**Emerson Victoria Johnston** is a research assistant with the Hoover Institution's Technology Policy Accelerator. A Knight-Hennessy Scholar, she holds a master's in international policy from Stanford University, and is on leave from its master's program in the history of science, technology, environment, and medicine.

**Dr. Amy Zegart** is the Morris Arnold and Nona Jean Cox Senior Fellow at the Hoover Institution, director of Hoover's Technology Policy Accelerator, and a senior fellow and associate director at Stanford University's Institute for Human-Centered Artificial Intelligence.

Data come from the Integrated Postsecondary Education Data System (IPEDS), the Department of Homeland Security's SEVIS by the Numbers, the National Assessment of Educational Progress, NSF's Survey of Graduate Students and Postdoctorates and Survey of Earned Doctorates, the Department of Labor's Office of Foreign Labor Certification, the USCIS H-1B Employer Data Hub, the Census Bureau's American Community Survey and USPTO patent data via PatentsView, processed in Python; every figure and table is generated from those sources, and each one names its source.

# About This Profile

This profile is a companion to *The 2026 US Talent Report: Benchmarking America's STEM Pipeline Amid the Great Talent Competition*. It applies the report's measures to Mississippi: the students the state develops at home, those it draws from abroad, and how both compare with the nation and with the states closest to it in size.

Degrees, enrollment, prices, outcomes and faculty come from IPEDS, the federal census of U.S. colleges and universities, harmonized across 1980–2025. Countries of citizenship come from SEVIS by the Numbers, the Department of Homeland Security's monthly count of active F-1 and M-1 students. Each figure names its source. Peer states are the four closest in total fall enrollment.

AT A GLANCE

# What Mississippi's numbers say

1. **International students earn 48% of Mississippi's STEM master's degrees,** 3.9 points below the U.S. (52%) in 2025, ranking 21st of 51 on dependence. The share is 36% for STEM research doctorates (U.S. 43%) and 2.7% for STEM bachelor's (U.S. 6.6%).
2. **Mississippi awarded 502 STEM master's degrees to international students in 2025,** 0.4% of the U.S. total and 33rd of 51 among states. Since 2015 the count changed 2.2×, against 2.2× nationally.
3. **The heaviest dependence is in computer & info sciences,** where international students earned 87% of master's degrees (381 degrees; U.S. 65%). One STEM field with at least 50 master's graduates is majority-international.
4. **Among states of similar size,** Mississippi ranks 4th of 5 on the international share of STEM master's: Mississippi 48%, Arkansas 65%, Nebraska 25%, Connecticut 68%, Kansas 50%.
5. **70% of Mississippi's first-time students in fall 2024 were state residents** and 1.5% came from abroad. More students arrived from other states (8.52K) than residents left (3.14K), a net gain of 5.38K; the top destination for those leaving was Alabama.

**48%**

of the STEM master's degrees Mississippi awards go to international students (U.S. 52%).

## Figure 1 What Share of Mississippi's Degrees Go to International Students?

International share of degrees awarded, all fields; state solid, U.S. dashed. Data from NCES, IPEDS Completions, 1985–2025.

International students make up 12% of Mississippi's graduate enrollment and 1.4% of its undergraduates. Dependence climbs with each degree: 1.6% of bachelor's, 11% of master's and 14% of research doctorates go to international students.

In STEM the shares are higher still: 2.7% of STEM bachelor's, 48% of STEM master's and 36% of STEM doctorates. The state awards 0.4% of all U.S. international STEM master's, 33rd of 51.

Temporary-visa share of science and engineering graduate students and postdoctoral appointees, by the institution's state; state solid, U.S. dashed. NSF stopped publishing state tables after 2016. Data from NSF NCSES, Survey of Graduate Students and Postdoctorates.

In 2016, the last year NSF published state tables, 23% of Mississippi's science and engineering graduate students held temporary visas (U.S. 39%; 43rd of 51).

Among postdoctoral researchers, the share was 57% (U.S. 56%). Postdocs are the stage of research training most dependent on international talent, and IPEDS does not count them.

