighted. A dash means the state awarded no degrees in the field at that level.

**International share of STEM bachelor's.** 2.6% in 2025 (U.S. 6.6%; 46th of 51 states), down 0.1 points from 2.7% in 2024, and up 0.6 points since 2015 (2.0%).

## Table 2 How International Is Each STEM Field?

| Field | Bachelor's | Master's | Doctorates |
|---|---|---|---|
| Computer & info sciences | 6.4% / 8.6% | **– / 65%** | – / 56% |
| Engineering | 3.8% / 7.2% | **– / 49%** | – / 55% |

# Graduate Research

## Figure 15 How Many of Alaska's Science and Engineering Graduate Students Hold Tem

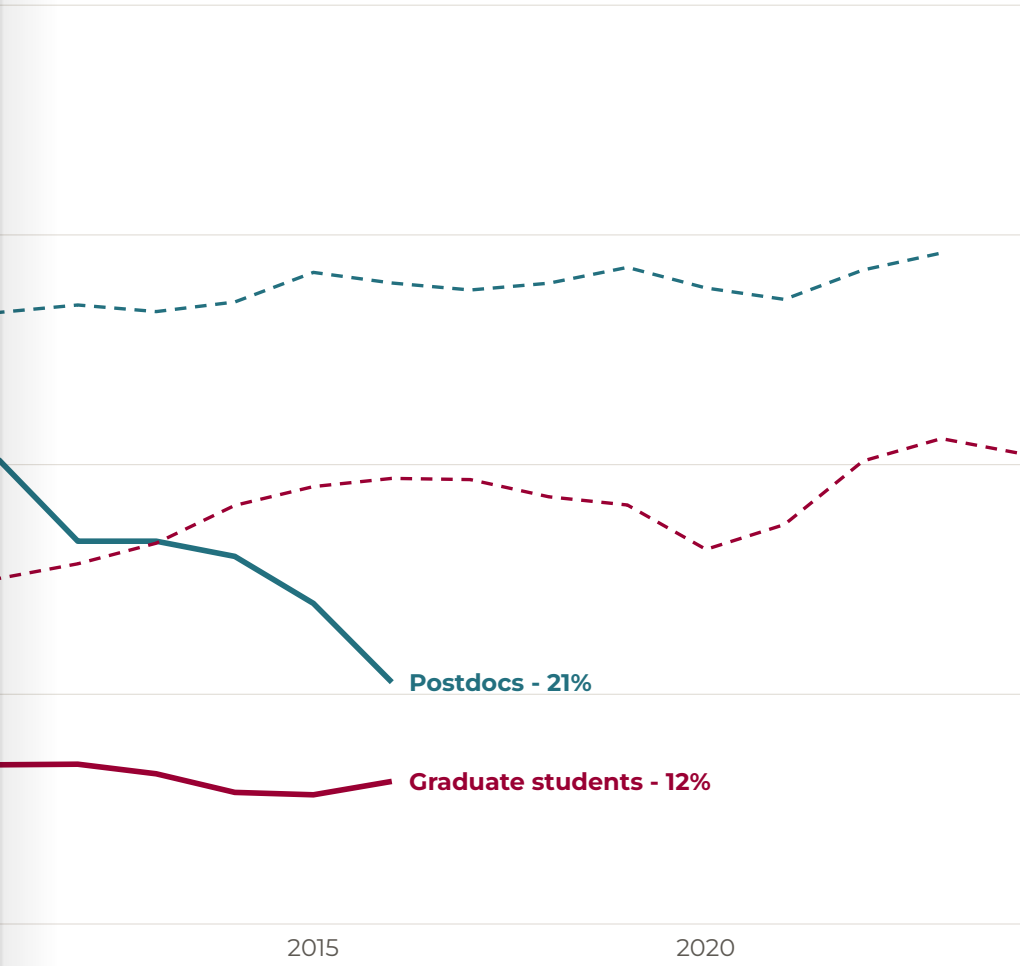

Temporary-visa share of science and engineering graduate students and postdoctoral appointees, by the institution's sta
Students and Postdoctorates.

In 2016, the last year NSF published state tables, 12% of Alaska's science and engineering graduate students held temporary visas (U.S. 39%; 50th of 51).

Among postdoctoral researchers, the share was 21% (U.S. 56%). Postdocs are the stage of research training most dependent on international talent, and IPEDS does not count them.

The state's institutions awarded 35 research doctorates in 2025, 0.1% of the U.S. total (Data from NSF NCSES, Survey of Earned Doctorates; NSF publishes doctorates by citizenship only for the nation).