The state's institutions awarded 469 research doctorates in 2025, 0.8% of the U.S. total (Data from NSF NCSES, Survey of Earned Doctorates; NSF publishes doctorates by citizenship only for the nation).

Mississippi's institutions do not take part in the Census Post-Secondary Employment Outcomes program, so in-state employment of its graduates is not published.

Among international graduates on Optional Practical Training in 2016, 21% worked in the state where they studied (U.S. 44%). Through migration between states, the state lost 1.1 bachelor's-plus adults per 1,000 such residents in 2025 (Data from U.S. Census Bureau, American Community Survey).

Certified H-1B positions on labor condition applications by worksite and certified PERM green-card applications, by fiscal year (Data from DOL, Office of Foreign Labor Certification); new H-1B petition approvals by the employer's address (Data from USCIS, H-1B Employer Data Hub).

Employers were certified for 931 H-1B positions at Mississippi worksites in FY2025, 42nd of 51 among the states. A labor certification comes before the petition, so this overstates hires; USCIS approved 169 new H-1B petitions from employers in the state in FY2026.

DOL certified 163 PERM applications, the employer's step toward an employment-based green card, for jobs in the state in FY2025. In FY2024, 8.2% were for workers still on F-1 student visas (U.S. 8.7%): the most direct link from classroom to permanent residence.