SECTION 12

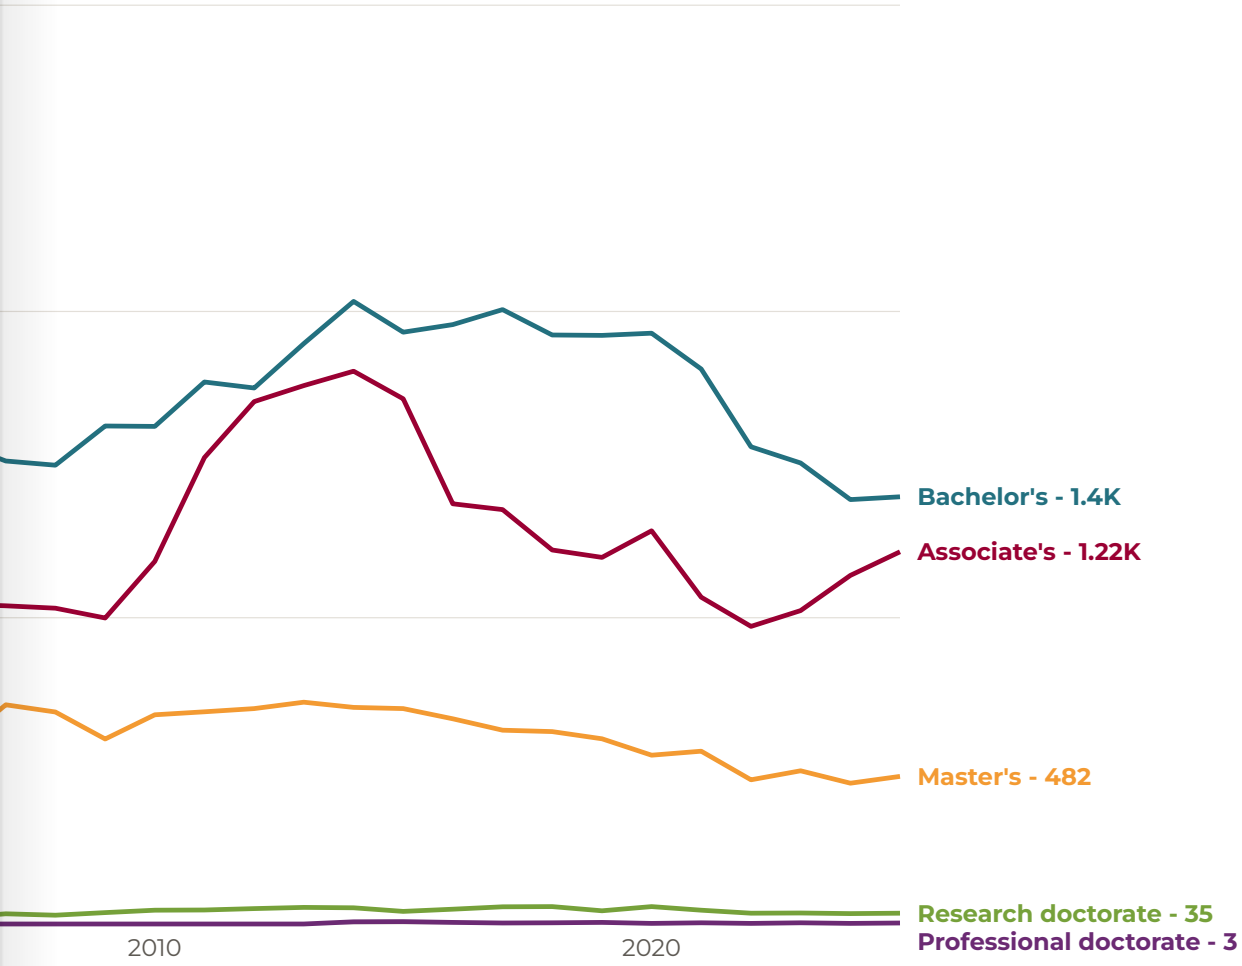

# Fields of Study

## Figure 27 How Many Degrees Does Alaska Award?

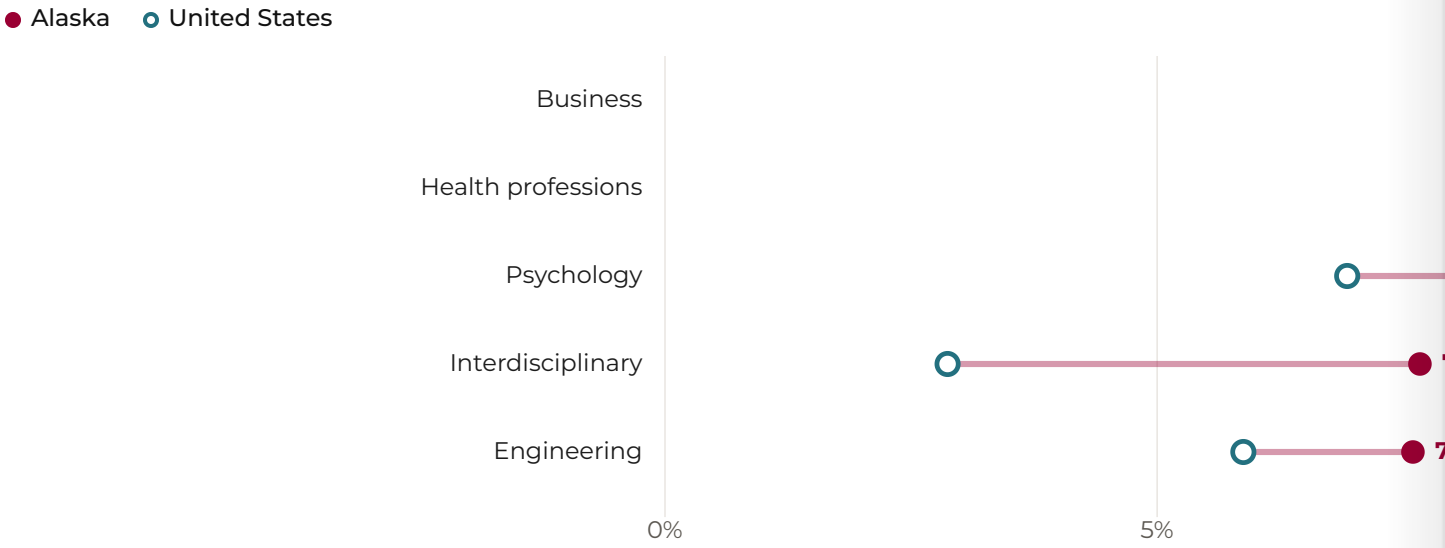

Degrees awarded by level, first majors. Data from NCES, IPEDS Completions.

In 2025, Alaska's institutions awarded 1.22K associate's degrees, 1.4K bachelor's degrees, 482 master's degrees, 35 research doctorate degrees, 3 professional doctorate degrees.

Since 2015: associate's down 29%; bachelor's down 28%; master's down 31%; research doctorate down 15%; professional doctorate down 63%. The state awards 6.7 bachelor's degrees for every 100 undergraduates (U.S. 12.3).

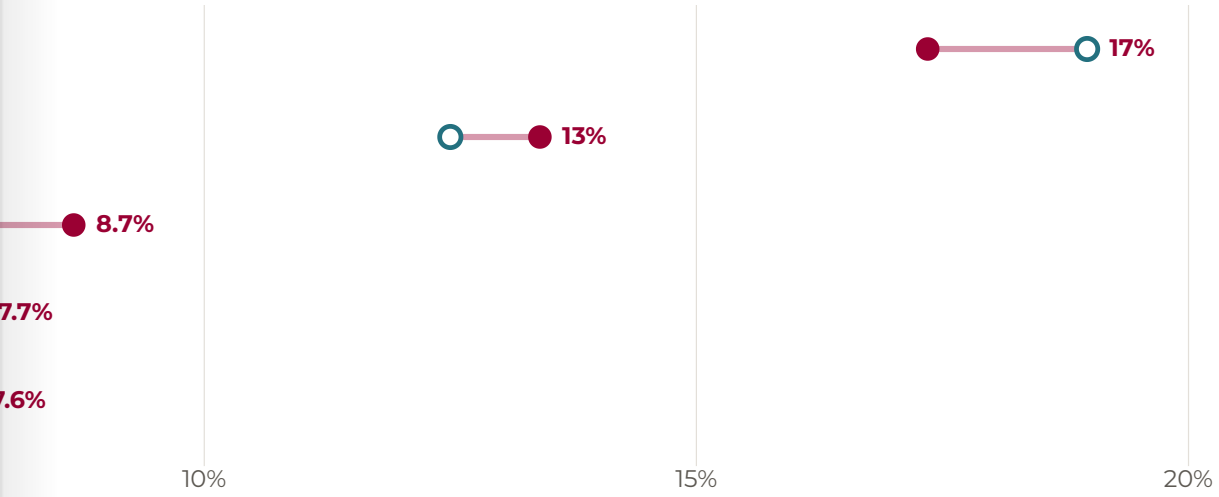

## Figure 28 What Do Alaska's Bachelor's Graduates Study?

Share of bachelor's degrees by field, 2025. Data from NCES, IPEDS.

Alaska's largest bachelor's fields are business (17%; U.S. 19%), health professions (13%; U.S. 13%), psychology (8.7%; U.S. 6.9%).

Relative to the nation, Alaska's bachelor's degrees are most concentrated in interdisciplinary (2.67× the U.S. share), engineering (1.29× the U.S. share), psychology (1.25× the U.S. share).

## Figure 30 How Has Alaska's Bachelor's Field Mix Changed?

Share of bachelor's degrees in the largest fields. Data from NCES, IPEDS Completions.

Since 2015, health professions has gained the most ground, 3.9 points of the state's bachelor's degrees, while social sciences lost the most (2.7 points).

The chart follows the share of bachelor's degrees in each of the state's largest fields; smaller fields are grouped as other fields.

FIELDS OF STUDY

# Where Is Alaska Most Specialized?

The location quotient divides a field's share of Alaska's bachelor's degrees by its share of all U.S. bachelor's degrees in 2025. A quotient of 1.00 means the same share as the nation; 2.00 means twice the national share. The table lists the ten fields with the highest quotients among fields with at least 50 degrees.

**Highest location quotients.** Interdisciplinary 2.67 (7.7% of the state's bachelor's degrees; U.S. 2.9%); engineering 1.29 (7.6% of the state's bachelor's degrees; U.S. 5.9%); psychology 1.25 (8.7% of the state's bachelor's degrees; U.S. 6.9%).