# Fields of Study

## Figure 27 How Many Degrees Does Mississippi Award?

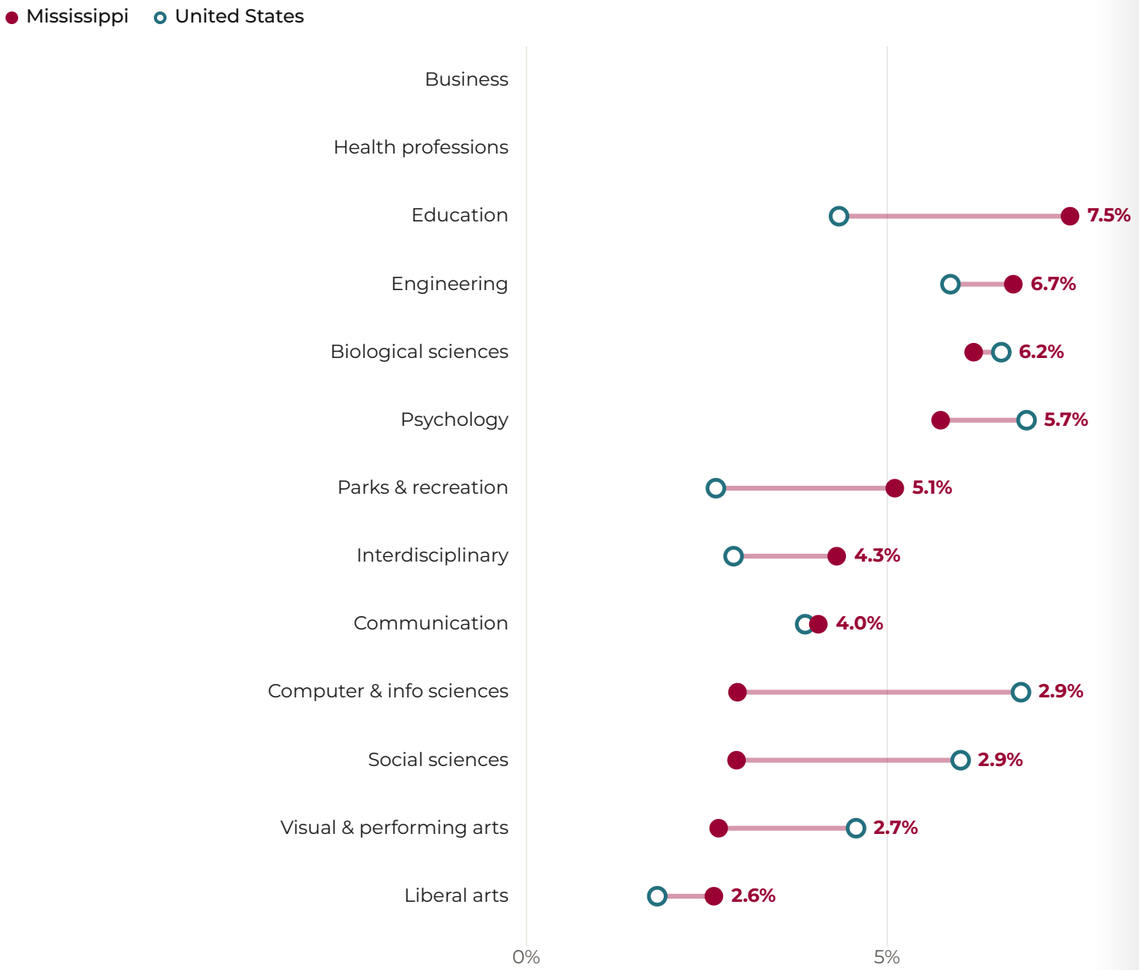

Degrees awarded by level, first majors. Data from NCES, IPEDS Completions.

In 2025, Mississippi's institutions awarded 12.9K associate's degrees, 15.3K bachelor's degrees, 5.98K master's degrees, 985 research doctorate degrees, 981 professional doctorate degrees.

Since 2015: associate's down 3%; bachelor's up 7%; master's up 18%; research doctorate up 72%; professional doctorate up 36%. The state awards 10.8 bachelor's degrees for every 100 undergraduates (U.S. 12.3).

The line follows the share of first-time, full-time bachelor's-degree students at Mississippi's four-year institutions who graduated from the institution where they started within six years (150% of normal time). Each year is the cohort that entered six years earlier. The state is solid and the United States dashed.

# Faculty

## Figure 40 What Do Mississippi's Faculty Earn, by Rank?

Average salary of full-time instructional faculty on 9/10-month contracts, by academic rank, 2024 dollars (CPI-U). Data from NCES, IPEDS Human Resources.

Full-time instructional faculty on 9/10-month contracts at Mississippi's institutions earned an average of $71.7K in 2024 (2024 dollars), 32% below the U.S. ($106K); the state ranks 50th of 51. By rank (2024): professors $106K, associate professors $84.3K, assistant professors $75.3K, instructors $55.7K, lecturers $48K.

Mississippi's institutions had 7.25K full-time instructional staff in 2024, down 4% since 2015. Average salary across all ranks is down 12% since 2016.

NOTES

# About These Data

**International students**

U.S. nonresidents on temporary visas, as IPEDS defines them. IPEDS does not record country of citizenship. Permanent residents count with U.S. citizens.

**STEM**

CIP families 03, 04, 11, 14, 15, 26, 27 and 40. Doctorates are research and scholarship doctorates; professional doctorates appear only in the degree-count figure. Degrees are first majors only.

**Universe**

Degree-granting institutions located in the state; Title IV participants from 1996. Geography is the institution's location, not the student's home. Enrollment is fall headcount.

**Migration**

First-time degree-seeking undergraduates by home state, reported in even years before 2001 and every year since; odd years with incomplete reporting are omitted. Net migration is students arriving from other states minus residents leaving, per 100 resident first-time students.

**Money**

All dollar values are in 2024 dollars using the CPI-U. Appropriations and revenue are per full-time-equivalent student at public institutions.

**Race and ethnicity**

IPEDS did not collect race and ethnicity in every year before 2010, and categories changed in 2008–2010; “Two or more” exists only from then.

**Countries of citizenship**

From DHS SEVIS by the Numbers: active F-1 and M-1 student records in the month named, at every level from primary school to doctorate, by the state of the school. IPEDS records only whether a student is a U.S. nonresident, not where they come from. SEVIS counts are monthly snapshots and are not directly comparable with IPEDS fall enrollment or degree counts.

**Peers**

Comparison states are the four closest in total fall enrollment.