**Table 5 Where Is Alaska Most Specialized?**

| Field | Location quotient | State share | U.S. share | Degrees |
|---|---|---|---|---|
| Interdisciplinary | **2.67** | 7.7% | 2.9% | 107 |
| Engineering | **1.29** | 7.6% | 5.9% | 106 |
| Psychology | **1.25** | 8.7% | 6.9% | 121 |
| Health professions | **1.07** | 13% | 13% | 187 |
| Business | **0.91** | 17% | 19% | 242 |

**6.7**
Bachelor's per 100 undergraduates, 2025
U.S. **12.3** · **51st** of 51

Each row is the six-year bachelor's graduation rate for one racial or ethnic group of students at Alaska's four-year institutions (filled dot), against the national rate for the same group (open dot). Groups with fewer than 100 students in the cohort are left out.

**White.** 35% in 2024 (U.S. 68%).

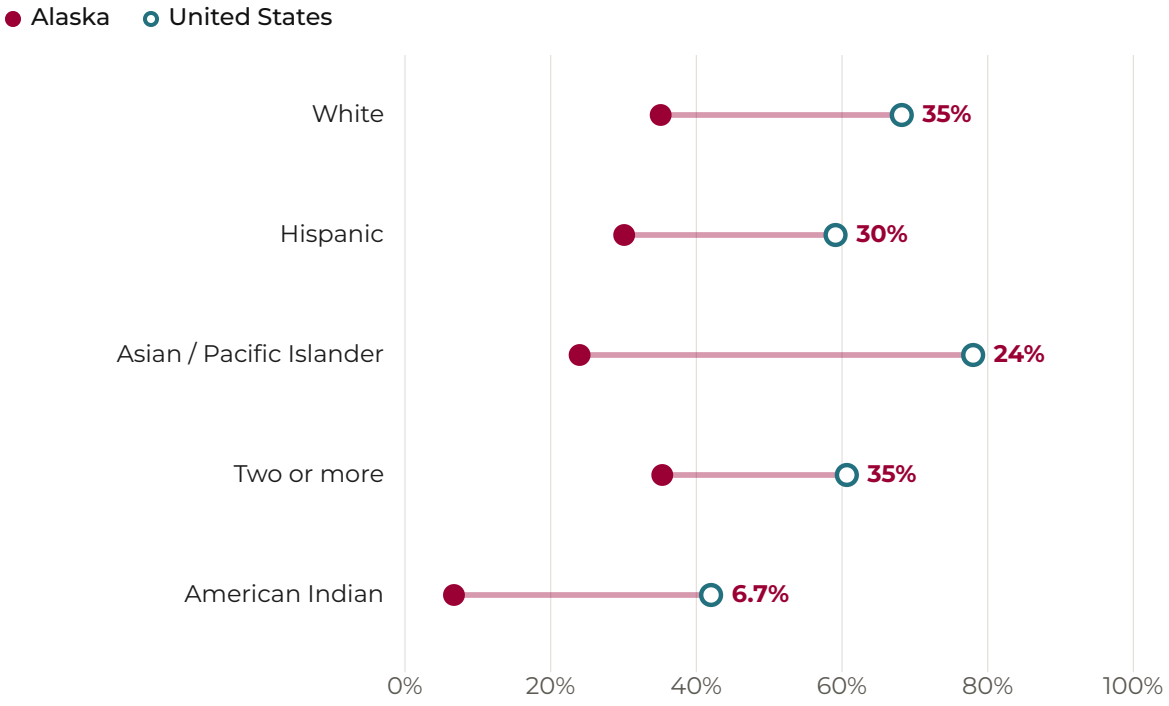

**Hispanic.** 30% in 2024 (U.S. 59%).

**Asian / Pacific Islander.** 24% in 2024 (U.S. 78%).

**Two or more.** 35% in 2024 (U.S. 61%).

**American Indian.** 6.7% in 2024 (U.S. 42%).

## Figure 38 How Do Graduation Rates Differ by Race and Ethnicity?

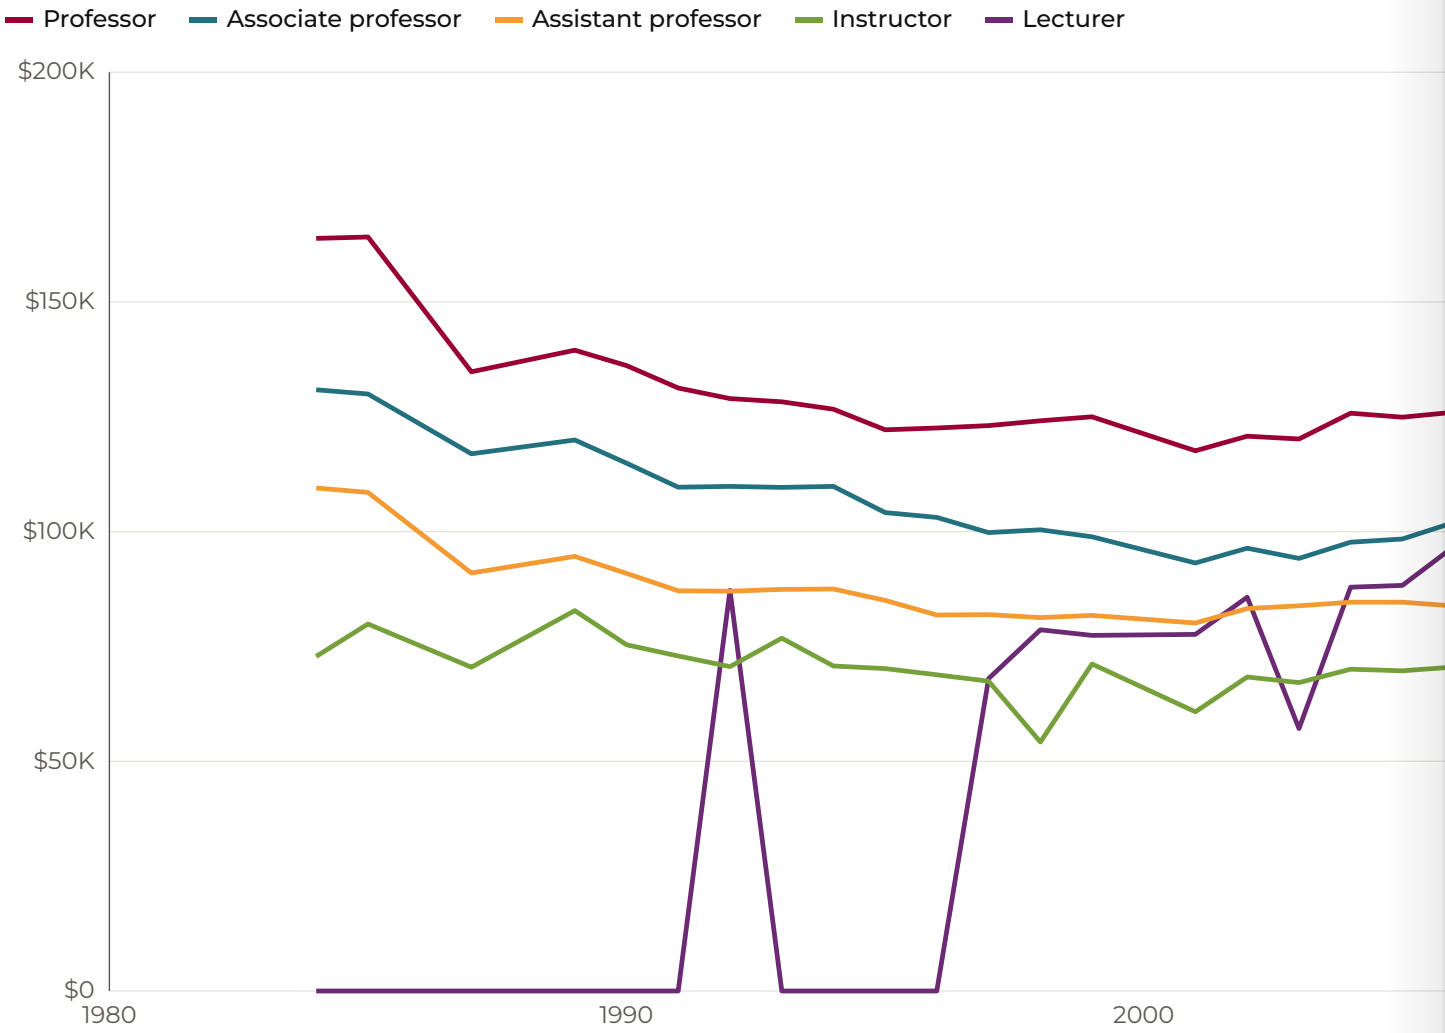

Six-year rate, 2024; groups with 100+ students. Data from NCES, IPEDS.

SECTION 15

# Faculty

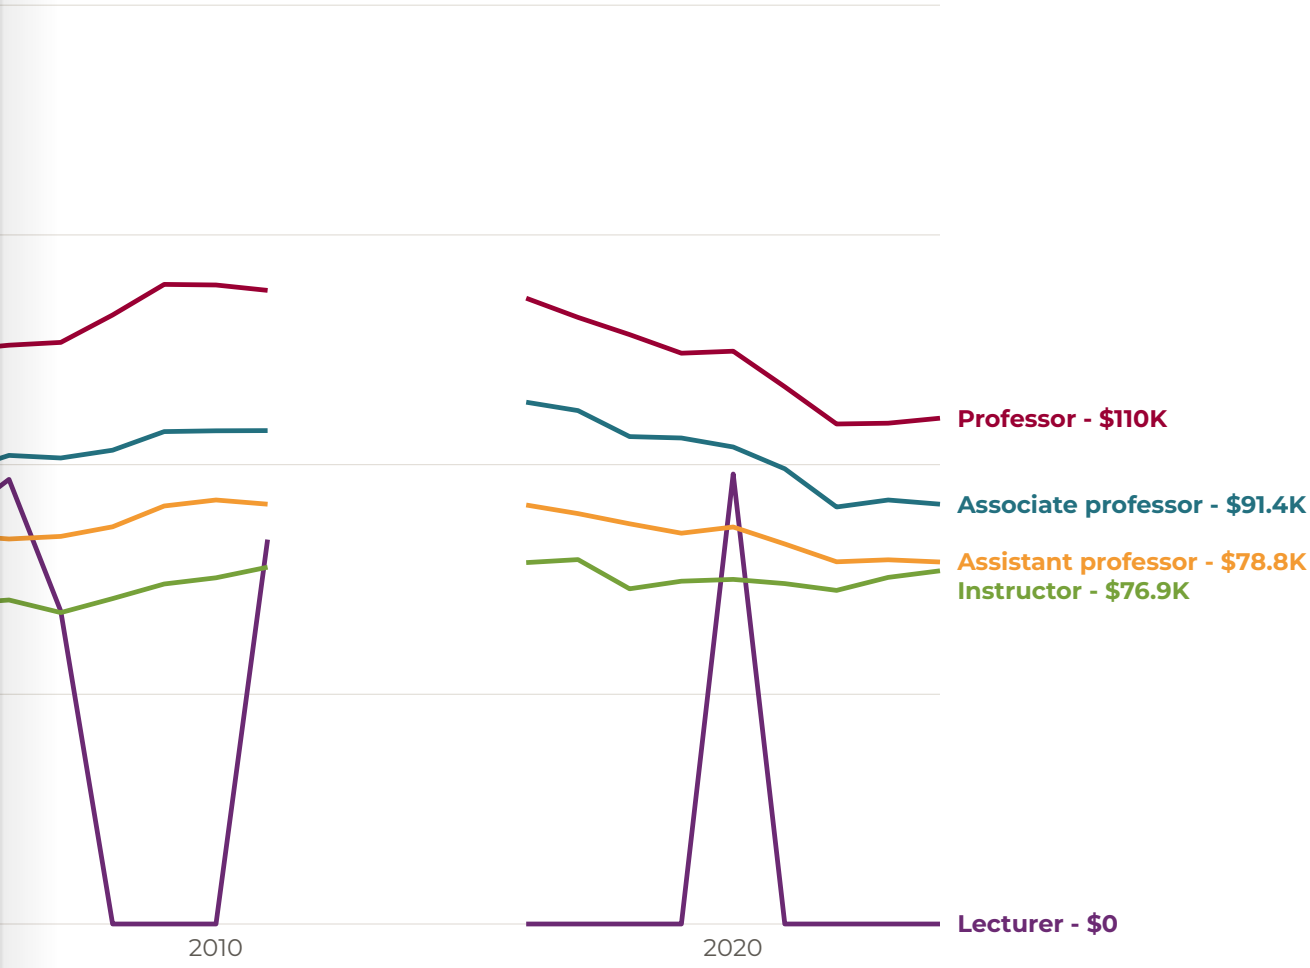

## Figure 39 What Do Alaska's Faculty Earn, by Rank?

Average salary of full-time instructional faculty on 9/10-month contracts, by academic rank, 2024 dollars (CPI-U). Data fro

Full-time instructional faculty on 9/10-month contracts at Alaska's institutions earned an average of $90K in 2024 (2024 dollars), 15% below the U.S. ($106K); the state ranks 34th of 51. By rank (2024): professors $110K, associate professors $91.4K, assistant professors $78.8K, instructors $76.9K.

Alaska's institutions had 969 full-time instructional staff in 2024, down 34% since 2015. Average salary across all ranks is down 16% since 2016.

FACULTY

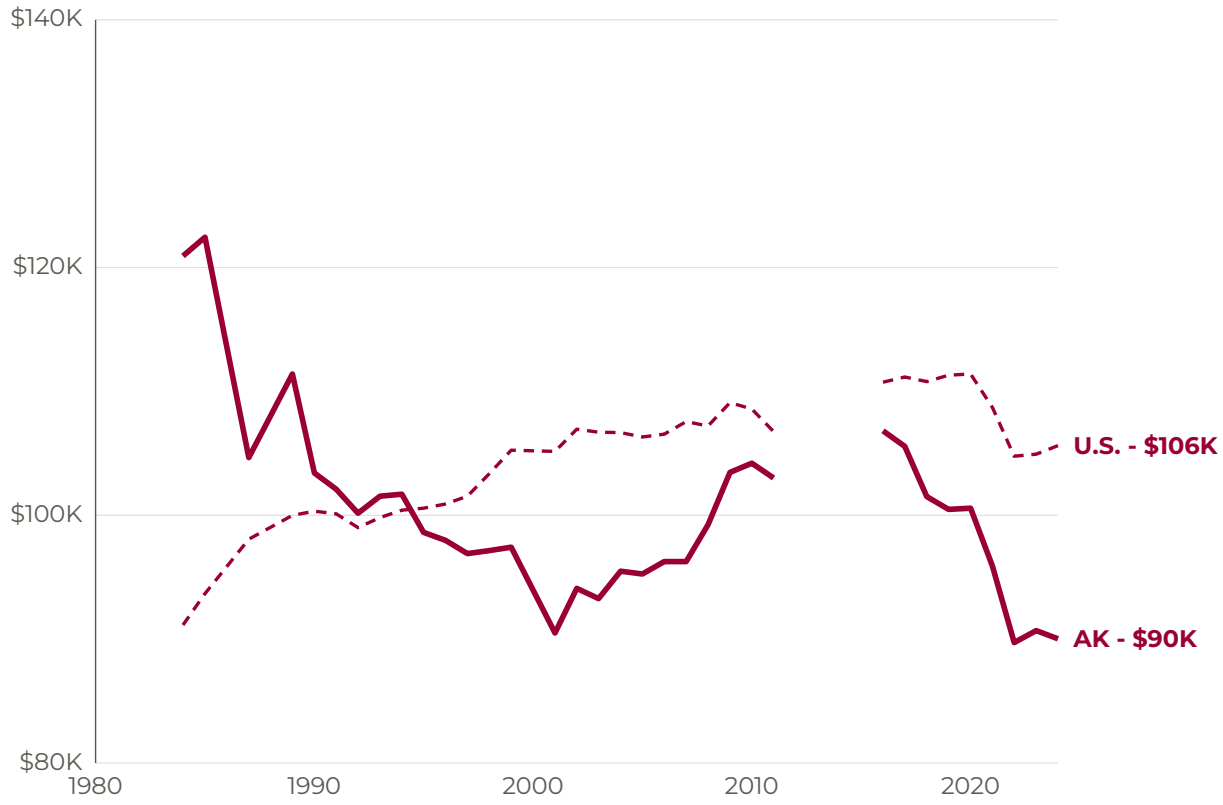

# What Do Alaska's Faculty Earn, and How Many Hold Tenure?

The line follows the average salary of full-time instructional faculty on 9- or 10-month contracts at Alaska's degree-granting institutions, all ranks combined, in 2024 dollars (CPI-U). The state is solid and the United States dashed.

**Average salary.** $90K in 2024 (U.S. $106K), down 0.7% from $90.7K in 2023, and down 16% since 2016 ($107K).

**State rank on average salary.** $90K in 2024 (U.S. $106K; 34th of 51 states), down 0.7% from $90.7K in 2023, and down 16% since 2016 ($107K).

Full-time instructional staff, 2024

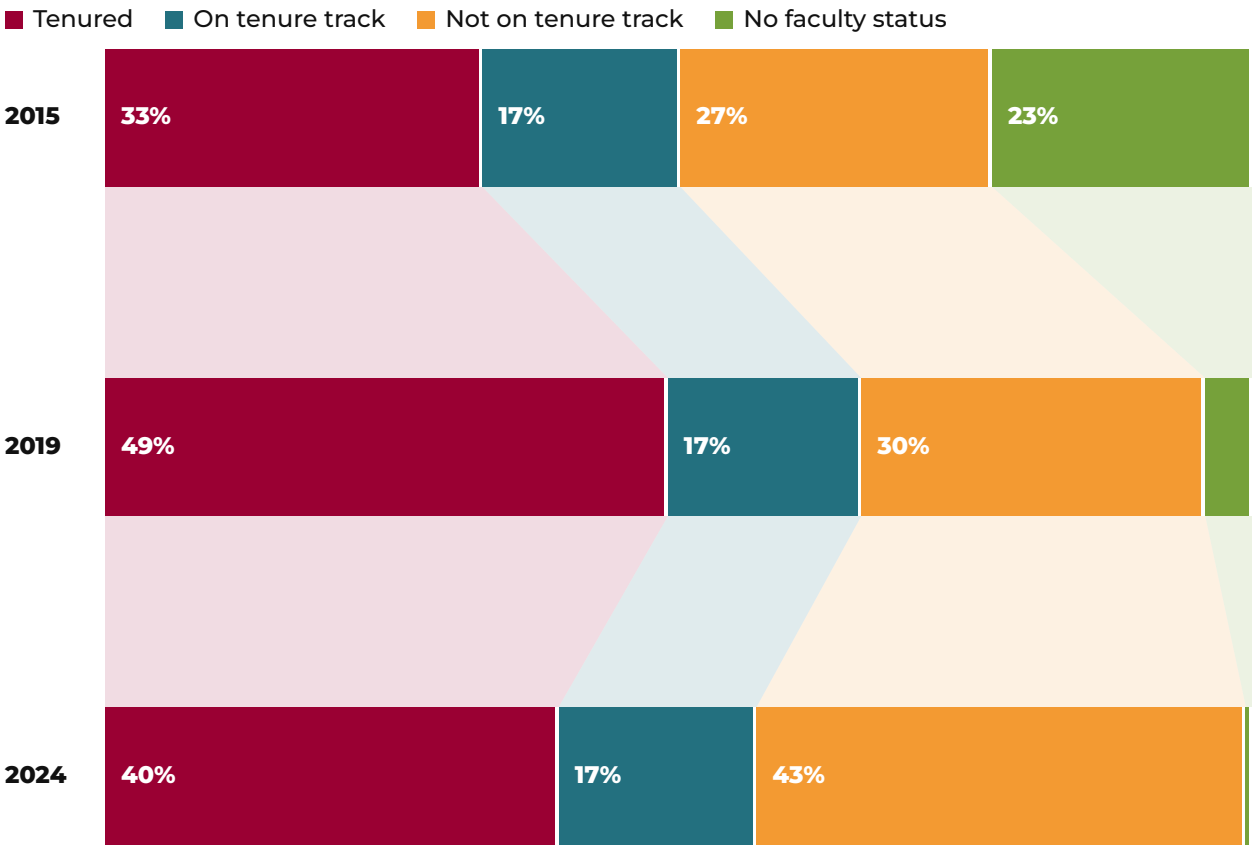

**40%**
Tenured, 2024

The bars divide Alaska's full-time instructional staff by tenure status in 2015, 2019 and 2024: tenured, on the tenure track, not on the tenure track (for example, lecturers on fixed-term contracts), and staff at institutions with no tenure system.

**Tenured, share of full-time instructional staff.** 40% in 2024, down 2.1 points from 42% in 2023, and up 6.6 points since 2015 (33%).

**On tenure track, share of full-time instructional staff.** 17% in 2024, down 1.0 point from 18% in 2023, and unchanged since 2015 (17%).

SECTION 16

# Institutions

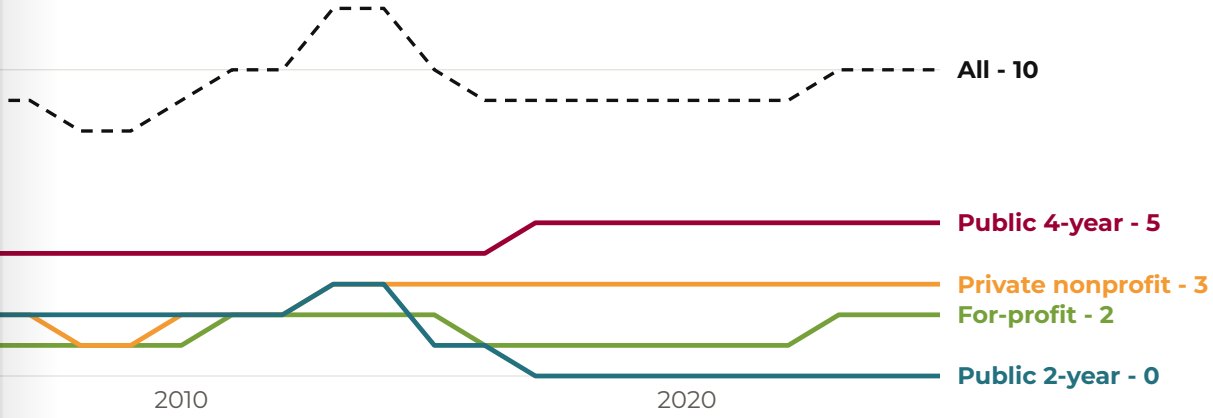

## Figure 42 How Many Institutions Does Alaska Have?

Degree-granting institutions by sector. Data from NCES, IPEDS.

Alaska has 9 degree-granting institutions: 5 public 4-year, 0 public 2-year, 3 private nonprofit, 2 for-profit (2025).

The number of institutions is roughly flat since 2015. 86% of students attend public institutions and 11% attend for-profit ones.

INSTITUTIONS

# Which Institutions Lead in Alaska?

Institutions in Alaska ranked by the STEM master's and research doctorates they awarded to international students in 2025. The share columns give international students' share of each institution's STEM degrees at that level.

**Largest.** University of Alaska Fairbanks (8 international STEM master's, 2 doctorates); University of Alaska Anchorage (2 international STEM master's, – doctorates).

**Table 8 Which Institutions Train the Most International STEM Graduates?**

Fall 2024 enrollment; degrees 2025. Data from NCES, IPEDS.

NOTES

# About These Data

**International students**

U.S. nonresidents on temporary visas, as IPEDS defines them. IPEDS does not record country of citizenship. Permanent residents count with U.S. citizens.

**STEM**

CIP families 03, 04, 11, 14, 15, 26, 27 and 40. Doctorates are research and scholarship doctorates; professional doctorates appear only in the degree-count figure. Degrees are first majors only.

**Universe**

Degree-granting institutions located in the state; Title IV participants from 1996. Geography is the institution's location, not the student's home. Enrollment is fall headcount.

**Migration**

First-time degree-seeking undergraduates by home state, reported in even years before 2001 and every year since; odd years with incomplete reporting are omitted. Net migration is students arriving from other states minus residents leaving, per 100 resident first-time students.

**Money**

All dollar values are in 2024 dollars using the CPI-U. Appropriations and revenue are per full-time-equivalent student at public institutions.

**Race and ethnicity**

IPEDS did not collect race and ethnicity in every year before 2010, and categories changed in 2008–2010; “Two or more” exists only from then.

**Countries of citizenship**

From DHS SEVIS by the Numbers: active F-1 and M-1 student records in the month named, at every level from primary school to doctorate, by the state of the school. IPEDS records only whether a student is a U.S. nonresident, not where they come from. SEVIS counts are monthly snapshots and are not directly comparable with IPEDS fall enrollment or degree counts.

**Peers**

Comparison states are the four closest in total fall enrollment.
